The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

Revision of Rule 504 of Regulation D, the "Seed Capital" Exemption

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rules.

SUMMARY: Rule 504 of Regulation D provides an exemption from Securities Act registration when non-reporting issuers make securities offerings that do not exceed an aggregate annual amount of $1 million. These offerings are not reviewed by the Commission. Instead, state securities regulation plays an important role in the oversight of these transactions. Securities sold under Rule 504 are generally freely tradable except by affiliates. Based on recent reports from the Commission's examination and enforcement programs, it appears that the freely tradable nature of these securities may have facilitated some later fraudulent secondary transactions in the over-the-counter markets for securities of "microcap" companies. In light of this use, Rule 504 may need to be strengthened. Therefore, we are publishing for comment proposed amendments to eliminate the freely tradable nature of securities issued under Rule 504.

DATES: Comments should be received on or before July 27, 1998.

ADDRESSES: Please send three copies of the comment letter to Jonathan G. Katz, Secretary, U.S. Securities and Exchange Commission, Mail Stop 6–9, 450 Fifth Street, N.W., Washington, D.C. 20549. Comments also may be submitted electronically to the following e-mail address: rule-comments@sec.gov. All comment letters should refer to File Number S7–14–98; this file number should be included on the subject line if e-mail is used. Anyone can inspect and copy the comment letters in our public reference room at 450 Fifth

Street, N.W., Washington, D.C. 20549. We will post comment letters submitted electronically on our Internet Web site (http://www.sec.gov).

FOR FURTHER INFORMATION CONTACT: Richard K. Wulff or Barbara C. Jacobs, Office of Small Business, Division of Corporation Finance, at (202) 942–2950.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

Over the years, Congress has passed significant legislation to aid small businesses in raising capital in the private and public securities markets. The Small Business Investment Incentive Act of 1980, for example, was designed to reduce the regulatory restraints on small business capital formation.[1] In response to that Act, the Commission adopted Regulation D[2] under the Securities Act of 1933 ("Securities Act")[3] in 1982.[4] Rule 504 of Regulation D is the limited offering exemption designed to aid small businesses raising "seed capital." Currently, it allows a non-reporting issuer[5] to offer and sell securities to an unlimited number of persons. The exemption is not conditioned on the sophistication or experience of the investors or on delivery of any specific information to them. General solicitation and general advertising are permitted for all Rule 504 offerings. However, the offering price for a Rule 504 offering, aggregated with certain other offerings, may not exceed $1 million within a 12-month period.[6] Securities sold under the exemption may be resold freely by non-affiliates of the issuer.[7]

Issuers using Regulation D must find exemptions or register in every state in which they offer the securities. The vast majority of states require registration of Rule 504 offerings.[8] In enacting Rule 504, the Commission tacitly deferred primary regulatory responsibility to state securities administrators because the size and local nature of these small offerings did not appear to warrant the imposition of extensive federal regulation.[9] These offerings continue, however, to be subject to federal antifraud and other civil liability provisions.

Despite the protective limitations built into the exemption by the Commission, it appears that securities issued under Rule 504 have been used to facilitate a number of fraudulent secondary transactions through the OTC Bulletin Board operated by the National Association of Securities Dealers, Inc. ("NASD") or the "pink sheets" published by the National Quotation Bureau, Inc.[10] These offerings have generally involved the securities of "microcap" companies, *i.e.*, those characterized by thin capitalization, low share prices, and little or no analyst coverage. While we believe that the scope of abuse is small in relation to the actual usage of the exemption,[11] we also believe that a regulatory response may be necessary.[12] Therefore, we are proposing to implement the same resale restrictions on securities issued in a Rule 504 transaction as apply to transactions under the other Regulation D exemptions.[13] In this way, we believe that unscrupulous stock promoters will be less likely to use Rule 504 as the source of the freely tradable securities they need to facilitate their fraudulent activities in the secondary markets.

While this change also will have some impact upon small businesses trying to raise "seed capital" in bona fide transactions, we believe that effect is justified in light of the circumstances. Without action to hinder the use of securities issued under Rule 504 for fraudulent purposes, small businesses could be unfairly impacted by the taint that might attach to Rule 504 offerings. Moreover, to minimize the impact, we would continue to allow public solicitation and unrestricted use of public advertising to aid small businesses in their search for investors.

II. Background of Rule 504

Before the 1992 amendments, Rule 504 provided a different exemptive scheme than the current rule does. Former Rule 504 exempted public offerings if sales did not exceed $1 million[14] in a 12-month period and if the offering was registered with one or more states that required the preparation and delivery of a disclosure document to investors before sale.[15]

---

[1] Pub. L. No. 96–477, 94 Stat. 2275. That Act amended the Securities Act by adding Section 4(6) [15 U.S.C. 77(d)(6)] which, among other matters, exempts from registration offers or sales of securities in the aggregate amount of $5 million or less if solely made to "accredited investors."

[2] 17 CFR 230.501 *et seq.* Regulation D provides three separate securities offering exemptions from Securities Act registration: Rules 504, 505 and 506. Rule 505 is a limited offering exemption for non-public offerings of up to $5 million. It is designed to help small businesses because it permits sales to a small number of nonaccredited, unsophisticated investors. It also was created to coordinate with the North American Securities Administrators Association, Inc. ("NASAA") Uniform Limited Offering Exemption ("ULOE"). Rule 506 is the Commission's safe harbor rule promulgated under the "non-public" offering exemption of Section 4(2) [15 U.S.C. 77d(2)]. It permits private sales only to accredited investors and a limited number of sophisticated investors.

[3] 15 U.S.C. 77a *et seq.*

[4] See Release No. 33–6389 (March 8, 1982) [47 FR 11251].

[5] A non-reporting issuer is an issuer that is not subject to the reporting requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934 [15 U.S.C. 78a *et seq.*]. Other issuers that are ineligible to use Rule 504 include investment companies and development stage companies that either have no specific business plan or purpose or have indicated that the business plan is to engage in a merger or acquisition with an unidentified company or companies, or other entity or person. See Rule 504(a) of Regulation D.

[6] Rule 504 offerings are aggregated for this purpose with all other offerings exempt pursuant to Section 3(b) (*e.g.*, Rule 504 or 505 offerings) and all offerings made in violation of Section 5(a) of the Securities Act [15 U.S.C. 77e(a)].

[7] See interpretive letter to Mr. E.H. Hawkins (June 26, 1997), setting forth the views of the Division of Corporation Finance that affiliates who receive securities in a Rule 504 offering are subject to resale restrictions.

[8] Rule 504 is not a part of ULOE. Connecticut, Delaware and Oklahoma have exemptions that directly coordinate with Rule 504. See J.W. Hicks, 7A *Exempted Transactions under the Securities Act of 1933*, Section 7.09[3](1997).

[9] As with all Regulation D offerings, a Form D is required to be filed with the Commission no later than 15 days after the first sale in the Rule 504 offering. See Rule 503 [17 CFR 230.503]. Filing a Form D is not, however, a condition to the exemption.

[10] See, e.g., Schroeder, "Penny Stock Fraud is Again on a Resurgence, Bolstered by Loopholes and New Technology," Wall St. J., September 4, 1997, at 12.

[11] The Commission's records indicate that approximately 1500 Forms D have been filed under Rule 504 in each of the past several years. NASD officials believe that between 300 to 500 applications for OTC Bulletin Board quotations were based upon the Rule 504 exemption in each of those years.

[12] These proposals are part of the our comprehensive agenda to deter registration and trading abuses, particularly by "microcap" issuers. The Commission has developed a four-pronged approach to minimize "microcap fraud": enforcement, investor education, compliance examinations, and regulation.

The Commission issued three releases on February 17, 1998 to address this abuse. See Securities Act Release No. 7505, adopting amendments to Regulation S [17 CFR 230.901 *et seq.*]; Securities Act Release No. 7506, proposing amendments to restrict the use of Form S–8 for sales to consultants and advisors; and Exchange Act Release No. 39670, proposing amendments to Exchange Act Rule 15c2–11 [17 CFR 240.15c2–11] to require all broker-dealers to obtain and review enhanced information about certain issuers when they first publish (or resume publishing) a quotation for a security.

[13] Securities issued in a Rule 504 transaction would be defined as "restricted securities" as the term is defined in Rule 144(a)(3) [17 CFR 230.144(a)(3)]. The Commission has not observed the same level of fraudulent secondary trading in securities issued pursuant to Rules 505 and 506, which are restricted. This observation suggests that restricting resale may deter abuse. The Commission requests data and analysis from commenters on whether these rules are being abused.

[14] As originally adopted in 1982, the exemption was subject to a $500,000 limitation. In 1988, the ceiling for public offerings was increased to $1 million. See Release No. 33–6758 (March 3, 1988) [53 FR 7866].

[15] Form U–7 (also referenced as ULOR, uniform limited offering registration, or SCOR, small corporate offering registration), which was developed by NASAA and the American Bar Association, is a special registration format for

Continued

VOL 63 ISS 102 MAY 28 1998 UMI

Private offerings, in which general solicitation and general advertising were prohibited, were exempted if sales did not exceed $500,000. State registration was not a condition to the exemption in the private context.

In July 1992, the Commission adopted revisions to its rules and forms to further facilitate capital raising by small businesses.[16] The amendments eliminated all restrictions on the manner of offering and on resales under Rule 504. As a result, a non-reporting company could offer up to $1 million of securities in a 12-month period and be subject only to the antifraud and other civil liability provisions of the federal securities laws. General solicitation and general advertising were permitted for all Rule 504 offerings. Further, securities sold under Rule 504 were not deemed "restricted securities" and thus were available for immediate resale by non-affiliates of the issuer, as long as the non-affiliates were not "underwriters"[17] of the offering.[18]

In revising the exemption in 1992, the Commission sought to balance the needs of investors and the needs of small business. In the years that have elapsed since Rule 504 was revised, the capital markets have experienced unprecedented growth.[19] The strong markets have given rise to more widespread trading of securities in non-reporting companies in interdealer quotation systems such as the OTC Bulletin Board. Moreover, since 1992, market innovations and technological changes—most notably, the Internet—have created the possibility of nationwide markets for these exempt securities that were once thought to be sold only locally. The combination of these factors, the lack of widely-distributed public information about companies making Rule 504 offerings and the freely tradable nature of Rule 504 securities may have exacerbated the opportunities for microcap fraud.

There have been a significant number of recent Commission examinations of broker/dealers and enforcement investigations with allegations of fraud involving microcap companies.[20] Some of these matters involve transactions where a company sold securities in reliance upon Rule 504 to certain persons who then manipulated the price of the securities to defraud unknowing investors. While the initial Rule 504 sales have not necessarily been fraudulent, the Commission is concerned that the current Rule's flexibility, which permits general solicitation of investors, contains no disclosure requirements, and allows free transferability of issued securities, is being abused by perpetrators of microcap fraud.

In some cases, those who prey on investors through fraudulent schemes make prearranged "sales" of securities under Rule 504 to nominees in states that do not have registration or prospectus delivery requirements. As a part of this arrangement, these securities are subsequently placed with broker-dealers who use cold-calling techniques to sell the securities at ever-escalating prices to unsuspecting investors. When their inventory of shares has been exhausted, these firms permit the artificial market demand they have created to collapse, causing investors to lose much, if not all, of their investment.[21]

While Rule 504 is not essential to such a microcap fraud, its limited compliance requirements provide an attractive device for stock manipulators to generate a large pool of securities for use in manipulation schemes. If the microcap market, or offerings under Rule 504, become stigmatized as unsavory, legitimate small businesses may become less able to raise money as investors lose confidence in the market and in the integrity of those making such offerings. To prevent that from happening, the Commission is reevaluating the Rule and the revisions to it adopted in 1992.

III. Proposed Revisions

In order to discourage abuse of those provisions of the Rule 504 exemption that unscrupulous stock promoters apparently find attractive and yet preserve the usefulness of the exemption for small business, the Commission proposes to impose resale restrictions on securities issued pursuant to the provision. Under the proposal, all securities issued under Rule 504 would constitute "restricted securities" as the term is used in Rule 144. Consequently, these securities could only be resold: (1) After the one-year holding period imposed by Rule 144, (2) through registration, or (3) through another exemption (such as Regulation A[22]), if available.

This approach would be consistent with the other Regulation D exemptions and other types of offerings not registered with us. While it typically prevents investors from reselling the securities in less than a year, it also discourages the use of the securities as a part of a fraud or manipulation during the same period. It encourages longer term investment and may provide the necessary time for the market to learn more about the small issuer, which are beneficial factors for the investor and the issuer as well.

The Commission requests comments on the effect of this proposal upon the abuses we have described in the microcap market. If commenters believe that the proposal will not have the desired prophylactic impact, they should explain the bases for their views and indicate their views of the problem, the appropriate manner of rectifying it and data supporting their views.

In developing our recommendations, we always try to determine whether the proposed regulatory actions will unduly burden legitimate small businesses. We keep in regular contact with small business representatives. Based upon our ongoing dialogue, we believe that today's proposals are sufficiently measured so that the most useful aspects of Rule 504 would be preserved. We have found that small business representatives share our concern about the harmful presence of those who would taint the microcap market and therefore raise the cost of raising capital for legitimate small businesses. We specifically seek the views of the small business community on the proposals.[23]

---

companies registering securities under state securities laws when relying upon Rule 504. *See* Harris, Keller, Stakias & Liles, Financing the "American Dream," 43 Business Lawyer 757 (1988). As of October 1997, Form U–7 has been either formally adopted or recognized and accepted by 40 states.

[16] See Release No. 33–6949 (July 30, 1992) [57 FR 36442]. On April 28, 1993, the Commission adopted additional revisions to facilitate still further financings by small business issuers. See Release No. 33–6996 (April 28, 1993) [58 FR 26509].

[17] Section 2(a)(11) of the Securities Act [15 U.S.C. 77b(a)(11)].

[18] Regulation D exemptions are available only to the issuer of the securities. None of these exemptions can be used by any other person. Preliminary Note 4 to Regulation D.

[19] In 1992, the Dow Jones Industrial Average, a price-weighted average of 30 actively-traded stocks listed on the New York Stock Exchange, was at 3000; it recently passed the 9000 mark. Other indicators similarly demonstrate the overall growth of the securities markets. For example, during the same period, the Russell 2000 small stock index, a measure of the stock performance of small company stocks, moved from 200 to a recent close of over 490.

[20] The National Association of Securities Dealers, Inc. (NASD) also has recently proposed a series of measures to address microcap fraud. See, e.g., OTC Bulletin Board Quotations Rule Amendments (NASD Notice to Members 98–14) (Rule 6530 and Rule 6540).

[21] This technique is sometimes colloquially referred to as "pump and dump."

[22] 17 CFR 230.251 *et seq.*

[23] The Commission hosts town hall meetings across the country from time to time for small business to discuss issues like the Commission's capital formation rules. These meetings are instructive about the current concerns and problems facing small businesses in raising capital

IV. Other Possible Approaches to Rule 504 Reform

The Commission seeks comments on whether it should adopt other amendments to Rule 504, in addition to or in lieu of those discussed in this release, to discourage its abuse while preserving its utility for small businesses.

The Commission is particularly interested in hearing from commenters about whether general solicitation and advertising should continue to be permitted in Rule 504 offerings, and whether the lack of restrictions in this area have been a source of abuse, particularly in finding investors or generating market interest in issuer securities. If general solicitation and general advertising is thought to be connected to abusive situations, commenters should recommend how these abuses might be deterred. For example, should the Commission reintroduce the requirement that general solicitation and general advertising of securities offered under Rule 504 be conditioned in some way? Under one model, public offerings under the Rule 504 exemption might be limited to where the issuer complies with state registration processes that require the preparation and delivery of a disclosure document to investors prior to sale of the securities. Should general solicitation and general advertising be contingent upon state registration and prospectus delivery to all investors before sale? Would adding these requirements further discourage fraudulent secondary market activity as well as fraudulent offerings under Rule 504? If so, would the cost to small businesses of restricting the solicitation methods permitted by Rule 504 be outweighed by the benefits from avoiding a taint to Rule 504? How should offerings made pursuant to certain state exemptions, such as the one recently developed for sales to "accredited investors," [24] be treated? Under this model (which was the rule before 1992), private offerings would continue to be permitted without compliance with this particular type of state registration procedure. Should all provisions of the previous version of the rule be reinstituted, *i.e.*, should publicly offered securities issued under the exemption be unrestricted?

The Commission also is particularly interested in hearing from commenters about the absence of specific disclosure requirements under Rule 504, as contrasted to offerings under Rules 505 and 506, which must satisfy the information requirements of Rule 502(b) of Regulation D.[25] Should the Commission require that a disclosure document satisfying those information requirements be delivered to non-accredited investors before sale in Rule 504 offerings? To ensure easy access for all investors, should disclosure documents and other sales materials be required to be provided as an exhibit to the Form D? Since Forms D are not currently filed electronically with the Commission, should a change be made requiring electronic filing? Should these documents be provided to the Commission for its information only? What issues would this type of procedure raise under the Freedom of Information Act [26]? Should a confidential treatment process be developed to protect some of the information contained in these documents?

V. Solicitation of Comment—Other Rule 504 Improvements

The Commission seeks comment with respect to each of the other facets of the current Rule 504 regulatory compliance scheme. Specifically, does the current Rule serve investors' interests? If not, how could this Rule be further strengthened? Should a lower aggregate dollar amount, such as $500,000, be implemented with different requirements in order to provide a more effective compliance system? Should the current 12-month measuring period be lengthened to 2 years, with or without a change in the aggregate dollar limitation?

Should the types of issuers eligible to use the exemption be changed? For example, should particular types of "penny stock" issues be excluded, *e.g.*, offerings for less than $1 per share? Should issuers with total assets or market capitalization below a minimum amount be precluded from using the rule, *e.g.*, $1 million? Would such a limit be consistent with a stated purpose of the exemption: for raising "seed capital"?

Does the current rule serve issuers' needs? At the same time we are proposing to tighten the rule, are there other areas of the Rule that we can modify to provide small businesses with flexibility without compromising investor protection? For example, should the measuring period for determining the scope of an offering be shortened to six months? Should the dollar limitation in the Rule be increased to $5 million or some higher dollar amount if accompanied with additional compliance requirements such as specified disclosure requirements or state registration requirements? [27]

Do differences in state registration schemes affect the utility of Rule 504? Do those differences affect the incidence of fraudulent secondary trading? If so, how? Has reliance on state regulation achieved the goals set out by the Commission when it amended Rule 504 in 1992? [28] Although improving, has the lack of uniformity of state securities regulation in this area had any impact on Rule 504 offerings? Should Rule 504 be revised to impose greater uniformity nationwide in disclosures provided to investors under Rule 504? Should public offerings under Rule 504 be limited to only those offerings registered in and made in states participating in NASAA's regional review program? [29]

Should the Commission take a more active role in monitoring Rule 504 transactions to ensure compliance with the antifraud requirements of the federal securities laws? Should additional information be mandated in Form D?

---

in the securities markets, and permit us to design programs that will meet their needs consistent with the protection of investors. In future sessions, we intend to discuss our proposals with attendees and encourage them to submit their views as a part of this rulemaking proceeding. In addition, the University of Southern California recently sponsored a forum at which a number of issues important to small business, including alleged abuses that are the basis for our proposal, were discussed and considered by a group of small business representatives and Commission staff.

[24] State exemptions of this nature include those based upon the "Model Accredited Investor Exemption," which was adopted by NASAA in 1997. CCH NASAA Reporter Paragraph 361. Generally, the rule exempts offers and sales of securities from state registration requirements, if among other matters, the securities are sold only to persons who are, or are reasonably believed to be, "accredited investors" as defined in Rule 501(a) of Regulation D. Written solicitations under that provision are generally limited to a type of "tombstone" ad. To date, 11 states have adopted the exemption.

[25] 17 CFR 230.502(b).

[26] 5 U.S.C. 552.

[27] See NASAA's Report of the Task Force on the Future of Shared State and Federal Securities Regulation (October 1997). The Task Force, among other matters, recommended that the Commission raise the offering amount in Rule 504 offerings to $10 million pursuant to its new authority under Section 28 of the Securities Act [15 U.S.C. 77z–3]. It also recommended that offerings made in an amount over $1 million be required to be registered in the states where the offering is made.

[28] See note 16 above.

[29] NASAA and a number of states have developed regional review procedures that permit an issuer to file in each state, but to indicate with the filing that regional review is requested. Under those circumstances, the issuer will receive only one set of comments, and the filing can become effective simultaneously in all states in the region in which filings have been made. To date, the regional system has been set up in the following areas: Western States (Alaska, Arizona, California, Colorado, Idaho, Oregon, Utah and Washington); New England States (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont); and Midwestern States (Illinois, Indiana, Iowa, Kansas, Michigan, Missouri, and Wisconsin).

For example, should Form D be required to indicate the state(s) where the offering was made? Or, should Form D filers be required to amend their filings periodically (whether quarterly, annually or some other increment of time) to disclose: (1) Whether they have prepared or provided information to facilitate trading such as the NASD's Form 211, which is required prior to inclusion on the OTC Bulletin Board; and (2) whether they have provided other information to potential or existing market makers for their securities?

Before the adoption of Rule 701,[30] the Rule 504 exemption was used by a number of foreign private issuers in order to compensate their U.S. employees by issuing them company securities. Many of these issuers had substantial market capitalizations and were listed on foreign exchanges. Comment is requested concerning the impact of the proposed revisions upon these companies. Specifically, is the Rule 504 exemption still being used by these issuers? If so, for what purposes is Rule 504 used? If these foreign private issuers still use the exemption, should the Commission treat their Rule 504 issuances differently, *i.e.*, not as "restricted securities" if they are not microcap companies, and file periodic public reports in their home or other countries?

VI. General Request for Comment

Any interested persons wishing to submit written comment on any of the issues set forth in this release are invited to do so by submitting them in triplicate to Jonathan G. Katz, Secretary, U.S. Securities and Exchange Commission, 450 Fifth Street, N.W., Washington D.C. 20549. Comments also may be submitted electronically at the following e-mail address: rule-comments@sec.gov. All comment letters should refer to File Number S7–14–98; this file number should be included on the subject line if e-mail is used. Comments received will be available for public inspection and copying in the Commission's public reference room at 450 Fifth Street, N.W., Washington, D.C. 20549. Electronically submitted comment letters will be posted on the Commission's Internet Web site (http://www.sec.gov). Comments on this proposal will be considered by us in complying with our responsibilities under Section 19(a) of the Securities Act.[31] We further request comment on any competitive burdens that may result from adoption of the proposals.

[30] 17 CFR 230.701.

[31] 15 U.S.C. 77s(a).

Comments are solicited from the point of view of, among others, issuers, underwriters, broker/dealers and the investing public.

VII. Summary of Initial Regulatory Flexibility Analysis

We have prepared an Initial Regulatory Flexibility Analysis ("IRFA") in accordance with the Regulatory Flexibility Act[32] regarding the proposed amendments.

The analysis notes that the amendments to Rule 504 are a result of our view—and that of representatives of other regulators—that the current configuration of the exemption may be leading to abuse. The purpose of the proposals is to reduce the potential for abuse and yet maintain the utility of the exemption for small businesses. We believe that the proposed amendments will enhance the protection of the investing public.

In calendar year 1997, 1,505 Forms D were filed by 1,397 companies with the Commission claiming the Rule 504 exemption. Rule 504 only affects non-reporting companies. The Commission has sought to minimize the reporting burden on small businesses. However, we do not collect data to determine how many of the non-reporting companies filing Form D are small businesses. Therefore, we are unable to determine exactly how many small businesses will be affected by the proposed amendments.

While it is not possible to know with certainty, it is believed that most Rule 504 offerings were done by small businesses. The rule changes would restrict the resale of all securities issued pursuant to Rule 504. Officials at the NASD estimate that between 300 and 500 applications for quotation on the OTC Bulletin Board annually have been based on the Rule 504 exemption. We presume, therefore, that the proposal would affect at least some of the small businesses currently using Rule 504. The proposal, if adopted, could cause these issuers to offer higher discounts in the sales of their securities, which may increase their overall cost for capital. The Commission has insufficient data to reliably quantify the impact on small entities offering such a discount, and requests comment, supported by data and analysis regarding the nature and size of any discount.

As discussed more fully in the IRFA, several possible significant alternatives to the proposals were considered. These included: establishing different compliance or reporting requirements for small entities, clarifying, consolidating or simplifying the compliance and reporting requirements for small entities, using performance rather than design standards, exempting small entities from all or part of the proposed requirements, or requiring them to provide more disclosure, such as the same disclosure required for the other Regulation D exemptions. The IRFA also indicates that there are no current federal rules that duplicate, overlap, or conflict with the proposed amendments.

We encourage written comments on any aspect of the IRFA. In particular, we seek comment on: (i) the number of small entities that would be affected by the proposed amendments; and (ii) whether the proposed amendments would affect the reporting, recordkeeping and other compliance requirements for small entities and, if so, how. If you believe the proposals will significantly impact a substantial number of small entities, please describe the nature of the impact and estimate the extent of the impact with specific data.

For purposes of making determinations required by the Small Business Regulatory Enforcement Fairness Act of 1996 ("SBREFA"),[33] we also are requesting data regarding the potential impact of the proposed amendments on the economy on an annual basis. Your comments will be considered in the preparation of the Final Regulatory Flexibility Analysis if the proposed amendments are adopted. A copy of the Initial Regulatory Flexibility Act Analysis may be obtained from Twanna M. Young, Office of Small Business, Division of Corporation Finance, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549.

VIII. Cost-Benefit Analysis

The current version of Rule 504 was adopted in 1992. At that time it was believed to contain adequate compliance standards, including: the limits on the amount of money permitted to be raised and the types of issuers eligible to use the exemption; the filing of the Form D notification with the Commission to aid in its monitoring of the exemption; the federal antifraud provisions; and, perhaps most importantly, state regulation of these transactions. Since that time, however, securities issued pursuant to Rule 504 have been used in fraudulent secondary trading.

[32] 5 U.S.C. 603.

[33] Pub. L. 104–121, 110 Stat. 857 (1996) (codified in scattered sections of 5 U.S.C., 15 U.S.C., and as a note to 5 U.S.C. 601).

The proposed amendments would address these problems by restricting the resale of securities; generally this change would require investors to hold them for at least one year following purchase. The Commission believes these proposed amendments, if adopted, would benefit issuers and investors by curbing some of the abuses in the secondary market, safeguarding investors, and preserving the utility of the exemption for legitimate transactions.

In calendar year 1997, 1,505 Forms D were filed by 1,397 companies with the Commission claiming a Rule 504 exemption. Officials at the NASD estimate that between 300 and 500 applications for quotation on the OTC Bulletin Board annually have been based on the Rule 504 exemption. The Commission cannot estimate the costs of the proposed amendments with certainty. Some issuers may be required to offer discounts or other incentives to sell their securities in order to compensate for the restriction on resale. However, because the exemption is designed to raise "seed" capital, most of the issuers and the type of transaction the rule is designed to reach are in the early stages of their development. These issuers are interested in attracting patient investors who are committed to remaining with the business for some period of time. As such, it seems reasonable that these investors and the companies would expect the securities to be held for some period of time; certainly for at least one year. Our experience shows that many of the active trading markets that develop shortly after securities are issued under Rule 504 are artificial. While liquidity is an important feature with any securities investment, whether it is sufficiently significant in connection with a "seed" capital offering to require a substantial discount in the offering price is debatable. Nonetheless the Commission is seeking specific comments on this issue and empirical data. While the amendments will probably impact mostly small entities, the changes are necessary to curb fraud in the market for the securities of small issuers. The Commission does not have sufficient data to reliably estimate this cost and requests data and analysis from commenters.

As an aid in the evaluation of the costs and benefits of these proposals, we request the views and other supporting information of the public. It appears to us that the proposed amendments, if adopted, would continue to provide the significant cost savings originally envisioned for small issuers making offerings under Rule 504 without compromising investor protection.

We request your comment on whether the proposed amendments would be a "major rule" for purposes of the SBREFA. We request comments on whether the proposed amendments are likely to have an annual effect on the economy of $100 million or more. Your comments should provide empirical data to support your views.

Section 2(b) of the Securities Act requires the Commission, when engaged in rulemaking that requires a public interest finding, to consider, in addition to the protection of investors, whether the action will promote efficiency, competition and capital formation.[34] The Commission's preliminary view is that the proposed amendments would not have any effect on competition. Moreover, the proposed amendments are designed to curb fraud in the market for the securities of small issuers, and therefore are likely overall to improve efficiency and capital formation for legitimate small businesses. The Commission is aware, however, that restricting the resale of securities may have some impact on the cost of capital formation. The Commission requests data and analysis on what effect the proposed changes may have on efficiency, competition and capital formation.

IX. Paperwork Reduction Act

Our staff has submitted the proposals for review to the Office of Management and Budget ("OMB") in accordance with the Paperwork Reduction Act of 1995 ("the Act").[35] The title to the affected information collection is: "Form D." The specific information that must be included in Form D is explained in the form itself, and relates to the issuer, its principals and the amount of money proposed to be raised along with proposed applications of the proceeds. The information is needed for monitoring use of the exemption as well as evaluating its usefulness to issuers.

The collection of information in Form D will continue to be required in order for companies to use the rule for sales of their securities. The likely respondents to the rule are those companies that have previously used the rule and other small entities. While we cannot estimate the number of respondents that may use revised Rule 504, there were 1,505 Form D filings by 1,397 companies under Rule 504 during calendar year 1997. We expect that approximately 1500 companies each year will be relying on the exemption. If the revisions to Rule 504 are adopted, the estimated burden for responding to the collection of information in Form D would not increase for most companies because the information required has not been changed. The number of eligible transactions, however, may decrease. We estimate that the average burden hours per filing will be 16. Therefore, we estimate an aggregate of 24,000 burden hours per year. The Commission does not know how many issuers may be affected by this proposal, whether they will decide to rely on another exemption, or how much, if any, the information collection burden would be.

The information collection requirements imposed by Form D are mandatory to the extent that a company elects to use the Rule 504 exemption. The information is disclosed to the public. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

In accordance with the Act,[36] we solicit comment on: (1) whether the collection of information is necessary; (2) the accuracy of our estimate of the burden of the collection of information; (3) the quality, utility and clarity of the information to be collected; and (4) whether the burden of collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology, may be minimized.

Persons desiring to submit comments on the collection of information requirement should direct them to the Office of Management and Budget, Attention: Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Washington, D.C. 20503, and should also send a copy of their comments to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549, with reference to File No. S7–14 –98. The Office of Management and Budget is required to make a decision concerning the collection of information between 30 and 60 days after publication, so a comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication.

X. Statutory Basis for the Proposals

The amendments are proposed pursuant to Sections 2, 3(b), 6, 7, 8, 10, 19(a), 19(c) and 28 of the Securities Act.

Text of Rule and Form Proposals

For the reasons set out in the preamble, title 17, chapter II of the Code of Federal Regulations is proposed to be amended as follows:

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

1. The citation for Part 230 continues to read in part as follows:

Authority: 15 U.S.C. 77b, 77f, 77g, 77h, 77j, 77r, 77s, 77sss, 78c, 78d, 78l, 78m, 78n, 78o, 78w, 78*ll*(d), 79t, 80a–8, 80a–24, 80a–29, 80a–30, and 80a–37, unless otherwise noted.

* * * * *

§ 230.502 [Amended]

2. By amending the introductory text of paragraph (d) of § 230.502 by revising the words "Except as provided in § 230.504(b)(1), securities" to read "Securities".

3. By revising § 230.504(b)(1) to read as follows:

§ 230.504 Exemption for limited offerings and sales of securities not exceeding $1,000,000.

* * * * *

(b) *Conditions to be met.*—(1) *General conditions.* To qualify for exemption under this § 230.504, offers and sales must satisfy the terms and conditions of §§ 230.501 and 230.502(a) and (d).

* * * * *

Dated: May 21, 1998.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 98–14024 Filed 5–27–98; 8:45 am]

BILLING CODE 8010–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 809 and 864

[Docket No. 97N–0135]

Medical Devices; Hematology and Pathology Devices; Reclassification; Restricted Devices; OTC Test Sample Collection Systems for Drugs of Abuse Testing; Public Hearing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notification of public hearing on proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is announcing a public hearing on a proposed rule to reclassify over-the-counter (OTC) test sample collection systems for drugs of abuse testing. The purpose of the public hearing is to solicit input on the proposed rule in addition to comments being submitted to the docket. The information obtained at the hearing will assist FDA in its preparation of a final rule.

DATES: The public hearing will be held on June 19, 1998, from 9 a.m. to 5 p.m. Written notices of participation should be filed by June 8, 1998. Submit written comments by July 5, 1998.

ADDRESSES: The public hearing will be held at the Food and Drug Administration, 5600 Fishers Lane, conference rooms D and E, Rockville, MD 20857. Submit written notices of participation and written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1–23, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Steven I. Gutman, Center for Devices and Radiological Health (HFZ–440), Food and Drug Administration, 2098 Gaither Rd., Rockville, MD 20850, 301–594–3084.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 5, 1998 (63 FR 10792), FDA published a proposed rule to reclassify OTC test sample collection systems for drugs of abuse testing. FDA has determined that a public hearing on the proposed rule is warranted. The hearing will be directed by William B. Schultz, Deputy Commissioner for Policy, FDA. To the extent possible, oral testimony should address the issues identified in the proposed rule (63 FR 10792). The procedures governing the hearing are those applicable to a public hearing before the Commissioner of Food and Drugs under 21 CFR part 15.

Interested persons who wish to participate may, on or before June 8, 1998, submit a notice of participation to the Dockets Management Branch (address above). All notices submitted should be identified with the docket number found in brackets in the heading of this document and should contain the name, address, telephone number, business affiliation of the person requesting to make a presentation, a brief summary of the presentation, and the approximate time requested for the presentation.

Individuals or groups having similar interests are requested to consolidate their comments and present them through a single representative. FDA will allocate the time available for the hearing among the persons who properly file a notice of appearance.

After reviewing the notice of participation and accompanying information, FDA will schedule each appearance and notify each participant by mail or telephone of the time allotted to the person and the approximate time the person's presentation is scheduled to begin. FDA may require joint presentations by persons with common interests. The schedule of the public hearing will be available at the hearing and it will be placed on file in the Dockets Management Branch following the hearing.

The administrative record of the proposed regulation will be open for 15 days after the hearing to allow comments on matters raised at the hearing. Persons who wish to provide additional materials for consideration are to file these materials with the Dockets Management Branch (address above) during that period.

The hearing is informal, and the rules of evidence do not apply. No participant may interrupt the presentation of another participant. Only the presiding officers and panel members may question any person during or at the conclusion of their presentation.

Dated: May 20, 1998.

William K. Hubbard,

Associate Commissioner for Policy Coordination.

[FR Doc. 98–14048 Filed 5–27–98; 8:45 am]

BILLING CODE 4160–01–F

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 936

[SPATS No. OK–022–FOR]

Oklahoma Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed Rule; reopening and extension of public comment period on proposed amendment.

SUMMARY: OSM is announcing receipt of revisions and additional explanatory information pertaining to a previously proposed amendment to the Oklahoma regulatory program (hereinafter referred to as the "Oklahoma program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The revisions and additional explanatory information pertain to normal

husbandry practices and non-augmentative reclamation activities. The amendment is intended to revise the Oklahoma program to improve operational efficiency.

DATES: Written comments must be received by 4:00 p.m., c.d.t., June 12, 1998.

ADDRESSES: Written comments should be mailed or hand delivered to Michael C. Wolfrom, Director, Tulsa Field Office at the address listed below.

Copies of the Oklahoma program, the proposed amendment, and all written comments received in response to this document will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed amendment by contacting OSM's Tulsa Field Office.

FOR FURTHER INFORMATION CONTACT:
Michael C. Wolfrom, Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, 5100 East Skelly Drive, Suite 470, Tulsa, Oklahoma 74135–6547, Telephone: (918) 581–6430.
Oklahoma Department of Mines, 4040 N. Lincoln Blvd., Suite 107, Oklahoma City, Oklahoma 73105, Telephone: (405) 521–3859.

FOR FURTHER INFORMATION CONTACT:
Michael C. Wolfrom, Director, Tulsa Field Office, Telephone: (918) 581–6430.

SUPPLEMENTARY INFORMATION:

I. Background on the Oklahoma Program
II. Discussion of the Proposed Amendment
III. Public Comment Procedures
IV. Procedural Determinations

I. Background on the Oklahoma Program

On January 19, 1981, the Secretary of the Interior conditionally approved the Oklahoma program. Background information on the Oklahoma program, including the Secretary's findings, the disposition of comments, and the conditions of approval can be found in the January 19, 1981, **Federal Register** (46 FR 4902). Subsequent actions concerning the Oklahoma program can be found at 30 CFR 936.15 and 936.16.

II. Discussion of the Proposed Amendment

By letter dated July 3, 1997 (Administrative Record No. OK–978), Oklahoma submitted a proposed amendment to its program pursuant to SMCRA. Oklahoma submitted the proposed amendment at its own initiative. Oklahoma proposed to amend the Oklahoma Administrative Code (OAC) for surface mining operations at OAC 460:20–43–46(c)(4) and underground mining operations at OAC 460:20–45–46(c)(4) by adding criteria for normal husbandry practices and non-augmentative reclamation activities within the State.

OSM announced receipt of the proposed amendment in the August 8, 1997, **Federal Register** (62 FR 42715) and invited public comment on its adequacy. The public comment period ended September 8, 1997.

During its review of the amendment, OSM identified concerns in OAC 460:20–43–46(c)(4) and 460:20–45–46(c)(4) relating to the requirement that OSM approve normal husbandry practices used in the State; OAC 460:20–43–46(c)(4)(D) and 460:20–45–46(c)(4)(D) relating to a discrepancy between the proposed language and Appendix R of Oklahoma's Bond Release Guidelines on the repair of rills and gullies; and OAC 460:20–43–46(c)(4)(E) and 460:20–45–46(c)(4)(E) relating to the non-augmentative reclamation activities proposed for temporary structures. OSM notified Oklahoma of the concerns by letters dated November 19, 1997, and March 23, 1998, and via telephone conferences on February 10, 1998 and March 19, 1998 (Administrative Record Nos. OK–978.05, OK–978.10, OK–978.06, and OK–978.09, respectively). Oklahoma responded in letters dated March 4, 1998, April 22, 1998, April 30, 1998, and May 13, 1998 (Administrative Record Nos. OK–978.08, OK–978.13, OK–978.14, and OK–978.11, respectively), by submitting a revised amendment and additional explanatory information.

Oklahoma is proposing (1) normal husbandry practices for reseeding, fertilizing, liming, weed and pest control, mulching, irrigation, pruning, transplanting and replanting trees and shrubs, and repair of rills and gullies and (2) non-augmentative reclamation activity practices for removal and reclamation of temporary structures. Summarized below by regulation numbers is a discussion of the revisions and additional explanatory information submitted by Oklahoma.

1. Oklahoma revised the first sentence of OAC 460:20–43–46(c)(4) and 460:20–45–46(c)(4) by adding the language "and non-augmentative reclamation activities." The revised sentence reads as follows:

> The Department and the Office of Surface Mining have approved selective husbandry practices and non-augmentative reclamation activities that, when accomplished in accordance with (A) through (G) below, do not extend the period of responsibility for revegetation success and bond liability.

In its letter dated April 22, 1998, Oklahoma stated that it understands that any normal husbandry practice(s) not included in its March 4, 1998, revised amendment will be submitted to OSM for approval in accordance with 30 CFR 732.17. In order to support its proposed regulations at OAC 460:20–43–46(c)(4) and 460:20–45–46(c)(4), Oklahoma submitted several guidelines published by the Oklahoma State University and the Natural Resources Conservation Service on the types of agricultural practices that will not be considered augmentative.

2. Oklahoma revised the third sentence of OAC 460:20–43–46(c)(4)(A), pertaining to surface mining operations, by adding the language "identified at subsection 460:20–43–46(c)(4)(E)." The revised sentence reads as follows:

> Removal and reclamation of temporary structures identified at subsection 460:20–43–46(c)(4)(E) would not be considered augmentation.

3. Oklahoma revised the third sentence of OAC 460:20–45–46(c)(4)(A), pertaining to underground mining operations, by adding the language "identified at subsection 460:20–45–46(c)(4)(E)." The revised sentence reads as follows:

> Removal and reclamation of temporary structures identified at subsection 460:20–45–46(c)(4)(E) would not be considered augmentation.

4. Oklahoma revised OAC 460:20–43–46(c)(4)(D) and 460:20–45–46(c)(4)(D) by removing the language "during the initial establishment" from the third and fifth sentence and replacing the sixth and seventh sentence with the following language:

> After initial vegetation establishment, ODOM defines the treatment of rills and gullies requiring permanent reseeding of more than 10 acres in a contiguous block or 10% of a permit area initially seeded during a single year to be an augmentative practice because of the potential for delayed seeding of large areas to reduce the probability of revegetation success.

Oklahoma submitted copies of the Natural Resources Conservation Service (NRCS) guidelines for repair of rills and gullies entitled "State Standard and Specifications for Critical Area Treatment" and "Critical Area Planting" to support its proposed regulations at OAC 460:20–43–46(c)(4)(D) and 460:20–45–46(c)(4)(D).

5. Oklahoma revised OAC 460:20–43–46(c)(4)(E) and 460:20–45–46(c)(4)(E), by changing the word "haulroads" to "roads" and adding the language "remaining after a Phase I Bond Release approval" to its previously proposed

provision. The revised regulations read as follows:

Liming, fertilization, mulching, seeding or stocking following the reclamation of any temporary roads remaining after a Phase I Bond Release approval, temporary sediment or hydraulic control structures, areas disturbed by the installation or removal of oil and gas wells or utility lines, and areas where the vegetation was disturbed by vehicular traffic not under the control of the permittee will not be considered augmentation.

In its letter of April 22, 1998, Oklahoma clarified that its proposed regulations at OAC 460:20–43–46(c)(4)(E) and 460:20–45–46(c)(4)(E) do not approve the reclamation of temporary haul roads after Phase I approval as a non-augmentative practice.

6. Oklahoma is proposing to delete Appendix R and to revise Appendix A of its Bond Release Guidelines. Appendix R contains Oklahoma's currently approved guidelines for the repair of rills and gullies, and it is being replaced by Oklahoma's proposed regulations at OAC 460:20–43–46(c)(4)(D) and 460:20–45–46(c)(4)(D). The definition for "Augmentation" in Appendix A is being revised by replacing the reference to Appendix R with a reference to OAC 460:20–43–46(c)(4) and 460:20–45–46(c)(4). The definition of "Initial Establishment of Permanent Vegetative Cover" is being deleted from Appendix A.

III. Public Comment Procedures

OSM is reopening the comment period on the proposed Oklahoma program amendment to provide the public an opportunity to reconsider the adequacy of the proposed amendment in light of the additional materials submitted. In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Oklahoma program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under **DATES** or at locations other than the Tulsa Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

IV. Procedural Determinations

Executive Order 12866

This proposed rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12988

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decision on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Unfunded Mandates

OSM has determined and certifies pursuant to the Unfunded Mandates Reform Act (2 U.S.C. 1502 *et seq.*) that this rule will not impose a cost of $100 million or more in any given year on local, state, or tribal governments or private entities.

DEPARTMENT OF AGRICULTURE

Forest Service

Extension of Currently Approved Information Collection for Locatable Minerals

AGENCY: Forest Service, USDA.

ACTION: Notice: request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Forest Service announces its intent to extend the existing information collection found in 36 CFR Part 228, Subpart A, for locatable minerals. The current information collection will expire July 31, 1998.

DATES: Comments must be received in writing on or before July 27, 1998.

ADDRESSES: Send written comments to Director, Minerals and Geology Management, mail stop 1126, Forest Service, USDA, P.O. Box 96090, Washington, D.C. 20090–6090.

The public may inspect comments in the Office of the Director. To facilitate entrance into the building, visitors are encouraged to call ahead (202) 205–1042.

FOR FURTHER INFORMATION CONTACT: Sam Hotchkiss, Minerals and Geology Management, telephone: (202) 205–1535.

SUPPLEMENTARY INFORMATION:

Description of Information Collection

Title: Locatable Minerals.

OMB Number: 0596–0022.

Expiration Date of Approval: July 31, 1998.

Type of Request: Extension of an existing information collection.

Abstract: Locatable mineral operators must conduct their operations in accordance with the mineral regulations at 36 CFR Part 228, Subpart A, to ensure that the environmental impacts are minimized to the extent practicable.

When submitting a notice of intent, a plan of operations, or a notice of cessation of operations, the operator may use any format to submit the required information. To facilitate this process, the Forest Service has developed a plan of operations form to collect the information required in the locatable mineral regulations. Although use of the form is optional by the operator, it was used about 1,000 times last year. The Forest Service uses the information to review and evaluate a mining proposal. Without an established procedure for joint Forest Service and operator planning, adverse impacts such as a significant soil loss, water pollution, and adverse impacts to plants and animals will likely occur. The types of activities that will cause severe impacts to surface resources include an improperly located access road, unplanned disposal of waste rock and mill tailings, inadequate water drainage controls in disturbed areas, and a failure to reclaim disturbed areas after operations are complete. Public safety would also be a major concern if operators were allowed to leave shafts, cuts, and adits uncovered, unfenced, and unmarked.

Estimate of Burden: 2 hours.

Type of Respondents: Locatable mineral operators.

Estimated Number of Respondents: 1000.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 2000.

Comment Is Invited

The agency invites comments on the following: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Use of Comment

All comments, including name and address when provided, will become a matter of public record. Comments received in response to this notice will be summarized and included in the request for Office of Management and Budget approval.

Dated: May 21, 1998.

Darrel L. Kenops,

Acting Deputy Chief, National Forest Systems.

AGENCY: Forest Service, USDA.

ACTION: Cancellation of an environmental impact statement.

SUMMARY: On February 2, 1998, a Notice of Intent (NOI) to prepare an environmental impact statement (EIS) for the Diamond Lake Drawdown on the Diamond Lake Ranger District of the Umpqua National Forest was published in the **Federal Register** (63 FR 5350). The February 2 NOI is being withdrawn because the Forest Service is no longer the lead agency for the EIS. The Forest Service NOI is hereby rescinded.

FOR FURTHER INFORMATION CONTACT: Direct questions regarding this cancellation to Jim Leoni, Interdisciplinary Team Leader, Umpqua National Forest, P.O. Box 1008, Roseburg, Oregon 97470, phone 541–957–3391.

Dated: May 18, 1998.

Don Ostby,

Forest Supervisor.

BILLING CODE 3410–11–M

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.
Title: 1999 New York City Housing and Vacancy Survey.
Form Number(s): H–100, –105, –108, –100(L).
Agency Approval Number: 0607–0757.
Type of Request: Reinstatement, with change, of an expired collection.
Burden: 11,200 hours.
Number of Respondents: 17,200.
Avg Hours Per Response: 35 minutes.
Needs and Uses: The Census Bureau plans to conduct the 1999 New York City Housing and Vacancy Survey (NYCHVS) under contract for the City of New York. The purpose of the survey is to measure the supply, condition, and vacancy rate of housing in the City. Vacancy rate is the primary factor in determining the continuation of rent control regulations. Other survey information is used by city and state agencies for planning purposes as well as the private sector for business decisions. The laws of New York require such a survey to be conducted every three years.

Census Bureau interviewers will conduct personal visit interviews at a sample of housing units in the city, the vast majority of which are apartments in apartment buildings. Basic demographic information will be collected from residents along with information about living conditions (rent, facilities, maintenance, neighborhood, etc.). This information will be collected from rental agents or other knowledgeable persons in the case of vacant units. A small number of reinterviews with agents or landlords will be conducted for quality assurance purposes. We will also determine, by observation only, if a sample of units known to have been lost from the housing inventory have been reconverted for residential use.

Affected Public: Individuals or households, businesses or other for-profit.
Frequency: Every 3 years.
Respondent's Obligation: Voluntary.
Legal Authority: Title 13 USC, Section 8.
OMB Desk Officer: Nancy Kirkendall, (202) 395–7313.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482–3272, Department of Commerce, room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Nancy Kirkendall, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: May 21, 1998.

Linda Engelmeier,

Departmental Forms Clearance Officer, Office of Management and Organization.

DEPARTMENT OF COMMERCE

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.
Title: Census 2000 Dress Rehearsal: Integrated Coverage Measurement and Post Enumeration Survey Activities (Person Follow-up Interview and Evaluation Interview) and Initial Phase Evaluation Activities (Administrative Record Coverage and Multiple Response).
Form Number(s): DX–1301, DX–1301.EI, DX–1301.PSA, and DX–1301(P).
Agency Approval Number: None.
Type of Request: New collection.
Burden: 6,173 hours.
Number of Respondents: 20,190.
Avg Hours Per Response: 18 and a half minutes.
Needs and Uses: In the Census 2000 Dress Rehearsal, the Census Bureau will conduct a dress rehearsal of both its Integrated Coverage Measurement (ICM) and Post Enumeration Survey (PES) methodologies that can be used alternatively to measure coverage of the census for housing units and people. During Person Follow-up, we reconcile differences between ICM/PES person interview phase and the census initial enumeration. The result will be the information needed to produce the final estimates of the coverage for the Census 2000 Dress Rehearsal. The evaluation activities include analyzing the effectiveness of the ICM/PES data collection process and the potential coverage improvement from utilizing alternate response options and administrative records in census operations.

Affected Public: Individuals or households.
Frequency: One time.
Respondent's Obligation: Mandatory.
Legal Authority: Title 13, United States Code, Section 141.
OMB Desk Officer: Nancy Kirkendall, (202) 395–7313.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482–3272, Department of Commerce, room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

Foreign-Trade Zones Board

[Docket 25–98]

Foreign-Trade Zone 124—LaPlace, Louisiana, Foreign-Trade Subzone 124B—North American Shipbuilding, Inc.; Application for Expansion

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the South Louisiana Port Commission, grantee of FTZ 124, requesting authority to expand Subzone 124B, which currently covers the main shipyard facility of North American Shipbuilding, Inc. (NASI) located in LaFourche Parish, Louisiana, adjacent to the Gramercy Customs port of entry, to include two new sites located in Terrebonne and Lafourche Parishes. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on May 19, 1998.

Subzone 124B was approved on October 29, 1991 (Board Order 539, 56 F.R. 56627, 11/6/91). The subzone currently consists of one site (14 acres) located at 800 Industrial Park Road and Highway 308, Lafourche Parish, one mile north of Larose, Louisiana.

The applicant is now requesting authority to expand the subzone to include two additional sites: proposed *Site 2* (27 acres)—North American Fabricators, LLC, 208 North American Court, Houma (Terrebonne Parish); and, proposed *Site 3* (26 acres)—C-Port, LLC, 106 9th Street, Port Fourchon (Lafourche Parish).

The NASI facility is used for the construction and repair of commercial, military and research vessels under zone procedures within Subzone 124B.

This proposal does not request any new authority under FTZ procedures in terms of products or components, but it does involve a potential increase in the facility's level of production under FTZ procedures. NASI will operate the proposed sites as an integral part of Subzone 124B.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 27, 1998. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to August 11, 1998).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

Office of the Port Director, U.S. Customs Service, 110 North Airline Avenue, Gramercy, LA 70052

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW, Washington, DC 20230

Dated: May 20, 1998.

Dennis Puccinelli,

Acting Executive Secretary.

Foreign-Trade Zones Board

[Order No. 981]

Expansion of Foreign-Trade Zone 33; Pittsburgh, PA

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, an application from the Regional Industrial Development Corporation of Southwestern Pennsylvania, grantee of Foreign-Trade Zone 33, for authority to expand FTZ 33-Site 1 and Site 2 and to include two new sites in Pittsburgh and Leetsdale, Pennsylvania, within the Pittsburgh Customs port of entry area, was filed by the Board on November 17, 1997 (FTZ Docket 79–97, 62 FR 63315, 11/28/97);

Whereas, notice inviting public comment was given in **Federal Register** and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and that the proposal is in the public interest;

Now, therefore, the Board hereby orders:

The application to expand FTZ 33 is approved, subject to the Act and the Board's regulations, including Section 400.28, and subject to the standard 2,000-acre activation limit for the overall zone project.

Signed at Washington, DC, this 14th day of May 1998.

Robert S. LaRussa,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Attest:

Dennis Puccinelli,

Acting Executive Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

[A–122–823]

Cut-to-Length Carbon Steel Plate From Canada; Initiation of Anticircumvention Inquiry on Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of initiation of anticircumvention inquiry; cut-to-length carbon steel plate from Canada.

SUMMARY: In response to a request from Kentucky Electric Steel Company (Kentucky Steel), the Department of Commerce (the Department) is initiating an anticircumvention inquiry to determine whether imports of boron-added grader blade and draft key steel, falling within the physical dimensions outlined in the scope of the order, are circumventing the antidumping duty order on cut-to-length carbon steel plate from Canada (58 FR 44162, August 19, 1993).

EFFECTIVE DATE: May 28, 1998.

FOR FURTHER INFORMATION CONTACT: Gideon Katz, Eric Scheier, or Maureen Flannery, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC, 20230; telephone: (202) 482–4733.

SUPPLEMENTARY INFORMATION:

Applicable Statute

Unless otherwise stated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise stated, all citations to the Department's regulations are references to the regulations as codified at 62 FR 27296 (May 19, 1997).

Background

On March 14, 1997, the Department initiated a scope inquiry to determine whether certain cut-to-length carbon steel plate used to make grader blades and draft keys ("grader blade" and "draft key" steel) that contain small amounts of boron (approximately 0.0016 percent by weight) fall within the scope of the order on certain cut-to-length carbon steel plate from Canada. The Department gave interested parties the opportunity to provide comments pursuant to 19 CFR § 353.29(i) and 19 CFR 353.29(g).

On January 16, 1998, the Department issued a ruling, based on 19 CFR § 353.29(i), that boron-added grader blade and draft key steel falls outside the scope of the order. The Department concluded that, because the petition relied on the HTS definition of carbon steel, which excluded other-alloy steel (i.e. steel containing more than 0.0008 percent boron), and because the petition equated the term 'carbon steel' with the HTS term 'non-alloy steel', variants of grader blade and draft key steel which contain at least 0.0008 percent boron by weight fell outside the scope of the order. Specifically, the HTSUS defines the term "steel" as certain "ferrous materials * * * usually malleable and which contain by weight two percent or less of carbon. * * *" and defines the term "non-alloy" steel as steel *other than* A) "stainless steel", *i.e.* alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium or B) "other alloy steel, *i.e.* steel * * * containing by weight 0.3 percent or more of aluminum or 0.0008 percent or more of boron. *See* HTSUS, Chapter 72, Note 1(d) and (f).

The Department also solicited comments from interested parties concerning the possible applicability of the "minor alterations" provision pursuant to 19 CFR 353.29(g) (now codified as § 351.225(i), *see* 62 FR 27296, 27404 (May 19, 1997)).

UMI
VOL
63
ISS
102
MAY
28
1998
UMI

On January 30, 1998, Kentucky Steel requested that the Department conduct an anticircumvention inquiry pursuant to section 781(c) of the Tariff Act to determine whether imports of certain cut-to-length steel plate used to make grader blades and draft keys ("grader blade" and "draft key" steel) that contain small amounts of boron (approximately 0.0016 percent by weight) and fall within the physical dimensions outlined in the scope of the order, are circumventing the antidumping duty order on certain cut-to-length carbon steel plate from Canada.

Scope

The scope language contained in the final determination and antidumping duty order describes the covered merchandise as follows:

> Although the Harmonized Tariff Schedule of the United States (HTS) subheadings are provided for convenience and customs purposes, our written descriptions of the scope of these proceedings are dispositive * * *.
>
> *Certain Cut-to-Length Carbon Steel Plate*
>
> These products include hot-rolled carbon steel universal mill plates (i.e., flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances, 4.75 millimeters or more in thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the HTS under item numbers 7208.31.000, 7208.32.000, 7208.33.1000, 7208.33.5000, 7208.41.000, 7208.42.000, 7208.43.0000, 7208.90.0000, 7210.70.3000, 7210.90.0000, 7211.11.0000, 7211.12.0000, 7211.21.0000, 7211.22.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, and 7212.50.0000. Included in these investigations are flat-rolled products of nonrectangular cross-section where such cross-section is achieved subsequent to the rolling process (i.e., products which have been "worked after rolling")-for example, products which have been beveled or rounded at the edges. Excluded from these investigations is grade X–70 plate.

Final Determination; Certain Cold-Rolled Carbon Steel Flat Products From Argentina, 58 FR 37063 (July 9, 1993), Appendix I

See also Antidumping Duty Orders: Certain Corrosion-Resistant Carbon Steel Flat Products and Certain Cut-to-Length Carbon Steel Plate From Canada, 58 FR 44162 (August 19, 1993).

Kentucky Steel now alleges that since publication of the antidumping duty order, exporters of certain cut-to-length carbon steel plate from Canada have been circumventing the order by exporting carbon steel plate with small amounts of boron added. According to Kentucky Steel, the "inclusion of 0.0016 percent boron by weight to high carbon grader blade and draft key steel constitutes a minor alteration" and is thus within the meaning of the provisions detailed in section 781(c) of the Tariff Act, *See* Anticircumvention Application, January 30, 1998 at 4.

Kentucky Steel describes the merchandise that is the subject of this anticircumvention inquiry as cut-to-length plate made of high-carbon steel to which boron has been added. Kentucky Steel defines "high carbon" steel to be steel of AISI or SAE grades 1050, 1152, or 1552, or higher, i.e. carbon steels that may contain 0.55% or more carbon by weight.

Initiation of Anticircumvention Proceeding

Section 781(c) of the Tariff Act states that the Department may find circumvention of an order when products which are of the class or kind of merchandise subject to an antidumping duty order have been "altered in form or appearance in minor respects * * * whether or not included in the same tariff classification." The applicant asserts that, while the statute is silent as to what factors to consider in determining whether alterations are properly considered "minor," the legislative history of this provision indicates that there are certain factors which should be considered before reaching an anticircumvention determination.

The applicant cites to the Senate Finance Committee report on the Omnibus Trade and Competitiveness Act of 1988 (which amended the Tariff Act of 1930 to include the anticircumvention provisions contained in section 781), which states:

> [I]n applying this provision, the Commerce Department should apply practical measurements regarding minor alterations, so that circumvention can be dealt with effectively, even where such alterations to an article technically transform it into a differently designated article. The Commerce Department should consider such criteria as the overall physical characteristics of the merchandise, the expectations of the ultimate users, the use of the merchandise, the channels of marketing and the cost of any modification relative to the total value of the imported products. S. Rep. No. 71, 100th Cong., 1st Sess. 100 (1987).

The applicant has presented evidence with respect to each of the criteria listed in the Senate report. Each of these criteria is addressed below.

Overall Physical Characteristics

The cut-to-length plate for grader blades and draft keys at issue in this proceeding have small amounts, usually about 0.0016 percent by weight, of boron added to high carbon steel (high carbon being defined by the applicant as steel containing at least 0.55 percent carbon by weight). The applicant claims that while boron, like carbon, is added to steel to improve "hardenability," when the level of carbon is already at 0.60 percent by weight or above, the added boron's effect on the final product is negligible. The applicant asserts that grader blade and draft key steel products are composed of upwards of 0.70 percent carbon, sufficiently high levels to render the addition of boron immaterial to the performance characteristics of the final product. The applicant also claims that practice in the industry is not to add boron to higher carbon steels, like AISI grades 1070 and 1084, which are used to make grader blades and draft keys.

Expectations of the Ultimate Users

The applicant maintains that carbon steel plate users are purchasing imported plate with the expectation that the product be hard and durable, and that these characteristics are imparted by the presence of sufficient levels of carbon. The applicant states that consumers of this product are fully aware that carbon steel of the sort at issue here does not rely on or benefit from the presence of boron, and thus "do not expect, seek, or desire" its presence. The applicant notes that its own marketing officials have been advised that many consumers of the product do not know that it contains boron, and that there is no significant price difference between plain carbon and boron-added versions of the product imported from Canada.

Use of the Merchandise

The applicant maintains that, with or without boron, high carbon grader blade and draft key steel have the same uses: making blades on grading equipment and locking devices on railroad couplings. The applicant states that knowledgeable purchasers would be aware that there are no uses of higher carbon steel plate containing 0.0016 percent boron that cannot fully be met without boron, and that the addition of boron neither responds to a new need in

the market, nor improves the way existing technical needs are met.

Channels of Marketing

The applicant states that steel producers, with few exceptions, sell directly to manufacturers of grader blades and draft keys through company sales forces. The applicant claims that, because carbon grader blade and draft key steels are used for precisely the same products as are the boron-added versions of the products, boron-added grader blade and draft key carbon steel from Canada is sold in precisely the same sales channels as plain grader blade and draft key carbon steel from Canada.

Cost of Modification

The applicant alleges that, by adding about 0.0016 percent boron to high carbon steels, Canadian producers have been able to avoid dumping duties ranging from 1.47 percent to 68.7 percent, and that the cost of avoiding these duties, relative to the total value of the product itself, is negligible. The applicant estimates that Canadian producers can realize a value of 1.25 percent to 68.5 percent by avoiding the duties under the order in this case by adding 0.0016 percent boron to their product.

Other interested parties, Co-Steel Lasco, Caterpillar Inc., and Algoma Steel Inc., submitted comments arguing that the Department cannot initiate a "minor alterations" anticircumvention inquiry on a type of merchandise which the Department has previously determined to be outside the scope of the order. These interested parties base their argument on the decision of the Court of International Trade (CIT) in *Hylsa, S.A.* v. *United States*, Slip Op. 98–10 (February 3, 1998), which upheld the earlier decision of the CIT in *Wheatland Tube Co.* v. *United States*, 973 F. Supp. 149 (CIT 1997). As the Department disagrees with the decision in *Hylsa*, and as it is appealing this decision to the Federal Circuit, the Department is not bound to apply it to the determination of whether to initiate the requested inquiry.

Based on our evaluation of the application, we determine that a formal inquiry is warranted. Accordingly, we are initiating a circumvention inquiry concerning the antidumping duty order on cut-to-length carbon steel plate from Canada, pursuant to section 781(c) of the Tariff Act. In accordance with 19 CFR 351.225(l)(2), we will not instruct the Customs Service to suspend liquidation and require a cash deposit of estimated duties on the merchandise which is the subject of this inquiry unless and until we issue an affirmative preliminary determination.

The Department will, following consultation with the interested parties, establish a schedule for questionnaires and comments on the issues. The Department intends to issue its final determination within 300 days of the date of publication of this initiation.

This notice is published in accordance with section 781(c) of the Tariff Act (19 U.S.C. 1677j(c)) and 19 CFR 351.225.

Dated: May 20, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 051898B]

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its enforcement oversight committee in June, 1998 to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meeting will be held on June 16, 1998. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: The meeting will be held in Saugus, MA. See **SUPPLEMENTARY INFORMATION** for specific locations.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council (781) 231–0422. Requests for special accommodations should be addressed to the New England Fishery Management Council, 5 Broadway, Saugus, MA 01906–1036; telephone: (781) 231–0422.

SUPPLEMENTARY INFORMATION:

Meeting Dates and Agenda

Tuesday, June 16, 1998, 9:30 a.m.—Enforcement Committee.

Meeting

Location: Council Office, 5 Broadway, Saugus, MA 01906; telephone (781) 231–0422.

The committee will discuss the effectiveness of current management measures, especially of trip limits, and review the penalty schedule used by General Counsel Northeast.

Although other issues not contained in this agenda may come before this Committee for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: May 21, 1998.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of application for amendment.

SUMMARY: Notice is hereby given that Moana Productions, Inc., 311 Portlock Road, Honolulu, HI 96825, has requested an amendment to Photography Permit No. 867–1388.

DATES: Written or telefaxed comments must be received on or before June 29, 1998.

ADDRESSES: The amendment request and related documents are available for review upon written request or by appointment in the following office(s):

Permits and Documentation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910 (301/713–2289);

Regional Administrator, Alaska Region, NMFS, 709 W. 9th Street,

Federal Building, Room 461, P.O. Box 21668, Juneau, Alaska 99802 (907/586–7012); and

Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802 (562/980–4001).

Written comments or requests for a public hearing on this request should be submitted to the Chief, Permits and Documentation Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13822, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular amendment request would be appropriate.

Comments may also be submitted by facsimile at 301/713–0376, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period. Please note that comments will not be accepted by e-mail or other electronic media.

FOR FURTHER INFORMATION CONTACT: Trevor Spradlin, 301/713–2289.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 867–1388, issued on July 25, 1997, (62 FR 50906) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 867–1388 authorizes the permit holder to take by Level B harassment several species of small delphinid cetaceans in Hawaii and North Carolina waters for purposes of commercial photography. The permit holder now requests authorization to film the following marine mammals in Alaska waters: killer whales (*Orcinus orca*), Dall's porpoises (*Phocoenoides dalli*), Pacific white-sided dolphins (*Lagenorhynchus obscurus*), harbor porpoises (*Phocoena phocoena*), and minke whales (*Balaenoptera acutorostrata*).

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this amendment request to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 21, 1998.

Art Jeffers,

Acting Chief, Permits and Documentation Division, Office of Protected Resources, National Marine Fisheries Service.

Financial Products Advisory Committee; Public Meeting

This is to give notice, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. 2, section 10(a) and 41 CFR 101–6.1015(b), that the Commodity Futures Trading Commission's Financial Products Advisory Committee will conduct a public meeting in the ground level hearing room at the Commission's Washington, DC headquarters located at 1155 21st Street, N.W., Washington, DC 20581, on June 11, 1998, beginning at 1:00 p.m. and lasting until 4:30 p.m.

The agenda will consist of:

Agenda

1. Introductory Remarks by Chairperson Brooksley Born.
2. Discussion by members of the Advisory Committee of the following topics:
   A. Use of notional funds by commodity trading advisors.
   B. Placement of foreign exchange terminals in the United States.
   C. Year 2000 preparations of the futures industry.
3. New developments.

The purpose of this meeting is to solicit the views of the Committee on these agenda matters. The Advisory Committee was created by the Commodity Futures Trading Commission for the purpose of advising the Commission on issues concerning individuals and industries interested in or affected by financial markets regulated by the Commission. The purposes and objectives of the Advisory Committee are more fully set forth in the April 15, 1997 Charter of the Advisory Committee.

The meeting is open to the public. The Chairperson of the Advisory Committee, CFTC Chairperson Brooksley Born, is empowered to conduct the meeting in a fashion that will, in her judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Advisory Committee should mail a copy of the statement to the attention of: the Commodity Futures Trading Commission Financial Products Advisory Committee, c/o Ms. Josiane Branch, 1155 21st Street, N.W., Washington, DC 20581, before the meeting.

Issued by the Commission in Washington, D.C., on May 22, 1998.

Jean A. Webb,

Secretary of the Commission.

BILLING CODE 6351–01–M

CONSUMER PRODUCT SAFETY COMMISSION

Notice of Availability of Guidance Document on Hazardous Liquid Chemicals in Children's Products

AGENCY: U.S. Consumer Product Safety Commission.

ACTION: Notice of availability of guidance document on hazardous liquid chemicals in children's products.

SUMMARY: The Commission announces that it has approved a statement that provides guidance for manufacturers, importers, distributors, and retailers of liquid-filled consumer products that may contain harmful liquids. To protect children and other persons from the toxic effects of exposure to these chemicals, the Commission recommends that manufacturers of such products refrain from filling the products with hazardous liquids. Further, the Commission recommends that, before purchasing such products for resale, importers, distributors, and retailers obtain assurances from manufacturers that liquid-filled children's products do not contain hazardous liquid chemicals.

FOR FURTHER INFORMATION CONTACT: Frank Krivda, Office of Compliance, Consumer Product Safety Commission, Washington, D.C. 20207; telephone (301) 504–0400, ext. 1372.

SUPPLEMENTARY INFORMATION: The text of the guidance document is as follows:

U.S. Consumer Product Safety Commission, Washington, DC 20207

Guidance for Hazardous Liquid Chemicals in Children's Products

SUMMARY: The U.S. Consumer Product Safety Commission issues this guidance to manufacturers, importers, distributors, and retailers to protect children from exposure to hazardous chemicals found in liquid-filled children's products, such as rolling balls, bubble watches, necklaces, pens, paperweights, keychains, liquid timers,

and mazes.[1] The Commission identifies the major factors that it considers when evaluating liquid-filled children's products that contain hazardous chemicals, and informs the public of its experience with exposure to these hazardous chemicals to children. To reduce the risk of exposure to hazardous chemicals, such as mercury, ethylene glycol, diethylene glycol, methanol, methylene chloride, petroleum distillates, toluene, xylene, and related chemicals, the Commission requests manufacturers to eliminate the use of such chemicals in children's products. The Commission also recommends that, before purchasing products for resale, importers, distributors, and retailers obtain assurances from manufacturers that liquid-filled children's products do not contain hazardous liquid chemicals.

Hazard: During reasonably foreseeable handling or use of liquid-filled children's products, hazardous chemicals may become accessible to young children in a manner that places children at risk. Young children are exposed to the chemicals from directly mouthing them or from handling such objects and subsequent hand-to-mouth or hand-to-eye activity. The specific type and frequency of behavior that a child exposed to a product will exhibit depends on the age of the child and the characteristics and pattern of use of the product. The adverse health effects of these chemicals to children include chemical poisoning from ingestion of the chemicals, pneumonia from aspiration of the chemicals into the lungs, and skin and eye irritation from exposure to the chemicals. The chemicals may also be combustible.

Guidance: Under the Federal Hazardous Substances Act (FHSA), 15 U.S.C. 1261(f)(1), chemical products that are toxic or irritants and that may cause substantial injury or illness under reasonably foreseeable conditions of handling or use, including reasonably foreseeable ingestion by children, are "hazardous substances." A product that is not intended for children, but that creates such a risk of injury because it contains hazardous chemicals, requires precautionary labeling under the Act. 15 U.S.C. 1261(p). A toy or other article intended for use by children that contains an accessible and harmful amount of a hazardous chemical is banned. 15 U.S.C. 1261(q)(1)(A). In evaluating the potential hazard associated with children's products that contain hazardous chemicals, the Commission's staff considers certain factors on a case-by-case basis, including: the total amount of the hazardous chemical in a product, the accessibility of the hazardous chemicals to children, the risk presented by that accessibility, the age and foreseeable behavior of the children exposed to the product, and the marketing, patterns of use, and life cycle of the product.

The Commission staff has identified a number of liquid-filled children's products, such as rolling balls, bubble watches, necklaces, pens, paperweights, maze toys, liquid timers, and keychains, that contain hazardous chemicals. In several of these cases, the staff determined that these products violated the FHSA because they presented a risk of chemical poisoning and/or chemical pneumonia from aspiration. This determination resulted in recalls or in the replacement of those products with substitutes, as well as in agreements with the manufacturers to discontinue the use of hazardous chemicals in liquid-filled children's products in future production. The Commission believes that these hazardous substances pose a risk to young children and, consequently, manufacturers should not have included them in the product design or manufacturing process.

Therefore, the Commission considers the use of hazardous chemicals in children's products such as those described above to be ill-advised and encourages manufacturers to avoid using them in such products. Further, the Commission recommends that, before, purchasing such products for resale, importers, distributors, and retailers obtain assurances from manufacturers that liquid-filled children's products do not contain hazardous liquid chemicals.

Dated: May 21, 1998.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

VOL 63 ISS 102 MY 28 1998 UMI

DEFENSE SECURITY ASSISTANCE AGENCY

WASHINGTON, DC 20301-2800

12 MAY 1998
In reply refer to:
I-66111/98

Honorable Newt Gingrich
Speaker of the House of
Representatives
Washington, D.C. 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 98-40, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance (LOA) to the Republic of Korea for defense articles and services estimated to cost $19 million. Soon after this letter is delivered to your office, we plan to notify the news media.

Sincerely,

H. Diehl McKalip
Acting Director

Transmittal No. 98-40

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

(i) Prospective Purchaser: Republic of Korea

(ii) Total Estimated Value:

Major Defense Equipment*	$ 18 million
Other	$ 1 million
TOTAL	$ 19 million

(iii) Description of Articles or Services Offered:
Five hundred TOW 2A missiles, eight lot acceptance missiles, spare and repair parts, support and test equipment, technical support, publications and technical documentation, and other related elements of logistics and program support.

(iv) Military Department: Army (YSQ)

(v) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: none

(vi) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:
See Annex attached

(vii) Date Report Delivered to Congress: 12 MAY 1998

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Republic of Korea - TOW 2A Missiles

The Republic of Korea has requested a possible sale of 500 TOW 2A missiles, eight lot acceptance missiles, spare and repair parts, support and test equipment, technical support, publications and technical documentation, and other related elements of logistics and program support. The estimated cost is $19 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Pacific region.

The Republic of Korea will use these TOW 2A missiles to augment their current TOW missile inventory as well as use them with the COBRA helicopter thereby developing an air-to-surface anti-armor defense capability. The Republic of Korea will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Hughes Aircraft Company, Tucson, Arizona. One or more proposed offset agreements may be related to this proposed sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

UMI VOL 63 ISS 102 MY 28 1998 UMI

Transmittal No. 98-40

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vi

(vi) Sensitivity of Technology:

1. The TOW 2 weapon system including the TOW 2A missiles and documentation are Unclassified. Sensitive technology is contained within the missile system software programs. Some performance characteristics and system capabilities which could be derived from the use of the equipment are classified Secret.

2. The hardware is also considered sensitive and knowledge of the modulation frequency and infrared wavelengths could be useful in developing countermeasures. The highest level of classified material which could be disclosed through reverse engineering or testing of the TOW missile is Secret.

3. If a technologically capable adversary were to obtain knowledge of this highly sensitive equipment, the technology could be easily absorbed, thereby permitting development of countermeasures which could reduce overall weapon system effectiveness.

4. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

BILLING CODE 6000–04–C

DEPARTMENT OF DEFENSE

General Services Administration

National Aeronautics and Space Administration

[OMB Control No. 9000–0020]

Proposed Collection; Comment Request Entitled Qualification Requirements

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for comments regarding an extension to an existing OMB clearance (9000–0020).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Qualification Requirements. The clearance currently expires on September 30, 1998.

COMMENTS: Comments may be submitted on or before July 27, 1998.

FOR FURTHER INFORMATION CONTACT: Ralph DeStefano, Federal Acquisition Policy Division, GSA (202) 501–1758.

ADDRESSES: Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC 20503 and a copy to the General Services Administration, FAR Secretariat, 1800 F Street, NW, Room 4035, Washington, DC 20405.

SUPPLEMENTARY INFORMATION:

A. Purpose

10 U.S.C. 2319 and 41 U.S.C. 253c prescribe policies and procedures which are to be followed by Federal agencies before they may establish any prequalification requirement with which a prospective contractor must comply before his offer will even be

considered by the agency for a contract award. Three basic requirements are prescribed.

First, the agency must examine the need for establishing the prequalification requirement, given its adverse impact on free and open competition. Having established that a need for a prequalification requirement exists, the agency must prepare a written justification which explains that need.

Second, the agency must specify the standards which a prospective contractor, or its product or service, must satisfy in order to be qualified. The agency is directed to limit such standards to those essential to "meet the purposes necessitating the establishment of the prequalification requirement."

Third, the executive agency imposing the prequalification requirement must promptly provide a prospective contractor with the opportunity to demonstrate its ability to meet the standards the agency has specified for qualification.

The contracting officer uses the information to determine eligibility for award when the clause at 52.209–1, Qualification Requirements, is included in the solicitation. The offeror must identify the offeror, manufacturer, source, product or service, as appropriate, that has been prequalified and test number as evidence that the qualification requirement has been met. Alternatively, an offeror not meeting the qualification requirement may be considered for award upon the submission of evidence that the qualification requirement has been satisfied.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average *.17* hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The annual reporting burden is estimated as follows: Respondents, *2,700*; responses per respondent, *10;* total annual responses, *27,000*; preparation hours per response, *.17*; and total response burden hours, *4,590.*

Obtaining Copies of Proposals: Requester may obtain a copy of the justification from the General Services Administration, FAR Secretariat (MVRS), 1800 F Street, Room 4035, Washington, DC 20405, telephone (202) 501–4755. Please cite OMB Control No. 9000–0020, Qualification Requirements, in all correspondence.

Dated: May 21, 1998.

Sharon A. Kiser,

FAR Secretariat.

BILLING CODE 6820–34–M

DEPARTMENT OF DEFENSE

Office of the Secretary

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary, DoD.

ACTION: Notice to alter a system of records.

SUMMARY: The Office of the Secretary proposes to alter a system of records notice in its existing inventory of record systems subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended. The alteration consists of adding three routine uses to DGC 18, entitled 'DoD Roster of Mediators' to enable the release of information outside of the Department of Defense.

DATES: This proposed action will be effective without further notice on June 23, 1998, unless comments are received which result in a contrary determination.

ADDRESSES: Send comments to OSD Privacy Act Coordinator, Records Section, Directives and Records Division, Washington Headquarter Services, Correspondence and Directives, 1155 Defense Pentagon, Washington, DC 20301–1155.

FOR FURTHER INFORMATION CONTACT: Mr. David Bosworth at (703) 695–0970 or DSN 225–0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary systems of records notices subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The proposed system report, as required by 5 U.S.C. 552a(r) of the Privacy Act of 1974, as amended, was submitted on May 14, 1998, to the House Committee on Government Reform and Oversight, the Senate Committee on Governmental Affairs, and the Office of Management and Budget (OMB) pursuant to paragraph 4c of Appendix I to OMB Circular No. A–130, 'Federal Agency Responsibilities for Maintaining Records About Individuals,' dated February 8, 1996 (February 20, 1996, 61 FR 6427).

Dated: May 21, 1998.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DGC 18

SYSTEM NAME:

DoD Roster of Mediators *(August 25, 1995, 60 FR 44324).*

CHANGES

* * * * *

SYSTEM NAME:

Delete entry and replace with 'DoD Roster of Neutrals.'

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Delete entry and replace with 'DoD employees who have agreed to serve as neutrals as described in 5 U.S.C. 573. These individuals are trained and experienced in Alternative Dispute Resolution (ADR) and may serve as a conciliator, facilitator, mediator, or in other neutral roles in the dispute resolution process.'

CATEGORIES OF RECORDS IN THE SYSTEM:

Delete entry and replace with 'Background information including experiences and training of persons who wish to be and/or are registered in the DoD Roster of Neutrals. Information includes Alternate Dispute Resolution education or certification status and notes or any other information pertaining to a neutral, including recertification, removal, and investigatory or disciplinary actions taken against an individual. The investigator's files that may be used to determine those actions are not contained in this system of records.

Files of neutrals assigned to Alternate Dispute Resolution proceedings generally contain evaluations contributed by the parties to the dispute commenting on the effectiveness of the neutral.

Other records consist of ADR case files, which include requests for, and agreements to engage in, an ADR proceeding, settlement agreements and other correspondence relating to a case; case file logs; and case file databases.'

* * * * *

PURPOSE(S):

Delete entry and replace with 'The primary purpose of the system is to maintain the Roster of Neutrals for use by parties in dispute to review training, experience and other qualifications information about neutrals. Secondary purposes are to manage application, investigative, certification,

decertification, recertification, and disciplinary information about neutrals and apply this to their status on The Roster; and to manage ADR case files and supporting ADR administrative logs and databases.'

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Delete the second paragraph and add three new paragraphs 'To parties to a dispute and/or their personal representatives when these individuals are not affiliated with the Department of Defense for review of training, experience and other qualification information contained in the DoD Roster of Neutrals in connection with the appointment of a specific neutral.

To administrative personnel who are not affiliated with the Department of Defense who use information in the system to arrange or manage ADR proceedings.

To non-DoD persons who use information in the system in connection with investigations or disciplinary actions concerning a neutral, including, but not limited to, violations of ethical standards of conduct and/or breaches of state, Federal or local laws or regulations.'

* * * * *

RETENTION AND DISPOSAL:

Delete entry and replace with 'Files of active neutrals: Retain until neutral separates from Roster. Cutoff file on separation and destroy 1 year later.

Rejected neutral applications, correspondence, biographical data including education, training and experience. Cutoff file and destroy 2 years later.

Files of active neutrals who are decertified or removed: Cutoff from active file upon notification of decertification or removal. Destroy 3 years later.

Files of active neutrals who become unavailable due to retirement or death: Cutoff from active file upon notification of retirement or death. Destroy 1 year later.

Alternative Dispute Resolution Case files: Destroy when 10 years old.

Logs and databases tracking ADR cases: Destroy when no longer needed.'

* * * * *

RECORD SOURCE CATEGORIES:

Delete entry and replace with 'Neutral qualification and experience information; information provided for certification purposes; evaluations by parties to a dispute of the effectiveness of relevant ADR efforts; ADR case files; and logs and databases of ADR proceedings.'

* * * * *

DGC 18

SYSTEM NAME:

DoD Roster of Neutrals.

SYSTEM LOCATION:

Office of Alternative Dispute Resolution, Defense Legal Services Agency, Defense Office of Hearings and Appeals, 4015 Wilson Boulevard, Suite 300, Ballston Tower III, Arlington, VA 22203–1995.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

DoD employees who have agreed to serve as neutrals as described in 5 U.S.C. 573. These individuals are trained and experienced in Alternative Dispute Resolution (ADR) and may serve as a conciliator, facilitator, mediator, or in other neutral roles in the dispute resolution process.

CATEGORIES OF RECORDS IN THE SYSTEM:

Background information including experiences and training of persons who wish to be and/or are registered in the DoD Roster of Neutrals. Information includes Alternative Dispute Resolution education or certification status and notes or any other information pertaining to a neutral, including recertification, removal, and investigatory or disciplinary actions taken against an individual. The investigator's files that may be used to determine those actions are not contained in this system of records.

Files of neutrals assigned to Alternative Dispute Resolution proceedings generally contain evaluations contributed by the parties to the dispute commenting on the effectiveness of the neutral.

Other records consist of Alternative Dispute Resolution case files, which include requests for and agreements to engage in an ADR proceeding, settlement agreements and other correspondence relating to a case; case file logs; and case file databases.'

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 573, Neutrals; 10 U.S.C. 140, General Counsel of the Department of Defense; and DoD Directive 5145, Alternative Dispute Resolution (ADR).

PURPOSE(S):

The primary purpose of the system is to maintain the Roster of Neutrals for use by parties in dispute to review training, experience and other qualifications information about neutrals. Secondary purposes are to manage application, investigative, certification, decertification, recertification, and disciplinary information about neutrals and apply this to their status on The Roster; and to manage ADR case files and supporting ADR administrative logs and databases.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, these records or information contained therein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

To parties to a dispute and/or their personal representatives when these individuals are not affiliated with the Department of Defense for review of training, experience and other qualification information contained in the DoD Roster of Neutrals in connection with the appointment of a specific neutral.

To administrative personnel who are not affiliated with the Department of Defense who use information in the system to arrange or manage ADR proceedings.

To non-DoD persons who use information in the system in connection with investigations or disciplinary actions concerning a neutral, including, but not limited to, violations of ethical standards of conduct and/or breaches of state, Federal or local laws or regulations.

The 'Blanket Routine Uses' set forth at the beginning of OSD's compilation of systems of records notices apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Hard copy files are maintained in file cabinets and computer files on magnetic or optical media. All are stored in a secure area.

RETRIEVABILITY:

Files are retrieved by the last name of the neutral, by geographic availability of a neutral, and by experience and type of subject matter expertise of a neutral. Case files for Alternative Dispute Resolution proceedings are retrieved by case file number and not by any personal identifier.

SAFEGUARDS:

Files are maintained in a secure area under the direct control of Office of Alternative Dispute Resolution

personnel during duty hours. Office is locked and building employs Security guards during non-duty hours. Access is restricted to those personnel maintaining the files and to potential users of the information. Access to the electronic portion of the system is controlled by user passwords that are periodically changed.

RETENTION AND DISPOSAL:

Delete entry and replace with 'Files of active neutrals are retained until neutral separates from Roster: Cutoff file on separation and destroy 1 year later.

Rejected neutral applications, correspondence, biographical data including education, training and experience: Cutoff file and destroy 2 years later.

Files of active neutrals who are decertified or removed: Cutoff from active file upon notification of decertification or removal. Destroy 3 years later.

Files of active neutrals who become unavailable due to retirement or death: Cutoff from active file upon notification of retirement or death. Destroy 1 year later.

Alternative Dispute Resolution Case files: Destroy when 10 years old.

Logs and databases tracking ADR cases: Destroy when no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Office of Alternative Dispute Resolution, Defense Legal Services Agency, Defense Office of Hearings and Appeals, Post Office Box 3656, Arlington, VA 22203–1995.

NOTIFICATION PROCEDURES:

Individuals seeking to determine whether information about themselves as neutrals is contained in this system should address written inquiries to Office of Alternative Dispute Resolution, Defense Legal Services Agency, Defense Office of Hearings and Appeals, Post Office Box 3656, Arlington, VA 22203–1995.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about themselves as neutrals in this system should address written inquiries to: Office of Alternative Dispute Resolution, Defense Legal Services Agency, Defense Office of Hearings and Appeals, Post Office Box 3656, Arlington, VA 22203–1995.

CONTESTING RECORDS AND PROCEDURES:

The OSD rules for accessing records, for contesting contents and appealing initial agency determinations are published in OSD Administrative Instruction 81; 32 CFR part 311; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Neutral qualification and experience information; information provided for certification purposes; evaluations by parties to a dispute of the effectiveness of relevant ADR efforts; ADR case files; and logs and databases of ADR proceedings.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

DEPARTMENT OF ENERGY

Office of Fossil Energy

[FE Docket Nos. 93–123–NG, et al.]

Tenaska Gas Co. and Tenaska Washington Partners II, L.P., et al; Orders Granting, Amending and Vacating Authorizations to Import and/or Export Natural Gas

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of Orders.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy gives notice that it has issued Orders granting, amending and vacating various natural gas import and export authorizations. These Orders are summarized in the attached appendix.

These Orders may be found on the FE web site at http://www.fe.doe.gov., or on the electronic bulletin board at (202) 586–7853.

They are also available for inspection and copying in the Office of Natural Gas & Petroleum Import and Export Activities, Docket Room 3E–033, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585, (202) 586–9478. The Docket Room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on May 20, 1998.

John W. Glynn,

Manager, Natural Gas Regulation, Office of Natural Gas & Petroleum, Import and Export Activities, Office of Fossil Energy.

[FE Docket No. 98–20–NG]

TransCanada Gas Services Inc.; Order Granting Long-Term Authorization to Import Natural Gas From Canada

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of order.

SUMMARY: The Office of Fossil Energy of the Department of Energy gives notice that it has issued an order granting TransCanada Gas Services Inc. (TGC Inc.) long-term authorization to import up to 11 billion cubic feet (Bcf) of natural gas per year, and up to 110 Bcf over a 10-year term commencing November 1, 1998, through October 31, 2008, or for 10 years after the commencement of deliveries if deliveries begin after November 1, 1998,

in accordance with the terms of the Purchase/Sale Agreement signed by TCG Inc. and TransCanada Gas Services, A Division of TransCanada Energy Ltd., on February 1, 1998. This gas may be imported from Canada at the interconnection of TransCanada PipeLines Limited and Portland Natural Gas Transmission System near . Pittsburg, New Hampshire, and East Hereford, Quebec, on the United States/Canada border.

This order may be found on the FE website at http://www.fe.doe.gov., or on our electronic bulletin board at (202) 586–7853. It also is available for inspection and copying in the Office of Natural Gas & Petroleum Import and Export Activities docket room, 3E–033, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585, (202) 586–9478. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., May 18, 1998.

John W. Glynn,

Manager, Natural Gas Regulation, Office of Natural Gas & Petroleum Import and Export Activities, Office of Fossil Energy.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP98–547–000]

ANR Pipeline Company; Notice of Application

May 21, 1998.

Take notice that on May 13, 1998, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP98–547–000, an abbreviated application pursuant to Section 7(b) of the Natural Gas Act (NGA) seeking permission and approval to abandon the operation of certain natural gas storage facilities no longer needed for customer or system requirements, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, ANR seeks authority to (1) abandon the operation of three storage fields currently leased from Mid Michigan Gas Storage Company (Mid Michigan), the North Hamilton, Norwich and Orient Storage Fields; (2) abandon by sale to Mid Michigan all facilities, including base gas, owned by ANR in the three storage fields leased by ANR from Mid Michigan; and (3) abandon by sale to Mid Michigan two storage fields currently owned and operated by ANR, the Coldwater and Croton Storage Fields.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before June 11, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or person to whom the protests are directed. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents issued by the Commission, filed by the applicant, or intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as filing an original and 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of such comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a Federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for ANR to appear or be represented at the hearing.

David P. Boergers,

Acting Secretary.

[Docket No. RP94–43–019]

ANR Pipeline Company; Notice of Refund Report

May 21, 1998.

Take notice that on May 15, 1998, ANR Pipeline Company (ANR) tendered for filing a report of refunds made to customers as a result of the settlement approved in Docket No. RP94–43–000. Article XI of the Stipulation & Agreement (S&A) provides that ANR will make refunds within 30 days, of the Effective Date. The Effective Date was March 16, 1998, as a result of the Commission's order accepting and approving, in part, the settlement. ANR Pipeline Company, 82 FERC (CCH) ¶ 61,145 (1998). On April 15, 1998, ANR complied with the S&A and the Commission's order.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before May 28, 1998. Protests will be considered by the Commission in determining the appropriate action to

be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

David P. Boergers,

Acting Secretary.

[Docket No. RP96–234–002]

ANR Pipeline Company; Notice of refund report

May 21, 1998.

Take notice that on May 15, 1998, ANR Pipeline Company (ANR) tendered for filing a report of refunds paid to customers.

ANR states that the refunds relate to ANR's Account No. 858 expenses for the period November 1, 1993 through April 30, 1994. The Commission ruled that ANR did not have tariff authority to track these expenses, and ANR recently withdrew its court appeal of the Commission's order. Accordingly, on April 15, 1998, ANR refunded to eligible customers $4,181,224, consisting of principal amounts totaling $3,446,417 and interest of $734,807.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before May 28, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP98–546–000]

Columbia Gas Transmission Corporation; Notice of Application

May 21, 1998.

Take notice that on May 13, 1998, Columbia Gas Transmission Corporation (Columbia), 12801 Fair Lakes Parkway, Fairfax, Virginia 22030 filed, in Docket No. CP98–546–000, an application pursuant to Sections 7(b) and 7(c) of the Natural Gas Act and Part 157 of the Commission's Regulations for an order permitting and approving the abandonment of Derricks Creek Storage Field, Kanawha County, West Virginia, and a certificate of public convenience and necessity to construct and operate storage pipeline, storage wells, and appurtenant facilities in Ripley Storage Field, Jackson County, West Virginia, as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Columbia requests authorization for the following:

- Abandonment of the Derricks Creek Storage Field in its entirety consisting of 13.1 miles of various size pipeline and 20 active storage wells located in Kanawha County, West Virginia.
- Replacement of working gas capacity and deliverability at the Ripley Storage Field by construction of approximately 3.5 miles of various size storage pipeline, drilling six new storage wells, and improving the deliverability of nine existing wells located in Jackson County, West Virginia.
- Abandonment by sale of up to 5.4 Bcf of base gas within the two storage fields. (4.4 Bcf at Derricks Creek and 1.0 Bcf at Ripley.)

Columbia proposes to invest $7.3 million at the Ripley Storage Field in lieu of the work which would otherwise be required to maintain storage performance at Derricks Creek, which Columbia estimates would have been a minimum of $10 million. Columbia estimates the cost of retiring Derricks Creek to be $700,000. Columbia asserts that the reduction in working gas capacity and deliverability resulting from the abandonment of one storage field will be offset by the replacement activities proposed in an adjacent field. Columbia says there will be no new or expanded services or any net expansion of its storage capabilities.

Columbia says the disposition of proceeds from the proposed sale of the Derricks Creek and Ripley base gas will be made pursuant to Section C, Article IV, of Stipulation II of the Settlement in Docket No. RP95–408 (79 FERC ¶ 61,044 (1997). Columbia states it will comply with the annual reporting requirements provided for in Section D of Article IV.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonments and a grant of the certificate are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Columbia to appear or to be represented at the hearing.

Federal Energy Regulatory Commission

[Docket No. RP98–220–000]

Enron Energy Services, Inc. Enron Capital & Trade Resources Corp.; Notice of Petition For Limited Waiver

May 21, 1998.

Take notice that on May 15, 1998, Enron Energy Services, Inc. (EES) and Enron Capital & Trade Resources Corp. (ECT) (collectively Petitioners) tendered for filing a petition for limited waiver of Section 284.243 of the Commission's regulations and related Commission policy pursuant to Rule 101(e) and 207 of the Commission's Rules of Practice and Procedure.

Petitioners seek a limited waiver of the Commission's regulations regarding the assignment of capacity and the Commission's general policy that a shipper of natural gas on an interstate pipeline must have title to the gas being shipped from the point of receipt to the point of delivery. Petitioners request that the waiver apply only to their transfers of title in transit to Petitioners' sales customers in New York State served by any of five interstate pipelines, CNG Transmission Corporation (CNG), Columbia Gas Transmission Corporation (Columbia), National Fuel Gas Supply Corporation (NFG), Tennessee Gas Pipeline Company (Tennessee), and Transcontinental Gas Pipe Line Corporation (Transco).

Due to the adverse competitive situation created in New York State as a result of our competitors' interpretation of the "shippers must have title" policy and the Commission's capacity release regulations, Petitioners request expedited Commission action on this request in order to permit Petitoners to utilize the same marketing mechanisms being used by their competitors.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before May 28, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public Reference Room.

[Docket No. RP98–222–000]

Kern River Gas Transmission Company; Notice of Proposed Changes in FERC Gas Tariff

May 21, 1998.

Take notice that on May 18, 1998, Kern River Gas Transmission Company (Kern River) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, a number of tariff sheets to become effective January 1, 1997, June 1, 1997, October 1, 1997, or July 1, 1998, as specified in Appendix A of the filing.

Kern River states that the purpose of this filing is to make several minor revisions to Kern River's tariff. Kern River proposes (1) to relocate certain Gas Industry Standards Board (GISB) standards in its tariff and on pending tariff sheets filed in Kern River's Docket No. RP97–342–004 pooling proposal, to increase ease of reference and to eliminate duplication; (2) to correct the stated Gas Research Institute (GRI) surcharge; and (3) to make other general "housekeeping" changes.

Kern River states that a copy of this filing has been served upon its customers and interested state commissions.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. CP98–556–000]

Koch Gateway Pipeline Company; Notice of Application

May 21, 1998.

Take notice that on May 15, 1998, Koch Gateway Pipeline Company (Koch Gateway), P.O. Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP98–556–000 on abbreviated application pursuant to Section 7(b) of the Natural Gas Act for authorization and approval to abandon an obsolete natural gas transportation service for SCM Corporation (SCM) performed under its Rate Schedule X–169 which was authorized in Docket No. CP85–465, all as more fully set forth in the application on file with the Commission and open to public inspection.

Koch Gateway states that abandonment is being proposed because there has not been any service provided under the agreement for a number of years and that the parties have mutually agreed to termination. No imbalances exist. No facilities are proposed to be abandoned and that service obligations to its remaining customers will not be

impaired after abandonment authorization. This service is no longer required by SCM.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (13 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Koch Gateway to appear or be represented at the hearing.

Federal Energy Regulatory Commission

[Docket No. CP98–550–000]

Koch Gateway Pipeline Company; Notice of Application

May 21, 1998.

Take notice that on May 14, 1998, Koch Gateway Pipeline Company (Koch Gateway), 600 Travis Street, P.O. Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP98–550–000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon an obsolete transportation service formerly provided to Union Texas Petroleum (UTP), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Koch Gateway proposes to abandon an obsolete transportation service formerly provided to UTP pursuant to Koch Gateway's Rate Schedule X–38. Koch Gateway states that UTP concurs with the proposed abandonment and that no facilities are proposed to be abandoned. Koch Gateway declares that the abandonment of the obsolete services will relieve them of the associated certificate obligations and will have no impact on the operation of Koch Gateway's system.

Any person desiring to be heard or to make any protest with reference to said Application should on or before June 11, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 18 CFR 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this Application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the abandonment is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission, on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

America (Natural) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, Substitute Third Revised Sheet No. 360, to be effective March 19, 1998.

Natural states that the purpose of this filing is to revise its plan for compliance with 18 CFR 161.3(e), (f), (g), (k), and 18 CFR 250.16(b)(1). On February 17, 1998, Natural tendered tariff sheets to modify Section 35.1 of the General Terms and Conditions of its tariff to comply with the separation of personnel and facilities required by the Commission's Order Following Staff Audit Report and Notice of Proposed Civil Penalties issued January 16, 1998 in Docket Nos. RP97–232–000, et. al. This revised sheet is being submitted to implement changes to that compliance plan required by the Order on Standards of Conduct and Compliance Plan issued April 21, 1998, in Docket No. MG98–6–000.

Natural requested any waivers which may be required to permit the tendered tariff sheet to become effective March 19, 1998, consistent with the effective date requested in the original filing herein on February 17, 1998.

Natural states that copies of the filing have been mailed to Natural's customers, interested state regulatory agencies and all parties set out on the official service list in Docket No. MT98–9–000.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.

Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

David P. Boergers,

Acting Secretary.

NorAm Gas Transmission Company; Notice of Request Under Blanket Authorization

May 21, 1998.

Take notice that on May 13, 1998, NorAm Gas Transmission Company (NGT), 1111 Louisiana, Houston, Texas 77002 filed in Docket NO. CP98–542–000 a request pursuant to Sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.216) for authorization to abandon certain facilities in Oklahoma, under NGT's blanket certificate issued in Docket Nos. CP82–384–000 and CP82–384–001 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

NGT specifically proposes to abandon Line 9–7, a segment of Line 9 and five rural taps, all located in Caddo County, Oklahoma. Both lines serve ARKLA, a division of NorAm Energy Corp. (ARKLA). ARKLA and its customers have consented in writing to the abandonment.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

David P. Boergers,

Acting Secretary.

[Docket No. RP98–221–000]

Northern Border Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

May 21, 1998.

Take notice that on May 18, 1998, Northern Border Pipeline Company (Northern Border) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets to become effective June 15, 1998:

Second Revised Sheet Number 127
Second Revised Sheet Number 138
Second Revised Sheet Number 163
First Revised Sheet Number 164
Second Revised Sheet Number 200
Second Revised Sheet Number 211
Second Revised Sheet Number 213A
Second Revised Sheet Number 215
Second Revised Sheet Number 218
Second Revised Sheet Number 249
Second Revised Sheet Number 261
Third Revised Sheet Number 262
First Revised Sheet Number 262A
First Revised Sheet Number 263
First Revised Sheet Number 264
First Revised Sheet Number 268D
First Revised Sheet Number 268E
Third Revised Sheet Number 300
Second Revised Sheet Number 449

On January 16, 1998, Northern Border filed a request to purchase the line pack gas used in the operation of its system. In the Commission's Order Issuing Certificate dated May 13, 1998, the Commission authorized Northern Border to acquire its line pack gas as described in the application in Docket No. CP98–189–000. These tariff sheets are being filed in compliance with the Commission May 13, 1998 order.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E, Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public

inspection in the Public Reference Room.

Northern Natural Gas Company; Notice of Distribution of Refunds Paid

May 21, 1998.

Take notice that on May 18, 1998, Northern Natural Gas Company (Northern) submitted worksheets reflecting the distribution of refunds paid to jurisdictional sales customers on January 29, 1998 and April 8, 1998. Northern states that these refunds are being made pursuant to the Commission's Order in Public Service Company of Colorado, *et al.*, Docket Nos. RP97–369–000 *et al.*

Commission ordered that "any first seller that collected revenues in excess of the applicable maximum lawful price established by the NGPA a a result of the reimbursement of the Kansas *ad valorem* taxes for sales based upon a tax bill rendered on or after October 3, 1983, shall refund any such excess revenues to the purchaser." The interstate pipelines were then required to make lump-sum cash payments of the Kansas ad valorem tax refunds to the customers who were overcharged. Included with Northern's payments is interest on any amounts received from producers held longer than 30 days by Northern, covering the period from the date Northern received the refund from the producer until the date that refunds were paid out to its customers.

Northern states that a copy of this report is being mailed to each of Northern's affect jurisdictional sales customers.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before May 28, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. RP98–219–000]

Northwest Alaskan Pipeline Company; Notice of Tariff Changes

May 21, 1998.

Take notice that on May 15, 1998, Northwest Alaskan Pipeline Company (Northwest Alaskan), tendered for filing as part of its FERC Gas Tariff, Original Volume No. 2, Forty-Second Revised Sheet No. 5, with an effective date of July 1, 1998.

Northwest Alaskan states that it is submitting Forty-Second Revised Sheet No. 5 reflecting a decrease in total demand charges for Canadian gas purchased by Northwest Alaskan from Pan-Alberta Gas Ltd. (Pan-Alberta) and resold to Pan-Alberta Gas (U.S.), Inc. (PAG–US) under Rate Schedules X–1, X–2, and X–3, and a decrease in total demand charges for Canadian gas purchased from Pan-Alberta and resold to Pacific Interstate Transmission Company (PIT) under Rate Schedule X–4.

Northwest Alaskan states that it is submitting Forty-Second Revised Sheet No. 5 pursuant to the provisions of the amended purchase agreements between Northwest Alaskan and PAG–US and PIT, and pursuant to Rate Schedules X–1, X–2, X–3, and X–4, which provide for Northwest Alaskan to file 45 days prior to the commencement of the next demand charge period (July 1, 1998 through December 31, 1998) the demand charges and demand charge adjustments which Northwest Alaskan will charge during the period.

Northwest Alaskan states that a copy of this filing has been served on Northwest Alaskan's customers and interested state commissions.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Overthrust Pipeline Company; Notice of Refund Report

May 21, 1998.

Take notice that on May 18, 1998, Overthrust Pipeline Company (Overthrust) tendered for filing and acceptance of a refund report to comply with the Commission's April 1, 1998, Order Accepting Contested Settlement, As Modified, in Docket No. RP97–301 and 18 CFR 154.501 of the Commission's regulations.

Overthrust states that on April 17, 1998, it made refunds of $2,108,280.87 to its firm transportation customers in accordance with paragraph III B (1) of the settlement dated October 1, 1997, and in compliance with the Commission's April 1, 1998 order accepting the October 1, 1997 settlement.

Overthrust further states that a copy of this filing has been served upon its effected firm customers and the Public Service Commission of Wyoming.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before May 28, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. PR98–13–000]

The Peoples Gas Light and Coke Company; Notice of Petition for Rate Approval

May 21, 1998.

Take notice on May 7, 1998, The Peoples Gas Light and Coke Company (Peoples Gas) filed a petition for rate approval, pursuant to Section 284.123(b)(2) of the Commission's regulations, requesting that the Commission approve as fair and equitable rates for firm and interruptible storage and parking and loaning services to be effective June 1, 1998. Peoples Gas has filed, as Exhibit B to its petition for rate approval, a revised Operating Statement that incorporates revisions needed to offer firm and interruptible storage services, limited parking and loaning service and title tracking service. At this time, Peoples Gas is not proposing to charge for the title transfer tracking service.

Peoples Gas states that it is an intrastate gas distribution company serving retail customers in the City of Chicago, Illinois. Peoples Gas states that it is a public utility under the Public Utilities Act of Illinois and is subject to the jurisdiction of the Illinois Commerce Commission. Peoples Gas states that it is authorized to provide interstate services in accordance with Section 284.224 of the Commission's regulations.

Peoples Gas proposes for firm storage service, maximum monthly reservation rate of $1.6069 per MMBTu of maximum daily withdrawal quantity; a maximum monthly capacity charge of $0.0643 per MMBtu of maximum storage quantity; and a $0.0485 commodity charge per MMBtu of gas injected into the shipper's storage account. The minimum charge is based on the variable costs associated with the service and would be $0.0002 per MMBtu of gas injected into the shipper's storage account. For the interruptible storage service, Peoples Gas proposes a maximum commodity charge, based on a 100% load factor derivation of the firm storage rate, of $0.0551 per MMBtu of inventory on any day and a minimum charge of $0.0002 per MMBtu of daily inventory. For the parking and loaning service, which includes embedded transportation, the maximum rate, based on storage and transportation costs, would be $0.1231 per MMBtu of inventory any day and the minimum rate would be $0.0002 per MMBtu of inventory on any day. These proposed maximum rates would be subject to discounting.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rate will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to be heard or to protest said filing should file motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First, NE, Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before June 5, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

David P. Boergers,

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 637]

Public Utility District No. 1 of Chelan County, Washington; Notice of Public Utility District No. 1 of Chelan County's Request to Use Alternative Procedures in Filing a License Application

May 21, 1998.

By letter dated May 1, 1998, Public Utility District No. 1 of Chelan County (Chelan PUD) asked to use an alternative procedure in filing an application for a new major license for its Lake Chelan Project No. 637.[1] Chelan PUD has demonstrated that they made a reasonable effort to contact the resource agencies, Indian tribes, non-governmental organizations (NGOs), and others who may be affected by their proposal, and have submitted a communication protocol governing how participants in the proposed process may communicate with each other. Chelan PUD has also submitted several letters of support for their proposal, and it appears that a consensus exists that the use of an alternative procedure is appropriate in this case.

The purpose of this notice is to invite any additional comments on Chelan PUD's request to use the alternative procedure, as required under the final rule for Regulations for the Licensing of Hydroelectric Projects.[2] Additional notices seeking comments on the specific project proposal, interventions and protests, and recommended terms and conditions will be issued at a later date.

The alternative procedure being requested here combines the prefiling consultation process with the environmental review process, allowing the applicant to file an Applicant-Prepared Environmental Assessment (APEA) in lieu of Exhibit E of the license application. This differs from the traditional process, in which the applicant consults with agencies, Indian tribes, and NGOs during preparation of the application for the license and before filing it, but the Commission staff performs the environmental review after the application is filed. The alternative procedure is intended to simplify and expedite the licensing process by combining the prefiling consultation and environmental review processes into a single process, to facilitate greater participation, and to improve communication and cooperation among the participants. The alternative procedure can be tailored to the particular project under consideration.

APEA Process and the Lake Chelan Project Schedule

Chelan PUD has begun working collaboratively with the various interested entities to identify issues that will need to be addressed and studies that will need to be conducted in relicensing the project. Several meetings are scheduled for May and June of this year with initial studies to be conducted during the 1998 summer season. Public scoping meetings are tentatively planned for November 1998. Notice of the scoping meetings will be published at least 30 days prior to the meetings.

Additional studies may be conducted during the summers of 1999 and 2000. Opportunities for requesting additional

[1] The 48-megawatt project consists of a 40-foot high dam on the Chelan River at the lower end of Lake Chelan, a 2-mile long steel and concrete tunnel, and a powerhouse located near the confluence of the Chelan and Columbia Rivers.

[2] 81 FERC 61,103 (1997).

studies will be noticed at least 30 days prior to any study request deadline. A draft license application with preliminary APEA would be distributed for comment in January 2001. The final license application and APEA must be filed with the Commission on March 31, 2004, two years before the expiration date on the existing license. A more detailed schedule and project description may be found at Chelan PUD's web site, located at hhtp://www.chelanpud.org/relicense/.

Comments

Interested parties have 30 days from the date of this notice to file with the Commission, any comments on Chelan PUD's proposal to use the alternative procedures to file an application for the Lake Chelan Hydroelectric Project.

Filing Requirements

Any comments must be filed by providing an original and 8 copies as required by the Commission's regulations to: Federal Energy Regulatory Commission, Office of the Secretary, Dockets—Room 1A, 888 First Street, NE, Washington, DC 20426.

All comment filings must bear the heading "Comments on the Alternative Procedure," and include the project name and number (Lake Chelan Hydroelectric Project, No. 637). For further information, please contact Vince Yearick at (202) 219–2844 or e-mail at vince.yearick@ferc.fed.us.

BILLING CODE 6717–01–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP98–540–000]

Transcontinental Gas Pipe Line Corporations; Notice of Application

May 21, 1998.

Take notice that on May 13, 1998 Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed in the above docket an abbreviated application pursuant to Section 7(c) of the Natural Gas Act and the Regulations of the Federal Energy Regulatory Commission (Commission) for authorization to construct and operate certain pipeline facilities to create additional firm transportation capacity of 700,000 dekatherms per day (dth/d) to serve increased market demand in the Mid-Atlantic and South Atlantic regions of the United States by a proposed in-service date of no later than November 1, 2000 (MarketLink Project).

Transco states that the MarketLink Project will provide a link in the transportation of Canadian and Midwestern natural gas supplies, from expansion projects currently under development and proposed, to markets in New York, New Jersey, Pennsylvania and upstream markets along the Atlantic Seaboard which are accessible through backhaul arrangements on Transco's system. Transco also states that the MarketLink Project provides shipper access to diverse gas supplies at the developing market hub at Leidy, Pennsylvania, including gas supplies sources on any of the six interstate natural gas pipelines that interconnect with Transco at Leidy (including the pipeline system proposed by Independence Pipeline Company) or gas supplies delivered from storage at the Leidy hub.

Transco proposes to provide firm transportation service on an open access, non-discriminatory basis for the following shippers:

Shipper	Maximum daily quantity (Dth/d)	Term (yrs.)
AEC Marketing (USA) Inc	15,000	10
Coral Energy Resources, L.P	50,000	10
Eastern Energy Marketing, Inc	90,000	10
Engage Energy (U.S.), LP	210,000	10
Enron Capital & Trade Resources Corp	30,000	10
LFG Energy, LLC	5,000	15
Natural Gas Clearinghouse	30,000	5
Renaissance Energy (U.S.) Inc	23,000	10
Williams Energy Services Company	210,000	10
Total	663,000	

Transco states that precedent agreements have been executed with shippers for a substantial amount (approximately 95%) of the firm transportation capacity to be created by the MarketLink Project. Transco states that it is in the process of negotiating with other potential shippers that have expressed an interest in the remaining capacity of the project and will file copies of precedent agreements with additional shippers as they are finalized.

Transco states that the firm transportation service under the MarketLink Project will be provided under Rate Schedule FT of Transco's FERC Gas Tariff, Volume No. 1, and Transco's blanket certificate under Part 284(G) of the Commission's regulations. Transco states that the MarketLink shippers were provided the option of paying a cost based recourse rate or an individually-negotiated rate plus fuel and all appliable surcharges under Rate Schedule FT. Transco states that the proposed recourse rate is based on a straight fixed-variable rate design methodology and an incremental cost of service. Transco states that prior to the commencement MarketLink service it will file numbered tariff sheets stating the name of any MarketLink shipper paying a negotiated rate, the negotiated rate, the applicable receipt and delivery points, and the volume to be transported.

Transco states that in order to create the additional 7000,000 Mcf/d of firm capacity, Transco proposes to construct and operate the following facilities:

1. The Haneyville Loop; 24.19 miles of 42-inch diameter pipeline loop between milepost 161.29 in Lycoming County and milepost 142.74 in Lycoming County, Pennsylvania and milepost 185.48 in Clinton County, Pennsylvania,

2. The Williamsport Loop; 13.23 miles of 42-inch diameter pipeline loop between milepost 129.51 in Lycoming County, Pennsylvania and 1.79 miles of 36-inch diameter pipeline loop between milepost 142.74 in Lycoming County and milepost 144.53 in Lycoming County, Pennsylvania,

3. The Benton Loop; 17.73 miles of 42-inch diameter pipeline loop between milepost 28.56 in Luzerne County, Pennsylvania and milepost 115.18 in Columbia, County Pennsylvania,

4. The Allentown Loop; 6.27 miles of 42-inch diameter pipeline loop between milepost 30.29 in Northampton County, Pennsylvania and milepost 36.56 in Northampton County, Pennsylvania,

5. The Clinton Loop; 29.23 miles of 42-inch diameter pipeline loop between milepost 0.14 in Somerset County, New Jersey and milepost 29.37 in Warren County, New Jersey,

6. The Stirling Loop; 23.88 miles of 42-inch diameter pipeline loop between milepost 1789.53 in Somerset County, New Jersey and milepost 1812.36 in Morris County, New Jersey,

7. The Roseland Loop; 18.81 miles of 36-inch diameter pipeline loop between milepost 1820.66 in Essex County, New Jersey and milepost 1839.47 in Bergen County, New Jersey,

8. The Woodbridge Loop; 5.46 miles of 42-inch diameter pipeline loop between milepost 1802.73 in Middlesex

County, New Jersey and milepost 1808.19 in Union County, New Jersey,

9. The Bordentown Loop; 7.10 miles of 36-inch diameter pipeline loop between milepost 18.96 in Burlington County, New Jersey and milepost 26.06 in Burlington County, New Jersey,

10. The Raritan River Loop; 0.30 miles of 42-inch diameter pipeline loop crossing the Raritan River between milepost 1794.70 in Middlesex County, New Jersey and milepost 1795.00 in Middlesex County, New Jersey,

11. The Mt. Laurel Replacement; The replacement of an existing 6.3 miles of 12-inch diameter pipeline loop between milepost 30.53 in Burlington County, New Jersey and milepost 36.83 in Burlington County, New Jersey, with a 36-inch diameter pipeline loop. The 12-inch pipeline segment will be removed and the 36-inch replacement pipeline will be installed in the same trench,

12. Impeller replacement on two (2) existing 12,600 horsepower, turbine-driven compressor units at Transco's existing Compressor Station 520, located at milepost 157.52, in Lycoming County, Pennsylvania,

13. The installation of two (2) new 15,000 horsepower, turbine-driven compressor units, rewheeling of one (1) existing 12,600 horsepower, turbine-driven compressor unit and impeller replacement on two (2) existing 5,500 horsepower, turbine-driven compressor units at Transco's existing Compressor Station 517, located at milepost 115.80, in Columbia County, Pennsylvania,

14. The installation of one (1) 15,000 horsepower, turbine-driven compressor unit, the rewheeling and uprating of an existing 12,600 horsepower, turbine-driven compressor unit to 15,000 horsepower at Transco's existing Compressor Station 515 located at milepost 68.95, in Luzerne County, Pennsylvania,

15. The installation of one (1) 15,000 horsepower, electric motor-driven compressor unit and impeller replacement on two (2) existing 7,000 horsepower, electric motor-driven compressor units at Transco's existing Compressor Station 205 located at milepost 1773.30 in Mercer County, New Jersey,

16. The installation of a 36-inch diameter interconnecting pipeline from the proposed meter building outlet of Independence Pipeline Company, (as proposed in Docket No. CP97–315) to Transco's existing 23-inch Leidy Line "A", 24-inch Leidy Line "B", and 30-inch Leidy Line "C" at milepost 194.06 in Clinton County, Pennsylvania,

17. Modifications to reduce pressure in Transco's 42-inch Mainline C from 1,200 psig to 800 psig at Transco's existing Centerville Regulator Station located at milepost 0.11 in Somerset County, New Jersey,

18. Modifications to reduce pressure in Transco's 36-inch Mainline D from 800 psig to 638 psig at Transco's existing Roseland Regulator Station, located at milepost 1820.66 in Essex County, New Jersey,

19. Modifications to reduce pressure in Transco's 42-inch Mainline E from 800 psig to 638 psig at Transco's existing Linden Regulator Station, located at milepost 1808.19 in Union County, New Jersey, and

20. Modification of inlet/outlet headers at existing Compressor Station 200 at milepost 1722.24 in Chester County, Pennsylvania to provide flow control under certain operating conditions on Transco's Trenton Woodbury Lateral.

Transco states that the proposed facilities, for the most part, will be installed either entirely within or immediately adjacent to existing pipeline or utility rights-of-way and Transco's existing compressor station yards. Transco states that the proposed facilities will cost an estimated $528,767,973.

Transco requests that the Commission issue a preliminary determination on the non-environmental aspects of its proposal by November 1, 1998, and a final order granting the authorizations requested herein by May 1, 1999.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before June 11, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order.

However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transco to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.

[Docket No. RP98–52–004]

Williams Gas Pipelines Central, Inc.; Notice of Filing of Refund Report

May 21, 1998.

Take notice that on May 18, 1998, William Gas Pipelines Central, Inc. (Williams), tendered for filing its refund report of Kansas *ad valorem* taxes.

Williams states that this filing is being made in compliance with Commission order issued September 10, 1997 in Docket Nos. RP97–369–000, *et al.* The September 10 order requires first sellers to make refunds for the period October 3, 1983 through June 28, 1988. The Commission also directed that pipelines file a report concerning their activities to collect and flow through refunds of the taxes at issue.

Williams states that a copy of its filing was served on all of Williams' jurisdictional customers and interested state commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before May 28, 1998. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

David P. Boergers,

Acting Secretary.

Federal Energy Regulatory Commission

[Docket No. CP98–544–000]

Williston Basin Interstate Pipeline Company; Notice of Application

May 21, 1998.

Take notice that on May 13, 1998, Williston Basin Interstate Pipeline Company (Williston Basin), filed in Docket No. CP98–544–000 a request pursuant to Section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to construct a replacement of the Yellowstone River pipeline crossing in Dawson County, Montana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Williston Basin requests authority to construct a replacement of the Yellowstone River pipeline crossing located on its line section 5, between the Cabin Creek compressor plant and the Morgan Creek compressor plant, in Dawson County, Montana. Williston Basin states that the crossing will be constructed under the Yellowstone River through a directional bore and will consist of approximately 1,931 feet of 16-inch pipeline, and that approximately 50 feet of 16-inch pipeline will be trenched in at both the bore entry and exist locations to connect the crossing to Williston Basin's existing line section 5. Williston Basin states that the installation of the new pipeline crossing will allow it to maintain the original capacity, integrity, operational flexibility, and reliability of line section 5 on Williston Basin's pipeline system. Williston Basin estimates the cost to replace the Yellowstone River pipeline crossing to be $463,301.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before June 11, 1998, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commissions final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Williston Basin to appear or be represented at the hearing.

David P. Boergers,

Acting Secretary.

[Project No. 6559–014]

H. Bruce Cox; Notice of Availability of Draft Environmental Assessment

May 21, 1998.

A draft environmental assessment (DEA) is available for public review.

The DEA is for the proposed revocation of the exemption from licensing for the Cox Lake Dam Project. The DEA finds that the proposed revocation would not constitute a major federal action significantly affecting the quality of the human environment. The Cox Lake Dam Project is located on the Deep River, in Randolph County, North Carolina, near the town of Cedar Falls.

The DEA was written by staff in the Office of Hydropower Licensing Federal Energy Regulatory Commission. Copies of the DEA can be obtained by calling the Commission's Public Reference Room at (202) 208–1371.

Please submit any comments on the DEA within 40 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports, or other working papers of substance should be supported by appropriate documentation. Comments should be addressed to: The Secretary, Federal Energy Regulatory Commission, 888 First Street N.E., Washington, D.C. 20426. Please affix Project No. 6559–014 to all comments.

David P. Boergers,

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application Filed With the Commission

May 21, 1998.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Type of Application:* Approval of Minimum Flows to Ensure Protection of Fishery and Wildlife Resources, Maintenance of Water Quality, and Accommodation of Downstream Recreational Activities.

b. *Project Nos:* 2692–018, 2686–018, & 2698–016.

c. *Date Filed:* April 1, 1998.

d. *Applicant:* Nantahala Power and Light Company.

e. *Names of Projects:* Nantahala, West Fork, & East Fork Hydroelectric Projects.

f. *Location:* Clay and Jackson Counties, North Carolina.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Richard Conley, Nantahala Power and Light Company, 301 NP&L Loop, Franklin, NC 28734, (704) 369–4513.

i. *FERC Contact:* Jean Potvin, (202) 219–0022.

j. *Comment Date:* July 2, 1998.

k. *Description of Project:* The licensee has filed for approval of the "Nantahala & Tuckasegee Projects Settlement Agreement." This agreement proposes a minimum instantaneous flow into the East and West Forks of the Tuckasegee River and would require the licensee to provide money to the United States Department of Agriculture Forest Service for rehabilitation of outlet works as mitigation for the Wolf Creek bypass. The licensee would install and maintain calibrated staff gages on the West and East Forks of the Tuckasegee River. The settlement agreement proposes stopping diversions from Dicks Creek. The licensee would release from the White Oak pipeline into Dicks Creek from July to November. Finally, the agreement proposes the minimum flows for recreation, fishery and wildlife resources, and water quality downstream of the Nantahala Project.

1. This notice also consists of the following standard paragraphs: B, C1, and D2.

B. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C1. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS," "PROTESTS", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D2. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

David P. Boergers,

Acting Secretary,

Notice of Intent to File an Application for a New License

May 21, 1998.

a. *Type of filing:* Notice of Intent to File An Application for a New License.

b. *Project No.:* 5044.

c. *Date filed:* April 28, 1998.

d. *Submitted By:* Avondale Mills, Inc., current licensee.

e. *Name of Project:* Sibley Mill Project.

f. *Location:* On the Augusta Canal of the Savannah River, in the City of Augusta, Richmond County, Georgia.

g. *Filed Pursuant to:* Section 15 of the Federal Power Act, 18 CFR 16.6 of the Commission's regulations.

h. *Effective date of current license:* April 1, 1953.

i. *Expiration date of current license:* March 31, 2003.

j. *The project consists of:* (1) intake works, including four steel diversion gates and a 280-foot-long headrace; (2) three generating units with a total installed capacity of 2,475 kW located inside the Sibley Mill structure; (3) a 350-foot-long, 30-foot-wide, 38-foot-deep open tailrace; and (4) appurtenant facilities.

k. Pursuant to 18 CFR 16.7, information on the project is available at: Avondale Mills, Engineering Department, 2 Hickman Street, Graniteville, SC 29829, (803) 663–2334.

l. FERC contact: Tom Dean (202) 219–2778.

m. Pursuant to CFR 16.9 each application for a new license and any competing license applications must be filed with the Commission at least 24 months prior to the expiration of the existing license. All applications for license for this project must be filed by March 31, 2001.

David P. Boergers,

Acting Secretary.

BILLING CODE 6717–01–M

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6103–5]

RIN 2040–AC20

Effluent Guidelines Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed effluent guidelines plan.

SUMMARY: Today's document announces the Agency's proposed plans for developing new and revised effluent guidelines, which regulate industrial discharges to surface waters and to publicly owned treatment works. The document also describes EPA's revisions to its regulation development process, based on recommendations of the Effluent Guidelines Task Force. Section 304(m) of the Clean Water Act requires EPA to publish a biennial Effluent Guidelines Plan. The Agency requests comment on the proposal and will publish a final plan following the close of the comment period.

DATES: Comments must be received on or before July 27, 1998.

ADDRESSES: Submit comments in writing to: Water Docket Clerk (4101), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460. The public record for this notice is available for review in the EPA Water Docket, East Tower Basement, 401 M Street, S.W., Washington, D.C. For access to Docket materials, call (202) 260–3027 between 9 a.m. and 3 p.m. for an appointment. The EPA public information regulation (40 CFR part 2) provides that a reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Eric Strassler, EPA Engineering and Analysis Division, telephone 202–260–7150.

I. Regulated Entities

Today's proposed plan does not contain regulatory requirements and does not provide specific definitions for each industrial category. Entities potentially affected by decisions regarding the final plan are listed below.

Category of entity	Examples of potentially affected entities
Industry/Commercial	Pulp, Paper and Paperboard; Oil and Gas Extraction; Centralized Waste Treatment; Pharmaceutical Manufacturing; Metal Products and Machinery (including electroplating, metal finishing); Landfills; Industrial Waste Combustors (Incinerators); Industrial Laundries; Transportation Equipment Cleaning (truck tanks, railroad tank cars, barge tanks); Iron and Steel Manufacturing; Coal Mining; Petroleum Refining; Textile Mills; Inorganic Chemicals; Steam Electric Power Generating; Photographic Processing; Chemical Formulating, Packaging and Repackaging; Airports.
Agriculture	Feedlots (swine, poultry, dairy and beef cattle); Fish Hatcheries and Farms (Aquaculture).
Federal Government	Metal Products and Machinery (including electroplating, metal finishing); Landfills; Airports.
State Government	Metal Products and Machinery (including electroplating, metal finishing); Municipal Separate Storm Sewer Systems (Urban Storm Water); Landfills; Airports.
Local Government	Metal Products and Machinery (including electroplating, metal finishing); Municipal Separate Storm Sewer Systems (Urban Storm Water); Landfills; Airports.

To determine whether your facility would be regulated, you should carefully examine the applicability criteria in the appropriate proposed rule (previously published or forthcoming). Not all of the categories listed in the above table have been selected for rulemaking. Citations for previously published proposed rules and schedules for forthcoming proposed rules are provided in Appendices A and B of today's document.

II. Legal Authority

Today's document is published under the authority of section 304(m) of the Clean Water Act, 33 U.S.C. 1314(m), which requires EPA to publish a biennial Effluent Guidelines Plan, which sets a schedule for review and revision of existing regulations and identifies categories of dischargers to be covered by new regulations.

III. Introduction

A. Purpose of Today's Document

Today's document announces the Agency's proposed biennial plan pursuant to section 304(m). EPA invites the public to comment on the proposed plan, and following the close of the comment period the Agency will publish a final plan.

B. Overview of Today's Document

The Agency proposes to develop effluent limitation guidelines and standards ("effluent guidelines") as follows:

1. Continue development of nine rules listed in the 1996 Effluent Guidelines Plan (61 FR 52582, October 7, 1996) and the 1997 Update (62 FR 8726, February 26, 1997). The categories are: Pulp, Paper and Paperboard, Phases 2 and 3; Centralized Waste Treatment; Pharmaceutical Manufacturing; Metal Products and Machinery; Landfills; Industrial Waste Combustors (Incinerators); Industrial Laundries;

Transportation Equipment Cleaning; and Iron and Steel Manufacturing.

2. Continue development of 3 rules started by the Agency in 1997: Oil and Gas Extraction (Synthetic-Based Drilling Fluids); Coal Mining (Remining and Western subcategories); and Feedlots (Poultry and Swine subcategories).

3. Begin development of revised effluent guidelines for the Feedlots category (Beef and Dairy Cattle subcategories) and two additional categories (new or revised), by December 1998.

4. Complete preliminary studies on Feedlots, Urban Storm Water, and Airport Deicing.

5. Plan for development of two additional effluent guidelines, either new or revised. EPA's current plan is to begin development of two rules by December 1999.

IV. Effluent Guidelines Program Background

A. Statutory Framework

The Federal Water Pollution Control Act (FWPCA) of 1972 (Pub. L. 92–500, Oct. 18, 1972) (the "Act") established a program to restore and maintain the integrity of the nation's waters. To implement the Act, Congress directed EPA to issue effluent limitation guidelines, pretreatment standards, and new source performance standards for industrial dischargers. These regulations were to be based principally on the degree of effluent reduction attainable through the application of control technologies.

The 1977 amendments to the FWPCA, known as the Clean Water Act Amendments (Pub. L. 95–217, Dec. 27, 1977) (CWA), added an additional level of control for conventional pollutants such as biochemical oxygen demand (BOD) and total suspended solids (TSS), and stressed additional control of 65 toxic compounds or classes of compounds (from which EPA later developed a list of 126 specific "priority pollutants"). To further strengthen the toxics control program, section 304(e), added by the 1977 amendments, authorized the Administrator to establish management practices to control toxic and hazardous pollutants in plant site runoff, spillage or leaks, sludge or waste disposal, and drainage from raw material storage.

The effluent guidelines promulgated by EPA reflect the several levels of regulatory stringency specified in the Act, and they also focus on different types of pollutants. Section 301(b)(1)(A) directs the achievement of effluent limitations requiring application of best practicable control technology currently available (BPT). In general, effluent limitations based on BPT represent the average of the best treatment technology performance for an industrial category. For conventional pollutants listed under section 304(a)(4), section 301(b)(2)(E) directs the achievement of effluent limitations based on the performance of best conventional pollutant control technology (BCT). The Act requires that BCT limitations be established in light of a two-part "cost-reasonableness" test. The test, which assesses the relative costs of conventional pollutant removals, is described in detail in the **Federal Register** notice promulgating the final BCT rule on July 9, 1986 (51 FR 24974).

Both BPT and BCT regulations apply only to direct dischargers, i.e., those facilities that discharge directly into waters of the United States. In general, regulations are not developed to control conventional pollutants discharged by indirect dischargers because the POTWs receiving those wastes normally provide adequate treatment of these types of pollutants or they can be adequately controlled through local pretreatment limits.

For the toxic pollutants listed in section 307(a), and for nonconventional pollutants, sections 301(b)(2)(A), (C), (D) and (F) direct the achievement of effluent limitations requiring application of best available technology economically achievable (BAT). Effluent limitations based on BAT are to represent at a minimum the best control technology performance in the industrial category that is technologically and economically achievable.

In addition to limitations for existing direct dischargers, EPA also establishes new source performance standards (NSPS) under section 306 of the Act, based on the best available demonstrated control technology, processes operating methods, or other alternatives. NSPS apply to new direct dischargers. Generally the NSPS limitations are to be as stringent as, or more stringent than, BAT limitations for existing sources within the category or subcategory.

Although the limitations are based on the performance capability of particular control technologies, including in some cases in-process controls, dischargers may meet their requirements using whatever combination of control methods they choose, such as manufacturing process or equipment changes, product substitution, and water re-use and recycling. The limitations and standards are implemented in permits issued through the National Pollutant Discharge Elimination System (NPDES) pursuant to section 402 of the Act for point sources discharging directly to the waters of the United States.

Section 402 of the CWA provides for the issuance of permits to direct dischargers under NPDES. These permits, which are required by section 301, are issued either by EPA or by a State agency approved to administer the NPDES program. Individual NPDES permits must incorporate applicable technology-based limitations contained in guidelines and standards for the industrial category in question. Where EPA has not promulgated applicable technology-based effluent guidelines for a category, section 402(a)(1)(B) provides that the permit must incorporate such conditions as the Administrator determines are necessary to carry out the provisions of the Act. In other words, the permit writer uses best professional judgment (BPJ) to establish technology-based limitations for the dischargers.

Indirect dischargers are regulated by the general pretreatment regulations (40 CFR part 403), local discharge limits developed pursuant to part 403, and categorical pretreatment standards for new and existing sources (PSNS and PSES) covering specific industrial categories. These categorical standards under sections 307(b) and (c) apply to the discharge of pollutants from non-domestic sources which interfere with or pass through publicly owned treatment works (POTWs), and are enforced by POTWs or by State or Federal authorities. The categorical pretreatment standards for existing sources covering specific industries are generally analogous to the BAT limitations imposed on direct dischargers. The standards for new sources are generally analogous to NSPS.

To ensure that effluent guidelines remain current with the state of the industry and with available control technologies, section 304(b) of the Act provides that EPA shall revise the effluent guidelines at least annually if appropriate. In addition, section 301(d) provides that EPA shall review and if appropriate, revise any effluent limitation required by section 301(b)(2).

B. Components of an Effluent Guideline Regulation

The principal components of most effluent guideline regulations are numerical wastewater discharge limitations controlling specified pollutants for a given category. These are typically concentration-based limits (specified in units such as milligrams of pollutant per liter of water) or

production-based mass limits (specified in units such as milligrams of pollutant per unit of production). Numerical limits also cover parameters such as pH and temperature.

A guideline is often subcategorized based on differences in raw materials, manufacturing processes, characteristics of the wastewaters, or type of product manufactured; in some cases, non-water quality environmental impacts or other appropriate factors that justify the imposition of specialized requirements on the subcategorized facilities are used as a basis. EPA develops a set of effluent limitations for each category or subcategory at each level of control (BPT, BAT, etc.) that is addressed in the guideline.

A guideline also may prescribe Best Management Practices ("BMPs") in addition to or in lieu of numerical limits. BMPs may include, for example, requirements addressing the minimization or prevention of storm water runoff, plant maintenance schedules and requirements addressing the training of plant personnel. The recently promulgated Pulp, Paper and Paperboard rule requires mills to implement BMPs to prevent or otherwise contain leaks and spills of spent pulping liquor, soap, and turpentine and to control intentional diversions of those materials (40 CFR 430.03, 63 FR 18641, April 15, 1998).

C. Traditional Approach to Development of Effluent Guideline Regulations

EPA has accumulated substantial experience and expertise in the course of preparing 51 effluent guidelines. This section of the notice summarizes the various tasks which the Agency typically undertakes in an effluent guideline rulemaking.

Traditionally, EPA begins work on an effluent guideline rulemaking project by tentatively defining the scope and dimensions of the discharger category. The Agency determines the size of the category as it has been defined, using all available sources of information. Given the diversity of regulatory categories, no single source suffices to establish size. At various times, EPA has used one or more of the following sources: Standard published sources, information available through trade associations, data purchased from the Dun and Bradstreet, Inc. data base, other publicly available data bases, U.S. Census Bureau data, other U.S. Government information, and any available EPA data base. If a category is very large and/or diverse, the Agency will determine whether it can be broken down into appropriate categories or subcategories. If more than one subcategory can be identified, the Agency may need to establish priorities for regulation.

EPA works with interested stakeholders early in the regulation development process. State and local regulatory officials familiar with the category are consulted, and business associations and citizen groups are also invited to share information.

Regulatory information about discharger categories has often been obtained by EPA through survey questionnaires, site visits and wastewater sampling. Survey questionnaires solicit detailed information necessary to assess the statutory rulemaking factors (particularly technological and economic achievability of available controls), water use, production processes, and wastewater treatment and disposal practices. A portion of the Agency's questionnaires also seek information necessary to assess the economic achievability of a prospective regulation.

Generally, the Agency uses on-site wastewater sampling and detailed monitoring data to characterize the pollutants found in discharges. Site visits are also used to assess manufacturing processes, wastewater generation, pollutant control technologies, pollution prevention opportunities (e.g., process changes), and potential non-water quality impacts of effluent guidelines (e.g., air emissions, sludge generation, energy usage).

In developing a list of pollutants of concern for a category, EPA initially will study wastewater samples for a broad range of pollutants that can be measured by recognized analytical methods. Currently over 457 pollutants or analytes can be measured by these methods. This includes the subset of 126 pollutants known as "priority" pollutants developed pursuant to CWA section 307(a). EPA will develop new analytical methods to cover additional pollutants as necessary. For example, the Agency has developed new methods for use in the Pesticides, Pulp and Paper, Pharmaceuticals, and Offshore Oil and Gas effluent guidelines. (EPA generally proposes any new methods for public comment concurrently with the proposed rule.)

Most of the effluent sampling and analysis that has been conducted specifically to support effluent guideline regulations promulgated to date has been conducted by EPA. On occasion, however, these activities have been pursued on a cooperative basis with discharging facilities. For example, EPA and numerous pulp and paper manufacturers participated in cooperative efforts to sample and analyze effluent, wastewater treatment sludge, and pulp from domestic mills that bleach chemical pulp in their production processes.

EPA conducts engineering and statistical analyses of the technical data to develop control and treatment options for the pollutants of concern, and the projected costs for these options. The Agency considers the costing information and economic data gathered from the survey and other sources in its economic impact analysis, and then selects one or more of the options as the basis for a rulemaking proposal. It also develops assessments of the environmental impact of the category's discharges, and may conduct a benefit-cost analysis as well.

The Regulatory Flexibility Act of 1980, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA) (Title III of Pub. L. 104–121, March 29, 1996), requires that EPA conduct regulatory flexibility analyses for rules which have a significant economic impact on a substantial number of small entities. These analyses are to assess the impact of the rule on small entities and consider alternative ways of reducing those impacts. Section 344 of SBREFA also requires EPA to organize a "small business advocacy review panel" for each rule where a regulatory flexibility analysis is required.

Prior to publishing a proposed rule, EPA usually conducts a public meeting to discuss the Agency's findings and describe the general outlines of the rule. Following publication, a hearing is conducted during the public comment period, and supplemental notices of new data may be published, if appropriate.

D. Recent Revisions to the Effluent Guidelines Planning Process and Recommendations of the Effluent Guidelines Task Force

EPA has recently revised the Effluent Guidelines planning process based on its discussions with the Effluent Guidelines Task Force, an advisory committee. The Task Force was established by EPA in 1992 to recommend improvements to the effluent guidelines program. The committee consists of members appointed by the Agency from industry, citizen groups, state and local government, the academic and scientific communities, and EPA's Office of Research and Development. The Task Force was created to offer advice to the EPA Administrator on the long-term strategy for the effluent guidelines

VOL 63 ISS 102 MAY 28 1998 UMI

program, and particularly to provide recommendations on a process for expediting the promulgation of effluent guidelines. It is chartered as a subcommittee of the National Advisory Council for Environmental Policy and Technology (NACEPT), the external policy advisory board to the Administrator, pursuant to the Federal Advisory Committee Act (5 U.S.C. App. II, sec. 9(c)).

The Task Force has been focusing on alternative regulatory processes that would allow EPA to promulgate effluent guidelines more rapidly and at lower cost to the government. Several key aspects of the rulemaking process have been discussed, including determination of regulatory scope and data collection.

The Task Force has suggested that EPA consider making decisions on the scope of a regulation early in the rulemaking process. Task Force members generally believe that by focusing on the segment of an industry that is of greatest concern, EPA can reduce its data collection and analysis costs while achieving the majority of benefits that would be achieved by the more exhaustive examination currently given to industrial sectors. Several Task Force members have suggested that additional savings could be realized by limiting the examination of potential control technologies to one or two well-demonstrated technologies, rather than pursuing data on a larger range of technologies employed by good performers in the industry. Similarly, several Task Force members have suggested that by focusing on the known pollutants of greatest concern rather than conducting independent testing of over 400 pollutant parameters, both time and money could be saved. These approaches could lead to more focused regulations that are developed based on early presumptions regarding the most effective control technologies and key pollutant parameters to be controlled.

Key to the success of these approaches is the early involvement of a variety of stakeholders with knowledge of the industry, control technologies, and environmental impacts. Potential drawbacks include a reduced ability to identify pollution prevention opportunities for all or segments of the industry, and a reduced ability to quantify (and monetize) the full range of benefits that will result from the regulation. The Task Force acknowledged that decision-makers would be expected to accept greater risk and make decisions on less comprehensive data if the time and cost savings are to be realized.

The Task Force also suggested that the Agency could reduce both the time and costs for data collection by relying more on existing data sources and less on specially-designed questionnaires.

With respect to technical process and wastewater control data, the Agency could rely on assessments of the current baseline by industry, states, and local municipalities, and supplement those assessments with independent site and sampling episodes.

With respect to performance data, EPA could conduct fewer site visits and sampling episodes compared to previous rules and rely more on existing performance data that meets the Agency's quality control criteria. Since most existing data would be on conventional pollutants, with less data on a limited set of nonconventional and toxic pollutants, this shift to existing data is also linked with the concept of focusing on a limited number of pollutant parameters. Additional sampling for the effluent guideline could also be performed by stakeholders to supplement the Agency's independent efforts. For example, EPA worked with the Association of Metropolitan Sewerage Agencies (AMSA) to develop a sampling protocol which was used by the Hampton Roads Sanitary District, Virginia Beach, VA., to independently sample a facility that falls within the scope of the Metal Products and Machinery regulation. Other associations have expressed interest in conducting their own sampling episodes based on this protocol to further supplement the regulatory record.

With respect to financial and economic information, there is a subset of data that is publicly available for many of the larger, publicly-held entities. Economic impacts on smaller and privately-held entities that may be affected may be more difficult to assess. This difficulty may be offset by a focus on larger sources in the original scoping of the regulatory project.

Each of the three new effluent guideline projects started in late 1997 respond to the Task Force recommendations in one or more ways.

- EPA is developing a focused rule that will establish limitations for the use of synthetic-based drilling fluids (SBFs) in the Oil and Gas Extraction category (40 CFR part 435). Because of the extensive information collected in the previous two rulemakings covering the offshore and coastal subcategories, a limited amount of data collection activities are necessary. The Agency has already acquired data on the characteristics of SBFs and is developing other data in cooperation with the industry and the Departments of Energy and Interior which will be useful in supporting an accelerated regulation development approach. Identifying appropriate toxicity tests, consisting of both aqueous and sediment phase test methods, analytical methods for use with synthetic rather than water-based drilling fluids and technologies for cleaning drill cuttings are in progress and are expected to give results that will be used in developing the proposed rule.
- EPA is developing a focused rule addressing coal remining operations, which are not covered by the existing Coal Mining Category (40 CFR part 434), and alkaline mining operations in the west, for which existing regulations based on sedimentation ponds may not be environmentally effective. Since promulgation in 1985, sediment control technologies have reportedly advanced in both number and sophistication. For this regulation, EPA is implementing a number of the Task Force recommendations. First, EPA is focusing on two segments for which controls have been identified that would result in environmental improvements. Second, the Agency has enlisted the support of the U.S. Office of Surface Mining and the Interstate Mining Compact Commission to assemble and analyze existing information. This information includes information on the current state of the industry that will allow EPA to assess the baseline and economic status. It also includes performance data on pollutant controls that will allow us to assess the effectiveness of technologies and management practices. Pollutants of concern will be determined from among those pollutants for which performance data exist.
- The revisions to the Feedlots category (40 CFR part 412) will also rely on the Task Force recommendations. First, the regulation will focus on specific industry segments, beginning with pork and poultry operations, and then looking at beef and dairy cattle operations. Second, EPA will rely, in part, on stakeholders for background information. For example, the Agency is working with the U.S. Department of Agriculture (USDA) and the major trade associations to develop models (both technical and economic) to depict the current baseline activities, and to assess costs and impacts of alternative controls. EPA has received a "framework" document from the Pork Producers Council which identifies their recommendations for controls of wastes generated at their member facilities. The poultry industry is embarking on a similar effort. The

environmental community has offered to provide their recommendations for regulatory controls for the feedlot industry as a whole. EPA expects to use each of these as well as expertise and research from USDA to evaluate control options.

These new projects are discussed further in section V.A.2 of today's document.

E. NRDC Litigation and Consent Decree

EPA has developed today's proposed Effluent Guidelines Plan pursuant to a consent decree in *NRDC et al* v. *Browner* (D.D.C. Civ. No. 89–2980, January 31, 1992, as modified). The Decree commits EPA to schedules for proposing and taking final action on effluent guidelines, and also for conducting preliminary studies. Some of the categories to be regulated are specified in the Decree. For the remaining required rulemakings, EPA retains the discretion to select guidelines for development based on Agency priorities.

EPA will use the results of the preliminary studies and other information (such as public comments and recommendations from state and local governments) to select industries for future regulation. The Decree requires the Agency to study eleven industries.

The Decree also required EPA to establish the Effluent Guidelines Task Force to formulate recommendations for improvements to the effluent guidelines program. The Task Force has held several public meetings and has submitted recommendations to the EPA Administrator.

Since 1992, EPA and NRDC have agreed to several modifications of the Decree consisting of deadline extensions for certain rules.

V. Today's Proposed Effluent Guidelines Plan

A. Effluent Guidelines Currently Under Development

1. Schedule for Ongoing Rulemaking

The Agency is currently in the process of developing new or revised effluent guidelines for 12 categories. The categories and actual or Consent Decree dates for proposal and final action are set forth in Table 1.

TABLE 1.—EFFLUENT GUIDELINES CURRENTLY UNDER DEVELOPMENT

Category	Proposal	Final action
	Consent decree or publication date	Consent decree
Pulp, Paper and Paperboard, Phases 2 & 3	[1] 12/17/93	[1] 2000–2002
Centralized Waste Treatment	1/27/95	[3] 8/15/99
Pharmaceutical Manufacturing	5/2/95	7/98
Metal Products and Machinery	[2] 5/30/95	12/02
	10/00	
Industrial Laundries	2/17/97	6/99
Landfills	2/6/98	11/99
Industrial Waste Combustors (Incinerators)	2/6/98	11/99
Transportation Equipment Cleaning	5/15/98	6/15/00
Oil and Gas Extraction (Synthetic Drilling Fluids)	12/98	12/00
Iron and Steel Manufacturing	[3] 12/98	[3] 12/00
Coal Mining	12/99	12/01
Feedlots (Poultry and Swine Subcategories)	12/99	12/01

[1] The Pulp, Paper and Paperboard rulemaking is not covered by the January 31, 1992 consent decree and dates reflect projected dates for final promulgation of the 2 phases.
[2] 5/30/95 proposal covered Phase 1 MP&M facilities only. Proposal in 10/00 will cover Phase 1 and 2 facilities combined.
[3] EPA is discussing extensions to consent decree dates with NRDC.

2. Rulemaking Projects Started in 1997

In 1997 EPA began to develop revised or new standards for portions of three categories: Oil and Gas Extraction, Coal Mining, and Feedlots. The rationale for selection and the tentative scope of rulemaking coverage are described below.

a. Oil and Gas Extraction. Oil and Gas Extraction is covered by existing effluent guidelines at 40 CFR part 435. The most recent amendments were promulgated for the Offshore Category (58 FR 12454, March 4, 1993) and the Coastal Subcategory (61 FR 66086, December 16, 1996). This regulatory development project will establish limitations for the use and discharge of synthetic-based drilling fluids (SBFs) where discharge of drilling fluids is permitted. SBFs are used in lieu of oil-based drilling fluids in certain high performance drilling operations. SBFs are not adequately addressed by current effluent limitations for discharge of drilling fluids which were developed based on the use of oil and water-based fluids. Current information suggests that improvements in synthetic-based drilling fluids in recent years have reduced their aquatic toxicity, increased their biodegradability, and reduced the volume of drilling fluids and cuttings wastes generated. Use of synthetic-based drilling fluids instead of water-based drilling fluids in the geographic areas where discharge is allowed will provide additional environmental protection by reducing aquatic toxicity of discharges and reducing the amount of cuttings on the ocean floor.

EPA intends to issue a proposed rule by December 1998 and take final action by December 2000.

b. Coal Mining. Coal Mining activities are covered by existing effluent guidelines at 40 CFR part 434. The existing regulations, however, do not address remining operations, which improve effluent quality and quantity from abandoned mine lands while reclaiming them, and prevent disturbance of previously undisturbed lands. This regulatory project focuses, in part, on remining operations nationwide which will expedite permitting and provide a national standard of environmental performance for these activities.

The existing regulations do not differentiate between alkaline mining operations in the west and the acidic mining operations in other geographic regions. Advances in treatment technologies and Best Management Practices pertinent to alkaline coal

mines in the west show promise of being more protective of water quality than existing standards. Given concerns over the ability of existing regulations to achieve water quality standards established by Native American tribes, EPA intends to explore the development of a new subcategory for alkaline mining operations in the west.

EPA intends to issue a proposed rule by December 1999 and take final action by December 2001.

c. Feedlots (Swine and Poultry Subcategories). Feedlot operations are covered by existing effluent guidelines at 40 CFR part 412. These regulations, which require the largest confined animal feeding operations to achieve zero discharge of wastes to surface waters except under extreme storm events, have not been sufficient to resolve water quality impairment from feedlot operations. Waste spills and leaks from storage lagoons, runoff of wastes from land application, and the combined effect of allowable waste discharges from smaller facilities have led to a range of environmental and health problems ranging from fish kills and accelerated eutrophication of surface waters to contamination of drinking water and shell fish.

This regulatory project focuses on swine and poultry operations which have been identified as substantial contributors of nutrients in surface waters that have severe anoxia (low levels of dissolved oxygen) and problem algae blooms especially in estuarine waters.

EPA intends to issue a proposed rule for the Swine and Poultry Subcategories by December 1999 and take final action by December 2001.

B. Process for Selection of New Effluent Guideline Regulations

Section 304(m) does not specify criteria that the Agency should use to select categories for regulation by effluent guidelines. For the first Effluent Guidelines Plan, published January 2, 1990 (55 FR 80), EPA listed criteria it had used to select categories. The 1992 consent decree, while specifying some of the categories to be regulated, allows the Agency flexibility in selecting future categories for regulation, and does not specify selection criteria. EPA intends to continue to use selection criteria such as those listed in previous Effluent Guidelines Plans. Additionally, in light of recommendations from the Task Force, the Agency has considered the availability of technical data on a category's discharges (both within EPA, at other Federal agencies, and from States, local governments and industry) and the potential for developing a rule on an expedited schedule in determining which projects are good candidates for early implementation of the Effluent Guidelines Task Force recommendations.

1. New Rulemaking Activities

The 1992 consent decree requires that EPA begin two rulemaking projects by December 1998, and begin two additional projects by December 1999. EPA plans to begin development of effluent guidelines for the Beef and Dairy Cattle subcategories of the Feedlots category this year. The Agency will select additional projects at a later date.

a. Feedlots (Beef and Dairy Cattle Subcategories). This regulatory project focuses on dairy and beef cattle operations which represent a large segment of the feedlot industry and have been identified as substantial contributors of nutrients in surface waters that have severe anoxia (low levels of dissolved oxygen) and affect drinking water sources in the western and central regions of the United States.

EPA intends to issue a proposed rule for the Dairy and Beef Cattle Subcategories by December 2000 and take final action by December 2002.

b. Other Rules. EPA has not yet selected additional rulemaking projects. EPA is not proposing specific industrial categories for selection in today's notice. However, based on the data sources listed above, the Agency may choose the next categories from the following list. A brief discussion of candidate categories is provided later in this section.

- Petroleum Refining
- Textile Mills
- Inorganic Chemicals
- Steam Electric Power Generating
- Photographic Processing
- Chemical Formulators and Packagers
- Urban Storm Water
- Airport Deicing
- Fish Hatcheries and Farms
- Other categories identified in public comments on today's proposed plan.

2. Candidates for Effluent Guidelines Rulemaking Projects

Candidate categories for rulemaking include both categories specifically studied by EPA and others about which the Agency has received information on wastewater and storm water discharges and adverse environmental impacts. The public is invited to comment on these categories, as well as recommending other categories for development of new or revised effluent guidelines.

a. Preliminary Studies. The purpose of a Preliminary Study is to describe the nature of pollutant discharges from a category of facilities, and to provide a basis for comparison with other categories for purposes of assigning priorities for regulation. The results of a Preliminary Study for a category are published in a "Preliminary Data Summary." The Preliminary Data Summary presents a synopsis of recent technical and economic information on a category of dischargers. The Preliminary Data Summaries are not used directly as a basis for rulemaking, but are used in the Agency's determination of which categories most require preparation of new or revised effluent guidelines. (They also may be expanded to become guidance documents for NPDES permit writers and POTWs.)

A Preliminary Study typically collects data on the following:

- The products manufactured and/or services provided by a category;
- Number, types and geographic location of facilities;
- Destination of discharges (directly to surface waters, indirectly to POTWs, or both);
- Characterization of the wastewater discharges and identification of pollutants present in the waste streams (e.g., mean concentrations of pollutants, wastewater volumes, mass loadings);
- Sampling and analytical methods employed to ascertain the presence and concentration of pollutants in the wastewater;
- Source reduction, recycling and pollution control technologies in use and potentially applicable to the category;
- Non-water quality environmental impacts associated with wastewater treatment in the category (e.g., air emissions, wastewater treatment sludges, and other wastes including hazardous wastes);
- Cost of control technologies in place and cost estimates for additional controls;
- Cost-effectiveness of reduction of toxic and nonconventional pollutants;
- Estimates of water quality impacts of discharges within the subject category; and
- Economic assessment (current financial condition of facilities, expansion or reduction trends, size characterization of businesses or other organizations, impact of estimated treatment costs on representative facilities).

The type and level of detail of information varies among the Preliminary Data Summaries, depending on the data available to the Agency when each document is prepared and whether the category is covered by an

existing effluent guideline. For example, some of the Summaries have comprehensive, primary data on the number and location of the discharging facilities while others contain estimates drawn from secondary data sources. However, the Summaries represent the Agency's best characterization of industries at the time the summaries are compiled. As additional data are acquired, they are factored into the evaluation process. Consequently, the Preliminary Data Summaries are also subject to revision. The Agency has made the Summaries available to the public and has received comments on some of these studies. Comments are available for review in the record for today's proposed Plan.

b. Previously-Noticed Studies. Six of the completed studies were described in the 1996 Proposed Plan (61 FR 35048): Petroleum Refining; Metal Finishing; Textile Mills; Inorganic Chemicals; Steam Electric Power Generating; and Iron and Steel Manufacturing.

c. Photographic Processing. The Photographic regulations were promulgated in 1976 for BPT (direct dischargers) only, at 40 CFR part 459. Subsequent to promulgation of the BPT rule, EPA collected some additional information to support development of BAT, NSPS and pretreatment standards, but no additional rules were promulgated.

EPA completed a Preliminary Data Summary for the Photographic Processing Industry in 1996. The study found that about 100,000 establishments were listed in 1996 in Dun & Bradstreet data under the term "commercial photo processing." In addition, significant photo processing also occurs as an ancillary activity within the health care profession and at noncommercial facilities such as schools and police departments. Combining all types of facilities, it was estimated that photo processing operations occur at 350,000 to 500,000 locations in the United States. However, virtually none of these photo processing establishments have discharge permits based on the existing effluent guidelines because: (a) Most establishments are indirect dischargers, and no pretreatment standards were established; or (b) those that are direct dischargers do not meet the 1,600 square feet per day processing requirement for applicability under part 459.

The study estimated the water use in 1994 by the commercial sector (approximated to represent 44 percent of total photo processing volume) to be 2,250 million gallons. The major waste stream constituents of concern (with values for the commercial sector) includes sulfates (2.8 million lbs.), ammonia (3 million lbs.), silver (190 thousand lbs.), thiosulfate, and cyanide. Several technologies are available and employed to either treat the wastestreams, or as common in this industry, recover the chemicals and metals in the wastewater for resale or reuse.

Local POTW limits vary from municipality to municipality, but are normally numeric and concentration-based. Frequently, the only pollutant monitored in the indirect discharge permit is silver. Many of the local limits are based on silver nitrate, a highly dissociated and toxic compound. While silver nitrate is used in the production of photographic film and paper, it is not a characteristic pollutant of photo processing wastewaters. Rather, silver in photo processing wastewaters is characteristically in the form of silver thiosulfate complex, which has been shown to be about 20,000 to 40,000 times less toxic, on a concentration basis, to acutely exposed fathead minnows. The local limits may be overly stringent with regard to concentration of silver discharged, while lax on total mass of silver or other pollutants, due to lack of technical expertise and resources available at the local level.

In an effort to provide more technical expertise to photo processing facilities and POTWs, AMSA and the Silver Council, an industry association, have developed a set of recommended silver management practices. They are currently evaluating the effectiveness of the management practices at a variety of sites nationwide.

d. Chemical Formulating, Packaging and Repackaging. EPA completed a Preliminary Data Summary for the Chemical Formulating, Packaging and Repackaging (CFPR) industry in 1996. The summary describes the size and demographics of the industry, CFPR operations and the typical wastewaters generated, as well as the extent to which pollution prevention (P2) techniques are used throughout the industry. In addition, the study compares the operations, P2 techniques and economic viability of the CFPR industry to the Pesticide Formulating, Packaging and Repackaging (PFPR) industry. For the purposes of the study, EPA included the following sectors in the CFPR industry: specialty cleaners, polishes, sanitation preparations, cosmetics, perfumes, personal products, soaps and detergents, adhesives and sealants, paints (non-solvent based), inks (non-solvent based), and water treatment chemicals (non-pesticide).

There are no existing effluent guidelines or categorical standards for the CFPR industry and their discharges are regulated largely through local POTW limitations. The facilities are not subject to general EPA reporting requirements pertaining to their production and wastewater generation and the Agency estimates that there may be as many as 12,800 facilities based on Dun and Bradstreet data. Much of the technical portion of the study discusses anecdotal information collected through contacts with POTWs, regional and state pretreatment coordinators, individual facilities, and trade associations representing several sectors of the CFPR industry. The study also includes information from EPA's Adhesives and Sealants Study ("Summary of Findings: Water and Waste Management for the Adhesives and Sealants Manufacturing Point Source Category," EPA Effluent Guidelines Division, draft report August 1984), the databases for the final PFPR effluent guidelines (40 CFR part 455, 61 FR 57518, November 6, 1996), as well as economic information from the U.S. Economic Census and the Census Bureau's Annual Survey of Manufactures.

The volume of a CFPR facility discharge is small—typically 10 million gallons per year— compared to those from chemical manufacturing facilities. CFPR discharges include surfactants and various organic chemicals. Overall, POTWs report having experienced very few treatment system upsets or pollutant pass-through incidents associated with their CFPR users. Some POTWs have reported foaming problems or high-concentration ("slug") discharges from CFPRs, but these problems have been corrected though a variety of methods available in the general pretreatment program.

e. Urban Storm Water. EPA is conducting a preliminary study of urban storm water discharges to explore how the Effluent Guidelines program can contribute to the Agency's efforts in implementing the national storm water program requirements under section 402(p) of the Clean Water Act. Discharges from municipal separate storm water sewer systems ("MS4") serving a population of 100,000 or more are subject to NPDES storm water permitting requirements at 40 CFR 122.21 and 122.26. The Agency recently published a proposed rule that would extend NPDES permit requirements to smaller MS4s in urbanized areas (63 FR 1536, January 9, 1998).

EPA is considering whether development of effluent guidelines regulations, or additional technical information and guidance on

characterizing storm water discharges and evaluating the efficacy of controls would be useful to discharging facilities in complying with permit requirements. Because the nature of the dischargers and discharges in urban storm water are somewhat different from the industrial discharges usually regulated by effluent guidelines, the study format will vary somewhat to accommodate other issues and concerns. EPA intends that the study will include a summary of existing storm water resources on best management practices (BMPs), a description of adverse environmental impacts from storm water discharges, a summary of available methods for estimating the relationship between storm event size and bacteriological impacts, descriptions of types of regionally-appropriate storm water BMPs (both structural and non-structural) and how to measure their performance, cost and economic impact considerations, and a description of measurable goals that could be used to evaluate the effectiveness of storm water management controls. The Agency will complete a preliminary data summary by December 1998.

f. Airport Deicing. EPA began the Airport Deicing study formally in January 1998, although some site visits were conducted as early as Summer 1997. Early data-gathering efforts for the study have been initiated. The Agency is conducting a literature search on pollution prevention practices related to aircraft deicing, including alternative and innovative deicing practices at airports in the United States, as well as in other countries. The Agency is reviewing previously-collected data as well as information gathered through contacts with the trade associations representing various segments of the industry, environmental groups, manufacturers of deicing chemicals and vendors of deicing-related equipment and treatment technologies. Also, the Agency is planning to review airport storm water monitoring data that is collected under the Multi-Sector General Permit requirements.

The Agency will be conducting site visits to airports of differing sizes and geographic locations. These visits will include airports that employ pollution prevention, on-site recycling or alternative deicing technologies. Specifically, the purposes of the site visits are:

- To gather basic information on a variety of deicing activities and to determine what factors affect deicing operations;
- To determine and evaluate the level of wastewater treatment for any collected deicing fluids;
- To gather information to characterize the raw, untreated effluent generated from any deicing operations in terms of pollutant concentrations, volumes and environmental impacts; and
- To gather information on new or innovative pollution prevention practices.

EPA will examine the effectiveness of the current storm water permitting system and the comparative effectiveness of an effluent guideline approach for airport deicing activities. The Agency will also evaluate the status and trends of de-icing chemical use at airports, including the costs and cost-minimization opportunities of deicing material management, and the development and use of prevention and treatment technologies will be evaluated. Wastewater characterization sampling visits are expected to be conducted next winter. The Agency will complete a preliminary data summary by December 1999.

g. Fish Hatcheries and Farms. EPA considered developing effluent guidelines for fish hatcheries and farms, also called aquaculture facilities, in 1977. A draft development document recommended issuance of BPT limitations, but regulations were not promulgated. ("Development Document for Recommended Effluent Limitations Guidelines and Standards of Performance for the Fish Hatcheries and Farms Point Source Category," EPA Effluent Guidelines Division, draft February 1977.) Aquaculture operations include ponds, tanks, raceways (a series of tanks), netpens, and cages. These operations generate manure, which can adversely affect water quality with BOD, suspended and settleable solids, nutrients, chemical additives (including pesticides), water temperature changes, and pathogens such as streptococcus. Uneaten fish food can also generate nutrient discharges.

Potential problems stemming from aquaculture discharges are described in a recent report by the Environmental Defense Fund ("Murky Waters: Environmental Effects of Aquaculture in the United States," Environmental Defense Fund, Washington, DC, 1997). The report provides an overview of the aquaculture industry and a description of water use, pollutants generated, and environmental impacts. Among the report's recommendations is a call for EPA to promulgate effluent guidelines for aquaculture operations.

EPA is also aware that reports developed by the U.S. Department of Agriculture, the Joint Subcommittee on Aquaculture (a Federal interagency advisory group), and other organizations may address waste issues associated with aquaculture. The Agency invites submission of such reports and other data on aquaculture discharges.

3. Future Studies

EPA has nearly completed its Consent Decree requirements for developing eleven preliminary studies. However, the Agency may develop additional studies from time to time, and several study topics have been suggested. Among the categories that EPA may study are:

- Hospitals
- Ore Mining and Dressing (including Placer Mining)
- Glass Manufacturing
- Canmaking
- Organic Chemicals, Plastics and Synthetic Fibers
- Pulp, Paper and Paperboard (topics not addressed in recent or ongoing rule projects)
- Wood Chip Mills
- Metal Molding and Casting (Foundries)
- Generic Effluent Guideline Issues.

EPA invites submission of data and other comments on these categories and topics.

C. Other Rulemaking Actions

1. Pulp, Paper and Paperboard, Phases 2 & 3

In the Pulp and Paper effort, EPA intends to revise existing limitations in 10 of the 12 subcategories in 2 phases. Phase 2 includes: Unbleached Kraft; Semi-Chemical; Mechanical Pulp; Non-Wood Chemical Pulp; Secondary Fiber Deink; Secondary Fiber Non-Deink; Fine and Lightweight Papers from Purchased Pulp; and Tissue, Filter, Non-Woven, and Paperboard from Purchased Pulp. Phase 3 includes: Dissolving Kraft and Dissolving Sulfite. Guidelines and standards for these 10 subcategories were proposed as part of the Pulp and Paper Rule (also known as the "Cluster Rule") in December of 1993 but final action was deferred in the Phase I Rule promulgated April 15, 1998, based on public comment. The Agency intends to publish notices of data availability prior to taking final action on both phases.

2. Ore Mining and Dressing

EPA had proposed to exclude a waste stream from previously-promulgated effluent guidelines for the Copper, Lead, Zinc, Gold, Silver and Molybdenum Ores Subcategory of the Ore Mining and Dressing Category (40 CFR part 440, subpart J). The Agency published a proposed rule on February 12, 1996 (61 FR 5364). Dewatered tailings generated by the Alaska-Juneau (A–J) gold mine

project near Juneau, Alaska would have been affected by this proposal.

On January 14, 1997, Echo Bay Mines announced that it would terminate its development plans for the A–J mine project. EPA has concluded, in light of the closure of the A–J mine project and the lack of information about other mine sites exhibiting similarly extreme environmental conditions, that it is unnecessary to continue this rulemaking. The Agency published a document withdrawing the proposal on January 16, 1998 (63 FR 2646).

VI. Request for Comments

EPA invites public comment on its plans for development of effluent guidelines and preliminary studies. Comments will be accepted until July 27, 1998. In particular, the Agency is interested in data that would facilitate comparisons of discharger categories with regard to wastestream characteristics, treatment practices and effects on water quality. In addition to the categories discussed or listed in today's notice, EPA will consider information on other categories in developing Effluent Guidelines Plans.

VII. Economic Impact Assessment; Executive Order 12866

Today's document proposes a plan for the review and revision of existing effluent guidelines and for the selection of priority industries for new regulations. This document is not a "rule" subject to 5 U.S.C. 553 and does not establish any requirements; therefore, no economic impact assessment has been prepared. EPA will provide economic impact analyses, regulatory flexibility analyses or regulatory impact assessments, as appropriate, for all of the future effluent guideline rulemakings developed by the Agency.

Under Executive Order 12866 (58 FR 51735, October 4, 1993), the Agency must determine whether the regulatory action is "significant" and therefore subject to Office of Management and Budget (OMB) review and the requirements of the Executive Order. The Order defines "significant regulatory action" as one that is likely to result in a rule that may:

(1) Have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

(2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

It has been determined that this plan is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.

Dated: May 21, 1998.

Robert Perciasepe,

Assistant Administrator for Water.

Appendix A—Promulgated Effluent Guidelines

"Promulgation" refers to the date of promulgation of BAT controls unless otherwise noted. Minor amendments or corrections are not shown.

Category	40 CFR part	Promulgation	Revised rule (P: Proposal F: Final Action) or Study Completion (S)
Aluminum Forming	467	10/83	
Asbestos Manufacturing	427	2/74	
Battery Manufacturing	461	3/84	
Builder's Paper and Board Mills [1]	431	12/86 (BCT)

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6103–6]

Notice of Open Meeting of the Environmental Financial Advisory Board on August 3–4, 1998

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency's (EPA) Environmental Financial Advisory Board (EFAB) will hold an open meeting of the full Board in San Francisco, California on August 3–4, 1998. The meeting will be held at the World Trade Center, Ferry Building, in the Coit Tower Room. The Monday, August 3 session will run from 9 a.m. to 5 p.m. and the August 4 session will begin at 8:30 a.m. and end at approximately 12:00 p.m.

EFAB is chartered with providing analysis and advice to the EPA Administrator on environmental finance. The purpose of this meeting is to discuss work products under EFAB's current strategic action agenda and to develop an action agenda to direct the Board's activities through 1999. Environmental financing topics expected to be discussed include: cost effective environmental management, community-based environmental protection, brownfields redevelopment, Drinking Water State Revolving funds, and small business access to capital.

The meeting will be open to the public, but seating is limited. For further information, please contact Alecia Crichlow, U.S. EPA on 202–564–5188, or Joanne Lynch, U.S. EPA on 202–564–4999.

Dated: May 20, 1998.

Michael W.S. Ryan,

Comptroller.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6103–4]

Amendment to Administrative Order on Consent Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as Amended by the Superfund Amendments and Reauthorization Act—Herriman, Utah

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: Notice is hereby given of a proposed amendment to a settlement under sections 104(a) and 122(a) of the Comprehensive Environmental Response, and Liability Act, as amended, (CERCLA) concerning the Herriman Residential Soils Removal Action Site in Herriman, Utah (Site). Under the Amended Administrative Order on Consent (Order) Kennecott Utah Copper Corporation has agreed to perform certain response actions related to a removal action to be performed at the Site.

DATES: Comments must be submitted on or before June 29, 1998.

ADDRESSES: The Order is available for public inspection at the EPA Superfund Records Center, 999 18th Street, 5th Floor, North Tower, Denver, Colorado. Comments should be addressed to Paul J. Rogers, Enforcement Specialist, (8ENF–T), U.S. Environmental Protection Agency, 999 18 Street, Suite 500, Denver, Colorado, 80202–2405, and should reference the Herriman Residential Soils Removal Action Order, EPA Docket No. CERCLA–VIII–97–08.

FOR FURTHER INFORMATION CONTACT: Paul J. Rogers, Enforcement Specialist, at 303/312–6356.

SUPPLEMENTARY INFORMATION: Pursuant to sections 104(a) and 122(a) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended, (CERCLA), EPA and Kennecott Utah Copper Corporation (Kennecott) entered into an Administrative Order on Consent (Order) concerning the Herriman Residential Soils Removal Action Site in Herriman, Utah (Site), effective July 9, 1997. This Order has been amended to provide for Kennecott's continued participation in response actions at the Site. The Amended Order requires Kennecott Utah Copper Corporation to provide transportation and disposal of no more than 60,000 cubic yards of lead and arsenic contaminated soils removed by EPA generally from the surface to 18 inches in depth and for Kennecott to provide 45,000 cubic yards of replacement soils as part of the Phase II response action. Upon completion of the action, EPA will convenant not to sue Kennecott for any failure to perform the work agreed to in the Order. EPA also proposes to provide Kennecott with contribution protection for matters addressed in this Order to the extent provided by section 113(f)(2) of CERCLA, 42 U.S.C. 9613(f)(2). Matters addressed are defined in the amended Order as response actions taken or to be taken by the EPA or any other person (as that term is defined by section 101(21) of CERCLA, 42 U.S.C. 9601(21)) and all response costs incurred and to be incurred by the EPA or any other person (as that term is defined by section 101(21) of CERCLA, 42 U.S.C. 9601(21)) at or in connection with Herriman Residential Soils Removal. Section 101(21) of CERCLA, 42 U.S.C. 9601(21) states that the term person means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, United States Government, State, municipality, commission, political subdivision of a State, or any interstate body. For a period of thirty (30) days from the date of this publication, the public may submit comments to EPA relating to the contribution protection proposed to be conferred in this Order. A copy of the Order may be obtained from the Superfund Records Center, U.S. Environmental Protection Agency, 999 18th Street, Suite 500, Denver, Colorado, 80202–2405, 303/312–6473. Additional background information relating to the Order and the Site is also available for review at the Superfund Records Center at the address listed above and at the Riverton Public Library, 1830 West 12600 South, Riverton, UT 84065.

Dated: May 1, 1998.

Sharon Kercher ,

Acting Assistant Regional Administrator, Office of Enforcement, Compliance and Environmental Justice, Region VIII.

BILLING CODE 6560–60–M

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) being Reviewed by the Federal Communications Commission

May 15, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden

invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before July 27, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Les Smith at 202–418–0217 or via internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060–0419.

Title: Sections 76.94, 76.95, 76.155, 76.156, 76.157, and 76.159, Syndicated Exclusivity and Network Non-Duplication Rights.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit.

Number of Respondents: 5,392 (1,141 commercial television stations + 4,251 cable television stations).

Estimated Time Per Response: .5 - 2 hours.

Total Annual Burden: 178,640 hours.

Frequency of Response: On Occasion.

Cost to Respondents: $192,132 (operation and maintenance costs for notifications and responses).

Needs and Uses: Sections 76.94(a) and 76.155(a) require television stations and program distributors to notify cable television system operators of non-duplication protection and exclusivity rights being sought. The notification shall include (1) the name and address of the party requesting non-duplication protection/exclusivity rights and the television broadcast station holding the non-duplication right; (2) the name of the program or series for which protection is sought; and (3) the dates on which protection is to begin and end.

Section 76.94(b) requires broadcasters entering into contracts providing for network non-duplication protection to notify cable systems within 60 days of the signing of such a contract. If they are unable to provide notices as provided for in Section 74.94(a), they must provide modified notices that contain the name of the network which has extended non-duplication protection, the time periods by time of day and by network for each day of the week that the broadcaster will be broadcasting programs from that network, and the duration and extent of the protection.

Section 76.94(d) requires broadcasters to provide the following information to cable television systems under the following circumstances: (1) In the event the protection specified in the notices described in paragraphs (a) or (b) of this section has been limited or ended prior to the time specified in the notice, or in the event a time period, as identified to the cable system in a notice pursuant to paragraph (b) of this section, for which a broadcaster has obtained protection is shifted to another time of day or another day (but not expanded), the broadcaster shall, as soon as possible, inform each cable television system operator that has previously received the notice of all changes from the original notice. Notice to be furnished "as soon as possible" under this subsection shall be furnished by telephone, telegraph, facsimile, overnight mail or other similar expedient means. (2) In the event the protection specified in the modified notices described in paragraph (b) of this section has been expanded, the broadcaster shall, at least 60 calendar days prior to broadcast of a protected program entitled to such expanded protection, notify each cable system operator that has previously received notice of all changes from the original notice.

Section 76.155(d) requires that in the event the exclusivity specified in paragraph (a) of this section has been limited or has ended prior to the time specified in the notice, the distributor or broadcaster who has supplied the original notice shall, as soon as possible, inform each cable television system operator that has previously received the notice of all changes from the original notice. In the event the original notice specified contingent dates on which exclusivity is to begin and/or end, the distributor or broadcaster shall, as soon as possible, notify the cable television system operator of the occurrence of the relevant contingency. Notice to be furnished "as soon as possible" under this subsection shall be furnished by telephone, telegraph, facsimile, overnight mail or other similar expedient means.

Sections 76.94(e)(2) and 76.155(c)(2) states that if a cable television system asks a television station for information about its program schedule, the television station shall answer the request.

Sections 76.94(f) and 76.157 require a distributor or broadcaster exercising exclusivity to provide to the cable system, upon request, an exact copy of those portions of the contracts, such portions to be signed by both the network and the broadcaster, setting forth in full the provisions pertinent to the duration, nature, and extent of the non-duplication terms concerning broadcast signal exhibition to which the parties have agreed. Providing copies of relevant portions of the contracts is assumed to be accomplished in the notification process set forth in Sections 76.94 and 76.155.

Section 76.159 (requirements for invocation of protection) requires broadcasters to obtain amended contracts when existing contracts have ambiguous language. We assume all broadcasters that have enforceable syndicated rights in their contracts have by now amended their existing contracts. Any contracts entered into after August 18, 1988, would contain the required language set forth in this section.

Section 76.95(a) states that network non-duplication provisions of Sections 76.92 through 76.94 shall not apply to cable systems serving fewer than 1,000 subscribers. Within 60 days following the provision of service to 1,000 subscribers, the operator of each system shall file a notice to that effect with the Commission, and serve a copy of that notice on every television station that would be entitled to exercise network non-duplication protection against it.

Section 76.156(b) states that the provisions of Sections 76.151 through 76.155 shall not apply to a cable system serving fewer than 1,000 subscribers. Within 60 days following the provision of service to 1,000 subscribers, the operator of each such system shall file

a notice to that effect with the Commission, and serve a copy of that notice on every television station that would be entitled to exercise syndicated exclusivity protection against it.

The purpose of the various notification and disclosure requirements accounted for in this collection is to protect broadcasters who purchase the exclusive rights to transmit syndicated programming in their recognized market areas. The Commission's syndicated exclusivity rules permit, but do not require, broadcasters and program distributors to obtain the same enforceable exclusive distribution rights for syndicated programming that all other video programming distributors possess.

OMB Approval Number: 3060–0547.

Title: Section 76.61 Disputes concerning carriage and Section 76.7 Special relief and must-carry procedures.

Form Number: N/A

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit.

Number of Respondents: 600 (include petitioning and opposing parties for Sections 76.61 and 76.7).

Estimated Time Per Response: 5–40 hours.

Total Annual Burden: 18,000 hours.

Frequency of Response: On Occasion.

Cost to Respondents: $198,000 ($192,000 for filing fees at $960 per fee; postage and stationary costs).

Needs and Uses: This information collection accounts for the paperwork burden associated with disputes concerning carriage contained in Section 76.61 as well as must-carry complaints and other petitions for special relief contained in Section 76.7.

Section 76.61 states that whenever a local commercial television or qualified low power television station believes that a cable operator has failed to meet its carriage or channel positioning obligations, such station shall notify the cable operator, in writing, of the alleged failure and identify its reasons for believing that the cable operator is obligated to carry the signal of such station or position such signal on a particular channel. The cable operator then must respond in writing within 30 days to the notification and either commence to carry the station or state its reasons for believing it is not obligated to carry such signal. The television or low power television station may then file a "must-carry" complaint in accordance with procedures set forth in Section 76.7. Qualified local noncommercial educational television stations may also file "must-carry" complaints with the Commission in accordance with procedures set forth in Section 76.7. Must-carry complaints shall specifically allege the manner in which the cable operator failed to meet its obligations and the basis for such allegations.

Section 76.7 states that on petition by a cable television system operator, a franchising authority, an applicant, permittee, or licensee of a television broadcast or translator station, or by any other interested person, the Commission may waive any provision of the rules relating to cable television systems, impose additional of different requirements, or issue a ruling on a complaint or disputed question. The petition for special relief or must-carry complaint may be submitted informally, by letter, but shall be accompanied by a certificate of service on any cable television operator, franchising authority, station licensee, permittee, or applicant, or other interested person who may be directly affected if the relief requested is granted. Interested parties may submit comments or oppositions to a petition for special relief or a must-carry complaint within twenty days after the date of public notice of the filing of such petition or complaint. The petitioner or complainant may file a reply to the comments or oppositions within 10 days after their submission.

OMB Approval Number: 3060–0548.

Title: Section 76.302 Required recordkeeping for Must-Carry purposes and Section 76.56 Signal Carriage obligations.

Form Number: N/A

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit.

Number of Respondents: 11,000

Estimated Time Per Response: .5 hours - 1 hour.

Total Annual Burden: 66,000 hours.

Frequency of Response: On Occasion.

Cost to Respondents: $110,000 (postage and stationary).

Needs and Uses: Section 76.302 requires the operator of every cable television system to maintain a public inspection file containing a list of all broadcast television stations carried by its system in fulfillment of the must-carry requirements pursuant to Section 76.56 and the designation and location of its principal headend. Sections 76.302 and 76.56(e) state that upon written request from any person, a cable operator is required to provide the list of must-carried signals in writing within 30 days of receipt of such request. Additionally, Section 76.56(d)(3) states that if a cable operator authorizes subscribers to install additional receiver connections, but does not provide the subscriber with such connections, or with the equipment and materials for such connections, the operator shall notify such subscribers of all broadcast stations carried on the cable system which cannot be viewed via cable without a converter box and shall offer to sell or lease such a converter box to such subscribers. The notice, which may be included in routine billing statements, shall identify the signals that are unavailable without an additional connection, the manner for obtaining such additional connection, and instructions for installation. These notification and recordkeeping requirements ensure that subscribers are aware of which channels cannot be viewed without converter boxes and which channels are defined as must-carry. The records kept by cable television systems are reviewed by Commission staff during field inspections and by local public officials to assess the systems' compliance with applicable rules and regulations.

OMB Approval Number: 3060-0652.

Title: Section 76.309 Customer Service Obligations and Section 76.964 Notice to Subscribers.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Businesses or other for-profit; State, local and tribal governments.

Number of Respondents: 11,365 cable systems, 10 franchise authorities.

Estimated Time Per Response: 10 minutes - 1 hour.

Total Annual Burden: 33,975 hours.

Frequency of Response: On occasion.

Cost To Respondents: $100,000 (postage and stationary costs).

Needs and Uses: Sections 76.309 and 76.964 set forth various customer service obligations and notification requirements for changes in rates, programming services and channel positions.

Section 76.309(a) states that franchise authorities must provide affected cable operators 90 days written notice of its intent to enforce customer services standards set forth in Section 76.309(c).

Section 76.309(c)(3)(i)(A) states that cable operators shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request: (1) Products and services offered; (2) Prices and options for programming services and conditions of subscription to programming and other services; (3) Installation and service maintenance policies; (4) Instructions on how to use the cable service; (5)

Channel positions programming carried on the system; and, (6) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.

Section 76.309(c)(3)(i)(B) states that customers will be notified of any changes in rates, programming services or channel positions as soon as possible in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify subscribers 30 days in advance of any significant changes in the other information required by Section 76.309(c)(3)(i)(A).

Section 76.964 states that in addition to the requirement set forth in Section 76.309(c)(3)(i)(B) regarding advance notification to customers of any changes in rates, programming services or channel positions, cable systems shall give 30 days written notice to both subscribers and local franchising authorities before implementing any rate or service change. Such notice shall state the precise amount of any rate change and briefly explain in readily understandable fashion the cause of the rate change (e.g. inflation, changes in external costs or the addition/deletion of channels). When the change involves the addition or deletion of channels, each channel added or deleted must be separately identified. Notices to subscribers shall inform them of their right to file complaints about changes in cable programming service tier rates and services, shall state that the subscriber may file the complaint within 90 days of the effective date of the rate change, and shall provide the address and phone number of the local franchising authority.

Section 76.309(c)(3)(ii)(B) states that in case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within 30 days.

Since the last OMB clearance for this collection, it has been revised in two ways. First, the Section 76.309(a) requirement that franchise authorities must provide affected cable operators 90 days written notice of intent to enforce customer services standards was not previously accounted for in this collection. We now seek clearance for it as part of this collection. Second, a revision to Section 76.309(c)(3)(i)(B) no longer requires cable operators to provide notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between operators and their subscribers. We revise this collection accordingly.The Commission requires the various disclosure and notifications contained in this collection as a means of consumer protection to ensure that subscribers and franchising authorities are knowledgeable of cable operators' business practices, current rates, rate changes for programming, service and equipment, and channel line-up changes.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

BILLING CODE 6712–01–F

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission, Comments Requested

May 20, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before July 27, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Les Smith at 202–418–0217 or via internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060–0287.

Title: Section 78.69 Station records.

Form No.: N/A

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; State, local and tribal governments.

Number of Respondents: 1,800.

Estimated Time Per Response: 26 hours.

Frequency of Response: On Occasion.

Cost to Respondents: $0.

Total Annual Burden: 46,800 hours.

Needs and Uses: Section 78.69 requires that licensees of cable CARS stations maintain various records, including but not limited to records pertaining to transmissions, unscheduled interruptions to transmissions, maintenance, observations, inspections and repairs. Station records are required to be maintained for a period of not less than two years. The records kept pursuant to Section 78.69 provide for a history of station operations and are reviewed by Commission staff during field investigations to ensure that proper operation of the stations is being conducted.

OMB Approval Number: 3060–0667.

Title: Section 76.630 Compatibility with consumer electronic equipment.

Form No.: N/A

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents: 11,000.

Estimated Time Per Response: 1 - 3 hours.

Frequency of Response: On Occasion.

Cost To Respondents: $19,300 ($960 filing fee, plus stationery and postage costs).

Total Annual Burden: 11,160 hours.

Needs and Uses: Section 76.630(a) states that cable system operators shall not scramble or otherwise encrypt signals carried on the basic service tier, though operators may file requests for waivers of this prohibition with the Commission. When filing requests for waivers of this prohibition, operators must notify subscribers by mail of waiver requests. Section 76.630(c) states

that cable system operators that use scrambling, encryption or similar techniques shall offer to supply each subscriber with special equipment that will enable the simultaneous reception of multiple signals. This offer of special equipment must be made to new subscribers at the time they subscribe, to all subscribers at least once each year, and to subscribers that make such requests at any time. Section 76.630(d) states that cable system operators shall provide a consumer education program on compatibility matters to their subscribers in writing. The information shall be provided to subscribers at the time that they first subscribe and at least once a year thereafter, and may be included in one of the cable system's regular subscriber billings. The Commission has set forth these disclosure requirements for consumer protection purposes, to inform subscribers of compatibility matters, and notify subscribers of cable operators' requests to waive the prohibition on signal encryption.

BILLING CODE 6712–01–F

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) being Reviewed by the Federal Communications Commission

May 21, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before July 27, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commission, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judy Boley at 202–418–0214 or via internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval No.: 3060–0425.

Title: Section 74.913, Selection procedure for mutually exclusive ITFS applications.

Form No.: n/a.

Type of Review: Extension of currently approved collection.

Respondents: Not-for-profit institutions.

Number of Respondents: 150.

Estimated Time Per Response: 53 hours for settlement agreements (3 hours respondent, 30 hours contract attorney, 20 hours consulting engineer) and 1 hour statements of number of students.

Frequency of Response: On occasion reporting requirement.

Cost to Respondents: $425,000.

Estimated Total Annual Burden: 250 hours.

Needs and Uses: Section 74.913(c) requires qualified ITFS applicants, with the same point accumulation, to submit any agreement to divide the use of the channels within thirty days from the date of Commission decision. If no agreement is reached and submitted to the Commission within thirty days, the selectee will be determined through the tie-breaker mechanism of Section 74.913(d).

Section 74.913(d) requires each applicant tied in a comparative selection proceeding to submit a statement of the number of students at its proposed receive locations who are formally enrolled in classes for credit toward an academic degree or diploma, or a legally required certification or license. This claim of students, who would benefit from the proposed system, must correlate to and be supported by the educational programs proposed in its application. This statement must be served on the other tied competing applicant(s).

Applicants will not be required to submit their agreements or statements unless and until it is determined that they are tied in a comparative selection proceeding.

The data will be used by FCC staff to determine the most qualified applicant to provide ITFS service to the public. The statement served on other tied competing applicant(s) will provide an opportunity for competing applicants to respond to any apsect of the enrollment submissions.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

BILLING CODE 6712–01–F

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection Submitted to OMB for Review and Approval

May 19, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, and utility, clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated information techniques or other forms of information technology.

DATES: Written comments should be submitted on or before June 29, 1998. If

you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 234, 1919 M St., NW, Washington, DC 20554 or via internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Les Smith at 202–418–0214 or via internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060–0560.

Title: Section 76.911, Petition for reconsideration of certification.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business and other for-profit entities; State, local and tribal governments.

Number of Respondents: 45 [(20 petitions × 2 parties) + 5 competing operators].

Estimated Time Per Response: 2–10 hours.

Frequency of Response: On occasion reporting requirement; third party disclosure.

Cost to Respondents: $410 (postage and stationery costs).

Total Annual Burden: 410 hours.

Needs and Uses: Section 76.911 states that a cable operator, or other interested party, may challenge a franchising authority's certification by filing a petition for reconsideration. The petition may allege either that the cable operator is not subject to rate regulation because effective competition exists, or that the franchising authority does not meet the Commission's certification standards. The burden associated with the petition process was not previously accounted for in this collection; therefore, this collection has been revised. Section 76.911(b)(2) also states that if evidence establishing effective competition is not otherwise available, then cable operators may request from a competitor information regarding the competitor's reach and number of subscribers. A competitor must respond to such request within 15 days and such responses may be limited to numerical totals. Commission staff use information derived from petitions for reconsideration of certification to resolve disputes concerning the presence or absence of effective competition in franchise areas and to determine whether there are grounds for denying franchising authority certifications to regulate rates.

BILLING CODE 6712–10–P

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

May 18, 1998.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418–1379.

Federal Communications Commission.

OMB Control No.: 3060–0717.

Expiration Date: 05/31/2001.

Title: Billed Party Preference for InterLATA 0+ Calls, CC Docket No. 92–77 (47 CFR Sections 64.703(a), 64.709, 64.710).

Form No.: N/A.

Respondents: Business or other for-profit entities.

Estimated Annual Burden: 1500 respondents; 446.10 hours per response (avg.); 699,157 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: $198,000.

Frequency of Response: On occasion, annually, third party disclosure.

Description: 1. Section 64.709, OSP Informational Tariff Filing Requirement: In the Second Report and Order and Order on Reconsideration issued in CC Docket No. 92–77 (released January 29, 1998), the Commission codifies the OSP informational tariff filings at 47 CFR 64.709. OSPs currently are required by statute, *i.e.*, 47 U.S.C. § 226(h)(1)to file informational tariffs with the Commission. The new rules governing the filing of such tariffs codify existing FCC requirements. The Commission also amended the rules to increase the usefulness of informational tariffs by requiring that such tariffs include specific rates expressed in dollars and cents as well as applicable per-call aggregator surcharges or other per-call fees, if any, that are collected from consumers. (Number of respondents: 300; annual burden per respondent: 50 hours; total annual burden: 16,500 hours). 2. Section 64.703(a)(4), Disclosures: In the Second Report and Order and Order on Reconsideration, the Commission amends its rules, effective generally July 1, 1998, to require operator services providers (OSPs) to disclose orally to away-from-home callers, at no cost to such callers, how they may obtain all applicable charges for a call placed through an OSP, without the caller having to hang up to dial a separate number. The Commission's decision is intended to make it easier for callers using operator services at pay phones, hotels and other call aggregator locations to obtain immediately the total cost to them of making a call using the carrier selected by the pay phone or premises owner before the call is made. Subsection 64.703(a)(4) is added, which requires each OSP to disclose, audibly and distinctly to the consumer, at no charge and before connecting any interstate call, how to obtain rate quotations, including any applicable surcharges, if the call is to be placed through the carrier selected by the payphone or premises owner. (No. of respondents: 630; annual burden per respondent: 6–8 secs per call; total annual burden: 13,711 hours). 3. Section 64.710, Operator services for prison inmate phones. New Section 64.710 requires providers of interstate operator services to inmates at correctional institutions to identify themselves, audibly and distinctly, to the party to be billed for the call and also disclose immediately thereafter to that party how he or she, without having to hang up to dial a separate number, may obtain the charges for the call, before the carrier may connect, and bill for, a call. (No. of respondents; 570; annual burden per respondent: 4 hours; total annual hour burden: 2280 hours). 4. Section 64.703(a)(1)-(3), Consumer Information, Branding by OSPs. Section 64.703(a)(1)-(3), requires that operator service providers disclose to consumers their identity, and upon request by the consumer, the rates for the call, collection methods for the charges, and complaint procedures. 47 U.S.C. Section 226 required adoption of this rule. Providers of operator services are required to identify itself, audibly and distinctly, to both the calling party and the called party, rather than just one party. This requirement was a response to a widespread failure of operator service providers to disclose information necessary for informed consumer choice in the marketplace. This requirement is currently approved

by OMB under OMB control number 3060–0666 and is not being modified by the Second Report and Order and Order on Reconsideration in CC Docket No. 92–77. It is being consolidated with and is now approved under OMB control number 3060–0717 as suggested by OMB. (No. of respondents: 630; annual burden per respondent: 2 secs per call; total annual burden: 666,666).

The new information disclosure rules will make it easier for callers using operator services provided at call aggregator phones, and prison-inmate phones, to obtain immediately the cost of the call, prior to the call being connected. This should eliminate the surprise that many consumers encounter upon subsequently receiving the bill or bills containing what they believe to be excessive charges or surcharges for such calls. Further, requiring that carriers divulge this information without the consumer having to dial a separate telephone number more readily enables consumers to obtain valuable information necessary in making the decision whether to have that carrier carry the call at the identified rates. OSPs are required under Section 226(h)(1) of the Communications Act to file informational tariffs with the Commission and to update these tariffs regularly. The tariffs are filed to protect consumers from unfair and deceptive practices relating to their use of operator services to place interstate telephone calls; and to ensure that consumers have the opportunity to make informed choices in making such calls. Obligation to comply: mandatory.

OMB Control No.: 3060–0817.

Expiration Date: 05/31/2001.

Title: Computer III Further Remand Proceedings: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95–20.

Form No.: N/A.

Respondents: Businesses or other for profit entities.

Estimated Annual Burden: 5 respondents; 2 hours per response (avg.); 20 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: $0.

Frequency of Response: On occasion; semi-annually.

Description: In the Further Notice of Proposed Rulemaking issued in CC Docket Nos. 95–20 and 98–10, the Commission seeks to eliminate outdated, unnecessary regulations, while continuing to protect against potential anticompetitive behavior by the Bell operating companies (BOCs) in the provision of information services. In fulfillment of this goal, the Commission proposed and OMB approved the following collection of information from BOCs: *Open Network Architecture (ONA) Reporting Requirements:* The Commission sought comment on whether we should modify current ONA reporting requirements by reducing the frequency of semi-annual reporting to annual, whether the current quarterly installation and maintenance reports and accompanying annual affidavits are necessary or effective for the nondiscrimination obligations of *Computer III*, whether the separate subsidiary network information disclosure rules should continue to apply to BOCs with *Computer II* subsidiaries, whether the "all-carrier rule" should continue to apply to all carriers, other than incumbent LECs, owning basic transmission facilities, or whether the Commission should eliminate current ONA reporting requirements on the BOCs and GTE. In the FNPRM, the Commission tentatively concludes that the BOCs should be permitted to make one consolidated filing (or posting) for all generic information they currently submit in their semi-annual ONA reports. If adopted, the proposed collections would be used to ensure that BOCs and GTE comply with the *Computer III*, ONA requirements as modified by the FNPRM, and with the Communications Act, as amended, and with Commission policies and regulations. Obligation to respond: mandatory.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, D.C. 20554.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than June 10, 1998.

A. Federal Reserve Bank of Chicago (Philip Jackson, Applications Officer) 230 South LaSalle Street, Chicago, Illinois 60690-1413:

1. Grant County State Bancshares Inc., ESOP, Swayzee, Indiana; to retain voting shares of Grant County State Bancshares, Inc., Swayzee, Indiana, and thereby indirectly retain voting shares of Grant County State Bank, Swayzee, Indiana.

Board of Governors of the Federal Reserve System, May 21, 1998.

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act. Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 19, 1998.

A. Federal Reserve Bank of Boston (Richard Walker, Community Affairs Officer) 600 Atlantic Avenue, Boston, Massachusetts 02106-2204:

1. The 1855 Bancorp, New Bedford, Massachusetts; to acquire 100 percent of the voting shares of Sandwich Bancorp, Inc., Sandwich, Massachusetts, and thereby indirectly acquire Sandwich Cooperative Bank, Sandwich, Massachusetts.

B. Federal Reserve Bank of Richmond (A. Linwood Gill III, Assistant Vice President) 701 East Byrd Street, Richmond, Virginia 23261-4528:

1. Triangle Bancorp, Inc., Raleigh, North Carolina; to acquire 100 percent of the voting shares of the successor by conversion to United Federal Savings Bank, Rocky Mount, North Carolina.

C. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63102-2034:

1. National Commerce Bancorporation, Memphis, Tennessee; to acquire 100 percent of the voting shares of CBC Bancshares, Inc., Collierville, Tennessee, and thereby indirectly acquire The Citizens Bank, Collierville, Tennessee.

2. Union Planters Corporation, and Union Planters Holding Corporation, both of Memphis, Tennessee; to acquire 100 percent of the voting shares of, and thereby merge with AMBANC Corp., Vincennes, Indiana, and thereby indirectly acquire Ambank Indiana, N.A., Vincennes, Indiana, and Ambank Illinois, N.A., Robinson, Illinois.

D. Federal Reserve Bank of Dallas (W. Arthur Tribble, President) 2200 North Pearl Street, Dallas, Texas 75201-2272:

1. Spring Hill Holdings Corporation, Longview, Texas, and Spring Hill (Delaware), Inc., Wilmington, Delaware; to become bank holding companies by acquiring 100 percent of the voting shares of Spring Hill State Bank, Longview, Texas.

Board of Governors of the Federal Reserve System, May 21, 1998.

BILLING CODE 6210–01–F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[Program Announcement No. 93612–983]

Administration for Native Americans: Availability of Financial Assistance

AGENCY: Administration for Native Americans, ACF, DHHS.

ACTION: Announcement of availability of competitive financial assistance for projects administered by the Administration for Native Americans for Native Hawaiian organizations and groups.

SUMMARY: The Administration for Native Americans (ANA) announces the anticipated availability of fiscal year 1998 funds in the area of governance and social and economic development for Native Hawaiian entities. Financial assistance provided by ANA in support of such projects is intended to promote.

EFFECTIVE DATE: The closing date for submission of applications under this program announcement: July 1, 1998.

Native Hawaiian applicants who submitted applications for the May 1, 1998 SEDS closing previously announced in the **Federal Register**, Vol. 62, No. 186, September 25, 1997, pp. 50372–50386, have the opportunity to withdraw their application and submit the same proposal or a different proposal for this closing. Eligible Native Hawaiian entities who do not withdraw their application from the May 1, 1998 SEDS closing, will not be eligible to submit another application under this closing. To withdraw an application, notice must be provided to ANA no later than Midnight, June 15, 1998.

Notice to withdraw an application must be in writing and sent to: Jean Luka, Program Specialist, Administration for Native Americans, 370 L'Enfant Promenade, Mail Stop: HHH 348F, Washington, D.C. 20447. Telefax or e-mail will be accepted. The telefax number is (202) 690–7441 and the e-mail address is: jluka@acf.dhhs.gov.

All instructions to withdraw an application will be confirmed in writing.

FOR FURTHER INFORMATION CONTACT: Jean Luka, Program Specialist, Department of

Health and Human Services, Administration for Children and Families, Administration for Native Americans, 370 L'Enfant Promenade, Mail Stop HHH 348F, Washington, DC 20447, tel: (202) 690–6324, Fax (202) 690–7441, e-mail: jluka@acf.dhhs.gov.

APPLICATION KIT: Application kits, (Approved by the OMB under control number 0980–0294, which expires August 31, 1999) containing the necessary forms and instructions to apply for a grant under this program announcement, may be obtained from: Department of Health and Human Services, Administration for Children and Families, Administration for Native Americans, 370 L'Enfant Promenade, Mail Stop HHH 348F, Washington, D.C. 20447, Attention: 93612–983, Telephone: (202) 690–7776, Fax: (202) 690–7441.

Copies of this program announcement and many of the required forms may be obtained electronically at the ANA World Wide Web Page: http://www.acf.dhhs.gov/programs/ana/index.html

The printed **Federal Register** notice is the only official program announcement. Although, all reasonable efforts are taken to assure that the files on the ANA World Wide Web Page containing electronic copies of this Program Announcement are accurate and complete, they are provided for information only. The applicant bears role responsibility to assure that the copy downloaded and/or printed from any other source is accurate and complete.

SUPPLEMENTARY INFORMATION

Introduction and Purpose

The purpose of this program announcement is to announce the anticipated availability of fiscal year 1998 funds for Native Hawaiian entities, authorized under the Native American Program Act of 1974 (ACT), as amended, to promote the goal of social and economic self-sufficiency for American Indians, Alaska Natives, Native Hawaiians, and Native American Pacific Islanders. Funding authorization is provided under sections 803(a), and 803(d) of the Native American Programs Act of 1974, as amended (Pub. L. 96–644. 88 Stat. 2324, 42 U.S.C. 2991b.).

The Administration for Native Americans assists eligible applicants to undertake 12 to 36 months development projects that are part of long-range comprehensive plans to move toward governance, social, and/or economic self-sufficiency.

The Administration for Native Americans promotes the goal of self-sufficiency in Native American communities primarily through Social and Economic Development Strategies (SEDS) projects.

Eligible applicants may compete for a grant award in each of ANA's competitive areas (published in earlier program announcements). ANA continues its policy that an applicant may only submit one application per competitive funding area.

Part I—ANA Policy and Goals

Provides general information about ANA's policies and goals.

Part II—ANA Competitive Areas

Describes Competitive Area 4: Governance, Social and Economics Development (SEDS) for Native Hawaiian entities under which ANA is requesting applications:

A. Purpose and Availability of Funds;
B. Background;
C. Proposed Projects to be Funded;
D. Eligible Applicants;
E. Grantee Share of the Project; and
F. Review Criteria;

Part III General Application Information and Guidance

Provides important information and guidance that must be taken into account in developing an application:

A. Definitions;
B. General Considerations;
C. Activities That Cannot be Funded by ANA;
D. Multi-Year Projects;
E. Intergovernmental Review of Federal Programs;
F. The Application Process;
G. The Review Process;
H. General Guidance to Applicants;
I. Paperwork Reduction Act of 1995; and
J. Receipt of Applications

Part I—ANA Policy and Goals

The mission of the Administration for Native Americans (ANA) is to promote the goal of social and economic self-sufficiency for American Indians, Alaska Natives, Natives Hawaiians, and other Native American Pacific Islanders.

The Administration for Native Americans believes that a Native American community is self-sufficient when it can generate and control the resources necessary to meet its social and economic goals, and the needs of its members.

The Administration for Native Americans also believes that the responsibility for achieving self-sufficiency resides with the governing bodies of Indian tribes, Alaska Native villages, and in the leadership of Native American groups. A community's progress toward self-sufficiency is based on its efforts to plan, organize, and direct resources in a comprehensive manner which is consistent with its established long-range goals.

The Administration for Native Americans' policy is based on three interrelated goals:

1. Governance: To assist tribal and Alaska Native village governments, Native American institutions, and local leadership to exercise local control and decision-making over their resources.

2. Economic Development: To foster the development of stable, diversified local economics and economic activities which will provide jobs and promote economic well-being.

3. Social Development: To support local access to, control of, and coordination of services and programs which safeguard the health, well-being and culture of people, provide support services and training so people can work, all of which are essential to a thriving and self-sufficient community.

Applicants under this program announcement may propose to undertake 12 to 36 month projects. For each type of project, applicants must describe a locally-determined strategy to carry out a proposed project with fundable objectives and activities. Local long-range planning must consider the maximum use of all available resources, how the resources will be directed to development opportunities, and present a strategy for overcoming the local issues that hinder movement toward self-sufficiency in the community.

Part II—ANA Competitive Areas

This competitive area is in addition to other competitive areas identified in the **Federal Register**, Vol. 62, No. 186, September 25, 1997, pp. 50372–50386, and is designated as competitive area 4. This part describes ANA's funding authorities, priorities, special initiatives, special application requirements, and review criteria under competitive area 4. The standard requirements necessary for each application, as well as standard ANA program guidance and technical guidance are described in Part III of this announcement.

Native Hawaiian applicants who submitted applications for the May 1, 1998 SEDS closing previously announced in the **Federal Register**, Vol. 62, No. 186, September 25, 1997, pp. 50372–50386, have the opportunity to withdraw their application and submit the same proposal or a different proposal for this closing. Eligible Native Hawaiian entities who do not withdraw their application from the May 1, 1998 SEDS closing, will not be eligible to submit another application under this closing. To withdraw an application,

notice must be provided to ANA no later than Midnight, June 15, 1998.

Notice to withdraw an application must be in writing and sent to: Jean Luka, Program Specialist, Administration for Native Americans, 370 L'Enfant Promenade, Mail Stop: HHH 348F, Washington, D.C. 20447. Telefax or e-mail will be accepted. The telefax number is (202) 690–7441 and the e-mail address is jluka@acf.dhhs.gov. All instructions to withdraw an application will be confirmed in writing.

Under this competitive area, ANA will only accept one application per Native Hawaiian entity.

Hawaiian-Specific Social and Economic Development Strategies (SEDS) Projects

A. Purpose and Availability of Funds

The purpose of this competitive area is to announce the anticipated availability of fiscal year 1998 funds for Native Hawaiian social and economic development projects. Approximately $2 million of financial assistance is anticipated under the competitive area for Native Hawaiian governance, social and economic development projects.

With the participation by the State of Hawaii's Office of Hawaiian Affairs and the statutory limitations placed on their funding, funding of successful applicants may be through a combination of state and federal funds.

All funded applications will receive federal awards and the entire project will be monitored by ANA.

ANA plans to award approximately 10–15 grants under this competitive area.

B. Background

ANA assists tribal and village governments, and Native American organizations in their efforts to develop and implement community-based, long-term governance, social and economic development strategies (SEDS). These strategies must promote the goal of self-sufficiency in local communities.

Based on the three ANA goals described in part I, ANA is implementing a special Native Hawaiian social and economic initiative through the joint efforts of the State of Hawaii's Office of Hawaiian Affairs. This special effort is designed to provide financial assistance at the local level or for community-specific projects aimed at improving a community's governance capabilities and for social and economic development.

The SEDS approach is based on ANA's program goals and incorporates two fundamental principles:

1. The local community and its leadership are responsible for determining goals, setting priorities, and planning and implementing programs aimed at achieving those goals. The local community is in the best position to apply its own cultural, political, and socio-economic values to its long-term strategies and programs.

2. Governance and social and economic development are interrelated. In order to move toward self-sufficiency, development in one area should be balanced with development in the others. Consequently, comprehensive development strategies should address all aspects of the governmental, economic, and social infrastructures needed to promote self-sufficient communities. ANA's SEDS policy uses the following definitions:

- *Governmental infrastructure* includes the constitutional, legal, and administrative development requisite for independent governance.
- *Economic infrastructure* includes the physical, commercial, industrial and/or agricultural components necessary for a functioning local economy which supports the life-style embraced by the Native American community.
- *Social infrastructure* includes those components through which health, economic well-being and culture are maintained within the community and that support governance and economic goals.

These definitions should be kept in mind as a local social and economic development strategy is developed as part of a grant application.

A community's movement toward self-sufficiency could be jeopardized if a careful balance between governmental, economic and social development is not maintained. For example, expansion of social services, without providing opportunities for employment and economic development, could lead to dependency on social services.

Conversely, inadequate support services and training could seriously impede productivity and local economic development. Additionally, the necessary infrastructures must be developed or expanded at the community level to support social and economic development and growth. In designing their social and economic development strategies, ANA encourages an applicant to use or leverage all available human, natural, financial, and physical resources.

In discussion their community-based, long-range goals. and the objectives for the proposed projects, ANA recommends that Native organizations include a description of what constitutes their specific community.

ANA encourages the development and maintenance of comprehensive strategic plans which are an integral part of attaining and supporting the balance necessary for successful activities that lead to self-sufficiency.

C. Proposed Projects To Be Funded

This section provides descriptions of activities which are consistent with the SEDS philosophy. Proposed activities should be tailored to reflect the governance, social and economic development, needs of the local community and should be consistent with supportive of the proposed project objectives. Examples of the types of projects that ANA may fund include, but are not limited to, projects that will:

Governance

- Increasing the ability of Hawaiian groups and organizations to plan, develop, and administer a comprehensive program to support community social and economic self-sufficiency (including strategic planning); and
- Increasing awareness of and exercising the legal rights to which Hawaiians are entitled, either by virtue of treaties, the Federal trust relationship, legislative authority, executive orders, administrative and court decisions, or as citizens of a particular state, territory, or of the United States.

Economic Development

- Development of a community economic infrastructure that will result in businesses, jobs, and an economic support structure.
- Establishment or expansion of businesses and jobs in areas such as tourism, specialty agriculture, light and/or heavy manufacturing, construction, housing and fisheries or aquaculture.
- Stabilizing and diversifying a Hawaiian community's economic base through business development ventures; and,
- Creation of microenterprises or private sector development.

Social Development

- Enhancing organizational capabilities to design or administer programs aimed at strengthening the social environment desired by the local community;
- Developing local models related to comprehensive planning and delivery of services;
- Developing programs or activities to preserve and enhance Hawaiian heritage and culture; and
- Establishing programs which involve extended families or Hawaiian

communities in activities that strengthen cultural identity and promote community development or self-esteem.

Other SEDS Relationships. ANA encourages projects designed to use the SEDS approach to help achieve current priorities of the Administration for Children and Families which are to:

- Address welfare reform such as moving families to work.
- Help ensure child support from both parents.
- Create access to afford child care for low income working families.
- Reach children earlier to promote full development, including links to Head Start, Early Head Start and Child Care.
- Help enroll children in quality Head Start and prepare them to be ready to learn.
- Provide safety, permanency and well-being for children and double the number of adoptions from the public child welfare system.

D. Eligible Applicants

Native Hawaiian applicants who submitted applications for the May 1,1998 SEDS closing previously announced in the **Federal Register**, Vol. 62, No. 186, September 25, 1997, pp. 50372–50386, have the opportunity to withdraw their application and submit the same proposal or a different proposal for this closing. Eligible Native Hawaiian entities who do not withdraw their application from the May 1, 1998 SEDS closing, will not be eligible to submit another application under this closing. To withdraw an application, notice must be provided to ANA no later than Midnight, June 15, 1998.

Notice to withdraw an application must be in writing and sent to: Jean Luka, Program Specialist, Administration for Native Americans, 370 L'Enfant Promenade, Mail Stop: HHH 348F, Washington, D.C. 20477. Telefax or e-mail will be accepted. The telefax number is (202) 690–7441 and the e-mail address is: jluka@acf.dhhs.gov All instructions to withdraw an application will be confirmed in writing.

Current Hawaiian ANA SEDS grantees whose project period ends on or before September 30, 1998 are eligible to apply for a grant award under this program.

The following organizations are eligible to apply under this competitive area:

- Non-profit private agencies serving Hawaiians (The populations served may be located on these islands or on the continental United States). The non-profit private agency must submit proof of its non-profit status in the application at the same time of submission. The non-profit agency can accomplish this by providing a copy of their agency's listing in the Internal Revenue Services (IRS) most recent list of tax exempt organizations described in Section 501(c)(3) of the IRS code or by providing a copy of the current valid IRS tax exemption certificate, or by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

All agencies must provide assurance that its duly elected or appointed board of directors is representative of the community, to be served. To establish compliance with the requirement in the regulations for a Board representative of the community applicants should provide information establishing that at least ninety (90) percent of the individuals serving on a non-profit applicant's board fall into one or more or the following categories;

(1) A current or past member of the community to be served; (2) a prospective participant or beneficiary of the project to be funded; or (3) have a cultural relationship with the community to be served.

ANA will only accept one application which serves or impacts a Native Hawaiian community.

E. Grantee Share of the Project

Grantees must provide at least 20 percent of the total approved cost of the project; i.e. the sum of the ACF share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions; although applicants are encouraged to meet their match requirements through cash contributions. Therefore, a project requesting $300,000 in Federal funds must include a match of at least $75,000 (20% of the total $375,000 project cost).

As per 45 CFR 74.2, In-Kind contributions are defined as "the value of non-cash contributions provided by non-Federal third parties. Third party-in kind contributions may be in the form of real property, equipment, supplies and other expendable property, and the value of goods and services directly benefiting and specifically identifiable to the project or program."

In addition, it may include other Federal funding sources where legislation or regulations authorize using specific types of funds for match and provided the source relates to the ANA project.

F. Review Criteria

A proposed project should reflect the purposes of ANA's SEDS policy and program goals described in the Background section of this competitive area: include a social and economic development strategy which reflects the needs and specific circumstances of the local community; and address the specific developmental steps that the Hawaiian community is undertaking toward self-sufficiency.

The evaluation criteria are closely related to each other and are considered as a whole in judging the overall quality of an application. Points are awarded only to applicants which are responsive to this competitive area and these criteria. Proposed projects will be reviewed on a competitive basis using the following evaluation criteria:

(1) Long-Range Goals and Available Resources. (15 points)

(a) The application describes the long-range goals and strategy, including:

- How specific social, governance and economic long-range community goals relate to the proposed project and strategy;
- How the community intends to achieve these goals;
- The relationship between the long-range goals and the applicant's comprehensive community social and economic development plan. (Inclusion of the community's entire development plan is not necessary); and
- A clearly delineated social and economic development strategy (SEDS).

The application identifies and documents pre-existing and planned involvement and support of the community in the planning process and implementation of the proposed project. The type of community you serve and nature of the proposal being made, will influence the type of documentation necessary. Examples of documentation include: community surveys; minutes of community meetings; questionnaires; and/or discussion position papers.

Applications from Native Hawaiian organizations must clearly demonstrate a need for the project, explain how the project was originated, state who the intended beneficiaries will be, and describe how the recipients will actually benefit from the project. Native Hawaiian organizations should define their membership and describe how the organization operates.

(b) Available resources (other than ANA and the non-Federal share) which will assist, and be coordinated with the project are described. These resources should be documented by letters or documents of commitment of resources, not merely letters of support.

- "Letters of support" merely express another organization's endorsement of a proposed project. Support letters are not binding commitment letters or do not

factually establish the authenticity of other resources.

• "Letters and other documents of commitment" are binding when they specifically state the nature, the amount, and conditions under which another agency or organization will support a project funded with ANA funds.

For example, a letter from another Federal agency or foundation pledging a commitment of $200,000 in construction funding to complement proposed ANA funded pre-construction activity is evidence of a firm funding commitment. These resources may be human, natural or financial, and may include other Federal and non-Federal resources. (Applicant statements that additional funding will be sought from other specific sources are not considered a binding commitment of outside resource.)

(2) Organizational Capabilities and Qualifications. (10 points)

(a) The management and administrative structure of the applicant is explained. Evidence of the applicant's ability to manage a project of the proposed scope is demonstrated. The application clearly shows the successful management of projects of similar scope by the organization, and/or by the individuals designated to manage the project.

(b) Position descriptions and/or resumes of key personnel, including those of consultants, are presented. The position descriptions and/or resumes relate specifically to the staff proposed in the Objective Work Plan and in the proposed budget. Position descriptions very clearly describe each position and its duties and clearly relate to the personnel staffing required to achieve the project objectives. Resumes and/or proposed position descriptions demonstrate that the proposed staff are or will be qualified to carry out the project activities. Either the position descriptions or the resumes contain the qualifications and/or specialized skills necessary for overall quality management of the project. Resumes must be included if individuals have been identified for positions in the application.

Note: Applicants are strongly encouraged to give preference to Native Americans in hiring staff and subcontracting services under an approved ANA grant.

(3) Project Objectives, Approach and Activities. (45 points) The application proposes specific project Objective Work Plan(s) with activities related to each specific objective.

The Objective Work Plan(s) in the application includes project objectives and activities for each budget period proposed and demonstrates that each of the objectives and its activities:

• Is measurable and/or quantifiable in terms of results or outcomes;

• Supports the community's social and economic development strategy;

• Clearly relates to the community's long-range goals;

• Can be accomplished with the available or expected resources during the proposed project period;

• Indicates when the objective, and major activities under each objective, will be accomplished;

• Specifies who will conduct the activities under each objective; and

• Supports a project that will be completed, self-sustaining, or financed by other than ANA funds at the end of the project period.

(4) Results or Benefits Expected. (20 points)

Completion of the proposed objectives will result in specific, measurable results. The application shows how the expected results will help the community meet its long-range goals. The specific information provided in the narrative and objective work plans on expected results or benefits for each objective is the standard upon which its achievement can be evaluated at the end of each budget year.

(5) Budget. (10 points)

A detailed and fully explained budget is provided for each budget period requested which:

• Justifies each line item, with a well-written justification, in the budget categories in Section B of the Budget Information of the application, including the applicant's non-Federal share and its source;

• Included and justifies sufficient cost and other necessary details to facilitate the determination of cost allowability and the relevance of these costs to the proposed project; and

• Requests funds which are appropriate and necessary for the scope of the proposed project.

For business development projects, the proposal demonstrates that the expected return on the funds used to develop the project provides a reasonable operating income and return within a future specified time frame.

Part III—General Application Information and Guidance

A. Definitions

References in this program announcement are based on the following definitions:

• *A multi-purpose community-based Native American organzation* is an association and/or corporation whose charter specifies that the community designates the Board of Directors and/or officers of the organization through an elective procedure and that the organization functions in several different areas of concern to the members of the local Native American community. These areas are specified in the by-laws and/or policies adopted by the organization. They may include, but need not be limited to, economic, artistic, cultural, and recreational activities, and the delivery of human serviced such as health care, day care, counseling, education, and training.

• *A multi-year project* is a project on a single theme that requires more than 12 months to complete and affords the applicant an opportunity to develop and address more complex and in-depth strategies than can be completed in one year. A multi-year project cannot be a series of unrelated objectives with activities presented in chronological order over a two or three year period.

• *Budget Period* is the interval of time (usually 12 months) into which the project period is divided for budgetary and funding purposes.

• *Core administration* is funding for staff salaries for those functions which support the organization as a whole, or for purposes unrelated to the actual management or implementation of work conducted under an ANA approved project.

• *Real Property* means land, including land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

• *Construction* is the term which specifies a project supported rough a discretionary grant or a cooperative agreement, to support the initial building of a facility.

B. General Considerations

Non-ANA resources should be leveraged to strengthen and broaden the impact of the proposed project in the community. Project designs should explain how those parts of projects which ANA does not fund will be financed through other sources. For example, ANA does not fund construction. Applicants musts show the relationship of non-ANA funded activities to those objectives and activities that are funded with ANA grant funds.

Costs of fund raising, including financial campaign, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions are unallowable under a grant award. However, even though these costs are unallowable for purposes of computing charges to Federal awards, they must be

treated as direct costs for purposes of determining indirect cost rates and be allocated their share of the organization's indirect costs if they represent activities which (1) include the salaries of personnel, (2) occupy space, and (3) benefit from the organization's indirect costs.

All projects funded by ANA must be completed, or self-sustaining or supported with other than ANA funds at the end of the project period. "Completed" means that the project ANA funded is finished, and the desired result(s) have been attained. "Self-sustaining" means that a project will continue without outside resources. "Supported by other than ANA funds" means that the project will continue beyond the ANA project period, but will be supported by funds other than ANA's.

C. Activities That Cannot Be Funded by ANA

The Administration for Native Americans does not fund:

- Projects that operate indefinitely or require ANA funding on a recurring basis.
- Projects in which a grantee would provide training and/or technical assistance (T/TA) to other tribes or Native American organizations which are otherwise eligible to apply to ANA ("third party T/TA"). However, the purchase of T/TA by a grantee for its own use or for its members' use (as in the case of a consortium), where T/TA is necessary to carry out project objectives, is acceptable.
- The support of on-going social service delivery programs or the expansion or continuation of existing social service delivery programs.
- ANA will not fund the purchase of real property.
- ANA will not fund construction.

Objectives or activities for the support of core administration of an organization. "Core administration" is funding for staff salaries for those functions which support the organization as a whole, or for purposes unrelated to the actual management or implementation of work conducted under an ANA approved project. However, functions and activities that are clearly project related are eligible for grant funding.

For example, the management and administrative functions necessary to carry out an ANA approved project are not considered "core administration" and are, therefore, eligible costs. Additionally, ANA will fund the salaries of approved staff for time actually and reasonably spent to implement a funded ANA project.

Projects or activities that generally will not meet the purposes of this announcement are discussed further in Part III, Section H, General Guidance to Applicants, below.

D. Multi-Year Projects

A multi-year project is a project on a single theme that requires more than 12 months to complete and affords the applicant an opportunity to develop and address more complex and in-depth strategies than can be completed in one year. Applicants are encouraged to develop multi-year projects as defined in Section D of this Part. A multi-year project cannot be a series of unrelated objectives with activities presented in chronological order over a two or three year period.

Awards, on a competitive basis, will be for a one-year budget period, although project periods may be for three years. Applications for continuation grants funded under these awards beyond the one-year budget period, but within a two-to-three year project period, will be entertained in subsequent years on a non-competitive basis, subject to the availability of funds, satisfactory progress of the grantee and determination that continued funding would be in the best interest of the Government. Therefore, this program announcement does not apply to current ANA grantees with multi-year projects that apply for continuation funding for their second or third year budget periods.

E. Intergovernmental Review of Federal Programs

This program is not covered by Executive Order 12372 or 45 CFR Part 100.

F. The Application Process

1. Availability of Application Forms

In order to be considered for a grant under this program announcement, an application must be submitted on the forms supplied and in the manner prescribed by ANA. The application kits containing the necessary forms and instructions may be obtained from: Department of Health and Human Services, Administration for Children and Families, Administration for Native Americans, 370 L'Enfant Promenade, SW., Mail Stop HHH 348F, Washington, D.C. 20447, Attention: 93612–983, Telephone: (202) 690–7776, fax (202) 690–7441.

Copies of this program announcement and many of the required forms may be obtained electronically at the ANA World Wide Web Page: www.acf.dhhs.gov/programs/ana/index.html

The printed **Federal Register** notice is the only program announcement. Although all reasonable efforts are taken to assure that the files on the ANA World Wide Web Page containing electronic copies of the Program Announcement are accurate and complete, they are provided for information only. The applicant bears sole responsibility to assure that the copy downloaded and/or printed from any other source is accurate and complete.

2. Application Submission

One signed original, and two copies, of the grant application, including all attachments, must be mailed on or before the specific closing date of each ANA competitive area to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW, Mail Stop 6C–462, Washington, DC 20447, Attention: Lois B. Hodge, ANA No. 93612–983.

Hand delivered applications are accepted between the hours of 8:00 a.m. to 4:30 p.m., Monday through Friday, if they are either received on or before the deadline date or postmarked on or before the established closing date at: Administration for Children and Families, Division of Discretionary Grants, ACF Mail Room, Second Floor Loading Dock, Aerospace Center, 901 D Street, SW, Washington, DC 20024.

The application (Form 424) must be signed by an individual authorized (1) to act for the applicant tribe or organization, and (2) to assume the applicant's obligations under the terms and conditions of the grant award, including Native American Program statutory and regulatory requirements.

Native Hawaiian applicants who submitted applications for the May 1, 1998 SEDS closing previously announced in the **Federal Register**, Vol. 62, No. 186, September 25, 1997, pp. 50372–50386, have the opportunity to withdraw their application and submit the same proposal or a different proposal for this closing. Eligible Native Hawaiian entities who do not withdraw their application from the May 1, 1998 SEDS closing, will not be eligible to submit another application under this closing. To withdraw an application, notice must be provided to ANA no later than Midnight, June 15, 1998.

Notice to withdraw an application must be in writing and sent to: Jean Luka, Program Specialist, Administration for Native Americans, 370 L'Enfant Promenade, Mail Stop: HHH 348F, Washington, D.C. 20447. Telefax or e-mail will be accepted. The

telefax number is (202) 690–7441 and the e-mail address is: jluka@acf.dhhs.gov.

All instructions to withdraw an application will be confirmed in writing.

Each eligible Native Hawaiian organization may compete for a grant award in each of ANA's competitive funding areas (eg. SEDS, Native Languages Preservation and Enhancement). However, no applicant may receive more than one grant in each area.

If an eligible applicant sends in two applications for the same competitive area, the one with the earlier postmark will be accepted for review unless the applicant withdraws the earlier application.

3. Application Consideration

The ANA Commissioner determines the final action to be taken on each grant application received under this program announcement.

The following points should be taken into consideration by all applicants: Incomplete applications and applications that do not conform to this announcement will not be accepted for review. Applicants will be notified in writing of any such determination by ANA. An incomplete application is one that is: Missing Form SF 424; or Does not have a signature on Form SF 424; or Does not include proof of non-profit status, if applicable.

- Complete applications that conform to all the requirements of this program announcement are subjected to a competitive review and evaluation process (discussed in section G below). Independent review panels consisting of reviewers familiar with Native Hawaiian communities and organizations, evaluate each application using the published criteria in each funding competitive area. As a result of the review, normalized numerical score will be assigned to each application. A normalized score reflects the average score from the reviewers, adjusted to reflect the average score from the panels.
- The Commissioner's funding decision is based on the review panel's analysis of the application, recommendation and comments of ANA staff, State and Federal agencies having contract and grant performance related information, and other interested parties.
- The Commissioner makes grant awards consistent with the purpose of the Act, all relevant statutory and regulatory requirements, this program announcement, and the availability of funds.
- Due to the participation and source of funding from OHA, funding will be from either funding source with limitations as applicable.
- ANA staff cannot respond to requests for information regarding funding decisions prior to the official notification to the applicants.
- After the Commissioner has made decisions on all applications, unsuccessful applicants are notified in writing within 30 days. The notification will be accompanied by a critique including recommendations for improving the application.
- Successful applicants are notified through an official Financial Assistance Award (FAA) document. The FAA will state the amount of Federal funds awarded, the purpose of the grant, the terms and conditions of the grant award, the effective date of the award, the project period, the budget period, and the amount of the non-ACF matching share requirement.

G. The Review Process

1. Initial Application Review

- Applications submitted by the closing date and verified by the postmark under this program announcement will undergo a pre-review to determine that:
- The applicant is eligible in accordance with the Eligible Applicants Section of this announcement; and
- The application is signed and submitted by the deadline explained in section G, Application Due Date, in each competitive area of this announcement;
- The applicant has provided written correspondence that they have withdrawn from the May 1, 1998 SEDS closing previously announced in the **Federal Register**, Vol. 62, No. 186, September 25, 1997, pp. 50372–50386.
- The application narrative, forms and materials submitted are adequate to allow the review panel to undertake an in-depth evaluation and the project described is an allowable type. (All required materials and forms are listed in the Grant Application Checklist in the Application Kit). Applications subjected to the pre-review described above which fail to satisfy one or more of the listed requirements will be ineligible or otherwise excluded from competitive evaluation.

2. Competitive Review of Accepted Applications

Applications which pass the pre-review will be evaluated and rated by an independent review panel on the basis of the specific evaluation criteria listed in Part II. These criteria are used to evaluate the quality of a proposed project, and to determine the likelihood of its success.

3. Appeal of Ineligibility

Applicants who are initially excluded from competitive evaluation because of ineligibility, may appeal an ANA decision of applicant ineligibility. Likewise, applicants may also appeal an ANA decision that an applicant's proposed activities are ineligible for funding consideration. The appeals process is stated in the final rule published in the **Federal Register** on August 19, 1996 (61 FR 42817).

H. General Guidance To Applicants

The following information is provided to assist applicants in developing a competitive application.

1. Program Guidance

- The Administration for Native Americans funds projects that demonstrate the strongest prospects for addressing the stated purposes of this program announcement.
- Projects will not be ranked on the basis of general financial need.
- In discussing the goals, strategy, and problems being addressed in the application, include sufficient background and/or history of the community concerning these issues and/or progress to date, as well as the size of the population to be served. This material will assist the reviewers in determining the appropriateness and potential benefits of the proposed project.
- In the discussion of community-based, long-range goals, Native Hawaiian entities are encouraged to include a description of what constitutes their specific "community."
- Applicants must document the community's support for the proposed project and explain the role of the community in the planning process and implementation of the proposed project. The type of community you serve will determine the type of documentation necessary. Examples of documentation include: community surveys; minutes of community meetings; questionnaires; and/or discussion/position papers.
- Applications from Native Hawaiian organizations must demonstrate a need for the project, explain how the project was originated, state who the intended beneficiaries will be, and describe how the recipients will actually benefit from the project.
- An application should describe a clear relationship between the proposed project, the social and economic development strategy, or environmental or language goals, as appropriate, and

the community's long-range goals or plan.

• The project application, including the Objective Work Plans, must clearly identify in measurable terms the expected results, benefits or outcomes of the proposed project, and the positive or continuing impact that the project will have on the community.

• Supporting documentation, including letters of support, if available, or other testimonies from concerned interests other than the applicant should be included to demonstrate support for the feasibility of the project and the commitment of other resources to the proposed project.

• In the ANA Project Narrative, Section A of the application package, "Resources Available to the Proposed Project," the applicant should describe any specific financial circumstances which may impact on the project, such as any monetary or land settlements made to the applicant, and any restrictions on the use of those settlements. When the applicant appears to have other resources to support the proposed project and chooses not to use them, the applicant should explain why it is seeking ANA funds and not utilizing these resources for the project.

Reviewers of applications for ANA indicate they are better able to evaluate whether the feasibility has been addressed and the practicality of a proposed economic development project, or a new business, if the applicant includes a business plan that clearly describes its feasibility and the approach for the implementation and marketing of the business. (ANA has included sample business plans in the application kit). It is strongly recommended that an applicant use these materials as guides in developing a proposal for an economic development project or business that is part of the application.

• Applications which were not funded under a previous closing date and revised for resubmission should make reference to the changes, or reasons for not making changes, in their current application which are based on ANA panel review comments.

2. Technical Guidance

• It is strongly suggested that the applicant follow the Supplemental Guide included in the ANA application kit to develop an application. The Guide provides practical information and helpful suggestions, and is an aid to help applicants prepare ANA applications.

• Applicants are encouraged to have someone other than the author apply the evaluation criteria in the program announcement and score the application prior to its submission, in order to gain a better sense of the application's quality and potential competitiveness in the ANA review process.

• For purposes of developing an application, applicants should plan for a project start date approximately 60 days after the closing date under which the application is submitted.

• The Administration for Native Americans will not fund essentially identical projects serving the same constituency.

• If a project could be supported by other Federal funding sources, the applicant should fully explain its reasons for not pursuing other Federal funds for the project.

• The Administration for Native Americans will accept only one application, per competitive area, from any one applicant. If an eligible applicant sends in two applications for the same competitive funding area, the one with the earlier postmark will be accepted for review unless the applicant withdraws the earlier application.

• An application from a Native Hawaiian organization must be from the governing body of the organization.

• The Objective Work Plan proposed should be of sufficient detail to become a monthly staff guide for project responsibilities if the applicant is funded.

• If a profit-making venture is being proposed, profits must be reinvested in the business in order to decrease or eliminate ANA's future participation. Such revenue must be reported as general program income. A decision will be made at the time of grant award regarding appropriate use of program income. (See 45 CFR Part 74 and Part 92).

• Applicants proposing multi-year projects must fully describe each year's project objectives and activities.

• Separate Objective Work Plans (OWPs) must be presented for each project year and a separate itemized budget of the Federal and non-Federal costs of the project for each budget period must be included.

• Applicants for multi-year projects must justify the entire time-frame of the project (i.e., why the project needs funding for more than one year) and clearly describe the results to be achieved for each objective by the end of each budget period of the total project period.

• The Administration for Native Americans will critically evaluate applications in which the acquisition of equipment is a major component of the Federal share of the budget. Equipment is tangible, non-expendable personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per "unit." During negotiation, such expenditures may be deleted from the budget of an otherwise approved application, if not fully justified by the applicant and deemed not appropriate to the needs of the project by ANA.

• Applicants are encouraged to request a legibly dated receipt from a commercial carrier or U.S. Postal Service as proof of meeting application deadline.

3. Grant Administrative Guidance

• The application's Form 424 must be signed by the applicant's representative authorized to act with full authority on behalf of the applicant.

• The Administration for Native Americans recommends that the pages of the application be numbered sequentially and that a table of contents be provided. Simple tabbing of the sections of the application is also helpful to the reviewers.

• An application with an original signature and two additional copies are required.

• The Cover Page (included in the Kit) should be the first page of an application, followed by the one-page abstract.

• The applicant should specify the entire project period length on the first page of the Form 424, Block 13, not the length of the first budget period. Should the application propose one length of project period and the Form 424 specify a conflicting length of project period, ANA will consider the project period specified on the Form 424 as the request. ANA may negotiate a reduction of the project period. The approved project period is shown on block 9 of a Financial Assistance Award.

• Line 15a of the Form 424 must specify the Federal funds requested for the first Budget Period, not the entire project period.

• For one-year projects, an applicant may propose up to a 17 month project period. However, the project period for the first year of a multi-year project may only be 12 months.

4. Projects or Activities That Generally Will Not Meet the Purposes of This Announcement

• Projects that request funds for feasibility studies, business plans, marketing plans or written materials, such as manuals, that are not an essential part of the applicant's long-range development plan. As an objective of a larger project, business plans are allowable. However, ANA is not

interested in funding "wish lists" of business possibilities. ANA expects written evidence of the solid investment of time and consideration on the part of the applicant with regard to the development of business plans. Business plans should be developed based on market analysis and feasibility studies regarding the potential success to the business prior to the submission of the application.

- Core administration functions, or other activities, which essentially support only the applicant's on-going administrative functions.
- Project goals which are not responsive to one or more of the funding competitive areas.
- Projects that will not be completed, self-sustaining, or supported by other than ANA funds, at the end of the project period.
- Project goals which are not responsive to one or more of the funding competitive areas.
- Projects that will not be completed, self-sustaining, or supported by other than ANA funds, at the end of the project period.
- ANA will not fund investment capital for purchase or takeover of an existing business, for purchase or acquisition of a franchise, or for purchase of stock or other similar investment instruments.
- Renovation or alteration unless it is essential for the project. Renovation or alteration costs may not exceed the lesser of $150,000 or 25 percent of the total direct costs approved for the entire budget period.
- Projects originated and designed by consultants who provide a major role for themselves in the proposed project and are not members of the applicant organization.

I. Paperwork Reduction Act of 1995 (Pub. L. 104–13)

Public reporting burden for this collection of information is estimated to average 29.5 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information.

The following information collections are included in the program announcement: ANA grant applications, OMB control number 0980–0204, expires August 31, 1999.

An agency may conduct or sponsor, and a person is not required to respond to, collection of information unless it displays a currently valid OMB control number.

J. Receipt of Applications

Applications must either be hand delivered or mailed to the address in Section F, The Application Process: Application Submission. The Administration for Native Americans cannot accommodate transmission of applications by fax or through other electronic media. Therefore, applications transmitted to ANA electronically will not be accepted regrdless of date or time of submission and time of receipt. Videotapes and cassette tapes may not be included as part of a grant application for panel review.

Applications and related materials postmarked after the closing date will be classified as late; and not considered in the current competition.

1. Deadlines

- Mailed applications shall be considered as meeting an announced deadline if they are either received on or before the deadline date or sent on or before the deadline date and received by ACF in time for the independent review to: U.S. Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Mail Stop 6C–462, Washington, D.C. 20447.
- Applicants are cautioned to request a legibly dated U.S. Postal Service postmark or to obtain a legibly dated receipt from a, commercial carrier or the U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.
- Applications hand carried by applicants, applicant couriers, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date or postmarked on or before the deadline date, Monday through Friday (excluding Federal holidays), between the hours of 8:00 am and 4:30 pm at: U.S. Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, ACF Mailroom, 2nd Floor Loading Dock, Aerospace Center, 901 D Street, SW., Washington, DC 20024. (Applicants are cautioned that express/overnight mail services do not always deliver as agreed.)
- ACF cannot accommodate transmission of applications by fax or through other electronic media. Therefore, applications transmitted to ACF electronically will not be accepted regardless of date or time of submission and time of receipt.
- No additional material will be accepted, or added to an application, unless it is postmarked by the deadline date.

2. Late Applications

Applications which do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

3. Extension of Deadlines

The Administration for Children and Families may extend an application deadline for applicants affected by acts of God such as floods and hurricanes, or when there is a widespread disruption of the mails. A determination to extend or waive deadline requirements rests with the Chief Grants Management Officer.

Dated: May 22, 1998.

Gary N. Kimple,

Commissioner, Administration for Native Americans.

[FR Doc. 98–14132 Filed 5–27–98; 8:45 am]

BILLING CODE 4184–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 98N–0304]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on requirements governing applications for FDA approval to market a new drug.

DATES: Submit written comments on the collection of information by July 27, 1998.

ADDRESSES: Submit written comments on the collection of information to the Dockets Management Branch (HFA–305), Food and Drug Administration,

12420 Parklawn Dr., rm. 1–23, Rockville, MD 20857. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Karen L. Nelson, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1482.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Applications for FDA Approval to Market a New Drug—21 CFR Part 314—(OMB Control Number 0910–0001)—Reinstatement

Under section 505(a) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 355(a)), a new drug may not be commercially marketed in the United States, imported, or exported from the United States, unless an approval of an application filed with FDA under section 505(b) or (j) of the act is effective with respect to such drug. Section 505(b) and (j) of the act requires a sponsor to submit to FDA a new drug application (NDA) containing, among other things, full reports of investigations that show whether or not the drug is safe and effective for use, a full list of articles used as components in the drug, a full description of manufacturing methods, samples of the drugs required, specimens of the labeling proposed to be used, and certain patent information as applicable. Under the act, it is the sponsor's responsibility to provide the information needed by FDA to make a scientific and technical determination that the product is safe and effective.

This information collection approval request is for all information requirements imposed on sponsors by the regulations under part 314 (21 CFR part 314) , who apply for approval of a NDA in order to market or to continue to market a drug.

The following sections in part 314 set forth the specific format and content requirements for NDA's.

Section 314.50(a) requires that an application form (Form FDA 356h) must be submitted that includes basic introductory information about the drug as well as a checklist of enclosures. (Section 314.50(a) is already approved by OMB under 0910–0338 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.50(b) requires that an index must be submitted with the archival copy of the application and that it must reference certain sections of the application.

Section 314.50(c) requires that a summary of the application must be submitted that presents a good general synopsis of all the technical sections and other information in the application.

Section 314.50(d) requires that the NDA contain the following technical sections about the new drug: Chemistry, manufacturing, and controls; nonclinical pharmacology and toxicology; human pharmacokinetics and bioavailability; microbiology; clinical data; and statistical section.

Section 314.50(e) requires that the applicant must submit samples of the drug if requested by FDA. In addition, the archival copy of the application must include copies of the label and all labeling for the drug.

Section 314.50(f) requires that case report forms and tabulations must be submitted with the archival copy.

Section 314.50(h) requires that patent information as described under § 314.53 must be submitted with the application. (Section 314.50(h) is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.50(i) requires that a patent certification information must be submitted in 505(b)(2) applications for patents claiming the drug, drug product, method of use, or method of manufacturing. (Section 314.50(i) is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.50(j) requires that applicants that request a period of marketing exclusivity must submit certain information with the application. (Section 314.50(j) is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.50(k) requires that an archival, review, and field copy of the application must be submitted.

Section 314.52 requires that notice of certification of invalidity or noninfringement of a patent to patent holders and NDA holders must be sent by 505(b)(2) applicants and must follow certain content and notification procedures. (Section 314.52 is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.54 sets forth the content requirements for applications filed under section 505(b)(2) of the act.

Section 314.60 sets forth reporting requirements for sponsors who amend an unapproved application.

Section 314.65 states that the sponsor must notify FDA when withdrawing an unapproved application.

Sections 314.70 and 314.71 require that supplements must be submitted to FDA for certain changes to an approved application.

Section 314.72 requires sponsors to report to FDA any transfer of ownership of an application.

Section 314.80(c)(1) and (c)(2) sets forth requirements for expedited adverse drug experience postmarketing reports and followup reports, as well as for periodic adverse drug experience postmarketing reports (Form FDA 3500A). (Section 314.80(c)(1) and (c)(2) is already approved by OMB under 0910–0230 and 0910–0291 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.80(c)(1)(iii) and (i) establishes recordkeeping requirements for reports of postmarketing adverse drug experiences. (Section 314.80(c)(1)(iii) and (i) is already approved by OMB under 0910–0230 and 0910–0291 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.81(b)(1) requires that field alert reports must be submitted to FDA (Form FDA 3331).

Section 314.81(b)(2) requires that annual reports must be submitted to FDA (Form FDA 2252).

Section 314.81(b)(3)(i) requires that drug advertisements and promotional labeling must be submitted to FDA (Form FDA 2253). (Section 314.81(b)(3)(i) is already approved by OMB in "Transmittal of Advertisements and Promotional Labeling for Drugs and Biologics for Human Use," which published in the **Federal Register** of October 24, 1997 (62 FR 55408), and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.81(b)(3)(iii) sets forth reporting requirements for sponsors who withdraw an approved drug product from sale. (Section 314.81(b)(3)(iii) is already approved by OMB under 0910–0045 and is not included in the hour burden estimates in Table 1 of this document).

Section 314.90 sets forth requirements for sponsors who request waivers from FDA for compliance with §§ 314.50 through 314.81. (The information collection hour burden estimate for NDA waiver requests is included in Table 1 of this document under estimates for §§ 314.50, 314.60, 314.70, and 314.71.)

Section 314.93 sets forth requirements for submitting a suitability petition in accordance with 21 CFR 10.20 and 10.30. (Section 314.93 is already approved by OMB under 0910–0183 and is not included in the hour burden estimates in Table 1 of this document.)

The following sections in part 314 set forth requirements when submitting an abbreviated new drug application (ANDA).

Section 314.94(a) and (d) requires that an ANDA must contain the following and information: Application form; table of contents; basis for ANDA submission; conditions of use; active ingredients; route of administration, dosage form, and strength; bioequivalence; labeling; chemistry, manufacturing, and controls; samples; and patent certification.

Section 314.95 requires that notice of certification of invalidity or noninfringement of a patent to patent holders and NDA holders must be sent by ANDA applicants. (Section 314.95 is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.96 sets forth requirements for amendments to an unapproved application.

Section 314.97 sets forth requirements for submitting supplements to an approved ANDA for changes that require FDA approval.

Section 314.98(a) sets forth postmarketing adverse drug experience reporting and recordkeeping requirements. (Section 314.98(a) is already approved by OMB under 0910–0230 and 0910–0291 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.98(c) requires other postmarketing reports: Field alert reports (Form FDA 3331), annual reports (Form FDA 2252), and advertisements and promotional labeling (Form FDA 2253). (The information collection hour burden estimate for field alert reports is included in Table 1 of this document under § 314.81(b)(1); the estimate for advertisements and promotional labeling is included under § 314.81(b)(3)(i).)

Section 314.99(a) requires that sponsors must comply with certain reporting requirements for withdrawing an unapproved ANDA and for a change in ownership of an ANDA.

Section 314.99(b) sets forth requirements for sponsors who request waivers from FDA for compliance with §§ 314.92 through 314.99. (The information collection hour burden estimate for ANDA waiver requests is included in Table 1 of this document under estimates for §§ 314.94(a) and (d), 314.96, and 314.97.)

Section 314.101(a) requires that, if FDA refuses to file an application, the applicant may request an informal conference with FDA and request that the application be filed over protest.

Section 314.107(c)(4) requires notice to FDA by ANDA or 505(b)(2) application holders of any legal action concerning patent infringement. (Section 314.107(c)(4) is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.107(e)(2)(iv) requires that an applicant must submit a copy of the entry of the order or judgement to FDA within 10 working days of a final judgement. (Section 314.107(e)(2)(iv) is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.107(f) requires that an ANDA or 505(b)(2) applicants must notify FDA of the filing of any legal action filed within 45 days of receipt of the notice of certification. A patent owner may also notify FDA of the filing of any legal action for patent infringement. The patent owner or approved application holder who is an exclusive patent licensee must submit to FDA a waiver that waives the opportunity to file a legal action for patent infringement. (Section 314.107(f) is already approved by OMB under 0910–0305 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.110(a)(3) and (a)(4) requires after receipt of an FDA approvable letter, an applicant may request an opportunity for a hearing on the question of whether there are grounds for denying approval of the application. (Section 314.110(a)(3) and (a)(4) is included under the parts 10 through 16 (21 CFR part 10 through 16) hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.110(a)(5) requires that, after receipt of an approvable letter, an applicant may notify FDA that it agrees to an extension of the review period so that it can determine whether to respond further.

Section 314.110(b) requires after receipt of an approvable letter, an ANDA applicant may request an opportunity for a hearing on the question of whether there are grounds for denying approval of the application. (Section 314.110(b) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.120(a)(3) requires that, after receipt of a not approvable letter, an applicant may request an opportunity for a hearing on the question of whether there are grounds for denying approval of the application. (Section 314.120(a)(3) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.120(a)(5) requires that, after receipt of a not approvable letter, an applicant may notify FDA that it agrees to an extension of the review period so that it can determine whether to respond further.

Section 314.122(a) states that an ANDA or a suitability petition that relies on a listed drug that has been voluntarily withdrawn from sale must be accompanied by a petition seeking a determination whether the drug was withdrawn for safety or effectiveness reasons. (Section 314.122(a) is already approved by OMB under 0910–0183 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.122(d) sets forth requirements for relisting petitions for unlisted discontinued products. (Section 314.122(d) is already approved by OMB under 0910–0183 and is not included in the hour burden estimates in Table 1 of this document).

Section 314.126(c) sets forth requirements for a petition to waive criteria for adequate and well-controlled studies. (Section 314.126(c) is already approved by OMB under 0910–0183 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.151(a) and (b) sets forth requirements for the withdrawal of and approval of an ANDA and the applicant's opportunity for a hearing and submission of comments. (Section 314.151(a) and (b) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and it is not included in the hour burden estimates in Table 1 of this document.)

Section 314.151(c) sets forth the requirements for withdrawal of approval of an ANDA and the applicant's opportunity to submit written objections and participate in a limited oral hearing. (Section 314.151(c) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.152(b) sets forth the requirements for suspension of an ANDA when the listed drug is voluntarily withdrawn for safety and effectiveness reasons, and the applicant's opportunity to present comments and participate in a limited oral hearing. (Section 314.152(b) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.161(b) and (e) sets forth the requirements for submitting and petition to determine whether a listed drug was voluntarily withdrawn from sale for safety or effectiveness reasons. (Section 314.161(b) and (e) is already approved by OMB under 0910–0183 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.200(c), (d), and (e) requires that applicants or others subject to a notice of opportunity for a hearing who wish to participate in a hearing must file a written notice of participation and request for a hearing as well as the studies, data, and so forth, relied on. Other interested persons may also submit comments on the notice. This section also sets forth the content and format requirements for the applicants' submission in response to notice of opportunity for hearing. (Section 314.200(c), (d), and (e) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.200(f) requires that participants in a hearing may make a motion to the presiding officer for the inclusion of certain issues in the hearing. (Section 314.200(f) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.200(g) requires that a person may respond to a proposed order from FDA denying a request for a hearing by providing sufficient data, information, and analysis to demonstrate that there is a genuine and substantial issue of fact which justifies a hearing. (Section 314.200(g) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.420 states that an applicant may submit to FDA a drug master file in support of an application, in accordance with certain content and format requirements.

Section 314.430 states that data and information in an application are disclosable under certain conditions, unless the applicant shows that extraordinary circumstances exist. (Section 314.430 is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.530(c) and (e) requires that, if FDA withdraws approval of a drug approved under the accelerated approval procedures, the applicant has the opportunity to request a hearing and submit data and information. (Section 314.530(c) and (e) is included under the parts 10 through 16 hearing regulations, in accordance with § 314.201, and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.530(f) requires that an applicant must first submit a petition for stay of action before requesting an order from a court for a stay of action pending review. (Section 314.530(f) is already approved by OMB under 0910–0194 and is not included in the hour burden estimates in Table 1 of this document.)

Section 314.550 requires that applicants must submit all promotional materials to FDA for consideration during the preapproval review period. (Section 314.550 is already approved by OMB in "Transmittal of Advertisements and Promotional Labeling for Drugs and Biologics for Human Use," which published in the **Federal Register** (62 FR 55408), and is not included in the hour burden estimates in Table 1 of this document.)

Based on information provided by the pharmaceutical industry for the number of "hours per response," and based on submissions collected and data tabulated by FDA for the "number of respondents," the "number of responses per respondent," and the number of "total annual responses," FDA estimates the burden of this collection of information as follows:

TABLE 1.—Estimated Annual Reporting Burden[1]

21 CFR Section/Form	No. of Respondents	No. of Responses per Respondents	Total Annual Responses	Hours per Response	Total Hours
314.50(b), (c), (d), (e), (f), and (k)	83	1.49	124	1,600	198,400
314.54	4	1.25	5	300	1,500
314.60	144	16.89	2,432	80	194,560
314.65	18	1.28	23	2	46
314.70 and 314.71	418	5.33	2,229	300	668,700
314.72	59	2.17	128	2	256
314.81(b)(1) (FDA 3331)	140	5	700	48	33,600
314.81(b)(2) (FDA 2252)	269	9.06	2,438	40	97,520
314.94(a) and (d)	117	3.96	464	480	222,720
314.96	315	12.43	3,915	80	313,200
314.97	152	19.74	3,000	80	240,000

TABLE 1.—Estimated Annual Reporting Burden[1]—Continued

21 CFR Section/Form	No. of Respondents	No. of Responses per Respondents	Total Annual Responses	Hours per Response	Total Hours
314.98(c) (FDA 2252)	265	17.17	4,551	40	182,040
314.99(a)	46	13.04	600	2	1,200
314.110(a)(5)	55	1.13	62	8	496
314.120(a)(5)	26	1.12	29	8	232
314.420	450	1.11	500.	8	4,000
Total Burden Hours					2,158,470

[1]There are no capital costs or operating and maintenance costs associated with this collection of information.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 98N–0273]

Texas Vitamin Co., RSR Laboratories Inc.; Proposal to Withdraw Approval of New Animal Drug Applications; Opportunity for Hearing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is providing an opportunity for hearing on a proposal to withdraw approval of new animal drug application (NADA) 117–688 held by Texas Vitamin Co. and NADA 140–850 held by RSR Laboratories Inc., because the applicants have failed to submit required periodic reports. FDA has been unable to locate the firms and to contact them at their previous business addresses.

DATES: Requests for hearing with data, analysis, and information relied upon to justify a request for hearing are due by June 29, 1998.

ADDRESSES: Requests for hearing filed in response to this notice should be identified with Docket No. 98N–0273 and sent to the Dockets Management Branch (HFA–305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1–23, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Glenn A. Peterson, Center for Veterinary Medicine (HFV–212), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–827–0224; or

Mukund R. Parkhie, Center for Veterinary Medicine (HFV–216), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–827–6642.

SUPPLEMENTARY INFORMATION: An applicant is required to report periodically to the Center for Veterinary Medicine (CVM) concerning each applicant's approved NADA as provided in § 510.300 (21 CFR 510.300). Texas Vitamin Co., P.O. Box 18417, 10695 Aledo St., Dallas, TX 57218 (last known address), is sponsor of NADA 117–688. RSR Laboratories Inc., 501 Fifth St., Bristol, TN 37620 (last known address), is sponsor of NADA 140–850. The sponsors have not submitted the required periodic reports for their NADA's and have not responded to CVM requests for submission of those reports. Letters to the firms have been returned indicating the firms are no longer at the above-listed addresses.

Therefore, notice is given to Texas Vitamin Co. and RSR Laboratories Inc., and to all other interested persons who may be adversely affected, that the Director, CVM, proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360b(e)) withdrawing approval of NADA's 117–688 and 140–850 and all amendments and supplements thereto on the ground that the applicants have failed to submit the reports required under § 510.300. Upon withdrawal of the NADA's, the applicable parts of the regulations in 21 CFR 510.600(c)(1) and (c)(2) and 520.580(b)(1) will be revoked.

In accordance with the provisions of section 512 of the act and regulations issued under it (parts 510 and 514 (21 CFR parts 510 and 514)), and under authority delegated to the Director, CVM (§ 5.84 (21 CFR 5.84)), CVM hereby provides the applicants an opportunity for hearing to show why approval of the NADA's and all amendments and supplements thereto should not be withdrawn (and the corresponding regulations revoked) and an opportunity to raise, for administrative determination, all issues relating to the legal status of the application and drug products approved thereunder. Any hearing would be subject to the provisions of 21 CFR part 12.

An applicant who decides to seek a hearing shall file on or before June 29, 1998, a written notice of appearance, request for hearing, and data, information, and analyses relied on to justify a hearing as specified in § 514.200.

Procedures and requirements governing this notice of opportunity for hearing, notice of appearance and request for hearing, submission of information and analysis to justify a hearing, other comments, and a grant or denial of a hearing, are contained in § 514.200.

The failure of an applicant to file a timely, written notice of appearance and request for hearing as required by § 514.200 constitutes an election by the applicant not to make use of the opportunity for hearing concerning the proposed action and constitutes a waiver of any contentions about the legal status of the product. In such case, the Director, CVM, under the authority delegated to him in § 5.84(a)(2), will, without further notice, enter a final order withdrawing approval of the application. Thereafter, the product may not be legally marketed, and FDA may begin appropriate regulatory action to remove it from the market. Any new animal drug product that is not the subject of an approved application is subject to regulatory action at any time.

A request for hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that justifies a hearing. Reports submitted to remedy the deficiencies must be complete in all respects as required by § 510.300. If the reports submitted are not complete or there is no genuine and substantial issue of fact that precludes the withdrawal of approval, or the request for hearing is not made in the required format or with the required analysis, the Commissioner of Food and Drugs will enter summary judgment against the person who

requests the hearing, making findings and conclusions, and denying a hearing. If a hearing is requested and is justified by the sponsor's response to this notice, the issues will be defined, an administrative law judge will be assigned, and a written notice of the time and place at which the hearing will begin will be issued.

All submissions under this notice shall be filed in two copies. Except for information prohibited from public disclosure under 21 U.S.C. 331(j) or 18 U.S.C. 1905, the submissions may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 512(e) (21 U.S.C. 360b(e))) and under authority delegated to the Director, Center For Veterinary Medicine (21 CFR 5.84).

Dated: May 20, 1998.

Stephen F. Sundlof,

Director, Center for Veterinary Medicine.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Joint Meeting of the Pulmonary-Allergy Drugs and Endocrinologic and Metabolic Drugs Advisory Committees; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). The meeting will be open to the public.

Name of Committees: Joint meeting of the Pulmonary-Allergy Drugs and the Endocrinologic and Metabolic Drugs Advisory Committees.

General Function of the Committees: To provide advice and recommendations to the agency on FDA regulatory issues.

Date and Time: The meeting will be held on July 30, 1998, 8 a.m. to 5 p.m., and on July 31, 1998, 8 a.m. to 3:45 p.m.

Location: Bethesda Marriott Hotel, Grand Ballroom, 5151 Pooks Hill Rd., Bethesda, MD.

Contact Person: Leander B. Madoo or Kathleen R. Reedy, Center for Drug Evaluation and Research (HFD–21), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–5455, or FDA Advisory Committee Information Line, 1–800–741–8138 (301–443–0572 in the Washington, DC area), codes 12545 and 12536. Please call the Information Line for up-to-date information on this meeting.

Agenda: On July 30, 1998, the committees will: (1) Discuss the impact of orally inhaled and intranasal corticosteroids on growth in children, (2) hear from invited experts regarding the process of normal growth and development in children and how various factors including corticosteroids may impact on it, and (3) review examples from industry of completed "growth studies" testing the various inhaled and intranasal corticosteroid drug products. On July 31, 1998, the agency will: (1) Present the proposed "class labeling" for inhaled and intranasal corticosteroid drug products, (2) review the data which support it, and (3) lead a general scientific discussion among all meeting participants to reach a consensus concerning appropriate labeling for these products and recommendations for the design and conduct of future clinical trials which assess growth.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by July 23, 1998. Oral presentations from the public will be scheduled between approximately 3 p.m. and 4:30 p.m., on July 30, 1998. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before July 23, 1998, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: May 20, 1998.

Michael A. Friedman,

Deputy Commissioner for Operations.

BILLING CODE 4160–01–F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Healthy Start Initiative—Phase II Limited Competition for the Mississippi Delta

AGENCY: Health Resources and Services Administration (HRSA), HHS.

ACTION: Notice of availability of funds for a limited competition for the ten counties of Mississippi known as the Mississippi Delta.

SUMMARY: The HRSA announces the availability funds in fiscal year 1998 for a single cooperative agreement for the replication of the Healthy Start Initiative (HSI) Phase II within the ten counties of Mississippi known as the Mississippi Delta. The Healthy Start Initiative is a program of projects which, since FY 1991, has developed and implemented community-based strategies to reduce infant mortality in areas with a high incidence of infant mortality. The purpose of Healthy Start-Phase II is to operationalize successful infant mortality reduction strategies developed during the demonstration phase and to launch Healthy Start projects in new rural and urban communities (i.e., communities currently without a Healthy Start Initiative-funded project). Within the HRSA, the Healthy Start Initiative is administered by the Maternal and Child Health Bureau (MCHB). This cooperative agreement for Healthy Start-Phase II in the Mississippi Delta will be made under the program authority of Section 301 of the Public Health Service Act. Funds for this award were appropriated under Public Law 104–208.

To continue Healthy Start efforts to meet critical maternal and child health needs in the Mississippi Delta, public and nonprofit private organizations serving the following counties in the Mississippi Delta—Humphries, Holmes, Leflore, Bolivar, Quitman, Sunflower, Tallahatchie, Washington, Cohoma, and Tunica—are encouraged to apply. Applicants must provide services to all ten counties. Only one applicant organization will be funded.

The project period is three years, subject to continuing availability of funds.

ADDRESSES: Interested parties may contact the HRSA Grants Application Center for an application package. Requests should specify the Healthy Start Initiative—Phase II limited competition within the Mississippi Delta (CFDA #93.926b). The Center may

be contacted by: telephone: 1–888–300-HRSA, FAX: 301–309–0579, or e-mail: HRSA.GAC@x.netcom.com. Completed applications should be returned to: Grants Management Officer (CFDA #93.926b), HRSA Grants Application Center, 40 West Gude Drive, Suite 100, Rockville, Maryland 20850.

DATES: The application deadline date is Thursday, July 1, 1998.

Dated: May 21, 1998.

Claude Earl Fox,

Administrator.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Eye Institute; Notice of Closed Meeting

Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following National Eye Institute Special Emphasis Panel (SEP) meeting:

Name of SEP: Clinical Research.
Date: May 27, 1998.
Time: 2:00 p.m.
Place: Telephone Conference, Executive Plaza South, Room 350.
Contact Person: Andrew P. Mariani, Ph.D., Executive Plaza South, Room 350, 6120 Executive Blvd., Bethesda, MD 20892–7164, (301) 496–5561.
Purpose/Agenda: Review of Grant Applications.

Name of SEP: Clinical Research.
Date: May 29, 1998.
Time: 8:30 a.m.
Place: National Eye Institute, Executive Plaza South, Room 350, 6120 Executive Blvd., Bethesda, MD 20892–7164.
Contact Person: Andrew P. Mariani, Ph.D., Executive Plaza South, Room 350, 6120 Executive Blvd., Bethesda, MD 20892–7164, (301) 496–5561.
Purpose/Agenda: Review of Grant Applications.

These meetings will be closed in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. Applications and/or proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications and/or proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

This notice is being published less than fifteen days prior to the meeting due to the urgent need to meet timing limitations imposed by the review and funding cycle.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Prospective Grant of Exclusive License: Noncompetitive Antagonists of Dopamine Reuptake Inhibitors To Treat Drug Addiction

AGENCY: National Institutes of Health, Public Health Service, DHHS.

ACTION: Notice.

SUMMARY: This is notice, in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i), that the National Institutes of Health (NIH), Department of Health and Human Services, is contemplating the grant of an exclusive license worldwide to practice the invention embodied in: PCT Application Serial No. PCT/US97/19758, entitled, "Sustained Release Derivatives of Hydroxylated Analogs of Substituted 1-(2-(Bis(aryl)methoxy)ethyl)-piperazines and -homopiperazines and Their Use as

Noncompetitive Antagonists of Dopamine Reuptake Inhibitors", based on U.S. Provisional Patent Application Serial No. 60/030,248, filed October 31, 1996, to Trillium Neuroscience Inc., having a place of business in Washington, DC. The patent rights in this invention have been assigned to the United States of America.

DATES: Only written comments and/or application for a license which are received by the NIH Office of Technology Transfer on or before July 27, 1998 will be considered.

ADDRESSES: Requests for a copy of the patent applications, inquiries, comments and other materials relating to the contemplated license should be directed to: Leopold J. Luberecki, Jr., J.D., Technology Licensing Specialist, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Box 13, Rockville, MD 20852–3804; Telephone: (301) 496–7735, ext. 223; Facsimile: (301) 402–0200.

SUPPLEMENTARY INFORMATION: In an effort to develop an efficacious treatment for cocaine addiction, this invention describes sustained-release derivatives of hydroxylated analogs of substituted 1-(2-[bis(aryl)methoxy]ethyl)-piperazines and -homopiperazines. These compounds bind to the dopamine transporter but do not inhibit dopamine reuptake, thereby providing a sustained increase in the level of extracellular dopamine and providing the drug abuser with some relief from drug craving due to dopamine deficiency, yet they simultaneously inhibit cocaine from further elevating the level of extracellular dopamine and increasing the probability of additional toxic side effects. The invention provides the sustained-release derivatives, pharmaceutical compositions comprising the same, and a method of using such sustained released derivatives as a treatment for cocaine addiction.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within 60 days from the date of this published Notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

The field of use may be limited to the use of the invention for the development of pharmaceutical compounds to treat drug addiction.

Properly filed competing applications for a license filed in response to this notice will be treated as objections to the contemplated license. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: May 18, 1998.

Jack Spiegel,

Director, Division of Technology Development and Transfer, Office of Technology Transfer.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

National Institute of Environmental Health Sciences National Toxicology Program; Request for Comments on Chemicals Nominated to the National Toxicology Program (NTP) for Toxicology Studies—Recommendations by the Interagency Committee for Chemical Evaluation and Coordination (ICCEC) for Study, No Studies, or Deferral to Obtain Additional Information

Background

As part of an effort to earlier inform the public and obtain input into the selection of chemicals for evaluation, the National Toxicology Program (NTP) routinely seeks public input on (1) chemicals nominated to the Program for toxicological studies, and (2) the testing recommendations made by the ICCEC, the Federal interagency committee that serves as the first level of review for nominations. Summaries of the ICCEC's recommendations and public comments received on the nominated chemicals are next presented to the NTP Board of Scientific Counselors (the Program's external scientific advisory committee) for their review and comment in an open, public session. The ICCEC recommendation, Board recommendations, and public comments are incorporated into the recommendations that are then submitted to the NTP Executive Committee, the Federal interagency policy oversight body. The Executive Committee reviews and approves action to move forward to test, defer, or delete on each of the nominated chemicals for the various types of study, and recommends priorities.

Request for Comment

Interested parties are encouraged to comment on the recommendations and provide information on the chemicals listed below. The Program would welcome receiving toxicology and carcinogenesis information from completed or ongoing studies, and information on planned studies, as well as current production data, human exposure information, use patterns, and environmental occurrence for any of the chemicals listed in this announcement. To provide comments or information, please contact Dr. William Eastin at the address given below within 60 days of the appearance of this announcement.

At their meeting on April 23, 1998, the ICCEC reviewed 18 agents nominated to the NTP for consideration to study and recommended 11 chemicals for absorption, toxicity, or carcinogenicity studies, recommended that no studies be performed on 4 chemicals, and deferred 3 substances pending receipt of test data from other organizations or from related studies in progress by the NTP, and information on production, exposure, and use patterns. Chemicals with CAS numbers, nomination source types of studies under consideration, and other information are given in the following tables.

Contact may be made by mail to: Dr. William Eastin, NIEHS/NTP, P.O. Box 12233, Research Triangle Park, North Carolina 27709; by telephone at (919) 541–7941; by FAX at (919) 541–3687; or by email at Eastin@NIEHS.GOV.

Dated: May 18, 1998.

Samuel H. Wilson,

Deputy Director, National Toxicology Program.

CHEMICALS NOMINATED TO THE NTP FOR STUDY, AND TESTING RECOMMENDATIONS MADE BY THE ICCEC ON APRIL 23, 1998

Chemical [CAS No.]	Nominated by	Recommended for	Study rationale; other information
Chemicals Recommended for Testing			
Bixin (Annatto) [6973–79–5 (1393–63–1)].	NCI	—Genetic toxicity —Subchronic toxicity	—Widespread human exposure. —Natural product.
Diethyl amine [109–89–7]	NIEHS	—Subchronic toxicity —Ocular toxicity —Carcinogenicity	—High production. —Also present in foods. —Widespread human exposure.
Dihydroxyacetone [96–26–4].	NCI	—Skin absorption	—Widely used as component of tanning compounds. —Natural product of metabolism.
Fenchone, α-, l-, d-, [1195–79–5 (α-); 7787–20–4 (l-); 4695–62–9 (d-)].	NCI	—Genetic toxicity —Defer prechronic studies pending completion and evaluation of NTP camphor study	—Natural product. —Used as flavoring. —Widespread human exposure. —Production, usage, and exposure data requested.
Isopropylamine [75–31–0]	NIEHS	—Subchronic toxicity —Ocular toxicity —Carcinogenicity (through TSCA–ITC)	—High production. —Also present in foods. —Widespread human exposure.
Pulegone [89–82–7] Menthofuran (494–90–6].	NIEHS	—Toxicologic characterization —Carcinogenicity study with pulegone	—Natural product. —Used as flavoring. —Widespread human exposure. —Menthofuran is a metabolite of pulegone.
α-Solanine [20562–02–1	(1)	—Carcinogenicity	—Natural product. —Widespread human exposure. —Known human toxicant.
α-Thujone (546–80–5]	NCI	—Genetic toxicity —Neurotoxicity —Subchronic toxicity —Multigeneration reproductive toxicity	—Natural product. —Component of food flavoring additives. —Banned as direct food additive by FDA.
Triethylamine [121–44–8]	UAW	—Subchronic toxicity —Ocular toxicity —Carcinogenicity (through TSCA–ITC)	—High production. —Known worker exposure.
Trigonelline [535–83–1] ...	(1)	—Toxicologic characterization —Metabolic differences between humans and rodents	—Plant hormone. —Widespread human exposure through diet.

[1] Private Individual.

Chemical [CAS No.]	Nominated by	Recommended for	Rationale; other information
Chemicals For Which No Testing Is Recommended			
β-Caryophyllene [87–44–5].	NCI	—Subchronic toxicity; metabolism; cell transformation; consider for carcinogenicity.	—Insufficient use to warrant testing.
α-Cubebene [17699–14–8].	NCI	—metabolism	—Insufficient use to warrant testing.
Orthanilic acid [88–21–1].	NIEHS	—Carcinogenicity	—Low production; little, if any, exposure to the population.
2-Phenethyl alcohol (60–12–8].	(1)	—Carcinogenicity	—No suspicion for carcinogenicity based on structure and genetic toxicity tests.
Chemicals Deferred for Additional Information			
α-Chaconine [20562–03–2].	(1)	—Carcinogenicity	—Defer testing pending results of α-solanine studies.
St John's Wort Hypericin [548–04–9].	NCI	—Carnogenicity (St. John's Wort); genetic toxicity and carcinogenicity (hypericin). —Defer pending NTP evaluation of carcinogenicity testing being performed by industry.	—Herbal remedy in widespread use. —NCI clinical trial in progress. —Industry has completed subchronic toxicity studies and is completing a rodent carcinogenicity study using St. John's Wort.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Fiscal Year (FY) 1998 Funding Opportunities

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice of funding availability.

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Substance Abuse Prevention (CSAP) announces the availability of FY 1998 funds for grants for the following activity. This activity is discussed in more detail under Section 4 of this notice. This notice is not a complete description of the activity; potential applicants must obtain a copy of the Guidance for Applicants (GFA) before preparing an application.

Activity	Application deadline	Estimated funds available	Estimated No. of awards	Project period
Faculty Development Program	7/28/98	$1.0M	10	3 yrs.

Note: SAMHSA also published notices of available funding opportunities for FY 1998 in the **Federal Register** on January 6, 1998, January 20, 1998, February 26, 1998, March 20, 1998, April 8, 1998, April 16, 1998, April 20, 1998, and on April 22, 1998.

The actual amount available for awards and their allocation may vary, depending on unanticipated program requirements and the volume and quality of applications. Awards are usually made for grant periods from one to three years in duration. FY 1998 funds for activities discussed in this announcement were appropriated by the Congress under Public Law No. 105–78. SAMHSA's policies and procedures for peer review and Advisory Council review of grant and cooperative agreement applications were published in the **Federal Register** (Vol. 58, No. 126) on July 2, 1993.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity for setting priority areas. The SAMHSA Centers' substance abuse and mental health services activities address issues related to Healthy People 2000 objectives of Mental Health and Mental Disorders; Alcohol and Other Drugs; Clinical Preventive Services; HIV Infection; and Surveillance and Data Systems. Potential applicants may obtain a copy of Healthy People 2000 (Full Report: Stock No. 017–001–00474–0) or Summary Report: Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325 (Telephone: 202–512–1800).

General Instructions: Applicants must use application form PHS 5161–1 (Rev. 5/96; OMB No. 0937–0189). The application kit contains the GFA (complete programmatic guidance and instructions for preparing and submitting applications), the PHS 5161–1 which includes Standard Form 424 (Face Page), and other documentation and forms. Application kits may be obtained from the organization specified for each activity covered by this notice (see Section 4).

When requesting an application kit, the applicant must specify the particular activity for which detailed information is desired. This is to ensure receipt of all necessary forms and information, including any specific program review and award criteria.

The PHS 5161–1 application form and the full text of each of the activities (i.e., the GFA) described in Section 4 are available electronically via SAMHSA's World Wide Web Home Page (address: http://www.samhsa.gov).

Application Submission: Unless otherwise stated in the GFA, applications must be submitted to: SAMHSA Programs, Center for Scientific Review, National Institutes of Health, Suite 1040, 6701 Rockledge Drive MSC–7710, Bethesda, Maryland 20892–7710*

(*Applicants who wish to use express mail or courier service should change the zip code to 20817.)

Application Deadlines: The deadlines for receipt of applications are listed in the table above. Please note that the deadlines may differ for the individual activities.

Competing applications must be received by the indicated receipt date(s) to be accepted for review. An application received after the deadline may be acceptable if it carries a legible proof-of-mailing date assigned by the carrier and that date is not later than one week prior to the deadline date. Private metered postmarks are not acceptable as proof of timely mailing.

Applications received after the deadline date and those sent to an address other than the address specified in the GFA will be returned to the applicant without review.

FOR FURTHER INFORMATION CONTACT: Requests for activity-specific technical information should be directed to the program contact person identified for each activity covered by this notice (see Section 4).

Requests for information concerning business management issues should be directed to the grants management contact person identified for each activity covered by this notice (see Section 4).

SUPPLEMENTARY INFORMATION: To facilitate the use of this Notice of Funding Availability, information has been organized as outlined in the Table of Contents below. For each activity, the following information is provided:

- Application Deadline
- Purpose.
- Priorities.
- Eligible Applicants.
- Grants/Cooperative Agreements/ Amounts.
- Catalog of Federal Domestic Assistance Number.
- Contacts.
- Application Kits.

7. Executive Order 12372

1. Program Background and Objectives

SAMHSA's mission within the Nation's health system is to improve the quality and availability of prevention, early intervention, treatment, and rehabilitation services for substance abuse and mental illnesses, including co-occurring disorders, in order to improve health and reduce illness, death, disability, and cost to society.

Reinventing government, with its emphases on redefining the role of Federal agencies and on improving customer service, has provided SAMHSA with a welcome opportunity to examine carefully its programs and activities. As a result of that process, SAMHSA moved assertively to create a renewed and strategic emphasis on using its resources to generate knowledge about ways to improve the prevention and treatment of substance abuse and mental illness and to work with State and local governments as well as providers, families, and consumers to effectively use that knowledge in everyday practice.

SAMHSA's FY 1998 Knowledge Development and Application (KD&A) agenda is the outcome of a process whereby providers, services researchers, consumers, National Advisory Council members and other interested persons participated in special meetings or responded to calls for suggestions and reactions. From this input, each SAMHSA Center developed a "menu" of suggested topics. The topics were discussed jointly and an agency agenda of critical topics was agreed to. The selection of topics depended heavily on policy importance and on the existence of adequate research and practitioner experience on which to base studies. While SAMHSA's FY 1998 KD&A programs will sometimes involve the evaluation of some delivery of services, they are services studies and application activities, not merely evaluation, since they are aimed at answering policy-relevant questions and putting that knowledge to use.

SAMHSA differs from other agencies in focusing on needed information at the services delivery level, and in its question-focus. Dissemination and application are integral, major features of the programs. SAMHSA believes that it is important to get the information into the hands of the public, providers, and systems administrators as effectively as possible. Technical assistance, training, preparation of special materials will be used, in addition to normal communications means.

SAMHSA also continues to fund legislatively-mandated services programs for which funds are appropriated.

2. Special Concerns

SAMHSA's legislatively-mandated services programs do provide funds for mental health and/or substance abuse treatment and prevention services. However, SAMHSA's KD&A activities do not provide funds for mental health and/or substance abuse treatment and prevention services except sometimes for costs required by the particular activity's study design. Applicants are required to propose true knowledge application or knowledge development and application projects. Applications seeking funding for services projects under a KD&A activity will be considered nonresponsive.

Applications that are incomplete or nonresponsive to the GFA will be returned to the applicant without further consideration.

3. Criteria for Review and Funding

Consistent with the statutory mandate for SAMHSA to support activities that will improve the provision of treatment, prevention and related services, including the development of national mental health and substance abuse goals and model programs, competing applications requesting funding under the specific project activities in Section 4 will be reviewed for technical merit in accordance with established PHS/SAMHSA peer review procedures.

3.1 General Review Criteria

As published in the **Federal Register** on July 2, 1993 (Vol. 58, No. 126), SAMHSA's "Peer Review and Advisory Council Review of Grant and Cooperative Agreement Applications and Contract Proposals," peer review groups will take into account, among other factors as may be specified in the application guidance materials, the following general criteria:

- Potential significance of the proposed project;
- Appropriateness of the applicant's proposed objectives to the goals of the specific program;
- Adequacy and appropriateness of the proposed approach and activities;
- Adequacy of available resources, such as facilities and equipment;
- Qualifications and experience of the applicant organization, the project director, and other key personnel; and
- Reasonableness of the proposed budget.

3.2 Funding Criteria for Scored Applications

Applications will be considered for funding on the basis of their overall technical merit as determined through the peer review group and the appropriate National Advisory Council (if applicable) review process.

Other funding criteria will include:

- Availability of funds.

Additional funding criteria specific to the programmatic activity may be included in the application guidance materials.

4. Special FY 1998 SAMHSA Activities

4.1 Grants

4.1.1 Faculty Development Program—Faculty Developing People, Programs, Products and Policies for Integrated Service Delivery, GFA No. SP 98–006)

- Application Deadline: July 28, 1998
- Purpose: The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Substance Abuse Prevention (CSAP) announces the availability of funds for grants to support the application of the Faculty Development Program (FDP) model to Schools of Public Health and Residency Training Programs in Preventive Medicine without a substance abuse prevention program. Such programs will work in association with institutions that educate health and social service professionals (Schools of Medicine, Osteopathy, Nursing, Dentistry, Social Work, and university-affiliated Departments of Psychology) that have existing substance abuse prevention programs.

The overall purpose of the FDP is twofold: (1) The education of students at Schools of Public Health and in Residency Training Programs in Preventive Medicine to foster an understanding of the importance of substance abuse prevention services that will be reflected in policy making and program planning; and (2) The transfer of expertise between institutions through a mentor relationship. Expected results from the application of the FDP model include: the development of expertise in substance abuse prevention by faculty of professional programs at funded institutions; the institutionalization of substance abuse prevention programs in the curriculum or curricula at funded institutions; the creation of linkages between the community and funded institutions promoting the application of science-based substance abuse prevention strategies within the community; and the diffusion of expertise of professionals trained by the program to others in their professional discipline.

• *Priorities:* None

• *Eligible Applicants:* Eligibility is limited to Schools of Medicine, Osteopathy, Nursing, Dentistry, Social Work, and university-affiliated Departments of Psychology with an existing substance abuse prevention program *or* to Schools of Public Health or Residency Training Programs in Preventive Medicine without an existing substance abuse prevention program.

Applications from Schools of Medicine, Osteopathy, Nursing, Dentistry, Social Work, and university-affiliated Departments of Psychology must identify the School of Public Health or Residency Training Program in Preventive Medicine they will mentor in order to develop a substance abuse prevention program.

Applications from Schools of Public Health or Residency Training Programs in Preventive Medicine must identify the School of Medicine, Osteopathy, Nursing, Dentistry, Social Work or university-affiliated Department of Psychology which has an existing substance abuse prevention program and with whom they have established a mentoring relationship in order to assist them in establishing a substance abuse prevention program.

Eligibility is being limited to these particular entities because this program is limited to three years and the need for appropriately trained health care practitioners and the integration of state-of-the-art substance abuse prevention, screening, assessment, and referral strategies as standards of care is critical to reducing health care costs and improving health status. By capitalizing on the experience of the mentor agencies with existing substance abuse prevention programs, these partnerships will be able to complete their program within the allotted three years. Absent this pre-existing and continuing experience, completion within this time frame would not be possible.

• *Grants/Amounts:* It is estimated that up to $1,000,000 will be available to support approximately ten new grant awards of approximately $100,000 each (total costs—direct + indirect) under this GFA in FY 1998.

• *Catalog of Federal Domestic Assistance Number:* 93.274

• For programmatic or technical information regarding this grant program (not for application kits) contact: Lucille C. Perez, M.D., Associate Director, Medical and Clinical Affairs, Center for Substance Abuse Prevention, Substance Abuse and Mental Health Services Administration, Rockwall II Building, Room 9D–10, 5600 Fishers Lane, Rockville, Maryland 20857, 301/443–5266.

For grants management assistance, contact: Peggy Jones, Division of Grants Management, OPS, Substance Abuse and Mental Health Services Administration, Rockwall II Building, Room 621, 5600 Fishers Lane, Rockville, Maryland 20857, 301/443–9666.

• For application kits, contact: National Clearinghouse for Alcohol and Drug Information, P.O. Box 2345, Rockville, MD 20847–2345, 800/729–6686, 301/468–2600 (local calls).

5. Public Health System Reporting Requirements

The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

a. A copy of the face page of the application (Standard form 424).

b. A summary of the project (PHSIS), not to exceed one page, which provides:

(1) A description of the population to be served.

(2) A summary of the services to be provided.

(3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements.

Application guidance materials will specify if a particular FY 1998 activity described above is/is not subject to the Public Health System Reporting Requirements.

6. PHS Non-use of Tobacco Policy Statement

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103–227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

7. Executive Order 12372

Applications submitted in response to the FY 1998 activity listed above are not subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100.

Dated: May 20, 1998.

Patricia S. Bradford,

Acting Executive Officer, SAMHSA.

[FR Doc. 98–14011 Filed 5–27–98; 8:45 am]

BILLING CODE 4162–20–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4352–N–02]

Notice of Proposed Information Collection for Public Comment

AGENCY: Office of the Assistant Secretary for Public and Indian Housing. HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: *Comments due:* July 27, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Mildred M. Hamman, Reports Liaison Officer, Public and Indian Housing, Department of Housing and Urban Development, 451 7th Street, S.W., Room 4238, Washington, DC 20410–5000.

FOR FURTHER INFORMATION CONTACT: Mildred M. Hamman, (202) 708–3642, extension 4128, for copies of the proposed forms and other available documents. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: The Department will submit the proposed information to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper

performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Mortgage Credit Analysis for Loan Guarantee Program and Transmittal for Payment of Loan Guarantee Fee

OMB Control Number: 2577–0200

Description of the need for the information and proposed use: The information is required by Section 184 of the Housing and Community Development Act of 1994, as amended by Section 701 of the Native American Housing Assistance and Self-Determination Act of 1996 and implementing regulations at 24 CFR Section 1005. HUD has the authority to guarantee loans for the construction, acquisition, or rehabilitation of 1- and 4-family homes to be owned by Native Americans on restricted Indian lands. Mortgage lenders (mortgagees) approved by HUD provide borrower and lender information to HUD for guarantee of the loan. If the information were not provided on Forms HUD–53036 and HUD–53038, HUD would be unable to guarantee lenders and as a result unable to provide financing to Native Americans.

Agency for numbers: HUD–53036 and HUD–53038

Members of affected public: Businesses or Other For-Profit

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: 1,000 respondents (500 × 2 forms), on occasion, 10 minutes to prepare HUD–53036, 8 minutes to prepare HUD–53038, 92 hours total reporting burden.

Status of the proposed information collection: Reinstatement, without change. Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: May 18, 1998.

Deborah Vincent,

General Deputy, Assistant Secretary for Public and Indian Housing.

DRAFT

Public reporting burden for this collection of information is estimated to average 6 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

This information is required by Section 184 of the Housing and Community Development Act of 1992, as amended by Section 701 of the Native American Housing Assistance and Self-Determination Act of 1996 and implementing regulations at 24 CFR Section 1005. HUD has the authority to guarantee loans for the construction, acquisition, or rehabilitation of 1- to 4-family homes to be owned by Native Americans on restricted Indian lands. Mortgage lenders (mortgagees) provide borrower and lender information to HUD for the guarantee of the loan. Responses to the collection of information are required to obtain a benefit. The information requested is considered sensitive and is protected by the Privacy Act.

Sensitive Information: The information collected on this form is considered sensitive and is protected by the Privacy Act. The Privacy Act requires that these records be maintained with appropriate administrative, technical, and physical safeguards to ensure their security and confidentiality. In addition, these records should be protected against any anticipated threats or hazards to their security or integrity which could result in substantial harm, embarrassment, inconvenience, or unfairness to any individual on whom the information is maintained.

Line 14d (Subtract Sales Concessions): Refers to seller-paid prepaid items, personal property items, seller concessions exceeding 6% from Attachment A, etc. This does not include seller-paid closing costs from line 7b. This amount should also appear on line 14l to correctly determine total cash requirements.

Transmittal for Loan Guarantee Fee (LGF)

Native American Loan Guarantee Program

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

OMB Approval No. 2577-0200 (exp. 9/30/97)

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

This information is required by Section 184 of the Housing and Community Development Act of 1992, as amended by Section 701 of the Native American Housing Assistance and Self-Determination Act of 1996 and implementing regulations at 24 CFR Section 1005. HUD has the authority to guarantee loans for the construction, acquisition, or rehabilitation of 1- to 4-family homes to be owned by Native Americans on restricted Indian lands. Mortgage lenders (mortgagees) provide borrower and lender information to HUD for the guarantee of the loan. Responses to the collection of information are required to obtain a benefit. The information requested does not lend itself to confidentiality.

This transmittal shall be prepared by the remitting mortgagee to accompany all LGF payments sent to HUD. Incomplete and/or inaccurate data may delay endorsement of the 184 case involved.

Mail all transmittals to: HUD c/o Processing Center, PO Box 198353, Atlanta, GA 30384-8353.

Part 1 Lender Information

1a. Reason for Payment:
☐ Initial Fee on a new loan ☐ Additional Fee on an underpayment ☐ Late Charge/ Interest

1b. Lender's Name: (print)

1c. Lender Number: (10 digits)

1d. Name of Person to be contacted regarding this payment:

1e. Phone Number: (include area code & extension)

Instructions: Part 1 Lender Information

1a. Check the appropriate box(es) to indicate the purpose of the transmittal.

1b. Enter the name of the remitting Lender.

1c. Enter the remitting Lender's ID number. The LGF statement of account confirming receipt of the funds will be sent to the related address in HUD's records.

Part 2 Mortgage Data

2a. 184 Case Number: (10 digits, 3 +7)

2b. Closing Date: (mm/dd/yy)

2c. Term in Months:
(1) ☐ 1 to 215 months
(2) ☐ 216 to 264 months
(3) ☐ 265 to 300 months
(4) ☐ over 300 months

LG Fee Financed?
☐ Yes
☐ No

2d. Mortgage Amount:
$

2e. Percentage of the LGF Financed:
%

2f. Borrower's Loan Number or Last name

Instructions: Part 2 LGF Mortgage Data

2a. Enter the 184 Case Number assigned by HUD.

2b. Enter the closing date of the mortgage.

2c. Check the box indicating the number of payments in the mortgage.

2d. Enter the mortgage amount.

2e. Enter the percent of LGF financed, e.g. 0% or 100%

2f. Enter the borrower's loan number or the borrower's last name. HUD will include this information on the LGF statement of account to assist mortgagees in matching statements to the appropriate mortgage file.

DRAFT

Part 3 Loan Guarantee Fee Data

3a. Fee Amount for Mortgage:
$

3b. Late Charge Due: (4% of 3a)
$

3c. Interest Due:
$

3d. Total Amount of Check: (3a plus 3b plus 3c)
$

Instructions: Part 3 LGF Data

3a. Enter the LGF due HUD as shown on form HUD-1, Settlement Statement, or if applicable, the additional LGF being remitted.

3b. A 4% late charge shall be paid if the LGF is not expected to reach HUD within 15 days of the closing date entered in item 2b. Enter 4% of the Net LGF shown in item 3a.

3c. In addition to the late charge, daily interest shall be paid on the Net LGF (item 3a) from the closing date if the LGF payment is not expected to reach HUD within 30 days of the closing date. Use the current value of Federal funds rate (published annually in the Federal Register) to compute the interest due.

3d. Enter the total of items 3a plus 3b plus 3c. This amount must equal the amount of the check. An individual check is required for each form HUD-53038. **Do not combine remittances.**

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4349–N–21]

Submission for OMB Review: Comment Request

AGENCY: Office of the Assistant Secretary for Administration, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: Comments due date: June 29, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments must be received within thirty (30) days from the date of this Notice. Comments should refer to the proposal by name and/or OMB approval number and should be sent to: Joseph F. Lackey, Jr., OMB Desk Officer, Office of Management and Budget, Room 10235, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Wayne Eddins, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, Southwest, Washington, DC 20410, telephone (202) 708–1305. This is not a toll-free number. Copies of the proposed forms and other available documents submitted to OMB may be obtained from Mr. Eddins.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposal for the collection of information, as described below, to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The Notice lists the following information: (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the OMB approval number, if applicable; (4) the description of the need for the information and its proposed use; (5) the agency form number, if applicable; (6) what members of the public will be affected by the proposal; (7) how frequently information submissions will be required; (8) an estimate of the total number of hours needed to prepare the information submission including number of respondents, frequency of response, and hours of response; (9) whether the proposal is new, an extension, reinstatement, or revision of an information collection requirement; and (10) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: May 20, 1998.

David S. Cristy,

Director, IRM Policy and Management Division.

Title of Proposal: Annual Adjustment Factor (AAF) Rent Increase Requirement Pursuant to the Housing Appropriation Act of 1994.

Office: Housing.

OMB Approval Number: 2502–0507.

Description of the Need for the Information and Its Proposed Use: Owners must submit form HUD–92273, Estimates of Market Rent by Comparison, in order to receive a rent increase when rent levels for a specific unit type, in a Substantial Rehab or New Construction contract, exceeds the existing Fair Market Rent (FMRs) for the specific unit type. This form must be completed by a non-identity of interest State certified appraiser and must contain at least three examples of unassisted housing in the same market area for similar age, type and quality which indicate rent levels of similar unassisted housing area for similar age, type, and quality which indicate rent levels of similar unassisted housing are above the published FMRs.

Form Number: HUD–92273.

Respondents: Businesses or other for-profit.

Frequency of Submission:

Reporting Burden:

	Number of respondents	×	Frequency of Response	×	Hours per Response	=	Burden hours
HUD–92273	10,000		1		.553		5,527

Total Estimated Burden Hours: 5,527.

Status: Reinstatement without changes.

Contact: Ulyses Brinkley, HUD, (202) 708–4162; Joseph F. Lackey, Jr., OMB, (202) 395–7316.

Dated: May 20, 1998.

[Docket No. FR–4369–N–04]

Announcement of OMB Approval Number for the HOME Investment Partnerships Program Final Rule

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Announcement of OMB Approval Number.

SUMMARY: The purpose of this notice is to announce the OMB approval number for the collection of information pertaining to the HOME Investment Partnership Program.

FOR FURTHER INFORMATION CONTACT: Mary Kolesar, Department of Housing and Urban Development, 451 7th Street, Southwest, Washington, DC 20410, telephone (202) 708–2470. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended), this notice advises that OMB has responded to the Department's request for approval of the information collection pertaining to the HOME Investment Partnerships Program. The OMB approval number for this information collection is 2506–0162, which expires on January 31, 2000.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number.

Dated: May 20, 1998.

Fish and Wildlife Service

Agency Information Collection Activities; Announcement of the Office of Management and Budget (OMB) Approval Number

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service (FWS) announces that a collection of information entitled "Evaluation of visitor responses to recreation fee demonstration program" has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (the PRA).

FOR FURTHER INFORMATION CONTACT: Stephen R. Vehrs, Refuge Program Specialist, Division of Refuges, 703/358–2397; or Phadrea Ponds, Wildlife Biologist, U.S. Geological Survey, Fort Collins, CO, 970/226–9445.

SUPPLEMENTARY INFORMATION: The **Federal Register** of March 9, 1998 (63 FR 11449), the Service announced that the proposed information collection had been submitted to OMB for review and clearance under section 3507 of the PRA (44 U.S.C. 3507). The notice also listed the title of the proposal, and description of the need for the information and proposed use. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has now approved the information collection and has assigned OMB control number 1018–0098. The OMB approval expires on April 30, 1999.

Dated: May 22, 1998.

Bureau of Land Management

[WY–921–1430–01; WYW 136096]

Public Land Order No. 7337; Withdrawal of Public Lands for the Protection of Thelesperma pubescens Plant Habitat; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order withdraws 590 acres of reserved Federal mineral interest from mining, and 3,646.51 acres of public lands from surface entry and mining for a period of 50 years to protect *Thelesperma pubescens* (Uinta greenthread) plant habitat. The lands have been and will remain open to mineral leasing.

EFFECTIVE DATE: May 28, 1998.

FOR FURTHER INFORMATION CONTACT: Janet Booth, BLM Wyoming State Office, P.O. Box 1828, Cheyenne, Wyoming 82003, 307–775–6124.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1994), it is ordered as follows:

1. Subject to valid existing rights, the reserved Federal mineral interest in the following described lands is hereby withdrawn from location and entry under the United States mining laws (30 U.S.C. Ch. 2 (1994)), but not from leasing under the mineral leasing laws, for the Bureau of Land Management to protect *Thelesperma pubescens* plant habitat:

  Sec. 23, SE¼NE¼ and NE¼SE¼;
  Sec. 24, W½NW¼ and NW¼SW¼;
  Sec. 28, SE¼SE¼.

The areas described aggregate 590 acres in Sweetwater and Uinta Counties.

2. Subject to valid existing rights, the following described public lands are hereby withdrawn from settlement, sale, location, or entry under the general land laws, including the United States mining laws (30 U.S.C. Ch. 2 (1994)), but not from leasing under the mineral leasing laws, for the Bureau of Land Management to protect *Thelesperma pubescens* plant habitat:

The areas described aggregate 3,646.51 acres in Sweetwater and Uinta Counties.

3. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

4. This withdrawal will expire 50 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (1994), the Secretary determines that the withdrawal shall be extended.

Dated: May 20, 1998.

Bob Armstrong,

Assistant Secretary of the Interior.

Bureau of Land Management

[NM–030–1430–01; NMNM99206]

Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classification; New Mexico

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of Realty Action; R&PP Act Classification.

SUMMARY: The following public land in Dona Ana County, New Mexico has been examined and found suitable for classification for lease or conveyance to Gadsden Independent School District (GISD), New Mexico under the provision of the R&PP Act, as amended (43 U.S.C. 869 *et seq.*). GISD proposes to use the land for a wastewater leach field to serve their elementary and middle schools.

T. 26 S., R. 5 E., NMPM
Sec. 14, part of the SW¼NW¼SW¼.
Containing 6 acres, more or less.

DATES: Comments regarding the proposed lease/conveyance or classification must be submitted on or before July 13, 1998.

ADDRESSES: Comments should be sent to the BLM, Las Cruces Field Office, 1800 Marquess, Las Cruces, New Mexico 88005.

FOR FURTHER INFORMATION CONTACT: Marvin M. James at the address above or at (505) 525–4349.

SUPPLEMENTARY INFORMATION: Lease or conveyance will be subject to the following terms, conditions, and reservations:

1. Provisions of the R&PP Act and to all applicable regulations of the Secretary of the Interior.
2. All valid existing rights documented on the official public land records at the time of lease/patent issuance.
3. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.
4. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

Upon publication of this notice in the **Federal Register**, the land will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease or conveyance under the R&PP Act and leasing under the mineral leasing laws. On or before July 13, 1998, interested persons may submit comments regarding the proposed lease/conveyance or classification of the land to the District Manager, Las Cruces District Office, 1800 Marquess, Las Cruces, New Mexico 88005. Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice.

Classification Comments

Interested parties may submit comments involving the suitability of the land for a wastewater leach field. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Application Comments

Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for a wastewater leach field.

Dated: May 21, 1998.

Linda S. C. Rundall,

Las Cruces Field Office Manager.

Proposed Lease of Public Lands Under the Recreation and Public Purposes Act in Washakie County, Wyoming, Bighorn Basin Resource Area

ACTION: Noticeof Realty Action; correction.

SUMMARY: The Bureau of Land management, Worland District, published a notice in the **Federal Register** of April 27, 1998, regarding the proposed lease of public lands under the provisions of the Recreation and Public Purposes Act, as amended. The notice contained in incorrect U.S.C. citation and an incorrect legal description.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management, Worland District Office, Steven R. Till, Realty Specialist, P.O. Box 119, Worland,

Wyoming 82401–0119, or telephone (307) 347–5100.

Correction

In the **Federal Register** issue of April 27, 1998 in FR Doc. 98–11067, on page 20643, in the third column, correct the SUMMARY caption to read:

SUMMARY: The following public lands near the community of Worland, Washakie County, Wyoming, have been examined and found suitable for classification for lease under the provisions of the Recreation and Public Purposes Act, as amended (43 United States Code 869 *et seq.*). The Washakie County Fair Board proposes to use the lands for an Olympic-style cross-country horse track and associated jumping facilities.

Minerals Management Service

Outer Continental Shelf, Gulf of Mexico Region, Proposed Western Gulf Sales 171, 174, 177, and 180

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of Availability of the Final Multisale Environmental Impact Statement (EIS) on Proposed Western Gulf of Mexico (GOM) Sales 117, 174, 177, and 180.

The Minerals Management Service (MMS) has prepared a final multisale EIS on four proposed Outer Continental Shelf (OCS) oil and gas lease sales in the Western GOM. We will conduct a planning process for one sale each year from 1998 through 2001. Although this EIS addresses four proposed lease sales, it is a decision document only for proposed Sale 171. We will consult with other Federal agencies and the affected States for each of the yearly proposed sales. We will perform a National Environmental Policy Act review, and give the public an opportunity to participate in each sale.

You may obtain single copies of the final multisale EIS from the Minerals Management Service, Gulf of Mexico OCS Region, *Attention:* Public Information Office (MS–5034), 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana 70123–2394 or by calling 1–800–200–GULF.

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Rio Arriba County and Taos County, NM in the Control of the Carson National Forest, United States Forest Service, Taos, NM

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains in the control of the Carson National Forest, United States Forest Service, Taos, NM.

A detailed assessment of the human remains was made by Museum of New Mexico, Maxwell Museum (University of New Mexico), and U.S. Forest Service professional staff in consultation with representatives of the Navajo Nation, the Pueblo of Taos, and the Pueblo of Picuris.

In 1934, human remains representing one individual were recovered from site LA 1684 during legally authorized excavations conducted by C.O. Erwin and M.W. Kelly of the Laboratory of Anthropology (Museum of New Mexico). No known individuals were identified. No associated funerary objects are present.

Based on material culture, architecture, and site organization, site LA 1684 has been identified as a Navajo pueblito occupied during the first half of the 18th century.

Based on the above mentioned information, officials of the United States Forest Service have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the United States Forest Service have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and the Navajo Nation.

In 1965, human remains representing one individual were recovered from site LA 9203 during legally authorized excavations conducted by the University of New Mexico Archaeological Field School. No known individual was identified. No funerary objects are present.

Based on material culture and site organization, site LA 9203 has been identified as an Anasazi pithouse occupied between 1100-1225 A.D.

In 1967, human remains representing three individuals were recovered from sites LA 9204, LA 9205, and LA 9206 during legally authorized excavations conducted by the University of New Mexico Archaeological Field School. No known individuals were identified. The one associated funerary object is a piece of animal bone with the individual at site LA 9204.

Based on material culture, architecture, and site organization, sites LA 9204, LA 9205, and LA 9206 have been identified as three Anasazi roomblocks occupied between 1100-1225 A.D.

In 1968, human remains representing nine individuals were recovered from site LA 66407 near Los Rancho de Taos during legally authorized excavations conducted by U.S. Forest Service personnel. No known individuals were identified. The five associated funerary objects include pottery sherds.

Based on material culture, architecture, and site organization, site LA 66407 has been identified as an Anasazi pithouse occupied between 1150-1350 AD.

Based on the above mentioned information, officials of the United States Forest Service have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of 13 individuals of Native American ancestry. Officials of the United States Forest Service have also determined that, pursuant to 43 CFR 10.2 (d)(2), the six objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the United States Forest Service have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Pueblo of Taos and the Pueblo of Picuris.

This notice has been sent to officials of the Navajo Nation, the Pueblo of Taos, and the Pueblo of Picuris. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Dr. Frank E. Wozniak, NAGPRA

Coordinator, Southwestern Region, USDA Forest Service, 517 Gold Ave., SW, Albuquerque, NM 87102; telephone: (505) 842-3238, fax (505) 842-3800, before June 29, 1998. Repatriation of the human remains and associated funerary objects to the culturally affiliated tribes may begin after that date if no additional claimants come forward.

Dated: May 20, 1998.

Francis P. McManamon,

Departmental Consulting Archeologist, Manager, Archeology and Ethnography Program.

BILLING CODE 4310–70–F

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731–TA–794–796 (Preliminary)]

Certain Emulsion Styrene-Butadiene Rubber From Brazil, Korea, and Mexico

Determinations

On the basis of the record [1] developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Brazil, Korea, and Mexico of certain emulsion styrene-butadiene rubber,[2] provided for in subheading 4002.19.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules upon notice from the Department of Commerce of affirmative preliminary determinations in the investigations under section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On April 1, 1998, a petition was filed with the Commission and the Department of Commerce by Ameripol Synpol Corp. of Akron, OH, and DSM Copolymer of Baton Rouge, LA, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of certain emulsion styrene-butadiene rubber from Brazil, Korea, and Mexico. Accordingly, effective April 1, the Commission instituted antidumping investigations Nos. 731–TA–794–796 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 9, 1998 (63 FR 17443). The conference was held in Washington, DC, on April 22, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on May 18, 1998. The views of the Commission are contained in USITC Publication 3108 (May 1998), entitled "Certain Emulsion Styrene-Butadiene Rubber from Brazil, Korea, and Mexico: Investigations Nos. 731–TA–794–796 (Preliminary)."

Issued: May 20, 1998.

By order of the Commission.

Donna R. Koehnke,

Secretary.

[FR Doc. 98–14145 Filed 5–27–98; 8:45 am]

BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701–TA–375 and 731–TA–787 (Preliminary)]

Extruded Rubber Thread From Indonesia

On the basis of the record [1] developed in the subject investigations, the United States International Trade Commission determines, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Indonesia of extruded rubber thread, provided for in subheading 4007.00.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be subsidized by the Government of Indonesia and to be sold in the United States at less than fair value (LTFV).[2]

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phases of its investigations. The Commission will issue final phase notices of scheduling which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under sections 703(b) and 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in the investigations under sections 705(a) and 735(a) of the Act. Parties that filed entries of

[1] The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

[2] For purposes of these investigations, emulsion styrene-butadiene rubber (ESBR) consists of a synthetic polymer made via free radical cold emulsion copolymerization of styrene and butadiene monomers in reactors. The reaction process involves combining styrene and butadiene monomers in water, with an initiator system, an emulsifier system, and molecular weight modifiers. ESBR consists of cold non-pigmented rubbers and cold oil-extended non-pigmented rubbers that contain at least one percent of organic acids from the emulsion polymerization process.

ESBR is produced and sold, both inside the United States and internationally, in accordance with a generally accepted set of product specifications issued by the International Institute of Synthetic Rubber Producers (IISRP). The universe of products subject to these investigations consists of grades of ESBR included in the IISRP 1500 series and IISRP 1700 series of synthetic rubbers. The 1500 grades are light in color and are often described as "Clear" or "White Rubber." The 1700 grades are oil-extended and thus darker in color, and are often called "Brown Rubber." Products manufactured by blending ESBR with other polymers, high styrene resin masterbatch, carbon black masterbatch (i.e., IISRP 1600 series and 1800 series), and latex (an intermediate product) are not included within the scope of these investigations.

[1] The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

[2] Commissioner Carol T. Crawford found in the negative with respect to food grade extruded rubber thread.

appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phases of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On March 31, 1998, petitions were filed with the Commission and the Department of Commerce by North American Rubber Thread Co., Fall River, MA, alleging that an industry in the United States is materially injured and threatened with material injury by reason of subsidized and LTFV imports of extruded rubber thread from Indonesia. Accordingly, effective March 31, 1998, the Commission instituted countervailing duty investigation No. 701–TA–375 (Preliminary) and antidumping duty investigation No. 731–TA–787 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 9, 1998 (63 FR 17444). The conference was held in Washington, DC, on April 20, 1998, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigation to the Secretary of Commerce on May 15, 1998. The views of the Commission are contained in USITC Publication 3106 (May 1998), entitled "Extruded Rubber Thread from Indonesia: Investigations Nos. 701–TA–375 (Preliminary) and 731–TA–787 (Preliminary)."

Issued: May 22, 1998.

By order of the Commission.

Donna R. Koehnke,

Secretary.

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701–TA–376–379 (Preliminary) and 731–TA–788–793 (Preliminary)]

Certain Stainless Steel Plate From Belgium, Canada, Italy, Korea, South Africa, and Taiwan

Determinations

On the basis of the record [1] developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Belgium, Italy, Korea, and South Africa of certain stainless steel plate in coils, provided for in subheadings 7219.11.00, 7219.12.00, 7219.31.00, and 7220.11.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be subsidized by the respective Governments of Belgium, Italy, Korea, and South Africa. The Commission also determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of such imports from Belgium, Canada, Italy, Korea, South Africa, and Taiwan that are alleged to be sold in the United States at less than fair value.

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in these investigations under section 703(b) and section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in the investigations under section 705(a) and section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

On March 31, 1998, a petition was filed with the Commission and the Department of Commerce by Armco, Inc., Pittsburgh, PA; J&L Specialty Steel, Inc. (J&L), Pittsburgh, PA; Lukens Inc., Coatesville, PA; North American Stainless (NAS), Ghent, KY; and the United Steelworkers of America, AFL–CIO/CLC, alleging that an industry in the United States is materially injured by reason of subsidized or LTFV imports of certain stainless steel plate from Belgium, Canada, Italy, Korea, South Africa, and Taiwan. Accordingly, effective March 31, 1998, the Commission instituted antidumping investigations Nos. 701–TA–376–379 (Preliminary) and investigations Nos. 731–TA–788–793 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 9, 1998 (63 FR 17445). The conference was held in Washington, DC, on April 21, 1998, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on May 15, 1998. The views of the Commission are contained in USITC Publication 3107 (May 1998), entitled "Certain Stainless Steel Plate from Belgium, Canada, Italy, Korea, South Africa, and Taiwan: Investigations Nos. 701–TA–376–379 (Preliminary) and Investigations Nos. 731–TA–788–793 (Preliminary)."

Issued: May 21, 1998.

By order of the Commission.

Donna R. Koehnke,

Secretary.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

Combined Arts Panel; Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), as amended, notice is hereby given that a meeting of the Combined Arts Panel, Local Arts Agencies/Presenting Section (Creation & Presentation Category) to the National Council on the Arts will be held on June 16–17, 1998. The panel will meet from 9:00 a.m. to 7:30 p.m. on June 16 and from 8:30 a.m. to 6:00 p.m. on June 17, in Room 716 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW, Washington, DC 20506. A portion of this meeting, from 1:00 p.m. to 3:30 p.m. on June 17, will be open to the public for a policy discussion of guidelines, planning, field needs and trends, and Leadership Initiatives.

The remaining portions of this meeting, from 9:00 a.m. to 7:30 p.m. on June 16, and from 8:30 a.m. to 1:00 p.m. and 3:45 p.m. to 6:00 p.m. on June 17, are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation of the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of May 14, 1998, these sessions will be closed to the public pursuant to subsection (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW, Washington, DC 20506, 202/682–5532, TDY–TDD 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Kathy Plowitz-Worden, Office of Guidelines & Panel Operations, National Endowment for the Arts, Washington, DC 20506, or call 202/682–5691.

Dated: May 21, 1998.

Kathy Plowitz-Worden,

Panel Coordinator, Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comments Request; Title of Collection: Cross Projects Evaluation of the Local Systemic Change Through Teacher Enhancement Program

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request renewal of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting OMB clearance of this collection for no longer than 3 years.

SEND COMMENTS TO: Gail A. McHenry, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 245, Arlington, Virginia 22230 or send email to gmchenry@nsf.gov. Written comments should be received within 60 days of the date of this notice.

FOR FURTHER INFORMATION CONTACT: Mrs. McHenry on (703) 306–1125 x2010 or send email to gmchenry@nsf.gov. You may also obtain a copy of the data collection instrument and instructions from Mrs. McHenry.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including the use of automated collection techniques or other forms of information technology.

Renewal Project: The current National Science Foundation Local Systemic Change Teacher and Principal Questionnaires have been in use for three years. This program provides funds for the initiation of systemic efforts that will result in K–12 teachers making significant progress toward national goals for the teaching of science, mathematics, and technology.

Use of Information: Information obtained will provide the Foundation with a common set of evaluation data from all projects in order to evaluate individual projects, aggregate data and information across projects; and produce cross-project analyses.

Burden on the Public: There are currently 55 projects. A sample of 300 science or mathematics teachers per project will complete the Teacher Questionnaire (approximately 20 minutes) and an average of 60 principals per project will complete the Principal Questionnaire (approximately 20 minutes). Each project will conduct one-half hour interviews with each of 10 teachers.

Dated: May 21, 1998.

Gail A. McHenry,

Reports Clearance Officer.

Special Emphasis Panel in Mathematical Sciences; Notice of Meeting

In accordance with the federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting.

Name and Committee Code: Special Emphasis in Mathematical Sciences (1204).

Date and time: June 18–20, 1998, 8:30 A.M. until 5:00 P.M.

Place: Room 360, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Closed.

Contact person: Dr. Ann Boyle, Program Director, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Telephone: (703) 306–1875.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate proposals concerning the Mathematical Sciences Research Institutes Program, as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c) (4) and (6) of the Government in the Sunshine Act.

Dated: May 22, 1998.

Advisory Committee for Polar Programs; Committee of Visitors; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Polar Programs (1130).

Date and Time: June 16, 17, and 18, 1998–8:30 a.m.-5:00 p.m. each day.

Place: Rm. 320, NSF, 4201 Wilson Boulevard, Arlington, Va.

Type of Meeting: Open

Contact Person: Mr. Dwight D. Fisher, Deputy Head, Polar Research Support Section, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Telephone: (703) 306–1032.

Purpose of Meeting: To carry out Committee of Visitors (COV) review, including program evaluation and GPRA assessments, of the Polar Research Support Section, Office of Polar Programs.

Agenda: To assess the results of NSF program investments in the Polar Research Support Section. This shall involve a discussion and review of results focused on NSF and grantee outputs and related outcomes achieved or realized in providing support to research in Antarctica during the preceding three fiscal years. These results may be based on NSF contracts, interagency agreements, or other investments made in earlier years.

Dated: May 22, 1998.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Revision.

2. The title of the information collection: 10 CFR Part 70—Domestic Licensing of Special Nuclear Material.

3. How often the collection is required: Required reports are collected and evaluated on a continuing basis as events occur. Applications for new licenses and amendments may be submitted at any time. Generally, renewal applications are submitted every ten years and for major fuel cycle facilities updates of the safety demonstration section are submitted every two years. Nuclear material control and accounting information is submitted in accordance with specified instructions. Nuclear criticality safety training program information pursuant to DG–3008 is submitted with the application or renewal.

4. Who will be required or asked to report: Applicants for and holders of specific NRC licenses to receive title to, own, acquire, deliver, receive, possess, use, or initially transfer special nuclear material.

5. The number of annual responses: 1,123.

6. The number of hours needed annually to complete the requirement or request: 77,835 (an average of approximately 64.9 hours per response for applications and reports, plus approximately 23.6 hours per recordkeeper).

7. An indication of whether Section 3507(d), Public Law 104–13 applies: Not applicable.

8. Abstract: 10 CFR Part 70 establishes requirements for licenses to own, acquire, receive, possess, use, and transfer special nuclear material. Draft

Regulatory Guide DG–3008 provides guidance on an acceptable nuclear criticality safety training program. The information in the applications, reports and records is used by NRC to make licensing and other regulatory determinations concerning the use of special nuclear material. The revised estimate of burden reflects the addition of requirements for documentation for termination or transfer of licensed activities.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (lower level), Washington, DC. OMB clearance requests are available at the NRC worldwide web site (http://www.nrc.gov) under the FedWorld collection link on the home page tool bar. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer by June 29, 1998. Erik Godwin, Office of Information and Regulatory Affairs (3150–0009), NEOB–10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395–3084.

The NRC Clearance Officer is Brenda Jo. Shelton, 301–415–7233.

Dated at Rockville, Maryland, this 20th day of May 1998.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–341]

Detroit Edison Company; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF–43, issued to Detroit Edison Company (the licensee), for operation of the Fermi 2 Plant located in Newport, Michigan.

The proposed amendment would modify the scram discharge volume (SDV) vent and drain valve action requirements to be consistent with those contained in NUREG–1433, Revision 1, "Standard Technical Specifications General Electric Plants, BWR/4." Technical Specification (TS) Limiting Condition for Operation 3.1.3.1, Action d., currently specifies that "With one scram discharge volume vent valve and/or one scram discharge volume drain valve inoperable and open, restore the inoperable valve(s) to OPERABLE status within 24 hours or be in at least HOT SHUTDOWN within the next 12 hours." TS 3.1.3.1, Action e., currently specifies that "With any scram discharge volume vent valve(s) and/or any scram discharge volume drain valve(s) otherwise inoperable, restore the inoperable valve(s) to OPERABLE status within 8 hours or be in at least HOT SHUTDOWN within the next 12 hours." The licensee proposes to revise TS 3.1.3.1, Action d. making it applicable to valves inoperable for any reason, and to increase the time allowed for restoring a SDV vent or drain line with one valve inoperable from the current 24 hours to 7 days. This proposed change would also allow separate entry into the action for each affected drain and vent line. TS 3.1.3.1, Action e. would be revised to allow continued operation with both valves in one or more SDV vent or drain lines inoperable, provided the lines are isolated within 8 hours, and each valve is restored to operable status within 7 days of its respective inoperability. A footnote would be added to TS 3.1.3.1, Action e. that would allow the SDV line to be unisolated under administrative control for the purpose of venting and draining the SDV. As with the proposed change to Action d., the proposed change to Action e., would allow separate entry into the action for each SDV vent or drain line.

Detroit Edison is requesting that this license amendment request be processed in an exigent manner in accordance with 10 CFR 50.91(a)(6) because delay in granting this amendment could lead to a plant shutdown. The plant is currently operating at 96% power with the SDV vent and drain valves open for normal operation. One of the SDV isolation valves, although currently operable in accordance with TS, has recently shown signs of stoke time performance degradation. The licensee has observed an increase in the stoke time over several weeks for C1100F0010, one of the SDV vent valves, during testing of the valve in accordance with Surveillance Requirement 4.1.3.1.4.a.1 and the Inservice Testing Program. Increased frequency testing (approximately every 7 days) has been initiated in order to establish a trend in the rate of degradation. However, the licensee has indicated that no clear trend can be established. Fermi 2 management has determined that it is prudent to repair the actuator for the valve before degradation causes the valve to exceed its testing performance criteria limits. In order to perform this repair, the vent line will be isolated, which will place the plant in the TS 3.1.3.1, Action e., 8 hour allowed outage time. The licensee believes that the actuator repair cannot be accomplished within the 8-hour limit.

The licensee was unable to make a more timely application because it only recently concluded that the valve might fail testing at any time and that rework in the near future would be prudent. The licensee evaluated the time required to rework the valve and estimated that the work would take 11 hours unless unforeseen problems are encountered. Because the time required for the work exceeds the time allowed by the action statement, the licensee decided to request an amendment to change the action statement using the improved standard technical specifications as a guide. The licensee submitted the amendment request within a few days of the time it decided to make the request.

The staff has determined that the licensee used its best efforts to make a timely application for the proposed changes and that exigent circumstances do exist and were not the result of any intentional delay on the part of the licensee.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

Pursuant to 10 CFR 50.91(a)(6) for amendments to be granted under exigent circumstances, the NRC staff must determine that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The change does not involve a significant increase in the probability or

consequences of an accident previously evaluated.

The proposed change will:

(a) allow operation with one valve in each SDV vent or drain line to be inoperable for any reason for a period of 7 days. The SDV vent and drain valves are not considered to be an initiator for any previously analyzed accident. Therefore, this change does not involve a significant increase in the probability of any accident previously evaluated. Redundant OPERABLE isolation valves are installed in the vent and drain lines so that isolation capability is maintained for the short period the inoperable valve may not be capable of performing its function. The ability of the SDV vent and drain valves to limit the amount of water discharged during scram so that adequate core cooling and offsite doses remain within 10 CFR 100 limits is maintained. Therefore, this change does not involve a significant increase in the consequences of an accident previously evaluated.

(b) allow continued operation with one or more SDV vent or drain lines with both valves inoperable provided the line(s) are isolated within 8 hours, and each valve is restored to OPERABLE status within 7 days of its respective inoperability. It also allows the line(s) to be unisolated under administrative controls to vent or drain the affected SDV. The SDV vent and drain valves are not considered to be an initiator for any previously analyzed accident and, therefore, these changes do not involve a significant increase in the probability of any previously evaluated accident. With the vent or drain lines isolated, the accident containment isolation function is maintained. The administrative control provision allows the lines to be unisolated to preclude an unnecessary reactor trip on high SDV level and to ensure sufficient volume is available to accept the reactor coolant discharged during a scram. The administrative controls also provide for prompt action to isolate the line(s), if necessary, should a scram occur while the valve is open. Because the intended function is maintained, these changes do not involve a significant increase in the consequences of an accident previously evaluated.

2. The change does not create the possibility of a new or different kind of accident from any accident previously evaluated.

The proposed changes do not involve any physical modifications to the plant systems, structures, or components. Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. The change does not involve a significant reduction in the margin of safety.

The proposed changes:

(a) allow operation with one valve in each SDV vent or drain line to be inoperable for any reason for a period of 7 days. The automatic scram on high SDV level (TS 3.3.1, Table 3.3.1–1, Functional Unit 8) ensures the SDV does not fill beyond the capacity needed to assure a complete scram. The primary containment isolation function can be maintained by the redundant valve in each of these lines. Also, allowing the SDV to have an inoperable valve in the drain or vent line and not meet single failure considerations is acceptable because it is limited to 7 days. This length of time has been found to be acceptable because of the redundancy and low probability of a scram occurring while the valve(s) are inoperable. Therefore, the proposed change does not involve a significant reduction in the margin of safety.

(b) allow continued operation with SDV vent or drain lines with both valves inoperable if the affected line(s) is isolated within 8 hours, and each valve is restored to OPERABLE status within 7 days of its respective inoperability. With the line(s) isolated the primary containment isolation function is maintained. The provision that permits the line(s) to be unisolated under administrative control ensures that an unnecessary reactor scram on SDV high level will not occur. The provision also ensures the line(s) that are unisolated under administrative controls can be promptly isolated. These provisions ensure that sufficient SDV volume is maintained to assure a complete reactor scram and that primary containment integrity is maintained. Therefore, the proposed change does not involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received by close of business within 14 days after the date of publication of this notice will be considered in making any final determination. The licensee requested issuance of the amendment by May 26, 1998. Issuance of the amendment on this date would not have allowed any time for public comments on the amendment request. However, the NRC staff has determined that it would be appropriate to allow more time for public review of and comment on the amendment request.

Normally, the Commission will not issue the amendment until the expiration of the 14-day notice period. However, should circumstances change during the notice period, such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 14-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC.

The filing of requests for hearing and petitions for leave to intervene is discussed below.

By June 29, 1998 the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Monroe County Library System, Ellis Reference and Information Center, 3700 South Custer Road, Monroe, Michigan 48161.

If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If the amendment is issued before the expiration of the 30-day hearing period, the Commission will make a final determination on the issue of no significant hazards consideration. If a hearing is requested, the final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, and to John Flynn, Esq., Detroit Edison Company, 2000 Second Avenue, Detroit, Michigan 48226, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated May 20, 1998, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room, located at the Monroe County Library System, Ellis Reference and Information Center, 3700 South Custer Road, Monroe, Michigan 48161.

Dated at Rockville, Maryland, this 22nd day of May 1998.

For the Nuclear Regulatory Commission.

Andrew J. Kugler,

Project Manager, Project Directorate III–1, Division of Reactor Projects—III/IV, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–341]

Detroit Edison Company; FERMI 2 Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from certain requirements of its regulations to Facility Operating License No. NPF–43, issued to Detroit Edison Company (the licensee), for operation of the Fermi 2 plant, located in Monroe County, Michigan.

Environmental Assessment

Identification of the Proposed Action

The proposed action would exempt the licensee, in certain cases, from the requirements of 10 CFR 70.24(a), which, in part, requires a monitoring system in each area in which special nuclear material is handled, used, or stored, that will energize clear audible alarms if accidental criticality occurs.

The proposed action is in accordance with the licensee's application for exemption dated April 27, 1998.

The Need for the Proposed Action

The purpose of 10 CFR 70.24 is to ensure that if a criticality were to occur during the handling of special nuclear material, personnel would be alerted to that fact and would take appropriate action. At a commercial nuclear power plant, the inadvertent criticality with which 10 CFR 70.24 is concerned could occur during fuel handling operations. The special nuclear material that could be assembled into a critical mass at a commercial nuclear power plant is in the form of nuclear fuel; the quantity of other forms of special nuclear material that is stored onsite in any given location (e.g., calibration sources or in-

core instrumentation that is not in use) is small enough to preclude achieving a critical mass. Because the fuel is not enriched beyond 5.0 weight percent uranium-235, and because commercial nuclear plant licensees have procedures and features that are designed to prevent inadvertent criticality, the staff has determined that it is unlikely that an inadvertent criticality could occur due to the handling of special nuclear material at a commercial power reactor. Therefore, an exemption from the requirements of 10 CFR 70.24 in selected cases will not have a negative impact on the safety of personnel during the handling of special nuclear materials at commercial power reactors.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that inadvertent or accidental criticality will be precluded through compliance with the Fermi 2 Technical Specifications, the design of the fuel storage racks providing geometric spacing of fuel assemblies in their storage locations, and administrative controls imposed on fuel handling procedures.

The proposed exemption will not result in an increase in the probability or consequences of accidents, affect radiological plant effluents or offsite dose, or cause any significant occupational exposures. Therefore, there are no radiological impacts associated with the proposed exemption.

The proposed exemption will not result in a change in nonradiological effluents and will have no other nonradiological environmental impact.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded that there is no significant environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed exemption, the staff considered denial of the requested exemption. Denial of the request would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement related to the operation of Fermi 2 dated August 1981.

Agencies and Persons Consulted

In accordance with its stated policy, on May 7, 1998, the staff consulted with the Michigan State official, Dennis Hahn, of the Michigan Department of Environmental Quality, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated April 27, 1998, which is available for public inspection at the Commission's Public Document Room located at the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Monroe County Library System, 3700 South Custer Road, Monroe, Michigan 48161.

Dated at Rockville, Maryland, this 20th day of May 1998.

For the Nuclear Regulatory Commission.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket 72–1021]

Transnuclear, Inc.; Issuance of Environmental Assessment and Finding of No Significant Impact

By letter dated April 9, 1998, Transnuclear, Inc. (TN or applicant) requested an exemption, pursuant to 10 CFR 72.7, from the requirements of 10 CFR 72.234(c). TN, located in Hawthorne, New York, is seeking Nuclear Regulatory Commission (NRC or the Commission) approval to fabricate six TN–32 dry spent fuel storage casks prior to receipt of a Certificate of Compliance (COC). The casks are intended for use under the general license provisions of Subpart K of 10 CFR Part 72 by Wisconsin Electric Power Company (WEPCo) at the Point Beach Nuclear Power Station (Point Beach) located in Two Rivers, Wisconsin. The TN–32 dry spent fuel storage cask is currently used at Surry Power Station under a site-specific license.

Environmental Assessment (EA)

Identification of Proposed Action

The applicant is seeking Commission approval to fabricate six TN–32 casks prior to the Commission's issuance of a COC. The applicant requests an exemption from the requirements of 10 CFR 72.234(c), which state that "Fabrication of casks under the Certificate of Compliance must not start prior to receipt of the Certificate of Compliance for the cask model." The proposed action before the Commission is whether to grant this exemption under 10 CFR 72.7.

Need for the Proposed Action

Point Beach was using the Ventilated Storage Cask, Model No. 24, fabricated by Sierra Nuclear, Corp. (VSC–24), however, they have not been able to load a cask for 2 years. The VSC–24 vendor is under a demand for information, and a confirmatory action letter regarding closure lid weld issues that prevents Point Beach from loading any VSC–24s. To ensure future operations, Point Beach requires another cask option if they cannot load VSC–24s. TN requests the exemption to ensure the availability of storage casks so that WEPCo can continue operating the Point Beach Units 2 and 1 past March 2000 and late 2000, respectively, and to restore full core off-load capability. Three casks are required to ensure continued operation into 2001, and three additional casks are required to restore full core off-load capability. Therefore, to support the March 2000 loading, WEPCo requests the delivery of the first cask by December 1999. TN states that to meet this schedule, purchase of cask components must begin promptly and fabrication must begin by September 1998.

The TN–32 COC application, dated September 24, 1997, is under consideration by the Commission. It is anticipated, if approved, the TN–32 COC may be issued in late 1999.

The proposed fabrication exemption will not authorize use of the casks to store spent fuel. That will occur only when, and if, a COC is issued. NRC approval of the fabrication exemption request should not be construed as an NRC commitment to favorably consider TN's application for a COC. TN will bear the risk of all activities conducted under the exemption, including the risk that the six casks TN plans to construct

may not be usable because they may not meet specifications or conditions placed in a COC that NRC may ultimately approve.

Environmental Impacts of the Proposed Action

The Environmental Assessment for the final rule, "Storage of Spent Nuclear Fuel in NRC-Approved Storage Casks at Nuclear Power Reactor Sites", (55 FR 29181 (1990)) considered the potential environmental impacts of casks which are used to store spent fuel under a COC and concluded that there would be no significant environmental impacts. The proposed action now under consideration would not permit use of the casks, but only fabrication. There are no radiological environmental impacts from fabrication since cask fabrication does not involve radiological or radioactive materials. The major non-radiological environmental impacts involve use of natural resources due to cask fabrication. Each TN–32 storage cask weighs approximately 100 tons and is fabricated mainly from steel and plastic. The estimated 600 tons of steel required for six casks is expected to have very little impact on the steel industry. Additionally, the estimated 6 tons of plastic required for six casks is insignificant compared to the millions of tons of plastic produced annually. Cask fabrication would be at a metal fabrication facility, not at the reactor site. Fabrication of six casks is insignificant compared to the amount of metal fabrication performed annually in the United States. If the casks are not usable, the casks could be disposed of or recycled. The amount of material disposed of is insignificant compared to the amount of steel and plastic that is disposed of annually in the United States. Based upon this information, the fabrication of six casks will have no significant impact on the environment since no radioactive materials are involved, and the amount of natural resources used is minimal.

Alternative to the Proposed Action

Since there is no significant environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact are not evaluated. The alternative to the proposed action would be to deny approval of the exemption and, therefore, not allow cask fabrication until a COC is issued. However, if a COC is issued and fabrication of the cask occurs, the environmental impacts of the proposed action and the alternative action would be the same.

Given that there are no significant differences in environmental impacts between the proposed action and the alternative considered and that the applicant has a legitimate need to fabricate the casks prior to certification and is willing to assume the risk that the fabricated casks may not be certified or may require modification, the Commission concludes that the preferred alternative is to grant the exemption.

Agencies and Persons Consulted

The Wisconsin Public Utility Commission was consulted about the EA for the proposed action and had no concerns.

References used in preparation of the EA:

1. NRC, Environmental Assessment Regarding Final Rule, "Storage of Spent Fuel in NRC-Approved Storage Casks at Power Reactor Sites," 55 FR 29181.

2. NRC, 10 CFR Part 51, Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions.

Finding of No Significant Impact

The environmental impacts of the proposed action have been reviewed in accordance with the requirements set forth in 10 CFR Part 51. Based upon the foregoing EA, the Commission finds that the proposed action of granting an exemption from 10 CFR 72.234(c) so that TN may fabricate six TN–32 casks prior to issuance of a COC will not significantly impact the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed exemption.

This application was docketed under 10 CFR Part 72, Docket 72–1021. For further details with respect to this action, see the application dated April 9, 1998, which is available for public inspection at the Commission's Public Document Room, 2120 L Street, NW, Washington, DC 20555, and the Local Public Document Room at the Joseph Mann Library, 1516 16th Street, Two Rivers, WI 54241.

Dated at Rockville, Maryland, this 20th day of May 1998.

For the Nuclear Regulatory Commission.

William F. Kane,

Acting Deputy Director, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590–01–P

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 23198; 812–10942]

Boston 1784 Funds, et al.; Notice of Application

May 20, 1998.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for an order under section 12(d)(1)(J) of the Investment Company Act of 1940 (the "Act") exempting applicants from sections 12(d)(1)(A) and (B) of the Act, under sections 6(c) and 17(b) of the Act exempting applicants from sections 17(a)(1) and 17(a)(2) of the Act, and under section 17(d) of the Act and rule 17d–1 under the Act.

SUMMARY OF THE APPLICATION: The requested order would permit certain registered open-end management investment companies to invest excess cash and collateral in affiliated money market funds in excess of the limits in sections 12(d)(1)(A) and (B) of the Act.

APPLICANTS: Boston 1784 Funds (the "Trust"), and all other registered open-end management investment companies and series thereof that currently or in the future are part of the same "group of investment companies," within the meaning of section 12(d)(1)(G) of the Act, that includes the Trust, and BankBoston, N.A. ("BankBoston").

FILING DATES: The application was filed on December 31, 1997, and amended on May 20, 1998.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on June 15, 1998, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants, 2 Oliver Street, Boston, MA 02109.

FOR FURTHER INFORMATION CONTACT: Kathleen L. Knisely, Staff Attorney, at (202) 942–0517, or Nadya B. Roytblat, Assistant Director, at (202) 942–0564,

(Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch, 450 Fifth Street, NW., Washington, DC 20549 (tel. 202–942–8090).

Applicants' Representations

1. The Trust is an open-end management investment company registered under the Act and organized as a Massachusetts business trust. The Trust currently consists of nineteen series ("Funds"), five of which hold themselves out as money market funds and are subject to the requirements of rule 2a–7 under the Act ("Money Market Funds"). BankBoston (formerly, The First National Bank of Boston) is the investment adviser to each Fund. Kleinwort Benson Investment Management Americas Inc. ("KBIMA") serves as co-investment adviser to the Boston 1784 International Equity Fund with BankBoston. BankBoston, as a national bank, is not required to register as an investment adviser under the Investment Adviser Act of 1940 ("Advisers Act"). KBIMA is registered as an investment adviser under the Advisers Act. (BankBoston together with KBIMA, the "Investment Advisers".) BankBoston also serves as custodian ("Custodian") for the assets of all series of the Trust.

2. Each Fund may participate in a securities lending program ("Securities Lending Program") under which the Fund may lend its portfolio securities to registered broker-dealers or other institutional investors. Before a Fund will participate in the Securities Lending Program, it will select a securities lending agent which is not affiliated with BankBoston or any of its affiliates. The agreements governing these loans require that the loans be continuously secured by collateral equal at all times to at least the market value of the securities loaned. Collateral for these loans may include cash ("Cash Collateral"), securities of the U.S. Government or its agencies, or any combination of cash and such securities. Any investment of Cash Collateral will comply with all present and future applicable SEC positions regarding securities lending agreements.

3. Each of the Funds has, or may have, uninvested cast ("Uninvested Cash") held by its Custodian. Uninvested Cash may result from a variety of sources, including dividends or interest received on portfolio securities, unsettled securities transactions, reserves held for investment strategy purposes, scheduled maturity of investments, liquidation of investment securities to meet anticipated redemptions, dividend payments, or new monies received from investors. Currently, the Funds may invest Uninvested Cash in individual short-term money market instruments and repurchase agreements.

4. The Funds wish to have the flexibility to invest their Uninvested Cash and Cash Collateral (collectively, "Cash Balances") in the Money Market Funds. Investment of Cash Balances in shares of the Money Market Funds will be made only to the extent that such investments are consistent with each Fund's investment restrictions and policies as set forth in its prospectus and statement of additional information. Applicants believe that the proposed transactions may reduce transaction costs, create more liquidity, increase returns, and diversify holdings. Applicants request an order to permit certain Funds ("Investing Funds") to invest their Cash Balances in one or more of the Money Market Funds.[1]

Applicants' Legal Analysis

1. Section 12(d)(1)(A) of the Act provides that no registered investment company may acquire securities of another investment company if such securities represent more than 3% of the acquired company's outstanding voting stock, more than 5% of the acquiring company's total assets, or if such securities, together with the securities of other acquired investment companies, represent more than 10% of the acquiring company's total assets. Section 12(d)(1)(B) provides that no registered open-end investment company may sell its securities to another investment company if the sale will cause the acquiring company to own more than 3% of the acquired company's voting stock, or if the sale will cause more than 10% of the acquired company's voting stock to be owned by investment companies.

2. Section 12(d)(1)(J) of the Act provides that the SEC may exempt any person, security, or transaction (or classes thereof) from any provision of section 12(d)(1) if and to the extent that such exemption is consistent with the public interest and the protection of investors.

3. Applicants' proposal would permit the Investing Funds to use Cash Balances to acquire shares of the Money Market Funds in excess of the percentage limitations in section 12(d)(1)(A), provided however, that in all cases the Investing Fund's aggregate investment of Uninvested Cash in shares of the Money Market Funds will not exceed 25% of the Investing Fund's total assets. Applicants' proposal also would permit the Money Market Funds to sell their securities to an Investing Fund in excess of the percentage limitations in section 12(d)(1)(B). Applicants represent that no Money Market Funds will acquire securities of any other investment company in excess of the limitations contained in section 12(d)(1)(A) of the Act.

4. Applicants believe that the proposed arrangement would not result in the abuses that sections 12(d)(1) (A) and (B) were intended to prevent. Applicants represent that the proposed arrangement will not result in an inappropriate layering of fees because shares of the Money Market Funds sold to the Investing Funds will not be subject to a sales load, redemption fee, asset-based distribution fee or service fee. In addition, in connection with approving any advisory contract, the Investing Fund's board of trustees (the "Board"), including a majority of the trustees who are not "interested persons," as defined in section 2(a)(19) of the Act ("Disinterested Trustees"), will consider to what extent, if any, the advisory fees charged to the Investing Fund by the Investment Adviser should be reduced to account for reduced services provided to the Investing Fund by the Investment Adviser as a result of a portion of the assets of the Investing Fund being invested in the Money Market Funds.

5. Section 17(a) makes it unlawful for any affiliated person of a registered investment company, acting as principal, to sell or purchase any security to or from the company. Section 2(a)(3) of the Act defines an affiliated person of another person as any person directly or indirectly controlling, controlled by, or under common control with, such other person. Under section 2(a)(3), because the Trust has one board of trustees, each Fund may be deemed to be under common control with each of the other Funds, and thus an affiliated person of each of the other Funds. As a result, section 17(a) would prohibit the sale of the shares of the Money Market Funds to the Investing Funds, and the redemption of the shares by the Money Market Funds.

6. Section 17(b) of the Act authorizes the SEC to exempt a transaction from section 17(a) of the Act if the terms of the proposed transaction, including the

[1] All investment companies that currently intend to rely on the requested order are named as applicants. Any other existing or future investment company that may rely on the order in the future will do so only in accordance with the terms and conditions of the application.

consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, the proposed transaction is consistent with the policy of each investment company concerned, and the proposed transaction is consistent with the general purposes of the Act.

7. Section 6(c) of the Act permits the SEC to exempt persons or transactions from any provision of the Act, if the exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

8. Applicants submit that their request for relief satisfies the standards in sections 17(b) and 6(c). Applicants state that the Investing Funds will retain their ability to invest Cash Balances directly in money market instruments as authorized by their respective investment objectives and policies, if they believe they can obtain a higher rate of return, or for any other reason. Similarly, each of the Money Market Funds has the right to discontinue selling shares to any of the Investing Funds if the Board of the Money Market Fund determines that such sale would adversely affect its portfolio management and operations. In addition, applicants note that shares of the Money Market Funds will be purchased and redeemed at their net asset value, the same consideration paid and received for these shares by any other shareholder.

9. Section 17(d) and rule 17d–1 prohibit an affiliated person of an investment company, acting as principal, from participating in or effecting any transaction in connection with any joint enterprise or joint arrangement in which the investment company participates. Applicants believe that the Funds, by participating in the proposed transactions, and the Investment Advisers, by managing the proposed transactions, could be deemed to be participating in a joint arrangement within the meaning of section 17(d) and rule 17d–1 under the Act.

10. In considering whether to grant an exemption under rule 17d–1, the SEC considers whether the investment company's participation in such joint enterprise is consistent with the provisions, policies, and purposes of the Act, and the extent to which such participation is on a basis different from or less advantageous than that of other participants. Applicants submit that the Funds will participate in the proposed transactions on a basis not different from or less advantageous than that of any other participant and that the transactions will be consistent with the Act.

Applicants' Conditions

Applicants agree that the order granting the requested relief will be subject to the following conditions:

1. Shares of the Money Market Funds sold to and redeemed by the Investing Funds will not be subject to a sales load, redemption fee, distribution fee under a plan adopted in accordance with rule 12b–1 under the Act or service fee (as defined in rule 2380(b)(9) of the NASD's Conduct Rules).

2. Before the next meeting of the Board is held for the purpose of voting on an advisory contract under section 15 of the Act, the Investment Adviser to the Investing Fund will provide the Board with specific information regarding the approximate cost to the Investment Adviser of, or portion of the advisory fee under the existing advisory contract attributable to, managing the Uninvested Cash of the Investing Fund that can be expected to be invested in the Money Market Funds. In connection with approving any advisory contract for an Investing Fund, the Board, including a majority of the Disinterested Trustees, shall consider to what extent, if any, the advisory fees charged to the Investing Fund by the Investment Adviser should be reduced to account for reduced services provided to the Investing Fund by the Investment Adviser as a result of Uninvested Cash being invested in the Money Market Funds. The minute book of the Investing Fund Will record fully the Board's consideration in approving the advisory contract, including the considerations referred to above.

3. Each Investing Fund will invest Uninvested Cash in, and hold shares of, the Money Market Funds only to the extent that the Investing Fund's aggregate investment in the Money Market Funds does not exceed 25% of the Investing Fund's total assets. For purposes of this limitation, each Investing Fund or series thereof will be treated as a separate investment company.

4. Investment of Cash Balances in shares of the Money Market Funds will be in accordance with each Investing Fund's investment restrictions and will be consistent with each Investing Fund's policies as set forth in its prospectus and statement of additional information.

5. Each Investing Fund, each Money Market Fund, and any future registered open-end management investment company that may rely on the order shall be part of the same "group of investment companies," as defined in section 12(d)(1)(G)(ii) of the Act, that includes the Trust.

6. No Money Market Fund shall acquire securities of any other investment company in excess of the limits contained in section 12(d)(1)(A) of the Act.

7. Before a Fund may participate in the Securities Lending Program, a majority of the Board, including a majority of the Disinterested Trustees, will approve the Fund's participation in the Securities Lending Program. Such Trustees also will evaluate the securities lending arrangement and its results no less frequently than annually and determine that any investment of Cash Collateral in the Money Market Funds is in the best interest of the shareholders of the Investing Fund.

For the SEC, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–M

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. IC–23202; 813–174]

Chase Global Co-Invest Partners 1997, L.P., et al.; Notice of Application

May 21, 1998.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for an order under sections 6(b) and 6(e) of the Investment Company Act of 1940 (the "Act") granting an exemption from all provisions of the Act, except section 9, certain provisions of sections 17 and 30, sections 36 through 53, and the rules and regulations under those sections.

Summary of Application: Applicants request an order to exempt certain investment funds formed for the benefit of key employees of the The Chase Manhattan Corporation ("Chase") and its affiliates from certain provisions of the Act, and to permit the funds to engage in certain joint transactions. Each fund will be an "employees' securities company" as defined in section 2(a)(13) of the Act.

Applicants: Chase Global Co-Invest Partners 1997, L.P. (the "1997 Partnership") and Chase.

Filing Dates: The application was filed on August 12, 1997 and amended on February 9, 1998. Applicants have agreed to file an additional amendment, the substance of which is incorporated this notice, during the notice period.

Hearing or Notification of Hearing: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on June 15, 1998 and should be accompanied by proof of service on the applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, N.W., Washington, D.C. 20549. Applicants: 1997 Partnership, 380 Madison Avenue, New York, NY 10017; and Chase, 270 Park Avenue, New York, NY 10017.

FOR FURTHER INFORMATION CONTACT: Mary T. Geffroy, Senior Counsel, at (202) 942–0553, or Christine Y. Greenlees, Branch Chief, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch, 450 Fifth Street, N.W., Washington, D.C. 20549 (tel. (202) 942–8090).

Applicants' Representations

1. Chase is a bank holding company. Chase and its affiliates, as defined in rule 12b-2 under the Securities Exchange Act of 1934 (the "Exchange Act") (collectively, the "Chase Group"), provide diversified financial services internationally through various bank and non-bank subsidiaries.

2. The 1997 Partnership is a Delaware limited partnership. The 1997 Partnership was the first of several anticipated investment programs (each an "Investment Program") that was established to enable certain key employees of the Chase Group to participate in a variety of investment opportunities that would not be offered to them as individual investors. Applicants propose to establish one or more partnerships or investment vehicles for the same purpose (the "Subsequent Partnerships" and collectively with the 1997 Partnership, the "Partnerships"). Each Partnership will be an "employees' securities company" within the meaning of section 2(a)(13) of the Act, and will operate as a closed-end non-diversified management investment company.

3. The goal of the Partnerships is to reward and retain certain key employees and to attract qualified employees to the Chase Group. Chase believes that the Partnerships will meet the desire of these employees for an in-house investment program similar to those offered by other financial institutions to their employees.

4. Each Partnership will have a general partner or a similar entity (the "General Partner"), that will be (i) registered as an investment adviser under the Investment Advisers Act of 1940 (the "Advisers Act"), (ii) exempt from registration by virtue of section 203(b)(3) of the advisers Act, or (iii) excluded from the registration requirements because it is a bank or bank holding company. The General Partner will be an entity within the Chase Group, and will manage, control, and make investment decisions for the Partnerships.

5. Interests in the Partnerships ("Interests") will be offered without registration in reliance on section 4(2) of the Securities Act of 1933 (the "Securities Act"), and will be sold without a sales load or any similar fee. Interests will be offered and sold only to (i) current or former key employees, officers, directors, partners or persons on retainer of an entity within the Chase Group ("Eligible Employees"), (ii) spouses, parents, children, spouses of children, brothers, sisters and grandchildren of Eligible Employees ("Qualified Family Members" and collectively with Eligible Employees, the "Limited Partners"), or (iii) trusts or other investment vehicles established for the benefit of Limited Partners ("Qualified Investment Vehicles" and collectively with Qualified Family Members, "Qualified Participants"). Prior to offering Interests to Limited Partners, the General Partner must reasonably believe that the Limited Partners will be capable of understanding and evaluating the merits and risks of participation in the Partnership. Eligible Employees will be professionals engaged in various aspects of the banking or financial services business, or in related administrative, financial, accounting or operational activities.

6. Limited Partners must meet the standards for an "accredited investor" under rule 501(a) (5) or (6) of Regulation D of the Securities Act, except that a maximum of 35 persons who are sophisticated investors but who do not meet the definition of an accredited investor may become Limited Partners if approved by the General Partner after taking into consideration such factors as income level, investment experience, risk tolerance, professional background and length of employment with the Chase Group. Eligible Employees who satisfy the net worth requirements of rule 501(a)(5) of Regulation D will typically be senior Chase employees who have accumulated significant individual net worth. Generally, those Eligible Employees who satisfy the requirements of rule 501(a)(5) also would be expected to satisfy the requirements of rule 501(a)(6).

7. At the time an Eligible Employee is offered the right to subscribe for Interests in a Partnership, the Eligible Employee will be given a copy of the limited partnership agreement or other organizational documents (the "Partnership Agreement") and any investment agreement relating to the Partnership's co-investment with the entities described below (the "Co-Investment Agreement"). The Partnership Agreement and the Co-Investment Agreement will set forth fully the terms applicable to the Limited Partners.

8. The General Partner of the 1997 Partnership will not receive any fees or other compensation for serving as the General Partner.. A General Partner of a Subsequent Partnership may be paid an annual management fee, which may be determined as a percentage of assets under management, invested capital or aggregate commitments. In addition, a General Partner may be entitled to a performance-based fee ("carried interest"), based on the Partnership's gains and losses.

9. General Partner will be required to make capital contributions to the Partnership that generally will be equal to at least 1% of the Partnership's aggregate capital commitments. The General Partner of the 1998 Partnership may contribute capital to the 1997 Partnership in a multiple of the aggregate amount of capital contributed by the Limited Partners.

10. The 1997 Partnership will make distributions to the Limited Partners and the General Partner annually with respect to tax liabilities and at other times and in other amounts as determined by the General Partner in its discretion. After distributions with respect to taxes, distributions from the 1997 Partnership will be made, first, 100% to the General Partner in respect of a portion of its capital contribution (the "Preferred Capital Contribution") until 90% of the amounts received by the General Partner equals three times the aggregate capital contributions of the Limited Partners plus an 8% annum return on the Preferred Capital

Contribution and, thereafter, 90% to the Limited Partners and 10% to the General Partner. Subsequent Partnerships will make distributions to the General Partners and the Limited Partners in a similar manner, provided that the priorities, amounts and percentages may differ. A more complete description of the method and timing of distributions will be contained in each Partnership's private placement memorandum.

11. The General Partner or another entity of the Chase Group may lend money to a Partnership at an interest rate no less favorable than the rate obtainable on an arm's-length basis.

12. Partnerships generally will co-invest alongside a wholly-owned subsidiary of Chase in various affiliated limited partnerships through which underlying portfolio investments are made. Except for variations in management fees or carried interests, a Partnership will co-invest on a least as favorable terms as an entity of the Chase Group. It also is possible that Chase and a Partnership may co-invest in a portfolio company alongside an investment fund or account organized for the benefit of investors who are not affiliated with the Chase Group, over which an entity within the Chevy Chase Group (other than Chase Capital Partners [1]) exercises investment discretion (a "Third Party Fund").

13. Interests in a Partnership will be non-transferable except with the prior written consent of the General Partner in its sole discretion. No person or entity will be admitted into a Partnership unless the person or entity is (i) an Eligible Employee, (ii) a Qualified Participant, or (iii) an entity within the Chase Group (as a General Partner or through the reallocation of a Limited Partner's Interest as described below). A portion of a Limited Partner's Interest in profits and losses may be reallocated to the General Partner upon the Limited Partner's termination of employment with the Chase Group. After a reallocation, the Interest retained by the Limited Partner will be at least equal in value to the lesser of (i) the amount invested by the Limited Partner, or (ii) the fair market value of the Interest prior to the reallocation.

14. Limited Partners' Interests initially will be partially vested and will vest in greater proportion over time as specified percentages and at specified intervals, as set forth in the applicable Partnership Agreement. The vesting terms will be disclosed to the Limited Partner at the time the Limited Partner is offered the right to purchase Interest in the Partnership.

15. The term of each Partnership generally is expected to be fixed for a period less than 30 years from the date of its creation, but may be subject to earlier termination by the General Partner. In addition, each Partnership may be dissolved upon (i) the resignation, withdrawal, dissolution or bankruptcy of the General Partner, (ii) the insolvency or bankruptcy of the Partnership, (iii) the sale of all or substantially all of the Partnership's assets, or (iv) the conversion of the Partnership to corporate form pursuant to the terms of the applicable Partnership Agreement. Upon dissolution of the Partnership, the Partnership's assets will be distributed in accordance with the applicable Partnership Agreement.

16. A Partnership will not acquire any security issued by a registered investment company if, immediately after the acquisition, the Partnership will own more than 3% of the outstanding voting stock of the registered investment company.

17. As soon as practicable after the end of each fiscal year of each Partnership, the General Partner will mail or otherwise furnish a copy of a certified public accountant's report, which will include the Partnership's financial statements, to each Limited Partner of the Partnership. In addition, each Partnership will supply the Limited Partners with all information reasonably necessary to enable the Limited Partners to prepared their federal and state income tax returns.

Applicants' Legal Analysis

1. Section 6(b) of the Act provides that the SEC will exempt employees' securities companies from the provisions of the Act to the extent that the exemption is consistent with the protection of investors. Section 6(b) provides that the SEC will consider, in determining the provisions of the Act from which the company should be exempt, the company's form of organization and capital structure, the persons owning and controlling its securities, the price of the company's securities and the amount of any sales load, how the company's funds are invested, and the relationship between the company and the issuers of the securities in which it invests. Section 2(a)(13) defines an employees' securities company, in relevant part, as any investment company all of whose securities are beneficially owned by (i) current or former employees, or persons on retainer, of one or more affiliated employers, (ii) immediate family members of those persons, or (iii) the employer or employers together with any of the persons in (i) or (ii).

2. Section 7 of the Act generally prohibits investment companies that are not registered under section 8 of the Act from selling or redeeming their securities. Section 6(e) provides that, in connection with any order exempting an investment company from any provision of section 7, certain provisions of the Act, as specified by the SEC, will be applicable to the company and other persons dealing with the company as though that company was registered under the Act.

3. Applicants request an order under sections 6(b) and 6(e) of the Act exempting the Partnerships from all provisions of the Act, except section 9, certain provisions of sections 17 and 30, sections 36 through 53, and the rules and regulations under those sections.

4. Section 17(a) generally prohibits any affiliated person of a registered investment company, or any affiliated person of that person, acting is principal, from knowingly selling or purchasing any security or other property to or from that company. Applicants request an exemption from section 17(a) to permit (i) an entity within the Chase Group (including a Third Party Fund) to engage in any transaction with a Partnership, or a company controlled by the Partnership ("Controlled Company"), (ii) a Partnership to invest in or engage in any transaction with any entity in which a Partnership, a Controlled Company, or an entity within the Chase Group (a) has invested or will invest, or (b) is or will become otherwise affiliated, and (iii) a Third Party Investor [2] to engage in any transaction with a Partnership or Controlled Company.

5. Applicants submit that an exemption from section 17(a) is consistent with the policy of each Partnership and the protection of investors. Applicants believe that an exemption is necessary to enable the Partnerships to participate in attractive investments that may be offered by the Chase Group. Applicants assert that the Limited Partners will have been fully informed of the possible extent of the Partnership's investments with affiliates and will be able to understand and

[1] Chase Capital Partners is the general partner of a separate limited partnership, the CCP Limited Partnership, into which certain partners and principals of Chase Capital Partners, and certain employees of the Chase Group, invest. The CCP Limited Partnership is not included as a Partnership for purposes of this application.

[2] A Third Party Investor is a partner or other investor of a Third Party Fund that is not an entity within the Chase Group, or any affiliate of that partner or investor.

evaluate the risks associated with those investments.

6. Section 17(d) and rule 17d–1 prohibit any affiliated person or principal underwriter of a registered investment company, or any affiliated person of that person or underwriter, acting as principal, from participating in any joint arrangement with the company unless authorized by the SEC. Applicants request exemptive relief to permit affiliated persons of each Partnership, or affiliated persons of any of these persons, to participate in any joint arrangement in which the Partnership or a company controlled by the Partnership is a participant.

7. Applicants assert that the flexibility to structure co-investments and joint investments in the manner described in the application will not involve abuses of the type that section 17(d) and rule 17d–1 were designed to prevent. Applicants state that the concern that permitting co-investments by Chase and the Partnership might lead to less advantageous treatment of the Partnership, should be mitigated by the community of interest among the Chase Group and the personnel who invest in the Partnership, and the fact that officers, directors, and partners of entities within the Chase Group will be investing in the Partnership. In addition, applicants assert that strict compliance with section 17(d) would prevent the Partnerships from participating in attractive investments solely because an affiliate of the Partnership also may participate in the investment. Finally, applicants contend that the "lock-step" procedures described in condition 3 below, align the interests of the Eligible Employees with those of the Chase Group and, therefore, minimize the possibility that a Partnership may be disadvantaged by an affiliate's participation in a transaction.

8. Co-investments with Third Party Funds will not be subject to Condition 3. Applicants believe it is important that the Third Party Fund not be burdened or otherwise affected by a Partnership's participation in an investment opportunity. In addition, applicants believe that the relationship of a Partnership to a Third Party Fund is fundamentally different from a Partnership's relationship to the Chase Group. Applicants contend that the focus of, and the rationale for, the protections contained in the requested relief are to protect the Partnerships from any overreaching by the Chase Group in the employer/employee context, whereas the same concerns are not present with respect to the Partnerships vis-a-vis the investors of a Third Party Fund.

9. Section 17(f) of the Act designates the entities that may act as investment company custodians, and rule 17f–1 imposes certain requirements when the custodian is a member of a national securities exchange. Applicants request an exemption from section 17(f) and rule 17f–1 to the extent necessary to permit an entity within the Chase Group to act as custodian of Partnership assets without a written contract, as would be required by rule 17f–1(a). Applicants also request an exemption from the rule 17f–1(b)(4) requirement that independent accountants periodically verify the assets held by the custodian. Applicants believe that, because of the community of interest of all the parties involved and the existing requirement for an independent annual audit, compliance with these requirements would be unnecessarily burdensome and expensive. Each Partnership will comply with all other requirements of rule 17f–1.

10. Section 17(g) and rule 17g–1 generally require the bonding of officers and employees of a registered investment company who have access to its securities or funds. Rule 17g–1 requires that a majority of directors who are not interested persons take certain actions and give certain approvals relating to fidelity bonding. Applicants request exemptive relief to permit the members of a related board of directors or other committee serving similar functions (the "Board"), who may be deemed interested persons, to take actions and make determinations set forth in the rule. Applicants state that, because all of the members of a related Board will be affiliated persons, a Partnership could not comply with rule 17g–1 without the requested relief. Specifically, each Partnership will comply with rule 17g–1 by having a majority of the members of the related Board take such actions and make such approvals as are set forth in rule 17g–1. Applicants also state that each Partnership will comply with all other requirements of rule 17g–1.

11. Section 17(j) and paragraph (a) of rule 17j–1 prohibit certain enumerated persons from engaging in fraudulent or deceptive practices in connection with the purchase and sale of a security held or to be acquired by a registered investment company. Rule 17j–1 also requires that every registered investment company adopt a written code of ethics and that every access person of a registered investment company report personal securities transactions. Applicants request an exemption from the provisions of rule 17j–1 (except rule 17j–1(a)) because they are unnecessarily burdensome as applied to the Partnerships.

12. Applicants request an exemption from the requirements in sections 30(a), 30(b) and 30(e) and the rules under those sections, that registered investment companies prepare and file with the SEC and mail to their shareholders certain periodic reports and financial statements. Applicants believe that the forms prescribed by the SEC for periodic reports have little relevance to a Partnership and would entail administrative and legal costs that outweigh any benefit to the Limited Partners in a Partnership. Applicants request exemptive relief to the extent necessary to permit each Partnership to report annually to its Limited Partners. Applicants also request an exemption from section 30(h) to the extent necessary to exempt the General Partner of each Partnership and any others who may be deemed to be members of an advisory board of a Partnership from filing Forms 3, 4 and 5 under section 16(a) of the Exchange Act with respect to their ownership of Interests in the Partnership. Applicants assert that, because there will be no trading market and the transfers of Interests will be severely restricted, these filings are unnecessary for the protection of investors and burdensome to those required to make them.

Applicants' Conditions

Applicants agree that the order granting the requested relief will be subject to the following conditions:

1. Each proposed transaction otherwise prohibited by section 17(a) or section 17(d) and rule 17d–1 to which a Partnership is a party (the "Section 17 Transactions") will be effected only if the Board determines that: (i) the terms of the transaction, including the consideration to be paid or received, are fair and reasonable to the Limited Partners and do not involve overreaching of the Partnership or its Limited Partners on the part of any person concerned; and (ii) the transaction is consistent with the interests of the Limited Partners, the Partnership's organizational documents, and the Partnership's reports to its Limited Partners. In addition, the General Partner will record and preserve a description of the affiliated transactions, the Board's findings, the information or materials upon which the Board's findings are based, and the basis for the findings. All records relating to an Investment Program will be maintained until the termination of the Investment Program and at least two

years thereafter, and will be subject to examination by the SEC and its staff.[3]

2. In connection with the Section 17 Transactions, the Board, through the General Partner, will adopt, and periodically review and update, procedures designed to ensure that reasonable inquiry is made, prior to the consummation of any transaction, with respect to the possible involvement in the transaction of any affiliated person, promoter of, or principal underwriter for the Partnerships, or any affiliated person of that person, promoter, or principal underwriter.

3. The General Partner will not invest the funds of any Partnership in any investment in which a "Co-Investor" (as defined below) has acquired, or proposes to acquire, the same class of securities of the same issuer, where the investment involves a joint enterprise or other joint arrangement within the meaning of rule 17d–1 in which the Partnership and the Co-Investor are participants, unless the Co-Investor, prior to disposing of all or part of its investment (i) gives the General Partner sufficient, but not less than one day's, notice of its intent to dispose of its investment, and (ii) refrains from disposing of its investment unless the Partnership has the opportunity to dispose of the Partnership's investment prior to, or concurrently with, on the same terms as, and pro rata with, the Co-Investor. The term "Co-Investor" means any person who is (i) an "affiliated person" (as that term is defined in the Act) of the Partnership (other than a Third Party Fund); (ii) Chase Capital Partners or another entity within the Chase Group; (iii) an officer, director or partner of Chase Capital Partners or another entity within the Chase Group; or (iv) a company in which the General Partner of the Partnership acts as a general partner or has a similar capacity to control the sale or other disposition of the company's securities. The restrictions contained in this condition, however, will not be deemed to limit or prevent the disposition of an investment by a Co-Investor (i) to its direct or indirect wholly-owned subsidiary, to any company (a "parent") of which the Co-Investor is a direct or indirect wholly-owned subsidiary, or to a direct or indirect wholly-owned subsidiary of its parent; (ii) to Qualified Family Members of the Co-Investor or a trust or other investment vehicle established for a Qualified Family Member; (iii) when the investment is comprised of securities that are listed on any exchange registered as a national securities exchange under section 6 of the Exchange Act; (iv) when the investment is comprised of securities that are national market system securities pursuant to section 11A(a)(2) of the Exchange Act and rule 11Aa2–1 under that Act, or (v) when the investment is comprised of securities that are listed on or traded on any foreign securities exchange or board of trade that satisfies regulatory requirements under the law of the jurisdiction in which the foreign securities exchange or board of trade is organized similar to those that apply to a national securities exchange or a national market system for securities.

4. Each Partnership and the General Partner or the investment manager of the Partnership will maintain and preserve, for the life of the Partnership and at least two years thereafter, those accounts, books, and other documents that constitute the record forming the basis for the audited financial statements that are to be provided to the Limited Partners, and each annual report of the Partnership required to be sent to the Limited Partners, and agree that all of those records will be subject to examination by the SEC and its staff.[4]

5. The General Partner will send to each Limited Partner who had an interest in any capital account of the Partnership, at any time during the fiscal year then ended, Partnership financial statements audited by the Partnership's independent accountants. As of the end of each fiscal year, the General Partner will make a valuation or have a valuation made of all of the assets of the Partnership as of that fiscal year end in a manner consistent with customary practice with respect to the valuation of assets of the kind held by the Partnership. In addition, as soon as practicable after the end of each fiscal year of each Partnership, the General Partner will send a report to each person who was a Limited Partner at any time during the fiscal year then ended, setting forth tax information as will be necessary for the preparation by the Limited Partner of federal and state income tax returns, and a report of the investment activities of the Partnership during that year.

6. In any case where purchases or sales are made by a Partnership from or to an entity affiliated with that Partnership by reason of a 5% or more investment in that entity by a Chase Group director, officer or employee, that individual will not participate in the Partnership's determination of whether or not to effect the purchase or sale.

For the SEC, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–M

[3] Each Partnership will preserve the accounts, books and other documents required to be maintained in an easily accessible place for the first two years.

[4] Each Partnership will preserve the accounts, books and other documents required to be maintained in an easily accessible place for the first two years.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. IC–23199; File No. 812–10978]

U.S. Global Leaders Variable Insurance Trust, et al.; Notice of Application

May 20, 1998.

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of Application for an order pursuant to Section 6(c) of the Investment Company Act of 1940 ("1940 Act") granting exemptive relief from Sections 9(a), 13(a), 15(a), and 15(b) of the 1940 Act and rules 6e–2(b)(15) and 6e–3(T)(b)(15) thereunder.

Summary of Application: Applicants seek an order to permit shares of any current or future series of U.S. Global Leaders Variable Insurance Trust (the "Fund") and shares of any other investment company that is designed to fund variable insurance products for which Yeager, Wood & Marshall, Inc. (the "Adviser") or any of its affiliates, may now or in the future serve as manager, investment adviser, administrator, principal underwriter or sponsor (the Fund and such other investment companies, collectively, "Insurance Products Funds") to be sold to and held by: (1) Separate accounts funding variable annuity and variable life insurance contracts issued by both affiliated and unaffiliated life insurance companies ("Participating Insurance Companies"); (2) qualified pension and retirement plans outside of the separate account context ("Qualified Plans" or "Plans"); and (3) the Adviser or any of its affiliates (representing seed money investments in the Insurance Products Funds).

Applicants: U.S. Global Leaders Variable Insurance Trust and Yeager, Wood & Marshall, Inc.

Filing Date: The application was filed on January 23, 1998, and amended on March 26, 1998.

Hearing or Notification of Hearing: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request

a hearing on this application by writing to the Secretary of the Commission and serving Applicants with a copy of the request, in person or by mail. Hearing requests must be received by the Commission by 5:30 p.m. on June 15, 1998, and must be accompanied by proof of service on the Applicants in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the requester's interest, the reason for the request and the issues contested. Persons may request notification of the date of a hearing by writing to the Secretary of the SEC.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants, c/o Raymond A. O'Hara, III, Esq., Blazzard, Grodd & Hasenauer, P.C., 943 Post Road East, Westport, Connecticut 06881.

FOR FURTHER INFORMATION CONTACT: Laura A. Novack, Senior Attorney, or Kevin M. Kirchoff, Branch Chief, Office of Insurance Products, Division of Investment Management, at (202) 942–0670.

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application is available for a fee from the SEC's Public Reference Branch, 450 Fifth Street, NW., Washington, DC 20549 (tel. (202) 942–8090).

Applicant's Representations

1. The Fund is a Delaware business trust registered under the 1940 Act as an open-end management investment company. The Fund, which was organized in October 1997, currently consists of one series.

2. The Adviser, a Delaware corporation, is registered as an investment adviser under the Investment Advisers Act of 1940, and serves as the Fund's investment adviser.

3. Applicants desire that the Insurance Products Funds have the flexibility to offer their shares to separate accounts of Participating Insurance Companies that fund variable annuity and variable life insurance contracts (including single premium, scheduled premium, modified single premium and flexible premium contracts) (collectively, "Variable contracts"). These separate accounts either will be registered as investment companies under the 1940 Act or will be exempt from such registration.

4. The Participating Insurance Companies will establish their own separate accounts and design their own Variable Contracts. Each Participating Insurance company will have the legal obligation of satisfying all requirements under the federal securities laws. Each Participating Insurance company will enter into a fund participation agreement with the Insurance Products Fund in which the Participating Insurance company invests.

5. Applicants state that shares of the Insurance Products Funds also may be offered directly to Qualified Plans outside the separate account context. The Plans may choose one or more of the Insurance Products Funds as the sole investment under the Plan or as one of several investments. Plan participants may or may not be given the right to select among the Insurance Products Funds; depending on the Plan. "Plan participants" include not only those participants of qualified pension or retirement plans as set forth in Treasury Regulation § 1.817–5(f)(3)(iii) and Revenue Ruling 94–62, but also include any other trust, account, contract or annuity that is determined to be within the scope of Treasury Regulations § 1.817–5(f)(3)(iii). Fund shares sold to Plans will be held, where applicable, by the trustees of such Plans as required by Section 403(a) of the Employee Retirement Income Security Act ("ERISA").

Applicants' Legal Analysis

1. In connection with the funding of scheduled premium variable life insurance contracts issued through a separate account registered under the 1940 Act as a unit investment trust, Rule 6e–2(b)(15) provides partial exemptions from Sections 9(a), 13(a), 15(a) and 15(b) of the 1940 Act. The exemptions granted by Rule 6e–2(b) are available only where the management investment company offers its shares exclusively to the variable life insurance separate accounts of the life insurer or any affiliated life insurance company.

2. The use of a common management investment company as the underlying investment medium for both variable annuity and variable life insurance separate accounts of a single insurance company (or of two or more affiliated insurance companies) is referred to as "mixed funding." The use of a common management company as the underlying investment medium for variable annuity and/or variable life insurance separate accounts of unaffiliated insurance companies is referred to as "shared funding." "Mixed and shared funding" denotes the use of a common management investment company to fund the variable annuity and variable life insurance separate accounts of affiliated and unaffiliated insurance companies. The relief granted by Rule 6e–2(b)(15) is not available with respect to a scheduled premium variable life insurance separate account that owns shares of an underlying fund that also offers its shares to a variable annuity separate account of the same company or of any other affiliated or unaffiliated life insurance company. Therefore, Rule 6e–2(b)(15) precludes mixed and shared funding.

3. In connection with the funding of flexible premium variable life insurance contracts issued through a separate account registered under the 1940 Act as a unit investment trust, Rule 6e–3(T)(b)(15) provides partial exemptions from Sections 9(a), 13(a), 15(a) and 15(b) of the 1940 Act. These exemptions are available only where all of the assets of the separate account consist of the shares of one or more registered management investment companies which offer their shares exclusively to separate accounts of the life insurer, or of any affiliated life insurance company, offering either scheduled premium variable life insurance contracts or flexible premium variable life insurance contracts, or both; or which also offer their shares to variable annuity separate accounts of the life insurer or of an affiliated life insurance company. Thus, Rule 6e–3(T) permits mixed funding with respect to a flexible-premium variable life insurance separate account, but precludes shared funding.

4. Applicants assert that the use of the Insurance Products Funds as common investment media for the Variable Contracts would allow Participating Insurance Companies to benefit not only from the investment and administrative expertise of the Adviser, but also from the cost efficiencies and investment flexibility afforded by a larger pool of funds. Applicants also submit that mixed and shared funding would benefit Variable Contract owners by: (a) Eliminating a significant portion of the costs of establishing and administering separate funds; (b) permitting a greater amount of assets available for investment by the Insurance Products Funds, thereby promoting economies of scale, permitting greater diversification, and making the addition of new portfolios more feasible; and (c) encouraging more insurance companies to offer Variable Contracts, resulting in increased competition with respect to both the design and pricing of Variable Contracts, which can be expected to result in greater product variation and lower charges.

5. Applicants assert that the relief granted by sub-paragraph (b)(15) of Ruled 6e–2 and 6e–3(T) will not be affected by the proposed sale of Insurance Products Fund shares to Plans. Applicants note, however, that because the relief under sub-paragraph

(b)(15) of Rules 6e–2 and 6e–3(T) is available only where shares are offered exclusively to separate accounts of life insurance companies, additional exemptive relief is necessary if shares of the Insurance Products Funds also are to be sold to Plans.

6. Applicants state that current tax law permits the Insurance Products Funds to increase their asset base through the sale of fund shares to Plans. Applicants state that Section 817(h) of the Internal Revenue Code of 1986, as amended (the "Code"), imposes certain diversification standards on the underlying assets of variable annuity contracts and variable life insurance contracts held by the portfolios of the Insurance Products Funds. The Code provides that such contracts shall not be treated as an annuity contract or life insurance contract for any period (and any subsequent period) during which the investments are not adequately diversified in accordance with regulations prescribed by the Treasury Department. The regulations provide that, to meet the diversification requirements, all of the beneficial interests in an investment company must be held by the segregated asset accounts of one or more insurance companies. Treas. Reg. § 1.817–5(1989). The regulations do, however, contain certain exceptions to this requirement, one of which permits shares of an investment company to be held by the trustee of a qualified pension or retirement plan without adversely affecting the ability of shares in the same investment company also to be held by the separate accounts of insurance companies in connection with their variable annuity and variable life contracts. Treas. Reg. § 1.817–5(f)(3)(iii).

7. Applicants state that the promulgation of Rules 6e–2 and 6e–3(T) under the 1940 Act preceded the issuance of these Treasury regulations, and that the sale of shares of the same investment company to both separate accounts and Plans could not have been envisioned at the time of the adoption of Rules 6e–2(b)(15) and 6e–3(T)(b)(15).

8. Applicants therefore request an Order of the Commission exempting variable life insurance and variable annuity separate accounts of Participating Insurance Companies (and, to the extent necessary, any investment adviser, principal underwriter and depositor of such an account) and Applicants from Sections 9(a), 13(a), 15(a) and 15(b) of the 1940 Act, and sub-paragraph (b)(15) of Rules 6e–2 and 6e–3(T) thereunder, when shares of the Insurance Products Funds are offered and sold to, and held by, such separate accounts in the mixed and shared funding context, regardless of whether shares of the Insurance Products Funds also are offered and sold directly to Plans.

9. Section 9(a) of the 1940 Act provides that it is unlawful for any company to serve as an investment adviser to, or principal underwriter for, any registered open-end investment company if an affiliated person of that company is subject to a disqualification enumerated in Section 9(a)(1) or (2).

10. Rules 6e–2 and 6e–3(T) provide partial exemptions from Section 9(a) under certain circumstances, subject to the limitations on mixed and shared funding. The relief provided by sub-paragraph (b)(15(i) of Rules 6e–2 and 6e–3(T) permits a person disqualified under Section 9(a) to serve as an officer, director, or employee of an insurance company or any of its affiliates, so long as that person does not participate directly in the management or administration of the underlying investment company. The relief provided by sub-paragraph (b)(15)(ii) of Rules 6e–2 and 6e–3(T) permits the life insurer to serve as the underlying fund's investment adviser or principal underwriter, provided that none of the insurer's personnel who are ineligible pursuant to Section 9(a) participate in the management or administration of the fund.

11. Applicants state that the partial relief from Section 9(a) found in sub-paragraph (b)(15) of Rules 6e–2 and 6e–3(T), in effect, limits the amount of monitoring necessary to ensure compliance with Section 9 to that which is appropriate in light of the policy and purposes of that Section. Applicants state that those rules recognize that it is not necessary to apply the provisions of Section 9(a) to the many individuals who may be involved in an insurance company complex, but who have no connection with the investment company funding the separate accounts. Applicants note that the Participating Insurance Companies are not expected to play any role in the management or administration of the Insurance Products Funds. Therefore, Applicants assert that applying the restrictions of Section 9(a) serves no regulatory purpose. Applicants state that the relief requested should not be affected by the proposed sale of Insurance Products Funds to Qualified Plans, because the insulation of the Insurance Products Funds from those individuals who are disqualified under the 1940 Act remains in place. Moreover, since the Plans are not investment companies and will not be deemed affiliated solely by virtue of their shareholdings, no additional relief is necessary.

12. Sections 13(a), 15(a) and 15(b) of the 1940 Act require "pass-through" voting with respect to underlying investment company shares held by a separate account. Subparagraph (b)(15)(iii) of Rules 6e–2 and 6e–3(T) under the 1940 Act provides partial exemptions from the pass-through voting requirements in limited circumstances.

13. For example subparagraph (b)(15)(iii)(B) of Rules 6e–2 and 6e–3(T) provide that the insurance company may disregard the voting instructions of its contract owners if the contract owners initiate any change in the investment company's investment policies, principal underwriter, or investment adviser. Under the rules, voting instructions with respect to a change in investment policies may be disregarded only if the insurance company makes a good faith determination that such changes would: (a) Violate state law; (b) result in investments that were not consistent with the investment objectives of the separate account; or (c) result in investments that would vary from the general quality and nature of investments and investment techniques used by other separate accounts of the company or of an affiliated life insurance company with similar investment objectives.

14. Applicants state that Rule 6e–2 recognizes that variable life insurance contracts have important elements unique to insurance contracts and are subject to extensive state regulation of insurance. Applicants maintain, therefore, that in adopting Rule 6e–2, the Commission expressly recognized that exemptions from pass-through voting requirements were necessary to assure the solvency of the life insurer and the performance of its contractual obligations by enabling an insurance regulatory authority or the life insurer to act when certain proposals reasonable could be expected to increase the risks undertaken by the life insurer. Flexible premium variable life insurance contracts and variable annuity contracts are subject to substantially the same state insurance regulatory authority, and therefore, corresponding provisions of Rule 6e–3(T) presumably were adopted in recognition of the same considerations the Commission applied in adopting Rule 6e–2. Applicants submit that these considerations are no less important or necessary when an insurance company funds its separate accounts in connection with mixed and shared funding, and that such funding does not compromise the goals of the

insurance regulatory authorities or of the Commission.

15. Applicants further state that the sales of shares of the Insurance Products Funds to Plans does not affect the relief requested in this regard. As previously noted, shares of the Insurance Products Funds will be held, where applicable, by the trustees of such Plans as required by Section 403(a) of ERISA. Section 403(a) also provides that the trustees must have exclusive authority and discretion to manage and control the Plan with two exceptions: (a) When the Qualified Plan expressly provides that the trustees are subject to the direction of a name fiduciary who is not a trustee, in which case the trustees are subject to proper directions made in accordance with the terms of the Plan and not contrary to ERISA; and (b) when the authority to manage, acquire or dispose of assets of the Qualified Plan is delegated to one or more investment managers pursuant to Section 402(c)(3) of ERISA.

16. Applicants submit that there is no contractual or other relationship between the Participant Insurance Companies and any Plans which would affect the solvency of the life insurer, would affect the performance of the life insurer's contractual obligations, or would be expected to increase the risks undertaken by the life insurer. Accordingly, Applicants submit that where Plans provide participants with the right to give voting instructions, the purchase of shares by Plans does not present any complications not otherwise occasioned by mixed or shared funding.

17. Applicants state that no increased conflicts of interest would be presented by the granting of the requested relief. Applicants assert that shared funding does not present any issues that do not already exist where a single insurance company is licensed to do business in several states. Applicants note that where different Participating Insurance Companies are domiciled in different states, it is possible that the state insurance regulatory body in a state in which one Participating Insurance Company is domiciled could require action that is inconsistent with which the requirements of other insurance regulators in one or more other states in which other Participating Insurance Companies are domiciled. Applicants submit that this possibility is no different or greater than exists where a single insurer and its affiliates offer their insurance products in several states.

18. Applicants further submit that affiliation does not reduce the potential for differences in state regulatory requirements. In any event, the conditions (adapted from the conditions included in Rule 6e–3(T)(b)(15)) discussed below are designed to safeguard against any adverse effects that these differences may produce. If a particular state insurance regulator's decision conflicts with the majority of other state regulators, the affected insurer may be required to withdraw its separate account's investment in the relevant Insurance Products Funds.

19. Applicants also argue that affiliation does not eliminate the potential, if any exists, for divergent judgments as to when a Participating Insurance Company could disregard Variable Contract owner voting instructions. Potential disagreement is limited by the requirements that the Participating Insurance Company's decision to disregard voting instructions be both reasonable and based on specified good faith determinations. However, if a Participating Insurance Company's decision to disregard Variable Contract owner voting instructions represents a minority position or would preclude a majority vote approving a particular change, such Participating Insurance Company may be required, at the election of the relevant Insurance Products Fund, to withdraw its separate account's investment in that Insurance Products Fund. No charge or penalty will be imposed upon the Variable Contract owners as a result of such a withdrawal.

20. Applicants submit that there is no reason why the investment policies of an Insurance Products Fund with mixed funding would, or should, be materially different from what those policies would, or should, be if such Insurance Products Fund or series thereof funded only variable annuity or variable life insurance contracts. Moreover, Applicants represent that the Insurance Products Funds will not be managed to favor or disfavor any particular insurer or type of insurance product.

21. As noted above, Section 817(h) of the Code imposes certain diversification standards on the underlying assets of variable annuity contracts and variable life insurance contracts held in the portfolios of management investment companies. Treasury Regulation § 1.817–5(f)(3)(iii), which established diversification requirements for such portfolios, specifically permits, among other things, "qualified pension or retirement plans" and insurance company separate accounts to share the same underlying investment company. Therefore, Applicants assert that neither the Code, the Treasury regulations, nor the Revenue Rulings thereunder, present any inherent conflicts of interest if the Qualified Plans, variable annuity separate accounts, and variable life insurance separate accounts all invest in the same management investment company.

22. Applicants note that while there are differences in the manner in which distributions are taxed for variable annuity contracts, variable life insurance contracts and Plans, these tax consequences do not raise any conflicts of interest. When distributions are to be made, and the separate account or Qualified Plan is unable to net purchase payments to make the distributions, the separate account or the Plan will redeem shares of the Insurance Products Funds at their respective net asset values. The Qualified Plan will then make distributions in accordance with the terms of the Plan. The Participating Insurance Company will make distributions in accordance with the terms of the Variable Contract.

23. Applicants state that they do not see any greater potential for irreconcilable material conflicts arising between the interests of participants under the Plans and owners of the Variable Contracts issued by the separate accounts of Participating Insurance Companies from possible future changes in the federal tax laws than that which already exists between variable annuity contract owners and variable life insurance contract owners.

24. Applicants submit that the ability of the Insurance Products Funds to sell their respective shares directly to Qualified Plans does not create a "senior security," as such term is defined under Section 18(g) of the 1940 Act, with respect to any Variable Contract owners as opposed to a participant under a Qualified Plan. Regardless of the rights and benefits of participants under the Qualified Plans, or Variable Contract owners under their Variable Contracts, the Plans and the separate accounts have rights only with respect to their respective shares of the Insurance Products Funds. No shareholder of any of the Insurance Products Funds has any preference over any other shareholder with respect to distribution of assets or payments of dividends.

25. Applicants state that there are no conflicts between the Variable Contract owners and the Plan participants with respect to state insurance commissioners' veto powers over investment objectives. The state insurance commissioners have been given the veto power to prevent, among other things, insurance companies from indiscriminately redeeming their separate accounts out of one fund and investing in another. To accomplish such redemptions and transfers,

UMI
VOL 63 ISS 102 MY 28 1998
UMI

complex and time consuming transactions must be undertaken. Conversely, trustees of Plans or the participants in participant-directed Plans can make the decision quickly and implement redemption of shares from an Insurance Products Fund and reinvest the moneys in another funding vehicle without the same regulatory impediments, or, as is the case with most Plans, even hold cash pending a suitable alternative investment. Based on the foregoing, Applicants represent that even should the interests of Variable Contract owners and the interests Plan participants conflict the conflicts can be resolved almost immediately in that trustees of the Plans can, independently, redeem shares out of the Insurance Products Funds.

26. Applicants state that, regardless of the types of Insurance Products Fund shareholders, a fund's adviser is legally obligated to manage the fund in accordance with the fund's investment objectives, policies and restrictions as well as any guidelines established by the fund's board. Applicants assert that the Adviser does so, and thus, would manage the Insurance Products Funds in the same manner as any other mutual fund.

Applicants' Conditions

Applicants have consented to the following conditions:

1. A majority of each Insurance Products Fund's Board of Trustees or Directors (each, a "Board") shall consist of persons who are not "interested persons" thereof, as defined by Section 2(a)(19) of the 1940 Act and the rules thereunder and as modified by any applicable orders of the Commission, except that if this condition is not met by reason of the death, disqualification, or bona fide resignation of any Board member, then the operation of this condition shall be suspended: (a) for a period of 45 days, if the vacancy or vacancies may be filled by the Board; (b) for a period of 60 days, if a vote of shareholders is required to fill the vacancy or vacancies; or (c) for such longer period as the Commission may prescribe by order upon application.

2. Each Insurance Products Fund's Board will monitor the fund for the existence of any material irreconcilable conflict between and among the interests of the Variable Contract owners of all separate accounts and of Plan participants and Qualified Plans investing in the Insurance Products Funds, and determine what action, if any, should be taken in response to such conflicts. A material irreconcilable conflict may arise for a variety of reasons, including: (a) An action by any state insurance regulatory authority; (b) a change in applicable federal or state insurance, tax or securities laws or regulations, or a public ruling, private letter ruling, no-action or interpretive letter, or any similar action by insurance, tax, or securities regulatory authorities; (c) an administrative or judicial decision in any relevant proceeding; (d) the manner in which the investments of the funds are being managed; (e) a difference in voting instructions given by variable annuity contract owners, variable life insurance contract owners and trustees of the Plans; (f) a decision by a Participating Insurance Company to disregard the voting instructions of Variable Contract owners; or (g) if applicable, a decision by a Qualified Plan to disregard the voting instructions of Plan participants.

3. The Adviser (or any other investment adviser of an Insurance Products Fund), any Participating Insurance Company and any Qualified Plan that executes a fund participation agreement upon becoming an owner of 10% of more of the assets of an Insurance Products Fund (collectively, "Participants") will report any potential or existing conflicts to the Board of any relevant Insurance Products Fund. Participants will be obligated to assist the appropriate Board in carrying out its responsibilities under these conditions by providing the Board with all information reasonably necessary for the Board to consider any issues raised. This responsibility includes, but is not limited to, an obligation by each Participating Insurance Company to inform the Board whenever Variable Contract owner voting instructions are disregarded and, if pass-through voting is applicable, an obligation by each Qualified Plan to inform the Board whenever it has determined to disregard Plan participant voting instructions. The responsibility to report such information and conflicts and to assist the Boards will be contractual obligations of all Participating Insurance Companies and Qualified Plans investing in the Insurance Products Funds under their respective agreements governing participation in the Insurance Products Funds, and such agreements shall provide that these responsibilities will be carried out with a view only to the interests of Variable Contract owners and, if applicable, Plan participants.

4. If a majority of an Insurance Products Fund's Board members, or a majority of the disinterested Board members, determine that a material irreconcilable conflict exists, the relevant Participating Insurance Companies and Qualified Plans, at their expense and to the extent reasonably practicable (as determined by a majority of the disinterested Board members), shall take whatever steps are necessary to remedy or eliminate the material irreconcilable conflict. Such steps could include: (a) Withdrawing the assets allocable to some or all of the separate accounts from the Insurance Products Fund or any of its series and reinvesting such assets in a different investment medium, which may include another series of the Insurance Products Fund or another Insurance Products Fund; (b) in the case of Participating Insurance Companies, submitting the question as to whether such segregation should be implemented to a vote of all affected Variable Contract owners and, as appropriate, segregating the assets of any appropriate group (i.e., variable annuity or variable life insurance contract owners of one ore more Participating Insurance Companies) that votes in favor of such segregation, or offering to the affected Variable Contract owners the option of making such a change; and (c) establishing a new registered management investment company or managed separate account. If a material irreconcilable conflict arises because of a decision by a Participating Insurance Company to disregard Variable Contract owner voting instructions, and this decision represents a minority position or would preclude a majority vote, the Participating Insurance Company may be required, at the election of the Insurance Products Fund, to withdraw its separate account's investment in such fund, and no charge or penalty will be imposed as a result of such withdrawal. If a material irreconcilable conflict arises because of a Qualified Plan's decision to disregard Plan participant voting instructions, if applicable, and that decision represents a minority position or would preclude a majority vote, the Qualified Plan may be required, at the election of the Insurance Products Fund, to withdraw its investment in such fund, and no charge or penalty will be imposed as a result of such withdrawal. The responsibility to take remedial action in the event of a Board determination of a material irreconcilable conflict and to bear the cost of such remedial action shall be a contractual obligation of all Participating Insurance Companies and Qualified Plans under their agreements governing participation in the Insurance Products Funds and these responsibilities shall be carried out with a view only to the interests of the Variable Contract owners and, as applicable, Plan participants.

5. For purposes of Condition 4, a majority of the disinterested members of the applicable Board shall determine whether or not any proposed action adequately remedies any material irreconcilable conflict, but in no event will an Insurance Products Fund or the Adviser (or any other investment adviser of the Insurance Products Funds) be required to establish a new funding medium for any Variable Contract. No Participating Insurance Company shall be required by Condition 4 to establish a new funding medium for any Variable Contract if a majority of Variable Contract owners materially affected by the material irreconcilable conflict vote to decline such offer. No qualified Plan shall be required by Condition 4 to establish a new funding medium for such Qualified Plan if: (a) A majority of Plan participants materially and adversely affected by the material irreconcilable conflict vote to decline such offer; or (b) pursuant to governing plan documents and applicable law, the Plan makes such decision without Plan participant vote.

6. Participants will be informed promptly in writing of a Board's determination of the existence of an irreconcilable material conflict and its implications.

7. Participating Insurance Companies will provide pass-through voting privileges to all Variable Contract owners so long as the Commission continues to interpret the 1940 Act as requiring pass-through voting privileges for Variable Contract Owners. Accordingly, such Participating Insurance Companies, where applicable, will vote shares of the Insurance Products Fund held in their separate accounts in a manner consistent with voting instructions timely received from Variable Contract owners. In addition, each Participating Insurance Company will vote shares of the Insurance Products Fund held in its separate accounts for which it has not received timely voting instructions from contract owners, as well as shares it owns, in the same proportion as those shares for which it has received voting instructions. Participating Insurance Companies will be responsible for assuring that each of their separate accounts investing in an Insurance Products Fund calculates voting privileges in a manner consistent with all other Participating Insurance Companies. The obligation to vote an Insurance Products Fund's shares and calculate voting privileges in a manner consistent with all other separate accounts investing in the Insurance Products Fund will be a contractual obligation of all Participating Insurance Companies under the agreements governing participation in the Insurance Products Fund. Each Plan will vote as required by applicable law and governing Plan documents.

8. As long as the Commission continues to interpret the 1940 Act as requiring pass-through voting privileges for Variable Contract owners, the Adviser (or any of its affiliates) will vote its shares of any series of any Insurance Products Fund in the same proportion as all Variable Contract owners having voting rights with respect to that series; provided, however, that the Adviser (or any of its affiliates) shall vote its shares in such other manner as may be required by the Commission or its staff.

9. All reports of potential or existing conflicts received by a Board, and all Board action with regard to: (a) Determining the existence of a conflict; (b) notifying Participants of a conflict; and (c) determining whether any proposed action adequately remedies a conflict, will be properly recorded in the minutes of the meetings of the appropriate Board or other appropriate records. Such minutes or other records shall be made available to the Commission upon request.

10. Each Insurance Products Fund will notify all Participating Insurance Companies that separate account prospectus disclosure regarding potential risk of mixed and shared funding may be appropriate. Each Insurance Products Fund shall disclose in its prospectus that: (a) Its shares may be offered to insurance company separate accounts that fund both variable annuity and variable life insurance contracts, and to Qualified Plans; (b) differences in tax treatment or other considerations may cause the interests of various Variable Contract owners participating in the Insurance Products Fund and the interests of Qualified Plans investing in the Insurance Products Fund to conflict; (c) the Board will monitor the Insurance Products Funds for any material conflicts and determine what action, if any, should be taken.

11. Each Insurance Products Funds will comply with all provisions of the 1940 Act requiring voting by shareholders (for these purposes, the persons having a voting interest in the shares of the Insurance Products Funds). In particular, each such Insurance Products Fund either will provide for annual shareholder meetings (except insofar as the Commission may interpret Section 16 of the 1940 Act not to require such meetings) or comply with Section 16(c) of the 1940 Act (although none of the Insurance Products Funds shall be one of the trusts described in Section 16(c) of the 1940 Act), as well as with Section 16(a) of the 1940 Act and, if and when applicable, Section 16(b) of the 1940 Act. Further, each Insurance Products Fund will act in accordance with the Commission's interpretation of the requirements of Section 16(a) with respect to periodic elections of Board members and with whatever rules the Commission may promulgate with respect thereto.

12. If and to the extent that Rule 6e–2 or rule 6e–3(T) under the 1940 Act is amended or Rule 6e–3 under the 1940 Act is adopted, to provide exemptive relief from any provision of the 1940 Act, or the rules promulgated thereunder, with respect to mixed or shared funding, on terms and conditions materially different from any exemptions granted in the order requested in the application, then the Insurance Products Funds and/or the Participants, as appropriate, shall take such steps as may be necessary to comply with Rule 6e–2 or Rule 6e–3(T), as amended, or proposed rule 6e–3 as adopted, to the extent such Rules are applicable.

13. The Participants, at least annually, shall submit to each Board such reports, materials or data as each Board may reasonably request so that such Boards may fully carry out the obligations imposed upon them by the conditions stated in the application. Such reports, materials and data shall be submitted more frequently if deemed appropriate by the Board. The obligations of the Participants to provide these reports, materials and data upon reasonable request of a Board shall be contractual obligation of all Participants under the agreements governing their participation in the Insurance Products Funs.

14. If a Qualified Plan or Plan participant shareholder should become an owner of 10% or more of the assets of an Insurance Products Fund, such Plan will execute a participation agreement with such fund which includes the conditions set forth herein to the extent applicable. A Qualified Plan or Plan participant will execute an application containing an acknowledgment of this condition upon such Plan's initial purchase of the shares of any Insurance Products Fund.

Conclusion

For the reasons summarized above, Applicants assert that the requested exemptions are appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40008; File No. SR–Amex–98–17]

Self-Regulatory Organizations; Notice of Filing of Immediate Effectiveness of Proposed Rule Change by American Stock Exchange, Inc. Relating to the Listing and Trading of Warrants on the PaineWebber Oil & Gas Producers Index

May 19, 1998.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 29, 1998, the American Stock Exchange, Incorporated ("Amex" or Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Amex. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement Of The Terms of Substance of the The Proposed Rule Change

The Amex proposes to list and trade warrants on the PaineWebber Oil & Gas Producers Index ("Index"), a narrow-based index developed by PaineWebber Incorporated currently comprised of stocks of 22 companies in the oil and gas industry. The text of the proposed rule change is available at the Office of the Secretary, Amex and at the Commission.[3]

II. Self-Regulatory Organization's Statement of The Purpose of, and Statutory Basis For, The Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and represented that no comments were received on the proposed rule change.

[1] 15 U.S.C. 78s(b)(1)

[2] 17 CFR 240.19b–4.

[3] The text of the proposed rule change contains a list of the component securities including the individual component security weights and average daily trading value and market capitalization for each security.

The text of these statements may be examined at the places specified in Item IV below. The Amex has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to permit the Amex to list and trade warrants on the Index. The Amex states that warrants on the Index are designed to provide investors with an investment vehicle to participate in or hedge against volatility associated with the ownership of stocks of companies in the oil and gas industry and decrease the risk involved in selecting individual stocks in this industry. The Amex filed this proposal pursuant to Section 19(b)(3)(A) of the Act, and Section 106 [4] of the Amex *Company Guide* and Amex Rule 901C, Commentary .02, which together provide for the commencement of the trading of warrants on the Index thirty days after the date of this filing. The proposal meets all the criteria set forth in Section 106 of the Amex *Company Guide*, Amex Rule 901C, Commentary .02 and the Commission's order approving Exchange Rule 910C.[5]

Criteria Under Section 106 of the Amex Company Guide. Warrant issues on the Index will conform to the listing guidelines under Section 106 of the Amex *Company Guide*, which provide, among other things, that (1) the issuer shall have tangible net worth in excess of $250,000,000 and otherwise substantially exceed size and earnings requirements in Section 101(A) of the *Company Guide* or meet the alternate guideline in paragraph (a); (2) the term of the warrants shall be for a period ranging from one to five years from date of issuance; and (3) the minimum public distribution of such issues shall be 1,000,000 warrants, together with a minimum of 400 public holders, and have an aggregate market value of $4,000,000.

Criteria Under Exchange Rule 901C For Index Components. Pursuant to Commentary .02 to Exchange Rule 901C, (1) each of the component securities has a minimum market capitalization of at least $75 million and has a trading volume in each of the last six months of not less than 1,000,0000 shares; (2) the lesser of the five highest weighted component securities in the Index or the highest weighted component securities in the index that in the aggregate represent at least 30% of the total number of component securities in the index, each have an average monthly trading volume of at least 2,000,000 shares over the previous six months; (3) at least 90% of the Index's numerical index value and at least 80% of the total number of component securities meet the current criteria for standardized option trading set forth in Exchange Rule 915 (in fact, all of the component securities in the Index currently underlie standardized options); (4) the Index contains no American Depositary Receipts ("ADRs"); (5) all component stocks are listed on the Amex, the New York Stock Exchange ("NYSE"), or traded through the facilities of the National Association of Securities Dealers Automated Quotation System and are reported National Market System securities ("Nasdaq/NMS"); and (6) no component security represents more than 25% of the weight of the Index, and the five highest weighted component securities in the Index do not in the aggregate account for more than 60% of the weight of the Index.

Index Design. The Index was designed by PaineWebber and will be maintained by the Amex. The Amex represents that the Index is a narrow-based index currently comprised of stocks of 22 companies from the oil and gas industry. The total capitalization of the component securities in the Index as of April 21, 1998 was approximately $57 billion. The average capitalization on that date was approximately $2.6 billion. The individual market capitalization of the component securities ranges from $324 million to $9.9 billion. the components in the Index had a six month average daily trading volume of 7 million shares per day and ranged from 1.6 million shares per day to 13.2 million shares per day.

Index Calculation. The Index is market capitalization-weighted such that the Index value is calculated by multiplying the primary exchange regular way last sale price of each component security by its number of shares outstanding, adding the sums

[4] Section 106(j) of the Amex *Company Guide* provides that in order to list warrants on a stock index industry group pursuant to Section 19(b)(3)(A) of the Act, the Exchange may file for approval of a stock index industry group underlying a proposed warrant pursuant to the procedures and criteria set forth in Commentary .02 to Exchange Rule 901C. (See also Securities Exchange Act Release No. 34–37007 (March 21, 1996), 61 FR 14165 (March 29, 1996).

[5] See Securities Exchange Act Release No. 34157 (June 3, 1994), 59 FR 30062 (June 10, 1994). Accordingly, the Exchange has represented that the proposed rule will not become operative for 30 days after the date of this filing. The Exchange also has provided at least five business days notice to the Commission of its intent to file this proposed rule change.

and dividing by the current index divisor.

Maintenance of the Index. The Index will be maiptained by the Amex. If necessary in order to maintain continuity of the Index, its divisor may be adjusted to reflect certain events relating to the component stocks. These events include, but are not limited to, stock distributions, stock splits, reverse stock splits, spin-offs, certain rights issuance, recapitalizations, reorganizations, and mergers and acquisitions.

The Exchange will maintain the Index in accordance with Amex Rule 901C, Commentary .02 so that, (1) the Index is comprised of not less than 15 underlying stocks, and not more than 29 underlying stocks; (2) component stocks constituting the top 90% of the Index, by weight, will have a minimum market capitalization of $75 million, and the component stocks constituting the bottom 10% of the Index, by weight, may have minimum market capitalization of $50 million; (3) 90% of the Index's numerical index value and at least 80% of the total number of components will meet the then current criteria for standardized options trading set forth in Amex Rule 915; (4) foreign country securities or ADRs thereon that are not subject to comprehensive surveillance agreements will not in the aggregate represent more than 20% of the weight of the Index; (5) all component stocks will either be listed on the Amex, the NYSE, or Nasdaq/NMS; (6) no component security will represent more than 25% of the weight of the Index, and the five highest weighted components will not in the aggregate account for more than 60% of the Index; (7) trading volume of each component security shall be at least 500,000 shares for each of the last six months, or for each of the lowest weighted components that in aggregate account for no more than 10% of the weight of the Index, the monthly trading volume may be at least 400,000 shares for each of the last six months; and (8) the lesser of the five highest weighted component securities in the index or the highest weighted component securities in the index that in the aggregate represent at least 30% of the total number of stocks in the index shall have had an average monthly trading volume of at least 1,000,000 shares over the previous six months.

Dissemination of the Index Value. Similar to other stock index values which underlie exchange-traded products, the value of the index will be calculated continuously and disseminated every 15 seconds over the Consolidated Tape Association's Network B.

Warrant Expiration and Settlement. Index warrants will be direct obligations of their issuer subject to cash-settlement during their term, and either exercisable throughout their life (*i.e.*, American style) or exercisable only on their expiration date (*i.e.*, European style). Upon exercise, or at the warrant expiration date (if not exercisable prior to such date), the holder of a warrant structured as a "put" would receive payment in U.S. dollars to the extent that the Index has declined below a pre-stated index level. Conversely, holders of a warrant structured as a "call" would, upon exercise or at expiration, receive payment in U.S. dollars to the extent that the Index has increased above the pre-stated index level. If "out-of-the-money" at the time of expiration, the warrants would expire worthless. In addition, the Amex, prior to the commencement of trading, will distribute a circular to its membership calling attention to specific risks associated with warrants on the Index.

Other Exchange Rules Applicable to Index Warrants. The listing and trading of warrants on the Index will comply in all respects to Exchange Rules 1100 through 1110 for the trading of stock index and currency warrants. These rules cover issues such as exercise and position limits and reporting requirements. Surveillance procedures currently used to monitor trading in each of the Exchange's other index warrants will also be used to monitor trading in warrants on the PaineWebber Oil & Gas Producers Index. The Index is deemed to be a Stock Index Industry Group under Rule 900C(b)(1). The Exchange expects that the review required by Rule 1107(b)(ii) will result in a position limit of 6,750,000 warrants.

2. Basis

The proposed rule change is consistent with Section 6(b) of the Act in general and furthers the objectives of Section 6(b)(5) in particular in that it is designated to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing For Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act. The Amex may not list warrants for trading on the Index prior to 30 days after the date the proposed rule change was filed with the Commission.[6] At any time within 60 days of the filing of such proposed rule change, the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room in Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to file number SR–Amex–98–17 and should be submitted by June 12, 1998.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40019; File No. SR–Amex–97–40]

Self-Regulatory Organizations; American Stock Exchange, Inc.; Order Granting Approval to Proposed Rule Change and Notice of Filing and Order Granting Accelerated Approval to Amendment No. 1 to Proposed Rule Change Relating to Proposed Revisions to the Exchange's Policy Regarding the Use of Wireless Data Communications Devices

May 21, 1998.

I. Introduction

On October 29, 1997, the American Stock Exchange, Inc. ("Amex" or "Exchange") submitted to the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b–4 thereunder,[2] a proposed rule change to amend its policy regarding the use of wireless data communications devices on the trading floor.

Notice of the proposed rule change, together with the substance of the proposal, was published for comment in Securities Exchange Act Release No. 39411 (December 8, 1997), 62 FR 65727 (December 15, 1997). No comments were received on the proposal. The Exchange subsequently filed Amendment No. 1 on March 17, 1998.[3] The order approves the proposed rule filing, as amended.

II. Description

The Exchange has undertaken to build an infrastructure ("Infrastructure") to support wireless data communications on the trading floor by members and Exchange staff. On September 26, 1996, the Commission approved various rule changes and a policy regarding the use of wireless data communications devices on the trading floor (the "Wireless Communications Policy" or "Policy").[4] The Wireless Communications Policy was originally based upon a design for the Infrastructure that called for all wireless data transmissions to pass through an application residing between the member firms and the Exchange's wireless infrastructure (the "Gateway"). The Gateway would have monitored data that was being transmitted to and from the Infrastructure and would have repackaged it to conform to a standard format for all members to use. The Gateway would have permitted the Exchange to make a record of all wireless communications and to unilaterally "throttle" all, or selected, member communications in the event that such transmissions used a disproportionate amount of the available radio frequency or threatened to exceed available radio frequency capacity. The Exchange is now proposing to eliminate the Gateway.

As noted above, the Gateway would have maintained a record of all wireless communications. The Exchange states that the records obtained through the Gateway would have been duplicative of records already maintained by member firms pursuant to Commission and Exchange rules and that the proposed rule change will eliminate this duplicative data base. Under the revised Wireless Communications Policy, members will still be required to maintain books and records pursuant to Exchange rules and policies and federal securities laws. According to the Exchange, the relevant Exchange rules require members to prepare and maintain records of orders and transactions containing the information specified in Exchange Rule 111, Commentary .04; Exchange Rule 114, Commentary .09; and Exchange Rules 153, 180, 181, and Exchange Rule 950(a), (c) and (d), Commentary .03. The Exchange's audit trail policies also require members to records the time of trade, executing broker badge number and contra broker badge number with respect to all trades. In addition, the Exchange states that Rules 17a–3(a) (6) and (7) under the Act require registered brokers and dealers to prepare records of brokerage orders and dealer transactions meeting the requirements of these rules, and that these records must be maintained for the period stated in Rule 17a–4(b)(1) under the Act.[5]

In addition, the Exchange states that the elimination of the record keeping capabilities of the Gateway will not cause any diminution of the Exchange's surveillance capabilities because the Exchange will retain the same access to member books and records that it currently possesses. The Exchange currently has the ability to obtain records from its members for investigative purposes pursuant to its authority to require members to produce their books and records and to discipline members (and their employees) that fail to comply with such requests.[6] In the Absence of a Gateway, the Exchange would continue to employ its current procedures for obtaining information from its members and their employees.[7]

With respect to monitoring radio frequency capacity and usage, the revised Wireless Communications Policy will state that the Exchange's staff may request members to reduce radio traffic if and when required because a particular user is using more than its fair share to radio frequency capacity of overall usage is reaching its maximum. Members will be obligated to comply immediately with any such request and their ability to send wireless communications may be immediately terminated for failure to comply.

The Exchange also proposes some further changes to the Wireless Communications Policy to include a requirement that members using wireless technology maintain a record of orders and quotes initiated on the Floor and transmitted to other markets, a statement that members do not acquire a property interest in their assigned band width, a requirement that affiliates be treated as a single entity for purposes of band width assignment and a reduction in the number of handheld terminals that the system is able to support in view of anticipated demand for this capacity.

III. Discussion

The Commission finds that the proposed rule change is consistent with

---

[7] 17 CFR 200.30–3(a)(12)(1994).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] See Letter from William Floyd-Jones, Assistant General Counsel, Amex, to Heather Seidel, Attorney, Market Regulation, Commission, dated March 16, 1998 ("Amendment No. 1"). Amendment No. 1 explains in further detail why the Exchange is eliminating the Gateway; which records members are required to keep pursuant to Exchange and Commission rules that the Gateway would have separately maintained; how the Exchange will obtain records from its members for surveillance purposes without the Gateway; and how the Exchange will monitor overall radio frequency usage and individual firm usage in the absence of the a Gateway in order to determine that the wireless infrastructure is approaching its capacity, and which firm(s) is using a disproportionate amount of the radio frequently capacity.

[4] See Securities Exchange Act Release No. 37728 (September 26, 1996), 61 FR 51476 (October 2, 1996).

[5] The Commission notes that in general members, brokers, and dealers are subject to the Commission's recordkeeping and record retention rules, Rule 17a–3, and 17a–4 under the Act (17 CFR 240.17a–3 and 240.17a–4).

[6] See, *e.g.*, Article II, Section 3(a) of the Exchange Constitution, Article V, Section 4(k) of the Exchange Constitution, and Exchange Rule 31.

[7] The Exchange also states that to the best of its knowledge, the Exchange's current procedures for obtaining member books and records are consistent with existing practice at all other exchanges.

the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b).[8] Specifically, the Commission believes the proposal is consistent with the Section 6(b)(5) requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts, and, in general, to protect investors and the public.[9]

The Commission continues to believe that the Wireless Communication Policy should help remove impediments to and perfect the mechanism of a free and open market, and protect investors and the public interest, by expediting and making more efficient the process by which members receive and execute orders on the floor of the Exchange. In particular, the Commission believes that the removal of the Gateway should increase efficiency by eliminating any time delay that the requirement that all orders pass through the Gateway subsystem may have caused. The Commission finds, based upon the Exchange's representations concerning the lack of need for a Gateway[10] and the excessive cost and difficulty of designing and implementing the Gateway,[11] that it is consistent with the Act for the Exchange to eliminate the Gateway.

The Commission believes that it is reasonable for the Exchange to conclude that the Gateway is not necessary because the selected radio frequency should be able to support all foreseeable wireless communications and because the Exchange will have the ability to monitor radio frequency capacity and usage and require member firms to cut down on their usage to ensure that the system does not become overloaded. The Exchange states that the Wireless Network Management System ("WNMS") is a monitoring tool that will enable it to monitor radio frequency usage by (1) all wireless users collectively, (2) a particular firm, and (3) an individual using a handheld terminal within a particular firm. The WNMS combines some of the capabilities of the Gateway and Wireless Control Subsystem which existed in the former design of the wireless infrastructure. The next version of the WNMS will allow the Exchange's personnel to see all, or a selected number, of users sorted according to their use of the system. Each firm (or group of affiliated firms) that has been approved to use wireless technology currently may use up to 1/30th of total radio frequency capacity, and the Exchange would consider a member's use of more than 1/30th of total system capacity to be a disproportionate usage of its radio frequency capacity.[12]

The Commission also believes that the Exchange and member firms should be able to adequately maintain records of all wireless transactions, because of the already existing recordkeeping and surveillance procedures, in the absence of the Gateway. Member firms currently are, and will still be, subject to Exchange and Commission recordkeeping and record retention rules.[13] In addition, the elimination of the recordkeeping capabilities of the Gateway should not cause undue diminution of the Exchange's surveillance capabilities because the Exchange has the ability to obtain those records from members for investigative purposes, with the authority to discipline members who do not comply with such requests.[14]

The Commission finds good cause to approve Amendment No. 1 to the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof in the **Federal Register**. Amendment No. 1 clarifies and strengthens the proposed rule change by more fully explaining why the Exchange is amending the Wireless Communications Policy to eliminate the Gateway, and how the Exchange will still have adequate ability to monitor and surveille wireless usage and wireless transactions without the Gateway. Amendment No. 1 does not make any substantive changes to the proposed rule change. Also, the proposed rule change was noticed for the full statutory notice and comment period and no comment letters were received. Accordingly, the Commission believes that it is consistent with Section 6(b)(5) of the Act to approve Amendment No. 1 to the proposal on an accelerated basis.

Interested persons are invited to submit written data, views, and arguments concerning Amendment No. 1 to the rule proposal, including whether Amendment No. 1 is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All submissions should refer to File No. SR–Annex–97–40 and should be submitted by June 18, 1998.

IV. Conculsion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[15] that the proposed rule change (SR–Amex–97–40), as amended, is approved.

For the Commission, by the Division of Market Regulations, pursuant to delegated authority.[16]

---

[8] 15 U.S.C. 78f(b).

[9] In approving this rule, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

[10] In late 1996, the Exchange reviewed the design of the Infrastructure. The Exchange determined that there was no immediate need for throttling because the amount of radio frequency capacity available in the 2.4 GHz frequency could support all foreseeable wireless communications, and that it was unclear when it might become necessary. The Exchange also noted that it could control excessive radio frequency use by denying requests to use wireless applications that required excessive capacity. Also, the Exchange noted there are other radio frequencies and emerging technologies that could be employed in the unlikely event that the capacity of the 2.4 GHz frequency is exhausted. The Exchange concluded that since there was no need for throttling, there was no need for a Gateway and that, if and when necessary, throttling could be accomplished by the member firms without a Gateway.

[11] Also during this 1996 review, the Exchange estimated that the use of a Gateway instead of a router would have more than doubled its costs to develop and install the infrastructure and would have also necessitated a high degree of customized programming which raised reliability issues. In addition to concerns with the Exchange's costs and system reliability, members using the infrastructure with a gateway would have had to conform their message formats to the gateway's requirements, which would have required members that already had developed wireless communications capabilities to incur significant costs to reprogram their existing systems to comply with the Exchange's unique requirements. Potentially, these members would have had to operate different wireless systems on different exchanges.

[12] According to Amex, the Infrastructure has been designed to support 4 million megabits per second; thus, overall usage that approaches the four million megabit level would be considered to be approaching system capacity.

[13] See Description Section *supra*.

[14] The Commission also believes that the miscellaneous amendments to the Wireless Communications policy are reasonable under the Act because the changes are designed to enhance the Policy in light of the Exchange's experience with wireless technology since the Policy was first adopted.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40015; File No. SR–CBOE–98–11]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change and Amendment No. 1 to the Proposed Rule Change by the Chicago Board Options Exchange, Inc., Relating to Adjustments in Market Maker Equity

May 20, 1998.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on March 31, 1998, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the CBOE.[2] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to amend CBOE Rule 12.3, "Margin Requirements" by adopting Interpretation and Policy .06, which will allow clearing firms to adjust a market maker's equity under certain limited circumstances so that the clearing firm may extend credit for opening trades. Specifically, proposed Interpretation and Policy .06 will allow a clearing firm to adjust the equity in a market maker's account when the underlying stock price is disseminated after the options close at 3.02 p.m.[3] at a price that is inconsistent with the options closing price.

Copies of the proposed rule change are available at the Office of the Secretary, CBOE, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

CBOE Rule 12.3(f)(3)(C)(3)[4] prohibits clearing firms from extending credit to a market maker for opening transactions when the market maker's account is in deficit. The CBOE proposes to add Interpretation and Policy .06 to CBOE Rule 12.3 to permit a clearing firm to adjust the equity in a market maker's account under certain limited circumstances in order to allow the clearing firm to extend credit for opening trades. Specifically, proposed Interpretation and Policy .06 will permit a clearing firm to adjust the equity in market maker's account when the underlying stock price is disseminated after the options close at 3:02 p.m. at a price that is inconsistent with the options closing price.

In 1997, the CBOE and the other options exchanges changed the closing time for trading equity options and certain narrow-based index options from 3:10 p.m. to 3.02 p.m.[5] Since then, the CBOE has discovered that the equity of market maker's account at a clearing firm can be severely affected when news of a stock underlying a CBOE option is disseminated near the close, resulting in heavy trading and a late trade tape. In these situations, the last sale of the underlying stock could be disseminated well after the overlying options stop trading at 3:02 p.m.,[6] and closing price of the underlying stock may be out of line with the closing quotes and the last sale of the options series. The CBOE notes that while this situation would almost assuredly realign itself at the opening of trading on the next day, the discrepancy in closing prices may cause a market maker's account to have deficit equity. This is true even though from a market risk standpoint the market maker may be hedged.

Proposed Interpretation and Policy .06 would allow a clearing firm to appropriately adjust a market maker's account equity to eliminate a pricing disparity for a trader whose account is in deficit as a result of such a situation. The clearing firm will be required to provide documentation to the CBOE for such adjustments before the opening of trading the next day (or before the firm may extend credit for opening transactions). These adjustments will be made on a case-by-case basis. In situations where the deficit is eliminated by the adjustment and the adjustment is approved by the CBOE's Department of Financial and Sales Practice Compliance, the trader would be permitted to continue trading the next business day.

2. Statutory Basis

The CBOE believes that the proposed rule change is consistent with Section 6(b) of the Act, in general, and furthers the objectives of Section 6(b)(5), in particular, in that, by allowing for an adjustment in a market maker's account equity in situations where the stock and the overlying options close at anomalous prices, the proposal is designed to promote just and equitable principles of trade and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The CBOE does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal**

---

[1] 15 U.S.C. 78s(b)(1).

[2] On May 7, 1998, the CBOE filed Amendment No. 1 to the proposal. See Letter from Timothy H. Thompson, Director, Regulatory Affairs, Legal Department, CBOE, to Yvonne Fraticelli, Division of Market Regulation, Commission, dated May 6, 1998 ("Amendment No. 1") In Amendment No. 1, the CBOE revised its proposal to: (1) indicate that CBOE Rule 12.3(f)(3)(C)(3), rather than Regulation X of the Board of Governors of the Federal Reserve System, prohibits a clearing firm from extending credit to a market maker when the market maker's account is in deficit; (2) replace a reference in proposed Interpretation and Policy .06 to CBOE Rule 12.3(b)(1)(D) with a reference to CBOE Rule 12.3(f)(1)(F) to define net liquidating equity; and (3) revise proposed Interpretation and Policy .06 to indicate that clearing firms will be allowed to extend credit for opening trades, rather than to permit opening trades.

[3] All time references are in Central Time.

[4] See Amendment No. 1, *supra* note 2.

[5] See *e.g.*, Securities Exchange Act Release No. 38543 (May 14, 1997), 62 FR 28082 (May 22, 1997) (order approving File No. SR–CBOE–96–71).

[6] When the options markets closed at 3:10 p.m., this situation would rarely arise because the final stock prices were almost always disseminated by the time the options markets closed, thereby allowing options market makers to adjust their quotes accordingly.

Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will by order approve such proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the CBOE. All submissions should refer to File No. SR–CBOE–98–11 and should be submitted by June 18, 1998.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[7]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40021; File No. SR–CBOE–98–12]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Change by the Chicago Board Options Exchange, Incorporated Relating to Exchange Mandated Education Training

May 21, 1998.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934,[1] notice is hereby given that on April 20, 1998, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to grant accelerated approval on the proposed rule change.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to add a provision of Exchange Rule 6.20 Admission to and Conduct on the Trading Floor, Member Education, to require that Exchange members and persons associated with Exchange members attend mandatory continuing education classes as directed by the Exchange. Proposed new language is in italics.

Chicago Board Options Exchange, Inc. Rules

CHAPTER VI

Doing Business on the Exchange Floor

Section B: Member Activities on the Floor

Admission to and Conduct on the Trading Floor: *Member Education*

Rule 6.20(a)—(c) No change.

(d) *Education Classes. Members and persons associated with members are required to attend such educational classes as the Exchange may require from time to time. Failure to attend Exchange mandated continuing educational classes may subject members and persons associated with members to sanctions pursuant to the Exchange's Minor Rule Violation provided in Exchange Rule 17.50. Any action taken by Floor Officials thereunder shall not preclude further disciplinary action by the Business Conduct Committee under Chapter XVII of the Rules, except as otherwise provided in Rule 17.50.*

. . . Interpretations and Policies:

.01–.09 No change.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CBOE included statements concerning the purpose of, and statutory basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The CBOE has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to add a provision to Exchange Rule 6.20, Admission to and Conduct on the Trading Floor; Member Education, to require that Exchange members and persons associated with Exchange members attend mandatory continuing education classes as directed by the Exchange. The Exchange believes it is necessary from time to time to require mandatory participation in certain educational training classes by its members and persons associated with its members for a variety of reasons, including to promote professional behavior and decorum on the trading floor, or to explain the operation of new technology. For example, the Exchange intends to implement a harassment awareness training and ethics program for its members and persons associated with its members who are present on the trading floor.

Without this rule change, the Exchange would not have the ability to mandate attendance. The Exchange is also proposing to amend its Minor Rule Violation fine schedule pursuant to Exchange Rule 17.50(g)(6). Floor Officials are allowed, pursuant to Rule 17.50(g)(6), to fine members and associated persons for violations of trading conduct and decorum policies. For failure to attend an Exchange mandated continuing educational class, the Exchange proposes a fine of $500 for a first offense, $750 for a second offense

[1] 15 U.S.C. 78s(b)(1).

and $1,000 for subsequent offenses. The Exchange believes the amount of the fines will be sufficient to ensure attendance. However, in the event members refuse to attend even after being assessed a fine, as with all Minor Rule violations, the Exchange has the discretion to refer violations to the Business Conduct Committee pursuant to Chapter XVII of the Exchange's Rules.

2. Statutory Basis

The proposed rule change will give the Exchange the ability to provide for a more professional and informed membership and is therefore consistent with and furthers the objectives of Section 6(b)(5) of the Act [2] in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of CBOE. All submissions should refer to the file number (SR–CBOE–98–12) and should be submitted by June 18, 1998.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the CBOE's proposal is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange. Specifically, the Commission finds that, consistent with Section 6(b)(5) of the Act,[3] requiring members and those associated with members to attend continuing education classes on such topics as professional conduct and the operation of new technology will both promote just and equitable principles of trade and benefit investors. Moreover, the Commission finds that mandating continuing education training for members and persons associated with members is consistent with the provisions of Section 6(c)(3)(B) of the Act, which makes it the responsibility of an exchange to prescribe standards of training, experience, and competence for persons associated with self-regulatory organization members.

The Commission therefor finds good cause for approving the proposed rule change prior to the thirtieth day after date of publication of notice of filing thereof in the **Federal Register**.[4]

It is Therefore Ordered, pursuant to Section 19(b)(2) of the Act,[5] that the proposed rule change (SR–CBOE–98–12) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[6]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40016; File No. SR–CHX–98–5]

Self-Regulatory Organizations; Order Granting Approval of Proposed Rule Change by the Chicago Stock Exchange, Inc. Relating to the Utilization of Exempt Credit by Market Makers

May 20, 1998.

I. Introduction

On February 18, 1998, the Chicago Stock Exchange, Inc. ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b–4 thereunder.[2] In the filing, the CHX proposed amendments to an interpretation to Article XXXIV, Rule 16 relating to registered market makers' utilization of exempt credit. Notice of the proposed rule change was published in the **Federal Register** on April 8, 1998.[3] The Commission received no comments on the proposal.

II. Description of the Proposal

Interpretation .01 to Article XXXIV, Rule 16 notes that "[e]xchange members registered as equity market makers are members registered as specialists for purposes of [the Act] and as such they are entitled to obtain exempt credit for financing their market maker transactions." [4] The Interpretation also sets forth certain parameters that market makers must satisfy to obtain such exempt credit. The Interpretation specifies that 50% of the quarterly share volume that creates or increases a position in a market maker account must result from transactions consummated on the Exchange or sent from the Exchange floor for execution in another market via the Intermarket Trading System ("ITS"). The proposed rule change modifies this Interpretation by eliminating the reference to "creating or increasing a position," thereby including all transactions consummated

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] Securities Exchange Act Release No. 39822 (March 31, 1998), 63 FR 17248 (April 8, 1998).

[4] The Board of Governors of the Federal Reserve System is authorized, pursuant to Section 7 of the Act, to establish initial margin requirements and credit restrictions on margin financing. 12 CFR 220 and 221. Generally, Regulation T limits to 50% the amount of financing extended to or by a broker-dealer to finance a securities position. 12 CFR 220.18. Bona fide market making activity, however, may be exempt from these credit restrictions.

on the Exchange or sent from the Exchange floor via ITS in determining a market maker's ability to use exempt credit.

In providing assistance in maintaining a fair and orderly market, a market maker may be required to decrease either a long or a short position in a particular security. Consequently, a market maker may, from time to time, engage in transactions that decrease its position. These transactions were not previously included in the calculation of transactions that qualify for exempt credit. The proposed rule change amends Interpretation .01 to Article XXXIV, Rule 16 to note that positions that decrease a position in a market maker account will be treated the same way as those that create or increase a position for purposes of determining whether a market maker has satisfied the 50% volume requirements needed to obtain exempt credit.

III. Discussion

After careful review, the Commission finds that the proposed rule change is consistent with Sections 6(b) and 11(b) of the Act.[5] In particular, the Commission believes the proposal is consistent with the Section 6(b)(5)[6] requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Commission believes, moreover, that the proposed rule change is consistent with the requirements of Section 11(b) and Rule 11b–1 thereunder[7] that specialist (*i.e.*, market maker)[8] transactions contribute to the maintenance of fair and orderly markets.

The Commission believes that registered market makers on the Exchange serve an important function inasmuch as they add depth and liquidity to the market for CHX-traded securities. Pursuant to Article XXXIV of the CHX Rules, market makers are subject to both affirmative and negative obligations,[9] and, in return, are accorded certain privileges, including exempt credit financing.[10] For this reason, it is critical that only those members who are engaged in bona fide market making activities qualify for favorable margin treatment under the Exchange's rules. To the extent that transactions that decrease a position in a market maker account contribute to the depth and liquidity in the market for CHX-traded securities, the Commission believes that it is appropriate for the Exchange to conclude that such transactions constitute bona fide market making activity.

By including in the Exchange's exempt credit 50% minimum quarterly share volume requirements a greater number of transactions that contribute to the maintenance of fair and orderly markets, registered market makers are facilitated in their ability to finance transactions that provide market continuity and stability. Enhancements in the quality of the market CHX-traded securities in turn foster investor confidence and participation in the market. Accordingly, the Commission believes the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, with the requirements of Section 6(b) and 11(b).[11]

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[12] that the proposed rule change SR–CHX–98–05 be and hereby is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[13]

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 98–14021 Filed 5–27–98; 8:45 am]

BILLING CODE 8010–01–M

[5] 15 U.S.C. 78f(b) and 78k(b).

[6] 15 U.S.C. 78f(b)(5).

[7] 17 CFR 240.11b–1.

[8] Under Article XXXIV, Rule 16, registered market makers are registered as specialists for purposes of the Act.

[9] For example, under Article XXXIV, a registered market maker on the Exchange has the duty to maintain fair and orderly markets in assigned issues (Rule 1); the duty to execute at least 50% of quarterly share volume in assigned issues (Rule 3); and the duty to register separately for each security to be traded as a market maker (Rule 4).

[10] Under the federal securities laws and the Exchange's Rules as set forth in Article XXXIV, market makers are also granted special treatment and exemptions from requirements regarding net capital, position financing, and short sales for transaction effected during the course of bona fide market making.

[11] In approving the rule change, the Commission has considered the proposed rule's impact on efficiency, competition and capital formation. 15 U.S.C. 78c(f).

[12] 15 U.S.C. 78s(b).

[13] 17 CFR 200.30–3(a)(12).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40017; File No. SR–CHX–98–09]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Partial Temporary Approval of Proposed Rule Change by the Chicago Stock Exchange, Incorporated Amending the SuperMAX and Enhanced SuperMAX Algorithms

May 20, 1998.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on April 20, 1998, the Chicago Stock Exchange, Incorporated ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and to grant accelerated approval, on a temporary basis, for a portion of the proposed rule change relating to a new SuperMAX algorithm.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its SuperMAX and Enhanced SuperMAX programs, located in subsections (c) and (e) of Rule 37 of Article XX. Specifically, the Exchange is proposing new algorithms to provide price improvement under SuperMAX and Enhanced SuperMAX in 1/16th point markets. Below is the text of the proposed rule change, additions are italicized; deletions are bracketed.

(c) SuperMAX.

[The Exchange's SuperMAX program shall be an automatic execution program within MAX in which a Specialist may voluntarily choose to participate on a stock-by-stock basis. A Specialist shall decide if his or her stock will be eligible for SuperMAX treatment. In the event that a Specialist determines that his stock is eligible for SuperMAX and voluntarily chooses to participate in SuperMAX, small agency market orders in that stock will automatically be executed in MAX, through the SuperMAX program, without any Specialist intervention based on the following criteria (for purposes of this Rule, small market orders shall mean orders up to and including 599 shares, except for the 500 stocks listed in the

[1] 15 U.S.C. 78s(b)(1).

S&P 500™ Index, in which case, small market orders shall mean orders up to and including 1099 shares):

(1) Pricing.

(i) Both buy and sell orders in markets quoted with less than ¼ point spread or orders which do not meet the criteria in (ii) or (iii) below will be executed based on the ITS BBO.

(ii) Buy orders in markets quoted with a ¼ point spread or wider will be executed at a price ⅛th point better than the ITS Best Offer if (i) an execution at the ITS Best Offer would create a double up tick based upon the last sale in the primary market or (2) an execution at the ITS Best Offer would result in a greater than a ⅛th point price change from the last sale in the primary market.

(iii) Sell orders in markets quoted with a ¼ point spread or wider will be executed at a price ⅛th point better than the ITS Best Bid if (i) an execution at the ITS Best Bid would create a double down tick based upon the last sale in the primary market or (2) an execution at the ITS Best Bid would result in a greater than a ⅛th point price change from the last sale in the primary market.

For example, the execution price for a market buy order in a ¼–½ quoted market is as follows:

Tick/last sale	Execution price
+½	½
+⅜	⅜
−⅜	½
−¼	⅜
+¼	⅜ (if in range)

The execution price for a market buy order in a ¼–⅝ quoted market is as follows:

Tick/last sale	Execution price
+⅝	⅝
+½	½
⅜	½
−½	⅝
−⅜	½
−¼	½
+¼	½

(2) Operating Time. SuperMAX will operate each day that the Exchange is open for trading from 8:45 a.m. (C.T.) until the close. During volatile periods, individual stocks or all stocks may be removed from SuperMAX with the approval of two members of the Committee on Floor Procedure.

(3) Timing. Orders entered into SuperMAX shall be immediately executed without any delay (i.e. 0 seconds).

(4) Applicability to Odd-Lots. Although an order generated by the Odd-Lot Execution Service ("OLES") is a professional order (because it is deemed to be for the account of a broker-dealer), it is nonetheless eligible for SuperMAX execution if: (i) the issue is on SuperMAX, (ii) it is an order for 200 shares or less, and (iii) it is an OLES passively driven, system-generated market order (and not an actively managed order).

(5) Other. Any eligible order in a stock included in SuperMAX which is manually presented at the Specialist post by a floor broker must also be guaranteed an execution by the Specialist pursuant to the criteria set forth in (1) above. In the event that a contra side order which would better a SuperMAX execution is presented at the post, the incoming order which is executed pursuant to the SuperMAX criteria must be adjusted to the better price.]

SuperMAX shall be a voluntary automatic execution program within the MAX System. SuperMAX shall be available for Dual Trading System securities. Dual Trading System securities are securities that are traded on both the Exchange and either the New York Stock Exchange or the American Stock Exchange. A specialist may choose to enable this voluntary program within the MAX System on a security-by-security basis. In the event that the security is eligible for SuperMAX and the specialist in such security has chosen to engage SuperMAX for such security, small agency market orders in that security will automatically be executed in accordance with the SuperMAX algorithm, as set forth below. For purposes of this subsection (c), the term "small agency market order" shall mean an agency order from 100 shares up to and including 499 shares (or such greater amount specified by the specialist and approved by the Exchange).

(1) Pricing.

(i) In the event that a small agency market order to buy or sell is received in a security in which SuperMAX has been enabled, such order shall be executed at the ITS Best Offer (for a buy order) or ITS Best Bid (for a sell order) if (A) the spread between the ITS Best Bid and the ITS Best Offer in such security at the time the order is received is less than ⅛th of a point, or (B) the order does not meet the criteria in (ii) below.

(ii) In the event that a small agency market order to buy or sell is received in a security in which SuperMAX has been enabled, and the last primary market sale is at least 1/8th of a point lower than (for a buy order) or higher than (for a sell order) the ITS Best Offer (for a buy order) or the ITS Best Bid (for a sell order), such order shall be executed a 1/16th of a point lower than the ITS Best Offer (for a buy order) or 1/16th of a point higher than the ITS Best Bid (for a sell order).

(2) Operating Time.

SuperMAX will operate each day that the Exchange is open for trading from 8:45 a.m. (C.T.) until the close of the Primary trading Session. A specialist may enable or remove SuperMAX for a particular security only on one given day each month, as determined by the Exchange from time to time. Notwithstanding the previous sentence, during unusual market conditions, individual securities or all securities may be removed from SuperMAX with approval of two members of the Committee on Floor Procedure.

(3) Timing.

Orders entered into SuperMAX shall be immediately executed upon completion of the algorithm without any delay (i.e., 0 seconds).

(4) Applicability to Odd-Lots.

Although an order generated by the Odd-Lot Execution Service ("OLES") is a professional order (because it is deemed to be for the account of a broker-dealer), it is nonetheless eligible for SuperMAX execution if: (i) the issue is on SuperMAX, (ii) it is an order for 200 shares or less, and (iii) it is an OLES passively driven, system-generated market order (and not an actively managed order).

(5) Out of Range.

Notwithstanding anything herein to the contrary, SuperMAX will not automatically execute an order if such execution would result in an out of range execution.

(6) Other.

Any eligible order in a security included in SuperMAX, which is manually presented at the Specialist post by a floor broker must also be guaranteed an execution by the Specialist pursuant to the criteria set forth in (1) above. In the event that a contra side order which would better a SuperMAX execution is presented at the post, the incoming order which is executed pursuant to the SuperMAX criteria must be adjusted to the better price.

(d) No change in text.

(e) Enhanced SuperMAX

[The Exchange's Enhanced SuperMAX program shall be an automatic execution program within MAX in which a specialist may voluntarily choose to participate on a stock-by-stock basis. A specialist shall decide if his or her stock will be eligible for Enhanced SuperMAX treatment. In

the event that a stock is eligible for Enhanced SuperMAX treatment (pursuant to paragraph (e) of this Rule) and SuperMAX treatment (pursuant to paragraph (c) of this Rule) at the same time, the size of the order and the inclusion of the security in the S&P 500™ Index will determine which program will be followed for execution. If a stock is not included in the S&P 500™ Index, an order of 299 shares or less will execute according to the SuperMAX program and an order from 300 shares up to and including 1099 shares (or such greater size specified by the specialist and approved by the Exchange) will execute according to the Enhanced SuperMAX program. If a stock is included in the S&P 500™ Index, or if a specialist in a non-S&P 500™ Index issue so chooses, an order of 599 shares or less will execute according to the SuperMAX program and an order from 600 shares up to and including 1099 shares (or such greater size specified by the specialist and approved by the Exchange) will execute according to the Enhanced SuperMAX program. In the event that a specialist determines that his stock is eligible for Enhanced SuperMAX only and voluntarily chooses to participate in Enhanced SuperMAX, agency market orders up to and including 1099 shares (or such greater size specified by a specialist and approved by the Exchange) in that stock may automatically be stopped and executed in MAX, through the Enhanced SuperMAX program, without any specialist intervention based on the following criteria:

(1) Stopping. If an agency market order eligible for Enhanced SuperMAX would create either a double up tick (buy order) or double down tick (sell order) if the order was executed at the ITS BBO, the Enhanced SuperMAX program will "stop" the order. Once stopped, the order will not receive an execution that is worse than the stopped price. Notwithstanding anything in the previous sentence to the contrary, agency market orders in markets quoted in less and a ¼ point market will not be stopped. Orders not stopped will be immediately executed based upon the ITS BBO as the case may be.

(2) Pricing. Buy orders stopped under (1) above will be executed as follows:

(i) If the next primary market sale is equal to or less than the last sale then the stopped order will be executed at such last sale price (subject, however, to the Exchange's block protection policy as set forth in interpretation and policy .06 of Rule 7 of this Article).

(ii) If the next primary market sale is greater than the last sale then the stopped order will be executed at such next primary market sale price. However, if the next primary market sale is greater than the stopped price then the stopped order will be filled at the stopped price.

Sell orders stopped under (1) above will be executed as follows:

(iii) If the next primary market sale is equal to or greater than the last sale then the stopped order will be executed at such last sale price (subject, however, to the Exchange's block protection policy as set forth in interpretation and policy .06 of Rule 7 of this Article).

(iv) If the next primary market sale is less than the last sale then the stopped order will be executed at such primary. market sale price. However, if the next primary market sale is less than the stopped price then the stopped order will be filled at the stopped price.

Notwithstanding anything in this paragraph (2) to the contrary, orders stopped under this paragraph that are subject to a Time Out Period (as defined below) shall be executed at the stopped price if there are no executions in the primary market at the end of the applicable Time Out Period. The Time Out Period shall be the time specified by the specialist on a stock-by-stock basis based on the size of the order. Such Time Out Period may be changed by a specialist no more frequently than once a month and may be no less than 30 seconds. A specialist shall not be required to specify a Time Out Period. If no Time Out Period is specified, no Time Out Period shall apply.

(3) Operating Time. Enhanced SuperMAX will operate each day that the Exchange is open for trading from 8:45 a.m. (C.T.) until the close. A specialist may make a particular stock eligible for Enhanced SuperMAX and may remove a particular stock from Enhanced SuperMAX only on one given day each month, as determined from time to time by the Exchange. Notwithstanding anything in the previous sentence to the contrary, in unusual trading situations, individual stocks or all stocks may be removed from Enhanced SuperMAX with the approval of two members of the Committee on Floor Procedure.

(4) Timing. Orders entered into Enhanced SuperMAX shall, when due a fill under the Enhanced SuperMAX program, be immediately executed without any delay (i.e. 0 seconds).

(5) Applicability to Odd-Lots. Although an order generated by the Odd-Lot Execution Service ("OLES") is a professional order (because it is deemed to be for the account of a broker-dealer), it is nonetheless eligible for Enhanced SuperMAX execution if: (i) the issue is on Enhanced SuperMAX, (ii) it is an order for 200 shares or less, and (iii) it is an OLES passively drive, system-generated market order (and not an actively managed order).

(6) Out of Range. Notwithstanding anything in this paragraph (e) to the contrary, Enhanced SuperMAX will not execute an order at the ITS BBO if such execution would result in an out of range execution.

(7) Other. Any eligible order in a stock included in Enhanced SuperMAX which is manually presented at the Specialist post by a floor broker must also be guaranteed an execution by the Specialist pursuant to the criteria set forth in this paragraph (e). In the event that a contra side order which would better an Enhanced SuperMAX execution is presented at the post, the incoming order which is executed pursuant to the Enhanced SuperMAX criteria must be adjusted to the better price.]

Enhanced SuperMAX shall be a voluntary automatic execution program within the MAX System. Enhanced SuperMAX shall be available for any Dual Trading System security in which SuperMAX has been enabled. A specialist may choose to enable this voluntary program within the MAX System on a security-by-security basis. In the event that the security is eligible for Enhanced SuperMAX and the specialist in such security has chosen to engage Enhanced SuperMAX for such security, small agency market orders in that security will automatically be executed in accordance with the Enhanced SuperMAX algorithm, as set forth below. For purposes of this subsection (e), the term "small agency market order" shall mean an agency order for at least 500 shares, up to and including 2099 shares (or such greater amount chosen by the specialist and approved by the Exchange). Notwithstanding the previous sentence, the smallest size order in a particular security that is eligible for Enhanced SuperMAX shall always be of a size that is at least one share greater than the largest size order in such security that is eligible for SuperMAX.

(1) Stopping.

(i) In the event that a small agency market order to buy or sell is received in a security in which Enhanced SuperMAX has been enabled, and both (A) the spread between the ITS Best Bid and the ITS Best Offer in such security at the time the order is received is equal to or greater than 3/16th of a point, and (B) the last primary market sale is at least 1/8th of a point lower than (for a buy order) or higher than (for a sell order) the ITS Best Offer (for a buy

order) or the ITS Best Bid (for a sell order), Enhanced SuperMAX shall "stop" the order at the ITS Best Offer (for a buy order) or at the ITS Best Bid (for a sell order) for a Time Out Period (as defined below). Once stopped, the order shall be guaranteed an execution at the stopped price or better. The Time Out Period shall be the time specified by the specialist, and approved by the Exchange, on a security-by-security basis. Such Time Out Period may be changed by a specialist no more frequently than once a month and may be no less than 30 seconds. If a specialist does not specify a specific Time Out Period, the Time Out Period shall be 30 seconds.

(ii) In the event that a small agency market order to buy or sell is received in a security in which Enhanced SuperMAX has been enabled, and the order is not stopped under (1)(i) above, Enhanced SuperMAX shall immediately execute the order at the ITS Best Offer (for a buy order) or at the ITS Best Bid (for a sell order).

(2) Pricing.

(i) In the event that an order has been stopped in accordance with subsection (1)(i) above, it shall be executed at 1/16th of a point better than the stopped price immediately after the first (i.e., next) primary market sale that occurs during the Time Out Period, but only if such next primary market sale is at least *1/8th* of a point lower than (for a buy order) or higher than (for a sell order) the stopped price.

(ii) In the event that an order has been stopped in accordance with subsection (1)(i) above, it shall be executed at the stopped price immediately after the first (i.e., next) primary market sale that occurs during the Time Out Period, but only if such next primary market sale is less than 1/8th of a point lower than (for a buy order) or higher than (for a sell order) the stopped price.

(iii) in the event that an order has been stopped in accordance with subsection (1)(i) above, it shall be executed at the stopped price immediately at the end of the applicable Time Out Period if no sale of the security has occurred in the primary market during such Time Out Period.

(3) Operating Time.

Enhanced SuperMAX will operate each day that the Exchange is open for trading from 8:45 a.m. (C.T.) until the close of the Primary trading Session. A specialist may enable or remove Enhanced SuperMAX for a particular security only on one given day each month, as determined by the Exchange from time to time. Notwithstanding the previous sentence, during unusual market conditions, individual securities or all securities may be removed from Enhanced SuperMAX with approval of two members of the Committee on Floor Procedure.

(4) Timing.

Orders entered into Enhanced SuperMAX shall be immediately executed upon completion of the algorithm without any delay (i.e., 0 seconds).

(5) Applicability to Odd-Lots.

Although an order generated by the Odd-Lot Execution Service ("OLES") is a professional order (because it is deemed to be for the account of a broker-dealer), it is nonetheless eligible for Enhanced SuperMAX execution if: (i) the issue is on Enhanced SuperMAX, (iii) it is an order for 200 shares or less, and (iii) it is an OLES passively driven, system-generated market order (and not an activity managed order).

(6) Out of Range.

Notwithstanding anything herein to the contrary, Enhanced SuperMAX will not automatically execute an order if such execution would result in an out of range execution.

(7) Other.

Any eligible order in a security included in Enhanced SuperMAX, which is manually presented at the Specialist post by a floor broker must also be guaranteed an execution by the Specialist pursuant to the criteria set forth in (1) and (2) above. In the event that a contra side order which would better a Enhanced SuperMAX execution is presented at the post, the incoming order which is executed pursuant to the Enhanced SuperMAX criteria must be adjusted to the better price.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The self-regulatory organization has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On May 22, 1995, the Commission approved a proposed rule change of the CHX that allows specialists on the Exchange, through the Exchange's MAX system, to provide order execution guarantees that are more favorable than those required under CHX Rule 37(a), Article XX.[2] That approval order contemplated that the CHX would file with the Commission specific modifications to the parameters of MAX that are required to implement various options available under this new rule.

The CHX now proposes to amend the SuperMAX program and Enhanced SuperMAX programs. SuperMAX and Enhanced SuperMAX are two existing CHX programs within the MAX System that use computerized algorithms to provide automated price improvement. Both of these programs have been approved by the Commission on a permanent basis.[3]

Background. In 1997, virtually every registered national securities exchange and national securities association changed its minimum trading variation to one sixteenth of a point or smaller. Although the CHX made some technical changes to its SuperMAX and Enhanced SuperMAX programs at that time in light of assumptions as to the smallest minimum variation that were contained in the text of the SuperMAX and Enhanced SuperMAX rules, the CHX did not change the algorithms to reflect the additional price improvement opportunities that are available because of trading in sixteenths.[4] The purpose of the proposed rule change is to amend the existing programs to both simplify the price improvement algorithms and increase the number of orders that are eligible for price improvement due to the smaller minimum trading variation. Rather than amending the existing text of the SuperMAX and Enhanced SuperMAX rules, the text of the existing rule has been deleted and replaced with new language. This was done to permit the Exchange to re-write the rule, with non-substantive changes, to clarify some language in the old rule that may have been ambiguous.

Proposal. The existing SuperMAX and Enhanced SuperMAX programs are voluntary programs in which a specialist may choose to participate. Participation is on a security-by-security

---

[2] *See* Securities Exchange Act Release No. 35753 (May 22, 1995), 60 FR 28007 (May 26, 1995) (File No. SR–CHX–95–08).

[3] *See* Securities Exchange Act Release No. 32631 (July 14, 1993), 58 FR 39069 (July 21, 1993) (File No. SR–MSE–93–10) (Order approving SuperMAX on a permanent basis), Securities Exchange Act Release No. 38338 (February 26, 1997), 62 FR 10102 (March 5, 1997) (File No. SR–CHX–97–02) (Order approving Enhanced SuperMAX on a permanent basis).

[4] *See* Securities Exchange Act Release No. 38816 (July 3, 1997), 62 FR 37325 (July 11, 1997) (File No. SR–CHX–97–18).

basis and is currently limited to Dual Trading System issues (*i.e.*, issues traded on both the CHX and either the New York Stock Exchange or American Stock Exchange). A specialist can only activate and de-activate the program with respect to a given security once a month (a date determined by the specialist). Once activated with respect to a security, small agency market orders [5] in markets quoted with a spread of ¼ point or more are eligible for automated price improvement. Once eligible, the program runs through an algorithum that may provide price improvement under certain circumstances. The existing SuperMAX program provides price improvement to the order if executing the order at the ITS BBC [6] (the ITS best offer for a buy order, and the ITS best bid for a sell order) would create either a double uptick or double down tick based on the last primary market sale. The program also provides price improvement if such an execution would result in greater than a ⅛th point price change from the last primary market sale. Under the existing Enhanced SuperMAX program, rather than executing an order based on the last primary market sale, eligible orders are "stopped" at the ITS BBO and are executed with reference to the next primary market sale. The Enhanced SuperMAX program also includes a time-out feature whereby if there are no executions in the primary market after the order has been stopped for a designated time period, the order is executed at the stopped price at the end of such period. Such period, known as a time out period, is pre-selected by a specialist on a stock-by-stock basis on the size of the order, may be changed by a specialist no more frequently than once a month and may be no less than 30 seconds.

This proposed rule change simplifies the pricing algorithms used by SuperMAX and Enhanced SuperMAX and provides a greater opportunity for price improvement.

Under the new simplified algorithm for SuperMAX, small agency market orders [7] would now be eligible for price improvement if the market for the security is quoted with a spread of ⅛ of a point or greater (rather than the ¼ point spread that is required under the existing rule). In addition, the double-up/double down concept has been eliminated. The simplified algorithm will now provide 1⅛th of a point price improvement from the ITS BBO if an execution at the ITS BBO would be at least ⅛th point higher than (for a buy order) or lower than (for a sell order) the last primary market sale. Basically price improvement is given under certain circumstances when the security is trading between the spread. All other aspects of the existing algorithm, including operating time, timing of execution, applicability to odd-lots, and out of range situations, remain the same.

The Exchange has compared the proposed changes to SuperMAX with the existing SuperMAX algorithm and believes that the new algorithm will provide price improvement to a greater number of trades. Using data for January 1998, the Exchange determined that the proposed changes to the algorithm would have resulted in over 32,000 trades receiving price improvement (for a total savings of $329,000 to customers), as opposed to the 5800 trades that received price improvement (for a total savings of $126,000 to customers) under the existing SuperMAX program. This means that the changes to SuperMAX would have resulted in customers receiving 203,000 additional dollars of price improvement over the Exchange's existing SuperMAX algorithm.

With respect to Enhanced SuperMAX, the Exchange proposes to make this program an add-on feature for securities for which the SuperMAX program has already been activated, rather than a stand-alone program. As stated in the Exchange's Report on the operation of the Enhanced SuperMAX program that was provided to the Commission in advance of the Commission's permanent approval of Enhanced SuperMAX program, taken as a whole, the existing SuperMAX program provides more price improvement than the existing Enhanced SuperMAX program. The Exchange believes that interconnecting the two programs will encourage more specialists to enable the SuperMAX program, with greater resulting price improvement, since the Enhanced SuperMAX program will only be available when SuperMAX is enabled. Currently, some specialists have only turned on the Enhanced SuperMAX program without enabling the SuperMAX program.

Under the new simplified algorithm for Enhanced SuperMAX, small agency market orders [8] would be eligible for price improvement if the market for the security is quoted with a spread of 3/16th of a point (rather than the ¼ point spread that is required under the existing rule). In addition, the double-up/double down concept currently in place to determine whether an order is stopped has been eliminated. The simplified algorithm will now "stop" an eligible order at the ITS BBO if an execution at the ITS BBO would be at least 1/16th point higher than (for a buy order) or lower than (for a sell order) the last primary market sale. (This stopping algorithm is identical to the new algorithm above for Super MAX.) Once stopped, an order would receive 1/16th price improvement over the stopped price if the next primary market sale occurs before the end of the Time Out Period and the sale is at least ⅛th of a point lower than (for a buy order) or higher than (for a sell order) the stopped price. As is the case for SuperMAX, all other aspects of the existing algorithm, including operating time, timing of execution, applicability to odd-lots, and out of range situations, remain the same.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)(5) of the Act in that it is designed to promote just and equitable principles of trade, to remove impediments and to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The proposed rule change accomplishes these ends by increasing the number of trades that will be eligible for automated price improvement.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

---

[5] For SuperMAX, small agency market orders are orders from 100 shares to 599 shares (or a greater amount chosen by the specialist). For Enhanced SuperMAX these are orders from 100 shares to 1099 shares (or a greater amount chosen by the specialist).

[6] As used in the CHX rules, ITS BBO means the best bid or offer among the American, Boston, Cincinnati, Chicago, New York, Pacific, Philadelphia or the Intermarket Trading System/Computer Assisted Execution System quote. *See* CHX Art. XX, Rule 37(a)(2).

[7] Under the proposal, small agency market orders for SuperMAX would be orders from 100 shares to 499 shares (or a greater amount chosen by the specialist).

[8] Under the proposal, small agency market orders for Enhanced SuperMAX would be orders from 500 shares to 2099 shares (or a greater amount chosen by the specialist). Notwithstanding the 500 share minimum order size contained in the rule, the smallest size order eligible for Enhanced SuperMAX must always be at least one share greater than the largest size order in such security that is eligible for SuperMAX. In other words, if a specialist voluntarily increases the maximum order size for SuperMAX, the minimum order size for Enhanced SuperMAX must be increased accordingly.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the Exchange. All submissions should refer to File No. SR–CHX–98–09 and should be submitted by June 18, 1998.

IV. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the publication of the notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

V. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that part of the Exchange's proposal modifying the price improvement algorithm amending SuperMAX is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange. Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,[9] which requires that the rules of an exchange be designed, among other things, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.[10] The Commission believes, in light of the industry's move to trading in finer increments last year, that CHX's modification to its price improvement algorithms will provide investors a meaningful opportunity for price improvement when securities trading in 1/16ths have a spread of 1/8 point or greater. In addition, the Commission finds that the new SuperMAX and Enhanced SuperMAX rules provide greater price improvement opportunities for investors because the criteria for when such opportunities are available has been simplified. The Commission believes that because the opportunity for price improvement is automatic and without any specialist intervention, SuperMAX[11] and Enhanced SuperMAX facilitate order interaction and enhance the execution of customer orders consistent with Section 6(b)(5) of the Act. The Commission notes that while SuperMAX and Enhanced SuperMAX are voluntary programs that specialists choose to participate in for Dual Trading Systems issues, providing a greater number of investors an opportunity to achieve price improvement is compatible with the view expressed in the Order Handling release.[12]

The Commission therefore finds good cause for granting partial approval to the proposed rule change (SR–CHX–98–09) with respect to the adoption of a new SuperMAX prior to the thirtieth day after date of publication of notice of filing thereof in the **Federal Register.** The Commission is granting this partial approval on a temporary basis, until August 20, 1998.

The Commission is therefore granting accelerated approval for the new SuperMAX algorithm on a temporary basis, until August 20, 1998.[13] The Commission is deferring action on the new Enhanced SuperMAX to provide interested parties an opportunity to comment on the proposal. In addition, the Commission and the CHX will have the opportunity to review the implementation of the new SuperMAX algorithm.

The changes to the SuperMAX algorithm will be phased in during the next month. Until the Enhanced SuperMAX proposal is adopted, the existing Enhanced SuperMAX algorithm will continue to apply. In those instances where a security is both on the new SuperMAX algorithm and the old Enhanced SuperMAX algorithm, the size of the order will determine which algorithm is used. The introductory paragraph of existing Rule 37(e) that describes the interaction between SuperMAX and Enhanced SuperMAX for a security on both systems shall be deemed to be amended such that if an order is for between 100 shares and 499 shares, the new SuperMAX algorithm shall apply, and if the order is for 500 shares or more (up to the 2099 shares or such greater amount specified by the specialist and approved by the Exchange), the old Enhanced SuperMAX algorithm shall apply.

It is Therefore *Ordered,* pursuant to Section 19(b)(2) of the Act,[14] that the proposed rule change (SR–CHX–98–09) be, and hereby is, approved in part and on a temporary basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[15]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40014; File No. SR–MSRB–98–1]

Self-Regulatory Organizations; Municipal Securities Rulemaking Board; Order Granting Approval of Proposed Rule Change and Notice of Filing and Order Granting Accelerated Approval of Amendment No. 1 Relating to Interpretation of Rule G–38 on Consultants Concerning Bank Affiliates and the Definition of Payment

May 20, 1998.

I. Introduction

On January 12, 1998,[1] the Municipal Securities Rulemaking Board ("Board"

[1] On November 13, 1997, the Board filed the same proposal as a Q&A under Section 19(b)(3)(A) of the Act, which rendered the proposal effective upon receipt of the filing by the Commission. *See* Securities Exchange Act Rel. No. 39391 (December

or "MSRB") submitted to the Securities and Exchange Commission ("Commission" or "SEC"),[1] pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[2] and Rule 19b–4 thereunder,[3] a proposed rule change to provide an interpretation of Rule G–38 on consultants relating to bank affiliates and the definition of payment. Notice of the proposed rule change appeared in the **Federal Register** on January 20, 1998.[4]

The Commission received five comment letters specifically addressing the proposed rule change.[5] The Commission, however, received ten comment letters in total which addressed either the proposed rule change or the proposed rule change that was withdrawn.[6] All commenters opposed this interpretation, citing discriminatory effect against banks and bank-affiliated municipal securities dealers and focusing on the MSRB's jurisdiction concerning the banking industry. On March 3, 1998, the Board submitted Amendment No. 1 to the proposed rule change.[7] This order approves the proposed rule change. Also, Amendment No. 1 is approved on an accelerated basis.

II. Description of the Proposal

Recently, the Board has received inquiries from market participants concerning the definition of payment, as used in Rule G–38, and whether bank affiliates and their employees may, under certain circumstances, be deemed consultants for purposes of the rule.[8] Specifically, a bank and its employees communicate with an issuer on behalf of an affiliated dealer to obtain municipal securities business. The affiliated dealer issues credits to identify, for internal purposes, the source of business referrals; however, these credits do not involve any direct or indirect cash payments from the dealer to the bank or its employees. The issue is whether the credits received by a bank and its employees from an affiliated dealer qualify as "payment" under Rule G–38, thus requiring the dealer to designate the bank or its employees as consultants and comply with the requirements of Rule G–38.

Rule G–38 defines a consultant as any person used by a dealer to obtain or retain municipal securities business through direct or indirect communication by such person with an issuer on behalf of the dealer where the communication is undertaken by the person in exchange for, or with the understanding of receiving, payment from the dealer or any other person.[9] The term payment, as used in Rule G–38, means any gift, subscription, loan, advance, or deposit of money or anything of value.[10] Under the Board's interpretation of payment in this proposed rule change, the absence of an immediate transfer of funds or anything of value, such as credits, to an affiliate or individual employed by the affiliate would not exclude the credits from the definition of payment if such credits eventually (*e.g.*, at the end of the fiscal year) result in compensation to the affiliate or individual employed by the affiliate for referring municipal securities business to the dealer. In this regard, the compensation may be in the form of cash (*e.g.*, a bonus) or non-cash. In either case, if the dealer or any other person[11] eventually gives anything of value (*i.e.*, makes a "payment") to the affiliate or individual, based even in part on the referral, then the affiliate or individual is a consultant for purposes of Rule G–38 and the dealer must comply with the various requirements of the rule.

III. Summary of Comments

All of the comment letters addressing the proposed rule change opposed the proposed rule change, raising several issues.[12] At the Commission's request, the Board submitted a response which addresses these issues.[13]

Most commenters contend that the Board's interpretation is an impermissible extension of rule G–38 to banks' soft dollar compensation programs.[14] These commenters are concerned that this interpretation would infringe upon the most effective method used by financial institutions to cross-sell their various products and services to a wide range of customers.[15] According to the MSRB, this interpretation merely clarifies what is already required and is reasonably and fairly implied by the rule; it does not reflect a change in MSRB policy.[16] The rule requires disclosure of the "compensation arrangement" of any consultant used by a dealer to obtain or

[5] *See* letter from Sarah A. Miller, Senior Government Relations Counsel, Trust and Securities, American Bankers Association, to Jonathan G. Katz, Secretary, SEC, dated February 10, 1998 ("ABA Letter No. 2"); letter from Mae A. Cavoli, Senior Vice President, Senior Managing Counsel, KeyCorp Management Company, to Jonathan G. Katz, Secretary, SEC, dated February 10, 1998 ("KeyCorp Letter"); letter from William E. Marquis, Associate Counsel, Mellon Bank Corporation, to Jonathan G. Katz, Secretary, SEC, dated February 9, 1998 ("Mellon Bank Letter No. 2"); letter from Robert J. Nagy, Senior Counsel, NationsBank, to Jonathan G. Katz, Secretary, SEC, dated February 10, 1998 ("NationsBank Letter No. 2"); letter from Victor M. DiBattista, Chief Regional Counsel, PNC Bank, N.A., dated February 10, 1998 ("PNC Letter No. 2").

[6] These letters were resubmitted; they were originally submitted to address SR–MSRB–97–8. Letter from Sarah A. Miller, Senior Government Relations Counsel, Trust and Securities, American Bankers Association, to Jonathan G. Katz, Secretary, SEC, dated December 30, 1997 ("ABA Letter No. 1"); letter from Michael E. Bleier, General Counsel, Mellon Bank Corporation, to Jonathan G. Katz, Secretary, SEC, dated January 12, 1998 ("Mellon Bank Letter No. 1"); letter from Robert J. Nagy, Senior Counsel, NationsBank, to Jonathan G. Katz, Secretary, SEC, dated December 31, 1997 ("NationsBank Letter No. 1"); letter from Victor M. DiBattista, Chief Regional Counsel, PNC Bank, N.A., to Jonathan G. Katz, Secretary, SEC, dated January 2, 1998 ("PNC Letter No. 1").

This letter, which was also initially submitted to address SR–MSRB–97–8, was not resubmitted. Letter from Alan R. Leach, Senior Vice President and Manager, Dealer Bank Department, Deposit Guaranty National Bank, to Jonathan G. Katz, Secretary, SEC, dated January 5, 1998 ("Deposit Guaranty Letter").

[7] *See infra* note 13. The Board's response to the comment letters also included an amendment to the interpretation. The amended language clarifies that the consultant may be either the affiliate itself or an individual employed by the affiliate.

[8] To assist brokers, dealers, and municipal securities dealers in understanding and complying with its rules, the Board publishes notices of interpretation, in question-and-answer format, when warranted. Two sets of Q&A's have previously been published providing the Board's interpretation of the application of Rule G–38. *See* Securities Exchange Act Release No. 36950 (March 11, 1996); 61 FR 10828 (March 15, 1996) and Securities Exchange Act Release No. 37997 (Nov. 29, 1996); 61 FR 64781 (Dec. 6, 1996).

See also MSRB Reports Vol. 16, No. 2 (June 1996) at 3–5; and Vol. 17, No. 1 (Jan. 1997) at 15.

[9] Municipal finance professionals and any person whose sole basis of compensation is the actual provision of legal, accounting or engineering advice, services or assistance are exempted from the definition of consultant.

retain municipal securities business.[17] The Board is aware that consultants are sometimes paid in non-cash compensation, and thus specifically chose the term "compensation arrangement" because it did not want to limit the disclosure to cash payments.[18] Thus, the interpretation is not an unwarranted extension to soft dollar compensation arrangements, because the rule already applied to such arrangements.[19] The Commission agrees with the MSRB'S explanation that the dealer's disclosure requirements are specifically delineated in the rule, and that the interpretation is consonant with these requirements.

The commenters also suggest that the interpretation is unworkable when applied to non-traditional compensation programs, given the subjective nature of the calculations, and would significantly discourage traditional banking referral programs.[20] According to these commenters, most compensation programs are based on factors other than the initial credit allocation. Thus, translating credits allocated by the affiliated dealer into a specific dollar amount of the employees' compensation would be difficult because the reports are due quarterly; referral compensation, however, is usually awarded in the form of a year end bonus.[21] The MSRB notes that Rule G–38 requires, among other things, that each broker, dealer, and municipal securities dealer disclose to the Board certain information relating to each consultant used by the dealer during the reporting period to obtain or retain municipal securities business.[22] This definition also includes bank dealers.[23] Furthermore, the Board notes that based on a review of reports submitted, several bank dealers and bank-affiliated dealers have been disclosing the information required by Rule G–38.[24] These dealers have listed as consultants their bank affiliates and bank employees, and have disclosed the compensation arrangements for such consultants (either in dollar or as a formula), as well as dollar amounts paid to consultants.[25]

The commenters contend that rule G–38 should not apply to banks' referral programs because the intent of the rule is to capture traditional cash payments made by municipal dealers to independent consultants (*i.e.*, professionals in the municipal securities arena) whose primary activity is to obtain or retain municipal securities business for the dealer.[26] Moreover, they contend that, as the employee receives no "payment" or "anything of value" from the dealer, but rather from the financial institution itself, the employee cannot be deemed a consultant for purposes of the rule.[27] The MSRB states that these assertions are erroneous. Under Rule G–38, a consultant is defined as any person used by the dealer to obtain or retain municipal securities business through direct or indirect communication with an issuer on the dealer's behalf where the communication is undertaken by such person in exchange for, or with the understanding of receiving, payment from the dealer or any other person.[28] (emphasis added) The Board drafted the rule language in this manner to ensure that dealers could not circumvent the rule's disclosure requirements by claiming that another party compensated a consultant that referred municipal securities business to the dealer.[29] Furthermore, such compensation is not limited to cash payments; the term "payment" is defined as any gift, subscription, loan, advance, or deposit of money or anything of value.[30]

The Commission agrees with the MSRB's assessment. While these "credits" may not be initially transmitted in monetary form, they are a factor in the calculations made to determine eventual monetary compensation, which is something of value. Moreover, a previous interpretation published by the MSRB directly addresses this issue.[31] The MSRB has addressed Q&A No. 7, but Q&A No. 6 is also on point. If an employee of an affiliated company of a bank introduces one of its customers (*i.e.* a municipal issuer) to the bank's dealer department for purposes of engaging in municipal securities business, and that dealer pays the affiliated company for this activity, then that employee is considered a "finder." Any person used by a dealer as a "finder" for municipal securities business would be considered a consultant under Rule G–38.

Several commenters stated that the MSRB's proposal unfairly discriminates against bank-affiliated dealers, because it does not apply equally to incentive programs established and operated by financial service firms not affiliated with a bank.[32] These commenters also contend that the MSRB's interpretation is an impermissible extension of its authority into an area exclusively reserved for bank regulators.[33] Moreover, because the MSRB lacks jurisdiction over bank's compensation programs, banks would have to consent to their municipal securities dealer affiliates filing proprietary information with the MSRB, an unlikely occurrence, given the public availability of this information once submitted.[34]

In its response, the MSRB notes that bank dealers, like securities firms, are subject to federal securities laws.[35] Further, all Board rules apply equally to bank dealers and securities firms. Prior Rule G–38 interpretations clearly state that the rule applies to both dealer affiliates and bank affiliates.[36] If a securities firm has an affiliate that refers municipal securities business to the dealer in exchange for "credits," then the affiliate would be a consultant and the dealer must make the required disclosures under Rule G–38, including the consultant's compensation arrangement, even if the payment would be made by "any other person" and not by the dealer.[37] The Board disagrees with the argument that the proposal unfairly discriminates against bank-affiliated dealers.[38] In fact, if bank dealers were allowed an exemption from Rule G–38 for referrals by bank affiliates and their employees, the rule would unfairly discriminate against non-bank affiliated dealers.[39] The Commission agrees that the rule and its disclosure requirements apply equally to both dealer affiliates and bank

affiliates. As the MSRB explains, this proposal would also apply if the circumstance involved a securities firms and its affiliate. The Commission, therefore, supports the MSRB's assessment, as the interpretation ensures an evenhanded application of the rule.

In its letters, NationsBank suggests that the MSRB modify the proposal to clarify that a bank and its employees would only be consultants under circumstances where the bank receives credits for the referral of municipal securities business which are then allocated to employees based on a formulaic fashion.[40] The MSRB disagrees with this interpretation and has, therefore, declined to adopt it.[41] Alternatively, PNC Bank suggests that Rule G–38 be clarified to designate only the financial institution as the consultant in the case of soft dollar compensation programs.[42] In response, the MSRB has amended Rule G–38[43] to say that the consultant may be either the affiliate or an individual employee of the affiliate.[44] The dealer must make this determination and ensure proper compliance with the rule, including the contractual arrangements and requisite disclosures.[45] Thus, the Board has amended the language of the interpretation to clarify that the consultant may be either the affiliate itself or an individual employed by the affiliate.[46]

According to the MSRB, Amendment No. 1 clarifies who is deemed a consultant and the process of designation. The Commission agrees that the onus should be on the dealer to designate the consultant, whether affiliate or employee, and to ensure compliance with the rule. The Commission notes, however, that as amended, the dealer may designate either the bank affiliate or the employee as the consultant. As noted in their comments, most banks are reluctant to disclose what they deem to be proprietary information to the MSRB, and hence, the public.[47] The Commission notes that both the employee and the affiliate benefit from referrals facilitated by these soft dollar compensation programs.

[47] However, several banks are currently complying with Rule G–38. *See supra* note 25.

IV. Discussion

The Commission believes the proposed rule change is consistent with the Act and the rules and regulations promulgated thereunder.[48] Specifically, the Commission believes that approval of the proposed rule change is consistent with Section 15B(b)(2)(C)[49] of the Act. This interpretation clarifies the rule's applicability to all broker-dealers engaged in the municipal securities business. The interpretation is necessary to ensure that all persons hired by dealers to solicit municipal securities business will be covered by the rule. This interpretation will require that all consultant activity stemming from attendant soft dollar compensation arrangements, whether those of financial institutions or securities firms, be disclosed. The clarification of Rule G–38 regarding referrals by bank affiliates and their employees will improve the effectiveness of the rule by making explicit that it applies to all consultants and their political contribution activity.

The Commission finds good cause for approving proposed Amendment No. 1 prior to the thirtieth day after the date of publication of notice of filing thereof in the **Federal Register.** Amendment No. 1 clarifies who is deemed a consultant and the process of designation. The Commission agrees that the onus should be on the dealer to designate the consultant, whether bank affiliate or employee thereof, and to ensure compliance with the rule, including contractual arrangements and required disclosures. The dealer's payment of credits to the consultant creates a strong incentive for the consultant to solicit an issuer and refer their business to the dealer. The dealer, therefore, should have the responsibility of documenting its relationship with the consultant and any compensation arrangements that result from or facilitate this relationship. For these reasons, the Commission finds good cause for accelerating approval of the proposed rule change, as amended.

Interested persons are invited to submit written data, views, and arguments concerning Amendment No. 1, including whether the amendment is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the Board's principal offices. Any submissions should refer to File No. SR–MSRB–98–1 and should be submitted by June 18, 1998.

V. Conclusion

For the above reasons, the Commission believes that the proposed rule change is consistent with the provisions of the Act, and in particular with Section 15B(b)(2)(C).

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[50] that the proposed rule change (SR–MSRB–98–1), be hereby approved including Amendment No. 1, on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[51]

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 98–14119 Filed 5–27–98; 8:45 am]

BILLING CODE 8010–01–M

[48] The Commission has considered the proposed rule's impact on efficiency, competition and capital formation. The proposed rule change will add to the information available in the municipal securities market, and thus, competition, in the municipal securities markets because all municipal securities dealers will be required to disclose affiliations and compensation arrangements concerning their relationships with consultants. Efficiency and capital formation will be tangentially improved as enhanced disclosure will likely conserve both capital and personnel resources. 15 U.S.C. 78c(f).

[49] Section 15B(b)(2)(C) requires the Commission to determine that the Board's rules are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in municipal securities, to remove impediments to and perfect the mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40020; File No. SR–PCX–98–23]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Pacific Exchange, Inc. Relating to the Number of Option Issues Permitted To Be Traded Under the LMM Book Pilot Program

May 21, 1998.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b–4 thereunder,[2] notice is hereby given that on May 1, 1998, the Pacific Exchange, Inc. ("PCX" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PCX is proposing to remove the current cap on the number of issues traded under the Lead Market Maker ("LMM") Book Pilot Program.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Purpose

On October 11, 1997, the Commission approved an Exchange proposal to adopt a one-year pilot program under which a limited number of LMMs would be able to assume operational responsibility for the options public limit order book ("Book") in certain option issues.[3] On September 22, 1997, the Commission approved an Exchange proposal to extend the program for one year, so that it is currently set to expire on October 12, 1998.[4]

Under the pilot program, approved LMMs manage the Book function, take responsibility for trading disputes and errors, set rates for Book execution, and pay the Exchange a fee for systems and services.[5] Currently, both multiply-listed and non-multiply-listed option issues are eligible to be traded under the pilot program.[6] Initially, the program was limited by allowing no more than three LMMs to participate in the program and no more than 40 option symbols to be used. But on April 1, 1997, the Commission approved an Exchange proposal to expand the program so that up to nine LMMs may participate and up to 150 option symbols may be used.[7]

The Exchange is now proposing to expand the LMM Book Pilot Program to eliminate the cap on the number of symbols that may be used. The Exchange notes that the program has been in operation for approximately eighteen months and no significant problems have occurred. The program has been viable and effective, and has resulted in significant cost savings to customers in Book execution charges. The Exchange believes that it has adequate systems and operation capacity to expand the scope of the program beyond its current limits.

The Exchange believes that the proposed change will make the Exchange's LMM Program more competitive because it will allow LMM participants to reduce book execution charges in a greater number of issues than currently permitted. The Exchange notes that it is currently seeking to expand the number of LMMs who may participate in the program which is currently limited to nine.[8]

Basis

The Exchange believes the proposed rule change is consistent with Section 6(b)[9] of the Act, in general, and furthers the objectives of Section 6(b)(5),[10] in particular, in that it is designed to facilitate transactions in securities, to promote just and equitable principles of trade, and to protect investors and the public interest. The Exchange does not believe that the proposal will affect the protection of investors or the public interest because the proposal will merely expand the ability of LMMs already participating in the program to reduce the rates charged to customers. The Exchange further believes that by allowing further reductions in rates charged to customers, the proposal encourages competition rather than placing any burdens on it.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change shall become operative 30 days after the date of filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest pursuant to Section 19(b)(3)(A)[11] of the Act and subparagraph (e)(6) of Rule 19b–4 thereunder.[12] Pursuant to Rule 19b–4(e)(6) a proposed rule change may become effective 30 days after filing with the Commission if it does not significantly affect the protection of investors or the public interest; does not impose any significant burden on competition; and by its terms does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest. At any time within 60 days of the filing of such

proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance f the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the submission is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change betweeen the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the PCX. All submissions should refer to File No. SR–PCX–98–23 and should be submitted by June 18, 1998.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[13]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40007; File No. SR–PHLX–98–12]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Philadelphia Stock Exchange, Inc. to Trade Options in Narrower Increments

May 19, 1998.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on April 22, 1998, the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Exchange has designated the proposed rule change as constituting a "non-controversial" rule change under paragraph (e)(6) of Rule 19b–4 under the Act [2] which renders the proposal effective upon receipt of this filing by the Commission.[3] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Phlx, pursuant to Rule 19b–4 of the Act, proposes to permit Phlx index and equity options to be traded in narrower increments. Specifically, Rule 1034 is proposed to be amended to give the Board of Governors the authority to establish the minimum trading increments for index and equity options contracts.

The text of the proposed rule change is available at the Office of the Secretary, Phlx and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Currently, Rule 1034 provides that the minimum fractional change for options trading under $3.00 is one-sixteenth and for options trading at $3.00 or higher, one-eighth. In the case of LEAPS [4] on the Value Line Composite Index, Rule 1034 provides that the minimum fractional change is one-eighth point in option contracts trading at $5.00 per index option or higher, and one-sixteenth point in option contracts trading below $5.00 per index option. In response to recent industry events,[5] the Exchange has determined that Rule 1034 be changed to permit Phlx index and equity options to be traded in narrower increments. Specifically, Rule 1034 is proposed to be amended to give the Board of Governors the authority to establish the minimum trading increments for index and equity option contracts. Until such time as the Board of Governors determines to use its authority to establish the minimum fractional shares, current standards will apply.

The proposal is intended to achieve uniformity with the rules of other options exchanges.[6] The amendments should also improve the Exchange's ability to promptly response to market changes in trading increments. The proposal will allow the Exchange to revise its minimum fractional changes quickly in response to changes adopted in the minimum trading increments in the markets for securities underlying Phlx options or to changes in the minimum trading increments for one of the other options exchanges. When the Board of Governors determines to change the trading increments, the Exchange will designate such change as a stated policy, practice, or interpretation with respect to the administration of Rule 1034 within the meaning of subparagraph (3)(A) of subsection 19(b) of the Act and will file a rule change for immediate effectiveness upon filing with the Commission.

The Exchange notes that there has been a movement within the securities

[1] 17 15 U.S.C. 78s(b)(1).

[2] CFR 240.19b–4(e)(6).

[3] The Exchange has represented that the proposed rule change: (i) Will not significantly affect the protection of investors or the public interest; (ii) will not impose any significant burden on competition; and (iii) will not become operative for 30 days after the date of this filing, unless otherwise accelerated by the Commission. The Exchange also has provided at least five business days notice to the Commission of its intent to file this proposed rule change, as required by Rule 19b–4(e)(6) under the Act. *Id.*

[4] See Phlx Rule 1101A(b)(iii).

[5] See Securities Exchange Act Release Nos. 38571 (May 5, 1997), 62 FR 25682 (May 9, 1997) (Order approving SR–Amex–97–14, relating to trading equity securities in sixteenths); 38678 (May 27, 1997), 62 FR 30363 (June 3, 1997) (Order approving SR–NASD–97–27, relating to trading certain equity securities in sixteenths); 38897 (August 1, 1997), 62 FR 42647 (August 8, 1997) (Order approving SR–NYSE–97–21, relating to trading equity securities in sixteenths); and 38779 (June 26, 1997), 62 FR 36328 (July 7, 1997) (Order approving SR–Phylx–97–27, relating to trading equity securities in sixteenths).

[6] See Securities Exchange Act Release Nos. 39734 (March 9, 1998), 63 FR 12846 (March 16, 1998) (Order approving SR–Amex–97–41, relating to trading options in narrower increments); 39736 (March 9, 1998), 63 FR 12851 (March 16, 1998) (Order approving SR–CBOE–97–49, relating to trading options in narrower increments); and 39735 (March 9, 1998), 63 FR 12852 (March 16, 1998) (Order approving SR–PCX–97–39, relating to trading options in narrower increments).

industry to reduce the minimum trading and quotation increments for equity securities imposed by the various self-regulatory organizations.[7] As derivative securities, the price of options are determined in reference to the underlying securities. Consequently, the Exchange believes that where practicable, the Exchange should have minimum increments comparable to those applicable to the securities underlying the Phlx options.

The Exchange also believes that the proposed rule change would give the Exchange the flexibility to follow the suit of the principal exchanges for the underlying securities without having to update its rules continually, but at the same time would give the Exchange the flexibility it needs to deviate from the minimum increments established by the principal markets for the underlying securities in the event that the Phlx's systems were not immediately able to handle such increments. The Exchange, therefore, believes the quality of the market for Phlx options will be enhanced by allowing more accurate pricing of Phlx options.

Further, the Exchange is proposing to retitle Rule 1034 "Minimum Trading Increments" for consistency with other exchange's rules. The Exchange is also proposing to add express reference to index options for clarity, noting that Rule 1034 currently applies to index options pursuant to Rule 1000A(a). Lastly, the Exchange is proposing to delete Commentary .01 regarding the minimum trading increment for Value Line LEAPs. If needed, any such new product-specific trading increment could be adopted pursuant to the paragraph proposed to be renumbered as Rule 1034 (iii), which provides that different increments may be fixed by the Exchange. The proposal should extend the benefits of trading in a narrower increment to Phlx options, which should, in turn, promote more accurate pricing of options and tighter quotations.

2. Statutory Basis

The Exchange represents that the proposed rule change is consistent with Section 6 of the Act[8] in general, and in particular, with Section 6(b)(5),[9] in that it is designed to promote just and equitable principles of trade, prevent fraudulent and manipulative acts and practices, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system by permitting narrower minimum trading increments in Phlx options. The proposal is also consistent with Section 11A of the Act,[10] in that it promotes competition among the exchanges and market makers.[11]

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

This proposed rule filing has been filed by the Exchange as a "non-controversial" rule change pursuant to Section 19(b)(3)(A)(i) of the Act[12] and subparagraph (e)(6) of Rule 19b–4 thereunder.[13] Consequently, because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative until May 23, 1998, more than 30 days from April 22, 1998, the date on which it was filed, and the Exchange provided the commission with written notice of its intent to file the proposed rule change at least five days prior to the filing date, it has become effective pursuant to Section 19(b)(3)(A) of the act and Rule 19b–4(6) thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing; including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the Phlx.

All submissions should refer to File No. SR–PHLX–98–12 and should be submitted by June 18, 1998.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[14]

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–40006; File No. SR–PHLX–98–10]

Self-Regulatory Organizations; Philadelphia Stock Exchange, Inc.; Order Granting Approval to Proposed Rule Change Relating to Automatic Price Improvement for Certain PACE Orders

May 19, 1998.

I. Introduction

On February 10, 1998, the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") submitted to the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b–4 thereunder,[2] a proposed rule change to adopt rules relating to a new

automatic price improvement initiative for PACE orders.

In proposed rule change was published for comment in the **Federal Register** on March 17, 1998.[3] No comments were received on the proposal. This order approves the proposal as amended.

II. Description of the Proposal

PACE is the Exchange's automated order routing and execution system on the equity trading floor. PACE accepts orders for automatic or manual execution in accordance with the provisions of Rule 229, which governs the PACE System and defines its objectives and parameters. The PACE Rule establishes execution parameters for orders depending on type (market or limit), size and the guarantees offered by specialists.

Currently, paragraph (c)(i), Automatic Double-up/Double-down Price Improvement,[4] states that where the specialist voluntarily agrees to provide automatic double-up/double-down price improvement to all customers and all eligible orders in a security, in any instance where the bid/ask of the PACE Quote[5] is ¼ or greater, market and marketable limit orders in New York Stock Exchange or American Stock Exchange listed securities received through PACE in double-up/double-down situations for 599 shares or less shall be provided with automatic price improvement of ⅛, beginning at 9:45 a.m. A specialist may also voluntarily agree to provide automatic double-up/double-down price improvement to larger orders in a particular security to all customers under this provision.

As a further effort to champion the principle of best execution, the Exchange is proposing a more comprehensive automatic price improvement initiative. Specifically, specialists could choose to provide 1/16 automatic price improvement to eligible orders in ⅛ or greater markets, or 3/16 or greater markets. Thus, as compared to the current automatic price improvement feature for double-up/double-down situations which is limited to ¼ wide markets or greater, the universe of orders eligible for the proposed feature would be expanded. Further, the proposal involves automatic price improvement without requiring a double-up/double-down situation. This again expands the benefits of price improvement to a larger universe of eligible orders.

Second, where a buy order would be improved to the last sale price which is a down tick, or where a sell order would be improved to the last sale price which is an up tick, the order is also not eligible for automatic price improvement, and is, instead, automatically executed at the PACE Quote. The following are examples of the exception to automatic price improvement respecting improvement to the last sale:

23–23⅛
LS 1/16 –
Buy executed at ⅛
Sell improved to 1/16

23–23⅛
LS 1/16+
Buy improved to 1/16
Sell executed at 23

23–23 3/16
LS ⅛ –
Buy executed at 3/16
Sell improved to 1/16

23–23 3/16
LS ⅛+
Buy improved to ⅛
Sell improved to 1/16

23–23 3/16
LS 1/16 –
Buy improved to ⅛
Sell improved to 1/16

23–23 3/16
LS 1/16+
Buy improved to ⅛
Sell executed at 23

23–23¼
LS ⅛ + or –
Buy improved to 3/16
Sell improved to 1/16

These exceptions are intended to cover situations where automatic price improvement may not be appropriate in light of overall market conditions. In this regard, the Exchange does not believe it is customary or appropriate to provide price improvement over the last sale price, or, in every case, to the last sale price. Despite these exceptions to automatic price improvement under this proposal, the Exchange believes that automatic price improvement would be afforded in a meaningful way, considering the wider breadth of eligible orders.

Under the proposal, automatic price improvement would not occur in two situations. First, automatic price improvement would not occur to a price better than the last sale. More specifically, where a buy order would be improved to a price less than the last sale or a sell order would be improved to a price higher than the last sale, the order is not eligible for automatic price improvement, and is, instead, automatically executed at the PACE Quote. The following are examples[6] of this exception (not improving over the last sale):

23–23⅛
LS 23 + or –
Buy improved to 1/16
Sell executed at 23

23–23⅛
LS ⅛ + or –
Buy improved to ⅛
Sell improved to 1/16

23–23 3/16
LS 23 + or –
Buy improved to ⅛
Sell executed at 23

23–23 3/16
LS 3/16 + or –
Buy improved to 3/16
Sell executed at 1/16

This is similar to the current exception from automatic double-up/double-down price improvement;[7] however, currently where an improved price would be better than the last sale, the order would be stopped at the PACE Quote when received. Under this proposal, the order would be automatically executed at the PACE Quote when received.

This proposal would result in automatic price improvement of 1/16, as opposed to the current automatic double-up/double-down price improvement, which provides for ⅛ price improvement. Although the amount of automatic price improvement will be less under the proposal for a particular order, the number of orders receiving price improvement of 1/16 should increase, as explained above. Price improvement of 1/16 recognizes that 1/16 is the current minimum trading increment for PACE issues on the Exchange's equity trading floor.[8] Thus, it reflects the reality of today's

[3] Securities Exchange Act Release No. 39740 (March 10, 1998), 63 FR 13083 (March 17, 1998).

[4] For a more complete description of how the Exchange's Automatic Double-Up/Double-Down price improvement feature operates *see* Securities Exchange Act Release No. 39548 (January 13, 1998), 63 FR 3596 (January 23, 1998) ("Double-Up/Double-Down Order").

[5] The PACE Quote consists of the best bid/offer among the American, Boston, Cincinnati, Chicago, New York, Pacific and Philadelphia Stock Exchanges as well as the Intermarket Trading System/Computer Assisted Execution System ("ITS/CAES"). *See* Phlx Rule 229.

[6] These examples consist of the PACE Quote, the last sale price with an up or down tick indicator, and the price at which a buy and sell order, respectively, would be executed.

[7] *See* Securities Exchange Act Release No. 39640 (February 10, 1998), 63 FR 8510 (February 19, 1998), which creates an exception where such price improvement would be better than the last sale price (for instance, a buy order would be improved to a price less than the last sale or a seller order would be improved to a price higher than the last sale); pursuant to this exception, such orders are stopped by the specialist at the PACE Quyote when received, meaning that the order is guaranteed to receive at least that price by the end of the trading day.

[8] *See* Phlx Rule 125.

marketplace, including other price improvement initiatives in the industry.

Because the proposal would provide automatic price improvement, no POES window would occur, similar to the current automatic double-up/double-down price improvement provision.[9] Instead, an automatic execution occurs at an improved price, with no window, timer or delay. Orders not eligible for automatic price improvement due to the two exceptions relating to the last sale price are automatically executed at the PACE Quote and not subject to the POES delay.

Automatic price improvement will not occur where the execution price before or after the application of automatic price improvement would be outside the primary market high/low range for the day, if so elected by the entering member organization. This limitation currently appears in Rule 229.07(c)(i)(C), and has applied to both automatic double-up/double-down price improvement and manual double-up/double-down price protection. Similarly, pursuant to paragraph (c)(iii), the provision that member organizations entering orders may elect to participate in manual double-up/double-down price protection continues to apply. However, member organizations will not have the ability to elect the proposed automatic price improvement feature.

Currently, both the automatic double-up/double-down price improvement and manual price protection features are jointly subject to the entering firm's election.[10] As a result, electing these features where the specialist has not chosen automatic double-up/double-down price improvement in that security may currently cause a firm's orders to be stopped. Thus, firms who do not want their orders stopped because they prefer a prompt execution can currently elect out of both features.

Once automatic price improvement is no longer limited to double-up/double-down situations, the election for automatic price improvement will end, because the reason for allowing a firm's choice will no longer exist. Under this proposal, firms electing out of manual price protection could nevertheless receive automatic price improvement. For instance, where a specialist switches from manual to automatic price improvement for a security, the automatic feature would be activated even for firms that elected out of the manual feature.

The Exchange notes that the *manual* double-up/double-down price protection provision, which is mandatory for specialists, will continue to be subject to an election by entering member organizations,[11] who may continue to prefer a prompt execution over the opportunity for price improvement. Failure to elect will result in the activation of the double-up/double-down feature for that User. Specialists continue to determine whether to provide automatic price improvement in a particular security.

The extraordinary circumstances provision currently in the Rule would also apply to the new feature, such that automatic price improvement may be disengaged in a security or floor-wide in extraordinary circumstances with the approval of two Floor Officials. In addition to fast market conditions, for purposes of this paragraphs, extraordinary circumstances also include systems malfunctions and other circumstances that limit the exchange's ability to receive, disseminate or update market quotations in a timely and accurate manner.

The Exchange has determined that, as with many PACE features and participation in the PACE System itself, automatic price improvement should be made available on a voluntary, symbol-by-symbol basis, so that specialists can determine which securities are suitable for the program.[12] The availability of a price improvement feature benefits the specialist function, especially in high-volume securities, where stopping orders and manual intervention are time-consuming, delay execution and do not necessarily result in price improvement.

III. Discussion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b).[13] In particular, the Commission believes that the proposal is consistent with the Section 6(b)(5)[14] requirements that the rules of an Exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.[15]

The Commission continues to recognize that the increased competition for order flow that results from permitting regional specialists to attract orders from other markets by providing price improvement opportunities and superior quotations enhances market making ability and the quality of customer order execution. The Commission has approved proposals by national securities exchanges to integrate price improvement opportunities, on both an automatic and manual basis, into their automatic execution systems. Approval of the Exchange's automatic price improvement initiative will allow small orders to receive an execution at a price that may be better than the PACE Quote according to certain predefined criteria. Accordingly, the Commission believes that the Exchange's present proposal may enhance both intermarket competition and order execution quality on the Exchange.

Under the proposal, specialists voluntarily may agree to provide automatic price improvement of 1/16 of a point from the PACE Quote to all customers and all market and marketable limit order of up to 599 shares (or higher, if elected by the specialist) in a particular security[16] on a stock-by-stock basis, in any instance where the bid/ask spread of the PACE Quote is either 1/8 or greater than 3/16 or greater. As explained above, this automatic price improvement feature is subject to two restrictions. First, no order may be improved to a price better than the last sale price; in this situation, the orders would be automatically executed at the PACE Quote. Second, where a buy order would be improved to the last sale price which is a down tick, or where a sell order would be improved to the last sale price which is an up tick, the order is also not eligible for automatic price improvement, and is, instead, automatically executed at the PACE Quote.

The Commission believes that the adoption of this proposed automatic price improvement feature by the

---

[9] *See* Double-Up/Double-Down Order, *supra* note 4, at note 10; and Securities Exchange Act Release No. 39640 (February 10, 1998), 63 FR 8510 (February 9, 1998).

[10] This election must be made for all Phlx stocks, not security-by-security. *See* Double-Up/Double-Down Order, *supra* note 4, at note 22.

[11] A firm's election continues to apply to all Phlx stocks, not security-by-security.

[12] Some securities are not appropriate for automatic price improvement due to, for instance, liquidity, trading patterns and volatility situations rendering it unfair for specialists to afford price improvement automatically and then manage the resulting positions. *See* Double-Up/Double-Down Order, *supra* note 4, at note 11.

[13] 15 U.S.C. 78f(b).

[14] 15 U.S.C. 78f(b)(5).

[15] In approving the proposed rule change, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78f(b).

[16] Securities listed on the New York Stock Exchange or the American Stock Exchange are eligible for this feature. *See* Phlx Rule 229.07.

Exchange is appropriate in that its use by Phlx specialists should increase the likelihood that eligible customer orders, particularly marketable limit orders, will be executed at an improved price over the PACE Quote. With respect to the two conditions above that would cause an order to be automatically executed at the PACE Quote, the Commission believes that it is reasonable for the Exchange to automatically execute such orders at the PACE Quote rather than subjecting them to the POES window or stopping them at the PACE Quote. Overall, the Commission's Division of Market Regulation previously has noted that price improvement windows, such as POES, by themselves rarely provide an execution that betters the quoted market.[17] The Exchange's proposal should enhance the price improvement opportunities available for PACE orders since a greater number of orders will be eligible for automatic price improvement than afforded under the current Double-Up/Double-Down automatic price improvement feature.

In addition, the Commission believes that the Exchange's automatic price improvement initiative is consistent with the maintenance of fair and orderly auction markets on national securities exchanges. As the examples provided by the Exchange illustrate, the execution criteria of the automatic price improvement initiative should contribute to the maintenance of an orderly market by Phlx specialists because it helps to reduce price variations occurring from trade to trade on low volume. Finally, because automatic price improvement may be disengaged under extraordinary circumstances for an individual stock or floor-wide with the approval of two floor officials, the Exchange is able to increase overall systems capacity for systematized orders routed through PACE, as well as reduce the market risk exposure to specialists who participate in the automatic price improvement initiative. The Commission believes that both of these aspects of the automatic price improvement initiative are consistent with the maintenance of fair and orderly auction markets on national securities exchanges and the protection of investors.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[18] that the proposed rule change (SR–PHLX–98–10) is approved as amended.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[19]

Margaret H. McFarland,

Deputy Secretary.

Coast Guard

[USCG–1998–3873]

Prevention Through People

AGENCY: Coast Guard, DOT.

ACTION: Notice.

SUMMARY: Prevention Through People (PTP) is a Coast Guard initiated program to address marine safety and environmental protection through a focus on the human element. Since the program's inception in 1994, there has been a steady growth of support in the marine community. Current marine industry practices reflect the increased commitment to PTP. This notice informs the public of some of the major PTP efforts taking place within the Coast Guard and includes the response to comments from the four PTP public meetings held during the spring of 1997.

ADDRESSES: The Docket Management Facility maintains the public docket for this notice. Documents, as indicated in this notice, will become part of this docket and will be available for inspection or copying at room PL–401, located on the Plaza Level of the Nassif Building, 400 Seventh Street SW., Washington DC 20590–0001, between 10 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You many electronically access the public docket for this rulemaking on the Internet at *http://dms.dot.gov*.

The Marine Board of the National Academy of Science study, *Advancing the Principles of the Prevention Through People Program*, was published in August 1997 and is available at the National Academy Press Bookstore 2001 Wisconsin Ave. NW., Washington, DC 20418–0005; phone 800–624–6242, or 202–334–3313.

FOR FURTHER INFORMATION CONTACT: For information on the public docket, contact Carol Kelly, Coast Guard Dockets Team Leader, or Paulette Twine, Chief, Documentary Services Division, U.S. Department of Transportation, telephone 202–366–9328. For questions on this notice, contact LT Duane Boniface, Human Element and Ship Design Division (G–MSE–1), 202–267–2997.

SUPPLEMENTARY INFORMATION:

Background of PTP

The PTP initiative began in 1994 with the chartering of a Quality Action Team (QAT) to develop a long-term strategy to address the role of human and organizational factors in marine safety and environmental protection. The QAT conducted an extensive literature review and analysis of marine casualty data, conducted mariner surveys, and examined operations from a maritime systems perspective that included an assessment of vessels, facilities, and waterways.

On July 15, 1995, the QAT generated a report, "Prevention Through People Quality Action Team Report." This report provided the first step towards re-balancing prevention efforts between technical, human, and organizational issues related to marine safety. Subsequent focus on human and organizational factors in safety and environmental protection led to these issues becoming top priorities for many organizations, both within the government and industry.

After the report was published, the Coast Guard and industry pursued a host of initiatives. These initiatives include partnerships with industry, studies of fatigue and communications, and introductions of risk assessment and risk management approaches. The PTP Strategic Plan (available in the docket; or contact the person under **FOR FURTHER INFORMATION CONTACT**) exposed a wider audience to the PTP philosophy, while the PTP Implementation Plan set high goals with various PTP objectives and activities for the Coast Guard to accomplish.

Additionally, the Coast Guard held four public meetings that allowed it to hear valuable industry comments concerning safety in the marine community.

PTP Focus Plan

There are many projects and initiatives under the umbrella of PTP. A list of the current projects and initiatives under the umbrella of PTP can be found on the PTP web site at the following website: *http://www.uscg.mil/hq/g-sm/nmc/ptp/index.htm*. From the list of these projects and initiatives, the Coast Guard is focusing on five major initiatives during 1998 referred to as the PTP Focus Plan. These initiatives were chosen based on public comments, marine industry input, and the results of the Marine Board of the National

UMI

1998
UMI

Academy of Science study entitled *Advancing the Principles of the Prevention Through People Program*. This study is available where indicated under **ADDRESSES**.

The general consensus of the comments received was that the Coast Guard should concentrate on completing several of the most significant human-element-related initiatives already in progress under PTP. The five projects identified in the 1998 PTP Focus Plan provide the Coast Guard with the best opportunities to maximize progress in the near term under the PTP approach. The Coast Guard has five PTP goals outlined in the strategic plan. Each initiative the Coast Guard addresses corresponds to one of these goals.

• *Development of National Maritime Safety Incident Reporting System.* Both Coast Guard and industry proposed the concept of a national maritime safety incident reporting system. The system would be designed to capture information on unsafe occurrences that involve near-accidents, near-collision situations, near-pollution events, and related precursor events. The system would be maintained by industry and supported by the Coast Guard. The Coast Guard held a public meeting on May 4, 1998 (announced in the **Federal Register**, 63 FR 17468; April 9, 1998) to investigate the possibility of industry implementing such a system. The results of that public meeting will be announced separately.

Information on these near-accidents and unsafe occurrences is an untapped source of data that would serve as leading indicators on the level of safety within the maritime community and would provide a greater level of data for analysis and safety improvement. A concerted effort will be made through industry's leadership to get a prototype system in place by the end of 1998, with the intent to formally establish a national system in the year 2000. This near-miss incident reporting system falls under the PTP goal of *Know More*. This goal is meant to significantly expand our knowledge and understanding of the human element and its role in maritime operations and accidents. The status and the latest details on the national maritime safety incident reporting system project can be found at the following website: *http://www.uscg.mil/hq/g-m/moa/maola.htm*.

• *Implementation of the International Conventions on the Standards of Training, Certification and Watchkeeping for Seafarers, 1978, (STCW), and its amendments.* A focus of the Coast Guard is the implementation of STCW. Significant changes to STCW in 1995, which became effective in 1997, require a substantial effort by the marine community. The Coast Guard published an interim final rule (62 FR 34505; June 26, 1997) to reflect the amendments to STCW. While much has been done, there are still many issues involved with implementing this convention. Some of these issues include finalization of regulations, development of enforcement policies, training, and outreach. The effort to implement STCW falls under the PTP goal *Train More*. This goal strives to give members of the marine community the necessary skills and knowledge to improve safety and prevent pollution. Training is always a point of interest since regulations, equipment, operating environment, and personnel are constantly changing. Projects under this goal will address human element issues related to the individual mariner.

• *Implementation of the International Safety Management (ISM) Code.* Implementation of the ISM Code is an important aspect of the PTP program. Deadlines for compliance with the ISM Code begin in 1998. The Coast Guard has published a final rule (62 FR 67492; Dec. 24, 1997) concerning this matter. The ISM Code helps establish a standard for national safety management and harmonizes U.S. regulations with the international standards. Beginning in 1998, these standards would apply to the following vessels in international trade:

• Vessels transporting more than 12 passengers;
• Tankers;
• Bulk freight vessels; and
• High speed freight vessels of at least 500 gross tons. Beginning in the year 2002, these standards would also apply to the following vessels in international trade:
• Self-propelled mobil offshore drilling units of at least 500 gross tons; and
• Freight vessels.

Implementation of the ISM Code falls under the goal of *Do More*. This goal strives to improve professional performance through practical application and open communication of human element knowledge within the marine community. Implementation of a quality management system, as envisioned by the ISM Code, is a critical step in establishing corporate cultures that encourage safe practices. Detailed information about the ISM Code can be found at the following website: *http://www.uscg.mil/hq/g-m/psc/ismmain.htm*.

• *Development of the Streamlined Inspection Program (SIP).* The Coast Guard is focusing on implementation of the Streamlined Inspection Program (SIP). The SIP provides an opportunity for the vessel owners and operators to have their own personnel periodically perform many of the tests and examinations currently conducted by the Coast Guard marine inspectors. As a result, participating vessel owners and operators will promote a more continuous level of safety. Information on SIP has been published in the **Federal Register** (62 FR 17008; April 8, 1997). Development of SIP falls under the goal of *Offer More*. This goal provides incentives for making improvements to safety management systems.

• *Development and Implementation of a PTP Communications Plan.* Working together with industry and the public, the Coast Guard plans to address the human element in transportation safety and pollution prevention. Public meetings and other feedback indicate that government-to-public communication is not as effective as it could or should be. The Coast Guard will focus on the development and implementation of a PTP Communications Plan. By focusing on this plan, the Coast Guard will create a partnership with industry and the public under the PTP goal of *Cooperate More*. This plan will address all forms of communication, from describing the results of research, to discussing lessons learned and best practices, and other PTP-related information. The PTP Communications Plan will include everyone from the boardroom to the deckplate. This will allow for increased communications and more effective interaction between the marine stakeholders and the Coast Guard.

PTP's Integration Into the Coast Guard "M" Business Plan

In addition to the current PTP focus items and the many other ongoing projects, PTP continues to be integrated into the Coast Guard's operating procedures; most noteworthy is the Coast Guard Marine Safety and Environmental Protection (G–M) Business Plan (Business Plan). The goals of the Business Plan comprise a significant portion of the Commandant's Annual Performance Agreement with the Secretary of Transportation. The Business Plan contains performance guidance and strategic direction for all Coast Guard commands charged with achieving the Coast Guard*s mission for marine safety and environmental protection. A key strategy for achieving the goals of the Business Plan is PTP.

The Coast Guard recognizes the importance of human and

organizational factors in marine safety and PTP has evolved from that philosophy. The Coast Guard will meet the goals of the Business Plan by using PTP as a tool to refocus prevention efforts.

PTP Public Meetings

The Coast Guard recognizes that the success of PTP depends on the marine industry. Its feedback is essential for continuous improvement to the program. To that end, the Coast Guard held four public meetings on PTP in the spring of 1997. These public meetings were held in:

- New Orleans, LA on February 25, 1997;
- Oakland, CA on February 28, 1997;
- St.Louis, MO on March 26, 1997; and
- Newport, RI on April 18, 1997.

(Notice of meetings with request for comments published in 62 FR 4567; January 30, 1997).

These meetings allowed the Coast Guard to explain PTP, discuss its anticipated role within the marine industry, and provide an opportunity for public feedback.

From these meetings, it is evident that safety is a top issue in the marine industry, and PTP has provided an effective forum for focusing on human and organizational aspects of marine safety. The feedback from the meetings has been instrumental in providing valuable insight about PTP and was used to help develop the 1998 PTP Focus Plan.

Discussion of Comments

The comments from the meetings have been grouped by subject and are discussed in the following paragraphs.

Partnerships

Partnership was the most frequently addressed issue. A number of comments specifically supported partnerships between the Coast Guard and industry, notably the formal PTP Quality Partnerships, and the Safety Advisory Committees/Councils (SAC). The SAC's are legislatively authorized groups that provide advice and ideas to the Coast Guard on regulatory and non-regulatory issues in specific areas, such as towing or chemical transportation. Each SAC has formed a PTP subcommittee to specifically address human element issues. To find out more information about the SAC's and their activities, look at the following website: *http://www.uscg.mil/hq/g-m/advisory/index.htm*.

Several speakers felt that partnerships were the most important part of PTP. According to one speaker, PTP articulates many of the concepts the marine industry already follows and allows industry to maintain them in a centralized place. In that sense, PTP is the umbrella for the various safety initiatives going on in the marine industry. PTP is not a new philosophy, but rather, it is an extension of an existing safety philosophy with a human element focus. The PTP umbrella simply allows people to share information more conveniently and provides the emphasis for those not already active in this area.

Partnerships can involve many modes of sharing. The Coast Guard and industry partnerships were acknowledged as important; however, speakers wanted to make sure the ship-to-shore partnerships within companies are valued also. One speaker, who supported partnership and its concept, cautioned that a true partnership needs work and attention.

The Coast Guard will continue efforts in this area. Before the public meetings, the Coast Guard had formal PTP Quality Partnerships established with (1) the American Waterways Operators; (2) the American Petroleum Institute; (3) the United States Chamber of Shipping; and (4) the Passenger Vessel Association. Since the public meetings, PTP Quality Partnerships have been established with the International Council of Cruise Lines (ICCL) and the Spill Control Association of America (SCAA). The Coast Guard continues to explore opportunities for partnerships with other sectors of the maritime community.

Recreational Boating

A comment questioned whether PTP should encompass the recreational boating community. Prevention Through People is an approach to safety for everyone; no group has been excluded. Since passage of the Federal Boating Safety Act of 1971, (Pub.L. 92–75, 85 Stat. 213) the Coast Guard has worked with the States and boating safety organizations to cooperatively promote safe operation of boats through its coordination of the National Boating Safety Program. In April 1996, members of the National Boating Safety Advisory Committee (NBSAC) and the Navigation Safety Advisory Committee (NAVSAC) met and discussed interactions between the boating public and commercial shipping. The committees identified education as the number one waterway safety issue. Subsequently, a NBSAC PTP Subcommittee looked at ways of increasing the safety of boaters by applying PTP principles.

The Coast Guard is accepting feedback on the need for, and alternatives to, Federal requirements or incentives for recreational boaters to take courses in boating safety (notice to reopen the comment period published in 63 FR 13585; March 20, 1998) and for boaters to wear personal flotation devices (notice to reopen the comment period published in 63 FR 13586; March 20, 1998).

Substandard Operators

Some comments discussed how to capture the small percentage of operators who are on the edge of, or below, safe operating practices. The Coast Guard intends to assist operators in improving their safety operations. Unsafe maritime practices are a cause for concern for both Coast Guard and industry. We must commit ourselves, our organizations, and our operations to producing a safer, more productive environment.

Communication

Communication was discussed at all four public meetings. The many speakers commenting on this issue addressed the Coast Guard's efforts to disseminate pertinent information to industry and individuals, the maritime industry's communication to the Coast Guard, and the companies' internal communications. Most speakers emphasized the need to foster better communication methods. They also stressed gaps in the various chains of marine industry communications, to include Coast Guard-to-industry, ship-to-shore, and captain-to-crew, among others. As an example of a common case of miscommunication, a speaker mentioned that too often specific messages do not get to the right people. The speaker noted that one of the reasons this occurs is because management neglects to pass information down the chain of command to the people who need it.

Some comments stated that "letters of concern" are a helpful method that the Coast Guard uses to communicate with industry. The Coast Guard may write a letter of concern to a company on a safety issue or concern, instead of a more punitive form of action (e.g., a citation or criminal charges). Then, the Coast Guard works with the company in a non-regulatory manner to solve the problem. Some speakers also mentioned that the company could encourage safety communication by providing anonymous forms to report issues of concern.

Many speakers recommended using different media, including the Internet, to convey information. In response to the many speakers who echoed this recommendation at the meetings, the

UMI
VOL
63
ISS
102
MAY
28
1998
UMI

Coast Guard has published a PTP World Wide Web site. As previously discussed in this notice, under the PTP Focus Plan, the Coast Guard is developing the Communications Plan to provide direction to, and support for, personnel involved in the PTP program.

Speakers also discussed the role of Coast Guard Headquarters in Washington, DC, with respect to setting effective nationwide policy. Many safety issues, such as risk management, can be addressed at a local level. The broad policy and regulatory issues, though, are most effectively addressed at the headquarters-level.

Regulatory Process

Several speakers commented on the Coast Guard's regulatory process. The comments discussed:

- Problems with the way regulations are written and created;
- Solutions to some of the difficulties;
- The Coast Guard's solutions that are regulation oriented, even when the goal is to minimize new regulations; and
- A review of the required paperwork.

Regulations are a necessary aspect of safety within the marine industry under the Coast Guard's legislative mandate from Congress. However, seeking non-regulatory approaches to safety for people and the environment is one of the PTP Principles, which can be found in the Strategic Plan. Regulations establish minimum levels of safety as a part of an overall safety system. However, the Coast Guard continues to pursue regulatory reform including periodic reviews of paperwork and regulatory burdens as described in its semi-annual agenda of regulatory actions published in the **Federal Register** each fall and spring.

Several speakers commented that some mariners find it difficult to read and understand the technical and complex writing style of regulations. The Coast Guard has begun to implement Plain Language writing to make it easier to understand and comply with regulations. Plain Language writing includes simplifying acronyms, increasing use of conversational tone, and using questions and answer formats.

One speaker recommended that the Coast Guard hold more public outreach meetings (e.g., marine industry day) at the local Marine Safety Offices rather than at the Coast Guard Districts. The speaker noted that holding outreach meetings at the local level would provide greater access for small businesses and would enable the Coast Guard to better address issues specific to a community. The Coast Guard agrees. In several areas the Coast Guard participates in meetings convened by mariners on the local level. For example, current efforts where the Coast Guard joins with local community groups to solve local problems include:

- Privately convened Mariners' Advisory Committee of the Bay and River Delaware in Philadelphia, PA;
- The Puget Sound Marine Committee in Seattle, WA; and
- The Cuyahoga River Task Force in Cleveland, OH.

One speaker discussed the issue of using public meetings as part of the regulatory process. The speaker suggested using the format of the PTP public meetings, stating that its "give and take" format is a better model than the regulatory public meeting format. The Coast Guard continuously strives for open communications balanced with the requirements for the Administrative Procedure Act (5 U.S.C. 551 *et seq.*) so that all members of the affected public, not just those present at a particular meeting, have equal and appropriate input to a fair and unbiased regulatory outcome.

Lessons Learned and Near Accidents

Some speakers commented on lessons learned and near accidents. A number of speakers gave information highlighting their experiences of best practices, while other speakers gave definitions of near accident and some of the obstacles encountered in the creation of a near accident reporting system. Several industry concerns need to be resolved to the satisfaction of all interested parties, before creating the new system. Some industry concerns include loss of insurance, safety awards, and exposure to legal liability. To create a functional reporting system, these factors must be addressed and answered to the satisfaction of all involved. As mentioned earlier in this notice, this issue is an item in the PTP Focus Plan.

Several speakers offered stories of various lessons learned and near accident efforts that their companies currently apply in the quest for safety improvements. Some projects that were mentioned include the following:

- Developing contingency plans.
- Providing means within companies to anonymously report issues of concern.
- Organizing safety meetings and lessons learned procedures followed up with shared analysis.
- Having key learning meetings for captains where each reports on a shared pertinent issue.

Another speaker suggested bringing representatives of vendors of mechanical systems to the workers who use them, thereby joining the people who make the equipment and the people who use the equipment.

Management

A number of speakers discussed aspects of management that affect marine safety. They highlighted best practices as performed by their firms, the problems they have with their companies, management losing their safety focus, and the management aspects of PTP.

Many speakers stated that they feel safety is often compromised by home office policies. For example, some masters are not allowed the independence to make decisions based on current conditions, but must operate within established parameters. Though this is an issue that must be addressed within individual companies, the Coast Guard recognizes the serious potential for accidents that such a practice causes. A speaker suggested allowing a management style that gives employees more power in decision making. The Coast Guard applauds this approach, which is consistent with the PTP Principle *Honor the Mariner.*

It remains the responsibility of the individual companies and management to use their influence appropriately and to make sure there is compliance from the boardroom to the deck plate level. This responsibility takes on the increased importance as the deadlines for compliance with the ISM Code approach. Implementation of the ISM Code will have a significant effect on marine safety from the organizational standpoint, and is being addressed as part of the PTP Focus Plan.

Two speakers commented that the human element provides the greatest impact on improving marine safety and that upper management must show consistent, not sporadic, support.

Several speakers expressed concern that PTP might encourage micromanagement when it should, instead, foster creativity. A speaker requested having the Coast Guard focus on its roles of encouragement, leadership, and examples, as opposed to regulations and management. As noted, PTP seeks non-regulatory approaches to safety for people and the environment.

Training

A number of speakers discussed training. The majority of comments shared best practices related to training of mariners on a day-to-day basis and of the crew as a whole. A few speakers identified some problems with Coast Guard procedures that affect training mariners.

The comments indicated that many companies are working to provide better, more accurate training with a focus on safety. The Coast Guard and the Los Angeles/Long Beach (LA/LB) Vessel Traffic Information System (VTIS) are currently working on a standard for training to be used primarily as a tool for mariners. Improved industry training methods also include training teams from the same vessel, so the mariners can practice with the people they work with. Another suggestion described a pocket-sized emergency response-training document for deckhands.

Some of the basic principles noted in the public meetings and in the Coast Guard's experience are worthy of note:

- Training needs to be a priority from the initial hiring process onwards.
- Training should encompass everything from lessons on managing stress to CPR and fire fighting.
- Supervisors should go through some of the training with the crew to see what they are learning.

Effective implementation of the STCW Convention is necessary. Noted previously as a 1998 Focus Plan item, the Coast Guard will continue to address the human element issues of the STCW that relate to the individual mariner.

A number of comments discussed course approvals. It was noted that it now appears more difficult to get mariners to meet the basic requirements. A course approval process Fast Action Team met in November 1997 to find ways to reduce the backlog of course applications waiting for approval and shorten the time needed to evaluate course approval applications. As a result of the team's recommendations, the following actions have been taken:

- The National Maritime Center (NMC) increased the course approval staff by two people and also filled a long vacant position.
- The NMC determined the processing time could be shortened if courses were sent directly to the NMC rather than to the REC's. NMC Policy Letter 7–98 announced this change, and the implementing regulatory change will be proposed in the Maritime Course Approval Procedure Notice of Proposed Rulemaking, CGD 97–074.
- The course approval database that lists all Coast Guard approved courses has been updated, as of January 15, 1998. The list of approved courses is published on the Internet and is updated monthly.
- The NMC has begun developing and updating course guidelines to standardize approved courses.

Standardizing approved courses would reduce the time needed to review course approval requests; provide consistency in courses being taught; and ensure courses, instead of exams, will more accurately reflect the job tasks and responsibilities of the license being sought.

As a result of these actions, the backlog has decreased from 95 courses waiting for approval in November of 1997 to less than 40 courses waiting for approval in March of 1998. The oldest course awaiting review has been reduced from December 1996 to February 1998.

Honor the Mariner

Several speakers applauded and supported the PTP philosophy *Honor the Mariner*. They noted that the most appreciated contribution of PTP has been the recognition of the mariner as a pivotal member of the safety equation. Recognition of mariners helps foster a shared working relationship with mariners and masters. The Coast Guard recognizes that mariners have working knowledge of projects and equipment and that their opinions are important.

One speaker recommended that the Coast Guard honor the mariner constantly, not just before the accident, but also during and after an incident. The Coast Guard continues to seek out and use the expertise of mariners in guiding safety and environmental protection efforts, and appreciates the time, effort, and insights of all who have provided assistance.

Fatigue

A few speakers addressed fatigue research, while others spoke of their fatigue experiences. Several speakers mentioned that their companies are devoting research to studying fatigue and attempting to curb it. One company developed alertness testing devices with the view that fatigue, stress, and illness are impairment factors just as hindering as drugs and alcohol. The Coast Guard Research and Development Center is also performing studies specifically to address fatigue.

The PTP goal, *Do More*, was also mentioned during a fatigue discussion. The speaker addressed the concern that people may construe the statement by literally doing more work, but with the same people and equipment. *Do More* is directed towards striving for increased quality and prioritization of work-do better-as opposed to an increased quantity of work. One speaker acknowledged that fatigue is often a contributing factor to many accidents. The speaker, however, expressed concern that fatigue is often an easy fallback explanation for accidents, when it may not be the causal factor in a particular accident.

Research

A representative from the Coast Guard Research and Development Center described the Fatigue Research Program and solicited participation from the towing industry for an alertness study. In addition, several speakers stated that their companies are devoting more research time to human safety and environmental issues. The Coast Guard applauds these efforts and encourages the sharing of this information for the benefit of the entire marine community. The Coast Guard Research and Development Center has developed a web site *http://www.rdc.uscg.mil/* to disseminate information about its projects. There is also a section on studies and reports related to human element issues on the PTP web site: *http://www.uscg.mil/hq/g-m/nmc/ptp/rands.htm*.

Streamlined Inspection Program (SIP)

Several comments discussed SIP. In general, they were supportive of the program. Speakers agreed with SIP, citing it as an example of true partnership. They pointed out many advantages to the program, noting its encouragement for companies to translate the Code of Federal Regulations for their employees. A speaker commented that the strength of SIP lies in changing the inspection from an annual snapshot by the Coast Guard to a Coast Guard audit of the organization's continuous inspection system. As a 1998 Focus Plan item, the Coast Guard will help companies increase ownership of their inspections and maintenance by implementing the SIP.

Some comments addressed the issue of SIP by creating two classes of operators or companies. They discussed the problem of the Coast Guard not issuing CG–835 forms, which require immediate repairs, to vessels that are part of the SIP. Some speakers felt that industry does not want to see two classes of operators or companies.

Manning

A few speakers addressed the problems of working with too few crew members. One speaker supported regulations on manning of barges because it is difficult to place someone aboard an unmanned barge in adverse weather conditions. The Coast Guard has proposed regulations seeking to enhance existing standards for anchoring or retrieving drifting tank barges (62 FR 52057, October 6, 1997;

and 63 FR 9980, February 27, 1998). These proposed rules present appropriate measures for reducing the likelihood of loss of control and grounding of a tank barge based on whether or not the barge is manned. As a result of reducing the likelihood of groundings, fire prevention measures and emergency control measures are also both part of the system to address tank barge safety.

Another speaker commented on the often insufficient manning on foreign flag vessels, which makes it harder to have safe operations. With certain exceptions, the vessel's Flag State establishes the manning level for each vessel. The Coast Guard is concerned about the safety of foreign vessels operating in U.S. waters and is working with the International Maritime Organization (IMO) to develop more up-to-date guidance on the principles of safe manning. The aim of this guidance is to have crew complements based on the actual crew workload, taking into account work hour limits and rest requirements. During Port State Control (PSC) boardings of foreign vessels, the Safe Manning Document is checked against the actual manning of the vessel. In addition, licenses, certificates, and rest requirements are checked to ensure compliance with the STCW. The Coast Guard will work with representatives of the Flag State to resolve any of the problems. The Coast Guard may detain the vessel in port pending the resolution of the problems to ensure the correction of unsafe conditions, which may include requiring additional crewmembers if insufficient personnel are onboard to safely operate the vessel.

Pilotage

One speaker discussed the need for First Class Pilot's licenses on the inland waterway system. The speaker indicated that the current certification of inland pilots on parts of the inland waterway, which does not specify a geographic area of expertise, is insufficient. The speaker stated that the Coast Guard Regional Examination Centers need to ensure capable people can get their license.

In 1994, the Coast Guard revised the pilot regulations in 46 CFR 15.812 to eliminate the requirement for a First Class Pilot's license on non-designated areas of pilotage waters. Due to this change in regulations, it is now the companies' responsibility to ensure that the pilot they hire has the necessary expertise.

Maintenance

One speaker commented on maintenance. The speaker highlighted problems with main propulsion failures due to the lack of proper maintenance of ships and equipment. Poor maintenance of ships and equipment has been noted in many casualties, including the December 1996 BRIGHT FIELD accident in New Orleans, LA, where poor maintenance was cited as a cause of the accident in the investigation report, which was published on October 31, 1997.

The speaker noted that the issue of maintenance should receive more attention than it has in the past. The Coast Guard is actively pursing these efforts through its PSC and SIP programs, which target foreign vessels and domestic that are not operated or maintained properly. Additionally, the ISM Code becomes mandatory for many vessels on July 1, 1998, and requires both the company and the vessel to have a safety management system in place. A properly implemented safety management system will help prevent occurrences such as the BRIGHT FIELD'S loss of propulsion.

Conclusion

The Coast Guard is committed to PTP as a long-term effort to address the root cause of many of these accidents—the human element. Through the continuing efforts of the Coast Guard and marine community, we can all reduce and perhaps, eventually, eliminate these types of accidents. The Coast Guard has an unwavering commitment to safety, and through PTP is undertaking many bold initiatives. The marine community is invited to join in this effort to improve marine safety and environmental protection. Visit one of the web sites listed in this notice to learn more.

Dated: May 18, 1998.

R.C. North,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Marine Safety and Environmental Protection.

BILLING CODE 4910–15–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Aviation Rulemaking Advisory Committee; Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of the Federal Aviation Administration Aviation Rulemaking Advisory Committee to discuss air traffic issues.

DATES: The meeting will be held on June 16, 1998, 10:00 a.m.

ADDRESSES: The meeting will be held at the Air Traffic Control Association Headquarters, 2300 Clarendon Blvd., Suite 711, Arlington, VA.

FOR FURTHER INFORMATION CONTACT: Ms. Beth Allen, Transportation Regulations Analyst, Airmen and Airspace Rules Division, Office of Rulemaking (ARM–105), 800 Independence Avenue, SW, Washington, DC 20591. Telephone: (202) 267–8199, FAX: (202) 267–5075.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–43; 5 U.S.C. App. II), notice is hereby given of a meeting of the Aviation Rulemaking Advisory Committee. This meeting will be held on June 16, 1998, at 10:00 a.m., at the Air Traffic Control Association Headquarters, 2300 Clarendon Blvd., Suite 711, Arlington, VA.

The agenda for this meeting will include a review of the Special Visual Flight Rules (SVFR) Working Group's activities.

Attendance is open to the interested public but may be limited to the space available. The public must make arrangements in advance to present oral statements at the meeting or may present written statements to the committee at any time. In addition, sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested 10 calendar days before the meeting. Arrangements may be made by contacting the person listed under the heading **FOR FURTHER INFORMATION CONTACT.**

Issued in Washington, DC on May 21, 1998.

Reginald C. Matthews,

Assistant Executive Director for Air Traffic Issues, Aviation Rulemaking Advisory Committee.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Aviation Rulemaking Advisory Committee Meeting on Air Carrier Operations

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of the Federal Aviation Administration

Aviation Rulemaking Advisory Committee to discuss air carrier operations issues.

DATES: The meeting will be held on June 10, 1998, at 12:30 p.m.

ADDRESSES: The meeting will be held at Federal Aviation Administration, Conference Room 9c, 800 Independence Ave., SW, Washington, DC, 20591.

FOR FURTHER INFORMATION CONTACT: Ms. Dwonna Johnson, Flight Standards Service, Air Transportation Division (AFS–200), 800 Independence Avenue, SW, Washington, DC 20591, telephone (202) 267–8166.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C. App II), notice is hereby given of a meeting of the Aviation Rulemaking Advisory Committee to be held on June 10, 1998. The agenda for this meeting will include status reports on the All Weather Operations Working Group, the Fatigue Countermeasures and Alertness Management Working Group, the initiation of the Airplane Performance Working Group, as well as a discussion of the task on flight crew reserve scheduling. Attendance is open to the interested public but may be limited by the space available. The Members of the public must make arrangements in advance to present oral statements at the meeting or may present written statements to the committee at any time. Arrangements may be made by contacting the person listed under the heading **FOR FURTHER INFORMATION CONTACT.**

Sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested 10 calendar days before the meeting.

Issued in Washington, DC, on May 26, 1998.

Quentin J. Smith,

Assistant Executive Director for Air Carrier Operations, Aviation Rulemaking Advisory Committee.

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Intent To Rule on Application To Impose and Use the Revenue From a Passenger Facility Charge (PFC) at San Diego International-Lindbergh Field, San Diego, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the application to use, and impose and use the revenue from a PFC at San Diego International-Lindbergh Field under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990, Pub. L. 101–508 as recodified by Title 49 U.S.C. 40117 (c)(3)) and 14 CFR, Part 158.

DATES: Comments must be received on or before June 29, 1998.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Airports Division, 15000 Aviation Blvd., Lawndale, CA 90261. In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Ms. Thella F. Bowens, Senior Director, Aviation, San Diego Unified Port District, P.O. Box 488, San Diego, CA 92112–0488.

Air carriers and foreign air carriers may submit copies or written comments previously provided to the San Diego Unified Port District under section 158.23 of FAR Part 158.

FOR FURTHER INFORMATION CONTACT: Mr. John P. Milligan, Supervisor Standards Section, Airports Division, 15000 Aviation Blvd., Lawndale, CA 90261, Telephone: (310) 725–3621. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at San Diego International-Lindbergh Field under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990, Pub. L. 101–508 as recodified by Title 49 U.S.C. 40117(c)(3)) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

On March 26, 1998, the FAA determined that the application to impose and use the revenue from a PFC submitted by the San Diego Unified Port District was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than June 25, 1998.

The following is a brief overview of the application No. 98–02–C–00–SAN:

Level of the proposed PFC: $3.00.

Proposed charge effective date: September 1, 2000.

Proposed charge expiration date: January 1, 2002.

Total estimated PFC revenue: $26,504,000.

Brief description of the proposed projects:

Impose and Use projects:

Replace passenger loading bridges; upgrade East and West Terminals; conduct airport long term study; upgrade electronic information display system; construct storm water/oil separator system; establish temporary commuter terminal; replace ARFF vehicle; install air cargo apron lighting; upgrade emergency alarm system; modify pedestrian access—West Terminal; construct East Terminal pedestrian bridge; construct high-speed exit taxiway B7; consolidate air cargo operations along Taxiway B7 including additional apron pads and lighting; pave Taxiway D fillets; install blast deflectors for Taxiways B2, B3, and D; establish an emergency operations center; and residential sound attenuation program.

Use projects:

Demolish former US Air hangar building; and upgrade Gates 20 and 22 in the West Terminal.

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: FAR Part 135 Air Taxis.

Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT.** In addition, any person may, upon request, inspect the application, notice and other documents germane to the application, in person at the San Diego Unified Port District Building.

Issued in Hawthorne, California, on May 21, 1998.

Herman C. Bliss,

Manager, Airports Division, Western-Pacific Region.

[FR Doc. 98–14270 Filed 5–27–98; 8:45 am]

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Safety Advisory: Determination of Vision Impairment Among Locomotive Engineers

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of safety advisory.

SUMMARY: FRA is issuing Safety Advisory 98–1 addressing the vision standards of certified locomotive engineers in order to reduce the risk of accidents arising from vision impaired engineers.

UMI
VOL
63
ISS
102
MAY
28
1998
UMI

FOR FURTHER INFORMATION CONTACT: John Conklin, Operating Practices Specialist, Office of Safety Assurance and Compliance, FRA, 400 Seventh Street S.W., Mail Stop 25, Washington, D.C. 20590 (telephone: 202–632–3372); Alan H. Nagler, Trial Attorney, Office of Chief Counsel, FRA, 400 Seventh Street, S.W., RCC–11, Mail Stop 10, Washington, D.C. 20590 (telephone: 202–632–3187); or Mark H. McKeon, Regional Administrator, 55 Broadway, Cambridge, MA 02142 (telephone: 617–494–2243).

SUPPLEMENTARY INFORMATION: After a tragic 1987 accident and in response to the Rail Safety Improvement Act of 1988, FRA adopted rules establishing a program for qualifying locomotive engineers to assure the uniformity and adequacy of the qualifications standards. FRA's rule, which became effective in 1991, establishes requirements for testing the visual acuity of individuals who want to be certified as locomotive engineers. In the ongoing effort to monitor compliance with and the effectiveness of its existing regulatory program, FRA has been examining available data concerning administration of this aspect of the certification program. The data suggest that there is room for improving the rule's existing provisions concerning the testing and evaluation of visual acuity.

FRA also has received a number of recommendations for change to the rules concerning the qualification and certification of locomotive engineers. The most recent recommendation was received on May 14, 1998, when FRA was presented with a recommendation from the Railroad Safety Advisory Committee (RSAC) that FRA consider changes to the current provisions concerning the testing and evaluation of visual acuity.

RSAC was established to provide recommendations and advice to the Administrator on development of FRA's railroad safety regulatory program, including issuance of new regulations, review and revision of existing regulations, and identification of non-regulatory alternatives for improvement of railroad safety. RSAC recommendations carry considerable weight since RSAC is comprised of 48 representatives from 27 member organizations, including railroads, labor groups, equipment manufacturers, state government groups, public associations, and two associate non-voting representatives from Canada and Mexico.

The May 14 RSAC recommendation echoes an earlier recommendation from the National Transportation Safety Board (NTSB) based on the NTSB's March 25, 1997 report of its investigation into a fatal collision between two New Jersey transit commuter trains near Secaucus, New Jersey. See NTSB's Railroad Accident Report—Near Head-On Collision and Derailment of Two New Jersey Transit Commuter Trains near Secaucus, New Jersey, February 9, 1996 (NTSB/RAR–97/01).

Explanation of Current Requirements on Testing and Evaluation of Visual Acuity

FRA rules require each railroad to test the vision of every locomotive engineer when initially certified and at periodic intervals of no more than every three years. Each railroad's program must include criteria and procedures implementing how the railroad will ensure that each locomotive engineer will have adequate distant visual acuity and the ability to recognize and distinguish between the colors of signals. The rule requires that a railroad have written confirmation from a licensed medical doctor that the person being certified meets the FRA visual acuity standards. See 49 CFR part 240 at §§ 240.121, 240.207.

The rule gives railroad's and railroad medical examiners considerable latitude when conducting visual acuity testing and evaluation. During the period the rule has been in effect, the latitude permitted has generated questions about a number of matters. These include questions about the use of chromatic lenses; accounting for the variations in railroad signals when a signal is displaying the color yellow; the duty of engineers who rely on contact lenses to have a pair of corrective eyeglasses available when on duty; the obligation of certified locomotive engineers to alert the railroad when the engineer has reason to believe that his or her vision has deteriorated to the extent that the person may no longer meet the acuity requirements; the duty of each medical examiner to have a clearly articulated basis for his or her decision that a person who lacks the specified level of acuity can nonetheless safely operate a locomotive; and the ability to use a variety of testing methods, including whether it is proper to conduct color vision tests by displaying yarn or other fabrics.

Of these questions, the most vexing involves the issue of employing appropriate testing of persons to detect color vision impairment. FRA's expectation was that the physicians who would be designated as railroad medical examiners would be trained to competently administer color vision examinations. Thus, FRA did not anticipate that it would be necessary to specify for the medical examiners the test procedures to be employed when testing for whether a person meets the standards specified in this rule.

That assumption has been called into question under tragic circumstances. It appears that if the current rule had been implemented as FRA expected, the rule would have been adequate to prevent the NJT accident. For example, the NTSB report found that the medical history of the suspect engineer showed that he had been administered an acceptable test annually by the same NJT contract physician since at least 1985. For nine straight years, the engineer scored a perfect score on his color vision test. However, the NTSB report also found that beginning in 1994, the test results showed a deterioration of the engineer's ability to distinguish among some colors and, in February 1995, one year prior to the accident, the engineer's test scores caused him to be classified as having a moderate color vision handicap. As a consequence of this low test score, the physician said that he gave the engineer the Dvorine Nomenclature Test to further evaluate the engineer's color vision. NTSB reported that the testing protocol states that the nomenclature test is not a test of color discrimination ability, since many color blind individuals learn to name the colors correctly by their brightness instead of their hue. Reliance on this testing methodology suggests the physician failed to understand that the purpose of the Dvorine Nomenclature Test is to see whether the patient can identify the names of the colors—not to test color vision. In fact, the Dvorine Nomenclature Test is merely a preliminary step in conducting the Dvorine—Second edition color vision test and is often skipped because most patients are presumed to be able to identify the names of the colors. Thus, it is likely that this accident was preventable if the physician had responded differently to the pattern of deterioration and had used a sound approach to measuring the person's ability to distinguish colors.

RSAC'S Recommended Changes to FRA'S Rules on Testing and Evaluation of Visual Acuity

FRA's goal is to prevent train collisions such as the one that occurred at Secaucus. Amending the existing regulation, so that railroad medical examiners are limited to the application of prescribed acceptable tests, will help achieve this goal. While the RSAC has recommended modification of the

regulation, issuance of a final rule could take a substantial period of time during which it is possible that the circumstances surrounding the medical evaluation process of the Secaucus accident could be replicated. FRA has decided that the RSAC recommendations for change on this issue should be widely disseminated since these recommendations reflect the current best thinking of the regulated community. Broad sharing of information concerning the views of the advisory committee can be of assistance to medical examiners who are responsible for administering the existing regulation.

Based on past practice, FRA anticipates that the agency will accept the RSAC recommendation that FRA issue a notice of proposed rulemaking (NPRM) to revise the locomotive engineer certification regulation. The publication of this safety advisory should not be viewed as FRA endorsement of any particular aspect of the RSAC recommendations nor prejudging the eventual course of action which FRA may follow after carefully reviewing the RSAC recommendation. This safety advisory is intended to encourage all parties to carefully examine their current practices and, where appropriate, modify those practices to further reduce the risk of an accident or injury.

FRA anticipates that, when an NPRM may be issued, these and other RSAC recommendations addressing locomotive engineer certification will be the subject of public comment. These comments will be considered in the development of the final rule. As an example, even among members of the advisory committee who helped shape the consensus recommendations, FRA understands that some members would prefer to see that locomotive engineers be banned from wearing chromatic lenses during any color vision testing and any operation of a train or locomotive. This issue will be the subject of further discussion following completion of the public comment period.

Recommendation Details

RSAC Recommended That

a. FRA create an obligation for each certified locomotive engineer to notify his or her employing railroad's medical department or, if no such department exists, an appropriate railroad official, if the person's best correctable vision or hearing has deteriorated to the extent that the person no longer meets one or more of the prescribed vision or hearing standards or requirements of 49 CFR part 240;

b. Each railroad should ensure that all of their medical examiners have a current copy of 49 CFR part 240, including all appendices, and request that their medical examiners review the medical requirements;

c. Each railroad should remind all of their medical examiners who perform testing pursuant to 49 CFR 240.121 that the visual acuity tests should be conducted in accordance with the directions supplied by the manufacturer of the chosen test instruments and any American National Standards Institute (ANSI) standards that are applicable;

d. Each railroad should ensure that all of their medical examiners know that no person shall be allowed to wear chromatic lenses during an initial test of the person's color vision; the initial test is one conducted in accordance with one of the accepted tests. Chromatic lenses may be worn in accordance with any subsequent testing if permitted by the medical examiner and the railroad;

e. Each railroad should ensure that all of their medical examiners know that railroad signals do not always occur in the same sequence and that testing procedures must take that fact into account;

f. Each railroad should ensure that all of their medical examiners know that "yellow signals" do not always appear to be the same;

g. Each railroad should ensure that all of their medical examiners know that it is not acceptable to use "yarn" or other materials to conduct a simple test to determine whether the certification candidate has the requisite vision;

h. Each railroad should require that its medical examiners retest and further evaluate any locomotive engineer who reports a deteriorating vision condition or, upon request, an examinee who fails to meet the rule's articulated vision standards. The railroad's medical examiner will be expected to review all pertinent information and, under some circumstances, must condition certification on any special restrictions the medical examiner determines in writing to be necessary, e.g., restrict an examinee who does not meet the criteria from operating a locomotive or train at night, during adverse weather conditions, or outside of a yard. This decision should not be made until after consultation with one of the railroad's designated supervisors of locomotive engineers;

i. Each railroad should ensure that all of their medical examiners know that engineers who wear contact lenses should have good tolerance to the lenses and should be instructed to have a pair of corrective glasses available when on duty; and

j. Each railroad should ensure that when a person is tested pursuant to 49 CFR 240.121, the person has the ability to recognize and distinguish between the colors of railroad signals as demonstrated by successfully completing one of the tests specified in the table below. Each railroad should clearly explain to the medical examiners conducting such tests that the key is being able to distinguish among railroad signals; without such a clarification, medical examiners unfamiliar with the railroad environment might focus their attention on colors that do not appear as railroad signals.

k. Each railroad should ensure that medical examiners conducting tests to determine visual acuity adhere to the following guidance when administering the vision acuity requirements of 49 CFR 240.121 and 240.207. Select a testing methodology only from the following testing protocols which are deemed acceptable testing methods for determining whether a person has the ability to recognize and distinguish among the colors used as signals in the railroad industry. The acceptable test methods are shown in the left hand column and the criteria that should be employed to determine whether a person has failed the particular testing protocol are shown in the right hand column. Successful completion of one of these tests should be required, but requiring successful completion of multiple tests is discouraged since it would most likely be redundant.

Accepted tests	Failure criteria
Pseudoisochromatic Plate Tests	
American Optical Company 1965	5 or more errors on plates 1–15.
AOC—Hardy-Rand-Ritter plates—second edition	Any error on plates 1–6 (plates 1–4 are for demonstration—test plate 1 is actually plate 5 in book).
Dvorine—Second edition	3 or more errors on plates 1–15.

Department of Agriculture

Food and Nutrition Service

7 CFR Parts 272 and 273

Food Stamp Program: Food Stamp Recipient Claim Establishment and Collection Standards; Proposed Rule

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Parts 272 and 273

[Amdt. No. 377]

RIN 0584–AB88

Food Stamp Program: Food Stamp Recipient Claim Establishment and Collection Standards

AGENCY: Food and Consumer Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Food and Nutrition Service (FNS) is proposing to revise Food Stamp Program (FSP) regulations that cover the establishment and collection of food stamp recipient claims, including collections at the Federal level. This rule aims to improve claims management in the FSP while providing State agencies with increased flexibility in their efforts to increase claims collections. The provisions of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) affecting recipient claims are incorporated into this rulemaking and this action is consistent with the President's regulatory reform effort. This proposed rule also strives to achieve a balance between State agency flexibility and fiscal accountability.

Food stamp recipient claims are established against households that receive more benefits than they are entitled to receive. The last major revision to these regulations was in 1983. Recent legislation, technological advances and changes in Federal debt management regulations have rendered many portions of the current regulations obsolete. In addition, the current regulations place unnecessary burdens on State agencies. The proposed changes are intended to: incorporate changes mandated by PRWORA; simplify presentation of policy; incorporate Federal debt management regulations and statutory revisions into food stamp recipient claim management; and provide State agencies with additional tools to facilitate the establishment, collection and disposition of food stamp recipient claims.

DATES: Comments on this proposed rulemaking must be received by August 26, 1998 to be assured of consideration.

ADDRESSES: Comments should be submitted to James I. Porter, Recipient Claims Coordinator, Program Accountability Division, Food Stamp Program, Food and Nutrition Service, USDA, 3101 Park Center Drive, Alexandria, Virginia 22302. Only written comments will be accepted. All written comments will be open for public inspection during regular business hours (8:30am to 5:00pm, Monday through Friday) at 3101 Park Center Drive, Alexandria, Virginia, Room 905.

FOR FURTHER INFORMATION CONTACT: Questions regarding this proposed rulemaking should be directed to Mr. Porter at the above address or by telephone at (703) 305–2385.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This proposed rule has been determined to be significant and was reviewed by the Office of Management and Budget under Executive Order 12866.

Executive Order 12372

The FSP is listed in the Catalog of Federal Domestic Assistance under No. 10.551. For the reasons set forth in the final rule at 7 CFR Part 3015, Subpart V and related Notice (48 FR 29115, June 24, 1983), the FSP is excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

Regulatory Flexibility Act

This rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act of 1980 (5 U.S.C. 601–612). Shirley R. Watkins, Under Secretary for Food, Nutrition and Consumer Services, has certified that this rule will not have a significant impact on a substantial number of small entities.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is intended to have preemptive effect with respect to any State or local laws, regulations or policies which conflict with its provisions or which would otherwise impede its full implementation. This rule is not intended to have retroactive effect unless so specified in the "Implementation" section of this preamble. Prior to any judicial challenge to the provisions of this proposed rule or the application of its provisions, all applicable administrative procedures must be exhausted.

Public Law 104–4

This proposed rule contains no Federal mandates under the regulatory provisions of title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Pub. L. 104–4, for State, local and tribal governments or the private sector of $100 million or more in any one year. Therefore, this rule is not subject to the requirements of sections 202 and 205 of the UMRA.

Paperwork Reduction Act: Recipient Claims and Reporting Format Redesign

The following constitutes a 60 day notice being issued by FNS, USDA.

In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this proposal to consolidate several existing collection burdens by requesting a new burden.

Written comments must be submitted on or before July 27, 1998.

Send comments and requests for copies of this information collection to James I. Porter, Recipient Claims Coordinator, Program Accountability Division, Food Stamp Program, Food and Nutrition Service, USDA, 3101 Park Center Drive, Alexandria, Virginia 22302 and to Wendy Taylor, FNS Desk Officer, Office of Information and Regulatory Affairs, OMB, Room 10235, New Executive Office Building, Washington, DC 20503. For further information regarding this notice, Mr. Porter may be contacted at (703) 305–2385.

Comments regarding these burden estimates are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for Office of Management and Budget (OMB) approval. All comments will also become a matter of public record.

Title: Food Stamp Data Collection.

OMB Number: A new burden number is being requested This burden will consolidate burden associated with 0584–0069, 0584–0080, 0584–0009, 0584–0015, 0584–0081 and 0584–0025. The existing burden under 0584–0064 is not being changed.

Form Number: New request for FNS–695 which will consolidate the FNS–

209, FNS–46, FNS–250, FNS–259, FNS–388, FNS–388a and FNS–101 reports.

Type of Request: Consolidation of several collection and record keeping burdens into one burden.

Abstract: In accordance with the Paperwork Reduction Act of 1995, the reporting and recordkeeping burden associated with the Notice of Adverse Action, the demand letter for recipient claims and general case/claim recordkeeping has been approved by OMB under OMB number 0584–0064. The Department recognizes that, under this proposed rule, State agencies would be required to track claim referrals. The Department does not consider this to be an additional recordkeeping burden because tracking referrals is part of efficient and effective general case recordkeeping and management that has already been approved under OMB 0584–0064.

The burden associated with the reporting of claims under OMB number 0584–0069 consists of the submission of the *Status of Claims Against Households* (FNS–209) report. In an effort to reduce the number of reports and/or data elements to be reported, the Department is proposing to request OMB to combine and consolidate this reporting function with a number of other FNS reports with the result being one electronic reporting format. The reports with which the FNS–209 would be consolidated include the *Issuance Reconciliation Report* (FNS–46), *Food Stamp Accountability Report* (FNS–250), *Food Stamp Mail Issuance Report* (FNS–259), *State Issuance and Participation Estimates* (FNS–388), *Project Area Issuance and Participation Estimates* (FNS–388a) and *Participation in Food Programs—by Race* (FNS–101) as it pertains to the FSP. All of these reports, including the FNS–209, currently have assigned to them a unique OMB burden approval number: 0584–0069 for the FNS–209; 0584–0080 for the FNS–46; 0584–0009 for the FNS–250; 0584–0015 for the FNS–259; 0584–0081 for the FNS–388 and FNS–388a; and 0584–0025 for the FNS–101. To facilitate the report consolidation effort, the Department is requesting that OMB cancel all of the above approval numbers (with the exception of OMB number 0584–0025) and assign a single burden approval number for the new electronic reporting format. Since the burden associated with OMB number 0584–0025 also pertains to activity in the Food Distribution Program, the Department is not requesting that this number be canceled. However, the portion of this burden relating to the FSP would be removed and transferred to the newly assigned number.

The number of annual data reporting elements associated with this reporting burden will change dramatically. Currently, the forms proposed to be replaced have a cumulative total of 3,121,124 annual data reporting elements resulting in a reporting and recordkeeping burden of 110,122 hours. The proposed reporting format, on the other hand, would only have 15,300 annual data reporting elements.

Even though the number of data elements would be reduced significantly, the reporting and recordkeeping burden hours would increase by an average one hour per State agency per report submission. This is because much of the data proposed to be reported in the new reporting format is summational. Under the proposed reporting format, State agencies would need to retrieve and record the detailed data, compute the summational amounts and maintain the records necessary for audit purposes. Many States are already performing this consolidation function as part of their existing reporting procedures and therefore would experience no increase in burden. The one-hour increase in burden is to accommodate the remaining states who would need to perform some consolidation work to carry out this function.

Affected Public: State and local governments.

Estimated Number of Respondents: 37,973.

Estimated Time per Response: 2.90 hours.

Estimated Total Annual Burden: 110,758 hours.

Paperwork Reduction Act: Federal Collection Methods for Food Stamp Program Recipient Claims

The following constitutes a 60-day notice being issued by FNS, USDA.

In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this proposal to change an information collection burden related to Federal claims collection methods (FCCM's).

Written comments must be submitted on or before July 27, 1998.

Send comments and requests for copies of this information collection to James I. Porter, Recipient Claims Coordinator, Program Accountability Division, Food Stamp Program, Food and Nutrition Service, USDA, 3101 Park Center Drive, Alexandria, Virginia 22302 and to Wendy Taylor, FNS Desk Officer, Office of Information and Regulatory Affairs, OMB, Room 10235, New Executive Office Building, Washington, DC 20503. For further information regarding this notice, Mr. Porter may be contacted at (703) 305–2385.

Comments regarding these burden estimates are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for Office of Management and Budget (OMB) approval. All comments will also become a matter of public record.

Title: Federal Collection Methods for Food Stamp Program Recipient Claims.

OMB Number: 5084–0446.

Expiration date: September 30, 1999.

Type of request: Revision to a currently approved collection.

Abstract: Changes to the collection burden would result from two changes proposed in this rule. One proposed change is the consolidation of the 60-day notice for Federal Income Tax Refund Offset Program (FTROP)(See 7 U.S.C. § 2022(b)(1)(C); 7 CFR 273.18(g)(5)) into an all inclusive 60-day notice for all types of Federal offsets. The other is the increased number of 60-day notices due to the proposed inclusion of agency error (AE) claims as a type of claim subject to collection under Federal offset.

Estimate of Burden: The proposed rule would increase the annual burden on State agencies from an average of 450 to 500 hours and for debtors would decrease from an average of 8 to 6 minutes.

Respondents: The collection would continue to impact two groups, State agencies that administer the FSP and certain individuals who are liable for overissued food stamp benefits.

Estimated Number of Respondents: The number of State agency respondents increase from 52 to 53. The number of debtor respondents would increase from 370,000 to 425,000.

Estimated Number of Responses per respondent: As under current rules, for State agencies the number of responses would vary from once for such activities

as certifying files to FNS to 380,000 for mailing out due process notices. For debtors the number of responses would continue to vary from once for such things as due process notices to three or four in the case of debtors making informal inquiries and requesting reviews.

Estimated Total Annual Burden on Respondents: Under this proposed rule the annual reporting and recordkeeping burden would decrease from 72,862 to 71,803 hours (1,059 hours).

Background

The tolerance of abuse, or even the perception of such, undermines the fundamental mission of the FSP. The efficient and effective establishment and collection of recipient claims is essential to program integrity. This rule aims to improve and increase claims establishment and also to increase the collection rate of established claims, while providing State agencies with increased flexibility in their efforts to increase claims collections.

The PRWORA (Pub. L. 104–193) amended the Food Stamp Act of 1977 (7 U.S.C. 2011–2032) (the FSA) in a number of ways. This rule proposes to implement the provisions of the PRWORA relating to recipient claims. This rule also proposes to incorporate certain provisions of the Federal Debt Collection Improvement Act of 1996 (DCIA)(Pub. L. 104–134, Chapter 10, signed April 26, 1996) as discussed later in this preamble in connection with Federal claim collection methods. The DCIA amended the Debt Collection Act of 1982 (31 U.S.C. 3701)(DCA).

In addition to the revisions mandated by the enactment of the PRWORA, the Department is proposing a number of significant changes in discretionary FSP policy regarding recipient claims. This rule also proposes certain changes in FTROP and the Federal Salary Offset Program, 7 U.S.C. 2022(b)(1)(C)(FSOP), in response to the amended DCA. Furthermore, this proposed rule would extensively reorganize the current regulations at 7 CFR 273.18. To assist in the regulatory reorganization and in the development of the discretionary policy changes being proposed, the Department, in an effort to maintain consistency with the treatment of other Federal debts, utilized the Federal Claims Collection Standards (FCCS) issued by the Department of Treasury (Treasury) (See 4 CFR Parts 101–105). The Department also drew upon a number of other sources including the policies and regulations of other social programs, private and public sector accounting standards, technological advances, recommendations by the Department's Office of the Inspector General (OIG) and Office of General Counsel, and suggestions from State agencies.

Responsibility for Recovering Overpayments

Current regulations at 7 CFR 273.18(a) discuss the State agency's responsibility for establishing claims as well as the household's liability for the amount of the claim. It also defines the three types of claims. The Department is proposing to revise the structure of this paragraph. The first structural revision would change the title of the paragraph from *Establishing claims against households* to *Responsibility for recovering overpayments.* This is being proposed because the new title more accurately portrays the purpose of the paragraph. In addition, the Department feels that keeping the current title would lead to confusion because other paragraphs of the proposed rule discuss "establishing" claims in much greater detail.

The second structural revision would involve the breakout of the single introductory paragraph into two paragraphs. The first paragraph of the proposed rule, § 273.18(a)(1), would establish household liability for overissuances. Section 273.18(a)(2) would establish State agency responsibility for establishing and recovering overissuances.

Even though the responsibility for establishment and collection of overpayments has been delegated to State agencies, food stamp recipient claims remain debts to the Federal government. Section 273.18(a)(2) of the proposed rule would specify this in detail. This proposal is not intended to change policy but simply to clarify existing policy. As Federal debts, unless superseded by this or other Departmental regulation, food stamp recipient claims are subject to the same debt collection processes and procedures as are all other Federal debts.

Claim Types and Definitions

In the current regulations, there are three claim types: intentional Program violation (IPV), inadvertent household error (IHE) and administrative error. The proposed rule would keep the same designations for IPV and IHE claims. Administrative error claims, on the other hand, would be renamed and referred to as agency error (AE) claims. This is being proposed to be consistent with the term most commonly used for this type of claim.

Paragraphs 7 CFR 273.18(a)(1), (a)(2) and (a)(3) of the current regulations provide the specific definitions for IPV, IHE and AE claims. As part of the regulatory reorganization, this rule proposes to split out these paragraphs from 7 CFR 273.18(a) into their own respective paragraphs: § 273.18(b) for IPV claims; § 273.18(c) for IHE claims; and § 273.18(d) for AE claims.

IPV Claims

Current regulations at 7 CFR 273.18(a)(3) provide the definition for an IPV claim. The paragraph contains specific instructions as to what must have occurred for an overissuance to be handled as an IPV claim. Since the basis for IPV claims is set by statute, this rule proposes no change in current policy about the basis for such claims. However, as part of the regulatory reorganization, the Department is proposing to list the criteria for defining an IPV claim in separate paragraphs, § § 273.18(b)(1) through 273.18(b)(4).

The proposed rule contains one change regarding IPV claims in an area in which the Department has discretion. Current regulations at 7 CFR 273.18(a)(3) mandate that prior to the determination of IPV the claim shall be handled as an IHE claim. The Department is proposing to delete this mandate thereby making this practice a State agency option on a case-by-case basis as long as the claim is established within the required timeframe (See the *Claim Referral and Backlog* section of this preamble for details on timeframe).

IHE Claims

Current regulations at 7 CFR 273.18(a)(1) provide the definition for an IHE claim. Under these regulations, an IHE claim generally results from an overissuance that was caused by a misunderstanding or unintended error on the part of the household. As part of the regulatory reorganization and in an effort to enhance FSP simplification, the Department is proposing to eliminate much of the definitional language in the current regulations and simply use the specific language at § 273.18(c) in the proposed rule.

AE Claims

Current regulations at 7 CFR 273.18(a)(2) define an AE claim. Under these current regulations, an AE claim results from an overissuance that was caused by a State agency action or failure to take action. As with the proposal regarding the definition of an IHE claim, the Department is proposing to eliminate unnecessary definitional language in this paragraph and simply use the specific language at § 273.18(d) in this proposed rule.

Section 844 of the PRWORA eliminated all legislative limitations on

the collection options available for AE claims. This ends a previous inconsistency wherein State agencies were required to collect AE claims but were precluded from using the most effective and efficient collection tool, involuntary allotment reduction.

Some groups maintain that, since the reason for the overissuance resulting in the AE claim was an error by the State agency, the household should not be responsible for the overissuance under laws in a number of States under the legal concept of equitable estoppel. The Department disagrees with this position. The FSP is administered under Federal law and the Department provides 100 percent of the value of the benefits. Section 13(a)(2) of the FSA (7 U.S.C. 2022(a)(2)), which was unchanged by the PRWORA, clearly and unconditionally provides that adult members of a household that receive any overissuance shall be jointly and severally liable for the value of the overissuance. Thus, Federal law permits no exception for equitable estoppel in the case of an overissuance caused by State agency error.

Claims for Recipient Trafficking

In a significant policy change, the Department is proposing, in § 273.18(a) of this rule, to provide for establishing a claim against a household for the value of benefits that are trafficked rather than redeemed for authorized food purchases.

Trafficking has long been an IPV subject to disqualification from FSP participation. However, the advent of electronic benefits transfer (EBT) has provided a source of data that makes it easier to identify both parties to trafficking transactions. The availability of EBT data has already increased the number of disqualifications for trafficking. In addition to disqualification penalties, the Department believes that trafficking can also be deterred by the development and use of additional enforcement tools. Assessing a claim for the amount of trafficked benefits offers such a tool.

The authority for this determination is found in section 13(a)(1) of the FSA (7 U.S.C. 2022(a)(1)) which states that the Department "* * * shall have the power to determine the amount of and settle and adjust any claim * * * arising under the provisions of this Act or the regulations issued pursuant to this Act, including, *but not limited to*, claims arising from fraudulent and nonfraudulent overissuances to recipients * * * (emphasis added)" Generally, a recipient claim is established when a household receives more coupons than the household is entitled to receive. However, as indicated above, section 13 of the FSA (7 U.S.C. 2022) does not limit the Department to establishing claims against individuals solely because of overissuances. Clearly, recipient misuse, such as trafficking, falls within the definition of an IPV as specified in 7 CFR 273.16(c)(2). The Department is thus proposing in this rule that claims would be established for all IPV's, including those caused by trafficking offenses.

The Department would like to clarify that this change in policy would have no effect on the current policy regarding the establishment and collection of fines and penalties from authorized retailers and unauthorized third parties who are found to have illegally obtained coupons via trafficking. (See 7 CFR 278.6). Retailer fines and claims act as a deterrent and punish retailers and unauthorized third parties for engaging in prohibited activity. The current regulations on retailer fines and claims at 7 CFR 278.6 provide for monetary penalties significantly larger than the amount trafficked. The proposed policy change providing for recipient trafficking claims, on the other hand, would directly correlate with the benefit amount that was trafficked. The procedure for calculating a recipient trafficking claim is discussed elsewhere in this preamble.

The Department also proposes to establish a second category of claims for trafficking that is analogous to the inadvertent household error claim established for household-caused overpayments that do not warrant IPV determinations. A State agency can assert an "inadvertent" misuse claim in situations where the State agency chooses not to obtain or cannot obtain a formal designation of trafficking through an administrative or court determination but can document the transaction sufficiently to sustain the claim. The Department is therefore proposing that instances of inadvertent recipient misuse be appropriately treated as IHE's as described in 7 CFR 273.18(a)(1)(i) of the current regulations and § 273.18(c) in the proposed rule. This rule would provide the authority for State agencies to specifically include trafficking and recipient misuse in benefit transactions as a basis for establishing a claim against a household.

Claim Calculation

Current regulations at 7 CFR 273.18(c)(1) and 7 CFR 273.18(c)(2) discuss the procedures for calculating the amount of a claim due to an overissuance. Under the proposed reorganization of 7 CFR 273.18, the paragraphs on calculating claims would be combined under § 273.18(e)(1). In addition, some policy revisions are being proposed in this area and are outlined below. The current paragraph also does not include a provision for calculating claims for trafficking. The proposed rule at § 273.18(e)(2) addresses this issue.

Calculating Recipient Trafficking Claims

The Department is proposing, in § 273.18(e)(2), to include a procedure for determining the value of a misused benefit caused by trafficking. The amount of the misused benefit would be the value of the trafficked benefit as determined by: the individual's admission; adjudication; or the documentation, such as detailed electronic benefits transfer (EBT) transaction listings, which forms the basis for the benefit misuse determination. Trafficking claims could be either an IPV or IHE claim depending on the nature of the procedure under which trafficking was established.

Calculating Overissuance Claims

For an IPV claim due to an overissuance, current regulations at 7 CFR 273.18(c)(2) provide the parameters for claim calculation. Current regulations at 7 CFR 273.18(c)(1) establish the procedures for calculating claims for IHE and AE overissuances. In an effort to provide a better structure, the Department is proposing to combine these paragraphs into a single procedure in § 273.18(e)(1)(i) through (vi) in this rule. As part of this reorganization and general streamlining effort, some unnecessary prescriptive language would also be removed. In addition to these structural and streamlining revisions, several policy changes are also being proposed in this rule.

The PRWORA included a change in the calculation of claims caused by unreported earned income. Section 809 of the PRWORA amended section 5 of the FSA (7 U.S.C. 2014) by specifying that the earned income deduction "* * * shall not be allowed with respect to determining an overissuance due to the failure of a household to report earned income in a timely manner." This changed current policy by removing the stipulation that the failure to properly report income must be willful or fraudulent. As a result, the Department is proposing, in § 273.18(e)(1)(iii) of this rule, that, in calculating an IHE claim, the State agency would not apply the earned income deduction to that part of any earned income that the household failed

to report in a timely manner. This would be the same policy that the Department currently has for calculating IPV claims with unreported earned income.

In addition to the earned income revision necessitated by the PRWORA, the Department is proposing two additional policy changes related to claim calculation: (1) Under the proposed rule, a State agency would be able to waive up to 20 percent of any claim if the household cooperates with the establishment of the claim; and (2) the amount of the claim would be offset by the amount of any expunged EBT benefits. These two policy revisions are discussed in greater detail in other sections of this preamble.

Current regulations at 7 CFR 273.18(c)(1)(iii) and (c)(2)(iii) discuss offsetting the claim amount against any amount of lost benefits that have not yet been restored to the household. This proposed rule does not change this policy. However, as part of the regulatory reorganization and since this area applies more to collecting rather than calculating claims, the Department proposes to move this paragraph to the claims collection section of this rule.

Pre-Establishment Cost Effectiveness Determination Methodologies

Section 844 of the PRWORA amended section 13 of the FSA (7 U.S.C. 2022(b)) by stating that the collection of any overissuance does not apply "* * * if the State agency demonstrates to the satisfaction of the Secretary * * *" that it is not cost effective to collect that claim. This establishes that interest in program integrity must be tempered by administrative costs considerations. This provision implies that some test must be established to assess or demonstrate the degree of cost effectiveness for a claim. However, the Department strongly believes that this provision (as well as the implementing language in this rule) by no means implies that a household has an automatic "right" to an overpayment without fear of collection, even if the overpayment is not cost effective for the State agency to pursue collection. This rule addresses standards for determining which claims must be pursued. For smaller claims State agencies should continue to maintain some probability of collection. Knowledge that even small overpayments may be collected increases payment accuracy by holding households responsible for accurate reporting of their circumstances.

The Department believes that a cost effectiveness test can be applied both prior to and after establishing a claim. This section of the preamble discusses assessing cost effectiveness prior to establishment and the initiation of collection action. Assessing cost effectiveness subsequent to the initiation of collection action as a means to determine whether a claim should be terminated and written off is discussed elsewhere in this preamble.

In Federal fiscal year 1995 alone, over 775,000 recipient claims were established nationwide. The Department recognizes that this sheer volume negates any notion of a State agency demonstrating to FNS the degree of cost effectiveness for claims on an individual basis. Therefore, the Department is proposing in this rule that, in lieu of demonstrating cost-effectiveness to FNS on an individual claim basis, State agencies would use standards approved by FNS to assess the cost effectiveness of collecting claims.

In determining these standards, the Department is proposing to present State agencies with a choice. The first would be for a State agency to design its own standard (subject to FNS approval). The second option would be for a State agency to use an updated version of the existing FNS recipient claim threshold. Both options are discussed below.

State Agency-Developed Methodology for Cost Effectiveness Determination

The Department is proposing, in § 273.18(h)(2) of this rule, how a State agency could adopt its own procedure, threshold, and/or methodology for use in determining whether to pursue the establishment of any claim and subsequent collection of the overissuance. A State agency would need to submit a detailed analysis of costs over time and obtain prior approval from FNS for use of this procedure, threshold and/or methodology. Cost effectiveness should reflect total returns to the Federal and State government and the total cost of the State claims collection effort.

The concept of having a State agency develop its own methodology is an expansion of current policy. The reason for this policy expansion is twofold. First, this option would be consistent with the spirit of section 844 of the PRWORA which increases State agency control over its claims. The stipulation requiring prior FNS approval of the methodology to be utilized would be needed because the provision in the PRWORA requires that cost effectiveness be demonstrated to the satisfaction of FNS, thus reinforcing the Federal government's interest in State stewardship of FSP resources.

The second reason for this policy expansion is that cost effectiveness varies significantly from one State agency to another depending on factors such as the degree of automated processing, the amount of historical case record information, the degree of centralization, features of administrative structures, salaries, and the number and size of claims established. This observation is supported by a contracted study released by FNS in June 1996 entitled, "Optimal Thresholds in the Collection of Food Stamp Program Claims." While State agencies have a responsibility to adopt cost-effective claims management systems, this proposal would allow a State agency to establish a cost-effectiveness methodology (subject to FNS approval) to reflect the State agency's own situation and expenses.

FNS Threshold for Establishing and Collecting Overissuances

Current regulations at 7 CFR 273.18(d)(1)(i)(A) require that, except for those IHE and AE claims which (1) are collected through offset of restored benefits or (2) are less than $35 and cannot be collected through allotment reduction, State agencies shall initiate collection action on all IHE and AE claims. This $35 exception represents the current FNS threshold for recipient claim collection.

Since 1982, 12 State agencies participating in the FSP have received waivers increasing the $35 FNS threshold. State agencies have maintained that the current threshold is too low because the cost of establishing and collecting claims exceeded the thresholds.

Administrative costs relating to claims actions are the cost of establishing a claim; calculating the claim; posting the claim into the State agency accounting and reporting system; initiating the various demand letters and notices; and managing collections. Economic factors, such as inflation, in addition to fluctuations in salary and staffing levels and automation start-up and maintenance costs cause changes (usually increases) in the amount of administrative funding expended for food stamp claim activity within each respective State agency over a given time period. In addition, the aforementioned contractor study on recipient claim collection thresholds found that the optimal thresholds in the State agencies surveyed were higher than the current collection threshold. The study also found that it was more appropriate to apply the threshold to the costs of the combined process of establishing and collecting claims. Including only the cost of collection led

to setting too low a threshold from an economic perspective.

As a result, the Department is proposing to increase the FNS threshold for collecting food stamp recipient IHE and AE claims. In addition, the Department is proposing to extend this threshold to IPV claims. The Department is also proposing utilizing the same threshold for both establishing and collecting claims. Current regulatory language refers only to the collection of claims and implies there is no threshold below which claims need not be established.

In its reorganization of 7 CFR 273.18, the Department is proposing to break out and expand the paragraph in the current regulations dealing with the threshold, 7 CFR 273.18(d)(1)(i)(A), into § 273.18(g)(2)(ii) of the proposed rule. In § 273.18(g)(2)(ii), the threshold would be defined as the maximum dollar amount of a claim or a claim referral that a State agency may decide not to pursue establishment and/or collection solely based on the amount of the referral. The purpose of the threshold is to maximize cost effectiveness in the establishment, pursuit and recovery of overissuances in the FSP. The Department originally considered proposing to raise this threshold from $35 to $100. Then the Department considered establishing a threshold that would change periodically depending on the rate of inflation or some similar economic factor. The Department decided to strike a balance between increased State costs and the uncertainty of a fluctuating threshold by proposing a fixed threshold of $125. This proposed threshold is reflected in § 273.18(g)(2)(ii) of this rule.

In addition, as noted earlier and reflected in § 273.18(g)(2)(ii) of the proposed rule, this threshold would also apply to IPV claims. The authority to include IPV's under the threshold is found in section 13(a)(1) of the FSA (7 U.S.C. 2022(a)(1)) which provides the Department with the authority to delegate to State agencies the power to "* * * settle and adjust any [recipient] claim * * * if the [Department] determines that to do so would serve the purposes of this Act." The proposed inclusion of IPV claims under the threshold would increase the waiver authority delegated to State agencies.

Currently, procedures for establishing and pursuing IPV claims vary significantly from jurisdiction to jurisdiction. By including IPV claims under the threshold, the Department would like to reduce this degree of variability. However, the Department would like to emphasize that no jurisdiction would be prevented from establishing and/or pursuing the collection of any claim that falls under this threshold. State agencies are encouraged to pursue claims on selected bases which would act as a deterrent or be in the best interest of the FSP or agency to establish or collect.

Finally, the current regulations at 7 CFR 273.18(d)(1)(i)(A) do not allow the FNS threshold to be applied to claims that can be recovered by reducing the household's allotment. Since the utilization of this claim collection method incurs relatively little post-establishment costs, the Department is not proposing any changes to this policy.

The Department is interested in receiving comments on these proposals concerning the determination of cost effectiveness for the establishment and collection of recipient claims. In addition, the Department is particularly interested is receiving actual cost data from State agencies.

Claim Establishment

Claim Referral and Backlog

Under current regulations, no time frame exists for State agencies to follow for initiating collection action by establishing claims. This has resulted in a number of State agencies either not establishing or not enforcing internal time frames for addressing potential claims, thereby causing a backlog of claim referrals. These claim referral backlogs have been cited as deficiencies and problem areas in Federal and State-level management evaluations and audits conducted by the Department's OIG. Potential debts that are not timely developed into claims become less collectible the longer they remain undeveloped.

In an effort to reduce the number of claims which are not established in a timely manner, the Department believes that it is necessary to develop a minimum timeliness standard for establishing claims which incorporates a standardized methodology for measuring the length of time it takes to establish a claim after the potential overissuance is discovered. To accomplish this, the Department must initially set the parameters by defining the starting and ending points of the process.

The Department is proposing that the *starting point* for calculating the length of time that it takes to establish a claim would be the date the potential claim is initially detected. This would be known as the *date of discovery* and is being defined as such in § 273.18(f) of this proposed rule.

The Department considered and rejected one other alternative in its determination of the appropriate starting point. This alternative was to use the date of occurrence of the change that caused the overissuance. For example, if a household was overissued benefits because of a decrease in household size, the starting point would be the date that the individual(s) left the household. The Department decided not to propose this alternative because the State agency may not become aware of the change that caused the overissuance for some time.

In addition to proposing a starting point to gauge the length of time it takes to establish a claim after the potential overissuance is discovered, the Department is also proposing to define an ending point for tracking and reporting purposes. This would be the *date of establishment*. The Department is proposing, in § 273.18(f)(3) of this rule, to have the date of establishment be the date that the initial written claim notification or demand letter is issued to the household. This is being proposed because the Department feels that this is the final step in establishing a claim.

The Department considered one other alternative as the ending point. This alternative would define the date of establishment as the date that the claim is posted as a receivable in the State agency's claim collection and tracking system. However, while it is integral to the establishment of a receivable, this is not being proposed because the Department believes that a claim is not truly established until the demand letter is sent to the household.

The Department is proposing that the length of time it takes to establish the claim would simply be the number of days between the date of discovery (starting point) and the date of establishment (ending point).

Now that the mechanism for measuring the length of time it takes to establish a claim has been proposed, the Department is proposing a standard for the timely establishment of claims.

Originally, the Department considered a 90-day standard for establishing claims with an allowance for up to 180 days if the State agency needs to secure additional documentation from uncooperative sources. However, this was not considered feasible because it would be difficult to track and gauge its effectiveness given the additional time allowance that would be allotted for certain claim referrals. Instead, the Department is proposing in § 273.18(f) of this rule to conform with time frames used in other assistance programs. The proposed rule would have the same standard as one that was in place for

initiating collection action in the Aid to Families with Dependent Children (AFDC) Program in July of 1996. Specifically, claims would need to be established before the end of the quarter following the quarter of the discovery of the claim. As an example, if the date of discovery is in October, November or December, the last day for sending the demand letter in a timely manner would be March 31.

The Department is aware that a number of State agencies are either not establishing or not consistently enforcing internal time frames for addressing potential claims. This has resulted in what many State and Departmental officials perceive as a "backlog" of claim referrals. However, the measure of what actually constitutes a claim referral backlog has never been defined by the Department and State agencies have no clear regulatory guidance on this issue. With its proposed time frame for establishing claims, the Department feels that it now has the mechanism to propose clear guidance as to what would constitute a claim backlog.

The Department is proposing in § 273.18(f) of this rule to define a claim backlog as existing when more than 10 percent of the claim referrals are not established in a timely manner. The Department chose 10 percent because it feels that an absolute zero tolerance in this area would not account for the claims which would not be able to be timely established based on circumstances (such as uncooperative employers, etc.) which would be out of the State agency's control. The Department did not choose a percentage greater than 10 percent because it felt it would be too tolerant and condone inefficient and ineffective claim management.

The Department would like to emphasize that the purpose of establishing a standard for what is considered an acceptable as opposed to an excessive backlog is not to penalize a State agency with an excessive backlog but to provide a management tool for gauging the State agency's claim establishment efforts.

The Department is proposing in § 273.18(f) that State agencies, in order to assess the age of referrals, be required to record the date of discovery and the establishment date in the claim case file and/or referral tracking system. The Department feels that this is not placing an additional or unnecessary burden on a State agency as prudent claim management would dictate that the State agency would have a system to internally track referrals already in place.

Even though the Department is proposing a new standard for determining the existence of a claim backlog, the Department would not require State agencies to report this information to FNS. Monitoring would be achieved in the same manner that other areas of the FSP are reviewed and evaluated. The Department feels that the most effective way for State agencies to address a deficiency in this area would be to initially concentrate on preventing future backlogs by adhering to the standards proposed in this rule. Once this is accomplished, corrective action for the elimination of existing backlogs could be addressed.

The Department is interested in receiving comments on the proposed standard for establishing claims and measuring a claims backlog.

Initiating Collection Action When the Household Cannot Initially Be Located

The current regulations at 7 CFR 273.18(d)(1) contain the criteria for initiating collection action on IHE and AE claims. This criteria includes applying the dollar threshold for collecting claims, not taking action on households that cannot be located and postponing collection action on suspected IPV's. Proposed changes to the dollar threshold and the treatment of suspected IPV's are discussed in detail elsewhere in this preamble. In addition to these changes, the Department is also proposing a change in policy on initiating collection action if the household cannot be located.

The current regulations at 7 CFR 273.18(d)(1)(i)(B) provide that the State agency shall initiate collection action for IHE and AE claims unless the household cannot be located. The Department is proposing to delete this paragraph and have the State agency initiate collection action on these claims. The reason for this is that, with the advent of innovative collection methods such as Federal and State tax refund offset, it is much easier for State agencies to eventually locate the household and collect the claim. In addition, the household would be subject to allotment reduction if it returns to the FSP prior to the claim being terminated and written off. Terminating and writing off claims is discussed elsewhere in this preamble.

The current regulations at 7 CFR 273.18(d)(2) discuss the criteria for initiating collection action on IPV claims. This criteria includes making personal contact with the household. The Department is proposing to delete this clause. This is being proposed to increase the flexibility afforded State agencies in their collection efforts.

As with IHE and AE claims, the Department is also proposing to delete the clause in 7 CFR 273.18(d)(2) that allows State agencies not to pursue collection action against IPV claims if the household cannot be located. The reason for this being proposed is the same as with IHE and AE claims: the increased possibility of collection via Federal and State tax refund offset and the possibility of allotment reduction if the household returns to the FSP before the claim is terminated.

Household Notification

Requirements at Certification

In the Department's efforts to afford State agencies maximum flexibility, the Department is taking steps to ensure that household notification requirements (as required by the Privacy Act of 1964 at 5 U.S.C. 552a and the Debt Collection Act of 1982 (DCA), as amended by the DCIA at 31 U.S.C. 3716(a)) are not compromised. Proper notification involves informing the household of its rights regarding the claim and informing the household at the time of FSP application of the potential uses of information provided by the household to collect the claim.

Households initially provide identifying information (such as names, addresses and social security numbers) as well as other information regarding household circumstances at the time of application. This information is used by State agencies for program purposes including verification and eligibility and to refer delinquent claims to other agencies for various collection tools and methodologies such as tax refund, salary and administrative offset. The Department is proposing in this rule to require that State agencies inform households of this potential use of provided information at the time of application in a new paragraph, § 273.2(b)(4).

Demand Letter Requirements

Under the proposed rule at § 273.18(g)(3), a State agency would simply develop and use its own demand letter for claim notification and repayment solicitation. The Department is proposing several requirements to ensure that proper notification and due process conditions are met when the household is informed of the existence of the claim via the demand letter.

The first requirement being proposed by the Department in this rule is that the claim notification or initial demand letter would continue to contain a notice of adverse action (see § 273.18(g)(3)(v)). This notice of adverse action can either be an attachment or

contained in the body of the initial demand letter itself. This notice would also provide the household with the opportunity for a fair hearing on the validity and amount of the claim. At a fair hearing (or at an administrative disqualification hearing for some IPVs), the household currently is provided the opportunity to inspect and copy agency records and review with the agency the circumstances relating to the claim. This conforms with the information availability requirements in the DCA at 31 U.S.C. 3716(a)(2) and (a)(3). The current regulations regarding fair hearings (7 CFR 273.15) and administrative disqualification hearings (7 CFR 273.16) are not affected by this proposed rule.

In addition, to ensure proper notification per 31 U.S.C. 3716(a)(1) and (a)(4), the demand letter or accompanying notice of adverse action would contain information to provide the household with written notice of: (1) The type and amount of the claim, the intent to collect the claim, if not paid, by referral to other agencies, including private collection agencies, for various claims collection actions including, but not limited to, administrative offset, tax refund offset and salary offset; (2) the opportunity to inspect and copy the records related to the claim; (3) the opportunity for an administrative review (fair hearing) of the decision related to the claim; and (4) the opportunity to make a written agreement to repay the amount of the claim prior to the claim being referred for Federal collection methods. The Department is also proposing that the demand letter contain language specifying that, if the claim becomes delinquent, the household may be subject to additional delinquent and/or processing charges. Finally, the Department is proposing that the demand letter provide notification that all adult household members are equally liable for the claim and that the claim, if not otherwise collected, may be referred to the Department of Justice for litigation. These proposals are reflected in § 273.18(g)(3)(iii) and (g)(3)(iv) of this rule.

Elimination of Repayment Option Choice in the Demand Letter

Prior to the enactment of the PRWORA, section 13(b) of the FSA (7 U.S.C. 2022(a)(1)) contained the stipulation that the household had the option of selecting the method of payment. This resulted in the formulation of detailed regulations at 7 CFR 273.18(d)(3) implementing this legislative requirement. In section 844 of the PRWORA, Congress removed all references in section 13 of the FSA (7 U.S.C. 2022) which pertained to allowing the household to select the method of payment. In their place, Congress provided the State agency (and not the household) with the prerogative to select the appropriate payment method. In addition, section 844 of the PRWORA gave the State agency the authority to establish its own requirements for providing notice to a household with an overissuance. Although State agencies will have greater flexibility in providing notice, the Department is proposing the minimum due process notice requirements specified in the DCA, as discussed above, in order to assure that collection through Federal administrative offset and other methods are available to State agencies. These changes are reflected in § 273.18(g)(3) of this proposed rule.

In addition, other prescriptive language in 7 CFR 273.18(d)(3) regarding demand letter content unrelated to household notification rights discussed above would also be removed to conform to allow for greater State agency flexibility in this area.

Claim Management

Delinquency and Due Date

In most accounts receivable systems, certain actions beyond the original demand letter or claim notification generally occur when a receivable is not paid timely and becomes *delinquent*. These actions usually facilitate further collection action and/or disposition of the receivable. The Department believes that the processing of food stamp recipient claims should be no different from other receivables in this regard.

The Department is proposing in this rule to clearly define what constitutes *delinquency* in food stamp recipient claims. This is being proposed in an effort to increase consistency among State agencies in the treatment of food stamp claims with outstanding balances. This lack of consistency undermines the integrity of the aggregate receivable data compiled by the Department as part of its financial statement. The Department also feels that standardization is necessary in this instance because recipient claims are ultimately Federal debts and the individualized approach by State agencies results in inconsistent treatment. In addition, the proper aging of claims (which is a Treasury requirement for all Federal debts) facilitates optimal claim management from establishment through collection and final disposition. Therefore, the first step in effective and consistent post-establishment claims management requires a definition of delinquency that then triggers subsequent steps in the claims collection process.

The current regulations governing food stamp recipient claims at 7 CFR 273.18 do not define or even utilize the terms *delinquent* or *delinquency*. Delinquency, however, is defined at 4 CFR 101.2(b) in Treasury's FCCS as occurring when a claim "* * * has not been paid by the date specified in the agency's initial written notification* * * unless other satisfactory payment arrangements have been made by that date, or if, at any time thereafter, the debtor fails to satisfy obligations under a payment agreement with the creditor agency." The Department is planning to use this definition as a basis for defining delinquency for food stamp recipient claims.

Delinquency, in the FCCS's definition, is determined contingent upon the non-receipt of payment by the "date specified" in the notification unless other arrangements have been made. The "date specified" is commonly known as the *due date*. To have a delinquent claim based on the initial demand letter, according to the FCCS, the agency should have a due date specified in its initial demand letter. Therefore, in an effort to establish delinquency in conformance with the FCCS on this issue, the Department is proposing in § 273.18(g)(3)(v) to require that all initial demand letters contain a due date in their text. The due date would be up to 30 days after the date of the initial demand letter. This conforms with the response time frame established by the FCCS at 4 CFR 102.2(b).

The paragraph at 7 CFR 273.18(g)(2) in the current regulations governing recipient claims discusses the procedures when a household fails to make an installment payment in accordance with the established repayment schedule. This is the same situation as specified in the second part of the FCCS's definition of delinquency which states that a claim is considered delinquent when "* * * the debtor fails to satisfy obligations under a payment agreement* * * " In this instance, the due date would be the date that payment was to have been received in accordance with the installment agreement. The Department is therefore proposing, in § 273.18(g)(4) of this rule, that all repayment agreements specify when payments are to be due and that the claim will be considered delinquent and may be subject to involuntary collection actions if payment is not received by the due date.

The proposals in this rule to require a due date in both initial demand letters and installment agreements would give the Department the ability to define *delinquency* in a manner that is consistent with the FCCS's definition. While the Department recognizes that it has the authority to define terms and establish policy that differ from the FCCS, it feels that it would be in the best interest of the FSP to be consistent with the FCCS on this issue. Therefore, the Department, in § 273.18(g)(5) of this rule, is proposing to define a delinquent food stamp recipient claim as a claim: (1) Which has not been paid by the due date specified in the State agency's initial written demand letter and a satisfactory payment arrangement has not been made; or (2) if a satisfactory payment arrangement has been made, a claim for which a payment has not been paid by a date required payment in accordance with an established repayment schedule. A claim would remain delinquent under either of these criteria until payment is received in full, a satisfactory payment agreement is negotiated (or renegotiated), or allotment reduction is invoked.

The Department is proposing to have two exceptions to its definition of delinquency. The first exception involves multiple claims. The Department is proposing in § 273.18(g)(5)(iv) that a claim would not be considered delinquent if another claim or claims for the same household exists and the other claim(s) is currently being paid either through an installment agreement or allotment reduction. In addition, the State agency would have to expect to begin collection on the claim once the other claim(s) is settled. This is being proposed to ensure that claims that are collectible and simply "waiting their turn" would not be subjected to activities such as involuntary collection actions and termination.

The second exception to the definition of delinquency involves IPV claims where the collection is coordinated through the court system. The Department is proposing this exception in § 273.18(g)(5)(iv) because it recognizes that the State agency which is responsible for overall food stamp recipient claim collecting and reporting may be limited in its control over this type of claim. This exception to the definition would be optional depending upon the collection system and coordination between the court and State agency.

The Department is interested in receiving comments on this proposal to define delinquency.

Delinquency and Fair Hearing Requests

Current regulations governing fair hearing requests at 7 CFR 273.15(g) state that the "* * * household shall be allowed to request a (fair) hearing on any action * * * which occurred in the prior 90 days." For food stamp recipient claims, the 90-day fair hearing standard is applicable to the initial demand letter. Therefore, the Department is proposing in § 273.18(g)(6) of this rule to specify that, once a household timely requests a fair hearing, all attempts to collect the claim would cease. This would be done to protect the rights of the household. If, when the hearing decision is rendered, it is determined that a claim does, in fact, exist against the household, the household would be sent another demand letter. This demand letter may be combined with the notice of the hearing decision. The determination of delinquency would then be based on whether payment is received or an agreement to pay is reached by the due date on this subsequent demand letter.

If, when the hearing decision is rendered, it is determined that a claim does not exist, the Department is proposing in § 273.18(g)(8) that the claim be terminated and written-off. This is discussed in greater detail in another section of this preamble.

Claim Termination and Write-off

Section 13(a)(1) of the FSA (7 U.S.C. 2022(a)(1)) authorizes the Department to settle and adjust all or part of any food stamp recipient claim if it serves the purposes of the FSP. Current regulations at 7 CFR 273.18(e) specify the conditions by which collection action on claims may be suspended and terminated. Suspended claims are claims in which no more collection action will be actively taken. A suspended claim may be terminated after it has been held in suspense for three years.

In many State agencies, claims that are currently under "suspension" are being or soon will be subjected to a variety of collection methods. These methods include such collection alternatives as salary offset and State and Federal tax refund offset. The Department feels that, with the introduction of these innovative collection methods, it would be unlikely in an effective claims collection environment for a claim to fall under the definition of a suspended claim as per 7 CFR 273.18(e) in the current regulations. Therefore, the Department is proposing in this rule to eliminate all references to the concept of *suspending* food stamp recipient claims. Having a designation for claims that will be inactive for three years without any subsequent collection action being planned serves no purpose, especially with the advent of the additional collection methods.

In the current regulations, there is no *requirement* to terminate claims and there is no clear definition of this term. The regulations at 7 CFR 273.18(e)(ii)(3) simply state that a "* * * claim *may* be determined uncollectible after it is held in suspense for 3 years (emphasis added)." The lack of a requirement or clear definition has resulted in a large number of uncollectible claims being included in reports submitted to FNS and sizable account receivables being unnecessarily maintained in State agencies' ledgers. In addition, efficient and effective claims management advocates timely and aggressive action on a debt but with a quick disposition through termination when the probability of collection proves low.

A study released by a Departmental contractor in August 1994 entitled, "Standard Operating Principles and Detailed Standard Operating Procedures for Food Stamp Recipient Claims," recommended that terminating and writing-off claims be made a requirement if the claims meet certain criteria. The study compared the current approach to food stamp recipient claim accounting with generally accepted accounting principles. These generally accepted accounting principles included statements from the Federal Accounting Standards Advisory Board, Acts of Congress, Treasury regulations (including the FCCS), and other authoritative documents. Page 15 of the Departmental contractor study specified that an organization's termination and write-off policy should "* * * include the collection agent's definition of an uncollectible claim specifying which circumstances *require* a claim to be written-off and under which circumstances a claim may be deemed uncollectible by the decision of management. The write-off policy * * * should be strictly applied."

The Department, in § 273.18(g)(9) of this rule, is therefore proposing to define a *terminated* claim as one in which all collection action has ceased. Under the proposed rule, a terminated claim would be immediately *written-off*, that is, it would be no longer considered a receivable subject to continued Federal and State agency collection and reporting requirements. A claim would have to fit one of the five criteria listed below to be terminated and written-off.

In determining which criteria should be used to terminate a claim, the Department considered the

requirements found in 4 CFR 104.3 in the current FCCS published by Treasury. This paragraph of the FCCS contains five specific standards for terminating and writing-off claims: (a) The inability to collect any substantial amount; (b) the inability to locate the debtor; (c) the cost will exceed recovery; (d) the claim is legally without merit; or (e) the claim cannot be substantiated by evidence.

In determining the Department's termination and write-off policy, FCCS standard (a), *the inability to collect any substantial amount,* was considered as it is of fundamental concern when the debtors primarily consist of households which are currently participating or were recently eligible to participate in a means tested program such as the FSP.

FCCS standard (b), *the inability to locate the debtor,* was also considered in the development of the Department's proposed termination and write-off policy. The Department's termination and write-off policy being proposed in this rule takes into account the capabilities of the tax refund and other automated offset programs that are very effective in collecting from difficult-to-locate household members.

FCCS standard (c), *cost will exceed recovery,* is certainly a factor in the Department's proposal. Food stamp claims, by nature, are usually relatively small with the average claim established in Federal fiscal year 1995 being $464. This is also a predominant factor in a proposal discussed in another section of this preamble regarding cost effectiveness determination prior to claim establishment.

Food stamp recipient claim terminations and write-offs that may be applicable under FCCS standards (d), *claim legally without merit,* and (e), *claim cannot be substantiated by evidence,* are usually handled under the fair hearing process in the FSP. Administrative disqualification hearing and court determinations that specifically find that no overissuance occurred are also pertinent to these standards.

Taking into account FCCS standards (a) through (e), the Department is proposing in § 273.18(g)(9) to require State agencies to terminate and write-off a food stamp recipient claim if it meets any *one* of the following *five* criteria: (1) Any claim which is found to be invalid in a fair hearing, administrative disqualification hearing or court determination; (2) Any claim in which all adult household members are deceased and the State agency is not planning to pursue collection from the estate; (3) Any claim which has an outstanding balance of $25 or less and has been delinquent for 90 days or more; (4) Any claim that the State agency has determined is not cost effective to collect; or (5) Any claim that has been delinquent for three years.

The fourth Departmental criterion states that any claim that the State agency has determined not to be cost effective to collect shall be terminated and written off. To determine cost effectiveness, the Department believes that a State agency should use the standards already in use for food stamp recipient claims. If no standards currently exist, the State agency shall develop standards subject to FNS approval.

In the fifth Departmental criterion, a State agency would be required to terminate and write-off any claim that has been delinquent for three years. The decision to require termination and write-off after three years of delinquency is based on a recommendation in the aforementioned contractor study (August 1994). Page 16 of the study specifies that "* * * three years of *delinquency* is a reasonable amount of time to collect on outstanding debts, and that debts exceeding this time limit will likely not be collected with additional effort or time and should be written-off."

In addition, for the fifth criterion, the Department is proposing to add a qualifier that the State agency may opt not to terminate a claim which has been delinquent for three years or more if prior collections have been realized through Federal or state tax refund offset, salary offset or any other similar collection mechanism. This proposed qualifier was added because, even though these claims technically remain delinquent, the probability of collection via offset in the future may be relatively high because a portion of the claim has already been collected via this collection method.

An issue has been raised concerning the possible reinstatement of terminated claims if an additional collection methodology is introduced or an event (such as lottery winnings) occurs to substantially increase the likelihood of future collections. In such cases State agencies may reinstate the claim.

Compromising Claims

The areas in the current regulations at 7 CFR 273.18(g)(2) and (g)(4) concerning compromising claims would be consolidated into its own section, § 273.18(g)(7) in the proposed rule. The Department is proposing two revisions in this area to increase consistency with the FCCS at 4 CFR Part 103. The first proposed revision would limit the authority to compromise to claims under $20,000. The second proposed revision would provide that, if a claim becomes delinquent, any compromised portion of that claim would be reinstated to the claim balance.

Acceptable Forms of Payment

Current regulations at 7 CFR 273.18(g) indicate that payments for claims shall be accepted in various forms of cash, food coupons, offsets, intercepts and reductions to the household's allotment. The Department is proposing some policy clarifications and changes in this area.

"Cash" Payments

The Department would like to clarify in § 273.18(h)(2)(i) of this rule that acceptable "cash" payments for food stamp claims actually take several forms. In addition to traditional forms of cash payments such as cash, check or money order, the Department also considers payments made via credit and/or debit cards as acceptable methods of payment if the State agency has the capability to accept such payments. Payment in these and other generally accepted formats are acceptable for both lump sum and installment payments. Offering alternative forms of payment increases the possibility of collection and State agencies are encouraged to explore these alternative payment methods.

Currently, no policy exists regarding the issue of crediting cash collections received as general lump sum or installment payments for joint food stamp/other social service program recipient claims. In an effort to ensure that each program receives its fair share in joint collections, the Department is proposing, in § 273.18(h)(2)(ii) of this rule, to require that each program receive its appropriate pro rata share of any installment collection. For example, under the proposed rule, if a $700 public assistance and $300 food stamp claim were combined into a $1,000 claim, 30 percent of an undesignated payment would be credited to the food stamp portion of the claim while 70 percent would be credited to the public assistance portion. This proposal would not pertain to any designated payment or agreement that includes the specific withholding of public assistance or food stamp benefits to satisfy a claim.

Coupon and EBT Payments

The Department is not proposing any changes to the current regulations regarding payments made using paper food coupons. The Department is also not proposing any changes regarding the handling of coupons or coupon books collected as payments. However, EBT

benefits are also included under the definition of coupon in the current regulations at 7 CFR 271.2. The Department believes that the distinctive characteristics of EBT, as opposed to those of the traditional paper food coupon system, warrant special attention in the area of recipient claims collection.

An active EBT benefit account is one in which benefits have been accessed within the last three months. The Department is proposing, in § 273.18(h)(4)(iii) of this rule, to make the policy concerning active EBT benefit accounts and claims collection consistent with the current policy regarding claim repayment via paper coupons. This would allow a household to voluntarily pay all or part of its outstanding claim with funds taken from its EBT benefit account. This would differ from allotment reduction in that the payment is being made subsequent to the allotment being issued and credited to the household's EBT benefit account.

The actual methodology and procedure to enact this transaction regarding the use of Point-of-Sale devices, administrative terminals or any other acceptable method to conduct these transactions would be determined by the State agency and included in its EBT system design.

In addition to the above, the Department is proposing an additional requirement to safeguard the rights of households by ensuring that involuntary payments would not be made from EBT benefit accounts. The proposed rule, in § 273.18(h)(4)(iii), would require that the State agency secure and retain a statement or document signed by a household member or representative authorizing the transaction. A signed document for each transaction would not be necessary, however, if each transaction was completed in accordance with a signed repayment agreement or similar document. The signed agreement would serve as adequate documentation.

The same policy that applies to active EBT benefit accounts also applies to inactive or stale EBT benefit accounts. Inactive or stale EBT benefit accounts are those accounts that have not been accessed for three months or longer and have yet to be expunged. The Department, in § 273.18(h)(4) of this rule, is proposing that voluntary payments from inactive or stale accounts be accepted once the account is reactivated at the request of the household in accordance with 7 CFR 274.12(f)(7).

The Department recognizes that some State agencies may have difficulty assimilating this change into already existing EBT environments. However, State agencies, by complying with the current requirements in 7 CFR 274.12(e)(1), should already have a system in place to administratively adjust amounts in EBT benefit accounts. Adapting this system for paying off claims may not be a major undertaking. The Department believes that, in addition to maintaining consistency with the current policy regarding paper coupons, cooperating households should be afforded maximum flexibility in their efforts to voluntarily repay a claim.

The Department would also like to take this opportunity to stress that the collection of claims using EBT benefits is considered a non-cash collection and corresponding funds should not be drawn from the Federal EBT benefit account by the State agency when this type of collection is made.

EBT benefit accounts that have not been accessed by the household for one year are expunged and households lose all entitlement to these benefits. These benefits are then returned to FNS in accordance with 7 CFR 274.12(f)(7) of the current regulations. The Department considered allowing State agencies to treat already expunged EBT benefits as a "collection" and therefore allow State agencies to retain their appropriate share of the collection. However, since the accounts were already expunged and returned to FNS, a complex system and reporting mechanism would need to be designed and implemented to ensure that these "collected" but expunged (and therefore essentially nonexistent) funds are properly accounted for in FNS and State agency reporting. The Department feels that this would be inefficient and not cost effective from both a Federal and State agency perspective.

However, the Department does recognize that these are benefits that the household never used. This presents the possibility that a household may have consciously not used its benefits because it was aware of the existence of an overissuance and, essentially placed these funds "in escrow" to make good on the error. The Department believes that including this amount in a claim to repay the overissuance is inappropriate. Therefore, the Department is proposing, in § 273.18(e), to allow a State agency to subtract the value of expunged EBT benefits from overissuances prior to the establishment of the claim. This would be the final step in the claim calculation process and would not be considered a "collection" for Federal reporting purposes. In instances where the claim is already established and benefits become expunged, the State would subtract the amount of the expunged benefits from the claim balance. This is reflected in § 273.18(h)(4)(v) of this proposed rule. Again, this adjustment would not be considered a "collection" for Federal reporting purposes.

The Department is interested in receiving comments on the use of funds from EBT benefit accounts to repay outstanding recipient claims.

Collection and Payment Methods

Section 844 of the PRWORA made significant changes to the FSA (7 U.S.C. 2011–2032) in the areas of collections and payments. One revision to section 13 of the FSA (7 U.S.C. 2022) states that a State agency shall collect a claim "* * * in accordance with requirements established by the State agency for * * * electing a means of payment, and establishing a time schedule for payment." This change is significant in two areas. First, the State agency, and not the household, now determines the appropriate collection method, including whether to provide options to the household, when the claim is initially established. Second, this revision also provides the State agency with the ability to involuntarily subject all claims to all collection methods—including those such as allotment reduction for AE claims that, until the enactment of the PRWORA, could only be collected on a voluntary basis. These changes are reflected in each applicable paragraph in § 273.18(i) in this proposed rule.

The PRWORA addresses specific collection methodologies by stating that a claim shall be collected by "* * * (A) reducing the allotment of the household; (B) withholding amounts from unemployment compensation * * *; (C) recovering from Federal pay or Federal income tax refund * * *; or (D) any other means." The PRWORA further states that these methods shall not be applicable if the State agency can demonstrate "* * * that all of the means are not cost effective." This proposed rule includes a paragraph in § 273.18(i) for each of the collection methods (allotment reduction, unemployment compensation, and Federal salary and Federal income tax refund offsets) specified in the PRWORA. Federal salary and Federal income tax refund offsets are also discussed in much greater detail elsewhere in this preamble and in § 273.18(p). In addition, other means of payment, notably lump sum and via installments, are included in § 273.18(i). Cost effectiveness is addressed in the detailed discussion for each payment method as well as in the discussions in

this preamble regarding pre-establishment cost effectiveness determination and claim termination and write-off.

Allotment Reduction

A major change in section 13 of the FSA (7 U.S.C. 2022) brought about by section 844 of the PRWORA involves the use of allotment reduction to collect claims. Prior to the enactment of the PRWORA, a participating household with any type of claim could opt to pay its claim using a method other than allotment reduction. In addition, a State agency was statutorily prohibited from invoking involuntary allotment reduction against a household with an AE claim. Section 844 of the PRWORA removed the household's right to choose the payment option for any type of claim. As a result, this places allotment reduction, which is widely recognized by State and local agencies as the most cost effective and efficient food stamp recipient claim collection method, in the forefront as the primary collection method.

This is being reflected in this rule. The Department is proposing, in § 273.18(i)(1), to require that a State agency automatically collect payment from a participating household for any established claim, including an AE claim, through allotment reduction. There would only be two stipulations to this proposal. The first would be that the household would need to be initially notified of the existence of the claim. This is discussed in greater detail elsewhere in this preamble. The second stipulation would be that a household's initial allotment shall not be reduced to collect the claim. This stipulation is included because the initial allotment is usually pro rated and therefore has already been reduced. This is not a change from current policy.

Some may argue that it is unfair to a household to collect an AE claim through involuntary allotment reduction since the reason for the overissuance was not the fault of the household. The Department believes that, since Congress specifically removed the prohibition from the FSA, that it is clearly the intent of Congress to allow this type of collection.

In addition to the above, the Department is proposing to make three additional policy and several structural revisions to the paragraph governing allotment reduction at 7 CFR 273.18(g)(4) in the current regulations. The structural revisions are being proposed to avoid repetition by eliminating much of the language in the introductory paragraph that may be found elsewhere in the rule. This includes the notification procedures and the acceptance of lump sum payments.

Two of the three additional policy changes in allotment reduction being proposed concern the current benefit reduction procedures and IPV claims. The current regulations at 7 CFR 273.18(g)(4)(i) provide that benefit reduction for an IHE claim is to be computed from the monthly *allotment*. The allotment is the benefit level that the household is scheduled to receive. Benefit reduction (in current 7 CFR 273.18(g)(4)(iii)) for an IPV claim, on the other hand, is to be computed from the monthly *entitlement*. The entitlement is the benefit amount that the household would have received if the household member was not disqualified for committing the IPV. Several State agencies have obtained waivers to use the allotment rather than the entitlement as the basis for reducing the household's benefits. For the purposes of administrative efficiency, which was the basis for the Department approving the waivers, this rule, in § 273.18(i)(1)(ii), would allow all State agencies to determine the benefit reduction amount for IPV claims based on either the allotment or entitlement as long as all areas within the State handles the calculation of benefit reductions in the same manner.

Current regulations at 7 CFR 273.18(g)(4)(iii) limit the reduction amount for an IPV claim to the greater of 20 percent of a household's monthly entitlement or $10 per month. In the second policy change, the Department is proposing, in § 273.18(i)(1)(ii), to increase the maximum recoupment amount for an IPV claim to the greater of $20 per month or 20 percent of a household's monthly entitlement or allotment. This is being proposed as an effort to expedite the collection of claims stemming from intentional violations. The rule also proposes in § 273.18(i)(1)(i) to provide that individuals in households subject to allotment reduction are not subject to involuntary collection by any other methods.

The final policy change being proposed in this rule is to specifically include a paragraph (§ 273.18(i)(1)(v)) which would provide a State agency with the prerogative to pursue additional collection methods against individuals who are past household members and who are severally responsible for repayment of this claim. This is being proposed because of the dynamic nature of households in regard to make-up and participation in the FSP.

Intercept of Unemployment Compensation Benefits

Current regulations at 7 CFR 273.18(d)(3)(vi) state that a State agency may implement the intercept of unemployment compensation benefits as a voluntary payment option for IPV claims. In addition, the current regulations at 7 CFR 272.12 also discuss collecting claims via this method. In an effort to streamline this area of the regulations, the Department is proposing, in this rule, to remove the paragraph currently at 7 CFR 272.12.

In addition to the above streamlining effort, a change in policy, brought about by section 844 of the PRWORA, is being proposed regarding collection via an intercept of unemployment compensation benefits.

Currently, the intercept of unemployment benefits is allowed only for IPV claims. Section 273.18(i)(5) of the proposed rule would extend this collection method to any claim. This is being proposed to conform with the requirement in section 840 of the PRWORA that provides for a State agency to use any collection method to collect any type of claim.

Currently, unemployment compensation intercept is optional and State agencies are not mandated to use this collection method. The Department is not proposing to change this policy in this rule. The reason for the Department not proposing to mandate this collection method is that the intercept of unemployment compensation benefits is State-specific and therefore it may not be cost effective to implement in some State agencies. Even though this would remain an option under this proposed rule, the Department strongly urges State agencies to pursue this avenue of claims collection.

Coordination with Federal Claim Collection Methods

Current rules specify requirements for FTROP and FSOP at 7 CFR 273.18(g)(5) and (g)(6). This rule would include proposed requirements for these as well as other Federal collection programs such as the Treasury Offset Program (TOP) at § 273.18(p). To the extent that it is feasible, the Department wants State agencies to use these and other Federal collection methods concurrently with State agency methods. Accordingly, this rule proposes at § 273.18(i)(7) to authorize such concurrent collection.

Lump Sum Payments

Current regulations at 7 CFR 273.18(g)(1)(i) through (iii) allow for the full or partial collection of claims via a

lump sum cash or coupon payment. As part of the regulatory reorganization, these three paragraphs would be consolidated into one paragraph (§ 273.18(i)(3)) in the proposed rule. The proposed rule would also include using funds in an EBT benefit account as a lump sum payment. This is discussed in greater detail elsewhere in this preamble.

Installment Payments

Current regulations at 7 CFR 273.18(g)(2) provide the procedures for installment payments. The Department is not proposing to make any substantial change to the procedure found in the first paragraph (7 CFR 273.18(g)(2)(i)) of this section. Paragraphs (ii) through (iv) of 7 CFR 273.18(g)(2) in the current regulations provide detailed procedures for when the household fails to make a scheduled payment. These procedures currently call for providing a household with another notice and an opportunity to renegotiate its payment schedule if it fails to make a payment. The Department, in an effort to streamline this area of the regulations, is proposing to increase State agency flexibility by eliminating much of the language contained in these paragraphs.

The Department believes that installment payments should be made available but also should be at least as efficient and effective as allotment reduction and other collection methods. Consequently, the proposed rule at § 273.18(i) would permit a State agency to take whatever action it feels is appropriate if a household fails to make an installment payment provided the household was previously notified of a potential adverse action if payments are not made in accordance with the terms of the original repayment agreement.

Additional Collection Actions

The Department is proposing in § 273.18(i)(6) to add a paragraph stating that State agencies may employ any additional collection methods to collect claims. These actions would include, but would not be limited to, referral to a collection agency, state tax refund and lottery offsets, wage garnishments, property liens and small claims court. This is being proposed to clarify that State agencies are able to employ any other means of collection for all types of claims.

Retention Rates

The applicable retention rates in the current regulations at 7 CFR 273.18(h) for collections by a State agency are 50 percent for IPV claims and 25 percent for IHE claims. Section 844 of the PRWORA changes these rates by amending section 16(a) of the FSA (7 U.S.C. 2025(a)) to replace the current rates with 35 percent retention for IPV claims and 20 percent retention for IHE claims. In addition, as indicated in section 13 of the newly amended FSA (7 U.S.C. 2025), if an IHE claim is collected via unemployment compensation, that collection would also have a 35 percent retention rate. The Department is proposing, in § 273.18(m) of this rule to make the adjustments in the rates accordingly.

Submission of Payments

Current regulations at 7 CFR 273.18(i) discuss the procedures for the submission of State agency payments for claims collections to FNS and payments from FNS to the State agency. The only change that the Department is proposing in this area is to eliminate the State agency option of receiving a Federal check for payment of claims collection retention and replace it with electronic funds transfer. The Department is proposing this change to comply with the DCIA. The DCIA requires Federal agencies to convert from checks to electronic funds transfer. In addition, as part of the regulatory reorganization, much of the prescriptive language would be removed and this paragraph would be moved to § 273.18(n) in this proposed rule.

The current regulations at 7 CFR 273.18(i)(4) discuss providing refunds for overpaid claims. As part of the regulatory reorganization, this is broken out into its own paragraph, § 273.18(j), in the proposed rule.

Bankruptcy

Current regulations at 7 CFR 273.18(k) discuss the procedures for proceeding against households with claims which file for bankruptcy. The current policy authorizes State agencies to act on FNS's behalf to recover claims when households file for bankruptcy. The Department is not proposing to make any changes in policy regarding this area of the regulations. However, as part of the regulatory reorganization, this paragraph would be moved to § 273.18(l) in this rule.

Accounting Procedures

Current regulations at 7 CFR 273.18(l) discuss the accounting requirements and procedures to be maintained by State agencies. Further procedural clarification is being provided on this issue and this paragraph is being moved to in § 273.18(o) in this rule.

Interstate Claim Collection

Current regulations at 7 CFR 273.18(m) discuss the continuation of collection action against households that have an outstanding claim and move from one State agency's jurisdiction to another. The regulations state that a receiving State agency should initiate or continue collection action when it ascertains that the originating State agency does not intend to pursue collection. Feedback received from State agencies indicates that this policy has not been successful in recovering interstate claims and needs to be strengthened to assure cooperation among State agencies. A number of State agencies have entered into claim-transferring agreements among themselves on their own initiative but it has not been a nationwide effort. This has resulted in a household being able to avoid paying its claim simply by relocating to another State. Federal tax refund offset does address this issue to some extent by conducting a nationwide search and subsequently collecting claims against household members regardless of where they currently reside. However, Federal tax refund offset is limited to those households with members who file a Federal income tax return and are due a refund.

The Department believes that food stamp recipient claims, as Federal debts, should be more vigorously pursued by State agencies when households move across State borders. Therefore, the Department is proposing to amend 7 CFR 273.18(m) by breaking it out into separate paragraphs to specifically outline the responsibilities of the originating and receiving State agencies. This amendment is intended to maximize collection potential while maintaining State agency flexibility.

The Department is proposing that, unless an actual interstate transfer takes place, the originating State agency will continue to have the responsibility for collection action on any recipient claim regardless of whether the household remains in its jurisdiction. State agencies, however, would be able to formally transfer this responsibility for individual claims to receiving State agencies under certain circumstances. The types of interstate transfers being proposed are discussed in the succeeding paragraphs of this preamble.

To strengthen the interstate claim collection process for participating households, the Department is proposing to further amend 7 CFR 273.18(m) to require that a State agency must accept the transfer of the remaining balance of any claim from another State agency if it is discovered that the household is participating in the FSP in the receiving State. This ensures efficient claims collection since allotment reduction, a highly effective

collection tool, is available to the receiving State agency. Once the transfer takes place, the claim would then no longer be the responsibility of the originating State agency and the receiving State agency would be able to retain any applicable retention amounts for subsequent collections. The amended regulatory text being proposed is being designated as its own paragraph, § 273.18(k)(3) in the proposed rule.

In addition, to facilitate this process, the Department is proposing, in a new paragraph, § 273.18(k)(2), to require that State agencies timely respond to inquiries concerning household participation received from State agencies who have reason to believe that a household or adult members of a household with an outstanding claim have relocated to that State. A response would be considered timely if a determination is made within 30 days. If an examination of the receiving State agency's caseload does reveal that the household (or any of its adult members) are, in fact, receiving benefits in that State, the State agency would then accept the transfer of the claim balance from the originating State agency and continue collection action efforts including allotment reduction. The receiving State would keep any retention amounts for transferred claims.

The Department is also proposing to add another new paragraph, § 273.18(k)(4), to allow, but not require, receiving State agencies to accept the transfer of any claim if the household is not participating. This policy is being maintained to maximize flexibility as well as facilitate the new claim termination process being proposed in another section of this rule.

Federal Claim Collection Methods (FCCM's)

This rule proposes changes to current regulations on FTROP and FSOP. These changes are proposed to incorporate certain legislative changes and to implement certain other changes based on experience operating these programs. The Department believes that these changes will enhance the collection of recipient claims and will make that collection more efficient, especially for State agencies. In summary, these changes would:

—Require all State agencies to use FCCM's (unless the methods are shown to be not cost beneficial).
—Require that all claims that meet the criteria, including AE claims, be submitted for collection under FCCM.
—Provide that claims may be collected by FTROP and/or administrative offset (ADOP), or by FSOP and/or ADOP.
—Provide that FTROP 60-day notices and FSOP advance notices advise debtors that their claims are subject to ADOP.
—Comply with the hearing requirements for ADOP with the hearing opportunities currently provided under FTROP and FSOP.

Federal Claim Collection Methods (FCCM's)

This rule would introduce the phrase "Federal claim collection methods" and its acronym "FCCM's" at § 273.18(p)(1). Currently there are two such collection methods, FTROP and FSOP. As discussed later in this preamble, this rule is proposing an additional collection method that would be operated at the Federal level. The new method is ADOP. There are several policies and procedures that would become common to these three collection methods. As discussed in this preamble several paragraphs below, FNS plans to develop a single manual which for all three programs would contain such things as computer system record layout and production schedules and guidance on procedures for handling special cases and for fiscal and accounting matters. The rule would also specify that under FCCM's State agencies would retain their recipient claims responsibilities, that would provide certain information on claims subject to FCCM's and would receive amounts collected based on the currently authorized retention rates.

Mandated Participation

Section 844 of PRWORA amended section 13(b) of the FSA (7 U.S.C. 2022(b)) to require that, unless State agencies can demonstrate that the methods are not cost effective, they must collect overissued food coupons (recipient claims) from Federal pay or Federal income tax refunds.

Currently, these two collection methods, FTROP and FSOP are optional for State agencies. Regulations at 7 CFR 273.18(g)(5)(i) provide that State agencies which choose to implement FTROP must submit an amendment to their Plan of Operation stating that they will comply with FTROP regulations. Choosing to implement FTROP entails implementing FSOP because current regulations at 7 CFR 273.18(g)(6)(i) provide that all claims submitted for FTROP are also subject to FSOP. This rule proposes to delete the language on State agency option to implement FTROP. At § 273.18(p)(2)(i), the rule would require that all State agencies submit all claims which meet certain criteria for collection by FCCM's.

Mandatory implementation of FCCM's will affect few State agencies. In calendar year 1998, of the 52 State agencies who could use FCCM's, 47 are doing so. As discussed under the paragraph on Implementation at the end of this preamble, this rule would be required to be implemented 180 days after its publication is final. The Department expects that this implementation period would be sufficient for State agencies to implement FCCM's during calendar year 1999.

Consistent with mandatory implementation of FCCM's, this rule proposes deleting the requirement (in current rules at 7 CFR 272.2(a)(2) and (d)(1)(xii) and 7 CFR 273.18(g)(5)(i)(A)) that State agencies choosing to implement FTROP and FSOP submit an amendment to their Plan of Operations.

Administrative Offset

Prior to the DCIA, under administrative offset, debts owed by persons to the Federal government are collected from payments due those persons from the Federal government. The DCA at 31 U.S.C. 3716 as amended by the DCIA greatly expanded the Federal government's authority to collect Federal debts through ADOP.

The Department believes that implementing the DCIA's provisions relating to ADOP would significantly enhance collection of FSP recipient claims. First, the amended DCA at 31 U.S.C. 3716(c)(1)(A) requires that, with certain exceptions, disbursing officials of Federal government agencies must at least annually offset from Federal payments claims submitted by creditor agencies. Heretofore, while there has been general authority for administrative offset, there has not been a general requirement that Federal payments due to individuals be offset against debts those individuals owe the Federal Government. Second, the amended DCA at 31 U.S.C. 3716(c)(3)(A)(ii) provides that, except for a $9,000 annual exemption, all payments due a debtor under the Social Security Act are subject to ADOP. Third, the amended DCA at 31 U.S.C. 3716(c) centralized the ADOP procedures in a single Federal agency, the Department of the Treasury.

Accordingly, as discussed in detail later in this preamble, this rule proposes to add ADOP to FTROP and FSOP by modifying the required due process and privacy notices to notify the debtor that, in addition to being subject to collection from tax refunds and Federal wages, the claim in question is also subject to

collection from other payments due the debtor from the Federal government. The Department expects that there will be little work impact on State agencies related to referring claims for ADOP. FNS will refer for collection by ADOP claims submitted by State agencies. FSOP claims referred to FNS for notices of intent which are referred for collection from Federal salaries will also be referred for collection by ADOP. Funds collected through ADOP will be transferred to State agencies and reported with FTROP and FSOP collections. Current regulations on FTROP specify update requirements for State agencies, and FNS has provided State agencies update procedures for FSOP. This rule proposes a general requirement for updating records of claims submitted for collection through FCCM's.

Cross Servicing

The amended DCA at 31 U.S.C. 3711(g) requires that debt delinquent over 180 days be transferred to the Secretary of the Treasury for "cross servicing." Under cross servicing, the Department of the Treasury (Treasury) would pursue a variety of claims collection actions such as referring the claim under FTROP and FSOP. Treasury would refer debts to debt collection centers (selected Federal agencies) which would pursue these actions.

The Department is currently working with Treasury to determine the best way to implement this collection strategy. As such, this rule does not propose adding procedures for cross servicing at this time.

Claims Subject to FCCM's

As part of administrative offset provisions, the amended DCA now requires at 31 U.S.C. 3716(c)(6) that any Federal agency that is owed a past due, legally enforceable nontax debt that is over 180 days delinquent, including nontax debt administered by a third party acting as an agent for the Federal Government, must notify the Secretary of the Treasury of *all* such debt for purposes of administrative offset (emphasis added). Currently, rules for FTROP and Salary Offset set criteria for claims which *may be* submitted for collection under these procedures. This rule proposes that, subject to two conditions discussed just below, all delinquent recipient claims be submitted for collection under FCCM's. The Department is proposing this requirement because FCCM's are extremely effective. For example, net dollar collections under FTROP (voluntary payments and collections from Federal tax refunds less offset fees and Treasury reversals) exceed 20 percent of the dollar value of claims submitted. FSOP offers the only way to locate and pursue collection against the salaries of Federal employees who are liable for overissued food stamp benefits. (The Internal Revenue Service (IRS) currently prohibits referral of debts for FTROP which can be collected from Federal employees' salaries.) Finally, and especially with the addition of ADOP, FCCM's provide State agencies access to sources of significant collections not otherwise available to them.

In addition, this rule proposes that, unless no liable individual can be located, State agencies must pursue one or more State agency claim collection method before submitting a claim for collection under FCCM's. The rule proposes to specify that demand letters sent to liable individuals at the most current address known to the State agency and returned as undeliverable would be sufficient to show that no liable individual could be located. The requirement for State agency collection initiative as a condition to the use of FCCM's is being proposed to make the procedures for the other components of FCCM consistent with the FTROP requirement that the (Federal) agency satisfy the Secretary of the Treasury that the agency has made reasonable efforts to obtain payment of the debt. (See 31 U.S.C. 3720A(b)(4).) In addition, the Department believes that it is most efficient for State agencies to attempt collection action with methods available to them and that if those methods are not successful relatively soon after initiation, debts should be referred for collection through FCCM's.

As stated above, the amended DCA at 31 U.S.C. 3711(c)(6) requires that claims 180 days delinquent be submitted for ADOP. State agencies are establishing claims at a rate of over 775,000 per year. To have a State agency submit each claim for FCCM's as soon as that claim is 180 days delinquent is not administratively or logistically possible at this time. Therefore, the Department is proposing that State agencies be required to submit claims for FCCM's at intervals to be determined by the Department. The Department will continue to work with Treasury to fine tune this process to implement this aspect of the DCIA.

Accordingly, this rule proposes at § 273.18(p)(1)(i) that all claims would be subject to collection by FCCM's only after the State agency has initiated one or more State agency collection methods. The rule also proposes that the requirement for a State agency collection effort will not apply when no liable individual can be located as indicated by such evidence as demand letters returned as undeliverable. Finally, in this regard, the rule proposes that State agencies must submit all delinquent claims for collection by FCCM's.

Procedures and Schedules

Current rules at 7 CFR 273.18(g)(5)(i)(B) specify that State agencies submit data for FTROP to FNS in the record formats specified by FNS and/or Treasury, and according to schedules and by means of magnetic tape, electronic data transmission or other method specified by FNS. This rule proposes to apply these procedures to FCCM's in general.

This rule would require that, in addition to following computer data-related guidance, State agencies follow other technical and procedural guidelines as specified by FNS. During the testing of FTROP and FSOP, FNS conducted several national training sessions during which FNS provided substantial guidance on computer system operations, policy requirements and the financial reporting and funds processing for FTROP and FSOP. Following the training sessions, FNS provided packages of written responses to questions raised during the sessions. On an ongoing basis, FNS responds to numerous questions from State agencies concerning how to handle particular cases with respect to computer systems, collection policies and financial and accounting procedures. FNS sees a need to continue to provide this material so that all staff, Federal and State agency, involved with different aspects of FCCM's, have a single, consolidated operations manual.

This manual will be called the "Manual for Federal Claims Collection Methods for the Food Stamp Program" (the FCCM manual). The basis of the FCCM manual would be the current manual used for FTROP and FSOP data management (the Federal Debt Collection Program Revenue Procedure Manual 1997). As is the case with the current manual, the FCCM manual would be a vehicle for providing technical guidance for complying with established regulatory requirements. (See § 273.18(p)(1)(ii).)

Identification of Type of Claims

Currently State agencies are not required to identify the type of claim submitted for FTROP and FSOP. This rule proposes to require that claims submitted for collection under an FCCM be identified as an IPV, IHE or AE claim. Instructions on how to make such identification will be provided in the

FCCM Manual. The new information would be included in currently required data submissions and record formats. The rule proposes this new requirement because, effective with implementation of this rule, for collection made under FCCM's, FNS intends to transfer to State agencies the dollar amount of each collection to which the State agency is entitled based on current retention rates for each type of claim. Currently, FNS transfers gross collections net of IRS fees from FTROP and FSOP to State agencies. State agencies then report these collections to FNS on the FNS–209, Status of Claims Against Households, retain the percentage of the collections to which they are entitled under section 16(a) of the FSA (7 U.S.C. 2025(a)) and transfer appropriate amounts back to FNS. With annual FTROP collections of about $40 million, this process results in significant amounts of Federal funds not being as promptly transferred to Treasury as they could be.

Current rules allow State agencies to combine claims for an individual into one claim in order to try to collect on all of the claims through FTROP or FSOP. This rule would require that for any claim submitted for collection under FCCM's which is a combination of more than one type of claim, the State agency must specify the dollar amounts due to each type of claim.

File Updates

Current rules at 7 CFR 273.18(5)(ix)(A) require that for FTROP purposes State agencies update Treasury files. As discussed above, this rule proposes to make that requirement apply to FCCM's in general. Accordingly, this rule at § 273.18(p)(1)(iv) proposes to require that, as instructed in the FCCM manual, State agencies must update files by reducing the amounts of and deleting claims to reflect payments received, and by deleting claims which for other reasons are no longer subject to collection.

Hierarchy of Collection Methods

The mechanisms for ADOP are currently being developed. Consequently, the Department expects that until those mechanisms are in place, claims submitted for collection under FTROP and FSOP will be collected through those methods before any remaining debt is collected through ADOP from other Federal payments. Once ADOP is operational, a debt submitted under FTROP, for example, might be collected from another Federal payment if that payment was identified and available before the tax refund was offset. Accordingly, this rule proposes to state at § 273.18(p)(2)(v) that claims submitted under FCCM's would be offset from Federal payments due to debtors as such payments are identified and are available for offset.

Federal Income Tax Refund Offset Program (FTROP)

Among other things, this rule proposes to simplify the statement of criteria for claims subject to collection under FTROP, shorten and restructure the 60-day notice to eliminate unnecessary material, and to clarify that the 60-day notice is a demand for payment of a debt.

Limitation to IPV and IHE Claims

Current rules at 7 CFR 273.18(g)(5)(ii)(A)(*1*) limit the types of claims subject to FTROP to IPV and IHE claims. As discussed earlier in this preamble, section 844(a) of the PRWORA amended the FSA to provide that, subject to a State agency's demonstration that the collection method is not cost effective, all claims collection methods must be applied to all types of claims. Accordingly, this rule proposes to remove the limitation of FTROP to IPV and IHE claims.

Properly Established Claims

The regulatory paragraph cited just above also specifies that claims submitted under FTROP must be properly established no later than the date the State agency transmits its final request for Treasury addresses for the particular offset year. This requirement was made to assure that claims are not referred for collection under FTROP unless and until an individual has had an opportunity for a fair hearing and any fair hearing decision is reached. As discussed above, this rule proposes at § 273.18(g)(6) to require that State agencies cease any collection action upon timely receipt of a fair hearing request. Accordingly, this rule proposes not to reiterate the proposed requirement with respect to FTROP.

Required Documentation

The same regulatory paragraph cited above also elaborates on the records required for properly established claims. The Department believes that this language is unnecessary. State agencies will develop and retain appropriate records of their claims activities as a result of the various requirements for those activities proposed in this rule. In addition, the current regulations at 7 CFR 272.1(f) already require state agencies to retain fiscal records and accountable documents for 3 years from the date of fiscal or administrative closure. This rule does not propose any changes to this policy. Accordingly, this rule proposes not to state a records requirement specifically for FTROP or any other FCCM.

Collection From All Liable Parties

Current rules at 7 CFR 273.18(g)(5)(ii)(A)(*2*) specify that for a claim to be subject to FTROP the State agency must have verified that no individual who is jointly and severally liable for the claim is also currently participating in the FSP in the State. Since claims owed by participating households must be recouped from the monthly allotment, this requirement prohibited the simultaneous collection of a claim from a participating household through recoupment and from nonparticipating household members through FTROP.

State agencies objected to this restriction. They argued that with the restriction the entire burden of paying the claim fell on participants. State agencies also objected to the restriction because collection solely by recoupment meant that claims were often paid more slowly than they could be when there were liable, nonparticipating individuals with Federal tax refunds. This rule proposes at § 273.18(i)(1)(v) to allow simultaneous collection through recoupment from liable, participating households and through other means from liable, nonparticipating individuals. In addition, this rule proposes at § 273.18(i)(1)(i) to prohibit additional involuntary collection from individuals who are in households subject to allotment reduction. Accordingly, the rule proposes to delete from current rules the requirement that for a claim to be subject to FTROP the State agency must have verified that no individual who is jointly and severally liable for the claim is also currently participating in the FSP in the State.

Concurrent Collection Efforts

Current rules at 7 CFR 273.18(g)(5)(ii)(A)(*5*) state that claims are not subject to FTROP if the State agency is receiving either regular voluntary payments or involuntary payments such as wage garnishment. In addition, the rule specifies that claims for which a State agency has been receiving regular payments (either voluntary or involuntary) are considered past due and legally enforceable (and so are subject to FTROP) if the individual does not respond to a notice of default.

As discussed earlier in this preamble, this rule proposes at 7 CFR 273.18(i)(7) that State agencies may continue (State-based) collection efforts on claims after submitting them for collection under

FCCM's. Accordingly, this rule proposes to eliminate the requirement that claims cannot be submitted for FTROP if the State agency is receiving voluntary or involuntary payments such as wage garnishment.

Under provisions related to voluntary payments which this rule proposes at 7 CFR 273.18(i)(4), there would no longer be a requirement that State agencies send households which fail to make scheduled payments a notice and an opportunity to renegotiate the payment agreement.

No Reduction in the Dollar Amounts Submitted

Current rules at 7 CFR 273.18(g)(5)(ii)(B)(*1*) require that all claims submitted for collection under FTROP must be reduced by any amounts subject to collection from State income tax refunds or from other sources which may result in collections during the offset year. This rule proposes to eliminate this provision because, as discussed above, this rule proposes to allow State agencies to continue to pursue State agency collection efforts on claims submitted for collection under FCCM's. State agencies will have an increased responsibility to maintain adequate records of collections in order to minimize over collections and to promptly refund any which might occur.

Claims Apportioned Among Two or More Individuals

Current rules at 7 CFR 273.18(g)(5)(ii)(B)(*3*) provide that if a claim submitted under FTROP is apportioned between two or more individuals who are jointly and severally liable for the claim, the sum of the amounts submitted cannot exceed the total amount of the claim. This rule proposes to eliminate this provision. The apportioning of a claim as prescribed in this provision was required to conform to an informal IRS policy. The Department believes that the provision for joint and several liability established by section 13(a)(2) of the FSA (7 U.S.C. 2022(a)(2)) establishes the Department's authority to pursue a claim's full amount from all liable adults until the claim is paid. Debtors are protected by the requirement for State agencies to promptly post records and provide refunds of any over collections as this rule proposes at § 273.18(j).

All Delinquent Claims

Current rules at 7 CFR 273.18(g)(5)(ii) provide that State agencies *may* submit claims for collection under FTROP recipient claims which are past due and legally enforceable. As discussed above, this rule would require that *all* claims which are delinquent and have been subject to one or more State agency collection methods are subject to collection under FCCM's. Accordingly, this rule proposes to state at § 273.18(p)(2)(i) that State agencies must submit for collection all recipient claims which are delinquent, which are legally enforceable and which meet the criteria specified in the subsequent subparagraphs.

Minimum Dollar Value

Current rules at 7 CFR 273.18(g)(5)(ii)(A)(*3*) require that claims submitted under FTROP must meet at least the minimum dollar amount established by Treasury. This minimum continues to be $25. This rule would make no change in this requirement. FNS would advise State agencies if the Treasury minimum changes. The requirement is stated at § 273.18(p)(2)(i)(A) in this proposed rule.

10-year Limit

Current rules at 7 CFR 273.18(g)(5)(ii)(A)(*4*) require that claims submitted under FTROP must be claims for which the date of the initial demand letter is within 10 years of January 31 of the offset year, except that claims reduced to final court judgments ordering individuals to pay the debt are not subject to this 10-year limitation. This rule proposes no changes in this requirement, which is stated at § 273.18(p)(2)(i)(B).

Voluntary Payments

As discussed above, this rule proposes to state at 7 CFR 273.18(i)(1)(i) that individuals in households subject to allotment reduction are not subject to involuntary collection by any other means. As also discussed above, this rule proposes at § 273.18(i)(1)(v) that collection via allotment reduction does not preclude additional collection methods being pursued against other liable individuals not currently members of a participating household. The Department wants to make clear how these policies apply to collection under FTROP. Accordingly, this rule proposes at § 273.18(p)(2)(i)(C) that claims submitted under FTROP cannot include any claim which is submitted for collection from an individual in a household which is subject to allotment reduction.

Bankruptcy

The current rule at 7 CFR 273.18(g)(5)(ii)(A)(*6*) specifies that claims for which collection is barred by a bankruptcy are not subject to FTROP. With the exception of redesignating this paragraph as § 273.18(p)(2)(i)(D), this rule proposes no change to this provision.

All Required Notices

The current rule at 7 CFR 273.18(g)(5)(ii)(A)(*7*) requires that for a claim to be subject to FTROP the State agency must have provided the individual all the notices required. FNS, not the State agency, provides one of those notices after the FNS decision on a request for a hearing. Accordingly, this rule would remove the reference to the State agency in the current criteria. Further this rule proposes that the criterion for referral under FTROP and FCCM would be that claims are subject to referral for which individuals have been provided the opportunities for review and the notifications specified in paragraphs (p)(2)(iii), (p)(2)(iv), and (p)(2)(v). (See § 273.18(p)(2)(i)(E).)

Combined Claims

Current rules at 7 CFR 273.18(g)(5)(ii)(B)(*2*) provide that if a claim to be submitted for collection under FTROP is a combination of two or more recipient claims, the date of the initial demand letter for each claim combined must be within the 10-year range and that claims reduced to judgment shall not be combined with claims which are not reduced to judgment. This rule proposes to retain this provision. (See § 273.18(p)(2)(ii).)

Proposed Changes in the General Requirements and Contents of the 60-day Notice

The proposed rule would combine the general requirements for 60-day notices and the requirements for contents of the notices (currently in paragraphs 7 CFR 273.18(g)(5) (iii) and (iv)) into a single paragraph, § 273.18(p)(2)(iii). The overall goal in this proposed rule is to enable a single 60-day notice to serve as notification for FTROP, FSOP, ADOP and any other FCCM. In addition, the rule proposes to delete several provisions which are obsolete or extraneous, and proposes to change certain provisions. These proposed deletions and changes are discussed in the following paragraphs. The Department believes that the 60-day notice will be most effective if State agency notices present the proposed required contents in the order they appear in the regulation.

Implementing Guidelines for 60-day Notices

Current rules at 7 CFR 273.18(g)(5)(iii)(A) specify requirements for 60-day notices related to implementing the current rule. That material is obsolete, and this rule proposes to delete it. For the same reason, this rule proposes to delete the last sentence of 7 CFR 273.18(g)(5)(iii)(B), and the introductory clause of 7 CFR 273.18(g)(5)(iv).

State Agency Records

Current rules at 7 CFR 273.18(g)(5)(iv)(A) require that the 60-day notice state that the State agency has records documenting that the individual, identified by name (and Social Security Number), is liable for a specified unpaid balance of a recipient claim resulting from overissued food stamp benefits. The Department believes that it is unnecessary for the 60-day notice to state that the State agency has records which they are required to develop in the course of establishing and acting on recipient claims. The Department presumes that State agencies have the necessary records to support their claims. Accordingly, the rule proposes to delete the language on this matter in the just cited paragraph.

One of the requirements in the amended DCA at 31 U.S.C. 3716(a) for collecting a claim by ADOP provides the debtor with the right to inspect and copy agency records relating to the claim. This right is covered under the fair hearing and administrative disqualification hearing procedures and is available to the debtor when the claim is initially established. Moreover, the debtor would be provided notice of this right under the notice requirements for demand letters as discussed previously in this proposed rule. The current regulations regarding fair hearings (7 CFR 273.15) and administrative disqualification hearings (7 CFR 273.16) are not affected by this proposed rule.

Previous Actions Taken

In the second sentence of 7 CFR 273.18(g)(5)(iv)(A), current rules require that the 60-day notice state that the State agency has previously mailed or otherwise delivered demand letters notifying the individual about the claim, including the right to a fair hearing on the claim, and has made any other required collection efforts. This requirement was made to comply with the requirement in DEFRA that the (Federal) agency satisfy the Secretary of the Treasury that the agency has made reasonable efforts to obtain payment of the debt. (See 31 U.S.C. 3720A(b)(4).) The Department believes that this requirement is met by the requirement proposed in this rule and discussed above under which State agencies must pursue State agency collection methods before referring claims for collection through FCCM's. In addition, the Department does not believe that debtors need the information since they would have already received demand letters and other billing actions. Accordingly, this rule proposes to delete the language in question.

Statement on Joint Liability

Current rules at 7 CFR 273.18(g)(5)(iv)(D) require that the 60-day notice advise individuals that all adults who were household members when excess food stamp benefits were issued to the household are jointly and severally liable for the value of those benefits, and collection of claims for such benefits may be pursued against all such individuals. The Department believes that questions about this policy are being effectively answered in telephone conversations between debtors and State agencies and that inclusion of the statement of the subject policy unnecessarily lengthens the 60-day notice. In addition, the initial notification of claim or demand letter would already include the jointly and severally language. Accordingly, this rule proposes to delete the currently required language on this matter from the 60-day notice.

Statement on Voluntary and Involuntary Payments

Current rules at 7 CFR 273.18(g)(5)(iv)(E) require that the 60-day notice state that State agency records do not show that the claim is being paid according to either a voluntary agreement or through scheduled, involuntary payments. The language in question was added to the 60-day notice in the rulemaking at 60 FR 45990–46001, dated September 1, 1995. The language was added in response to a public interest group's concern that debtors be informed of this policy.

As discussed above, this rule proposes allowing State agencies to pursue collection through FTROP, FSOP, ADOP and other FCCM's while pursuing other collection efforts except against individuals in households subject to allotment reduction. In addition, at § 273.18(p)(2)(i)(C) the rule would prohibit referring claims for FTROP collection from individuals subject to allotment reduction. Furthermore, in operating FSOP the Department has found that, in response to notices of intent issued under that collection procedure, debtors who are paying the claim call and advise FNS of that fact. The Department believes that the same issue can be resolved over the telephone between debtors and State agencies under FTROP. Accordingly, this rule proposes not to require the language currently required at 7 CFR 273.18(g)(5)(iv)(E).

Summary of Criteria

Current rules in paragraphs 7 CFR 273.18(g)(5)(iv)(I), (J) and (K) require that the 60-day notice include information intended to inform individuals about the criteria for claims which are subject to FTROP and what information they should provide to request a hearing on the intended collection action. These requirements were made in order to both assist individuals in understanding the intended collection action and to reduce State agency workload associated with telephone calls in response to 60-day notices. The Department does not believe that either of these purposes were achieved by the additional information, that individuals' continued to telephone State agencies and that their concerns were adequately dealt with through that form of communication. Accordingly, this rule proposes deleting the just cited paragraphs.

The Notice Would Advise

Current rules at 7 CFR 273.18(g)(5)(iii)(B) require that with the exception of such State-specific information as names and job titles and information required for State agency contacts, a State agency's 60-day notice must contain only the information specified in paragraph (g)(5)(iv). The Department believes that it is adequate to require that State agencies *advise* individuals of the required information. This approach should also provide State agencies flexibility in the design of 60-day notices and also facilitate their production. Accordingly, § 273.18(p)(2)(iii)(B) requires that the 60-day notice *advise* debtors of the matters listed in that paragraph.

Intent to Collect by Various Federal Collection Methodologies

The rule proposes at § 273.18(p)(2)(iii)(B)(*3*) to include in the 60-day notice ADOP, as one of the methodologies to which the debt is to be referred. The other methodologies which would utilize the same 60-day notice are FTROP, FSOP and any other FCCM.

Collection of the Federal Offset Fee

Current rules at 7 CFR 273.18(g)(5)(iv)(C) require that the 60-day notice state that if the State agency refers the claim to the IRS, a charge for the administrative cost of collection will be added to the claim and that amount will also be deducted if the claim, or any portion of the claim, is deducted from the debtor's tax refund. This rule proposes to modify this language to include the cost of any Federally imposed processing fee. (See § 273.18(p)(2)(iii)(B)(5).)

Citation of Authorities

The rule proposes to require language to the effect that collection through ADOP is authorized by the Debt Collection Act of 1982, as amended 31 U.S.C. 3701, and that the 60-day notice meets that statute's requirements for notice to debtors about ADOP. (See § 273.18(p)(2)(iii)(B)(7).)

Advice on Joint Tax Returns

Current rules at 7 CFR 273.18(g)(5)(iv)(H) require that the 60-day notice provide substantial guidance concerning jointly filed Federal income tax returns and offsets from tax refunds. The Department is concerned that some of the language may be inappropriately providing information about filing income tax returns. In addition, the Department wants to point out that IRS rules concerning FTROP at 26 CFR 301.6402–6(i) state that the IRS will advise non-debtor spouses of steps to take to protect their share of tax refunds and will refund to such persons such shares that are offset. Consequently, the Department believes that the proposed changes will not adversely affect spouses of debtors who are not liable for the overissued food stamp benefits. Accordingly, the rule proposes to require that 60-day notices advise debtors that, if they are filing a joint Federal income tax return, they may want to contact their local office of the IRS. (See § 273.18(p)(2)(iii)(B)(9).) In addition, this rule proposes to delete from the current required language the sentence discussing spousal liability. The rule also proposes to delete the sentence concerning liability for Treasury offset fees. The Department believes that the paragraph already required on Treasury offset fees information provides adequate information on this matter.

Statement of Compliance

Current rules at 7 CFR 273.18(g)(5)(iii)(B) require that in their annual certification letters State agencies include a statement that their 60-day notices conform to the content requirements of that paragraph. This rule proposes to require that State agencies include in their annual certification letter a statement that their 60-day notices comply with the requirements of § 273.18(p)(2)(iii)(B). (See § 273.18(p)(2)(iii)(C).)

Mailing Schedule

Current rules at 7 CFR 273.18(g)(5)(iii)(C) require that unless otherwise notified by FNS, the State agency must mail 60-day notices for claims to be referred for collection through FTROP no later than October 1 preceding the offset year during which the claims would be offset. The date for such mailings in 1996 was September 1. The Department expects that September 1 will continue to be the mailing date for 60-day notices. Nonetheless, to avoid confusion on this point, the rule proposes to state that unless otherwise notified by FNS, the State agency shall mail 60-day notices for claims to be referred for collection through FTROP, FSOP, ADOP and other FCCM's according to the schedule provided by FNS. (See § 273.18(p)(2)(iii)(D).)

Deletion of October 31 Cutoff for Reviews

Current rules at 7 CFR 273.18(g)(5)(v)(E) provide that State agencies may not refer claims for which timely review requests are received unless by October 31 they have completed the review and notified the individual that the claim is past due and legally enforceable. This provision was necessary when 60-day notices were mailed on October 1 because of the length of time necessary to offer the opportunity for both State agency and FNS reviews during an annual processing cycle. Since 60-day notices are now mailed on September 1, and in the future may be mailed more frequently than annually, this requirement is now obsolete. This rule proposes to delete this requirement.

Incorporation of Administrative Offset

Current rules at 7 CFR 273.18(g)(5)(v) state the requirements for State agency action in response to debtor requests for review of intended collection action under FTROP. The Department believes that these requirements exceed the requirements for such action under ADOP. Accordingly, with the exception of appropriate references, this rule proposes no additional review procedures for ADOP or any other FCCM.

Notice of Potential Administrative Offset

Current rules at 7 CFR 273.18(g)(5)(v)(C)(2) require that when the State agency determines that a debt is past due and legally enforceable the State agency notice to the debtor advise the debtor that the State agency intends to refer the claim to Treasury for offset. This rule proposes to require that the notice of the State agency's decision state that the State agency intends to refer the claim for collection from the debtor's Federal income tax refund and/or from other payments which may be payable to the debtor by the Federal government.

No Referral for Federal Collection Pending FNS Review

Under current rules at 7 CFR 273.18(g)(5)(iv)(F), the 60-day notice provides debtors a 60-day period to request that the State agency review whether the claim in question is past due and legally enforceable. The State agency notice of its decision that a claim is past due and legally enforceable must advise the debtor that the debtor has 30 days to request that FNS review that decision. The notice must also advise the debtor that, pending FNS review, the debt will not be referred to Treasury for offset. The rule proposes to also require that such notices advise debtors that, pending the FNS decision, the claim will not be referred for collection from other payments which may be payable to the debtor by the Federal government.

Regional Office Address

Current rules at 7 CFR 273.18(g)(5)(v)(C)(4) require that the State agency notice to the debtor provide the appropriate FNS regional office address, including the phrase "Tax Offset Review." To reflect that the review may pertain to ADOP situations, this rule proposes to change that phrase to "Offset Review."

FNS Action on Appeals of State Agency Reviews

Current rules at 7 CFR 273.18(g)(5)(vi) specify the actions which FNS will take in response to appeals of State agency review decisions. In several places in this section, this rule proposes to conform regulation citations to the proposed rule. In addition, this rule proposes to delete the clause in 7 CFR 273.18(g)(5)(v)(B) which sets the condition that the State agency's decision be dated on or before October 31, and to delete paragraph (g)(5)(v)(C). That paragraph currently provides that for timely requests for FNS review of State agency decisions made after

October 31, FNS will complete its review but the claim cannot be referred under FTROP. The clause and the paragraph coordinated with the October 31 cut-off discussed just above are also obsolete because, under an annual processing cycle, the 60-day notices are being mailed September 1. All review requests which FNS receives on State agency decisions will be acted on. Current rules provide at 7 CFR 273.18(g)(5)(v)(B)(*2*) that FNS will advise the State agency if it does not complete its review and the claim must be deleted from the certified files. This rule would not change that provision.

Referral of Claims for Offset

Current rules at 7 CFR 273.18(g)(5)(vii) specify requirements for State agency submission of claims under FTROP and the requirements for the letter certifying that the claims submitted meet the criteria for collection under FTROP. This rule proposes several changes in this paragraph, which is § 273.18(p)(2)(vi) in the proposed rule.

The rule proposes to add to the first sentence of the current 7 CFR 273.18(g)(5)(vii)(A) a reference to administrative offset and to change the paragraph reference to conform to the paragraph in the proposed rule.

The rest of current rules at 7 CFR 273.18(g)(5)(vii)(A) relate to the certification letter. The proposed rule would put this material in a new paragraph, itemize the required contents as subparts of that paragraph, change the references to conform to the paragraphs in the proposed rule, and make editorial changes.

Section 273.18(g)(5)(vii)(A) requires State agencies to submit certification letters to FNS regional offices. State agencies have found this instruction confusing, some sending the letter with their data files, some sending it to regional offices. The rule proposes to require that State agencies submit the letter according to FNS instructions. FNS plans to direct that the certification letters be sent to FNS headquarters with, or at the same time as certified files and to provide in those instructions a specific address for the letter. Also, the requirement for the statement on the conformance of the 60-day notice would be changed to reflect the new requirement discussed earlier in this preamble. Finally, the requirement currently at 7 CFR 273.18(g)(5)(vii)(B) that State agencies include in their certification letter how they determined that the information about the State agency contact for debtors is accurate would be included in the list of required contents for the certification letter.

Current rules at 7 CFR 273.18(g)(5)(vii)(B) require that the State agency provide to FNS the name, address and toll-free or collect telephone numbers of State agency contacts to be included in Treasury notices of offset, and provide FNS updates of that information if and when that information changes. The rule proposes to modify this requirement with a reference to FNS instructions. FNS intends to include such instructions in the expanded Revenue Manual.

State Agency Actions on Offsets Made

Current rules at 7 CFR 273.18(g)(5)(viii)(A) specify requirements for State agency actions on offsets made. For the reasons discussed in the following paragraph, this rule proposes to delete this section because its contents repeat requirements which this rule proposes to make elsewhere.

First, current rules at 7 CFR 273.18(g)(5)(viii)(A) require that State agencies notify debtors about offsets. This rule proposes at § 273.18(o)(4) to require that State agencies keep debtors advised of the status of their claims. Also, the Federal agency from whose payment the debt is offset would advise the debtor of the offset.

Second, current rules at 7 CFR 273.18(g)(5)(viii)(B) require prompt refunds for over collections due to offsets from Federal income tax refunds. As already discussed, this rule proposes at § 273.18(j) to require that State agencies promptly refund all over collections of recipient claims regardless of the source of the over collection.

Third, current rules at 7 CFR 273.18(g)(5)(viii)(C) address several matters relating to over collection and refund situations due to State agency error and Treasury reversals of offsets. FNS periodically issues procedural guidelines on these and related matters and plans to continue to address such matters in the FCCM Manual discussed above in this preamble.

Monitoring and Reporting Offset Activities

Current rules at 7 CFR 273.18(g)(5)(ix) specify several requirements for State agency reporting on offset activities. As discussed in the following paragraphs, this rule proposes to delete several of those requirements because this rule would state the requirements elsewhere. The section would be renamed "Reporting FTROP and ADOP activities."

As already discussed, this rule proposes to make a general requirement for the updating of files for FCCM's. Accordingly, this rule proposes to delete paragraph (g)(5)(ix)(A). Paragraph (B) of the section in question repeats the requirement for prompt refunds of over collections. This rule proposes to delete it for reasons discussed earlier in this preamble. Paragraph (E) of the section in question reiterates the requirement that State agencies report collections as required for all recipient claims collection. The rule proposes to delete this restatement.

Current rules at 7 CFR 273.18(g)(5)(ix)(C) require that State agencies annually report on 60-day notices no later than the tenth of October. This rule proposes to require that State agencies make that report no later than the ten days after mailing 60-day notices. In paragraph (g)(5)(ix)(D), this rule proposes to delete the reference to the IRS. The rule proposes to require that State agencies report on 60-day notices, data security and voluntary payments according to instructions in the FCCM manual.

Federal Salary Offset Program (FSOP)

In addition to proposing changes in the requirements for FSOP which are intended to reduce workload on State agencies and to eliminate provisions of the current rule which are extraneous, this rule proposes to reorder several paragraphs of this regulations pertaining to FSOP. Also, whenever possible, the Department's goal is to allow State agencies to combine FSOP activities with FTROP, ADOP, and other FCCM activities.

Claims Subject to FSOP

Current rules at 7 CFR 273.18(g)(6)(i) state that all claims submitted under FTROP are subject to the salary offset match and that all individuals identified in the match are subject to FSOP procedures. As discussed earlier in this preamble, this rule proposes to require that State agencies submit all appropriate claims for collection under FCCM's thereby combining the FSOP advance notice with the FTROP and ADOP 60-day notice. Accordingly, this rule proposes to delete this paragraph as redundant.

Supplemental Information

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*1*) specify certain information which State agencies are encouraged to include in their advance notices. The Department believes that including such information may improve the credibility of the advance notice, but since the Department does not want to require that the information be included in the advance notice, this

rule proposes to delete the subject language.

Notice of Review Decision

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*5*) require that the advance notice state that the State agency will notify debtors in writing when, due to a review decision, claims will not be referred for collection from salaries. The Department does not believe that the advance notice needs to advise debtors about the requirements for State agency notification of review decisions. Accordingly, this rule proposes to delete the requirement for language on this matter from the advance notice.

Notice of Right to a Federal-level Hearing

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*5*) also require that the advance notice state: (1) that debtors have the right to a formal appeal to FNS; and (2) that notification about how to make such appeals is required and will be provided to debtors before any collection action from salaries is taken. The Department believes that the notice of intent which is provided to debtors prior to referral of claims for collection from Federal salaries provides adequate notice of the right to a hearing and related matters. Accordingly, this rule proposes to delete the requirement that the advance notice provide information about such matters.

Reporting

Current rules at 7 CFR 273.18(g)(6)(iv)(A) specify requirements for State agency retention of collections, reporting and about how FNS will report and transfer collections to State agencies. For the reasons discussed earlier in this preamble in relation to the proposed deletion of these same requirements for FTROP, this rule proposes to delete this paragraph.

FNS Recipient Claims Matching Procedures

Current rules at 7 CFR 273.18(g)(6)(ii)(A) describe certain FNS recipient claims matching procedures. This rule would include this material unchanged at § 273.18(p)(3)(i).

Security and Confidentiality

Current rules at 7 CFR 273.18(g)(6)(ii)(B) require that State agencies return security and confidentiality agreements prior to receiving information about Federal employees identified as subject to FSOP. This rule would include this material unchanged at § 273.18(p)(3)(ii).

Except for conforming references to this proposed rule, no changes are proposed for current rules requiring security and confidentiality agreements from State agencies as a condition for receiving FSOP debt information currently at 7 CFR 273.18(g)(6)(iii)(A). (See § 273.18(p)(3)(iii).)

Review of Claim Status

Current rules at 7 CFR 273.18(g)(6)(ii)(D) require that prior to taking any action to collect recipient claims under FSOP, State agencies must review records to verify the amount owed, and to remove claims which have been paid, which are being paid according to an agreed to schedule, or which for other reasons are not collectible. This requirement remains essentially unchanged in this proposed rule. (See § 273.18(p)(3)(iv).)

Advance Notices

Current rules at 7 CFR 273.18(g)(6)(iii) specify the requirements for State agency advance notices to Federal employees. This rule proposes to modify those requirements based on the requirements of DCIA and combine the FSOP advance notice with 60-day notice proposed in this rule, and to conform references to the proposed rule.

Current rules at 7 CFR 273.18(g)(6)(iii)(B) prescribe procedures for referring salary offset claims to FNS following State agency efforts to collect them through advance notices. This rule proposes to place this material after the requirements for the contents of the notice. This rule proposes to reduce the documentation required for FSOP claims referred to FNS. The rule also proposes to move the requirements for referring defaulted claims and to specify that such referrals must include the same documentation as claims referred to FNS because of no timely or adequate response to the advance notice. (See § 273.18(p)(3)(vii).)

Current rules at 7 CFR 273.18(g)(6)(iii)(C) state the requirements for the contents of the advance notice. This rule proposes to require that the notice *advise* debtors of certain matters.

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*1*) require that the advance notice state that according to State agency records the debtor is liable for a claim for a specified dollar amount due to receiving excess food stamp benefits. This rule proposes to require that the notice advise debtors of what State agency records indicate is their name and SSN and that they are liable for a specified unpaid balance of a recipient claim resulting from overissued food stamp benefits. (See § 273.18(p)(3)(v)(B)(*1*) and (*2*).)

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*2*) and the first sentence of 7 CFR 273.18(g)(6)(iii)(C)(*3*) discuss procedure and authorities related to FSOP. This rule proposes to modify this material and add the citation of the authority for collection through ADOP. (See § 273.18(p)(3)(v)(B)(*7*).)

Voluntary Payment

Current rules in the second sentence of 7 CFR 273.18(g)(6)(iii)(C)(*3*) and in the rest of that paragraph specify that the advance notice must state that the claim will be referred to FNS for collection from the debtor's Federal salary unless it is paid in full within 30 days or in installments of $50 if the claim was greater than $50. The Department specified an installment structure for FSOP claims with the intent to relieve State agencies of the need to negotiate with debtors. Experience with FSOP indicates that the installment structure did not help in this regard. State agencies often preferred to have the discretion to negotiate a payment schedule with debtors. Accordingly, this rule proposes to provide this flexibility and to incorporate a notice that the claim is subject to administrative offset. Accordingly, § 273.18(p)(3)(v)(B)(*3*) would require that the advance notice advise the debtor that unless the debtor pays the claim within 30 days of the date of the notice or makes other repayment arrangements acceptable to the State agency, the State agency intends to refer the claim for collection from his or her salary and/or by administrative offset from other Federal payments which may be payable to the debtor.

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*4*) require that the advance notice include the name, address and a toll-free or collect telephone number of a State agency contact (an individual or unit) for repayment and/or discussion of the claim. As in the case of the FTROP 60-day notice, this rule proposes to require that the advance notice advise debtors that to pay the claim voluntarily or to discuss it, the debtor should contact the State agency. The advance notice would also be required to include the name of the State agency contact for this purpose (such as an office, administrative unit and/or individual), the contact's street address or post office box, and a toll-free or collect telephone number for that contact.

Current rules at 7 CFR 273.18(g)(6)(iii)(C)(*5*) state the required

contents for the advance notice with respect to the debtors' rights for review of the intended collection action under FSOP. The second sentence of that paragraph requires that the advance notice state that unless the State agency receives documentation that the claim is not collectible within 30 calendar days the State agency will refer the claim to FNS for collection from the debtor's salary. This rule proposes to replace that sentence with the requirement that the advance notice advise debtors that the State agency must receive the documentation within 30 days at the address provided in the notice, that the debtor should provide his or her SSN and that the claim will not be referred for collection from the debtor's Federal salary of other Federal payments pending the State agency's review of that documentation. This rule also proposes to add the requirement that the advance notice advise debtors that a claim is not collectible if a bankruptcy filing prevents collection of the claim. (See § 273.18(p)(3)(v)(B)(*5*).)

The Department believes that State agencies should notify debtors of their decision either to refer or not to refer the claim for collection. Accordingly, this rule proposes to require at § 273.18(p)(3)(vi) that State agencies notify debtors in writing of decisions on documentation submitted concerning payments and other matters relating to the collection of claims under FSOP and ADOP.

FNS Action on Claims Referred by State Agencies

Current rules at 7 CFR 273.18(g)(6)(v) specify pertinent matters relating to FNS actions on FSOP claims referred by State agencies. This rule proposes no change in that paragraph except to conform the references in the introductory sentence of 7 CFR 273.18(g)(6)(v) to the paragraphs in this proposed rule and to specify that the notice of intent would advise debtors that their recipient claim is subject to collection through administrative offset as well as from their Federal salary, and to cite the authority for that collection action, the DCA, as amended, 31 U.S.C. 3701.

Administrative Offset Program (ADOP)

As discussed in several places earlier in this preamble, this rule proposes that claims submitted under FTROP and FSOP, but not collected under those programs, would be subject to collection through ADOP from other Federal payments otherwise due debtors. Due process notices for ADOP would have been provided through separate FTROP and FSOP notices or through a combined notice which would include FTROP, FSOP, ADOP or any other FCCM. State agencies would not need to re-submit those claims for ADOP. State agencies would need to keep their balances updated to avoid over-collections. (See § 273.18(p)(4).)

Implementation

The PRWORA set the date of enactment, August 22, 1996, as the effective date for the provisions of the law relating to recipient claims. In response, the Department, on August 26, 1996, issued an implementation memorandum stating that these provisions are to be implemented no later than September 22, 1996.

The Department proposes that State agencies implement the discretionary aspects of these regulations no later than the first day of the month 180 days after the publication of the final rule. This should provide sufficient time to amend food stamp handbooks, demand letters and forms, make any necessary changes in data processing systems and administrative procedures, and train affected State and local agency staff.

List of Subjects

7 CFR Part 272

Alaska, Civil rights, Food stamps, Grant programs-social programs, Reporting and recordkeeping requirements.

7 CFR Part 273

Administrative practice and procedure, Aliens, Claims, Employment, Food stamps, Fraud, Government employees, Grant programs—social programs, Income taxes, Penalties, Reporting and recordkeeping requirements, Social security, Students, Supplemental Security Income (SSI), Wages.

Accordingly, 7 CFR Parts 272 and 273 are proposed to be amended as follows:

1. The authority citation for Parts 272 and 273 continues to read as follows:

Authority: 7 U.S.C. 2011–2032.

PART 272—REQUIREMENTS FOR PARTICIPATING STATE AGENCIES

§ 272.2 [Amended]

2. In § 272.2:

a. Paragraph (a)(2) is amended by removing the last sentence; and

b. Paragraph (d)(1)(xii) is removed.

§ 272.12 [Removed]

3. § 272.12 is removed.

PART 273—CERTIFICATION OF ELIGIBLE HOUSEHOLDS

4. In § 273.2, paragraph (b)(4) is added to read as follows:

§ 273.2 Application processing.

* * * * *

(b) *Food stamp application form.*

* * *

(4) *Privacy Act statement.* At the time of application and at each recertification through a written statement on or provided with the application form, all applicants for food stamp benefits shall be notified of the following:

(i) The collection of this information, including the social security number (SSN) of each household member, is authorized under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) The information will be used to determine whether your household is eligible or continually eligible to participate in the Food Stamp Program and may be subject to verification through computer matching programs. This information will also be used to monitor compliance with program regulations and for program management.

(ii) This information may be disclosed to other Federal assistance programs or federally assisted State programs, to the Comptroller General of the United States for authorized audit and examination purposes and to Federal, State and local law enforcement officials for the purpose of apprehending persons fleeing to avoid prosecution, custody or confinement or to a court, magistrate, or administrative tribunal when required in civil or criminal proceedings.

(iii) If a claim arises against your household as a result of participation in the Food Stamp Program, the information you provide, including the SSN of each member of your household, may be referred to Federal and State agencies, as well as private claims collection agencies, for claims collection action, including but not limited to administrative offset, and to the Department of Justice for litigation.

(iv) The providing of the requested information, including the SSN of each household member, is voluntary. However, failure to provide this information will result in the denial of food stamp benefits to your household.

* * * * *

5. § 273.18 is revised to read as follows:

§ 273.18 Claims against households.

(a) *Responsibility for recovering overpayments*—(1) *Household and individual liability.* (i) All adult household members shall be jointly and severally liable for the value of any overissuance of benefits to the household. All adult household members shall also be responsible for the amount of any claim established for the trafficking of benefits.

(ii) Any sponsor of an alien and the alien's household shall be jointly and severally liable for the value of any benefits overissued as a result of incorrect information being provided by the sponsor. However, if the alien's sponsor had good cause or was without fault, the alien's household shall be solely liable for repayment of the overissuance.

(2) *State agency responsibility.* (i) Unless specified under paragraph (g)(2) of this section, the State agency shall establish a claim against:

(A) Any participating household (including former adult members) or non-participating household that has trafficked benefits or received more food stamp benefits than it was entitled to receive; and

(B) Any household which contains an adult member who was an adult member of another household that trafficked benefits or received more food stamp benefits than it was entitled to receive.

(ii) Even though the establishment and collection of food stamp recipient claims are delegated to State agencies, these debts shall remain Federal debts subject only to this and other regulations governing Federal debts.

(b) *Intentional program violation (IPV) claims.* An IPV is defined in § 273.16(c). A claim shall be handled as an IPV claim only if one of the following occurs:

(1) A court of appropriate jurisdiction has determined that a household member has committed an IPV.

(2) A household member was determined at an administrative disqualification hearing to have committed an IPV.

(3) A household member signs a disqualification consent agreement for a suspected IPV referred for prosecution.

(4) A household member signs a waiver of his/her right to an administrative disqualification hearing.

(c) *Inadvertent household error (IHE) claims.* A claim shall be handled as an IHE claim if the overissuance or recipient misuse incident was caused by a misunderstanding or unintended error on the part of the household. In addition, at the option of the State agency, a potential IPV may be handled as an IHE claim prior to the determination of IPV.

(d) *Agency error (AE) claims.* (1) A claim shall be handled as an AE claim if the overissuance was caused by an action or failure to take action by the State agency.

(2) The State agency shall take action to establish a claim against any household that received an overissuance due to a State agency error. No recipient claim shall be established if an overissuance occurred as a result of the household transacting an expired Authorization to Participate card (ATP), unless the household altered its ATP.

(e) *Calculating the claim amount*—(1) *Non-trafficking claims.* A claim that is not related to trafficking shall be calculated incorporating all of the following:

(i) For each month that a household received an overissuance, the State agency shall determine the correct amount of food stamp benefits, if any, the household was entitled to receive.

(ii) The amount of correct benefits, if any, and the resulting claim shall be, at a minimum, calculated back to twelve months prior to the date of discovery. For an IPV claim, the resulting claim shall be calculated back to the month the act of IPV occurred. However, for any claim, the State agency shall not include in its calculation any amount of the overissuance that occurred in a month more than six years from the discovery date. The discovery date is defined in paragraph (g)(2) of this section.

(iii) In calculating an IPV or IHE claim involving unreported earned income, the State agency shall not apply the earned income deduction to that part of any earned income which the household failed to report in a timely manner when this act was the basis for the claim.

(iv) If the household received a larger allotment than it was entitled to receive, the State agency shall establish a claim against the household as follows:

(A) The allotment that the household should have received is subtracted from the allotment the household actually received.

(B) This amount is then reduced by any EBT benefits expunged from the household's EBT benefit account (up to the amount of the claim) that have not previously been applied to any other claim. The difference is the amount of the claim.

(v) For categorically eligible households, an IHE or AE claim shall only be calculated and established when it can be computed on the basis of a change in net income and/or household size.

(2) *Trafficking-related claims.* Claims arising from trafficking-related offenses shall be the value of the trafficked benefits as determined by: the individual's admission; adjudication; or the documentation which forms the basis for the trafficking determination.

(f) *Claim referral, establishment and backlog prevention.* (1) State agencies shall establish a claim before the last day of the quarter following the quarter in which the overissuance was discovered. For example, if the date of discovery, as defined in paragraph (f)(2) of this section, is in October, November, or December, the last day to timely establish the claim shall be March 31 of the following calendar year.

(2) The "date of discovery," for the purposes of this section, shall be the date the potential claim is initially detected as a possible overissuance by the State agency. The State agency shall annotate the date of discovery for each claim referral in the appropriate case/claim file or claim tracking system.

(3) The "date of establishment," for the purposes of this section, shall be the date that the initial claim notification or demand letter, as described in paragraph (g)(3) of this section, is sent to the household. The State agency shall annotate the date of establishment for each claim referral in the appropriate case/claim file or claim tracking system.

(4) State agencies shall ensure that no less than 90 percent of all claim referrals are either established or, if warranted, disposed of within the time frame established in paragraph (f)(1) of this section.

(g) *Initiating collection action and managing claims*—(1) *Applicability.* State agencies shall initiate collection action on all claims unless the conditions under paragraph (g)(2) of this section apply.

(2) *Pre-establishment cost effectiveness determination.* A State agency may opt not to pursue the establishment of any claim and subsequent collection of the overissuance if the pursuit is determined not to be cost effective by using either of the following methodologies:

(i) *State-agency developed methodology for cost-effectiveness determination.* A State agency may adopt its own procedure, threshold, and/or methodology for use in determining whether to pursue the establishment of any claim and subsequent collection of the overissuance. State agencies shall obtain prior approval from FNS for use of this procedure, threshold, and/or methodology.

(ii) *FNS threshold for establishing and collecting overissuances.* (A) Unless prohibited by paragraph (g)(2)(ii)(C) of this section, a State agency may utilize the claims threshold as defined in paragraph (g)(2)(ii)(B) of this section in determining whether to pursue the establishment of any claim and collection of the subsequent overissuance.

(B) The FNS threshold for establishing a claim and pursuing collection from an

overissuance is the maximum dollar amount of a claim or claim referral that a State agency may decide not to pursue solely based on the amount of the referral. The threshold is equal to $125.

(C) A State agency shall not apply this threshold to overissuances which may be collected by reducing the allotment of the household. This threshold also does not apply to overissuances which have already been established as claims.

(3) *Notification of Claim.* (i) Each State agency shall develop and mail or otherwise deliver to the household written notification to initiate collection action on any claim. The written notification or demand letter shall contain the information required by paragraphs (g)(3)(iii), (g)(3)(iv) and (g)(3)(v) of this section. Subsequent demand letters or notices may be sent at periodic intervals at the discretion of the State agency.

(ii) The claim shall be considered established for tracking and reporting purposes as of the date of the initial written notification or demand letter.

(iii) If the claim or the amount of the claim was not established at a hearing, the State agency shall provide the household with a one-time notice of adverse action as part of or along with the initial demand letter/notification of claim. The notice of adverse action shall contain a statement that informs the household that it has 90 days to request a fair hearing on the claim.

(iv) The demand letter or accompanying notice of adverse action shall inform the household of the following:

(A) The type and amount of the claim, the intent to collect the claim from all adults in the household when the claim occurred; the intent to collect the claim, if not paid, by referral to other agencies, including private collection agencies, for the purposes of various claim collection methods;

(B) The opportunity to inspect and copy records related to the claim;

(C) Unless the amount of the claim was established at a hearing, the opportunity for a fair hearing on the decision related to the claim;

(D) The opportunity to make a written agreement to repay the amount of the claim prior to the claim being referred to Federal tax refund offset, Federal salary offset, Federal administrative offset or other Federal claims collection actions; and

(E) That, if the claim becomes delinquent, the household may be subject to additional processing charges and the claim may be referred to the Department of Justice for litigation.

(v) The demand letter for any claim shall contain a due date for the submission of full repayment of the claim unless the State agency determines that allotment reduction will be invoked to repay the claim of a participating household. The due date shall be not later than 30 days after the date of the initial written notification or demand letter.

(4) *Due dates for repayment agreements.* (i) Any repayment agreement for any claim shall contain due dates for the periodic submission of payments.

(ii) The agreement shall specify that the household shall be subject to involuntary collection action(s) if payment is not received by the due date and the claim becomes delinquent.

(5) *Time frames and delinquency.* (i) Unless specified in either paragraph (g)(6)(iv) or (g)(7)(i) of this section, any claim shall be considered delinquent if either of the following occurs:

(A) The claim has not been paid by the due date and a satisfactory payment arrangement has not been made.

(B) A satisfactory payment arrangement has been made for the claim and payment has not been received by the due date specified in the established repayment schedule.

(ii) The date of delinquency for a claim covered under paragraph (g)(5)(i)(A) of this section is the due date on the initial written notification/demand letter. The claim shall remain delinquent until payment is received in full, a satisfactory payment agreement is negotiated, or allotment reduction is invoked.

(iii) The date of delinquency for a claim covered under paragraph (g)(5)(i)(B) of this section is the due date of the missed installment payment. The claim shall remain delinquent until payment is received in full, allotment reduction is invoked, or, at the State agency's option, a new repayment schedule is negotiated.

(iv) A claim shall not be considered delinquent if another claim for the same household is currently being paid either through an installment agreement or allotment reduction and the State agency expects to begin collection on the claim once the prior claim(s) is settled. A claim may also not be considered delinquent if it is an IPV where collection is coordinated through the court system and the State agency has limited control over collection action.

(6) *Fair hearings and claims.* (i) Once a household timely requests a fair hearing on the existence or amount of the claim, all attempts by the State agency to collect the claim shall cease. A claim awaiting a fair hearing decision shall not be considered delinquent.

(ii) If the hearing official determines that a claim does, in fact, exist against the household, the household shall be sent another demand letter. The State agency may combine the demand letter with the notice of the hearing decision. Delinquency, as determined in paragraph (g)(6) of this section, shall be based on the due date of this subsequent demand letter and not on the initial pre-hearing demand letter sent to the household.

(iii) If the hearing official determines that a claim does not exist, the claim is disposed of in accordance with paragraph (g)(8) of this section.

(7) *Compromising claims.* (i) A State agency may compromise a claim or any portion of a claim if it can be reasonably determined that a household's economic circumstances dictate that the claim will not be settled in three years.

(ii) The authority to compromise is limited to claims under $20,000.

(iii) A State agency may use the full amount of the claim (including any amount compromised) to offset benefits in accordance with § 273.17.

(iv) If the claim becomes delinquent, any compromised portion of that claim shall be reinstated to the claim balance.

(8) *Terminating and writing-off claims*—(i) A "terminated claim" is a claim in which all collection action has ceased. A "written-off claim" is a claim which is no longer considered a receivable subject to continued Federal and State agency collection and reporting requirements. All claims that are terminated shall be immediately written-off. If additional collection methodologies are developed in the future, State agencies may reinstate terminated claims.

(ii) State agencies shall terminate any claim if the claim meets one of the following criteria:

(A) The claim is found to be invalid in a fair hearing, administrative disqualification hearing or court determination. Collection efforts shall be pursued, however, if it is established at the hearing or in court that an overissuance did, in fact, occur. In instances where the court or hearing official determines that the act causing the overissuance was not intentional, the claim would continue to be pursued as an IHE or AE claim.

(B) It is discovered that all adult household members have died and the State agency is not planning to pursue collection from the estate.

(C) The claim has an outstanding balance of $25 or less and has been delinquent for 90 days or more.

(D) Any claim which the State agency has determined is not cost effective to pursue further collection activity. The

State cost-effectiveness criteria is subject to prior FNS approval.

(E) The claim has been delinquent for three years or more. The State agency may opt not to terminate the claim if prior collections have been realized through Federal or state tax refund offset, salary offset or any other similar collection mechanism.

(h) *Acceptable forms of payment*—(1) *Allotment reduction.* State agencies may collect claims as specified in paragraph (i)(1) of this section by reducing a household's benefits prior to issuance.

(2) *Cash and its equivalents.* (i) A State agency may accept payment for claims in cash or in any of its generally accepted equivalents. This includes check and money order. In addition, a State agency may accept payments with credit and/or debit cards if the State agency has the capability to accept such payments. Collections made using intercepts such as wage garnishment and tax offset are considered "cash" for FNS claim accounting and reporting purposes.

(ii) When an unspecified joint collection is received for a combined public assistance/food stamp recipient claim, each program shall receive its pro rata share of the amount collected.

(3) *Paper food coupons.* Households may pay claims using paper food coupons. If coupon books collected from households as payment for claims are returned intact and in usable form, the State agency may return them to coupon inventory. The State agency shall destroy any coupons or coupon books which are not returned to inventory and document as appropriate.

(4) *Benefits from electronic benefit transfer (EBT) accounts.* (i) State agencies shall allow a household to pay its claim using benefits from its active food stamp EBT benefit account.

(ii) Payments shall be accepted from inactive or stale EBT benefit accounts once the account is reactivated at the request of the household.

(iii) The State agency shall secure and retain documentation from the household authorizing a collection from an active or reactivated EBT benefit account.

(iv) A collection using EBT benefits shall be considered a non-cash collection and corresponding funds shall not be drawn from the Federal EBT benefit account by the State agency when this type of collection is made.

(v) In instances where the benefits are expunged and the State agency was unable to make the adjustment as outlined in paragraph (e)(1)(iv)(B) of this section when calculating the claim, the State agency shall adjust the amount of the claim by subtracting the amount expunged from the claim balance. These adjustments shall not be considered collections and the retention amounts in paragraph (m) of this section shall not apply to these transactions.

(i) *Collection methods*—(1) *Allotment reduction.* (i) Except as specified in paragraph (i)(1)(iv) of this section and upon notification as specified in paragraph (g)(3) of this section, the State agency shall automatically collect payments for any claim by reducing the amount of monthly benefits that a household receives from any participating household that contains an individual liable for that claim. Individuals in households which are subject to allotment reduction shall not be subject to involuntary collection by any other means.

(ii) For IPV claims, unless the household agrees to a higher amount, the amount of benefits to be recovered each month through allotment reduction shall be the greater of 20 percent of the household's monthly allotment/entitlement or $20 per month. The State agency has the option to base this amount on either the actual allotment or entitlement as long as this calculation is handled the same in all areas of the State.

(iii) For IHE and AE claims, unless the household agrees to a higher amount, the amount of benefits to be recovered each month through allotment reduction shall be the greater of 10 percent of the household's monthly allotment or $10 per month.

(iv) At the time the household is certified and receives an initial allotment, the initial allotment shall not be reduced to offset a claim.

(v) Collection via allotment reduction does not preclude the State agency from pursuing additional collections methods against any individual severely liable for payment of the claim who is not currently a member of a participating household.

(2) *Offsets to restored benefits.* State agencies shall immediately offset any restored benefits owed to the household by the amount of any outstanding claim. This is to be accomplished at any time during the claim establishment and collection process.

(3) *Lump sum payments.* State agencies shall accept any payment for a claim whether it represents full or partial payment. State agencies may accept payments in any of the acceptable formats.

(4) *Installment payments.* (i) State agencies may accept installment payments made for a claim as part of a negotiated repayment agreement.

(ii) Households failing to submit payment in accordance with the terms of the negotiated repayment schedule are considered delinquent and shall be subject to additional collection actions.

(5) *Intercept of unemployment compensation benefits.* (i) A State agency may, at its option, arrange for the intercept of unemployment compensation benefits for the collection of any claim.

(ii) A State agency may also attempt to recover claims from liable individuals by obtaining a writ, order, summons, or other similar process in the nature of garnishment from a court of competent jurisdiction to require the withholding of amounts from unemployment compensation.

(iii) Collections made by this method shall be treated as "cash" payments as described in paragraph (h)(2) of this section. This collection option may be included as part of a repayment agreement.

(6) *Other collection actions.* State agencies may employ any other collection actions to collect claims. These actions include, but are not limited to, referrals to collection and/or other similar private and public sector agencies, state tax refund and lottery offsets, wage garnishments, property liens and small claims court.

(7) *Coordination with Federal claims collection methods.* State agencies may continue collection efforts on claims as specified in this paragraph (i) after submitting such claims for collection as specified in paragraph (p) of this section.

(j) *Overpaid claims.* If a household has overpaid a claim, the State agency shall provide a refund for the overpaid amount as soon as possible after the overpayment becomes known. The household shall be paid by whatever method the State agency deems appropriate considering the household's circumstances.

(k) *Interstate claims collection.* (1) Unless a transfer occurs as outlined in paragraphs (k)(3) and (k)(4) of this section, a State agency remains responsible for initiating and continuing collection action on any food stamp claim regardless of whether the household remains in its jurisdiction.

(2) A State agency must respond within 30 days to inquiries concerning household participation received from another State agency if the agency has reason to believe that a household with an outstanding claim has relocated to that State.

(3) A State agency must accept the responsibility for collecting the remaining balance of any claim from another State agency if it is discovered that a relocated household with a claim

is receiving food stamp benefits in the receiving State agency's jurisdiction.

(4) A State agency may, but is not required to, accept the responsibility for collecting the remaining balance of any claim from another State agency if it is discovered that the relocated household is residing in but not receiving food stamp benefits in the receiving State agency's jurisdiction.

(l) *Claims discharged through bankruptcy.* State agencies shall act on behalf of, and as, FNS in any bankruptcy proceeding against bankrupt households with outstanding recipient claims. State agencies shall possess any rights, priorities, interests, liens or privileges, and shall participate in any distribution of assets, to the same extent as FNS. Acting as FNS, State agencies shall have the power and authority to file objections to discharge, proofs of claims, exceptions to discharge, petitions for revocation of discharge, and any other documents, motions or objections which are appropriate under the circumstances. Any amounts collected under this authority shall be transmitted to FNS as provided in paragraph (n) of this section.

(m) *Retention rates.* (1) The State agency shall retain 20 percent of the value of IHE claims collected and 35 percent of the value of IPV claims collected. In addition, the State agency shall retain a total of 35 percent of the value of IHE claims collected via unemployment compensation benefit withholdings. These retention rates shall apply for claims and delinquent claims collection charges collected by the State agency, including the value of allotment reductions for the purpose of collecting claims but not reductions in benefits due to disqualification.

(2) The State agency shall not retain any percentage of the value of AE claims collected.

(n) *Submission of payments to FNS.* The State agency shall submit the value of funds collected for IHE, IPV or AE claims in accordance with instructions issued by FNS. Any payment to State agencies for claims collection retention must be made by electronic funds transfer.

(o) *Accounting procedures.* Each State agency shall be responsible for maintaining an accounting system for monitoring recipient claims against households. This accounting system shall consist of both the system of records maintained for individual debtors and the accounts receivable summary data maintained for these debts. At a minimum, the accounting system shall readily accomplish the following:

(1) Document the date of discovery, the circumstances which resulted in a claim, the procedures used to calculate the claim, the date of establishment, the methods used to collect the claim, delinquent claim collection charges, and the circumstances which resulted in the final disposition of the claim.

(2) Identify those situations in which an amount not yet restored to a household can be used to offset a claim owed by the household.

(3) Identify those households whose claims have become delinquent either by not responding to the demand letter or failing to make an installment payment on their claim.

(4) Document how much money was collected in payment of a claim and periodically advise households of the status of their claim balances.

(5) Identify at certification households with outstanding claims.

(6) Produce and accurately support balances in collections and outstanding liabilities for the recipient claims established.

(7) At an interval determined by FNS, produce summary reports of the funds collected, the amount submitted to FNS, the claims established and terminated, the delinquent claims collection charges, the uncollected balance and the delinquency of the unpaid debt.

(8) On a quarterly basis, unless otherwise directed by FNS, reconcile summary balances reported to individual supporting records.

(p) *Federal claim collection methods (FCCM's)*—(1) *General.* Federal claim collection methods (FCCM's) include the Federal Income Tax Refund Offset Program (FTROP), the Federal Salary Offset Program (FSOP) and the Administrative Offset Program (ADOP) specified in this paragraph (p). Under procedures for FCCM's, State agencies are responsible for the recipient claim actions required in § 273.18, including the due process and related actions specified in this paragraph (p). For claims offset under FCCM's, State agencies receive the percentage of such collections specified in paragraph (m) of this section.

(i) *Claims subject to FCCM's.* (A) All claims shall be subject to collection by FCCM's only after the State agency has initiated one or more collection methods specified in paragraph (i) of this section. The requirement for a prior collection effort shall not apply when, as indicated by such evidence as demand letters returned as undeliverable, no liable individual can be located.

(B) State agencies shall submit all claims subject to collection by FCCM's as required in paragraph (p) of this section.

(ii) *Procedures and schedules.* State agencies shall submit data on claims subject to FCCM's in record formats, according to schedules, and by transmission methods as specified by FNS, and follow other technical and procedural guidelines as specified by FNS in the Manual for Federal Claims Collection Methods for the FSP (the FCCM manual).

(iii) *Identification of types of claim.* For each claim submitted under FCCM's, State agencies shall identify whether the claim is due to an inadvertent household error, intentional Program violation or a State agency administrative error. For any claim which is submitted for collection under FCCM's and which is a combination of more than one type of claim, State agencies shall specify the dollar amounts due to each type of claim.

(iv) *Updating claim records.* As instructed in the FCCM manual, State agencies shall update records of claims submitted under FCCM's by reducing the amounts of and deleting claims to reflect payments received, and by deleting claims which for other reasons are no longer subject to collection under FCCM's.

(v) *Hierarchy of collection methods.* Claims submitted under paragraph (p) of this section will be offset from Federal payments due to debtors as such payments are identified and are available for offset.

(2) *Federal Tax Refund Offset Program (FTROP)*—(i) *Criteria for claims subject to FTROP.* State agencies shall submit for collection from Federal income tax refunds all recipient claims which are delinquent as specified in paragraph (p)(1)(i) of this section and which are legally enforceable. Such claims must:

(A) Be claims with a dollar value which is at least the minimum dollar amount established by the Department of Treasury. (B) Be claims for which the date of the initial demand letter is within 10 years of January 31 of the offset year, except that claims reduced to final court judgments ordering individuals to pay the debt are not subject to this 10-year limitation.

(C) Not include any claim submitted for collection from an individual in a household which, as specified in paragraph (i)(1) of this section, is subject to allotment reduction

(D) Not include any claim for which collection is barred by a bankruptcy.

(E) Be claims for which individuals have been provided all of the opportunities for review and the notifications specified in paragraphs

(p)(2)(iii), (p)(2)(iv), and (p)(2)(v) of this section.

(ii) *Combined claims.* If a claim which is otherwise subject to collection under FTROP is a combination of two or more recipient claims, the date of the initial demand letter for each claim combined shall be within the 10-year range specified in paragraph (p)(2)(i)(B) of this section. Claims reduced to judgment shall not be combined with claims which are not reduced to judgment.

(iii) *60-Day notice to individuals.* (A) Prior to referring claims for collection under FTROP, the State agency shall provide individuals from whom it seeks to collect such claims with a notice, called a 60-day notice.

(B) The 60-day notice shall advise the debtor:

(*1*) What, according to State agency records, is the debtor's name and Social Security Number (SSN).

(*2*) That the debtor is liable for a specified unpaid balance of a recipient claim resulting from overissued food stamp benefits.

(*3*) That unless the debtor pays the claim within 60 days of the date of the notice or makes other repayment arrangements acceptable to the State agency, the State agency intends to refer the claim for deduction from the debtor's Federal income tax refund and/or collection by administrative offset from other Federal payments which may be payable to the debtor.

(*4*) That to pay the claim voluntarily or to discuss it, the debtor should contact the State agency. The 60-day notice shall include the name of the State agency contact for this purpose (such as an office, administrative unit and/or individual), the contact's street address or post office box, and a toll-free or collect telephone number for the State agency contact.

(*5*) That if the debtor's claim is referred for Federal collection, a charge for the administrative cost of collection will be added to the claim and that amount will also be deducted if the claim, or any portion of it, is deducted from the debtor's tax refund or other Federal payment.

(*6*) That the debtor is entitled to request a review of the intended collection action and that the State agency must receive such a request within 60 days of the date of the 60-day notice. Such a request must be written, must be submitted to the address provided in this notice and should contain the debtor's SSN. The claim will not be referred for offset from the debtor's tax refund or for collection from other Federal payments while the State agency's review is pending.

(*7*) That the Debt Collection Act of 1982, as amended (31 U.S.C. 3701), authorizes collection of claims by administrative offset after giving the debtor notice of that intended action and advising the debtor of the debtor's rights under that statute. This notice meets the requirements for providing such notice and advice.

(*8*) That the claim is not legally enforceable if a bankruptcy prevents collection of the claim.

(*9*) That the debtor may want to contact the debtor's local office of the Internal Revenue Service if the debtor is filing a joint Federal income tax return.

(C) In the certification letter required in paragraph (p)(2)(vi)(B)(*4*) of this section, the State agency shall include a statement that its 60-day notice complies with the requirements of paragraph (p)(2)(iii)(B) of this section.

(D) The State agency shall mail 60-day notices for claims to be referred for collection through FTROP and administrative offset according to the schedule provided by FNS.

(E) The State agency shall mail 60-day notices using the address information provided by Treasury unless the State agency receives clear and concise notification from the taxpayer that notices from the State agency are to be sent to an address different from the address obtained from Treasury. Such clear and concise notification shall mean that the taxpayer has provided the State agency with written notification including the taxpayer's name and identifying number (which is generally the taxpayer's SSN), the taxpayer's new address, and the taxpayer's intent to have notices from the State agency sent to the new address. Claims for which 60-day notices addressed as required in this paragraph (p)(2)(iii)(E) and are returned as undeliverable may be referred for collection.

(iv) *State agency action on requests for review.* (A) For all written requests for review received within 60 days of the date of the 60-day notice, the State agency shall determine whether or not the subject claims are past due and legally enforceable, and shall notify individuals in writing of the result of such determinations.

(B) The State agency shall determine whether or not claims are past due and legally enforceable based on a review of its records, and of documentation, evidence or other information the individual may submit.

(C) If the State agency decides that a claim for which a review request is received is past due and legally enforceable, it shall notify the individual that:

(*1*) The claim was determined past due and legally enforceable, and the reason for that determination. Acceptable reasons for such a determination include the individual's failure to provide adequate documentation that the claim is not past due or legally enforceable.

(*2*) The State agency intends to refer the claim for collection from the debtor's Federal income tax refund and/or collection from other payments which may be payable to the debtor by the Federal Government.

(*3*) The individual may ask FNS to review the State agency decision. FNS must receive the request for review within 30 days of the date of the State agency decision. FNS will provide the individual a written response to such a request stating its decision and the reasons for its decision. Pending the FNS decision, the claim will not be referred for collection from the debtor's Federal income tax refund and/or from other payments which may be payable to the debtor by the Federal Government.

(*4*) A request for an FNS review must include the individual's SSN and must be sent to the appropriate FNS regional office. The State agency decision shall provide the address of that regional office, including in that address the phrase "Offset Review."

(D) If the State agency determines that the claim is not past due or legally enforceable, in addition to notifying the individual that the claim will not be referred for offset, the State agency shall take any actions required by food stamp regulations with respect to establishing the claim, including holding appropriate hearings and initiating collection action.

(E) The State agency shall not refer for offset a claim for which a timely State agency review request is received unless the State agency determines the claim past due and legally enforceable, and notifies the individual of that decision as specified in paragraphs (p)(2)(iv)(C)(*1*), (p)(2)(iv)(C)(*2*) and (p)(2)(iv)(C)(*3*) of this section.

(v) *FNS action on appeals of State agency reviews.* (A) FNS shall act on all timely requests for FNS reviews of State agency review decisions as specified in paragraph (p)(2)(iv)(C) of this section. A request for FNS review is timely if it is received by FNS within 30 days of the date of the State agency's review decision.

(B) If a timely request for FNS review is received, FNS shall:

(*1*) Complete a review and notification as specified in paragraphs (p)(2)(v)(C) and (p)(2)(v)(D) of this section, including providing State agencies and

individuals the required notification of its decision; or

(*2*) Notify the State agency that it has not completed its review and that the State agency must delete the claims in question from files to be certified to FNS according to paragraph (p)(2)(vi) of this section. If FNS fails to timely notify the State agency and because of that failure a claim is offset which FNS later finds does not meet the criteria specified in paragraph (p)(2)(i) of this section, FNS will provide funds to the State agency for refunding the charge for the offset fee.

(C) When FNS receives an individual's request to review a State agency decision, FNS shall:

(*1*) Request pertinent documentation from the State agency about the claim. Such documentation shall include such things as printouts of electronic records and/or copies of claim demand letters, results of fair hearings, advance notices of disqualification hearings, the results of such hearings, records of payments, 60-day notices, review requests and documentation, decision letters, and pertinent records of such things as telephone conversations; and

(*2*) Decide whether the State agency correctly determined the claim in question is past due and legally enforceable.

(D) If FNS finds that the State agency correctly determined that the claim is past due and legally enforceable, FNS will notify the State agency and individual of its decision, and the reason(s) for that decision, including notice to the individual that any further appeal must be made through the courts.

(E) If FNS finds that the State agency incorrectly determined that the claim is past due and legally enforceable, FNS will notify the State agency and individual of its decision, and the reason(s) for that decision. FNS will also notify the State agency about any corrective action the State agency must take with respect to the claim and related procedures.

(vi) *Referral of claims for offset.* (A) State agencies shall submit to FNS a certified file of claims for collection through FTROP and administrative offset by the date specified by FNS in schedules which FNS will provide as stated in paragraph (p)(2)(ii) of this section.

(B) At the same time they submit the certified file required in paragraph (p)(2)(vi)(A) of this section, according to instructions which FNS will provide as stated in paragraph (p)(2)(ii) of this section, State agencies shall submit a letter which specifically certifies that:

(*1*) All claims contained in the certified file meet the criteria for claims referable for FTROP as specified in paragraph (p)(2)(i) of this section.

(*2*) For all claims on the certified file individuals have been provided all the opportunities for review and the notifications required in paragraphs (p)(2)(iii), (p)(2)(iv), and (p)(2)(v) of this section.

(*3*) The State agency has not included in the certified file of claims any claim which, as provided in paragraph (p)(2)(v) of this section, FNS notified the State agency is not past due or is not legally enforceable, any claim for which FNS notified the State agency that it has not completed a timely requested review, or any claim for which the State agency has not completed a timely requested review.

(*4*) The State agency's 60-day notice complies with the requirements of paragraph (p)(2)(iii)(B) of this section.

(*5*) How the State agency determined that the State agency contact information required in paragraph (p)(2)(vi)(C) of this section is accurate.

(C) The State agency shall provide to FNS according to FNS instructions, the name, address and toll-free or collect telephone numbers of State agency contacts to be included in IRS notices of offset, and shall provide FNS updates of that information if and when that information changes.

(vii) *Reporting FTROP and administrative offset activities.* As specified in the FCCM manual, State agencies shall:

(A) No later than the ten days after mailing 60-day notices, report the number of 60-day notices mailed and the total dollar value of the claims associated with those notices.

(B) Submit data security and voluntary payment reports.

(3) *Federal salary offset program (FSOP)*—(i) *Identification of recipient claims owed by Federal employees.* FNS will match all recipient claims submitted by State agencies under paragraph (p)(2) of this section against Federal employment records maintained by the Department of Defense and the United States Postal Service. FNS will identify recipient claims matched during this procedure with the list of recipient claims to be referred to the Department of Treasury for collection under paragraph (p)(2) of this section.

(ii) *Security and confidentiality agreements.* When FNS receives a list of Federal employees matched against recipient claims for a particular State agency, it will notify the State agency in writing accompanied by a data security and confidentiality agreement containing the requirements specified in paragraph (p)(3)(iii) of this section for the State agency to sign and return. When that agreement is returned, signed by an appropriate official of the State agency, FNS will provide the list of matched Federal employees to the State agency.

(iii) *Security and confidentiality of information.* State agencies which receive lists of Federal employees who have been identified as owing recipient claims shall take the actions specified in this paragraph (p)(3)(iii) to ensure the security and confidentiality of information about those employees and their apparent debts. In addition, those State agencies shall ensure that any contractors or other non-State agency entities to which the records may be disclosed also take these actions:

(A) By such means as card keys, identification badges and security personnel, limit access to computer facilities handling the data to persons who need to perform official duties related to the salary offset procedures. By means of a security package, limit access to the computer system itself to such persons;

(B) During off-duty hours, keep magnetic tapes and other hard copy records of data in locked cabinets in locked rooms. During on-duty hours, maintain those records under conditions that restrict access to persons who need them in connection with official duties related to salary offset procedures;

(C) Use the data solely for salary offset purposes as specified in this paragraph (p)(3), including not extracting, duplicating or disseminating the data except for salary offset purposes;

(D) Retain the data only as long as needed for FSOP purposes as specified in this paragraph (p)(3), or as otherwise required by FNS;

(E) Destroy the data by shredding, burning or electronic erasure; and

(F) Advise all personnel having access to the data about the confidential nature of the data and their responsibility to abide by the security and confidentiality provisions stated in this paragraph (p)(3)(iii).

(iv) *Record review.* State agencies shall review the claims records of matched Federal employees identified as owing recipient claims to determine the correct amount owed, and to remove from the list of claims any recipient claims which have been paid, which are being paid as specified in paragraph (i)(4) of this section, or which for other reasons are not collectible.

(v) *State agency advance notice of salary offset.* (A) Following the review specified in paragraph (p)(3)(iv) of this section, State agencies shall provide each Federal employee verified as

owing a recipient claim (debtor) with an advance notice of salary offset (advance notice). This advance notice shall be mailed to the debtor at the address provided by FNS, or shall be otherwise provided, within 60 days of State agency receipt of files of salary offset claims. This notice may be combined with the notice referred to under paragraph (p)(2) of this section.

(B) The advance notice shall advise debtors that:

(*1*) State agency records indicate that the debtor's Social Security Number (SSN) is [the number]. The advance notice shall also advise the debtor what the debtor's name is according to State agency records.

(*2*) The debtor is liable for a specified unpaid balance of a recipient claim resulting from overissued food stamp benefits.

(*3*) Unless the debtor pays the claim within 30 days of the date of the notice or makes other repayment arrangements acceptable to the State agency, the State agency intends to refer the claim for collection from the debtor's Federal salary and/or by administrative offset from other Federal payments which may be payable to the debtor.

(*4*) To pay the claim voluntarily or to discuss it, the debtor should contact the State agency. The advance notice shall include the name of the State agency contact for this purpose (such as an office, administrative unit and/or individual), the contact's street address or post office box, and a toll-free or collect telephone number for that contact.

(*5*) Debtors may submit documentation to State agencies showing such things as payments of claims or other circumstances which would prevent collection of claims. A claim is not collectible if a bankruptcy filing prevents collection of the claim. The State agency must receive the documentation within 30 days at the address provided in the notice. The debtor should provide his or her SSN with the documentation. The claim will not be referred for collection pending the State agency's review.

(*6*) The debtor was found to be employed by a Federal agency through a computer match. That match was conducted under the authority of and according to procedures required by the Privacy Act of 1974, as amended (5 U.S.C. 552a)

(*7*) Collection from the wages of Federal employees, including United States Postal Service employees, for debts such as claims for overissued food stamp benefits is authorized by the Debt Collection Act of 1982, as amended (31 U.S.C. 3701). That statute also authorizes collection of such debts by administrative offset from other Federal payments which may be payable to the debtor.

(vi) *State agency notice of review decisions.* The State agency shall notify debtors in writing of the State agency's decision on documentation submitted concerning payments and on other matters relating to the collection of claims under FSOP and administrative offset.

(vii) *Referral of claims to FNS.* (A) Within 90 days of the date of the advance notice, the State agency shall refer to FNS all claims for which the State agency does not receive timely and adequate response as specified in the advance notice. Such referrals shall consist of:

(*1*) For each claim, a copy of the advance notice, a copy of the initial demand letter, a record of payments received and the current balance of the claim; or

(*2*) If not previously provided to FNS, one copy each of the State agency's language for advance notices and demand letters, and for each claim the dates of the advance notice and the original demand letter, the amount of the claim cited in each of those two notices, the type of claim, a record of payments received and the current balance of the claim.

(B) If a debtor fails to make an installment payment within 60 days of the date the payment was due, State agencies shall refer the claim to FNS, reporting the default, and including the documentation specified in paragraph (p)(3)(v)(A) of this section.

(viii) *FNS actions on claims referred by State agencies.* Departmental procedures at 7 CFR 3.51–3.68 shall apply to claims referred by State agencies to FNS as required by paragraph (p)(3)(v) of this section subject to the following modifications:

(A) In addition to the definitions set forth at 7 CFR 3.52, the term "debts" shall further be defined to include recipient claims established according to this section; and the terms "State agency" and "FNS" shall be defined as set forth in § 271.2 of this chapter.

(B) In addition to providing the right to inspect and copy Departmental records as specified at 7 CFR 3.60(a), the Secretary shall provide copies of records relating to the debt in response to timely requests. For a request to be timely, FNS must receive it within 30 calendar days of the date of the notice of intent.

(C) Pursuant to 5 CFR 550.1104(d)(6), an opportunity to establish a written repayment agreement provided at 7 CFR 3.61 shall not be provided.

(D) The notice of intent for FSP salary offset shall comply with the requirements of the Departmental notice of intent which are set forth at 7 CFR 3.55, subject to the following modifications:

(*1*) In addition to the statement that the debtor has the right to inspect and copy Departmental records relating to the debt, the notice of intent shall state that if timely requested by the debtor, the Secretary shall provide the debtor copies of such records. It shall further advise, as required by 7 CFR 3.60(a), that to be timely such requests must be received within 30 days of the date of the notice of intent.

(*2*) The statement of the right to enter a written repayment agreement provided by 7 CFR 3.55(f) shall not be included.

(*3*) The notice of intent shall advise the debtor that, in addition to being subject to collection from the debtor's Federal salary, the recipient claim is subject to collection from other payments due to the debtor from the Federal Government. The notice shall state that such collection is authorized under the Debt Collection Act of 1982, as amended (31 U.S.C. 3701).

(*4*) *Administrative Offset Program (ADOP).* Claims submitted under FTROP and FSOP are also subject to collection through the Administrative Offset Program (ADOP) from other Federal payments otherwise due to debtors.

Dated: May 15, 1998.

Title 3—

The President

Executive Order 13085 of May 26, 1998

Establishment of the Enrichment Oversight Committee

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to further the national security and other interests of the United States with regard to uranium enrichment and related businesses after the privatization of the United States Enrichment Corporation (USEC), it is ordered as follows:

Section 1. *Establishment.* There is hereby established an Enrichment Oversight Committee (EOC).

Sec. 2. *Objectives.* The EOC shall monitor and coordinate United States Government efforts with respect to the privatized USEC and any successor entities involved in uranium enrichment and related businesses in furtherance of the following objectives:

(a) The full implementation of the Agreement Between the Government of the United States of America and the Government of the Russian Federation Concerning the Disposition of Highly Enriched Uranium (HEU) Extracted from Nuclear Weapons, dated February 18, 1993 ("HEU Agreement"), and related contracts and agreements by the USEC as executive agent or by any other executive agents;

(b) The application of statutory, regulatory, and contractual restrictions on foreign ownership, control, or influence in the USEC, any successor entities, and any other executive agents;

(c) The development and implementation of United States Government policy regarding uranium enrichment and related technologies, processes, and data; and

(d) The collection and dissemination of information relevant to any of the foregoing on an ongoing basis, including from the Central Intelligence Agency and the Federal Bureau of Investigation.

Sec. 3. *Organization.* (a) The EOC shall be Chaired by a senior official from the National Security Council (NSC). The Chair shall coordinate the carrying out of the purposes and policy objectives of this order. The EOC shall meet as often as appropriate, but at least quarterly, and shall submit reports to the Assistant to the President for National Security Affairs semi-annually, or more frequently as appropriate. The EOC shall prepare annually the report for the President's transmittal to the Congress pursuant to section 3112 of the USEC Privatization Act, Public Law 104–134, title III, 3112(b)(10), 110 Stat. 1321–344, 1321–346 (1996).

(b) The EOC shall consist of representatives from the Departments of State, the Treasury, Defense, Justice, Commerce, Energy, and the Office of Management and Budget, the NSC, the National Economic Council, the Council of Economic Advisers, and the Intelligence Community. The EOC shall formulate internal guidelines for its operations, including guidelines for convening meetings.

(c) The EOC shall coordinate sharing of information and provide direction, while operational responsibilities resulting from the EOC's oversight activities will rest with EOC member agencies.

(d) At the request of the EOC, appropriate agencies, including the Department of Energy, shall provide day-to-day support for the EOC.

Sec. 4. *HEU Agreement Oversight.* The EOC shall form an HEU Agreement Oversight Subcommittee (the "Subcommittee") in order to continue coordination of the implementation of the HEU Agreement and related contracts and agreements, monitor actions taken by the executive agent, and make recommendations regarding steps designed to facilitate full implementation of the HEU Agreement, including changes with respect to the executive agent. The Subcommittee shall be chaired by a senior official from the NSC and shall include representatives of the Departments of State, Defense, Justice, Commerce, and Energy, and the Office of Management and Budget, the National Economic Council, the Intelligence Community, and, as appropriate, the United States Trade Representative, and the Council of Economic Advisers. The Subcommittee shall meet as appropriate to review the implementation of the HEU Agreement and consider steps to facilitate full implementation of that Agreement. In particular, the Subcommittee shall:

(a) have access to all information concerning implementation of the HEU Agreement and related contracts and agreements;

(b) monitor negotiations between the executive agent or agents and Russian authorities on implementation of the HEU Agreement, including the proposals of both sides on delivery schedules and on price;

(c) monitor sales of the natural uranium component of low-enriched uranium derived from Russian HEU pursuant to applicable law;

(d) establish procedures for designating alternative executive agents to implement the HEU Agreement;

(e) coordinate policies and procedures regarding the full implementation of the HEU purchase agreement and related contracts and agreements, consistent with applicable law; and

(f) coordinate the position of the United States Government on any issues that arise in the implementation of the Memorandum of Agreement with the USEC for the USEC to serve as the United States Government Executive Agent under the HEU Agreement.

Sec. 5. *Foreign Ownership, Control, or Influence (FOCI).* The EOC shall collect information and monitor issues relating to foreign ownership, control, or influence of the USEC or any successor entities. Specifically, the EOC shall:

(a) monitor the application and enforcement of the FOCI requirements of the National Industrial Security Program established by Executive Order 12829 with respect to the USEC and any successor entities (*see* National Industrial Security Program Operating Manual, Department of Defense 2–3 (Oct. 1994));

(b) monitor and review reports and submissions relating to FOCI issues made by the USEC or any successor entity to the Nuclear Regulatory Commission (NRC) under the Atomic Energy Act of 1954, 42 U.S.C. 2011 *et seq.* (1994), and the USEC Privatization Act, Public Law 104–134, title III, 110 Stat. 1321–335 *et seq.* (1996);

(c) ensure coordination with the Intelligence Community of the collection and analysis of intelligence and ensure coordination of intelligence with other information related to FOCI issues; and

(d) ensure coordination with the Committee on Foreign Investment in the United States.

Sec. 6. *Domestic Enrichment Services.* The EOC shall collect and analyze information related to the maintenance of domestic uranium mining, enrichment, and conversion industries, provided that such activities shall be undertaken in a manner that provides appropriate protection for such information. In particular, the EOC shall:

(a) collect and review all public filings made by or with respect to the USEC or any successor entities with the Securities and Exchange Commission;

[FR Do
Filed 5
Billing

UMI VOL 63 ISS 102 MY 28 1998 UMI

(b) collect information from all available sources necessary for the preparation of the annual report to the Congress required by section 3112 of the USEC Privatization Act, as noted in section 3(a) of this order, including information relating to plans by the USEC or any successor entities to expand or contract materially the enrichment of uranium-using gaseous diffusion technology;

(c) collect information relating to the development and implementation of atomic vapor laser isotope separation technology;

(d) to the extent permitted by law, and as necessary to fulfill the EOC's oversight functions, collect proprietary information from the USEC, or any successor entities, provided that the collection of such information shall be undertaken so as to minimize disruption to the normal functioning of the private corporation. For example, such information would include the USEC's financial statements prepared in accordance with standards applicable to public registrants and the executive summary of the USEC's strategic plan as shared with its Board of Directors, as well as timely information on its unit production costs, capacity utilization rates, average pricing and sales for the current year and for new contracts, employment levels, overseas activities, and research and development initiatives. Such information shall be collected on an annual basis, with quarterly updates as appropriate; and

(e) coordinate with relevant agencies in monitoring the levels of natural and enriched uranium and enrichment services imported into the United States.

Sec. 7. *Coordination with the Nuclear Regulatory Commission.* Upon notification by the NRC that it seeks the views of other agencies of the executive branch regarding determinations necessary for the issuance, reissuance, or renewal of a certificate of compliance or license to the privatized USEC, the EOC shall convey the relevant views of these other agencies of the executive branch, including whether the applicant's performance as the United States agent for the HEU Agreement is acceptable, on a schedule consistent with the NRC's need for timely action on such regulatory decisions.

William J. Clinton

National Oceanic and Atmospheric Administration
Endangered and threatened species:
Johnson's seagrass; comments due by 6-4-98; published 4-20-98
Fishery conservation and management:
Alaska; fisheries of Exclusive Economic Zone—
Scallop; comments due by 6-1-98; published 3-31-98
Scallop; comments due by 6-1-98; published 4-16-98
Shortraker/rougheye rockfish; comments due by 6-1-98; published 4-2-98
Highly migratory species fisheries—
Vessel monitoring systems requirements; implementation options; comments due by 6-1-98; published 4-17-98
West Coast States and Western Pacific fisheries—
Pacific Coast groundfish; comments due by 6-5-98; published 5-15-98
COMMODITY FUTURES TRADING COMMISSION
Practice and procedure:
Miscellaneous amendments; comments due by 6-2-98; published 4-3-98
CONSUMER PRODUCT SAFETY COMMISSION
Poison prevention packaging:
Child-resistant packaging requirements—
Minoxidil preparations with more than 14 mg of minoxidil per package; comments due by 6-1-98; published 3-17-98
DEFENSE DEPARTMENT
Vocational rehabilitation and education:
Reservists education—
Monthly verification of enrollment and other reports; comments due by 6-1-98; published 3-31-98
DEFENSE DEPARTMENT
Navy Department
Acquisition regulations:
Shipbuilding contracts; price adjustments; comments due by 6-1-98; published 5-1-98
EDUCATION DEPARTMENT
Elementary and secondary education:
Elementary and Secondary Education Act; implementation—
Helping disadvanaged children meet high standards; comments due by 6-1-98; published 3-31-98
ENVIRONMENTAL PROTECTION AGENCY
Air pollutants, hazardous; national emission standards:
Halogenated solvent cleaning; temporary stay extension; comments due by 6-4-98; published 5-5-98
Air pollution; standards of performance for new stationary sources:
Dupont test program for hydrogen-fueled flares; comments due by 6-3-98; published 5-4-98
Air programs:
Accidental release prevention—
Risk management programs; comments due by 6-1-98; published 4-17-98
Air quality implementation plans; approval and promulgation; various States:
California; comments due by 6-1-98; published 4-30-98
Connecticut et al.; comments due by 6-1-98; published 4-30-98
New York; comments due by 6-1-98; published 4-30-98
Hazardous waste program authorization:
Oklahoma; comments due by 6-1-98; published 4-30-98
Hazardous waste program authorizations:
Oklahoma; comments due by 6-1-98; published 4-30-98
Hazardous waste:
Identification and listing—
Exclusions; comments due by 6-1-98; published 4-15-98
Recycled used oil management standards; comments due by 6-5-98; published 5-6-98
Recycled used oil management standards; comments due by 6-5-98; published 5-6-98
Pesticides; tolerances in food, animal feeds, and raw agricultural commodities:
Propiconazole; comments due by 6-2-98; published 4-3-98
Practice and procedure:
Civil penalties administrative assessment, compliance or corrective action orders issuance, and permits revocation, termination, or suspension; comments due by 6-5-98; published 5-6-98
Water pollution control:
Water quality standards—
Alabama; comments due by 6-3-98; published 5-13-98
Polychlorinated biphenyls (PCBs); priority toxic pollutants numeric criteria; States' compliance; comments

due by 6-1-98; published 4-2-98

FEDERAL COMMUNICATIONS COMMISSION

Common carrier services:

Operations support systems, interconnection, and operator services and directory assistance; performance measurements and reporting requirements; comments due by 6-1-98; published 5-15-98

Radio stations; table of assignments:

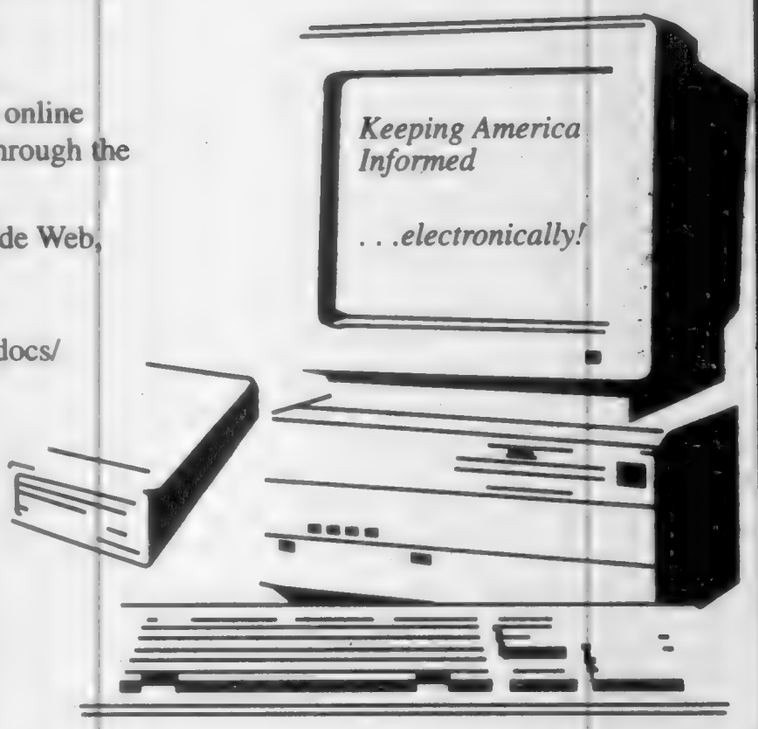
Updated Daily by 6 a.m. ET



Easy, Convenient, FREE

Free public connections to the online Federal Register are available through the GPO Access service.

To connect over the World Wide Web, go to the Superintendent of Documents' homepage at http://www.access.gpo.gov/su_docs/

To connect using telnet, open swais.access.gpo.gov and login as guest (no password required).

To dial directly, use communications software and modem to call (202) 512–1661; type swais, then login as guest (no password required).

You may also connect using local WAIS client software. For further information, contact the GPO Access User Support Team:

Voice: (202) 512–1530 (7 a.m. to 5 p.m. Eastern time).
Fax: (202) 512–1262 (24 hours a day, 7 days a week).
Internet E-Mail: gpoaccess@gpo.gov

The **FEDERAL REGISTER** is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see http://www.nara.gov/fedreg.

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and it includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

GPO Access users can choose to retrieve online **Federal Register** documents as TEXT (ASCII text, graphics omitted), PDF (Adobe Portable Document Format, including full text and all graphics), or SUMMARY (abbreviated text) files. Users should carefully check retrieved material to ensure that documents were properly downloaded.

On the World Wide Web, connect to the **Federal Register** at http://www.access.gpo.gov/nara. Those without World Wide Web access can also connect with a local WAIS client, by Telnet to swais.access.gpo.gov, or by dialing (202) 512-1661 with a computer and modem. When using Telnet or modem, type swais, then log in as guest with no password.

For more information about GPO Access, contact the GPO Access User Support Team by E-mail at gpoaccess@gpo.gov; by fax at (202) 512–1262; or call (202) 512–1530 or 1–888–293–6498 (toll free) between 7 a.m. and 5 p.m. Eastern time, Monday–Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $555, or $607 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $220. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $8.00 for each issue, or $8.00 for each group of pages as actually bound; or $1.50 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 63 FR 12345.

Printed on recycled paper containing 100% post consumer waste

FEDERAL REGISTER WORKSHOP

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: Sponsored by the Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

Rules and Regulations

Federal Register
Vol. 63, No. 103
Friday, May 29, 1998

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Rural Housing Service

Rural Business-Cooperative Service

Rural Utilities Service

Farm Service Agency

7 CFR Part 1962

RIN 0560–AE62

Post Bankruptcy Loan Servicing Notices

AGENCIES: Rural Housing Service, Rural Business-Cooperative Service, Rural Utilities Service, and Farm Service Agency, USDA.

ACTION: Final rule.

SUMMARY: The Farm Service Agency (FSA) is amending its regulations regarding servicing accounts when a bankruptcy filing is dismissed. This change will clarify when a Notice of the Availability of Loan Service and Debt Settlement Programs for Delinquent Farm Borrowers will be sent to a borrower who is in or has been dismissed from bankruptcy. The intended effect of this rule is to improve the efficiency of the Agency's servicing of delinquent borrowers who have filed bankruptcy petitions.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Kimberly R. Laris, Senior Loan Officer, Farm Service Agency, U.S. Department of Agriculture, Room 5441–S, 1400 Independence Age., SW, Washington, D.C. 20250–0523; Telephone: 202–720–1659, e-mail: klaris@wdc.fsa.usda.gov.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This rule has been determined to be not significant for purposes of Executive Order 12866 and, therefore, has not been reviewed by the Office of Management and Budget.

Regulatory Flexibility Act

New provisions included in this rule will not have a significant economic impact on a substantial number of small entities. It will not impact small entities to a greater extent than large entities, except to the extent that large entities may not be eligible for loan assistance to begin with, since they would be considered larger than a family-sized farm. Thus large entities may not be borrowers who have filed bankruptcy petitions, and therefore, subject to these rules. To the extent that large entities qualify for Farm Loan Program loan assistance and file bankruptcy petitions, large entities are subject to these rules to the same extent as small entities. Therefore, this rule is determined to be exempt from the requirements of the Regulatory Flexibility Act (5 U.S.C. 601).

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G, "Environmental Program." The issuing agencies have determined that this action does not significantly affect the quality of human environment, and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, an Environmental Impact Statement is not required.

Executive Order 12988

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. All State and local laws and regulations that are in conflict with this rule will be preempted. No retroactive effect will be given to this rule. Administrative proceedings in accordance with 7 CFR parts 11 and 780 must be exhausted before bringing suit in court challenging action taken under this rule unless those regulations specifically allow bringing suit at an earlier time.

Federal Assistance Programs Affected
10.404—Emergency Loans
10.406—Farm Operating Loans
10.407—Farm Ownership Loans

Executive Order 12372

For reasons set forth in the notice to 7 CFR part 3015, subpart V (48 FR 29115, June 24, 1983), Farm Operating Loans and Emergency Loans are excluded from the scope of Executive Order 12372, which requires intergovernmental consultation with State and local officials. However, the Soil and Water Loan and Farm Ownership Loan Programs are subject to the provisions of Executive Order 12372. The Agency has conducted the intergovernmental consultation requirements in accordance with RD Instruction 1940–J. (See the Notice related to 7 CFR 3015, subpart V, at 48 FR 29112, June 24, 1983; 49 FR 22675, May 31, 1984; 50 FR 14088, April 10, 1985.)

The Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Pub. L. 104–4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local and tribal governments and the private sector of $100 million or more in any 1 year. Under section 202 of the UMRA, FSA generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures to State, local, or tribal governments, in the aggregate, or to the private sector of $100 million or more in any 1 year. When such a statement is needed for a rule, section 202 of the UMRA generally requires FSA to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, more cost-effective or least burdensome alternative that achieves the objectives of the rule.

This rule contains no Federal mandates (under regulatory provisions of title II of the UMRA) for State, local, and tribal governments or the private sector. Thus, this rule is not subject to the requirements of sections 202 and 205 of the UMRA.

Discussion

These changes involve the Farm Loan Programs (FLP) loans of FSA formerly administered by the Farmers Home Administration (FmHA). The Farmer Programs loans reassignment of this program to FSA was authorized by the Department of Agriculture Reorganization Act of 1994 (Pub. L. 103–354, 108 Stat.3178).

Current FSA direct FLP loan servicing regulations require that a "Notice of the Availability of Loan Service Programs and Debt Settlement Programs for Delinquent Farm Borrowers," be sent to

borrowers if their bankruptcy is dismissed. A delinquent account servicing notice, pursuant to 7 CFR part 1951, subpart S, may be sent in such cases, even if the borrower had already exhausted all servicing rights and the account had been accelerated prior to the bankruptcy filing. Repeating the notice may cause extensive delays in the collection of accounts and substantially wastes the money and time of the Agency by requiring a procedure which has already been completed. To ensure that borrowers who had filed bankruptcy but whose bankruptcy was dismissed would receive the initial notification of loan servicing options required by § 331D of the Consolidated Farm and Rural Development Act, the regulations at 7 CFR 1962.47(d)(2) were rigidly written and construed. However, they were not intended to require renotification if the borrower's servicing rights had been exhausted prior to the bankruptcy filing.

In certain situations, the Agency is limiting the issuance of a new loan servicing summary notice authorized under § 331D of the Consolidated Farm and Rural Development Act (Act). Provided the account has not been accelerated, the attorney for the borrower and the borrower will be notified only of the loan servicing options that remain when the bankruptcy is filed. That notification will also occur upon dismissal of a bankruptcy action without confirmation of a bankruptcy plan, and upon default in a confirmed bankruptcy plan if the bankruptcy has been dismissed or closed and the borrower has not substantially completed the confirmed plan. No additional primary loan servicing action will be given upon discharge under chapter 7 of the Bankruptcy Code.

The Agency's present loan servicing program has been in effect since October 14, 1988, and borrowers have had many opportunities to apply for loan servicing. Section 1816 of the Food, Agriculture, Conservation, and Trade Act of 1990 limited the amount of debt the Agency could forgive to $300,000 per borrower, and limited writedowns and buyouts under § 353 of the Consolidated Farm and Rural Development Act (Con Act) to one per borrower on loans made after January 6, 1988.

Section 648(b) of the Federal Agriculture Improvement and Reform Act of 1996 (1996 Act) added § 373 to the Con Act in which Congress imposed the further limitation that the Agency may not provide debt forgiveness on a direct loan if the borrower has already received debt forgiveness on another direct loan. Section 640(2) of the 1996 Act added a definition of debt forgiveness as § 343(a)(12) of the Con Act that includes discharging of debt as a result of bankruptcy. Based on these limitations, it is no longer appropriate for the Agency to renotify all borrowers who have previously exhausted loan servicing options and have been unable to correct their delinquency or service their debt. Many of these borrowers will no longer be eligible for additional loan servicing.

A proposed rule was published on July 18, 1996, (61 FR 37405–07) with a comment period ending August 2, 1996. Comments were received from only one party, an organization representing family farmers. Their comments were divided into four parts. First, it was recommended that the rule be clarified by requiring that notices be sent also to the borrower at his or her address to ensure proper notification when a bankrupt borrower is not represented by an attorney. Since this recommendation may help to ensure proper notification, it was adopted.

Second, the commenter felt that the requirement in the proposed rule that to be considered for servicing, a bankrupt borrower and his or her attorney must both request loan servicing in writing was overly burdensome. The Agency agrees with the commenter and has amended the rule accordingly by requiring either the bankrupt borrower or his or her attorney to submit a request for servicing.

Third, the commenter noted that the rule could be interpreted to preclude sending loan servicing notices to a bankrupt borrower who becomes delinquent on an approved plan of reorganization, even if the borrower has performed under the plan, if the borrower has received notices in the past. In response, the paragraph noted by the commenter was amended to require the following: (1) if the borrower has not exhausted servicing rights, the notice explaining FSA's Farm Loan Programs will be sent to a borrower whose bankruptcy is dismissed before one full payment is made under the plan, unless the borrower's account is under the jurisdiction of the bankruptcy court or has been referred to the Department of Justice; and (2) a new loan servicing summary notice will be sent to a borrower who has a plan confirmed by the court if the borrower substantially complies with the bankruptcy plan, but later defaults on the plan, and the bankruptcy is dismissed, provided the lack of compliance is for reasons beyond the borrower's control and the account has not been accelerated.

As was the case under the predecessor rule, in the situation described in item (2) of the preceding paragraph, no new loan servicing summary notices will be sent if the Agency is advised that sending the notices is inconsistent with the provisions of the confirmed bankruptcy plan or the Bankruptcy Code. Also, no notices will be sent if the case is within the jurisdiction of the bankruptcy court or has been referred to the Department of Justice. This exception is provided to correct situations where there are jurisdictional conflicts between those delegated to finally decide the matter. The Agency wished to conform to jurisdictional principles that establish the superior authority of a bankruptcy court and the Department of Justice. Of course, any borrower who has satisfactorily completed the confirmed plan will be treated the same as any other rehabilitated borrower for the purpose of loan servicing.

The Agency believes that these changes to the proposed rule conform to the spirit of the commenter's objections because they provide that most delinquent borrowers, except as explained above, who have substantially complied with their bankruptcy plans will receive an additional opportunity to apply for loan servicing within the parameters provided by Congress. This policy is justified because the obligations of these borrowers to the Agency have been modified by a confirmed bankruptcy plan (for borrowers filing under chapter 11 of the Bankruptcy Code) or by a completed bankruptcy plan (for borrowers filing under chapters 12 and 13 of the Bankruptcy Code), and they have substantially complied with this obligation.

While *Lee* v. *Yuetter*, 917 F.2d 1104 (8th Cir.1990), upheld the Agency's regulation providing that discharged chapter 7 borrowers did not have outstanding obligations to the Agency and were not borrowers for primary loan servicing purposes, this holding is limited to borrowers discharged under chapter 7 of the Bankruptcy Code. See *Lee* v. *Yeutter*, 106 B.R. 588, 592 (D. Minn., 1989), which contrasted borrowers discharged under chapter 7 of the Bankruptcy Code who have no debt to the Agency that could be further restructured with those borrowers who filed under the reorganization chapters of the Bankruptcy Code who have obligations to the Agency under their confirmed bankruptcy plans which are capable of being restructured. Accordingly, the Agency has always considered borrowers discharged under confirmed reorganization bankruptcy

plans to still be "borrowers." While discharged reorganization borrowers who have completed a confirmed plan, like other borrowers who have received previous debt forgiveness from the Agency on another loan, cannot receive additional debt forgiveness, as defined by § 343(a)(12) of the Con Act, they may be eligible for other servicing options provided by FSA regulations.

The commenter also was disturbed by the Agency's removal of internal agency processes from its published regulations and placing these items in a handbook which would be available to the public upon request at no cost. The commenter expressed concerns that the Agency's streamlining efforts may undercut the rulemaking process and substantive requirements upon which public comment should be solicited will be left out of the **Federal Register**. The commenter offered the example of the former Agricultural Stabilization and Conservation Service allegedly maintaining handbook provisions that conflicted with published regulations, and using the handbook instead of regulations to implement substantive provisions. As an alternative, the commenter suggests that the Agency narrowly define the content of the handbook so that it would include only those items which are clearly internal operating procedures.

The commenter's concerns are understandable. However, Agency regulations, as they are currently written, contain an excessive amount of specific internal policy. In accordance with a Governmentwide mandate of the National Performance Review, the Agency must remove internal administrative processes from the regulations. In addition, 5 U.S.C. 551 does not require the publication of internal administrative processes not affecting the general public. Reform of FSA regulations will ultimately obsolete the regulations of the defunct FmHA, reduce the burden associated with making policy changes, improve the readability of regulations and reduce the volume of extraneous published material.

For example, in this rule, the Agency is removing the specific references to Exhibit D (Notice to Borrower's Attorney Regarding Loan Servicing Options) of this subpart, that is sent with the loan servicing notices to explain the interrelationship of the loan servicing programs to the bankruptcy petitions filed under chapters 7, 11, 12, and 13 of the Bankruptcy Code. While the Agency will continue to use this type of specialized notice, there is no statutory requirement that this type of notice be sent. Since these matters involve internal operating procedures, the requirement will be contained in the Agency's handbook only, with the regulations referencing only that a notice will be sent. Similarly, the Agency has removed Exhibit D from this subpart. Since this document is an informational cover letter sent with the notices, the Agency is not required to publish it.

The commenter suggested that the FSA handbooks be available to the general public through the FSA Web Page. Currently, the FSA Web Page is limited to general information on the Agency's programs; however, the Agency does plan to provide FSA handbooks through a Web Page as soon as resources are available. The procedures used by the USDA, Rural Development agencies, which include many procedures of the former FmHA, are available on the World Wide Web at http://www.rdinit.usda.gov/regs/. This includes procedures that are shared by FSA Farm Loan Programs and the Rural Development agencies, including the one affected by this final rule, RD Instruction 1962–A.

Good cause is shown to make this rule immediately effective upon publication in the **Federal Register** and without the 30-day period required by 5 U.S.C. 551. This rule substantially improves the efficiency of the Agency's servicing of delinquent borrowers who have filed bankruptcy petitions by revising the requirement that additional loan servicing notices be sent whenever a bankruptcy is dismissed. Also, the Agency will notify borrowers within the jurisdiction of the bankruptcy court of remaining servicing rights rather than beginning the lengthy servicing process anew whenever a bankruptcy is filed, regardless of whether the account has been previously accelerated or the Agency has previously sent servicing notices. Expediting liquidation when servicing rights have been exhausted serves the public interest. Therefore, good cause is shown to make this final rule effective immediately.

List of Subjects in 7 CFR Part 1962

Crops, Government property, Livestock, Loan programs—agriculture, Rural areas.

Accordingly, chapter XVIII, title 7, Code of Federal Regulations, is amended as follows:

PART 1962—PERSONAL PROPERTY

1. The authority citation for part 1962 continues to read as follows:

Authority: 5 U.S.C. 301; 7 U.S.C. 1989; 42 U.S.C. 1480.

Subpart A—Servicing and Liquidation of Chattel Security

2. Section 1962.47 is revised to read as follows:

§ 1962.47 Bankruptcy and insolvency.

(a) *Borrower files bankruptcy.* When the Agency becomes aware that a Farm Loan Programs borrower has filed for protection under Title 11 of the United States Code (bankruptcy), the borrower and the borrower's attorney, if any, will be notified in writing of the borrower's remaining servicing options.

(1) If the borrower wishes to apply for servicing options remaining, the borrower, or the borrower's attorney on behalf of the borrower, must sign and return the appropriate response form, or similar written request for servicing, and any forms or information as requested by the Agency, within 60 days from the date the borrower or the borrower's attorney received the notification, or the time remaining from a previous notification that was suspended when the borrower filed bankruptcy, whichever is greater.

(2) The Agency will consider a request for servicing options to be an acknowledgment that the Agency will not be interfering with any rights or protections under the Bankruptcy Code and its automatic stay provisions.

(3) The Agency's processing of any request for servicing may include consideration of primary and preservation loan servicing options, notification of the Agency's decision on the request or application for servicing, mediation, and holding of any meetings or appeals requested by the borrower.

(4) If court approval is required for the borrower to exercise these servicing rights, it will be the borrower or the borrower's attorney's responsibility to obtain that approval.

(5) If a plan is confirmed before servicing and any appeal is completed under 7 CFR part 11, the Agency will complete the servicing or appeals process and may consent to a post-confirmation modification of the plan if it is consistent with the Bankruptcy Code and 7 CFR part 1951, subpart S, as appropriate.

(6) In chapter 7 cases, the Agency will not provide primary loan servicing to a borrower discharged in bankruptcy unless the borrower reaffirms the entire Agency debt. If the chapter 7 debtor obtains the permission of the court and reaffirms the debt, the loan servicing application will be processed in accordance with 7 CFR part 1951, subpart S. If the borrower reaffirms the Agency debt in order to be considered for restructuring but is later denied

VOL 63 ISS 103 MAY 29 1998 UMI

restructuring, the borrower may revoke the reaffirmation subject to the provisions of the Bankruptcy Code. No reaffirmation is necessary for any discharged chapter 7 borrower to be eligible for preservation loan servicing in accordance with 7 CFR part 1951, subpart S.

(b) *Borrower defaults on plan or bankruptcy is dismissed*—(1) *90 days past due on a reorganization plan while still under court jurisdiction.*

(i) If allowed by the Bankruptcy Code or court, the borrower and the borrower's attorney, if any, will be notified of any remaining servicing options under 7 CFR part 1951, subpart S, that were not exhausted prior to filing bankruptcy or during the bankruptcy proceedings according to paragraph (a) of this section.

(ii) No notices will be sent if the account was previously accelerated, such action is inconsistent with the provisions of the confirmed bankruptcy plan or the Bankruptcy Code, or the case has been referred to the Department of Justice.

(iii) If a borrower operating under a confirmed bankruptcy plan desires to apply for loan servicing and qualifies for servicing under 7 CFR part 1951, subpart S, the borrower must also comply with Bankruptcy Code rules and requirements concerning modification of the plan.

(2) *Bankruptcy is dismissed without a confirmed plan.* If the borrower's bankruptcy is dismissed without a confirmed plan, and the borrower is in default on Farm Loan Programs loans, the borrower's account will be liquidated after all remaining servicing options under 7 CFR part 1951, subpart S are exhausted. The borrower will be notified of any servicing options remaining according to 7 CFR part 1951, subpart S. Notwithstanding the previous sentence, no notices will be sent if the account was previously accelerated, the Agency is advised that such an act is inconsistent with the confirmed bankruptcy plan or the Bankruptcy Code, or the account has been referred to the Department of Justice.

(3) *Bankruptcy is dismissed after a confirmed reorganization plan.* If a bankruptcy is dismissed after a reorganization plan was confirmed, the account will be serviced as follows:

(i) If the borrower has substantially complied with the plan, but later defaults for reasons beyond the borrower's control, (see 7 CFR 1951.909(c)), the borrower will be notified of loan servicing in accordance with 7 CFR 1951.907. No notices will be sent if the account was previously accelerated; such action is inconsistent with the provisions of the confirmed bankruptcy plan or the Bankruptcy Code; or the case has been referred to the Department of Justice.

(ii) If the borrower failed to make one full payment under the plan, or did not comply with the plan for reasons not beyond the borrower's control, the borrower will be serviced according to paragraph (b)(2) of this section.

(c) *Servicing of bankruptcy loans after the case is closed.* In chapter 11, 12, or 13 cases after the case is closed and the discharge order is issued by the court, if the borrower becomes delinquent after performing as agreed under the plan, the borrower will be sent a notice explaining the loan servicing options available under 7 CFR part 1951, subpart S. The borrower's attorney of record will be sent a courtesy copy if the bankruptcy has not been closed for at least 2 years. No notices will be sent if the account has been accelerated, such act is inconsistent with the provisions of a confirmed bankruptcy plan or other provisions of the Bankruptcy Code, or the account has been referred to the Department of Justice.

(d) *Liquidation.* The account will be liquidated after obtaining any necessary relief, if required, from the automatic stay. In chapter 7 cases after discharge, the account can be liquidated if the debt has not been reaffirmed and the property is no longer part of the estate. Liquidation can proceed prior to discharge if allowed by the court.

(1) If the borrower or borrower's attorney was not previously notified of any remaining servicing options available under 7 CFR part 1951, subpart S before or during the course of the bankruptcy proceedings, the borrower and the borrower's attorney will be sent the notices referenced in paragraph (c) of this section prior to liquidating any security property.

(2) If the borrower or the borrower's attorney had been previously notified of loan servicing options remaining, the account will be liquidated.

3. Exhibit D of subpart A is removed and reserved.

Signed in Washington, D.C., on March 21, 1998.

August Schumacher, Jr.,

Under Secretary for Farm and Foreign Agricultural Services.

Signed in Washington, D.C., on April 6, 1998.

Jill Long Thompson,

Under Secretary for Rural Development.

BILLING CODE 3410–05–P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 97

[Docket No. 98–051–1]

Commuted Traveltime Periods: Overtime Services Relating to Imports and Exports

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are amending the regulations concerning overtime services provided by employees of Veterinary Services for travel from Champlain, NY, to Highgate, VT. Commuted traveltime allowances are the periods of time required for Veterinary Services employees to travel from their dispatch points and return there from the places where they perform Sunday, holiday, or other overtime duty. The Government charges a fee for certain overtime services provided by Veterinary Services employees and, under certain circumstances, the fee may include the cost of commuted traveltime. This action is necessary to inform the public of commuted traveltime for these locations.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Ms. Louise Rakestraw Lothery, Director, Resource Management Support, VS, APHIS, 4700 River Road Unit 44, Riverdale, MD 20737, (301) 734–7517.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 9 CFR, chapter I, subchapter D, and 7 CFR, chapter III, require inspection, laboratory testing, certification, or quarantine of certain animals, animal products, plants, plant products, or other commodities intended for importation into, or exportation from, the United States. When these services must be provided by an employee of Veterinary Services (VS) on a Sunday or holiday, or at any other time outside the VS employee's regular duty hours, the Government charges a fee for the services in accordance with 9 CFR part 97. Under circumstances described in 97.1(a), this fee may include the cost of commuted traveltime. Section 97.2 contains administrative instructions prescribing commuted traveltime allowances, which reflect, as nearly as practicable, the periods of time required for VS employees to travel from their dispatch points and return there from the places

where they perform Sunday, holiday, or other overtime duty.

We are amending 97.2 of the regulations by adding and removing commuted traveltime allowances for travel between locations in New York and Vermont. The amendments are set forth in the rule portion of this document. This action is necessary to inform the public of the commuted traveltime between the dispatch and service locations.

Effective Date

The commuted traveltime allowances appropriate for employees performing services at ports of entry, and the features of the reimbursement plan for recovering the cost of furnishing port of entry services, depend upon facts within the knowledge of the Department of Agriculture. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, pursuant to the administrative procedure provisions in 5 U.S.C. 553, we find upon good cause that prior notice and other public procedure with respect to this rule are impracticable and unnecessary; we also find good cause for making this rule effective less than 30 days after publication of this document in the **Federal Register**.

Executive Order 12866 and Regulatory Flexibility Act

This final rule has been reviewed under Executive Order 12866. For this action, the Office of Management and Budget has waived its review process required by Executive Order 12866.

The number of requests for overtime services of a VS employee at the locations affected by our rule represents an insignificant portion of the total number of requests for these services in the United States.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

Executive Order 12988

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is intended to have preemptive effect with respect to any State or local laws, regulations, or policies that conflict with its provisions or that would otherwise impede its full implementation. This rule is not intended to have retroactive effect. There are no administrative procedures that must be exhausted prior to any judicial challenge to the provisions of this rule or the application of its provisions.

Paperwork Reduction Act

This rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 9 CFR Part 97

Exports, Government employees, Imports, Livestock, Poultry and poultry products, Travel and transportation expenses.

Accordingly, 9 CFR part 97 is amended as follows:

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

1. The authority citation for part 97 continues to read as follows:

Authority: 7 U.S.C. 2260; 49 U.S.C. 1741; 7 CFR 2.22, 2.80, and 371.2(d).

2. Section 97.2 is amended by removing or adding in the table, in alphabetical order, the following entries to read as follows:

§ 97.2 Administrative instructions prescribing commuted traveltime.

RIN 2120–AA64

Airworthiness Directives; Short Brothers Model SD3–30, SD3–60, SD3–SHERPA, and SD3–60 SHERPA Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to all Short Brothers Model SD3–30, SD3–60, SD3–SHERPA, and SD3–60 SHERPA series airplanes. This amendment requires revising the Airplane Flight Manual (AFM) to modify the limitation that prohibits positioning the power levers below the flight idle stop during flight, and to provide a statement of the consequences of positioning the power levers below the flight idle stop during flight. This amendment is prompted by incidents and accidents involving airplanes equipped with turboprop engines in which the ground propeller beta range was used improperly during flight. The actions specified by this AD are intended to prevent loss of airplane controllability, or engine overspeed and consequent loss of engine power caused by the power levers being positioned below the flight idle stop while the airplane is in flight.

EFFECTIVE DATE: July 6, 1998.

ADDRESSES: Information pertaining to this amendment may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mark Quam, Aerospace Engineer, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055–4056; telephone (425) 227–2145; fax (425) 227–1149.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an airworthiness directive (AD) that is applicable to all Short Brothers Model SD3–30, SD3–60, SD3–SHERPA, and SD3–60 SHERPA series airplanes was published in the **Federal Register** on March 27, 1998 (63 FR 14859). That action proposed to require revising the Limitations Section of the Airplane Flight Manual (AFM) to modify the limitation that prohibits positioning the power levers below the flight idle stop while the airplane is in flight, and to add a statement of the consequences of positioning the power levers below the flight idle stop while the airplane is in flight.

Comments

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were submitted in response to the proposal or the FAA's determination of the cost to the public.

Conclusion

The FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

Interim Action

This is considered interim action until final action is identified, at which time the FAA may consider further rulemaking.

Cost Impact

The FAA estimates that 148 Short Brothers Model SD3–30, SD3–60, SD3–SHERPA, and SD3–60 SHERPA series airplanes of U.S. registry will be affected by this AD, that it will take approximately 1 work hour per airplane to accomplish the required actions, and that the average labor rate is $60 per work hour. Based on these figures, the cost impact of the AD on U.S. operators is estimated to be $8,880, or $60 per airplane.

The cost impact figure discussed above is based on assumptions that no operator has yet accomplished any of the requirements of this AD action, and that no operator would accomplish those actions in the future if this AD were not adopted.

Regulatory Impact

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

98–11–24 Short Brothers PLC: Amendment 39–10549. Docket 97–NM–102–AD.

Applicability: All Model SD3–30, SD3–60, SD3–SHERPA, and SD3–60 SHERPA series airplanes; certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent loss of airplane controllability caused by the power levers being positioned

below the flight idle stop while the airplane is in flight, accomplish the following:

(a) Within 30 days after the effective date of this AD, revise the Limitations Section of the FAA-approved Airplane Flight Manual (AFM) to include the following statements. This action may be accomplished by inserting a copy of this AD into the AFM.

Positioning of power levers below the flight idle stop while the airplane is in flight is prohibited. Such positioning may lead to loss of airplane control or may result in an overspeed condition and consequent loss of engine power.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM–113.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) This amendment becomes effective on July 6, 1998.

Issued in Renton, Washington, on May 22, 1998.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

Custody of Investment Company Assets Outside the United States

AGENCY: Securities and Exchange Commission.

ACTION: Final rule; extension of compliance date.

SUMMARY: The Commission is extending the compliance date for certain amendments to the rule that governs the custody of investment company assets outside the United States.

DATES: The effective date of the rule amendments published on May 16, 1997 (62 FR 26923) remains June 16, 1997. As of May 29, 1998, the compliance date for the rule amendments, except for the amended definition of an "eligible foreign custodian," is extended to February 1, 1999. The compliance date for the amended definition of an eligible foreign custodian remains June 16, 1998.

FOR FURTHER INFORMATION CONTACT: Thomas M. J. Kerwin, Senior Counsel, or C. Hunter Jones, Assistant Director, Office of Regulatory Policy, at (202) 942–0690, in the Division of Investment Management, Mail Stop 5–6, Securities and Exchange Commission, 450 5th Street, NW, Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Commission is extending the compliance date for certain amendments to rule 17f–5 [17 CFR 270.17f–5] under the Investment Company Act of 1940 [15 U.S.C. 80a] that the Commission adopted in 1997 (the "1997 Amendments").[1] The release that adopted the 1997 Amendments (the "1997 Release") provided that the amendments would become effective on June 16, 1997.[2] The 1997 Release further provided that registered management investment companies ("funds") must bring their foreign custody arrangements into compliance with the amended rule by June 16, 1998 (*i.e.*, the fund's board must make the findings required by the amended rule or appoint a delegate to do so by that date).

After the Commission adopted the 1997 Amendments, representatives of mutual funds and ten U.S. bank custodians asked the Commission's Division of Investment Management to clarify whether the 1997 Amendments permit a fund board to delegate authority to a foreign custody manager to select a securities depository that a fund must use if it maintains assets in a particular country (a "compulsory depository"). In a letter dated February 19, 1998, the Division of Investment Management answered that, in its view, under the rule, fund boards can delegate this authority.[3]

In a letter dated March 24, 1998, mutual fund representatives stated that certain requirements of the 1997 Amendments may present unanticipated problems when a foreign custody arrangement involves the selection of a compulsory depository.[4] They asserted that, because most depositories are governmental or quasi-governmental organizations, it may not be possible for funds (or their foreign custody managers) to obtain necessary information to make the findings contemplated by the rule, to negotiate terms or conditions in custody agreements, or to assure U.S. jurisdiction over foreign custodians. The fund representatives stated that they and representatives of custodian banks will soon submit to the Commission proposed revisions to the 1997 Amendments that would address these problems. In the interim, the fund representatives requested that the Commission suspend the compliance date for the 1997 Amendments to facilitate consideration of this submission.

The fund representatives state that a suspension is necessary because many funds have been unable to establish new custodial arrangements under the 1997 Amendments.[5] Fund representatives also state that funds did not become fully aware of potential difficulties in applying the 1997 Amendments to compulsory depositories until recently, when they began to revise their foreign custody arrangements to attempt to comply with the amendments. Because of the difficulties in applying the rule, the fund representatives assert that many funds may not be prepared to comply with the 1997 Amendments as of June 16, 1998. Some fund groups reportedly have considered withdrawing their assets from foreign custodians altogether, despite the burdens of alternative holding arrangements.[6]

The Commission is extending until February 1, 1999, the compliance date for the 1997 Amendments, except for the amended definition of an "eligible foreign custodian," the compliance date for which will remain June 16, 1998.[7]

[3] Letter to Dorothy M. Donohue, Associate Counsel, Investment Company Institute, and Daniel L. Goelzer, Baker & McKenzie, from Robert E. Plaze, Associate Director, Division of Investment Management (Feb. 19, 1998) (the 1997 Amendments do not exclude compulsory depositories from rule 17f–5's selection process, and do not preclude fund boards from delegating to a foreign custody manager the selection of a compulsory depository).

[4] *See* Letter to Barry P. Barbash, Director, Division of Investment Management, from Dorothy M. Donohue, Associate Counsel, Investment Company Institute (Mar. 24, 1998) (placed in File No. S7–23–95).

[5] *Id.*

[6] *See* Custody of Investment Company Assets Outside the United States, Investment Company Act Release No. 21259 (July 27, 1995) [60 FR 39592 (Aug. 2, 1995)] at n.3 (a fund may incur significant costs in maintaining securities outside the primary market for the securities).

[7] *See* rule 17f–5(a)(1) [17 CFR 270.17f–5(a)(1)]. This provision of the amended rule generally expands the class of eligible foreign custodians that may hold custody of fund assets. The amended definition of eligible foreign custodian also includes the definitions of "qualified foreign bank" and

Continued

The extension of the compliance date for the other amendments will give the Commission time to review the proposal to be submitted by representatives of funds and banks, and to evaluate whether refinements to the 1997 Amendments are needed.[8]

Until February 1, 1999, a fund may maintain its foreign custody arrangements under either of two regulatory frameworks. First, the fund may continue to comply with rule 17f–5 as it existed prior to the 1997 Amendments ("old rule 17f–5"). Because the compliance date for the amended definition of eligible foreign custodian will remain June 16, 1998, a fund may comply with old rule 17f–5 while also selecting a custodian that is an eligible foreign custodian under the amended definition. Second, in the alternative, a fund may comply entirely with rule 17f–5 as amended by the 1997 Amendments (the "amended rule").

The fund may apply either of these alternative frameworks separately to each foreign custodian it uses. The fund's arrangement with a particular foreign custodian or subcustodian, however, should comply in its entirety either with old rule 17f–5 (subject to the amended definition of eligible foreign custodian), or with the amended rule.[9]

The Commission for good cause finds that, based on the reasons cited above, notice and solicitation of comment regarding the extension of the compliance date for certain of the 1997 Amendments is impracticable, unnecessary, and contrary to the public interest.[10] The Commission notes that the original compliance date is imminent, that many funds reportedly are not in a position to comply with the 1997 Amendments, that funds need prompt guidance concerning the regulatory requirements that will apply to their foreign custody arrangements, and that a limited extension will aid funds, bank custodians, and the Commission in considering whether additional amendments are necessary. Fund representatives have stated that, without a suspension of the compliance date, some funds may withdraw assets from foreign custodians, which could increase costs for investors or otherwise harm investors.[11] The Commission also notes that the 1997 Amendments were themselves submitted for public notice and comment, and that any amendments that may be considered in the future will be submitted for notice and comment.[12]

In analyzing the costs and benefits of this action, the Commission believes that the extension of the compliance date for certain of the 1997 Amendments will not impose costs on funds, but will enable funds to avoid the costs of attempting to comply with provisions of the rule that they assert may be unworkable for some funds. The Commission believes that the extension will produce potential benefits for funds by allowing funds the option to comply with the amended rule or the old rule, and by permitting funds and bank custodians to present a proposal to refine the 1997 Amendments.

Dated: May 21, 1998.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 98–14187 Filed 5–28–98; 8:45 am]

BILLING CODE 8010–01–P

"U.S. bank," which also will remain subject to the June 16, 1998 compliance date. *See* rule 17f–5(a)(4) and (7) [17 CFR 270.17f–5(a)(4) and (7)]. Retaining the original compliance date for this definition will enable funds to rely upon a provision of the 1997 Amendments that appears not to have presented difficulties, and avoid the necessity of seeking exemptive relief from the Commission to permit the use of a custodian that would qualify as an eligible foreign custodian under the amended definition.

[8] The extension of the compliance date is effective upon publication of this release in the **Federal Register** because the extension "grants or recognizes an exemption or relieves a restriction." 5 U.S.C. 553(d)(1).

[9] A fund may not seek to comply with the rule by meeting certain requirements of the old rule and certain requirements of the amended rule (other than the amended definition of eligible foreign custodian).

[10] *See* section 553(b)(3)(B) of the Administrative Procedure Act [5 U.S.C. 553(b)(3)(B)] (an agency may dispense with prior notice and comment when it finds, for good cause, that notice and comment are "impracticable, unnecessary, or contrary to the public interest").

[11] *See supra* note .

[12] The extension generally preserves the status quo that has existed since the adoption of the 1997 Amendments. Funds have been permitted to comply with either the old rule or the amended rule since June 16, 1997, the effective date of the 1997 Amendments. Retaining the original compliance date for the amended definition of eligible foreign custodian will allow funds to rely on a provision of the amended rule that appears not to have presented difficulties.

INTERNATIONAL TRADE COMMISSION

19 CFR Parts 201 and 205

Revision of Public Notice, Freedom of Information Act, Initiation of Investigation, and Privacy Act Regulations, and Implementation of Electronic Freedom of Information Act Amendments of 1996, and Technical Corrections to Rules Concerning Probable Economic Effect Investigations

AGENCY: International Trade Commission.

ACTION: Final rulemaking.

SUMMARY: The United States International Trade Commission (Commission) is amending its rules of practice and procedure to make certain changes to rules relating to public notices, availability of information under the Freedom of Information Act (FOIA), initiation of investigations, and safeguarding of individual privacy under the Privacy Act of 1974 (Privacy Act). The intended effect of the changes is to implement the Electronic Freedom of Information Act Amendments of 1996 and otherwise to bring the rules into conformity with current Commission practices and procedures, and with current costs of providing services.

DATES: The final rules will become effective June 29, 1998.

FOR FURTHER INFORMATION CONTACT: William W. Gearhart, telephone 202–205–3091. Hearing impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal at (202) 205–1810. General information concerning the Commission may also be obtained by accessing its internet server (http://www.usitc.gov).

SUPPLEMENTARY INFORMATION: Section 335 of the Tariff Act of 1930 (19 U.S.C. 1335) authorizes the Commission to adopt such reasonable procedures and rules and regulations as it deems necessary to carry out its functions and duties.

The Commission published a notice of proposed rulemaking at 62 FR 61252 (November 17, 1997), proposing to amend the Commission's Rules of Practice and Procedure to make certain changes to rules relating to public notices, availability of information under the Freedom of Information Act (FOIA), and safeguarding of individual privacy under the Privacy Act of 1974 (Privacy Act). The Commission requested public comment on the proposed rules, but no comments were received. Accordingly, the Commission

has determined to adopt, as final rules, without change, the proposed FOIA and Privacy Act rules, which are republished below. The Commission made additional minor editorial changes to the proposed rule relating to public notices, which is republished below. In addition, the Commission identified several references in section 201.7 and in part 205 of the rules that refer to the United States Trade Representative by the former name of that office, Special Representative for Trade Negotiations; the Commission has made the appropriate nomenclature change in these rules.

The Commission believes that, as a general matter, the analysis of the rules in the notice of proposed rulemaking should be sufficient to explain why and how the rules are being amended. The Commission believes that a comment on one aspect of the FOIA rules would be useful to avoid confusion. Revised section 201.17(a)(3) provides that normally "requests will be processed in the order in which they are filed." The phrase "will be processed" refers to the start of processing, not necessarily to every phase of the processing. Thus, on occasion, a later-filed request will be simpler to answer than an earlier-filed request, and the Secretary will issue a response to the later request before she can finish processing the earlier one. The Secretary will make every effort to respond to each request in a timely manner.

Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Commission hereby certifies pursuant to 5 U.S.C. 605(b) that the rules set forth in this notice will not significantly affect any business or other entities, and thus are not likely to have a significant economic impact on a substantial number of small entities.

Executive Order 12866

The Commission has determined that the rules do not meet the criteria described in section 3(f) of Executive Order 12866 (58 FR 51735, October 4, 1993) (EO) and thus do not constitute a significant regulatory action for purposes of the EO, since the revisions will not result in (1) an annual effect on the economy of $100 million or more, (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or foreign markets. Accordingly, no regulatory impact assessment is required.

Unfunded Mandates Reform Act of 1995

The rules will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of $100,000,000 or more in any one year, and will not significantly or uniquely affect small governments. Therefore, no actions are deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995 (P.L. 104–4).

Small Business Regulatory Enforcement Fairness Act of 1996

The rules are not major rules as defined by section 804 of the Small Business Regulatory Enforcement Fairness Act of 1996 (P.L. 104–121). The rules will not result in an annual effect on the economy of $100,000,000 or more; a major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based companies to compete with foreign-based companies in domestic and export markets.

Contract With America Advancement Act of 1996

The rules are exempt from the reporting requirements of the Contract With America Advancement Act of 1996 (P.L. 104–121) because they concern rules "of agency organization, procedure, or practice" that do not substantially affect the rights or obligations of non-agency parties. See Contract With America Advancement Act, section 804(3)(c).

Paperwork Reduction Act

The rules are not subject to section 3504(h) of the Paperwork Reduction Act (44 U.S.C. 3501), since they do not contain any new information collection requirements.

List of Subjects in 19 CFR Parts 201 and 205

Administrative practice and procedure, Freedom of information, Investigations, Privacy.

For the reasons set out in the preamble, the Commission is amending 19 CFR part 201 as follows:

PART 201—RULES OF GENERAL APPLICATION

1. The authority citation for part 201 continues to read as follows:

Authority: Sec. 335 of The Tariff Act of 1930 (19 U.S.C. 1335), and sec. 603 of the Trade Act of 1974 (19 U.S.C. 2482), unless otherwise noted.

2. Section 201.10 is revised to read as follows:

§ 201.10 Public notices.

As appropriate, notice of the receipt of documents properly filed, of the institution of investigations, of public hearings, and of other formal actions of the Commission will be given by publication in the **Federal Register**. In addition to such publication, a copy of each notice will be posted at the Office of the Secretary to the Commission in Washington, D.C., and, as appropriate, copies will be sent to press associations, trade and similar organizations of producers and importers, and others known to have an interest in the subject matter.

3. Section 201.17 is revised to read as follows:

§ 201.17 Procedures for requesting access to records.

(a) *Requests for records.* (1) A request for any information or record shall be addressed to the Secretary, United States International Trade Commission, 500 E Street SW., Washington, DC 20436 and shall indicate clearly both on the envelope and in the letter that it is a "Freedom of Information Act Request."

(2) Any request shall reasonably describe the requested record to facilitate location of the record. If the request pertains to a record that is part of the Commission's file in an investigation, the request should identify the investigation by number and name. A clear description of the requested record(s) should reduce the time required by the Commission to locate and disclose releasable responsive record(s) and minimize any applicable search and copying charges.

(3) Except as provided in paragraph (b) of this section, requests will be processed in the order in which they are filed.

(4) Requests for transcripts of hearings should be addressed to the official hearing reporter, the name and address of which can be obtained from the Secretary. A copy of such request shall at the same time be forwarded to the Secretary.

(5) Copies of public Commission reports and other publications can be requested by calling or writing the Publications Office in the Office of the Secretary. Generally, such publications can be obtained more quickly from this office. Certain Commission publications are sold by the Superintendent of Documents, U.S. Government Printing

Office, and are available from that agency at the price set by that agency.

(6) A day-to-day, composite record will be kept by the Secretary of each request with the disposition thereof.

(b) *Expedited processing.* (1) Requests for records under paragraph (a)(1) of this section will be taken out of order and given expedited treatment whenever it is determined that they involve:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

(ii) An urgency to inform the public about an actual or alleged federal government activity, if made by a person primarily engaged in disseminating information;

(iii) The loss of substantial due process rights; or

(iv) A matter of widespread and exceptional media interest in which there exist possible questions about the government's integrity which affect public confidence.

(2) A request for expedited processing may be made at the time of the initial request for records or at any later time.

(3) A requester who seeks expedited processing must submit a statement, certified to be true and correct to the best of that person's knowledge and belief, explaining in detail the basis for requesting expedited processing. For example, a requester within paragraph (b)(1)(ii) of this section, if not a full-time member of the news media, must establish that he or she is a person whose main professional activity or occupation is information dissemination, though it need not be his or her sole occupation. A requester within paragraph (b)(1)(ii) of this section also must establish a particular urgency to inform the public about the government activity involved in the request, beyond the public's right to know about government activity generally. The formality of certification may be waived as a matter of administrative discretion.

(4) Within ten calendar days of receipt of a request for expedited processing, the Secretary will decide whether to grant it and will notify the requester of the decision. If a request for expedited treatment is granted, the request will be given priority and will be processed as soon as practicable. If a request for expedited processing is denied, any appeal of that decision will be acted on expeditiously.

(c) *Public reading room.* The Commission maintains a public reading room in the Office of the Secretary for access to the records that the FOIA requires to be made regularly available for public inspection and copying. Reading room records created by the Commission on or after November 1, 1996, are available electronically. This includes a current subject-matter index of reading room records, which will indicate which records are available electronically.

4. Paragraphs (b) and (c) of § 201.18 are revised to read as follows:

§ 201.18 Denial of requests, appeals from denial.

* * * * *

(b) An appeal from a denial of a request must be received within sixty days of the date of the letter of denial and shall be made to the Commission and addressed to the Chairman, United States International Trade Commission, 500 E Street SW., Washington, DC 20436. Any such appeal shall be in writing, and shall clearly indicate both on the envelope and in the letter that it is a "Freedom of Information Act Appeal."

(c) Except when expedited treatment is requested and granted, appeals will be decided in the order in which they are filed, but in any case within twenty days (excepting Saturdays, Sundays, and legal holidays) unless an extension, noticed in writing with the reasons therefor, has been provided to the person making the request. Notice of the decision on appeal and the reasons therefor will be made promptly after a decision. Requests for expedited treatment should conform with the requirements in § 201.17(c) of this part.

5. Paragraphs (b)(1) (ii) and (iii) and (b)(3)(i) of § 201.20 are revised to read as follows:

§ 201.20 Fees.

* * * * *

(b) *Charges.* * * *

(1) *Search.* * * *

(ii) For each quarter hour spent by agency personnel in salary grades GS–2 through GS–10 in searching for and retrieving a requested record, the fee shall be $4.00. When the time of agency personnel in salary grades GS–11 and above is required, the fee shall be $6.50 for each quarter hour of search and retrieval time spent by such personnel.

(iii) For computer searches of records, which may be undertaken through the use of existing programming, requester shall be charged the actual direct costs of conducting the search, although certain requesters (as defined in paragraph (c)(2) of this section) shall be entitled to the cost equivalent of two hours of manual search time without charge. These direct costs shall include the cost of operating a central processing unit for that portion of operating time that is directly attributable to searching for records responsive to a request, as well as the costs of operator/programmer salary apportionable to the search (at no more than $6.50 per quarter hour of time so spent).

* * * * *

(3) *Review.* (i) Review fees shall be assessed with respect to only those requesters who seek records for a commercial use, as defined in paragraph (j)(5) of this section. For each quarter hour spent by agency personnel in reviewing a requested record for possible disclosure, the fee shall be $6.50.

* * * * *

6. The authority citation for subpart D of part 201 continues to read as follows:

Authority: 5 U.S.C. 552a.

7. Subpart D of part 201 is revised to read as follows:

Subpart D—Safeguarding Individual Privacy Pursuant to 5 U.S.C. 552a

Sec.

201.22 Purpose and scope.
201.23 Definitions.
201.24 Procedures for requests pertaining to individual records in a records system.
201.25 Times, places, and requirements for identification of individuals making requests.
201.26 Disclosure of requested information to individuals.
201.27 Special procedures: Medical records.
201.28 Requests for correction or amendment of records.
201.29 Commission disclosure of individual records, accounting of record disclosures, and requests for accounting of record disclosures.
201.30 Commission review of requests for access to records, for correction or amendment to records, and for accounting of record disclosures.
201.31 Fees.
201.32 Specific exemptions.
201.33 Employee conduct.

Subpart D—Safeguarding Individual Privacy Pursuant to 5 U.S.C. 552a

§ 201.22 Purpose and scope.

This subpart contains the rules that the Commission follows under the Privacy Act of 1974, 5 U.S.C. 552a. The rules in this subpart apply to all records in systems of records maintained by the Commission that are retrieved by an individual's name or other personal identifier. They describe the procedures by which individuals may request access to records about themselves, request amendment or correction of those records, and request an accounting of disclosures of those records by the Commission.

§ 201.23 Definitions.

For the purpose of these regulations:

(a) The term individual means a citizen of the United States or an alien lawfully admitted for permanent residence;

(b) The term maintain includes maintain, collect, use, or disseminate;

(c) The term record means any item, collection, or grouping of information about an individual that is maintained by the Commission, including, but not limited to, his or her education, financial transactions, medical history, and criminal or employment history and that contains his or her name, or the identifying number, symbol, or other identifying particular assigned to the individual;

(d) The term system of records means a group of any records under the control of the Commission from which information is retrieved by the name of the individual or by some identifying particular assigned to the individual;

(e) The term Privacy Act Officer refers to the Director, Office of Administration, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, or his or her designee.

§ 201.24 Procedures for requests pertaining to individual records in a records system.

(a) A request by an individual to gain access to his or her record(s) or to any information pertaining to him or her which is contained in a system of records maintained by the Commission shall be addressed to the Privacy Act Officer, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, and shall indicate clearly both on the envelope and in the letter that it is a Privacy Act request.

(b) In order to facilitate location of requested records, whenever possible, the request of the individual shall name the system(s) of records maintained by the Commission which he or she believes contain records pertaining to him or her, shall reasonably describe the requested records, and identify the time period in which the records were compiled.

(c) The Privacy Act Officer shall acknowledge receipt of a request within ten days (excluding Saturdays, Sundays, and legal public holidays), and wherever practicable, indicate whether or not access can be granted. If access is not to be granted, the requestor shall be notified of the reason in writing.

(d) The Privacy Act Officer, or, the Inspector General, if such records are maintained by the Inspector General, shall ascertain whether the systems of records maintained by the Commission contain records pertaining to the individual, and whether access will be granted. Thereupon the Privacy Act Officer shall:

(1) Notify the individual whether or not the requested record is contained in any system of records maintained by the Commission; and

(2) Notify the individual of the procedures as prescribed in Secs. 201.25 and 201.26 of this part by which the individual may gain access to those records maintained by the Commission which pertain to him or her. Access to the records will be provided within 30 days (excluding Saturdays, Sundays, and legal public holidays).

§ 201.25 Times, places, and requirements for identification of individuals making requests.

(a) If an individual wishes to examine his or her records in person, it shall be the responsibility of the individual requester to arrange an appointment with the Privacy Act Officer for the purpose of inspecting individual records. The time of inspection shall be during the regular office hours of the Commission, 8:45 a.m. to 5:15 p.m., Monday through Friday. The time arranged should be mutually convenient to the requester and to the Commission.

(b) The place where an individual may gain access to records maintained by the Commission which pertain to him or her shall be at the United States International Trade Commission Building, 500 E Street SW., Washington, DC 20436. The Privacy Act Officer shall inform the individual requester of the specific room wherein inspection will take place.

(c) An individual may also request the Privacy Act Officer to provide the individual with a copy of his or her records by certified mail.

(d) An individual who requests to gain access to those records maintained by the Commission which pertain to him or her shall not be granted access to those records without first presenting adequate identification to the Privacy Act Officer. Adequate identification may include, but is not limited to, a government identification card, a driver's license, Medicare card, a birth certificate, or a passport. If requesting records by mail, an individual must provide full name, current address, and date and place of birth. The request must be signed and either notarized or submitted under 28 U.S.C. 1746, which permits statements to be made under penalty of perjury as a substitute for notarization. In order to help the identification and location of requested records, a requestor may also, at his or her option, include the individual's social security number.

§ 201.26 Disclosure of requested information to individuals.

(a) Once the Privacy Act Officer has made a determination to grant a request for access to individual records, in whole or in part, the Privacy Act Officer shall inform the requesting individual in writing and permit the individual to review the pertinent records and to have a copy made of all or any portion of them. Where redactions due to exemptions pursuant to § 201.32 would render such records or portions thereof incomprehensible, the Privacy Act Officer shall furnish an abstract in addition to an actual copy.

(b) An individual has the right to have a person of his or her own choosing accompany him or her to review his or her records. The Privacy Act Officer shall permit a person of the individual requester's choosing to accompany the individual during inspection.

(c) When the individual requests the Privacy Act Officer to permit a person of the individual's choosing to accompany him or her during the inspection of his or her records, the Privacy Act Officer shall require the individual requester to furnish a written statement authorizing discussion of the records in the accompanying person's presence.

(d) The Privacy Act Officer shall take all necessary steps to insure that individual privacy is protected while the individual requester is inspecting his or her records or while those records are being discussed. Only the Privacy Act Officer shall accompany the individual as representative of the Commission during the inspection of the individual's records. The Privacy Act Officer shall be authorized to discuss the pertinent records with the individual.

§ 201.27 Special procedures: Medical records.

(a) While an individual has an unqualified right of access to the records in systems of records maintained by the Commission which pertain to him or her, medical and psychological records merit special treatment because of the possibility that disclosure will have an adverse physical or psychological effect upon the requesting individual. Accordingly, in those instances where an individual is requesting the medical and/or psychological records which pertain to him or her, he or she shall, in his or her Privacy Act request to the Privacy Act Officer as called for in § 201.24(a) of this part, specify a

physician to whom the medical and/or psychological records may be released.

(b) It shall be the responsibility of the individual requesting medical or psychological records to specify a physician to whom the requested records may be released. If an individual refuses to name a physician and insists on inspecting his or her medical or psychological records in the absence of a doctor's discussion and advice, the individual shall so state in his or her Privacy Act request to the Privacy Act Officer as called for in § 201.24(a) of this part and the Privacy Act Officer shall provide access to or transmit such records directly to the individual.

§ 201.28 Requests for correction or amendment of records.

(a) If, upon viewing his or her records, an individual disagrees with a portion thereof or feels sections thereof to be erroneous, the individual may request amendment[s] of the records pertaining to him or her. The individual should request such an amendment in writing and should identify each particular record in question, the system[s] of records wherein the records are located, specify the amendment requested, and specify the reasons why the records are not correct, relevant timely or complete. The individual may submit any documentation that would be helpful. The request for amendment of records shall be addressed to the Privacy Act Officer, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, and shall clearly indicate both on the envelope and in the letter that it is a Privacy Act request for amendment of records.

(b) Not later than 10 days (excluding Saturdays, Sundays and legal public holidays) after the date of receipt of a Privacy Act request for amendment of records, the Privacy Act Officer shall acknowledge such receipt in writing. Such a request for amendment will be granted or denied by the Privacy Act Officer or, for records maintained by the Inspector General. If the request is granted, the Privacy Act Officer, or the Inspector General for records maintained by the Inspector General, shall promptly make any correction of any portion of the record which the individual believes is not accurate, relevant, timely, or complete. If, however, the request is denied, the Privacy Act Officer shall inform the individual of the refusal to amend the record in accordance with the individual's request and give the reason(s) for the refusal. In cases where the Privacy Act Officer or the Inspector General has refused to amend in accordance with an individual's request, he or she also shall advise the individual of the procedures under § 201.30 of this part for the individual to request a review of that refusal by the full Commission or by an officer designated by the Commission.

§ 201.29 Commission disclosure of individual records, accounting of record disclosures, and requests for accounting of record disclosures.

(a) It is the policy of the Commission not to disclose, except as permitted under 5 U.S.C. 552a(b), any record which is contained in any system of records maintained by the Commission to any person, or to another agency, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains.

(b) Except for disclosures either to officers and employees of the Commission, or to contractor employees who, in the Inspector General's or the Privacy Act Officer's judgment, as appropriate, are acting as federal employees, who have a need for the record in the performance of their duties, and any disclosure required by 5 U.S.C. 552, the Privacy Act Officer shall keep an accurate accounting of:

(1) The date, nature, and purpose of each disclosure of a record to any person or to another agency under paragraph (a) of this section; and

(2) The name or address of the person or agency to whom the disclosure is made.

(c) The Privacy Act Officer shall retain the accounting required by paragraph (b) of this section for at least five years or the life of the record, whichever is longer, after such disclosure.

(d) Except for disclosures made to other agencies for civil or criminal law enforcement purposes pursuant to 5 U.S.C. 552a(b)(7), the Privacy Act Officer shall make any accounting made under paragraph (b) of this section available to the individual named in the record at the individual's request.

(e) An individual requesting an accounting of disclosure of his or her records should make the request in writing to the Privacy Act Officer, United States International Trade Commission, 500 E Street SW., Washington, DC 20436. The request should identify each particular record in question and, whenever possible, the system[s] of records wherein the requested records are located, and clearly indicate both on the envelope and in the letter that it is a Privacy Act request for an accounting of disclosure of records.

(f) Where the Commission has provided any person or other agency with an individual record and such accounting as required by paragraph (b) of this section has been made, the Privacy Act Officer shall inform all such persons or other agencies of any correction, amendment, or notation of dispute concerning said record.

§ 201.30 Commission review of requests for access to records, for correction or amendment to records, and for accounting of record disclosures.

(a) The individual who disagrees with the refusal of the Privacy Act Officer or the Inspector General for access to a record, to amend a record, or to obtain an accounting of any record disclosure, may request a review of such refusal by the Commission within 60 days of receipt of the denial of his or her request. A request for review of such a refusal should be addressed to the Chairman, United States International Trade Commission, 500 E Street, SW., Washington, DC 20436, and shall clearly indicate both on the envelope and in the letter that it is a Privacy Act review request.

(b) Not later than 30 days (excluding Saturdays, Sundays, and legal public holidays) from the date on which the Commission receives a request for review of the Privacy Act Officer's or the Inspector General's refusal to grant access to a record, to amend a record, or to provide an accounting of a record disclosure, the Commission shall complete such a review and make a final determination thereof unless, for good cause shown, the Commission extends the 30-day period.

(c) After the individual's request has been reviewed by the Commission, if the Commission agrees with the Privacy Act Officer's or the Inspector General's refusal to grant access to a record, to amend a record, or to provide an accounting of a record disclosure, in accordance with the individual's request, the Commission shall:

(1) Notify the individual in writing of the Commission's decision;

(2) For requests to amend or correct records, advise the individual that he or she has the right to file a concise statement of disagreement with the Commission which sets forth his or her reasons for disagreement with the refusal of the Commission to grant the individual's request; and

(3) Notify the individual of his or her legal right, if any, to judicial review of the Commission's final determination.

(d) In any disclosure, containing information about which the individual has filed a statement of disagreement regarding an amendment of an

individual's record, the Privacy Act Officer, or, for records maintained by the Inspector General, the Inspector General, shall clearly note any portion of the record which is disputed and shall provide copies of the statement and, if the Commission deems it appropriate, copies of a concise statement of the reasons of the Commission for not making the amendments requested, to persons or other agencies to whom the disputed record has been disclosed.

§ 201.31 Fees.

(a) The Commission shall not charge any fee for the cost of searching for and reviewing an individual's records.

(b) Reproduction, duplication or copying of records by the Commission shall be at the rate of $0.10 per page. There shall be no charge, however, when the total amount does not exceed $25.00.

§ 201.32 Specific exemptions.

(a) Pursuant to 5 U.S.C. 552a(k)(2), and in order to protect the effectiveness of Inspector General investigations by preventing individuals who may be the subject of an investigation from obtaining access to the records and thus obtaining the opportunity to conceal or destroy evidence or to intimidate witnesses, records contained in the system titled Office of Inspector General Investigative Files (General), insofar as they include investigatory material compiled for law enforcement purposes, shall be exempt from this subpart and from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f) of the Privacy Act. However, if any individual is denied any right, privilege, or benefit to which he is otherwise entitled to under Federal law due to the maintenance of this material, such material shall be provided to such individual except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to government investigators under an express promise that the identity of the source would be held in confidence.

(b) Pursuant to 5 U.S.C. 552a(j)(2), and in order to protect the confidentiality and integrity of Inspector General investigations by preventing individuals who may be the subject of an investigation from obtaining access to the records and thus obtaining the opportunity to conceal or destroy evidence or to intimidate witnesses, records maintained in the Office of Inspector General Investigative Files (Criminal), insofar as they contain information pertaining to the enforcement of criminal laws, shall be exempt from this subpart and from the Privacy Act, except that subsections (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11) and (i) shall still apply to these records.

(c) Pursuant to 5 U.S.C. 552a(k)(1), (5) and (6), records contained in the system entitled "Personnel Security Investigative Files" have been exempted from subsections (c)(3), (d), (e)(1), (e)(1)(G) through (I) and (f) of the Privacy Act. Pursuant to section 552a(k)(1) of the Privacy Act, the Commission exempts records that contain properly classified information that pertains to national defense or foreign policy and is obtained from other systems of records or another Federal agency. Application of exemption (k)(1) may be necessary to preclude the data subject's access to and amendment of such classified information under 5 U.S.C. 552a(d). All information about individuals in these records that meets the criteria stated in 5 U.S.C. 552a(k)(5) is also exempted because this system contains investigatory material compiled solely for determining suitability, eligibility, and qualifications for Federal civilian employment, Federal contracts or access to classified information. To the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence, the application of exemption (k)(5) will be required to honor such a promise should an individual request access to the accounting of disclosure, or access to or amendment of the record, that would reveal the identity of a confidential source. All information in these records that meets the criteria stated in 5 U.S.C. 552a(k)(6) is also exempt because portions of a case file record may relate to testing and examining material used solely to determine individual qualifications for appointment or promotion in the Federal service. Access to or amendment of this information by the data subject would compromise the objectivity and fairness of the testing or examining process.

§ 201.33 Employee conduct.

The Privacy Act Officer shall establish rules of conduct for persons involved in the design, development, operation, or maintenance of any system of records, or in maintaining any record, and periodically instruct each such person with respect to such rules and the requirements of the Privacy Act including the penalties for noncompliance.

PARTS 201 AND 205—[AMENDED]

8. In addition to the amendments set forth above, in 19 CFR parts 201 and 205 remove the words "Special Representative for Trade Negotiations" and add, in their place, the words "United States Trade Representative" in the following places:

a. Section 201.7(b); and

b. Section 205.3(a)(1), (a)(2), (b) and (d).

By order of the Commission.

Issued: May 22, 1998.

Donna R. Koehnke,

Secretary.

BILLING CODE 7020–02–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 520

Oral Dosage Form New Animal Drugs; Milbemycin Oxime Tablet

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by Novartis Animal Health US, Inc. The supplemental NADA provides for expanding the indications to include separate dosage and labeling for use of milbemycin oxime in cats.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Melanie R. Berson, Center for Veterinary Medicine (HFV–110), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–594–1612.

SUPPLEMENTARY INFORMATION: Novartis Animal Health US, Inc., P.O. Box 26402, Greensboro, NC 27404–6402, filed supplemental NADA 140–915 that provides for oral administration of Interceptor® Flavor Tabs® (milbemycin oxime) tablets to cats 6 weeks of age or greater and 1.5 pounds of body weight or greater. The product is currently approved for the prevention of heartworm disease in both dogs and puppies 4 weeks of age or greater. The supplemental NADA provides for expanding the indications to include separate dosage and labeling for use of

UMI

UMI

the product in cats 6 weeks of age or greater and 1.5 pounds of body weight or greater. This supplemental NADA approval provides for 5.75, 11.5, and 23.0 milligram tablets, given orally, once a month, for the prevention of heartworm disease caused by *Dirofilaria immitis* and the removal of adult *Toxocara cati* (roundworm) and *Ancylostoma tubaeforme* (hookworm) infections in cats 6 weeks of age or greater and 1.5 pounds body weight or greater. The supplemental NADA is approved as of April 13, 1998, and the regulations are amended in 21 CFR 520.1445 by revising paragraph (a) and the heading of paragraph (c) and by adding paragraph (d) to reflect the approval for cats. The basis for approval is discussed in the freedom of information summary.

In accordance with the freedom of information provisions of 21 CFR part 20 and 514.11(e)(2)(ii), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1–23, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Under section 512(c)(2)(F)(iii) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(c)(2)(F)(iii)), this approval qualifies for 3 years of marketing exclusivity beginning April 13, 1998, because the application contains substantial evidence of effectiveness of the drug involved and studies of animal safety required for approval and conducted or sponsored by the applicant.

The agency has determined under 21 CFR 25.33(d)(1) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 520

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 520 is amended as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS

1. The authority citation for 21 CFR part 520 continues to read as follows:

Authority: 21 U.S.C. 360b.

2. Section 520.1445 is amended by revising paragraph (a) and the heading of paragraph (c) and by adding paragraph (d) to read as follows:

§ 520.1445 Milbemycin oxime tablets.

(a) *Specifications*—(1) *Dogs.* Each tablet contains 2.3, 5.75, 11.5, or 23.0 milligrams of milbemycin oxime.

(2) *Cats.* Each tablet contains 5.75, 11.5, or 23.0 milligrams of milbemycin oxime.

* * * * *

(c) *Conditions of use in dogs.* * * *

(d) *Conditions of use in cats*—(1) *Amount.* 0.91 milligram per pound of body weight (2.0 milligrams per kilogram).

(2) *Indications for use.* For prevention of heartworm disease caused by *Dirofilaria immitis* and the removal of adult *Toxocara cati* (roundworm) and *Ancylostoma tubaeforme* (hookworm) infections in cats 6 weeks of age or greater and 1.5 pounds body weight or greater.

(3) *Limitations.* Do not use in kittens less than 6 weeks of age or 1.5 pounds body weight. Administer once a month. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Dated: May 11, 1998.

Stephen F. Sundlof,

Director, Center for Veterinary Medicine.

BILLING CODE 4160–01–F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 522

Implantation or Injectable Dosage Form New Animal Drugs; Guaifenesin Injection

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of an abbreviated new animal drug application (ANADA) filed by Phoenix Scientific, Inc. The ANADA provides for intravenous use of guaifenesin injection in horses as a skeletal muscle relaxant.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Center For Veterinary Medicine (HFV–102), Food and Drug Administration, 7500 Standish Place, Rockville, MD 20855, 301–827–0209.

SUPPLEMENTARY INFORMATION: Phoenix Scientific, Inc., 3915 South 48th St. Terrace, P.O. Box 6457, St. Joseph, MO 64506–0457, filed ANADA 200–230 that provides for intravenous use of guaifenesin injection in horses as a skeletal muscle relaxant.

Approval of Phoenix Scientific, Inc.'s, ANADA 200–230 for guaifenesin injection is as a generic copy of Summit Hill Laboratories' NADA 48–854 for Gecolate (guaifenesin) Injection. The ANADA is approved as of April 8, 1998, and the regulations are amended in 21 CFR 522.1086(b) to reflect the approval. The basis of approval is discussed in the freedom of information summary.

In addition, paragraph (c) is redesignated as paragraph (d) and paragraph (c) is reserved.

In accordance with the freedom of information provisions of 21 CFR part 20 and 514.11(e)(2)(ii), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1–23, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.33(d)(1) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 522

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 522 is amended as follows:

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS

1. The authority citation for 21 CFR part 522 continues to read as follows:

Authority: 21 U.S.C. 360b.

§ 522.1086 [Amended]

2. Section 522.1086 *Guaifenesin injection* is amended in paragraph (b) by removing "No. 037990" and adding in its place "Nos. 037990 and 059130", by redesignating paragraph (c) as paragraph (d), and by reserving paragraph (c).

Dated: May 12, 1998.

BILLING CODE 4160–01–F

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 4022, 4041, 4050

RIN: 1212–AA87

PBGC Recoupment and Reimbursement of Benefit Overpayments and Underpayments

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation is amending its regulation governing recoupment of benefit overpayments in trusteed plans to stop the reduction of monthly benefits under its actuarial recoupment method once the amount of the benefit overpayment is repaid. The amendment also makes other related changes.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, or James L. Beller, Attorney, Office of the General Counsel, PBGC, 1200 K Street, NW., Washington, DC 20005–4026, 202–326–4024. (For TTY/TTD users, call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4024.)

SUPPLEMENTARY INFORMATION: On December 18, 1997, the PBGC published a proposed rule in the **Federal Register** (62 FR 66319) amending its benefit payments regulation to provide that recoupment will cease when the amount of the overpayment is repaid. The amendment also gives the PBGC flexibility to waive recoupment of *de minimis* amounts and to accept repayment ahead of the recoupment schedule, and modifies the rules governing calculation of net overpayments and underpayments.

The PBGC received comments on the proposed rule from two commenters: the American Association of Retired Persons ("AARP") and the Association of Former Pan Am Employees, Inc. ("AFPAE"). AARP supported the proposed regulation and commended the PBGC for its action. AFPAE, which also commended the PBGC for proposing changes, recommended a number of revisions.

The final regulation follows the proposed regulation with the following modifications:

- As requested by AFPAE, the final rule clarifies that in determining whether the net overpayment has been fully repaid, interest on the net overpayment is disregarded.
- In response to an inquiry in a pending case in which participants received both underpayments and overpayments, the final regulation provides that the PBGC will always pay interest on underpayments to the extent they exceed overpayments. In addition, for months beginning after May 29, 1998, the PBGC will pay interest at the applicable federal mid-term rate. For earlier months, the PBGC will continue to pay interest using the immediate annuity rate established for lump sum valuations.
- Consistent with an AFPAE suggestion, the final regulation provides that the PBGC generally will not seek recovery from the estate of a participant who dies post-termination. (The existing regulation precludes recovery from the estate only for a participant who dies after the PBGC initiates recoupment.)
- For administrative convenience, the final regulation provides that the PBGC will not collect any final partial monthly installment.
- AFPAE expressed concerns about the provision allowing repayment ahead of the recoupment schedule, arguing that, because the PBGC charges no interest under the recoupment schedule, early repayment will never be advantageous to the participant. The PBGC will discontinue its current practice of routinely offering a lump sum repayment option as part of its recoupment notice. However, the PBGC will retain the early repayment option for those participants who, for whatever reason, want to eliminate debt. As suggested by AFPAE, the PBGC intends to explain to those participants who ask about the early repayment option that there may be financial disadvantages to early repayment.

The PBGC has carefully considered AFPAE's other comments and has decided not to adopt them.

- AFPAE suggested that the PBGC not seek recoupment from a surviving beneficiary unless recoupment has been initiated before the participant's death. AFPAE offered no reason why the PBGC's recoupment rules should distinguish in this manner between a survivorship benefit and the underlying benefit from which the survivorship benefit derives. The regulation minimizes hardship in the case of recoupment from a survivorship benefit because the monthly recoupment amount is reduced in proportion to any other applicable reduction in the deceased participant's benefit (*e.g.*, a 50% reduction under a joint and survivor annuity) and is generally capped at 10% of the survivorship payment.
- AFPAE suggested that the PBGC eliminate its discretion to recover overpayments by methods other than recoupment. The regulation provides that the PBGC will normally exercise its discretion only where net benefits paid exceed plan entitlements (*e.g.*, where a participant entitled to $1,200 per month as the full plan benefit and $1,000 per month under Title IV has received clearly erroneous payments of $5,000 per month). Any further limitation on the PBGC's discretion could result in unacceptably large losses in particular cases.
- AFPAE suggested that recoupment be permitted only if (1) the participant is notified of the possibility of recoupment no later than 30 days after the PBGC makes a final decision to seek an involuntary termination, and (2) recoupment begins no more than one year after the termination date. This suggestion is impracticable. The PBGC often encounters significant delays in obtaining the participant information needed to provide notice and the benefit and asset information needed to complete the complex and time-consuming process of determining final benefit entitlements. The PBGC will continue to provide notice to participants, and to initiate recoupments, as soon as possible.
- In response to the provision in the proposed rule giving the PBGC discretion to waive *de minimis* amounts, AFPAE suggested that the regulation specify a dollar threshold under which recoupment is automatically waived. The PBGC has decided to retain the discretion provided in the proposed rule in order to allow maximum flexibility. After gaining experience under the *de minimis* waiver provision, the PBGC may decide to specify a fixed dollar threshold in the regulation.
- AFPAE suggested broadening the scope of the recoupment and reimbursement regulation to cover underpayments made before the plan termination date. The Title IV single-employer insurance program does not cover pre-termination underpayments. These underpayments represent a claim on plan assets that are satisfied before those assets are used to satisfy Title IV benefits under the allocation rules of ERISA section 4044 and 29 CFR Part 4044. Thus, to the extent assets are available, pre-termination underpayments are fully reimbursed.

AFPAE made several other comments suggesting revisions to the benefit

determination and appeals process. These comments are beyond the scope of this rulemaking proceeding.

Applicability of New Rules

The new rules will apply to all initial determinations that become effective on or after May 29, 1998. For earlier initial determinations, if a participant (or beneficiary) is subject to recoupment under the actuarial reduction method, the new rules will apply except that the PBGC will not redetermine the amount of the net overpayment or the amount of the monthly reduction. Thus, for these cases, the PBGC will stop recoupment once the amount of the net overpayment (as previously determined) is repaid. If the amount of that net overpayment has been fully repaid prior to May 29, 1998, the PBGC will stop recoupment effective as of May 29, 1998.

Example 1. Ms. X is entitled to a monthly benefit of $500 under Title IV. For the last 11 years the PBGC has been recouping $25 each month to repay a series of overpayments totaling $3,000. Recoupment will cease as of May 29, 1998 because as of that date Ms. X will have repaid the overpayments. No amounts recouped prior to May 29, 1998 will be refunded.

Example 2. Same facts as example 1, except recoupment began nine years ago. Recoupment will cease in one year, *i.e.*, when the full $3,000 is repaid.

Rulemaking Requirements

The PBGC has determined that good cause exists to make this final rule effective immediately because the changes impose requirements only on the PBGC. *See* 5 U.S.C. § 553(d)(3).

E.O. 12866 and the Regulatory Flexibility Act

The Office of Management and Budget has determined that this final rule is a "significant regulatory action" under the criteria set forth in Executive Order 12866 and has completed its review of the final rule under that order.

This rule affects only individuals. Therefore, the PBGC certifies that, if adopted, the amendment will not have a significant economic effect on a substantial number of small entities. Accordingly, as provided in section 605(b) of the Regulatory Flexibility Act, sections 603 and 604 do not apply.

List of Subjects

29 CFR Part 4022, 4041

Pension insurance, Pensions, Reporting and recordkeeping requirements.

29 CFR Part 4050

Pensions, Reporting and recordkeeping requirements.

For the reasons set forth above, the PBGC amends parts 4022, 4041, and 4050 of 29 CFR chapter XL as follows:

PART 4022—BENEFITS PAYABLE IN TERMINATED SINGLE EMPLOYER PLANS

1. The authority citation for part 4022 continues to read as follows:

Authority: 29 U.S.C. 1302, 1322, 1322b, 1341(c)(3)(D) and 1344.

2. Section 4022.81 is revised to read as follows:

§ 4022.81 General rules.

(a) *Recoupment of benefit overpayments.* If at any time the PBGC determines that net benefits paid with respect to any participant in a PBGC-trusteed plan exceed the total amount to which the participant (and any beneficiary) is entitled up to that time under title IV of ERISA, and the participant (or beneficiary) is, as of the termination date, entitled to receive future benefit payments, the PBGC will recoup the net overpayment in accordance with paragraph (c) of this section and § 4022.82. Notwithstanding the previous sentence, the PBGC may, in its discretion, recover overpayments by methods other than recouping in accordance with the rules in this subpart. The PBGC will not normally do so unless net benefits paid after the termination date exceed those to which a participant (and any beneficiary) is entitled under the terms of the plan before any reductions under subpart D.

(b) *Reimbursement of benefit underpayments.* If at any time the PBGC determines that net benefits paid with respect to a participant in a PBGC-trusteed plan are less than the amount to which the participant (and any beneficiary) is entitled up to that time under title IV of ERISA, the PBGC will reimburse the participant or beneficiary for the net underpayment in accordance with paragraph (c) of this section and § 4022.83.

(c) *Amount to be recouped or reimbursed.* In order to determine the amount to be recouped from, or reimbursed to, a participant (or beneficiary), the PBGC will calculate a monthly account balance for each month ending after the termination date. The PBGC will start with a balance of zero as of the end of the calendar month ending immediately prior to the termination date and determine the account balance as of the end of each month thereafter as follows:

(1) *Debit for overpayments.* The PBGC will subtract from the account balance the amount of overpayments made in that month. Only overpayments made on or after the latest of the proposed termination date, the termination date, or, if no notice of intent to terminate was issued, the date on which proceedings to terminate the plan are instituted pursuant to section 4042 of ERISA will be included.

(2) *Credit for underpayments.* The PBGC will add to the account balance the amount of underpayments made in that month. Only underpayments made on or after the termination date will be included.

(3) *Credit for interest on net underpayments.* If at the end of a month there is a positive account balance (a net underpayment), the PBGC will add to the account balance interest thereon for that month using—

(i) For months after May 1998, the applicable federal mid-term rate (as determined by the Secretary of the Treasury pursuant to section 1274(d)(1)(C)(ii) of the Code) for that month (or, where the rate for a month is not available at the time the PBGC calculates the amount to be recouped or reimbursed, the most recent month for which the rate is available) based on monthly compounding; and

(ii) For May 1998 and earlier months, the immediate annuity rate established for lump sum valuations as set forth in Table II of Appendix B of part 4044 of this chapter.

(4) *No interest on net overpayments.* If at the end of a month, there is a negative account balance (a net overpayment), there will be no interest adjustment for that month.

3. Section 4022.82 is revised to read as follows:

§ 4022.82 Method of recoupment.

(a) *Future benefit reduction.* The PBGC will recoup net overpayments of benefits by reducing the amount of each future benefit payment to which the participant or any beneficiary is entitled by the fraction determined under paragraphs (a)(1) and (a)(2) of this section, except that benefit reduction will cease when the amount (without interest) of the net overpayment is recouped. Notwithstanding the preceding sentence, the PBGC may accept repayment ahead of the recoupment schedule.

(1) *Computation.* The PBGC will determine the fractional multiplier by dividing the amount of the net overpayment by the present value of the benefit payable with respect to the participant under title IV of ERISA. The PBGC will determine the present value

of the benefit to which a participant or beneficiary is entitled under title IV of ERISA as of the termination date, using the PBGC interest rates and factors in effect on that date. The PBGC may, however, utilize a different date of determination if warranted by the facts and circumstances of a particular case.

(2) *Limitation on benefit reduction.* Except as provided in paragraph (a)(1) of this section, the PBGC will reduce benefits with respect to a participant or beneficiary by no more than the greater of—

(i) Ten percent per month; or

(ii) The amount of benefit per month in excess of the maximum guaranteeable benefit payable under section 4022(b)(3)(B) of ERISA, determined without adjustment for age and benefit form.

(3) *PBGC notice to participant or beneficiary.* Before effecting a benefit reduction pursuant to this paragraph, the PBGC will notify the participant or beneficiary in writing of the amount of the net overpayment and of the amount of the reduced benefit computed under this section.

(4) *Waiver of de minimis amounts.* The PBGC may, in its discretion, decide not to recoup net overpayments that it determines to be de minimis.

(5) *Final installment.* The PBGC will cease recoupment one month early if the amount remaining to be recouped in the final month is less than the amount of the monthly reduction.

(b) *Full repayment through recoupment.* Recoupment under this section constitutes full repayment of the net overpayment.

§ 4022.83. [Amended]

4. Section 4022.83 is amended by removing the reference to § 4022.81(d) and adding, in its place, a reference to § 4022.81(c).

PART 4041—TERMINATION OF SINGLE-EMPLOYER PLANS

5. The authority citation for part 4041 continues to read as follows:

Authority: 29 U.S.C. 1302(b)(3), 1341, 1344, 1350.

§ 4041.42 [Amended]

6. Section 4041.42(d)(2) is amended by removing the reference to § 4022.81(d) and adding, in its place, a reference to § 4022.81(c)(3).

PART 4050—MISSING PARTICIPANTS

7. The authority citation for part 4050 continues to read as follows:

Authority: 29 U.S.C. 1302(b)(3), 1350.

§ 4050.2 [Amended]

8. The definition of "Designated benefit interest rate" in Section 4050.2, is amended by removing the reference to § 4022.81(d) and adding, in its place, a reference to § 4022.81(c).

Issued in Washington, DC, this 27th day of May, 1998.

Alexis M. Herman

Chairman, Board of Directors Pension Benefit Guaranty Corporation.

Issued on the date set forth above pursuant to a resolution of the Board of Directors authorizing its Chairman to issue this final rule.

James J. Keightley

Secretary, Board of Directors Pension Benefit Guaranty Corporation.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 660

[Docket No. 980415098–5098–8098–01; I.D. 031998A]

Fisheries Off West Coast States and in the Western Pacific; Western Pacific Crustacean Fisheries; Vessel Monitoring System; Harvest Guideline; Closed Season; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correction.

SUMMARY: This document corrects a rule published in the **Federal Register** on April 27, 1998. The regulations implemented three management measures governing the crustacean fisheries in the exclusive economic zone around Hawaii.

DATES: Effective May 27, 1998.

FOR FURTHER INFORMATION CONTACT: Alvin Katekaru, NMFS, 808–973–2985.

SUPPLEMENTARY INFORMATION: In the classification section of the final rule published on April 27, 1998 (63 FR 20539),

NMFS inadvertently omitted a word at the end of the third paragraph. Also, when NMFS revised the definition for Crustacean Permit Area I VMS Subarea in § 660.12, NMFS inadvertently put a comma at the end of the definition.

Correction of Publication

The publication on April 27, 1998 (63 FR 20539) [I.D. 031998A], FR Doc. 98–11017, is corrected as follows:

On page 20540 in the second column, in the third paragraph under **Classification**, the word "not" should be inserted before the word "applicable".

§ 660.12 [Corrected]

On page 20540, in § 660.12, in the definition of "Crustaceans Permit Area I VMS Subarea", in the third column, on the last line, the comma at the end of the definition should be removed and replaced with a period.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 22, 1998.

David L. Evans,

Deputy Assistant Administrator for Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

50 CFR Part 678

[I.D. 051998A]

Atlantic Shark Fisheries; Quota Adjustment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Quota adjustment.

SUMMARY: NMFS announces that the landings of large coastal sharks in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea totaled 684.8 metric tons (mt) during the first semiannual 1998 season. Because this constitutes an overharvest of 42 mt, the second semiannual 1998 quota is reduced accordingly.

DATES: Effective May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Margo Schulze or Karyl Brewster-Geisz at 301–713–2347; or Buck Sutter at 813–570–5324.

SUPPLEMENTARY INFORMATION: The Atlantic Ocean, Gulf of Mexico, and Caribbean Sea shark fisheries are managed by NMFS according to the Fishery Management Plan (FMP) for Atlantic Sharks prepared by NMFS under authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*). Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR part 678.

Section 678.24(b) of the regulations provides for two semi-annual quotas of 642 mt of large coastal sharks to be harvested from the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea waters by

UMI
VOL
63
ISS
103
MAY
29
1998
UMI

commercial fishermen. The first semiannual quota was available for harvest from January 1 through June 30, 1998.

The Assistant Administrator for Fisheries, NOAA, is authorized under § 678.24(c) to adjust the semiannual quota to reflect actual catches during the preceding semiannual period. Harvest data submitted to NMFS indicate that the landings of large coastal sharks from January through March 31, 1998, totaled 684.8 mt, which is 42.8 mt more than the established quota. Therefore, the adjusted quota for large coastal sharks for the second 1998 semiannual period is decreased from 642 mt to 600 mt. The adjusted quota of 600 mt is available for the period July 1 through December 31, 1998.

Classification

This rule is exempt from review under E.O. 12866.

Dated: May 22, 1998.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Proposed Rules

Federal Register
Vol. 63, No. 103
Friday, May 29, 1998

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 50 and 70

Criticality Accident Requirements; Public Meeting

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of public meeting.

SUMMARY: The Nuclear Regulatory Commission (NRC) has initiated a rulemaking to provide light-water nuclear power reactor licensees with greater flexibility in meeting the requirement that licensees authorized to possess more than a small amount of special nuclear material (SNM), maintain a criticality monitoring system in each area where the material is handled, used, or stored. This action is taken as a result of the experience gained in processing and evaluating a number of exemption requests from power reactor licensees and NRC's safety assessments in response to these requests that concluded that the likelihood of criticality was negligible.

On December 3, 1997 (62 FR 63825), the Nuclear Regulatory Commission published in the **Federal Register** a direct final rule amending its regulations that would have provided persons licensed to construct or operate light-water nuclear power reactors with the option of either meeting the criticality accident requirements of paragraph (a) of 10 CFR 70.24 in handling and storage areas for SNM, or electing to comply with requirements that would be incorporated into 10 CFR part 50 at § 50.68. The direct final rule would have become effective on February 17, 1998. Significant adverse comments were received from the public, resulting in the staff withdrawing the rule. In an attempt to better understand the focus of the public comments, the staff is conducting a public meeting.

DATES: The meeting will be held on Monday, June 8, 1998.

ADDRESSES: The meeting will be held at the NRC Headquarters, 11555 Rockville Pike, Rockville, MD 20852, in room O–10B–11, starting at 1:00 pm.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to provide persons licensed to construct or operate light-water nuclear power reactors with the option of either meeting the criticality accident requirements of paragraph (a) of 10 CFR 70.24 in handling and storage areas for SNM, or electing to comply with certain requirements that would be incorporated into 10 CFR part 50. These are generally the requirements that the NRC has used to grant specific exemptions to the requirements of 10 CFR 70.24. In addition, the NRC is proposing to revise the current text of the section relating to seeking specific exemptions from regulations in 10 CFR 70.24(d) which provided that a licensee could seek an exemption to all or part of 10 CFR 70.24 for good cause because it is redundant to 10 CFR 70.14(a). A new section, 10 CFR 70.24 (d) may be added to clarify that the requirements in paragraph (a) through (c) of 10 CFR 70.24 do not apply to holders of a construction permit or operating license for a nuclear power reactor issued pursuant to 10 CFR part 50, or combined licenses issued under 10 CFR part 52, if the holders comply with the requirements of 10 CFR 50.68 (b). It is proposed that exemptions acquired under 10 CFR 70.24 after the issuance of the operating license will still be valid if the option selected is 10 CFR 70.24 or if the 10 CFR 70.24 exemptions were explicitly renewed when the 10 CFR part 50 operating license was issued.

The meeting will be open to the public, on a space available basis. The agenda for the workshop will focus on a discussion of the public comments received and the above regulatory issues. Members of the public who are unable to attend the workshop can obtain copies of the papers developed by the staff through NRC's Public Document Room (U.S. Nuclear Regulatory Commission, Attention: NRC Public Document Room, Washington, DC 20555–0001) or on the Internet via NRC's Technical Conference Forum (http://techconf.llnl.gov/noframe.html).

Dated at Rockville, Maryland this 21st day of May, 1998.

For the Nuclear Regulatory Commission.

Thomas H. Essig,

Acting Chief, Generic Issues and Environmental Projects Branch, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

10 CFR Part 430

[Docket No. EE–RM/STD–98–440]

RIN 1904–AA77

Energy Conservation Program for Consumer Products: Notice of Public Workshop on Central Air Conditioner Energy Efficiency Standards Rulemaking

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of Public Workshop.

SUMMARY: The Department of Energy (the Department or DOE) today gives notice that it will convene a public workshop to discuss the proposed analytical framework and tools for evaluating possible revisions to the central air conditioner and heat pump energy efficiency standards.

DATES: The public workshop will be held on Tuesday, June 30, 1998, from 9 a.m. to 4 p.m.

ADDRESSES: The workshop will be held at the U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, EE–43, Room 1E–245, 1000 Independence Avenue, SW, Washington, DC 20585–0121.

Written comments are welcome, especially following the workshop. Please submit 10 copies (no faxes) and a computer diskette (WordPerfect 6.1) to: Ms. Brenda Edwards-Jones, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Energy Conservation Program for Consumer Products: Notice of Public Workshop on Central Air Conditioner Energy Efficiency Standards Rulemaking, Docket No. EE–RM/STD–98–440, EE–43, 1000 Independence Avenue, SW, Washington, DC 20585–0121. Telephone: (202) 586–2945.

Copies of the transcript of the public workshop, public comments received, and this notice may be read at the DOE Freedom of Information Reading Room, U.S. DOE, Forrestal Building, Room 1E–190, 1000 Independence Avenue, SW, Washington, DC 20585, (202) 586–3142, between the hours of 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:
Edward Pollock , U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Forrestal Building, Mail Station EE–43, 1000 Independence Avenue, SW, Washington, DC 20585–0121, (202) 586–5778.
Ms. Brenda Edwards-Jones, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy, Mail Station EE–43, 1000 Independence Avenue, SW, Washington, DC 20585–0121, (202) 586–2945.
Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Mail Station GC–72, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585–0103, (202) 586–9526.

SUPPLEMENTARY INFORMATION: In continuing the work on possible revisions to energy efficiency standards on central air conditioners, the Department is convening a workshop to present and receive public comments on the proposed analytical approach for evaluating the central air conditioner standards. At this workshop the following will be discussed:

Review of the Rulemaking Framework: The Department will seek comment on the draft analytical framework for the central air conditioner rulemaking. Copies of the draft framework document will be available beginning the week of May 25, 1998, on the Office of Codes and Standards web site. The web site address is as follows: http://www.eren.doe.gov/buildings/codes_standards/index.htm.

Identification of Analytical Methods and Tools: The Department seeks input into the selection of engineering and economic analytical tools to be used during the rulemaking:

Engineering Analysis/Data Collection: The Department plans to collect data for the engineering analysis using one or more of the following methods: the energy efficiency approach to derive a cost efficiency curve within a range, the design option approach, and the market price (or reverse engineering) approach. The Department will review the key issues surrounding: (1) The pros and cons of each approach, and (2) data collection and the reporting of costs for incorporation into the engineering analysis.

Price of Air Conditioners: The Department will lead a discussion on possible approaches to generating retail prices to be used in the consumer life-cycle-cost analysis.

Life-Cycle-Cost: The Department plans to demonstrate a new life-cycle-cost spreadsheet model which can account for variability of key criteria, such as utility rates and climate.

Electricity Price: The Department will lead a discussion on possible approaches for accounting for variations in electricity price, and the effects of these variations on different consumers.

Refrigerant: The refrigerant used in air conditioners will be banned by the Environmental Protection Agency in 2010. The Department will lead a discussion on the effects of this ban on the timing of the revision to central air conditioner standards.

Energy Savings Forecasts: The Department will present an example of energy savings forecasting results using a simple spreadsheet to show how the growth in efficiency can be accounted for over time.

Background on the approach to be followed in evaluating central air conditioner standards is found in Section 325 of the Energy Policy and Conservation Act, as amended, and appendix A of subpart C of 10 CFR part 430, 61 FR 36974 (July 15, 1996). Appendix A outlines the planning and prioritization process, data collection and analysis, and decision making criteria. Previously published information pertaining to this rulemaking includes the following: An Advance Notice of Proposed Rulemaking Regarding Energy Conservation Standards for Three Types of Consumer Products, published on September 8, 1993 (58 FR 47326), and comments thereon. Copies may be read at the DOE Freedom of Information Reading Room.

Please notify Brenda Edwards-Jones or Edward Pollock at the above listed address if you intend to attend the workshop, if you wish to receive material prepared for the workshop (including the draft analytical framework), or if you wish to be added to the DOE mailing list for receipt of future notices and information concerning central air conditioner matters relating to energy efficiency.

Issued in Washington, DC, on May 22, 1998.

Dan W. Reicher,

Assistant Secretary, Energy Efficiency and Renewable Energy.

[FR Doc. 98–14258 Filed 5–28–98; 8:45 am]

BILLING CODE 6450–01–P

FEDERAL ELECTION COMMISSION

[Notice 1998—10]

11 CFR Part 114

Qualified Nonprofit Corporations

AGENCY: Federal Election Commission.

ACTION: Notice of Disposition of Petition for Rulemaking.

SUMMARY: The Commission announces its disposition of a Petition for Rulemaking filed on November 17, 1997 by James Bopp, Jr., on behalf of the James Madison Center for Free Speech. The petition urges the Commission to revise its regulations regarding qualified nonprofit corporations to conform them to a decision of the United States Court of Appeals for the Eighth Circuit. The Commission has decided not to initiate a rulemaking in response to this petition.

DATES: May 21, 1998.

FOR FURTHER INFORMATION CONTACT: Ms. Susan E. Propper, Assistant General Counsel, or Paul Sanford, Staff Attorney, 999 E Street, NW, Washington, DC 20463, (202) 694–1650 or (800) 424–9530.

SUPPLEMENTARY INFORMATION: On November 17, 1997, the Commission received a Petition for Rulemaking from the James Madison Center for Free Speech requesting that the Commission institute a rulemaking proceeding to conform its regulations at 11 CFR 114.10 to the decision of the United States Court of Appeals for the Eighth Circuit in *Minnesota Citizens Concerned for Life* v. *Federal Election Commission,* 113 F.3d 129 (8th Cir. 1997) ["*Minnesota*"]. In that decision, the court of appeals held that section 114.10 is unconstitutional because it infringes upon the First Amendment rights of certain nonprofit corporations. The petition urges the Commission to revise its regulations in accordance with this decision. For the reasons set out below, the Commission has decided not to revise its regulations, and is therefore denying the petition.

Section 441b of the Federal Election Campaign Act, 2 U.S.C. 431 *et seq.* ["FECA" or "the Act"], broadly prohibits corporations from making independent expenditures. However,

the United States Supreme Court created a narrow exception to this prohibition in *FEC* v. *Massachusetts Citizens for Life*, 479 U.S. 238 (1986) ["*MCFL*"]. The Court held that the prohibition on corporate independent expenditures could not constitutionally be applied to nonprofit organizations like Massachusetts Citizens For Life ["Massachusetts Citizens"] that have certain "essential" features: (1) they are formed for the express purpose of promoting political ideas and cannot engage in business activities; (2) they have no shareholders or other persons affiliated so as to have a claim on their assets or earnings; and (3) they were not established by a business corporation or labor union and have a policy against accepting contributions from these entities. *Id.* at 263–64.

In 1995, after an extended rulemaking proceeding, the Commission promulgated new regulations to implement the *MCFL* decision. Section 114.10 of the regulations describes those corporations that are exempt from the prohibition on independent expenditures, and refers to them as qualified nonprofit corporations. Under section 114.10(c), a qualified nonprofit corporation is a corporation (1) whose only express purpose is the promotion of political ideas; (2) that cannot engage in business activities; (3) that (a) has no shareholders or other persons (other than employees and creditors) affiliated in a way that could allow them to make a claim on the corporation's assets or earnings; and (b) offers no benefits that are a disincentive to disassociate with the corporation on the basis of a political issue; (4) that was not established by a business corporation or labor organization, and does not accept donations from such entities; and (5) that is described in 26 U.S.C. 501(c)(4) of the Internal Revenue Code. These rules went into effect on October 5, 1995. *Express Advocacy; Independent Expenditures; Corporate and Labor Organization Expenditures; Final Rule*, 60 FR 52069 (Oct. 5, 1995).

The petition submitted by the Madison Center urges the Commission to revise these regulations to conform to the *Minnesota* decision. In *Minnesota*, the plaintiffs, a nonprofit organization called Minnesota Citizens Concerned for Life ["Minnesota Citizens"], argued that the Commission's regulations violate the First Amendment and the Administrative Procedure Act, 5 U.S.C. 551 *et seq*. Minnesota Citizens relied on a prior decision of the Eighth Circuit, *Day* v. *Holohan*, 34 F.3d 1356 (8th Cir. 1994), *cert. denied*, 513 U.S. 1127 (1995) ["*Day*"], in which the Eighth Circuit considered the constitutionality of a state statutory scheme that was similar to section 114.10. In *Day*, the Eighth Circuit concluded that the state statute was unconstitutional for two reasons. First, the court held that a nonprofit organization could engage in "insignificant" business activity and still be exempt from the prohibition on corporate independent expenditures. Second, the court concluded that a nonprofit organization could accept an insignificant amount of contributions from corporations and still qualify for an exemption from the independent expenditure prohibition. *See also Federal Election Commission* v. *Survival Education Fund*, 65 F.3d 285 (2d Cir. 1995).

When faced with a challenge to section 114.10 of the Commission's regulations, the district court in *Minnesota* concluded that the *Day* decision was controlling, and invalidated the regulation. The Eighth Circuit affirmed the district court's decision. 113 F.3d 129, 133 (8th Cir. 1997). The Madison Center now asks the Commission to revise its regulations in accordance with the Eighth Circuit's decisions.

Pursuant to its usual procedures, the Commission published a Notice of Availability in the December 10, 1997 edition of the **Federal Register** announcing that it had received the petition and inviting the public to submit comments on it. 62 FR 65040 (Dec. 10, 1997). The comment period closed on January 23, 1998. The Commission received three comments in response to the Notice of Availability. One of the comments was endorsed by nine organizations. All three comments supported the petition.

After reviewing the petition, comments, and court decisions, the Commission has decided not to revise its regulations. Under the rule of *stare decisis*, a decision by a circuit court of appeals is only binding within the circuit in which it is issued. Section 114.10 reflects the Commission's interpretation of the *MCFL* opinion, a Supreme Court decision that is binding nationwide. Thus, if the Commission's interpretation of *MCFL* is correct, section 114.10 is controlling law outside the Eighth Circuit, and the Commission is entitled to implement it throughout the rest of the country.

Since government agencies typically operate nationwide, it is not unusual for an agency to find that different courts have interpreted its statutes or rules in different ways. The Supreme Court has recognized that, when confronted with this situation, an agency is free to adhere to its preferred interpretation in all circuits that have not rejected that interpretation. It is collaterally estopped only from raising the same claim against the same party in any location, or from continuing to pursue the issue against any party in a circuit that has already rejected the agency's interpretation. *United States* v. *Mendoza*, 464 U.S. 154 (1984). Indeed, the *Mendoza* Court encouraged agencies to seek reviews in other circuits if they disagree with one circuit's view of the law, since to allow "only one final adjudication would deprive this Court of the benefit it receives from permitting several courts of appeals to explore a difficult question before this Court grants *certiorari*." *Id.* at 160 (citations omitted).

The Commission intends to follow the *MCFL* decision for the additional reason that it believes that the Eighth Circuit erroneously interpreted that decision in *Day* and *Minnesota*. In the Eighth Circuit's view, the *MCFL* decision allows corporations to make independent expenditures, even if they engage in business activities and accept donations from business corporations. However, the *MCFL* Court said that when a corporation engages in both business activity and political activity, it creates "the potential for unfair deployment of wealth for political purposes." 479 U.S. at 259 (footnote omitted). Similarly, the Court said that groups that accept donations from business corporations "serv[e] as conduits for the type of direct spending that creates a threat to the political marketplace." *Id.* at 264. This threat of corruption of the political marketplace justifies the application of the independent expenditure prohibition in section 441b.

In contrast, groups like Massachusetts Citizens that "cannot engage in business activities" and "[were] not established by a business corporation or labor union, and [have a] policy not to accept contributions from such entities," *id.*, "do not pose that danger of corruption." *Id.* at 259. Thus, there is no justification for the application of the independent expenditure prohibition in section 441b to these corporations. The Court emphasized that these characteristics were "essential to [its] holding that [Massachusetts Citizens] may not constitutionally be bound by § 441b's restriction on independent spending." *Id.* 263–64. Consequently, the Commission believes it has ample justification for subjecting groups that do not possess these characteristics to the full requirements of section 441b.

It is also difficult to reconcile the Eighth Circuit's conclusion with the Supreme Court's decision in *Austin* v. *Michigan Chamber of Commerce*, 494 U.S. 652 (1990). In *Austin*, the Court

reviewed the application of a state statute that was similar to section 441b to a nonprofit state chamber of commerce. The chamber did not itself engage in traditional business activities. However, its bylaws set forth "varied purposes * * * several of which [were] not inherently political." 494 U.S. at 662. For example, it distributed information related to social, civic and economic conditions, trained and educated its members, and promoted ethical business practices. The Court noted that "[m]any of its seminars, conventions, and publications [were] politically neutral and focus[ed] on business and economic issues," that were "not expressly tied to political goals." *Id.* Thus, even though it was not engaged in a business for profit, "[t]he Chamber's nonpolitical activities * * * suffice[d] to distinguish it from [Massachusetts Citizens] in the context of this characteristic." *Id.* at 663.

With regard to the acceptance of corporate contributions, the Court was even more emphatic, saying that "[o]n this score, the Chamber differs most greatly from [Massachusetts Citizens]." *Id.* at 664. The Court said that, under *MCFL*, nonprofit organizations that accept contributions from business corporations are not entitled to any exemption from section 441b, and pointed out that if the rule were otherwise, "[b]usiness corporations * * * could circumvent the Act's restriction by funneling money through [a nonprofit organization's] general treasury." *Id.* The Court concluded that, under this standard, the Chamber was not entitled to any exemption from the state's version of section 441b. "Because the Chamber accepts money from for-profit corporations, it could, absent application of [the state corporate expenditure prohibition], serve as a conduit for corporate political spending." *Id.*

The Commission continues to believe that section 114.10 accurately interprets these two Supreme Court cases, and the decisions of several other courts support this conclusion. In *Clifton* v. *FEC*, 114 F.3d 1309 (lst Cir. 1997), *cert. denied*, 118 S. Ct. 1306 (1998), the First Circuit said the *MCFL* Court "stressed as 'essential' the fact that the anti-abortion group there involved did not accept contributions from business corporations or unions * * *. This was important to the Court because it had previously sustained the right of Congress to limit the election influence of massed economic power in corporate or union form." *Id.* at 1312. Since the nonprofit corporation involved in that case accepted contributions from other corporations, the Court concluded that it was not entitled to the *MCFL* exemption, saying that it fell "somewhere between the entity protected in [*MCFL*] and that held unprotected in *Austin*." *Id.* at 1312–13. The First Circuit also said a *de minimis* rule regarding the acceptance of corporate contributions would be inconsistent with the *Austin* decision. *Id.* at 1313.

In dictum, the D.C. Circuit has also expressed support for the Commission's interpretation of this aspect of the *MCFL* decision. "[T]he *MCFL* constitutional exemption * * * requires that the organization * * * not accept contributions from labor unions or corporations." *Akins* v. *FEC*, 101 F.3d 731, 742 n.10 (D.C. Cir. 1996) (*en banc*) (dictum), *cert. granted*, 117 S. Ct. 2451 (1997).

Two district courts have also supported the Commission's interpretation. In *FEC* v. *NRA Political Victory Fund*, 778 F. Supp. 62 (D.D.C. 1991), *rev'd on other grounds*, 6 F.3d 821 (D.C. Cir.), *cert. dismissed for want of jurisdiction*, 513 U.S. 88 (1994), the court concluded that unless a corporation can show that it does not in fact accept contributions from business corporations or unions or has a policy "equivalent to that of MCFL" of not accepting such contributions, it does "not fit in the group of organizations affected by the *MCFL* holding, a group which the Court acknowledged * * * would be "small,'" 778 F. Supp. at 64 (quoting *MCFL*, 479 U.S. at 264).

The district court in *Faucher* v. *FEC*, 743 F. Supp. 64 (D. Me. 1990), *aff'd*, 928 F.2d 468 (1st Cir.), *cert. denied*, 502 U.S. 820 (1991), reached a similar conclusion.

> In [*MCFL*], the Supreme Court made clear that one of the "essential" factors for its holding was that the nonprofit corporation there did not receive, *and had a policy of not receiving*, any corporate funds. * * * [A]lthough the amounts received by [the plaintiff nonprofit organization] from corporations have been comparatively modest, they are obviously not subject to any control. Without an explicit policy against contributions from corporations, the risk remains that an organization like [the plaintiff] could "serv[e] as [a conduit] for the type of direct spending that creates a threat to the political marketplace." * * * It is this potential for influence that supports the restrictions on corporate funding.
>
> 743 F. Supp. at 69–70 (emphasis in original; quoting *MCFL*, 479 U.S. at 264).

In sum, both because it is well settled that a decision by one circuit court of appeals is not binding in other circuits, and because the Commission believes the challenged regulation reflects a correct reading of controlling Supreme Court precedent and is therefore constitutional, the Commission has decided not to open a rulemaking in response to this Petition.

Therefore, at its open meeting of May 21, 1998, the Commission voted not to initiate a rulemaking to revise its regulations regarding qualified nonprofit corporations, found at 11 CFR 114.10. Copies of the General Counsel's recommendation on which the Commission's decision is based are available for public inspection and copying in the Commission's Public Records Office, 999 E Street, NW, Washington, DC 20463, (202) 694–1120 or toll-free (800) 424–9530. Interested persons may also obtain a copy by dialing the Commission's FAXLINE service at (202) 501–3413 and following its instructions. Request document #233.

Dated: May 22, 1998.

Joan D. Aikens,

Chairman, Federal Election Commission.

[Docket No. 98–CE–30–AD]

RIN 2120–AA64

Airworthiness Directives; Pilatus Aircraft Ltd. Model PC–7 Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes to adopt a new airworthiness directive (AD) that would apply to certain Pilatus Aircraft Ltd. Model PC–7 airplanes. The proposed AD would require replacing the seal unit on both main landing gear (MLG) legs and the nose landing gear (NLG) leg. The proposed AD is the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for Switzerland. The actions specified by the proposed AD are intended to prevent MLG or NLG failure caused by deterioration of a MLG or NLG leg seal unit, which could result in damage to the airplane or airplane controllability problems during takeoff, landing, or taxi operations.

DATES: Comments must be received on or before July 3, 1998.

ADDRESSES: Submit comments in triplicate to the Federal Aviation

Administration (FAA), Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 98–CE–30–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106. Comments may be inspected at this location between 8 a.m. and 4 p.m., Monday through Friday, holidays excepted.

Service information that applies to the proposed AD may be obtained from Pilatus Aircraft Ltd., Customer Liaison Manager, CH–6371 Stans, Switzerland; telephone: +41 41 619 6509; facsimile: +41 41 610 3351. This information also may be examined at the Rules Docket at the address above.

FOR FURTHER INFORMATION CONTACT: Mr. Roman T. Gabrys, Aerospace Engineer, Small Airplane Directorate, Airplane Certification Service, FAA, 1201 Walnut, suite 900, Kansas City, Missouri 64106; telephone: (816) 426-6932; facsimile: (816) 426–2169.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 98–CE–30–AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 98–CE–30–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Discussion

The Federal Office for Civil Aviation (FOCA), which is the airworthiness authority for Switzerland, recently notified the FAA that an unsafe condition may exist on certain Pilatus Model PC–7 airplanes. The FOCA of Switzerland reports two cases of improper landing gear extension after take-off. These incidents are attributed to deterioration of the MLG or NLG seal unit.

These conditions, if not corrected in a timely manner, could result in MLG or NLG failure and cause airplane damage or airplane controllability problems during takeoff, landing, or taxi operations.

Relevant Service Information

Pilatus has issued Service Bulletin No. 32–018, dated March 6, 1998, which specifies procedures for replacing the seal unit, on both MLG legs and the NLG leg, with improved design seal units.

The FOCA of Switzerland classified this service bulletin as mandatory and issued Swiss AD HB 98–069, dated March 23, 1998, in order to assure the continued airworthiness of these airplanes in Switzerland.

The FAA's Determination

This airplane model is manufactured in Switzerland and is type certificated for operation in the United States under the provisions of section 21.29 of the Federal Aviation Regulations (14 CFR 21.29) and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the FOCA has kept the FAA informed of the situation described above.

The FAA has examined the findings of the FOCA; reviewed all available information, including the service information referenced above; and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Explanation of the Provisions of the Proposed AD

Since an unsafe condition has been identified that is likely to exist or develop in other Pilatus PC–7 airplanes of the same type design registered in the United States, the FAA is proposing AD action. The proposed AD would require replacing the seal unit on both MLG legs and the NLG leg. Accomplishment of the proposed installation would be in accordance with Pilatus Service Bulletin No. 32–018, dated March 6, 1998.

Cost Impact

The FAA estimates that 5 airplanes in the U.S. registry would be affected by the proposed AD, that it would take approximately 8 workhours per airplane to accomplish the proposed action, and that the average labor rate is approximately $60 an hour. Parts cost approximately $932 per airplane. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $7,060, or $1,412 per airplane.

Regulatory Impact

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action has been placed in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

UMI
VOL
63
ISS
103
MAY
29
1998
UMI

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive (AD) to read as follows:

Pilatus Aircraft LTD.: Docket No. 98–CE–30–AD.

Applicability: Model PC–7 airplanes, serial numbers MSN 001 through MSN 609, certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (d) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated in the body of this AD, unless already accomplished.

To prevent main landing gear (MLG) or nose landing gear (NLG) failure caused by deterioration of a MLG or NLG leg seal unit, which could result in damage to the airplane or airplane controllability problems during takeoff, landing, or taxi operations, accomplish the following:

(a) Within the next 100 hours time-in-service after the effective date of this AD, replace the seal unit on both MLG legs and the NLG leg in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of Pilatus Service Bulletin No. 32–018, dated March 6, 1998.

(b) As of the effective date of this AD, no person may install a MLG leg or NLG leg that does not have an improved seal unit installed in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of Pilatus Service Bulletin No. 32–018, dated March 6, 1998.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Small Airplane Directorate, 1201 Walnut, suite 900, Kansas City, Missouri 64106. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Small Airplane Directorate.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Small Airplane Directorate.

(e) Questions or technical information related to Pilatus Service Bulletin No. 32–018, dated March 6, 1998, should be directed to Pilatus Aircraft Ltd., Customer Liaison Manager, CH–6371 Stans, Switzerland; telephone: +41 41 619 6509; facsimile: +41 41 610 3351. This service information may be examined at the FAA, Central Region, Office of the Regional Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Note 3: The subject of this AD is addressed in Swiss AD HB 98–069, dated March 23, 1998.

Issued in Kansas City, Missouri, on May 21, 1998.

Michael Gallagher,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 98–CE–03–AD]

RIN 2120–AA64

Airworthiness Directives; British Aerospace Model B.121 Series 1, 2, and 3 Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Supplemental notice of proposed rulemaking (NPRM); Reopening of the comment period.

SUMMARY: This document proposes to revise an earlier proposed airworthiness directive (AD) that would have required the following on certain British Aerospace Model B.121 Series 1, 2, and 3 airplanes: installing an inspection opening in the area of the main spar web, repetitively inspecting the area at the main spar web for cracks and the area of the wing to fuselage attach bolt holes for corrosion, and repairing or replacing any cracked or corroded part. The proposed AD was the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for the United Kingdom. Since issuing the NPRM, British Aerospace has developed additional service information to that referenced in the previous proposal to include the installation of nuts of improved design at the wing to fuselage main-spar attachment fittings and the deletion of the inspection of the area of the wing to fuselage attach bolt holes for corrosion. The improved design nuts provide better torque retention than the nuts originally installed. The Federal Aviation Administration (FAA) has determined that the above-referenced changes in the revised service information should be incorporated into the NPRM, and that the comment period for the proposal should be reopened and the public should have additional time to comment. The actions specified by the proposed AD are intended to prevent structural failure of the main spar web area caused by fatigue cracking or separation of the wing caused by loose nuts at the wing to fuselage main-spar attachment fittings, which could result in loss of control of the airplane.

DATES: Comments must be received on or before July 3, 1998.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 98–CE–03–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106. Comments may be inspected at this location between 8 a.m. and 4 p.m., Monday through Friday, holidays excepted.

Service information that applies to the proposed AD may be obtained from British Aerospace (Operations) Limited, British Aerospace Regional Aircraft, Prestwick International Airport, Ayrshire, KA9 2RW, Scotland; telephone: (01292) 479888; facsimile: (01292) 479703. This information also may be examined at the Rules Docket at the address above.

FOR FURTHER INFORMATION CONTACT: Mr. Roger Chudy, Aerospace Engineer, Small Airplane Directorate, Aircraft Certification Service, 1201 Walnut, suite 900, Kansas City, Missouri 64106; telephone: (816) 426–6932; facsimile: (816) 426–2169

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this

proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 98–CE–03–AD." The postcard will be date stamped and returned to the commenter.

Availability of Supplemental NPRM's

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 98–CE–03–AD, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Discussion

A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to certain British Aerospace Model B.121 Series 1, 2, and 3 airplanes was published in the **Federal Register** as a notice of proposed rulemaking (NPRM) on March 16, 1998 (63 FR 12708). The NPRM proposed to require installing an inspection opening in the area of the main spar web, repetitively inspecting the area at the main spar web for cracks and the area of the wing to fuselage attach bolt holes for corrosion, and repairing or replacing any cracked or corroded part. Accomplishment of the proposed inspections would be required in accordance with British Aerospace PUP Mandatory Service Bulletin No. B121/102, Revision No. 1, Issued April 16, 1997. If necessary, the proposed repair or replacement would be required in accordance with a scheme obtained from the manufacturer through the FAA, Small Airplane Directorate.

The NPRM was the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for the United Kingdom.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.

Events Since Issuance of the NPRM

Since issuance of the NPRM, British Aerospace has developed additional service information to that referenced in the previous proposal to include the installation of nuts of improved design at the wing to fuselage main-spar attachment fittings and the deletion of the inspection at the area of the wing to fuselage attach bolt holes for corrosion. The improved design nuts provide better torque retention than the ones originally installed.

In addition, British Aerospace has re-examined the service history and evaluated reports from the field and has changed the compliance time (that is referenced in the service information) for the inspection opening installation and the initial eddy current inspection to upon the accumulation of 2,000 flying hours.

To incorporate the above changes, British Aerospace has issued the following service bulletins, which supersede British Aerospace PUP Mandatory Service Bulletin No. B121/102, Revision No. 1, Issued April 16, 1997:

—British Aerospace PUP Mandatory Service Bulletin No. B121/106, dated January 12, 1998, which specifies procedures for replacing the nuts (with improved design nuts) at the wing to fuselage main-spar attachment fittings; and

—British Aerospace PUP Mandatory Service Bulletin No. B121/105, dated January 12, 1998, which specifies procedures for installing an inspection opening in the area of the main spar web, and inspecting the area at the main spar web for cracks. These procedures are basically the same as contained in British Aerospace PUP Mandatory Service Bulletin No. B121/102, Revision No. 1, Issued April 16, 1997.

The FAA's Determination

After examining all information related to the subject described in this document, the FAA has determined that:

—Improved design nuts should be installed at the wing to fuselage main-spar attachment fittings;

—The improved service information should be incorporated into the proposed AD;

—The compliance time of the proposed inspection opening installation and initial eddy current inspection should be changed to coincide with the service information referenced above; and

—AD action should be taken to incorporate these changes to prevent structural failure of the main spar web area caused by fatigue cracking or separation of the wing caused by loose nuts at the wing to fuselage main-spar attachment fittings, which could result in loss of control of the airplane.

The Supplemental NPRM

Since installing improved design nuts at the wing to fuselage main-spar attachment fittings proposes actions that go beyond the scope of what was already proposed, the FAA is reopening the comment period to allow the public additional time to comment on this proposed action.

Cost Impact

The FAA estimates that 2 airplanes in the U.S. registry would be affected by the proposed AD; that it would take approximately 37 workhours per airplane to accomplish the proposed initial inspection, inspection opening installation, and improved design nut installations; that the average labor rate is approximately $60 an hour. There is no cost for the parts to accomplish the proposed replacements. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $4,440, or $2,220 per airplane. These figures only take into account the cost of the proposed initial inspections, inspection opening installation, and improved design nut installations; and do not take into account the cost of repetitive inspections. The FAA has no way of determining the number of repetitive inspections each owner/operator of the affected airplanes will incur.

Regulatory Impact

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action has been placed in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

VOL 63 ISS 103 MAY 29 1998 UMI

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive (AD) to read as follows:

British Aerospace (Operations) Limited: Docket No. 98–CE–03–AD.

Applicability: Model B.121 Series 1, 2, and 3 airplanes, all serial numbers, certificated in any category.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (f) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated in the body of this AD, unless already accomplished.

To prevent structural failure of the main spar web area caused by fatigue cracking or separation of the wing caused by loose nuts at the wing to fuselage main-spar attachment fittings, which could result in loss of control of the airplane, accomplish the following:

(a) Within the next 100 hours time-in-service (TIS) after the effective date of this AD, replace the nuts (with improved design nuts) at the wing to fuselage main-spar attachment fittings in accordance with British Aerospace PUP Mandatory Service Bulletin No. B121/106, dated January 12, 1998.

(b) Upon accumulating 2,000 hours TIS on the main spar or within the next 50 hours TIS, whichever occurs later, install an inspection opening and inspect, using eddy current methods, the area at the main spar web for cracks in accordance with the ACCOMPLISHMENT INSTRUCTIONS section of British Aerospace PUP Mandatory Service Bulletin No. B121/105, dated January 12, 1998.

Note 2: Accomplishing the installation inspection opening and initial eddy current inspection required by this AD in accordance with British Aerospace PUP Mandatory Service Bulletin No. B121/102, Revision No. 1, Issued April 16, 1997, is considered "already accomplished" for the requirements of paragraph (b) of this AD.

(c) Within 800 hours TIS after the initial inspection required by paragraph (b) of this AD, and thereafter at intervals not to exceed 800 hours TIS, reinspect the area of the main spar web as specified in paragraph (b) of this AD.

(d) If any cracks are found during any inspection required by this AD, prior to further flight, accomplish the following:

(1) Obtain a repair or replacement scheme from the manufacturer through the FAA, Small Airplane Directorate, at the address specified in paragraph (e) of this AD; and

(2) Incorporate this scheme and continue to repetitively inspect as required by paragraph (c) of this AD, unless specified differently in the instructions to the repair or replacement scheme.

(e) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) An alternative method of compliance or adjustment of the initial or repetitive compliance times that provides an equivalent level of safety may be approved by the Manager, Small Airplane Directorate, Aircraft Certification Service, 1201 Walnut, suite 900, Kansas City, Missouri 64106. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Small Airplane Directorate.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Small Airplane Directorate.

(g) Questions or technical information related to the service information referenced in this document should be directed to British Aerospace (Operations) Limited, British Aerospace Regional Aircraft, Prestwick International Airport, Ayrshire, KA9 2RW, Scotland; telephone: (01292) 479888; facsimile: (01292) 479703. This service information may be examined at the FAA, Central Region, Office of the Regional Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Note 4: The subject of this AD is addressed in British AD 005–01–98, not dated.

Issued in Kansas City, Missouri, on May 21, 1998.

Michael Gallagher,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 820

Quality System Inspection Technique Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of meeting.

SUMMARY: The Food and Drug Administration (FDA) is announcing the following public meeting: "Quality System Inspection Technique." The goal of the meeting is to obtain views and opinions from interested parties concerning a proposed new technique for conducting quality system inspections. This proposed technique could eventually replace the technique presently used when FDA conducts quality systems (good manufacturing practices) inspections of medical device manufacturers. The proposed "Quality System Inspection Technique" was developed by a group composed of the Center for Devices and Radiological Health (CDRH) and Office of Regulatory Affairs staff, familiar with the Quality Systems Regulation and present inspectional processes, with input from the medical device industry. This meeting is part of the CDRH's ongoing reengineering effort to develop an inspection program covering the Quality System Regulation that results in more focused and efficient inspections.

DATES: The public meeting will be held on Thursday, June 18, 1998, from 8:30 a.m. to 5 p.m.

ADDRESSES: The public meeting will be held at 5600 Fishers Lane, conference rooms D and E, third floor, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

For information regarding the meeting: Timothy R. Wells, Center for Devices and Radiological Health (HFZ–332), 2094 Gaither Rd., Rockville, MD 20859, 301–594–4616, FAX 301–594–4638, e-mail trw@cdrh.fda.gov.

For information regarding registration or requests for oral presentations: Georgia A. Layloff, Food and Drug Administration, St. Louis Branch Office, 12 Sunnen Dr., suite 122, St. Louis, MO 63143, 314–645–1167, ext. 121, FAX 314–645–2969, e-mail glayloff@ora.fda.gov.

SUPPLEMENTARY INFORMATION: The draft entitled "Quality System Inspection Technique" is posted for comment on the CDRH's World Wide Web (www) home page. The draft document may be

accessed at http://www.fda.gov/cdrh/gmp/gmp.html.

Send registration information (including name, title, firm name, address, telephone, and fax number), and written material and requests to make oral presentations, to the contact person by June 11, 1998. No telephone requests will be accepted. You will be notified by fax to tell whether your presentation will be included and your time limitation. If you cannot be reached by fax, please note that in your request.

Due to space limitations, interested parties are encouraged to register early. Depending on the number of requests, registration may be limited to one representative per firm or organization. If special accommodations are needed due to a disability, please contact Timothy R. Wells, at least 7 days in advance.

Dated: May 19, 1998.

Linda S. Kahan,

Acting Deputy Director for Regulations Policy, Center for Devices and Radiological Health.

BILLING CODE 4160–01–F

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 914

[SPATS No. IN–144–FOR]

Indiana Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing.

SUMMARY: OSM is announcing receipt of a proposed amendment to the Indiana regulatory program (hereinafter the "Indiana program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed amendment consists of revisions to and additions of statutes pertaining to definitions, permit conditions, and permit revisions. The amendment is intended to revise the Indiana program to improve operational efficiency.

This document sets forth the times and locations that the Indiana program and proposed amendment to that program are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding the public hearing, if one is requested.

DATES: Written comments must be received by 4:00 p.m., e.s.t., June 29, 1998. If requested, a public hearing on the proposed amendment will be held on June 23, 1998. Requests to speak at the hearing must be received by 4:00 p.m., e.s.t. on June 15, 1998.

ADDRESSES: Written comments and requests to speak at the hearing should be mailed or hand delivered to Andrew R. Gilmore, Director, Indianapolis Field Office, at the address listed below

Copies of the Indiana program, the proposed amendment, a listing of any scheduled public hearings, and all written comments received in response to this document will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed amendment by contacting OSM's Indianapolis Field Office.

Andrew R. Gilmore, Director, Indianapolis Field Office, Office of Surface Mining Reclamation and Enforcement, Minton-Capehart Federal Building, 575 North Pennsylvania Street, Room 301, Indianapolis, IN 46204, Telephone: (317) 226–6700.

Indiana Department of Natural Resources, 402 West Washington Street, Room C256, Indianapolis, Indiana 46204, Telephone: (317) 232–1547.

FOR FURTHER INFORMATION CONTACT: Andrew R. Gilmore, Director, Indianapolis Field Office, Telephone: (317) 226–6700.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana Program

On July 29, 1982, the Secretary of the Interior conditionally approved the Indiana program. Background information on the Indiana program, including the Secretary's findings, the disposition of comments, and the conditions of approval can be found in the July 26, 1982, **Federal Register** (47 FR 32107). Subsequent actions concerning the conditions of approval and program amendments can be found at 30 CFR 914.10, 194.15, and 194.15.

II. Description of the Proposed Amendment

By letter dated May 14, 1998 (Administrative Record No. IND–1606), Indiana submitted a proposed amendment to its program pursuant to SMCRA. Indiana submitted the proposed amendment at its own initiative. The amendment pertains to revisions of and additions to the Indiana Code (IC) made by House Enrolled Act (HEA) No. 1074. HEA No. 1074 was passed through the Indiana Legislature and signed by the Governor of Indiana on March 12, 1998. Only those portions of HEA No. 1074 that pertain to Articles 14–8 and 14–34 are being considered in this document. The full text of the proposed program amendment submitted by Indiana is available for public inspection at the locations listed above under **ADDRESSES**. A discussion of the proposed amendment is presented below.

1. IC 14–8–2–117.3, Definition for "Governmental Entity"

Indiana proposes the following definition: "Governmental entity, for the purposes of IC 14–22–10–2 and IC 14–22–10.2.5, has the meaning set forth in IC 14–22–10–2(a)."

2. IC 14–34–4–18, Permit Conditions

Indiana identified the existing provision as subsection (a) and added the following new provision at subsection (b):

> The director may issue a permit subject to the condition that the permittee obtain or maintain in force other licenses or permits required for the surface coal mining and reclamation operation. However, the imposition of a condition under this subsection does not authorize or require the director to administer or enforce the requirements of any federal law or of any state law other than this article.

3. IC 14–34–5–7, Permit Revisions

The existing provisions in subsections (a) and (b) were removed and the following new provisions were added:

> (a) A change in mining or reclamation operations from the approved mining and reclamation plans that would adversely affect the permittee's compliance with this article is a permit revision subject to review and approval as provided in this section and sections 8 through 8.4 of this chapter.
>
> (b) A permit revision is either: (1) A significant revision subject to sections 8 and 8.1 of this chapter; (2) a nonsignificant revision subject to sections 8.2 and 8.3 of this chapter; or (3) a minor field revision subject to section 8.4 of this chapter.
>
> (c) Permit revisions may be approved by: (1) The director; or (2) the director's designated representative.
>
> (d) A permit revision may not be approved unless the permittee demonstrates and the director or the director's designated representative finds the following:
>
> (1) That reclamation as required by this article and by the rules adopted by the commission under IC 14–34–2–1 can be accomplished.
>
> (2) That applicable requirements of IC 14–34–4–7 that are pertinent to the permit revision are met.
>
> (3) That the permit revision complies with all applicable requirements of this article and the rules adopted by the commission under IC 14–34–2–1.

4. IC 14–34–5–8, Permit Revisions

Indiana proposes to remove the language "as defined in the rules adopted under section 6 of this chapter" and to add the language "or minor field revisions" after the phrase "based only on nonsignificant revisions."

5. IC 14–34–5–8.1, Significant Permit Revisions

Indiana proposes to add a new section that defines significant permit revisions. A proposed revision of a permit is significant if any of eight conditions exists. The conditions include: adverse impacts affecting cultural resources, blasting operations, water supply, handling of toxic forming or acid forming materials, and fish and wildlife; the addition of a coal processing facility or a permanent support facility; the changes will cause a new or an updated probable hydrologic consequences determination or cumulative hydrologic impact analysis; or a postmining land use will be changed to a residential land use, a commercial or industrial land use, a recreational land use, or developed water resources.

6. IC 14–34–5–8.2, Nonsignificant Permit Revisions

Indiana proposes to add a new section that defines nonsignificant permit revisions. A proposed revision of a permit is nonsignificant if any of five conditions exist. The conditions include: (1) For surface mines, changes in the direction of mining or location of mining equipment; (2) substitution of mining equipment designed for the same purpose; (3) for underground mines, any change in the direction or location of mining within the permit area or shadow area in response to unanticipated events; (4) a postmining land use other than a change described in section 8.1; or (5) any other change in the mining or reclamation plan that will not have a significant effect on achievement of final reclamation plans, on subsidence control plans, and on the surrounding area, that does not involve significant delay in achieving final reclamation or significant change in the land use, or that is necessitated by unanticipated and unusually adverse weather conditions, other acts of God, strikes, or other cause beyond the reasonable control of the permittee.

7. IC–14–34–5–8.3, Nonsignificant Permit Revisions

Indiana proposes to require that a nonsignificant revision in a mining or reclamation plan must be reviewed and approved in writing by the director before it may be implemented.

8. IC 14–34–5–8.4, Minor Field Revisions

Indiana's proposed new section adds provisions for approval of minor field revisions by an inspector in the field. Subsection (a) defines minor field revisions as those that do not require technical review or design analysis and are capable of being evaluated in the field by the director's designated delegate for compliance with section 14–34–5–7(d). Subsection (b) allows a minor field revision to be approved by a field inspector in an inspection report or on a form signed in the field. Subsection (c) provides examples of the types of minor field revisions allowed, including soil stockpile location and configuration, as-built pond certifications, minor transportation facility changes, pond depth, shape, and orientation, an area for temporary drainage control or temporary water storage, equipment changes, explosive storage areas, minor mine management or support facility locations, adding United States Natural Resources Conservation Service conservation practices, methods of erosion protection on diversions, temporary cessation of mining, and minor diversion location changes.

9. IC 14–34–5–8.5, Permit Area Extensions

Indiana's proposed statute provides that an extension of the area covered by a permit, except for an incidental boundary revision, must be made by applying for a new permit.

10. IC–14–34–5–8.6, Incidental Boundary Revisions

This proposed statute addresses the requirements for incidental boundary revisions. Subsection (a) provides that five conditions must apply before an extension is considered an incidental boundary revision: (1) The extension may not constitute a significant revision to the method of conduct of mining or reclamation operations; (2) the extension must be required for the orderly and continuous mining and reclamation operation; (3) the extension must adjoin the permit or shadow area acreage; (4) the extended area must be mined and reclaimed in conformity with the approved permit plans; and (5) the area of the extension may not exceed the lesser of 10 percent of the area originally covered by the permit or 20 acres.

Subsection (b) requires that the aggregate of all incidental boundary revisions of a permit may not exceed the area originally covered by the permit by more than 15 percent, unless the director finds that all other provisions of this section are met and the interests of the public are not adversely affected.

Subsection (c) provides that the aggregate of all incidental boundary revisions of a permit that involve coal removal may not exceed the area originally covered by the permit by more than 10 percent.

Subsection (d) specifies the application requirements for incidental boundary revisions, including size of the area, pre- and post-mining land uses, maps, proof of the permittee's legal right to enter and conduct surface coal mining and reclamation operations on the area, necessary plans, and a statement pertaining to areas unsuitable for mining.

Subsection (e) provides that an application for an incidental boundary revision may not be approved unless the applicant demonstrates and the director finds that reclamation of the area can be accomplished and that the application complies with all requirements of Article 34.

Subsection (f) requires the director to approve or deny an incidental boundary revision of a permit within 30 days, unless the director finds that more than 30 days are needed to adequately review the application and make the findings required by subsection (e).

Subsection (g) specifies that section 14–34–5–8.6 does not alter the requirements for the submission of fees and bonds.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Indiana program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under **DATES** or at locations other than the Indianapolis Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to speak at the public hearing should contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., e.s.t. on June 15, 1998. The location and time of the hearing will be arranged with those persons requesting the hearing. Any

disabled individual who has need for a special accommodation to attend a public hearing should contact the individual listed under **FOR FURTHER INFORMATION CONTACT.** If no one requests an opportunity to speak at the public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to speak have been heard. Persons in the audience who have not been scheduled to speak, and who wish to do so, will be heard following those who have been scheduled. The hearing will end after all persons scheduled to speak and persons present in the audience who wish to speak have been heard.

Public Meeting

If only one person requests an opportunity to speak at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT.** All such meetings will be open to the public and, if possible, notices of meetings will be posted at the location listed under **ADDRESSES.** A written summary of each meeting will be made a part of the Administrative Record.

IV. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12988

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Unfunded Mandates

OSM has determined and certifies pursuant to the Unfunded Mandates Reform Act (2 U.S.C. 1502 *et seq.*) that this rule will not impose a cost of $100 million or more in any given year on local, state, or tribal governments or private entities.

List of Subjects in 30 CFR Part 914

Intergovernmental relations, Surface mining, Underground mining.

Dated: May 22, 1998.

Brent Wahlquist,

Regional Director, Mid-Continent Regional Coordinating Center.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

RIN 1018–AE83

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Notice of Public Hearings and Reopening of Comment Period on Proposed Reclassification From Endangered to Threatened Status for the Mariana Fruit Bat From Guam, and Proposed Threatened Status for the Mariana Fruit Bat From the Commonwealth of the Northern Mariana Islands

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; notice of public hearing and reopening of comment period.

SUMMARY: The Fish and Wildlife Service (Service), pursuant to the Endangered Species Act of 1973, as amended (Act), provides notice of two public hearings on the proposed reclassification from endangered to threatened status for the Mariana fruit bat from Guam, and on proposed threatened status for the Mariana fruit bat from the Commonwealth of the Northern Mariana Islands. In addition, the Service has reopened the comment period. All parties are invited to submit comments on this proposal.

DATES: The comment period now closes on July 10, 1998. There will be two public hearings, one each on the islands of Saipan and Rota. The public hearing on Saipan will be held from 7:30 p.m. to 9:00 p.m. on Wednesday, June 24, 1998. The public hearing on Rota will be held from 7:30 p.m. to 9:00 p.m. on Thursday, June 25, 1998. Prior to each of the public hearings, the Service will be available from 5:00 to 6:30 p.m. to provide information and to answer questions.

ADDRESSES: On Saipan, the public hearing will be held at the Pacific Gardenia Hotel, Chalan Kanoa Beach Road. On Rota, the public hearing will be held at the Rota Resort and Country Club. Written comments and materials concerning this proposal may be submitted at the hearings or sent directly to Mr. Brooks Harper, Field

Supervisor, Ecological Services, Pacific Islands Ecoregion, U.S. Fish and Wildlife Service, 300 Ala Moana Blvd., Room 3–122 Box 50088, Honolulu, HI 96850. Comments and materials will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: David Worthington or Christa Russell at 808/541–3441 (see **ADDRESSES** section).

SUPPLEMENTARY INFORMATION:

Background

The Mariana fruit bat is a medium-sized fruit bat that is restricted to the Mariana archipelago, comprised of the Territory of Guam and the Commonwealth of the Northern Mariana Islands (CNMI), where it is known from all islands.

The movement of bats among the Mariana Islands is an aspect of their biology that is critical to conservation. The 1984 Federal listing (49 FR 33881) of fruit bats resident on Guam was based on the assumption that these bats formed a separate population segment distinct from the bats found in the CNMI. Recently, biologists in the Mariana Islands have gathered evidence indicating that movement of bats among the Mariana Islands links these colonies as a single population. Thus, the Service believes that the Mariana fruit bats in the CNMI and Guam represent one population, but recognizes that the bats on Guam are not recovering and that survival of bats on Guam continues to be threatened by a variety of factors. However, when viewed in the context of representing a portion of the entire Mariana fruit bat population in the Mariana Islands, rather than as a distinct population as previously thought, reclassification from endangered to threatened is appropriate and biologically justified. Therefore, proposing to list the entire population of *Pteropus mariannus mariannus* as threatened throughout its range, including bats in both the CNMI and Guam, retains an appropriate level of protection for this bat on Guam while increasing overall protection to the Mariana fruit bat throughout the Mariana Islands.

The fruit bats of Guam and the CNMI are threatened by degradation or loss of habitat through the development of forested areas, illegal hunting, the possible introduction of alien species such as the brown tree snake (*Boiga irregularis*) to the CNMI, and the potential impacts of typhoons that can disrupt small populations. Most of the known Mariana fruit bat roost sites in the Mariana Islands are on public land.

On August 27, 1984, the Service listed the Guam population of Mariana fruit bats as endangered (49 FR 33881). Fruit bats found on Aguijan, Tinian, and Saipan are currently identified as candidates for listing (62 FR 49401). On March 26, 1998, the Service published a rule proposing reclassification from endangered to threatened status for the Mariana fruit bat from Guam, and proposing threatened status for the Mariana fruit bat from the Commonwealth of the Northern Mariana Islands (63 FR 14641–14650).

Section 4(b)(5)(E) of the Act (16 U.S.C. 1531 *et seq.*) requires that a public hearing be held if it is requested within 45 days of the publication of the proposed rule. Public hearing requests by the CNMI Governor, the CNMI Department of Lands and Natural Resources, the CNMI Division of Fish and Wildlife, and CNMI Representatives Heinz S. Hofschneider and Diego T. Benavente, were received within the allotted time period. The Service has scheduled public hearings for Saipan and Rota. The public hearing on Saipan is on Wednesday, June 24, 1998, at the Pacific Gardenia Hotel from 7:30 p.m. to 9:00 p.m. On Rota, the hearing will be on Thursday, June 25, 1998, at the Rota Resort and Country Club from 7:30 p.m. to 9:00 p.m. Public hearings are an opportunity for the public to provide oral comments for the official record, which does not allow for questions and responses to questions; therefore, prior to each public hearing, the Service will be available to provide information and answer questions from 5:00 p.m. until 6:30 p.m.

Oral and written comments will be accepted and treated equally. Parties wishing to make statements for the record should bring a copy of their statements to the hearings. Oral statements may be limited in length, if the number of parties present at the hearings necessitates such a limitation. There are no limits to the length of written comments or materials presented at the hearings or mailed to the Service. Written comments carry the same weight as oral comments. Legal notices announcing the date, time, and location of the hearings are being published in newspapers concurrently with this **Federal Register** notice.

The comment period on the proposal was initially closed on May 26, 1998. To accommodate the hearings, the public comment period is reopened upon publication of this notice. Written comments may now be submitted until July 10, 1998, to the Service office in the **ADDRESSES** section.

Author

The primary author of this notice is David Worthington (see **ADDRESSES** section).

Authority

The authority for this action is the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 98–009–2]

Pioneer Hi-Bred International, Inc.; Availability of Determination of Nonregulated Status for Corn Genetically Engineered for Male Sterility and Glufosinate Herbicide Tolerance

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our determination that the Pioneer Hi-Bred International, Inc., corn lines designated as 676, 678, and 680, which have been genetically engineered for male sterility and tolerance to the herbicide glufosinate as a marker, are no longer considered regulated articles under our regulations governing the introduction of certain genetically engineered organisms. Our determination is based on our evaluation of data submitted by Pioneer Hi-Bred International, Inc., in its petition for a determination of nonregulated status and an analysis of other scientific data. This notice also announces the availability of our written determination document and its associated environmental assessment and finding of no significant impact.

EFFECTIVE DATE: May 14, 1998.

ADDRESSES: The determination, an environmental assessment and finding of no significant impact, and the petition may be inspected at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect those documents are asked to call in advance of visiting at (202) 690–2817 to facilitate entry into the reading room.

FOR FURTHER INFORMATION CONTACT: Dr. Subhash Gupta, Biotechnology and Biological Analysis, PPQ, APHIS, 4700 River Road Unit 147, Riverdale, MD 20737–1236; (301) 734–8761. To obtain a copy of the determination or the environmental assessment and finding of no significant impact, contact Ms. Kay Peterson at (301) 734–4885; e-mail: mkpeterson@aphis.usda.gov.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 1997, the Animal and Plant Health Inspection Service (APHIS) received a petition (APHIS Petition No. 97–342–01p) from Pioneer Hi-Bred International, Inc. (Pioneer), of Johnston, IA, seeking a determination that corn lines designated as 676, 678, and 680, which have been genetically engineered for male sterility and tolerance to the herbicide glufosinate as a marker, do not present a plant pest risk and, therefore, are not regulated articles under APHIS regulations in 7 CFR part 340.

On February 18, 1998, APHIS published a notice in the **Federal Register** (63 FR 8161–8162, Docket No. 98–009–1) announcing that the Pioneer petition had been received and was available for public review. The notice also discussed the role of APHIS, the Environmental Protection Agency, and the Food and Drug Administration in regulating corn lines 676, 678, and 680 and food products derived from them. In the notice, APHIS solicited written comments from the public as to whether these corn lines posed a plant pest risk. The comments were to have been received by APHIS on or before April 20, 1998. APHIS received no comments on the subject petition during the designated 60-day comment period.

Analysis

Corn lines 676, 678, and 680 have been genetically engineered to contain a *dam* gene derived from *Escherichia coli*. The *dam* gene expresses a DNA adenine methylase enzyme in specific plant tissue, which results in the inability of the transformed plants to produce anthers or pollen. The subject corn lines also contain the *pat* selectable marker gene isolated from the bacterium *Streptomyces viridochromogenes*. The *pat* gene encodes a phosphinothricin acetyltransferase (PAT) enzyme, which, when introduced into a plant cell, inactivates glufosinate. Linkage of the *dam* gene, which induces male sterility, with the *pat* gene, a glufosinate tolerance gene used as a marker, enables identification of the male sterile line for the production of hybrid seed. The subject corn lines were transformed by the particle gun process, and expression of the introduced genes is controlled in part by gene sequences derived from the plant pathogen cauliflower mosaic virus.

Corn lines 676, 678, and 680 have been considered regulated articles under APHIS regulations in 7 CFR part 340 because they contain regulatory gene sequences derived from a plant pathogen. However, evaluation of field data reports from field tests of the subject corn lines conducted under APHIS notifications since 1995 indicates that there were no deleterious effects on plants, nontarget organisms, or the environment as a result of the environmental release of these corn lines.

Determination

Based on its analysis of the data submitted by Pioneer and a review of other scientific data and field tests of the subject corn lines, APHIS has determined that corn lines 676, 678, and 680: (1) Exhibit no plant pathogenic properties; (2) are no more likely to become a weed than corn lines developed by traditional breeding techniques; (3) are unlikely to increase the weediness potential for any other cultivated or wild species with which they can interbreed; (4) will not cause damage to raw or processed agricultural commodities; and (5) will not harm threatened or endangered species or other organisms, such as bees, that are beneficial to agriculture. Therefore, APHIS has concluded that corn lines 676, 678, and 680 and any progeny derived from hybrid crosses with other corn varieties will not exhibit new plant pest properties, i.e., properties substantially different from any observed for the subject corn lines already field tested, or those observed for corn in traditional breeding programs.

The effect of this determination is that Pioneer's corn lines designated as 676, 678, and 680 are no longer considered regulated articles under APHIS'

regulations in 7 CFR part 340. Therefore, the requirements pertaining to regulated articles under those regulations no longer apply to the field testing, importation, or interstate movement of Pioneer's corn lines 676, 678, or 680 or their progeny. However, the importation of the subject corn lines or seeds capable of propagation are still subject to the restrictions found in APHIS' foreign quarantine notices in 7 CFR part 319.

National Environmental Policy Act

An environmental assessment (EA) has been prepared to examine the potential environmental impacts associated with this determination. The EA was prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). Based on that EA, APHIS has reached a finding of no significant impact (FONSI) with regard to its determination that Pioneer's corn lines 676, 678, and 680 and lines developed from them are no longer regulated articles under its regulations in 7 CFR part 340. Copies of the EA and the FONSI are available upon request from the individual listed under **FOR FURTHER INFORMATION CONTACT.**

Done in Washington, DC, this 22nd day of May 1998.

Charles P. Schwalbe,

Acting Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF COMMERCE

Office of the Inspector General

Application for Funding Assistance

ACTION: Proposed collection; comment request.

SUMMARY: The Department of Commerce (DOC), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 28, 1998.

ADDRESSES: Direct all written comments to Linda Engelmeier, Departmental Forms Clearance Officer, Department of Commerce, Room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Barbara A. Bynum, Department of Commerce, Office of Inspector General, 14th and Constitution Avenue, NW, Room 7089, Washington, DC 20230. She may be reached at (202) 482–5348.

SUPPLEMENTARY INFORMATION:

I. Abstract

DOC, through the Economic Development Administration (EDA), the Minority Business Development Agency (MBDA), the International Trade Administration (ITA), the National Oceanic and Atmospheric Administration (NOAA), the National Telecommunications and Information Agency (NTIA), and the National Institute of Standards and Technology (NTIS), and other programs, assists reliable, capable individuals and firms in the pursuit of various business development, business enterprise development and other forms of economic development. The CD–346 form is used to establish the good character of principal officers and employees of organizations, firms, or recipients or beneficiaries of grants, loans, or loan guarantee programs, through the organizations cited above. This requirement is derived from 42 USC 3211(12); 44 USC 3101; and 15 USC 1519, as well as the responsibilities cited in the Inspector General Act of 1978, Sec. 4(a)(3) and Departmental Orders (DAO) 207–10 and 203–26.

II. Method of Collection

The information is collected in written form.

III. Data

OMB Number: 0605–0001.
Form Number: None.
Type of Review: Regular Submission.
Affected Public: Individual, businesses or other for-profit organizations, not-for-profit institutions.
Estimated Number of Respondents: 2,000.
Estimated Time Per Response: 15 minutes.
Estimated Total Annual Burden Hours: 500.
Estimated Total Annual Cost to Public: $0 (no capital expenditures required).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 22, 1998.

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocations in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of initiation of antidumping and countervailing duty administrative reviews and requests for revocations in part.

SUMMARY: The Department of Commerce has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with April anniversary dates. In accordance with the Department's regulations, we are initiating those administrative reviews. The Department of Commerce also received a request to revoke one antidumping duty order in part.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Holly A. Kuga, Office of AD/CVD Enforcement, Import Administration, International Trade Administration,

U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482–4737.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests in accordance with 19 CFR 351.213(b)(1997), for administrative reviews of various antidumping and countervailing duty orders and findings with April anniversary dates. The Department also received timely requests to revoke in part the antidumping duty order on Roller Chain, Other Than Bicycle from Japan:

Initiation of Reviews

In accordance with section 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings. We intend to issue the final results of these reviews not later than April 30, 1999.

Antidumping duty proceedings	Period to be reviewed
GREECE: Electrolytic Manganese Dioxide:

During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under section 315.211 or a determination under section 351.218(d) (sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

For transition orders defined in section 751(c)(6) of the Act, the Secretary will apply paragraph (j)(1) of this section to any administrative review initiated in 1996 or 1998 (19 CFR 351.213(j)(1–2)).

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 353.34(b) and 355.34(b).

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1675(a)), and 29 CFR 351.221(c)(1)(i).

Dated: May 22, 1998.

Maria Harris Tildon,

Acting Deputy Assistant Secretary Import Administration.

Certain Steel Concrete Reinforcing Bars from Turkey: Initiation of New Shipper Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce has received a request to conduct a new shipper administrative review of the antidumping duty order on certain steel concrete reinforcing bars from Turkey. In accordance with 19 CFR 351.214(d), we are initiating this administrative review.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Shawn Thompson or Irina Itkin, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482–1776 or 482–0656, respectively.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce (the Department) regulations are to the provisions codified at 19 CFR Part 351 (62 FR 27295, May 19, 1997).

SUPPLEMENTARY INFORMATION:

Background

The Department has received a timely request from Istanbul Celik ve Demir Izabe Sanayii A.S. (ICDAS), in accordance with 19 CFR 351.214(d), for a new shipper review of the antidumping duty order on certain steel concrete reinforcing bars (rebar) from Turkey, which has an April anniversary date. ICDAS (the respondent) has certified that it did not export rebar to the United States during the period of investigation (POI) and that it is not affiliated with any exporter or producer which did export rebar during the POI.

In accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(b), and based on information on the record, we are initiating the new shipper review as requested.

Initiation of Review

In accordance with section 751(a)(2)(B)(ii) of the Act and 19 CFR 351.214(d)(1), we are initiating a new shipper review of the antidumping duty order on rebar from Turkey. On May 18, 1998, ICDAS agreed to waive the time limits of 19 CFR 351.214(i), in order that the Department, pursuant to 19 CFR 351.214(j)(3), may conduct this review concurrent with the first annual administrative review of this order for the period 10/10/96–03/31/98, as requested pursuant to section 751(a) of the Act. See Antidumping Duties; Countervailing Duties; Final rule (62 FR 27295, 27396, May 19, 1997). Therefore, we intend to issue the preliminary results of this review not later than 245 days after the last day of the anniversary month. In accordance with our practice, all other provisions of section 351.214 will apply to ICDAS throughout the duration of this new shipper review.

Antidumping duty proceeding	Period to be reviewed
Turkey: Certain Steel Concrete Reinforcing Bars, A–489–807 Istanbul Celik ve Demir Izabe Sanayaii A.S.	10/10/96–03/31/98

We will instruct the U.S. Customs Service to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the merchandise exported by the above-listed company. This action is in accordance with 19 CFR 351.214(e) and (j)(3).

Interested parties that need access to the proprietary information in this new shipper review should submit applications for disclosure under administrative protective orders in accordance with 19 CFR 353.34(b).

This initiation and this notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214(d).

Dated: May 22, 1998.

Maria Harris Tildon,

Acting Deputy Assistant Secretary, Import Administration,

Transition Orders; Final Schedule and Grouping of Five-Year Reviews

Editorial Note: Notice document FR Doc 98–12887 was originally published at page 26779 in the issue of Thursday, May 14, 1998. Due to typesetting errors, the document is being republished in its entirety.

AGENCY: Import Administration, International Trade Administration, Department of Commerce

ACTION: Notice of final schedule and grouping of five-year reviews of transition orders.

SUMMARY: The Department of Commerce ("the Department") hereby publishes its final schedule for the conduct of the initial five-year reviews of transition orders and the International Trade Commission's ("the Commission") final grouping of reviews.

FOR FURTHER INFORMATION CONTACT: Melissa G. Skinner, Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, at (202) 482–1560, or Vera Libeau, Office of Investigations, U.S. International Trade Commission, at (202) 205–3176.

SUPPLEMENTARY INFORMATION:

Background

On October 9, 1997, the Department published its proposed schedule for the conduct of the initial five-year reviews of transition orders and the Commission's proposal for grouping reviews (Transition Orders; Schedule and Grouping of Five-year Reviews, 62 FR 52686), as amended on November 17, 1997 (Transition Orders; Schedule and Grouping of Five-year Reviews, 62 FR 61294). We invited comments from interested parties on the proposed schedule and grouping of reviews. On December 8, 1997, the Department and the Commission received comments. On January 6, 1998, the Department and the Commission received rebuttal comments.

Comments on Schedule

We received comments from 22 parties, 11 of which addressed the proposed schedule. Five commenters requested that the proposed schedule be amended. After consideration of these comments, and following consultations with the Commission, the Department has decided to continue to apply the methodology described in the notice of proposed schedule and leave the schedule intact, with the exceptions caused by changes to specific groupings and revocations that have taken place since the publication of the proposed schedule. In addition, because of the embargo on imports from Iran, the Department has not scheduled the sunset review of the antidumping duty order on pistachios from Iran at this time.

Counsel for petitioners with respect to the antidumping duty order on stainless steel plate from Sweden requested that initiation of the sunset review of that order be rescheduled at a later time. Counsel suggests that an affirmative duty absorption determination is possible in the administrative review that the Department may initiate in July 1998. Counsel stated that the 1998 review offers the first opportunity to examine the issue of duty absorption because there was a zero margin on imports from respondent Avesta Sheffield AB ("Avesta") at the time of the administrative review initiated in 1996 and, thus, there was no duty absorption to be found. Counsel for Avesta objected to any delay stating that an affirmative duty absorption determination is highly speculative and the Commission is not required to consider a duty absorption determination unless one exists.

The Department is not delaying the sunset review of stainless steel plate from Sweden. If we were to adopt the position of petitioners, we would need to delay the initiation of the sunset review of any order for which there is a theoretical potential for an affirmative duty absorption determination in the fourth review. Such a step would not be practical in light of the deadlines imposed by the statute and the need to begin sunset reviews of transition order in July 1998. In addition, we note that a duty absorption finding was possible in the second review (because dumping margins were found); however, petitioners did not request that the Department examine this issue.

Counsel for Roquette Frères requested that the initiation of the sunset review of the order on sorbitol from France be accelerated from October 1998 to July 1998. Among the reasons cited in support, counsel noted that: imports should have ceased altogether; there is no likelihood of resumption of imports; no interested party is expected to request that the order remain in effect; given Roquette Frères' investment in U.S. production facilities, no comment suggesting continuation of the order is expected from interested parties other than competing producers; and given the order is not grouped with any others, it is administratively convenient and will contribute to an expeditious sunsetting of the order. The Department is not accelerating the schedule for review of the order on sorbitol from France. Consideration of case specific facts such as the level of imports, their likelihood of resumption, and the willingness of domestic producers to participate in a sunset review is more appropriately done in the course of the sunset review itself. It is inappropriate for us to consider many of these substantive issues which may be relevant to the sunset determination itself in the context of scheduling the sunset reviews. The Department, instead, has elected to stay with its objective criteria described in its October 9, 1997 notice.

Counsel for domestic producers of circular welded non-alloy steel pipe, light-walled rectangular pipe and tube, and oil country tubular goods requested that these products be considered as three separate groupings and that a staggered schedule of March, May, and July be established for initiation of sunset reviews on these three groups because simultaneous initiation would impose a burden on counsel and the domestic producers it represents. Similarly, counsel for interested parties in cases covering industrial belts, V belts, drafting machines, small business telephone systems, and mechanical transfer presses requested separation of initiations of sunset reviews on these orders by at least a few months in order to allow adequate representation of clients in each of these cases that the proposed schedule would make almost impossible. While we are sympathetic to the administrative burden imposed on counsel, we do not consider that this schedule denies adequate representation to any parties desiring to participate in sunset reviews. Additionally, we do not find these reasons sufficient to depart from the methodology used to develop the proposed schedule. Therefore, we have not adopted these suggested changes to the schedule.

Counsel for Norsk Hydro Canada Inc., a producer and exporter from Canada of pure magnesium and alloy magnesium objected to the proposed schedule for initiation of reviews on the antidumping order on pure magnesium and the countervailing duty orders on pure and alloy magnesium. Counsel stated that the proposed schedule results in the Department, prior to initiating sunset reviews on the magnesium orders, initiating sunset reviews of fifteen orders issued subsequent to the issuance of the magnesium orders. In support of its request, counsel stated that: the SAA requires that, to the maximum extent practical, older orders be reviewed first; the Department provided no reason for reviewing the newer orders out of chronological sequence; the Department did not identify any special problem that would justify the out-of-sequence review; the proposed groupings by the Commission, which group orders covering products that are not identical, do not support the out-of-sequence review for the majority of the fifteen orders; given that subsequent reviews are to follow the same time frame as initial reviews, companies following non-sequential reviews are penalized forever; and the proposed schedule for review of the fifteen orders favors trade with other countries over trade with

Canada. For these reasons, counsel requested that the Department and Commission reconsider the proposed schedule and groupings.

We continue to believe that the methodology used to develop the proposed schedule results in the creation of a schedule that permits the Department and the Commission to conduct sunset reviews of over 300 transition orders consistent with the provisions of the statute and, at the same time, provides the most rational and equitable schedule for interested parties. As explained in the Methodology section of the notice of proposed schedule and groupings (62 FR at 52686), the groups were created by combining orders involving the same domestic product or related like products. The schedule placed the groups in chronological sequence based on the average date of the group. Each of the fifteen orders cited by counsel was grouped with older orders such that the average date of the group pre-dated the orders on pure and alloy magnesium. This is the type of "special problem" that may arise where reviews of transition orders are grouped and which has been addressed through the use of the average date of the orders in the group. We continue to believe that the proposed groupings are appropriate and have not revised the schedule.

Comments on Grouping

Commenters objected to five specific groupings proposed in the notice.[1] The Commission has decided to modify one of these groups and leave the remaining three intact.

The Ad Hoc Committee of Domestic Nitrogen Producers and Mississippi Potash Corp. objected to the proposed grouping of 17 antidumping orders concerning solid urea with a suspension agreement concerning an antidumping investigation relating to potassium chloride (potash) from Canada. The Commission has concluded that consolidating reviews of urea and potash would not enhance administrative efficiency because urea and potash are chemically distinct, do not serve as practical or functional substitutes, and the only two U.S. producers that produce both urea and potash do so through distinct production facilities and entities. Accordingly, the Commission has not included the suspension agreement concerning potash from Canada within the group of urea orders.

The Cookware Manufacturers Association and counsel for three U.S. cookware manufacturers, objected to the proposed grouping of four antidumping and countervailing duty orders concerning porcelain-on-steel cookware, on the one hand, with four antidumping and countervailing duty orders on top-of-the-stove stainless steel cookware, on the other. Although these commenters are correct in asserting that the Commission has not previously determined that porcelain-on-steel and stainless steel cookware are within the same domestic like product, the legislative history of the Uruguay Round Agreements Act does not limit the Commission's ability to group reviews to those reviews involving identical like products. Instead, the legislative history indicates that the Commission may group reviews involving related products when such consolidation will promote administrative efficiency in conducting the review. Although the Commission is not defining domestic like products at this time, it has concluded that porcelain-on-steel and stainless steel cookware are sufficiently similar that consolidating reviews of all orders concerning these products into a single group will promote administrative efficiency.

Counsel for eight U.S. producers of circular welded non-alloy steel pipe, six U.S. producers of light-walled rectangular pipe and tube, and four U.S. producers of oil country tubular goods, objected to the grouping of 18 antidumping and countervailing duty orders involving various types of carbon steel pipe and tube products. The Commission has concluded that there is sufficient similarity among the products and overlap among the producers that a grouped review of these orders would promote administrative efficiency. The Commission has consequently decided not to modify this group.

The Japan Bearing Industrial Association objected to the proposed "bearings" group encompassing 22 antidumping and countervailing duty orders. It requested that the Commission group orders involving tapered roller bearings separately from orders involving other antifriction bearings. By contrast, Timken Co. and Torrington Co., respectively the petitioners in the original tapered roller bearings and antifriction bearings investigations, stated in comments that they did not object to the proposed "bearings" grouping. Because of the overall similarity of the products and the existence of some overlap among producers, the Commission has concluded that including all bearings in a single group will promote administrative efficiency. Accordingly, it has not modified the "bearings" group.

Final Schedule and Grouping

After considering the comments received, the Department and the Commission have developed, in consultation, the final schedule and grouping provided in the Appendix to this notice.

Dated: May 8, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

FINAL SCHEDULE AND GROUPING

Initiation month/year	Group average date month/year	Effective date (mm.dd.yy)	DOC Case No.	ITC Case No.	Country	Product
July 98	9. 66	09. 13. 66	A–122–006	AA–49	Canada	Steel Jacks.
	6. 72	06. 9. 72	A–588–029	AA–85	Japan	Fish Netting of Manmade Fiber.

BILLING CODE 1505–01–F

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Modernization Transition Committee (MTC)

ACTION: Notice of Public Meeting.

TIME AND DATE: June 17 and 18, 1998 beginning at 8:00 a.m.

PLACE: This meeting will take place at the Victoria Holiday Inn, 2705 E. Houston Highway, Victoria, Texas.

STATUS: The meeting will be open to the public. The time between 8:30 a.m. and noon on Wednesday, June 17 will be set aside for public comments on he proposed certifications of the Victoria Weather Service Office. The time from 9:45 a.m. to 10:15 a.m. on Thursday, June 18 will be set aside for public comments on the proposed certifications for Astoria, Chattanooga, Honolulu, Huntington, and Syracuse. Approximately 200 seats will be available on a first-come first-served basis each day.

MATTERS TO BE CONSIDERED: This meeting will include MTC consultation on the proposed Consolidation, Automation and Closure Certifications for Victoria, Texas, Chattanooga, Tennessee, and Syracuse, New York; MTC consultation on the proposed Automation and Closure certifications for Astoria, Oregon, Honolulu, Hawaii, and Huntington, West Virginia; and a report on the NWS Modernization status.

CONTACT PERSON FOR MORE INFORMATION: Mr. Nicholas Scheller, National Weather Service, Modernization Staff, 1325 East-West Highway, SSMC2, Silver Spring, Maryland 20910. Telephone: (301) 713–0454.

Dated: May 22, 1998.

Nicholas R. Scheller,

Manager, National Implementation Staff.

BILLING CODE 3510–12–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 052298A]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of applications for scientific research permits (1142, 1152, 1154) and for modifications to scientific research permits (900, 946, 964, 994, 996); Issuance of scientific research permits (1050, 1060, 1071, 1074, 1091, 1097, 1105), modifications to scientific research permits (900, 1030, 1035, 1036, 1079, 1104) and an amendment to a scientific research permit (844).

SUMMARY: Notice is hereby given of the following actions regarding permits for takes of endangered and threatened species for the purposes of scientific research and/or enhancement: NMFS has received permit applications from: Fish Ecology Division of the Northwest Fisheries Science Center, NMFS at

Seattle, WA (NWFSC) (1142), the Oregon Department of Fish and Wildlife at La Grande, OR (ODFW) (1152) and NWFSC (1154); NMFS has received applications for modifications to existing permits from: NWFSC (900, 946, 964), the Idaho Cooperative Fish and Wildlife Research Unit at Moscow, ID (ICFWRU) (994), and the U.S. Army Corps of Engineers at Walla Walla, WA (Corps) (996); NMFS has issued permits subject to certain conditions set forth therein, to: ENTRIX, Inc. (1050), Simpson Timber Company (STC) (1060), U.S.D.A., Forest Service (USFS) (1071), Pacific Lumber Company (PLC) (1074), Santa Ynez River Technical Advisory Committee (SYRTAC) (1091), Resource Management International (RMI) (1097), and Hagar Environmental Science (HES) (1105); NMFS has issued modifications to scientific research permits to: NWFSC (900), Sarah V. Mitchell, of Gray's Reef National Marine Sanctuary (1030), the U.S. Geological Survey at Cook, WA (USGS) (1035, 1036), Pacific Coast Federation of Fishermen's Associations (PCFFA) (1075), Georgia-Pacific West Inc. (GPWI) (1079), and Louisiana-Pacific Corporation (LPC) (1104); and NMFS has issued an amendment to a scientific research permit to the Idaho Department of Fish and Game at Boise, ID (IDFG) (844).

DATES: Written comments or requests for a public hearing on any of the applications must be received on or before June 28, 1998.

ADDRESSES: The applications and related documents are available for review in the following offices, by appointment:

For permits 844, 900, 946, 964, 994, 996, 1035, 1036, 1142, and 1152: Protected Resources Division (PRD), F/NWO3, 525 NE Oregon Street, Suite 500, Portland, OR 97232–4169 (503–230–5400).

For permits 1050, 1060, 1071, 1074, 1079, 1091, 1097, 1104, 1105, and 1154: Protected Species Division, NMFS, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404–6528 (707–575–6066).

For permit 1030: Director, Southeast Region, NMFS, NOAA, 9721 Executive Center Drive, St. Petersburg, FL 33702–2432 (813–893–3141).

All documents may also be reviewed by appointment in the Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910–3226 (301–713–1401).

FOR FURTHER INFORMATION CONTACT: For permits 844, 900, 946, 964, 994, 996, 1035, 1036, 1124, 1127, 1142, and 1152: Robert Koch, Portland, OR (503–230–5424).

For permits 1050, 1060, 1071, 1074, 1079, 1091, 1097, 1104, 1105, and 1154: Thomas Hablett, Protected Resources Division, (707–575–6066).

For permit 1030: Michelle Rogers, Endangered Species Division, Silver Spring, MD (301–713–1401).

SUPPLEMENTARY INFORMATION:

Authority

Permits are requested under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531–1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217–227).

Those individuals requesting a hearing on these requests for permits should set out the specific reasons why a hearing would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the below application summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Issuance of these permits, modifications, and amendments, as required by the ESA, was based on a finding that such permits, modifications, and amendments: (1) Were applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. These permits, modifications, and amendments were also issued in accordance with and are subject to parts 217-222 of Title 50 CFR, the NMFS regulations governing listed species permits.

Species Covered in This Notice

The following species are covered in this notice: chinook salmon (*Oncorhynchus tshawytscha*), coho salmon (*Oncorhynchus kisutch*), Loggerhead sea turtle (*Caretta caretta*), sockeye salmon (*Oncorhynchus nerka*), and steelhead trout (*Oncorhynchus mykiss*).

To date, protective regulations for threatened Snake River steelhead and threatened lower Columbia River steelhead under section 4(d) of the ESA have not been promulgated by NMFS. This notice of receipt of applications requesting takes of these species is issued as a precaution in the event that NMFS issues protective regulations that prohibit takes of Snake River steelhead and lower Columbia River steelhead. The initiation of a 30-day public comment period on the applications, including their proposed takes of Snake River steelhead and lower Columbia River (LCR) steelhead, does not presuppose the contents of the eventual protective regulations.

New Applications Received

NWFSC (1142) requests a one-year permit that would authorize takes of juvenile, endangered, Snake River sockeye salmon; juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon; adult and juvenile, endangered, naturally produced and artificially propagated, upper Columbia River (UCR) steelhead; and adult and juvenile, threatened, Snake River steelhead associated with a study designed to evaluate the effects of the new juvenile bypass/sampling facility at John Day Dam (located on the lower Columbia River) on migrating salmonids. The information will be used to identify and correct any problem areas associated with the bypass system with the ultimate goal of increasing juvenile salmonid survival at the dam. ESA-listed juvenile fish are proposed to be captured, handled, and released while obtaining non-listed fish for the study. A lethal take of ESA-listed juvenile fish is requested to determine how the facility affects fish physiology. In addition, ESA-listed adult steelhead fallbacks are proposed to be captured, marked with a visible external identifier, released above the dam, recaptured at or below the dam, examined, and released to evaluate the facility for adult salmonid passage. ESA-listed juvenile fish indirect mortalities associated with the scientific research activities are also requested.

ODFW (1152) requests a five-year permit that would authorize takes of adult and juvenile, threatened, naturally produced, Snake River spring/summer chinook salmon and adult and juvenile, threatened, Snake River steelhead associated with scientific research conducted in the Grande Ronde and Imnaha River Basins in the state of OR. ODFW proposes to conduct ten research tasks: (1) Spring chinook salmon spawning ground surveys, (2) spring chinook salmon early life history, (3) habitat and fish inventory surveys, (4) passage and irrigation screening, (5) steelhead kelt rejuvenation, (6) steelhead straying study, (7) anadromous versus resident life history strategy in steelhead, (8) monitoring of residual hatchery steelhead, (9) steelhead spawning ground surveys, and (10) Lookingglass Creek spring chinook salmon reintroduction study. ODFW proposes to observe/harass ESA-listed fish during surveys and redd counts and to employ seines, traps, and electrofishing to capture ESA-listed fish

to acquire biological information or to apply passive integrated transponders, jaw tags, opercular marks, or other marks for migration studies. A lethal take of ESA-listed adult steelhead is requested. ESA-listed fish indirect mortalities associated with the scientific research activities are also requested.

NWFSC (1154) requests a five-year permit for takes of juvenile, threatened, southern Oregon/northern California coast (SONCC) coho salmon associated with the National Wild Fish Health Survey in the Klamath River, within the California portion of the Evolutionarily Significant Unit (ESU). The study consists of the capture and intentional killing of ESA-listed juveniles for a tissues analysis of bacterial and parasitic pathogens in the species. Direct mortalities of 50 juvenile coho salmon annually are requested.

Modification Requests Received

NWFSC requests modification 6 to permit 900. Permit 900 authorizes NWFSC annual takes of juvenile, endangered, Snake River sockeye salmon; juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon; juvenile, threatened, Snake River fall chinook salmon ; and juvenile, endangered, naturally produced and artificially propagated, UCR steelhead associated with three studies designed to determine the relative survival of migrating juvenile salmonids at hydropower dams and reservoirs on the Snake and Columbia Rivers in the Pacific Northwest. For modification 6, NWFSC requests an increase in the takes of ESA-listed juvenile fish associated with The Dalles Dam survival study. Actual field conditions to date in 1998 indicate that NWFSC underestimated the amount of ESA-listed fish takes needed to validate the study. ESA-listed juvenile fish are proposed to be captured at Bonneville Dam on the Columbia River, handled, and released while collecting non-listed fish for the study or captured at Bonneville Dam, tagged with passive integrated transponders (PIT), transported to The Dalles Dam, and released above the dam. ESA-listed juvenile fish that are PIT-tagged are subsequently proposed to be automatically detected in the juvenile fish bypass systems of Bonneville Dam without further handling. An associated increase in ESA-listed juvenile fish indirect mortalities are requested. Modification 6 is requested to be valid for the duration of the permit. Permit 900 expires on December 31, 1999.

NWFSC requests modification 5 to permit 946. Permit 946 authorizes NWFSC annual takes of juvenile, endangered, Snake River sockeye salmon; adult and juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon; juvenile, threatened, Snake River fall chinook salmon; and juvenile, endangered, naturally produced and artificially propagated, UCR steelhead associated with two scientific research studies. The studies are designed to assess the migration timing and relative survival of chinook salmon smolts transported by barge to below Bonneville Dam with the survival to adulthood of smolts migrating volitionally inriver to Bonneville Dam and to the mouth of the Columbia River. For modification 5, NWFSC requests an increase in the takes of ESA-listed juvenile fish associated with both studies. Actual field conditions to date in 1998 indicate that NWFSC underestimated the amount of ESA-listed fish takes needed to complete the studies. An associated increase in ESA-listed juvenile fish indirect mortalities are requested. Modification 5 is requested to be valid for the duration of the permit. Permit 946 expires on December 31, 1999.

NWFSC requests modification 1 to permit 964. Permit 964 authorizes NWFSC annual takes of juvenile, endangered, Snake River sockeye salmon; juvenile, threatened, Snake River fall chinook salmon; and juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon associated with a study designed to compare the adult recoveries of run-of-the-river subyearling chinook salmon transported around the hydropower dams on the Columbia River versus those migrating inriver. For modification 1, NWFSC requests annual takes of juvenile, endangered, naturally produced and artificially propagated, UCR steelhead and juvenile, threatened, Snake River steelhead associated with the research. ESA-listed juvenile steelhead are proposed to be captured at McNary Dam on the Columbia River, handled, and released while collecting subyearling chinook salmon for the study. ESA-listed juvenile steelhead indirect mortalities are requested. Modification 1 is requested to be valid for the duration of the permit. Permit 964 expires on December 31, 1999.

ICFWRU requests modification 4 to scientific research permit 994. Permit 994 authorizes ICFWRU annual takes of adult, ESA-listed, Snake River salmon associated with a study designed to assess the passage success of migrating adult salmonids at the four dams and reservoirs in the lower Columbia River, evaluate adult fish responses to specific flow and spill conditions, and evaluate measures to improve adult fish passage. For modification 4, ICFWRU requests annual takes of adult, endangered, UCR steelhead; adult, threatened, Snake River steelhead; and adult, threatened, LCR steelhead associated with a new study designed to determine the effects of transporting steelhead smolts on the homing of returning adults. ESA-listed adult steelhead are proposed to be captured at Bonneville Dam on the Columbia River, fitted with radio transmitters and identifier tags, and released. Once returned to the river, ESA-listed adult fish will be tracked electronically to hatcheries and spawning grounds. Modification 4 is requested to be valid for the duration of the permit. Permit 994 expires on December 31, 2000.

The Corps requests modification 1 to scientific research permit 996. Permit 996 authorizes the Corps annual takes of juvenile, endangered, Snake River sockeye salmon; juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon; and juvenile, threatened, Snake River fall chinook salmon associated with a study designed to monitor the operation of the juvenile fish bypass system at Ice Harbor Dam on the Snake River in WA. For modification 1, the Corps requests authorization for a take of juvenile, threatened, Snake River steelhead associated with the research. ESA-listed juvenile steelhead are proposed to be captured, examined, and released. ESA-listed juvenile steelhead indirect mortalities associated with the research are requested. Modification 1 is requested to be valid for the duration of the permit. Permit 996 expires on December 31, 2000.

Permits, Modifications, and Amendment Issued

On April 30, 1998, NMFS issued an amendment of IDFG's incidental take permit 844. The amendment provides an extension of the duration of the permit through December 31, 1998. The permit was due to expire on April 30, 1998. Permit 844 authorizes IDFG an incidental take of adult and juvenile, threatened, Snake River spring/summer chinook salmon and adult, threatened, Snake River fall chinook salmon associated with the state of Idaho's sport-fishing program. An extension of permit 844 will allow IDFG to manage sport-fishing activities in Idaho in 1998 while NMFS processes IDFG's application for a new permit. NMFS determined that the current permit adequately addresses the incidental take

of ESA-listed species associated with recreational fisheries in the state.

Notice was published on March 24, 1998 (63 FR 14069) that an application had been filed by NWFSC for modification 5 to scientific research permit 900. Modification 5 to permit 900 was issued to NWFSC on May 8, 1998. Permit 900 authorizes NWFSC annual takes of juvenile, endangered, Snake River sockeye salmon; juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon; and juvenile, threatened, Snake River fall chinook salmon associated with three studies designed to determine the relative survival of migrating juvenile salmonids at hydropower dams and reservoirs on the Snake and Columbia Rivers in the Pacific Northwest. For modification 5, NWFSC is authorized an increase in the takes of ESA-listed juvenile fish associated with one of the studies. Also for modification 5, NWFSC is authorized an annual take of juvenile, endangered, naturally produced and artificially propagated, upper Columbia River steelhead associated with the research. Modification 5 is valid for the duration of the permit. Permit 900 expires on December 31, 1999.

On March 18, 1998, Sarah V. Mitchell of Gray's Reef National Marine Sanctuary, applied for a modification to permit 1030 to take listed loggerhead sea turtles for examination, tagging, observation, collection of morphometric measurements, and release. The purpose of the authorized research, as stated in the permit application, is to investigate population trends, migrations, habitat, and diving behavior of loggerhead turtles in the waters of the Gray's Reef National Marine Sanctuary. Ms. Mitchell requested a modification to permit 1030 to allow for the attachment of radio and sonic tags to turtles captured pursuant to her research permit. Notice is hereby given that on May 21, 1998, NMFS issued modification 2 to permit 1030 as requested.

Notice was published on March 6, 1998 (63 FR 11222) that an application had been filed by USGS for modification 1 to scientific research permit 1035. Modification 1 to permit 1035 was issued to USGS on May 8, 1998. Permit 1035 authorizes USGS an annual take of juvenile, threatened, artificially propagated, Snake River spring/summer chinook salmon associated with a study designed to monitor total dissolved gas symptoms on juvenile salmonids. For modification 1, USGS is authorized an annual take of juvenile, endangered, artificially propagated, UCR steelhead and an increase in the annual take of juvenile, ESA-listed, artificially propagated, Snake River spring/summer chinook salmon associated with the study. Modification 1 is valid for the duration of the permit. Permit 1035 expires on December 31, 1999.

Notice was published on March 6, 1998 (63 FR 11222) that an application had been filed by USGS for modification 1 to scientific research permit 1036. Modification 1 to permit 1036 was issued to USGS on May 8, 1998. Permit 1036 authorizes USGS an annual take of adult and juvenile, threatened, Snake River fall chinook salmon and juvenile, threatened, naturally produced and artificially propagated, Snake River spring/summer chinook salmon associated with a study designed to determine the post-release attributes and survival of hatchery and natural fall chinook salmon in the Snake River. For modification 1, USGS is authorized an increase in the takes of ESA-listed salmon juveniles and an annual take of juvenile, endangered, naturally produced and artificially propagated, UCR steelhead associated with the research. Modification 1 is valid for the duration of the permit. Permit 1036 expires on December 31, 2001.

Notice was published on September 24, 1997 (62 FR 49961) that an application had been filed by ENTRIX for a modification to a scientific research permit. Modification 1 to permit 1050 was issued to ENTRIX on March 12, 1998. Permit 1050 authorizes takes of of adult and juvenile, threatened, central California coast (CCC) coho salmon associated with fish population and habitat studies throughout the ESU. ESA-listed fish may be captured, handled, and released. Indirect mortalities are also authorized. The modification authorizes takes of adult and juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies throughout the California portion of the ESU. ESA-listed fish may be observed or captured, handled, and released. Indirect mortalities are also authorized. The modification authorizes takes of adult and juvenile, endangered, southern California steelhead associated with fish population and habitat studies throughout the ESU. ESA-listed fish may be captured, handled, and released. Indirect mortalities are also authorized. Modification 1 is valid for the duration of the permit. Permit 1050 expires on June 30, 2002.

Notice was published on December 17, 1997 (62 FR 66053) that an application had been filed by STC for a scientific research permit. Permit 1060 was issued to STC on March 23, 1998. Permit 1060 authorizes takes of adult and juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies within the California portion of the ESU. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1060 expires on June 30, 2003.

Notice was published on November 28, 1997 (62 FR 63317) that an application had been filed by USFS for a scientific research permit. Permit 1071 was issued to USFS on May 18, 1998. Permit 1071 authorizes takes of juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies within the California portion of the ESU. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1071 expires on June 30, 2003.

Notice was published on January 13, 1998 (63 FR 2364) that an application had been filed by PLC for a scientific research permit. Permit 1074 was issued to PLC on May 13, 1998. Permit 1074 authorizes takes of adult and juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies within the California portion of the ESU. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1074 expires on June 30, 2003.

Notice was published on January 13, 1998 (63 FR 2364) that an application had been filed by PCFFA for a scientific research permit. Permit 1075 was issued to PCFFA on May 19, 1998. Permit 1075 authorizes takes of adult and juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies within the California portion of the ESU. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1075 expires on June 30, 2003.

Notice was published on November 5, 1997 (62 FR 59848) that an application had been filed by GPWI for a modification to a scientific research permit. Modification 1 to permit 1079 was issued to GPWI on May 12, 1998. Permit 1079 authorizes takes of of juvenile, threatened, CCC coho salmon associated with fish population and habitat studies throughout the ESU. ESA-listed fish may be captured, handled, and released. Indirect mortalities are also authorized. The modification authorizes takes of juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies throughout the

California portion of the ESU. ESA-listed fish may be observed or captured, handled, and released. Indirect mortalities are also authorized. Modification 1 is valid for the duration of the permit. Permit 1079 expires on June 30, 2002.

Notice was published on November 17, 1997 (62 FR 61295) that an application had been filed by SYRTAC for a scientific research permit. Permit 1091 was issued to SYRTAC on March 23, 1998. Permit 1091 authorizes takes of adult and juvenile, endangered, southern California steelhead associated with fish population and habitat studies within the ESU. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1091 expires on June 30, 2003.

Notice was published on November 17, 1997 (62 FR 61295) that an application had been filed by RMI for a scientific research permit. Permit 1097 was issued to RMI on May 11, 1998. Permit 1097 authorizes takes of adult and juvenile, threatened, CCC coho salmon, adult and juvenile, threatened, SONCC (in California only) coho salmon, and adult and juvenile, endangered, southern California steelhead associated with fish population and habitat studies throughout the ESUs. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1097 expires on June 30, 2003.

Notice was published on November 17, 1997 (62 FR 61295) that an application had been filed by LPC for a modification to a scientific research permit. Modification 1 to permit 1104 was issued to LPC on May 11, 1998. Permit 1104 authorizes takes of of adult and juvenile, threatened, CCC coho salmon associated with fish population and habitat studies throughout the ESU. ESA-listed fish may be captured, handled, and released. Indirect mortalities are also authorized. The modification authorizes takes of adult and juvenile, threatened, SONCC coho salmon associated with fish population and habitat studies throughout the California portion of the ESU. ESA-listed fish may be observed or captured, handled, and released. Indirect mortalities are also authorized. Modification 1 is valid for the duration of the permit. Permit 1104 expires on June 30, 2002.

Notice was published on November 17, 1997 (62 FR 61295) that an application had been filed by HES for a scientific research permit. Permit 1105 was issued to HES on May 11, 1998. Permit 1105 authorizes takes of adult and juvenile, threatened, CCC coho salmon, adult and juvenile, threatened, SONCC (in California only) coho salmon, and adult and juvenile, endangered, southern California steelhead associated with fish population and habitat studies throughout the ESUs. ESA-listed fish will be captured, handled, and released. Indirect mortalities associated with the research are also authorized. Permit 1105 expires on June 30, 2003.

Dated: May 22, 1998.

Patricia A. Montanio,

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–F

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton, Wool and Man-Made Fiber Textile Products Produced or Manufactured in the Dominican Republic

May 22, 1998.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: June 1, 1998.

FOR FURTHER INFORMATION CONTACT: Roy Unger, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–5850. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limits for certain categories are being adjusted for swing.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 62 FR 66057, published on December 17, 1997). Also see 62 FR 67622, published on December 29, 1997.

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

May 22, 1998.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on December 19, 1997, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Dominican Republic and exported during the twelve-month period beginning on January 1, 1998 and extending through December 31, 1998.

Effective on June 1, 1998, you are directed to adjust the current limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit [1]
338/638	1,050,926 dozen.
339/639	1,040,418 dozen.
342/642	425,753 dozen.
347/348/647/648	2,308,228 dozen of which not more than 1,148,820 dozen shall be in Categories 647/648.
433	25,653 dozen.
443	151,706 numbers.
444	60,293 numbers.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1997.

The guaranteed access levels for the foregoing categories remain unchanged.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 98–14216 Filed 5–28–98; 8:45 am]

BILLING CODE 3510–DR–F

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Egypt

May 21, 1998.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Helen L. LeGrande, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–5850. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limit for Categories 338/339 is being increased for swing and carryforward. The Fabric Group limit and sublimit for Category 227 are being reduced to account for the swing being applied.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 62 FR 66057, published on December 17, 1997). Also see 62 FR 67829, published on December 30, 1997.

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

May 21, 1998.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on December 22, 1997, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Arab Republic of Egypt and exported during the period January 1, 1998 through December 31, 1998.

Effective on May 29, 1998, you are directed to adjust the limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted limit [1]
Fabric Group 218–220, 224–227, 313–O [2], 314–O [3], 315–O [4], 317–O [5], and 326–O [6], as a group.	107,042,017 square meters.
Sublevel within Fabric Group	
227	24,397,978 square meters.
Level not in a group	
338/339	3,043,663 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1997.

[2] Category 313–O: all HTS numbers except 5208.52.3035, 5208.52.4035 and 5209.51.6032.

[3] Category 314–O: all HTS numbers except 5209.51.6015.

[4] Category 315–O: all HTS numbers except 5208.52.4055.

[5] Category 317–O: all HTS numbers except 5208.59.2085.

[6] Category 326–O: all HTS numbers except 5208.59.2015, 5209.59.0015 and 5211.59.0015.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–F

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Amendment of Visa Requirements for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Guatemala

May 27, 1998,

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs amending visa requirements.

EFFECTIVE DATE: May 31, 1998.

FOR FURTHER INFORMATION CONTACT: Roy Unger, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

Effective on May 31, 1998, textile products in Categories 342/642, produced or manufactured in Guatemala and exported on or after May 31, 1998, will no longer require a visa. In addition, products in Categories 342/642 will no longer be subject to the Special Access Program.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 62 FR 66057, published on December 17, 1997). Also see 55 FR 3079, published on January 30, 1990.

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

May 27, 1998.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on January 24, 1990, as amended, by the Chairman, Committee for the Implementation of Textile Agreements. That directive directs you to prohibit entry of certain cotton and man-made fiber textile products, produced or manufactured in Guatemala which were not properly visaed by the Government of Guatemala.

Effective on May 31, 1998, you are directed to no longer require a visa for shipments of textile products in Categories 342/642 which are produced or manufactured in Guatemala and exported on or after May 31, 1998. In addition, products in Categories 342/642 will no longer be subject to the Special Access Program.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–F

DEPARTMENT OF DEFENSE

Office of the Secretary

Submission for OMB Review; Comment Request

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 247, Transportation, and the clauses at 252.247–7000, 252.247–7001, 252.247–7002, 252.247–7007, 252.247–7022, 252.247–7023, and 252.247–7024; OMB Number 0704–0245.

Type of Request: Revision.

Number of Respondents: 102,624.

Responses per Respondent: 2.9.

Annual Responses: 302,625.

Average Burden per Response: 0.5 hours.

Annual Burden Hours: 152,320.

Needs and Uses: This information collection is used by contracting officers in applying transportation and traffic management considerations in the acquisition of supplies, and in acquiring transportation or transportation-related services. This revision reflects a transfer of reporting requirements currently approved under OMB Control Number 0704–0187 that more appropriately belong under this clearance. The information collection includes requirements relating to DFARS Part 247, Transportation. DFARS 252.247.7000(a) requires contractors for stevedoring services to notify the contracting officer of unusual conditions associated with loading or unloading a particular cargo for potential adjustment of the contract labor rates. DFARS 252.247–7001 requires contractors for stevedoring services, under contracts awarded using sealed bidding procedures, to notify the contracting officer of certain changes in the wage rates or benefits that apply to its direct labor employees, for potential adjustment to the existing contract commodity, activity, or work-hour prices. DFARS 252.247–7002 permits contractors for stevedoring services, under contracts awarded using negotiation procedures, to deliver a written demand that the parties negotiate to revise the prices under the contract, DFARS 252.247–7007(f) requires contractors for stevedoring services to furnish the contracting officer with satisfactory evidence of insurance before performance of any work under the contract. DFARS 252.247–7022 requires the offeror to represent whether it anticipates that supplies will be transported by sea in the performance of any resulting contract or subcontract. DFARS 252.247–7023(c) requires the contractor to submit a written request to the contracting officer for use of other than U.S. flag vessels in the performance of the contract. DFARS 252.247–7023(d) requires the contractor to submit to the contracting officer, one copy of the rated on board vessel operating carrier's ocean bill of lading. DFARS 252.247–7023(e) requires the contractor to provide, with its final invoice, a representation that: (1) no ocean transportation was used in the performance of the contract; (2) only U.S. flag vessels were used for all ocean shipments under the contract; (3) the contractor had the written consent of the contracting officer for all non-U.S.-flag ocean transportation; or (4) shipments were made on non-U.S.-flag vessels without the written consent of the contracting officer. DFARS 252.247–7024(a) requires the contractor to notify the contracting officer when the contractor learns that supplies are to be transported by sea and the contractor indicated, in response to the solicitation, that it did not anticipate transporting any supplies by sea.

Affected Public: Business or Other For-Profit, Not-For-Profit Institutions.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Mr. Peter N. Weiss.

Written comments and recommendations on the proposed information collection should be sent to Mr. Weiss at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

DOD Clearance Officer: Mr. Robert Cushing.

Written requests for copies of the information collection proposal should be sent to Mr. Cushing, WHS/DIOR,

1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202–4302.

Dated: May 22, 1998.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000–04–M

DEPARTMENT OF DEFENSE

Office of the Secretary

Submission for OMB Review; Comment Request

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Subpart 237.70, Mortuary Services, and the associated clause at DFARS 252.237–7011; OMB Number 0704–0231.

Type of Request: Extension.

Number of Respondents: 800.

Responses Per Respondent: 1.

Annual Response: 800.

Average Burden Per Response: 30 minutes.

Annual Burden Hours: 400.

Needs and Uses: This requirement provides for the collection of necessary information from contractors regarding the results of the embalming process under contracts for mortuary services. The information is used to ensure proper preparation of the body for shipment and burial. The clause at DFARS 252.237–7011, Preparation History, requires that the contractor submit information describing the results of the embalming process on each body prepared for burial under a DoD contract.

Affected Public: Business or Other For-Profit.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Mr. Peter N.Weiss.

Written comments and recommendations on the proposed information collection should sent to Mr. Weiss at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

DOD Clearance Officer: Mr. Robert Cushing.

Written requests for copies of the information collection proposal should be sent to Mr. Cushing, WHS/DIOR, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202–4302.

Dated: May 22, 1998.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000–04–M

DEPARTMENT OF DEFENSE

Department of the Air Force

Proposed Collection; Comment Request

AGENCY: United States Air Force Academy (USAFA).

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the United States Air Force Academy, Office of the USAF Academy Admissions Liaison, Karen E. Parker, Chief of Admissions Liaison, Room 5E152, 1040 Air Force Pentagon, announces the proposed reinstatement of a public information collection and seeks public comment on provisions thereof. Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received July 28, 1998.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to: Karen E. Parker, Chief, Admissions Liaison, United States Air Force Academy Liaison Office, USAFA/RRA, Room 5E152, 1040 Air Force Pentagon, Washington, DC 20330–1040.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection of information, please write to above address.

Title, Associated form, and OMB Number: DD Form 1870, "Nomination for Appointment to the United States Military Academy, Naval Academy and Air Force Academy," OMB Number 0701–0026.

Needs and uses: The information collection requirement is necessary in order to receive nominations from all Members of Congress, Vice President, Delegates to Congress, and the Governor and Resident Commissioner of Puerto Rico annually to each of the three service academies as legal nominating authorities. This information collection which results in appointments made to the academies is in compliance with 10 USC 4362, 6953, 9342 and 32 CFR 901.

Affected Public: Individuals and households.

Annual Burden Hours: 7,713.

Number of Respondents: 15,425.

Responses per Respondent: 1.

Average Burden per Response: 5 hour.

Frequency: One time annually.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The DD Form 1870, Nomination for Appointment to the United States Military Academy, Naval Academy, and Air Force Academy, is used solely by legal nominating authorities who by federal law are entitled to make appointments to the three service academies. The form is used by all three service academies. The nomination form allows for legal nominating authorities to select by checking one box as to which academy is being provided with the name of a nominee. The form provides the required information in order for a nomination to be processed. Eligibility information concerning the nominees is also satisfied via the data requested. The legal nominating authority identifies himself and must date and sign the form to make it a legally acceptable form. The form provides three addresses for the form to be returned. Addresses are provided at the bottom of the form for each of the service academies in order that the appropriate academy may receive the form which has been so designated to be sent to them.

Barbara A. Carmichael,

Alternate Air Force Federal Register Liaison Officer.

[Docket No. CP98–560–000]

Columbia Gas Transmission Corporation; Notice of Request Under Blanket Authorization

May 22, 1998.

Take notice that on May 18, 1998, Columbia Gas Transmission Corporation

(Columbia), 12801 Fair Lake Parkway, Fairfax, Virginia 22030–1046, filed in Docket No. CP98–560–000 a request pursuant to Sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.216) for authorization to abandon by retirement approximately 0.04 mile of 2-inch pipeline and one delivery point to Columbia Gas of Pennsylvania, Inc. (CPA), located in Fulton County, Pennsylvania, under Columbia's blanket certificate issued in Docket No. CP83–76–000, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Columbia proposes to abandon transmission line 10033, consisting of 0.04 mile of 2-inch pipeline and appurtenances and one point of delivery to CPA, all located in Fulton County, Pennsylvania. Columbia declares the section of Line 10033 for which abandonment authority is requested is a 2-inch transmission pipeline that has provided service to CPA, thereby enabling CPA to serve the Kirk Motel, that now has been converted to residential sites and is served by CPA. Columbia states that CPA has recently constructed approximately 1,100 feet of 2-inch plastic pipeline to serve this point of delivery (POD) and thereby eliminated the need for Columbia's Line 10033 and the associated Kirk Motel POD.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursaunt to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,

Acting Secretary.

Federal Energy Regulatory Commission

[Docket No. CP98–548–000]

Koch Gateway Pipeline Company; Notice of Request Under Blanket Authorization

May 22, 1998.

Take notice that on May 14, 1998, as amended May 20, 1998, Koch Gateway Pipeline Company (Koch Gateway), Post Office Box 1478, Houston, Texas 77251–1478, filed in Docket No. CP98–548–000, a request pursuant to Sections 157.205 and 157.216(b) for authorization to abandon by sale a lateral line located in East Baton Rouge Parish, Louisiana, under Koch Gateway's blanket certificate issued in docket No. CP82–430–000 pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Koch Gateway proposes to abandon by sale to Mid Louisiana Gas Transmission (Midla Transmission) a lateral transmission line designated as Index 270–80. This lateral line includes approximately 8 miles of 12–inch pipeline and 2 miles of 6–inch pipeline.

Koch Gateway states that it serves only one local distribution customer, Entex, Inc. It is stated that Koch Gateway and Midla Transmission have reached agreement with Entex for continuing service to the Entex delivery point.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Federal Energy Regulatory Commission

[Docket No. CP98–559–000]

Northwest Pipeline Corporation; Notice of Request Under Blanket Authorization

May 22, 1998.

Take notice that on May 18, 1998, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84108, filed in Docket No. CP98–559–000 a request pursuant to Sections 157.205, 157.211 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211, and 157.216) for authorization to abandon, construct, and operate certain facilities in Bannock County, Idaho under Northwest's blanket certificate issued in Docket No. CP82–433–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Northwest specifically proposes to (1) abandon its Idaho Falls Meter Station by removal, (2) abandon its Idaho Falls Lateral by sale to Intermountain Gas Company (Intermountain), (3) construct and operate a relocated and upgraded Idaho Falls Meter Station, and (4) maintain the existing Idaho Falls Lateral mainline tap for emergency delivery of natural gas to Intermountain.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

[Docket No. ER98–2870–000]

UNITIL Power Corp.; Notice of Filing

May 22, 1998.

Take notice that on May 1, 1998, UNITIL Power Corp. tendered for filing pursuant to Schedule II Section H of Supplement No. 1 to Rate Schedule FERC Number 1, the UNITIL System Agreement, the following material:

1. Statement of all sales and billing transactions for the period January 1, 1997 through December 31, 1997 along with the actual costs incurred by UNITIL Power Corp. by FERC account.

2. UNITIL Power Corp. Rates billed from January 1, 1997 to December 1997 and supporting rate development.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before May 29, 1998. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER97–1907–001, et al.]

Entergy Service, Inc., et al.; Electric Rate and Corporate Regulation Filings

May 20, 1998.

Take notice that the following filings have been made with the Commission:

1. Entergy Services, Inc.

[Docket No. ER97–1907–001]

Take notice that on May 15, 1998, Entergy Services, Inc., submitted a refund report in the above referenced docket.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

2. Florida Power Corporation

[Docket Nos. ER89–627–002 and ER91–252–002]

Take notice that on May 5, 1998, Florida Power Corporation (Florida Power), filed a refund report related to Rate Limitation Refunds for calendar year 1997, applicable to four of Florida Power's full requirements' customers in accordance with provisions in Exhibit B of their contracts limiting the total bills for service to them to the amount that would be produced by applying the applicable Florida Municipal Power Agency rate to that service.

Comment date: June 2, 1998, in accordance with Standard Paragraph E at the end of this notice.

3. Florida Power Corporation

[Docket No. ER98–374–001]

Take notice that on May 15, 1998, Florida Power Corporation (FPC), filed a revised tariff sheet for its Cost-Based Wholesale Power Sales Tariff (CR–1), in response to the Commission's April 20, 1998, letter order issued in Docket No. ER98–374–000.

FPC requests an effective date of October 29, 1997, the effective date of the Cost-Based Wholesale Power Sales Tariff, and accordingly, seeks waiver of the Commission's notice requirements.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

4. Nicole Energy Services

[Docket No. ER98–2683–000]

Take notice that on May 14, 1998, Nicole Energy Services (NES), filed an amendment to its application for market-based rates as power marketer. The supplemental information pertains to additional support documentation on company ownership, subsidiaries and a clarification on business activity.

Comment date: June 3, 1998, in accordance with Standard Paragraph E at the end of this notice.

5. Entergy Services, Inc.

[Docket No. ER98–2910–000]

Take notice that on May 15, 1998, Entergy Services, Inc. (Entergy Services), as agent for Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy Mississippi, Inc., and Entergy New Orleans, Inc. (collectively, the Entergy Operating Companies), tendered for filing an amendment to its 1998 rate redetermination update (Corrected Update) in accordance with the Open Access Transmission Tariff filed in compliance with FERC Order No. 888 in Docket No. OA96–158–000. Entergy Services states that the Corrected Update redetermines the formula rate in accordance with the annual rate redetermination provisions of Appendix 1 to Attachment H and Appendix A to Schedule 7.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

6. Rainbow Power USA LLC

[Docket No. ER98–3012–000]

Take notice that on May 12, 1998, Rainbow Power USA LLC (Rainbow), petitioned the Commission for acceptance of Rainbow's FERC Rate Schedule No. 1; the granting of certain blanket approvals, including the authority to sell electricity at market-based rates; and the waiver of certain Commission Regulations.

Rainbow intends to engage in wholesale and retail electric power and energy transactions as a power marketer. Rainbow is not in the business of generating or transmitting electric power. Rainbow is not a subsidiary of any other organization, nor does it have any affiliates.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

7. Central Power and Light Company, West Texas Utilities Company, Public Service Company of Oklahoma, and Southwestern Electric Power Company

[Docket No. ER98–3013–000]

Take notice that on May 15, 1998, Central Power and Light Company, West Texas Utilities Company, Public Service Company of Oklahoma and Southwestern Electric Power Company (collectively, the CSW Operating Companies), submitted for filing service agreements under which the CSW Operating Companies will provide firm point-to-point transmission service to Electric Clearinghouse, Inc. (ECI), and Southwestern Public Service Company (SPS) in accordance with the CSW Operating Companies' open access transmission service tariff. The CSW Operating Companies also submitted notices of cancellation for each of the firm point-to-point transmission service agreements.

The CSW Operating Companies state that a copy of the filing has been served on ECI and SPS.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

8. PJM Interconnection, L.L.C.

[Docket No. ER98–3014–000]

Take notice that on May 15, 1998, PJM Interconnection, L.L.C. (PJM), tendered for filing amendments to the Operating Agreement of the PJM Interconnection, L.L.C., and the PJM Open Access Transmission Tariff.

The amendments provide that firm point-to-point transmission customers will have the right to specify that they do not wish to receive fixed transmission rights (FTRs) relating to their transmission reservations or wish to receive less than their full entitlement to FTRs.

PJM requests an effective date of August 1, 1998, for the amendments to the Operating Agreement and PJM Tariff.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

9. Boston Edison Company

[Docket No. ER98–3015–000]

Take notice that on May 15, 1998, Boston Edison Company (Boston Edison), made a filing to supplement its Interconnection and Operation Agreement between Boston Edison and Sithe Energies, Inc., (Sithe). The supplement clarifies the obligations of Boston Edison, Sithe, and Sithe's subsidiaries, including Sithe Mystic, L.L.C., Sithe Edgar, L.L.C., Sithe New Boston, L.L.C., Sithe West Medway, L.L.C., Sithe Framingham, L.L.C., and Sithe Wyman, L.L.C.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

10. Peco Energy Company

[Docket No. ER98–3016–000]

Take notice that on May 15, 1998, PECO Energy Company (PECO), filed a Service Agreement dated April 27, 1998 with Amoco Energy Trading Corporation (AMOCO) under PECO's FERC Electric Tariff Original Volume No. 1 (Tariff). The Service Agreement adds AMOCO as a customer under the Tariff.

PECO requests an effective date of April 27, 1998, for the Service Agreement.

PECO states that copies of this filing have been supplied to AMOCO and to the Pennsylvania Public Utility Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

11. California Independent System Operator Corporation

[Docket No. ER98–3017–000]

Take notice that on May 15, 1998, the California Independent System Operator Corporation (ISO), tendered for filing a Meter Service Agreement for ISO Metered Entities between the ISO and Duke Energy Oakland LLC (Duke Energy Oakland), for acceptance by the Commission.

The ISO states that this filing has been served on Duke Energy Oakland and the California Public Utilities Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

12. California Independent System Operator Corporation

[Docket No. ER98–3018–000]

Take notice that on May 15, 1998, the California Independent System Operator Corporation (ISO), tendered for filing a Participating Generator Agreement between Duke Energy Morro Bay LLC (Duke Energy Morro Bay) and the ISO for acceptance by the Commission.

The ISO states that this filing has been served on Duke Energy Morro Bay and the California Public Utilities Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

13. California Independent System Operator Corporation

[Docket No. ER98–3019–000]

Take notice that on May 15, 1998, the California Independent System Operator Corporation (ISO), tendered for filing a Participating Generator Agreement between Duke Energy Moss Landing LLC (Duke Energy Moss Landing) and the ISO for acceptance by the Commission.

The ISO states that this filing has been served on Duke Energy Moss Landing and the California Public Utilities Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

14. California Independent System Operator Corporation

[Docket No. ER98–3020–000]

Take notice that on May 15, 1998, the California Independent System Operator Corporation (ISO), tendered for filing a Meter Service Agreement for ISO Metered Entities between the ISO and Duke Energy Morro Bay LLC (Duke Energy Morro Bay) for acceptance by the Commission.

The ISO states that this filing has been served on Duke Energy Morro Bay and the California Public Utilities Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

15. California Independent System Operator Corporation

[Docket No. ER98–3021–000]

Take notice that on May 15, 1998, the California Independent System Operator Corporation (ISO) tendered for filing a Participating Generator Agreement between Duke Energy Oakland LLC (Duke Energy Oakland) and the ISO for acceptance by the Commission.

The ISO states that this filing has been served on Duke Energy Oakland and the California Public Utilities Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

16. California Independent System Operator Corporation

[Docket No. ER98–3022–000]

Take notice that on May 15, 1998, the California Independent System Operator Corporation (ISO), tendered for filing a Meter Service Agreement for ISO Metered Entities between the ISO and Duke Energy Moss Landing LLC (Duke Energy Moss Landing) for acceptance by the Commission.

The ISO states that this filing has been served on Duke Energy Moss Landing and the California Public Utilities Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

17. Indeck Pepperell Power Associates Inc.

[Docket No. ER98–3023–000]

Take notice that on May 15, 1998, Indeck Pepperell Power Associates, Inc. (Indeck Pepperell), tendered for filing with the Federal Energy Regulatory Commission a Power Purchase and Sale Agreement (Service Agreement) between Indeck Pepperell and Northeast Utilities Company (NUSCO), dated April 30, 1998, for service under Indeck Pepperell's Rate Schedule FERC No. 1. Indeck Pepperell requests that the Service Agreement be made effective as of April 30, 1998.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

18. Long Island Lighting Company

[Docket No. ER98–3024–000]

Take notice that on May 15, 1998, Long Island Lighting Company (LILCO), filed an Electric Power Service Agreement between LILCO and NGE

Generation, Inc., entered into on May 12, 1998.

The Electric Power Service Agreement listed above was entered into under LILCO's Power Sales Umbrella Tariff as reflected in LILCO's amended filing on February 6, 1998 with the Commission in Docket No. OA98–5–000. The February 6, 1998, filing essentially brings LILCO's Power Sales Umbrella Tariff in compliance with the unbundling requirements of the Commission's Order No. 888.

LILCO requests waiver of the Commission's sixty (60) day notice requirements and an effective date of May 12, 1998, for the Electric Power Service Agreement listed above because in accordance with the policy announced in Prior Notice and Filing Requirements Under Part II of the Federal Power Act, 64 FERC ¶ 61,139, *clarified and reh'g granted in part and denied in part*, 65 FERC ¶ 61,081 (1993), service will be provided under an umbrella tariff and the Electric Power Service Agreement is being filed either prior to or within thirty (30) days of the commencement of service.

LILCO has served copies of this filing on the customer which is a party to the Electric Power Service Agreement and on the New York State Public Service Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

19. Portland General Electric Company

[Docket No. ER98–3025–000]

Take notice that on May 15, 1998, Portland General Electric Company (PGE), tendered for filing under PGE's Final Rule pro forma tariff (FERC Electric Tariff Original Volume No. 8, Docket No. OA96–137–000), an executed Service Agreement for Short-Term Firm Point-to-Point Transmission Service with Enron Energy Services, Inc.

Pursuant to 18 CFR Section 35.11, and the Commission's Order in Docket No. PL93–2–002, issued July 30, 1993, PGE respectfully requests that the Commission grant a waiver of the notice requirements of 18 CFR Section 35.3 to allow the Service Agreements to become effective May 11, 1998.

A copy of this filing was caused to be served upon Enron Energy Services, Inc., as noted in the filing letter.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

20. DTE Edison America, Inc.

[Docket No. ER98–3026–000]

Take notice that on May 15, 1998, DTE Edison America, Inc., submitted for filing an Application for Order Accepting Initial Rate Schedule, Approving Rates, Waiving Regulations and Granting Blanket Approval (Application) to permit DTE Edison America to sell capacity and energy at market-based rates.

DTE Edison America requests an immediate effective date and, accordingly, seeks waiver of the Commission's notice requirements.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

21. Alliant Service, Inc.

[Docket No. ER98–3027–000]

Take notice that on May 15, 1998, Alliant Services, Inc., tendered for filing executed Service Agreements for Firm and Non-firm Point-to-Point Transmission Service, establishing Southern Company Energy Marketing L.P., as a point-to-point Transmission Customer under the terms of the Alliant Services, Inc. transmission tariff. Alliant also requests the cancellation of Service Agreements with Southern Energy Trading and Marketing, Inc.

Alliant Services, Inc., requests an effective date of April 17, 1998, and accordingly, seeks waiver of the Commission's notice requirements. A copy of this filing has been served upon the Public Service Commission of Wisconsin.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

22. Southern California Edison Company

[Docket No. ER98–3028–000]

Take notice that on May 15, 1998, Southern California Edison Company (Edison), tendered for filing Loss Accounting Procedures for Existing Contracts (Procedures), between Edison and the City of Colton (Colton), California.

The Procedures allow Edison and Colton to account for differences between losses pursuant to the Independent System Operator's (ISO), applicable loss methodology and losses pursuant to existing transmission contracts, as required in the Edison-Colton 1997 Restructuring Agreement (Restructuring Agreement). Edison is requesting that the Procedures become effective on April 1, 1998, the date the ISO assumed operational control of Edison's transmission facilities, which is concurrent with the effective date of the Restructuring Agreement.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

23. Westchester Resco Company, L.P.

[Docket No. ER98–3030–000]

Take notice that on May 15, 1998, Westchester Resco Company, L.P. (Westchester), petitioned the Commission for: (1) acceptance of Westchester's Rate Schedule FERC No. 2, providing for the sale of electricity at market-based rates; (2) waiver of the 60-day notice requirement and certain requirements under Subparts B and C of Part 35 of the regulations; and (3) confirmation of the continuing applicability of the blanket approvals and waivers previously granted. Westchester is an indirect subsidiary of Wheelabrator Technologies Inc.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

24. Arizona Public Service Company

[Docket No. ER98–3032–000]

Take notice that on May 15, 1998, Arizona Public Service Company (APS), tendered for filing a revised Contract Demand Exhibit for Southern California Edison applicable under the APS–FERC Rate Schedule No. 120.

Current rate levels are unaffected, revenue levels are unchanged from those currently on file with the Commission, and no other significant change in service to these or any other customer results from the revisions proposed herein. No new or modifications to existing facilities are required as a result of these revisions.

Copies of this filing have been served on SCE, the California Public Utilities Commission and the Arizona Corporation Commission.

Comment date: June 4, 1998, in accordance with Standard Paragraph E at the end of this notice.

25. Orange and Rockland Utilities, Inc.

[Docket No. ER98–3049–000]

Take notice that on May 14, 1998, Orange and Rockland Utilities, Inc. (O&R), tendered for filing pursuant to Part 35 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure, 18 CFR 35, a service agreement under which O&R will provide capacity and/or energy to Wheeled Electric Power Company (Wheeled Electric).

O&R requests waiver of the notice requirement so that the service agreement with Wheeled Electric becomes effective as of May 15, 1998.

O&R has served copies of the filing on The New York State Public Service Commission and Wheeled Electric.

Comment date: June 3, 1998, in accordance with Standard Paragraph E at the end of this notice.

26. Orange and Rockland Utilities, Inc.

[Docket No. ER98–3050–000]

Take notice that on May 14, 1998, Orange and Rockland Utilities, Inc. (O&R), tendered for filing pursuant to Part 35 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure, 18 CFR 35, a service agreement under which O&R will provide capacity and/or energy to Cinergy Services, Inc. (Cinergy Services).

O&R requests waiver of the notice requirement so that the service agreement with Cinergy Services becomes effective as of May 12, 1998.

O&R has served copies of the filing on The New York State Public Service Commission and Cinergy Services.

Comment date: June 3, 1998, in accordance with Standard Paragraph E at the end of this notice.

27. Kandiyohi Cooperative Electric Power Association

[Docket No. OA98–11–000]

Take notice on May 6, 1998, Kandiyohi Cooperative Electric Power Association (Kandiyohi Cooperative), filed a request for waiver of the requirements of Order No. 888 and Order No. 889 pursuant to 18 CFR 35.28(d) of the Federal Energy Regulatory Commission's Regulation. Kandiyohi Cooperative's filing is available for public inspection at its offices in Willmar, Minnesota.

Comment date: June 3, 1998, in accordance with Standard Paragraph E at the end of this notice.

28. City Utilities of Springfield Missouri

[Docket No. OA98–13–000]

Take notice that on May 14, 1998, the City Utilities of Springfield, Missouri, has filed a request for waiver of separation of functions requirements under Order Nos. 888 and 888–A and under Orders Nos. 889 and 889–A.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection.

David P. Boergers,

Acting Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER98–2076–001, et al.]

Hawkeye Power Partners, L.L.C., et al.; Electric Rate and Corporate Regulation Filings

May 21, 1998.

Take notice that the following filings have been made with the Commission:

1. Hawkeye Power Partners, L.L.C.

[Docket No. ER98–2076–001]

Take notice that on May 18, 1998, Hawkeye Power Partners, L.L.C. (Hawkeye), in compliance with the Commission's order issued on April 30, 1998, submitted a Code of Conduct with Respect to the Relationship between Hawkeye Power Partners L.L.C. and its affiliates. Hawkeye seeks leave to file the Code of Conduct one day out of time.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

2. MidAmerican Energy Company

[Docket No. ER98–2700–000]

Take notice that on May 18, 1998, MidAmerican Energy Company (MidAmerican), 666 Grand Avenue, Des Moines, Iowa 50309, filed with the Commission a Network Integration Transmission Service Agreement and a Network Operating Agreement, both dated April 2, 1998, and entered into by MidAmerican and the City of Denver, Iowa (Denver) in accordance with MidAmerican's Open Access Transmission Tariff. MidAmerican has submitted an amendment to the filing requesting an effective date of April 1, 1998, for the Agreements.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

3. Cleco Corporation

[Docket No. ER98–3031–000]

Take notice that on May 18, 1998, Cleco Corporation, (Cleco), tendered for filing a Notice of Succession whereby Central Louisiana Electric Company, Inc., has changed its name to Cleco Corporation.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

4. PECO Energy Company

[Docket No. ER98–3033–000]

Take notice that on May 18, 1998, PECO Energy Company (PECO), filed an executed Installed Capacity Obligation Allocation Agreement between PECO and Penn Power Energy, Inc., (hereinafter Supplier). The terms and conditions contained within this Agreement are identical to the terms and conditions contained with the Form of Installed Capacity Allocation Agreement filed by PECO with the Commission on October 3, 1997 at Docket No. ER98–28–000. This filing merely submits an individual executed copy of the Installed Capacity Obligation Allocation Agreement between PECO and an alternate suppliers participating in PECO's Pilot.

Copies of the filing were served on the Supplier and the Pennsylvania Public Utility Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

5. PECO Energy Company

[Docket No. ER98–3034–000]

Take notice that on May 18, 1998, PECO Energy Company (PECO), filed an executed Transmission Agency Agreement between PECO and Penn Power Energy, Inc., (hereinafter Supplier). The terms and conditions contained within this Agreement are identical to the terms and conditions contained with the Form of Transmission Agency Agreement submitted to the Commission on October 3, 1997, as part of the joint filing by the Pennsylvania Public Utility Commission and the Pennsylvania PJM Utilities at Docket No. ER98–64–000. This filing merely submits an individual executed copy of the Transmission Agency Agreement between PECO and an alternative supplier participating in PECO's Retail Access Pilot Program.

Copies of the filing were served on the Supplier and the Pennsylvania Public Utility Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

6. Ameren Services Company

[Docket No. ER98–3035–000]

Take notice that on May 18, 1998, Ameren Services Company (ASC), tendered for filing Service Agreements for Firm Point-to-Point Transmission Services between ASC and Southern Illinois Power Cooperative, Vitol Gas and Electric LLC, and Wabash Valley Power Association. ASC asserts that the purpose of the Agreements is to permit ASC to provide transmission service to the parties pursuant to Ameren's Open Access Transmission Tariff filed in Docket No. ER96–677–004.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

7. Ameren Services Company

[Docket No. ER98–3036–000]

Take notice that on May 18, 1998, Ameren Services Company (ASC), tendered for filing a Service Agreement for Non-Firm Point-to-Point Transmission Service between ASC and Southern Illinois Power Cooperative (SIPC). ASC asserts that the purpose of the Agreement is to permit ASC to provide transmission service to SIPC pursuant to Ameren's Open Access Transmission Tariff filed in Docket No. ER96–677–004.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

8. MidAmerican Energy Company

[Docket No. ER98–3037–000]

Take notice that on May 18, 1998, MidAmerican Energy Company (MidAmerican), 666 Grand Avenue, Des Moines, Iowa 50309, filed with the Commission a Network Integration Transmission Service Agreement and a Network Operating Agreement, both dated April 28, 1998, and entered into by MidAmerican and the Montezuma Municipal Light and Power (Montezuma) in accordance with MidAmerican's Open Access Transmission Tariff.

MidAmerican requests an effective date of May 1, 1998, for the Agreements with Montezuma, and accordingly seeks a waiver of the Commission's notice requirement.

MidAmerican has served a copy of the filing on Montezuma, the Iowa Utilities Board, the Illinois Commerce Commission and the South Dakota Public Utilities Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

9. Minnesota Power & Light Company

[Docket No. ER98–3038–000]

Take notice that on May 18, 1998, Minnesota Power & Light Company, submitted for filing a Service Agreement between Minnesota Power & Light Company and Minnkota Power Cooperative.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

10. Arizona Public Service Company

[Docket No. ER98–3039–000]

Take notice that on May 18, 1998, Arizona Public Service Company tendered for filing Notice of Cancellation of FERC Rate Schedule No. 226, effective date June 1, 1995 by FERC order dated April 6, 1995 and filed with the Federal Energy Regulatory Commission by Arizona Public Service Company is to be canceled effective at midnight the 30th day of September 1997.

Copies of the notice of the proposed cancellation has been served upon Nevada Power Company.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

11. Public Service Electric and Gas Company

[Docket No. ER98–3040–000]

Take notice that on May 18, 1998, Public Service Electric and Gas Company (PSE&G) of Newark, New Jersey tendered for filing an agreement for the sale of capacity and energy to PP&L, Inc. (PP&L), pursuant to the PSE&G Wholesale Power Market Based Sales Tariff, presently on file with the Commission.

PSE&G further requests waiver of the Commission's Regulations such that the agreement can be made effective as of April 20, 1998.

Copies of the filing have been served upon PP&L and the New Jersey Board of Public Utilities.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

12. Public Service Electric and Gas Company

[Docket No. ER98–3041–000]

Take notice that on May 18, 1998, Public Service Electric and Gas Company (PSE&G) of Newark, New Jersey tendered for filing an agreement for the sale of capacity and energy to Sempra Energy Trading Corp. (Sempra), pursuant to the PSE&G Wholesale Power Market Based Sales Tariff, presently on file with the Commission.

PSE&G further requests waiver of the Commission's Regulations such that the agreement can be made effective as of April 20, 1998.

Copies of the filing have been served upon Sempra and the New Jersey Board of Public Utilities.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

13. Florida Power & Light Company

[Docket No. ER98–3042–000]

Take notice that on May 18, 1998, Florida Power & Light Company (FPL), filed a Service Agreement with Tractebel Energy Marketing, Inc., for service pursuant to Tariff No. 1, for Sales of Power and Energy by Florida Power & Light Company. FPL requests that the Service Agreement be made effective on April 27, 1998.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

14. Public Service Electric and Gas Company

[Docket No. ER98–3043–000]

Take notice that on May 18, 1998, Public Service Electric and Gas Company (PSE&G) of Newark, New Jersey tendered for filing an agreement for the sale of capacity and energy to South Carolina Electric & Gas Company (SCE&G), pursuant to the PSE&G Wholesale Power Market Based Sales Tariff, presently on file with the Commission.

PSE&G further requests waiver of the Commission's Regulations such that the agreement can be made effective as of April 20, 1998.

Copies of the filing have been served upon SCE&G and the New Jersey Board of Public Utilities.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

15. Niagara Mohawk Power Corporation

[Docket No. ER98–3044–000]

Take notice that on May 18, 1998, Niagara Mohawk Power Corporation (ANMPC), tendered for filing with the Federal Energy Regulatory Commission an executed Transmission Service Agreement between NMPC and DTE Energy Trading. This Transmission Service Agreement specifies that DTE Energy Trading has signed on to and has agreed to the terms and conditions of NMPC's Open Access Transmission Tariff as filed in Docket No. OA96–194–000. This Tariff, filed with FERC on July 9, 1996, will allow NMPC and DTE Energy Trading to enter into separately

UMI
VOL
63
ISS

MAY
29
1998
UMI

scheduled transactions under which NMPC will provide transmission service for DTE Energy Trading as the parties may mutually agree.

NMPC requests an effective date of May 8, 1998. NMPC has requested waiver of the notice requirements for good cause shown.

NMPC has served copies of the filing upon the New York State Public Service Commission and DTE Energy Trading.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

16. Central Illinois Light Company

[Docket No. ER98–3045–000]

Take notice that on May 18, 1998, Central Illinois Light Company (CILCO), 300 Liberty Street, Peoria, Illinois 61202, tendered for filing with the Commission a substitute Index of Customers under its Coordination Sales Tariff and three service agreements for three new customers, Amoco Energy Trading Corporation, Constellation Power Source, Inc., and Cargill-Alliant, LLC.

CILCO requested an effective date of May 8, 1998.

Copies of the filing were served on the affected customers and the Illinois Commerce Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

17. Alabama Power Company

[Docket No. ER98–3046–000]

Take notice that on May 18, 1998, Alabama Power Company tendered for filing Amendment No. 2 to the Amended and Restated Agreement for Partial Requirements Service and Complementary Services with the Alabama Municipal Electric Authority (FERC Rate Schedule No. 168). Under this amendment, the parties have agreed to a series of future reductions in the demand rate for PR service. The amendment also reflects the parties' agreement and understanding concerning other issues, such as the operation of certain notice provisions under the contract.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

18. Peco Energy Company

[Docket No. ER98–3047–000]

Take notice that on May 18, 1998, PECO Energy Company (PECO), filed a Service Agreement dated February 23, 1998, with Sunoco Power Marketing, L.L.C. (SPM), under PECO's FERC Electric Tariff Original Volume No. 1 (Tariff). The Service Agreement adds SPM as a customer under the Tariff.

PECO requests an effective date of April 19, 1998, for the Service Agreement.

PECO states that copies of this filing have been supplied to SPM and to the Pennsylvania Public Utility Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

19. Northeast Electricity Inc.

[Docket No. ER98–3048–000]

Take notice that on May 18, 1998, Northeast Electricity Inc. (NEI), petitioned the Commission for acceptance of NEI Rate Schedule FERC No. 1; the granting of certain blanket approvals, including the authority to sell electricity at market based rates; and the waiver of certain Commission Regulations.

NEI intends to engage in wholesale electric power and energy purchases and sales as a marketer. NEI is not in the business of generating or transmitting electric power. NEI is a wholly owned and privately held company, with no affiliates.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

20. Commonwealth Edison Company

[Docket No. ER98–3051–000]

Take notice that on May 18, 1998, Commonwealth Edison Company (ComEd), tendered for filing revised tariff sheets under ComEd's Open Access Transmission Service Tariff (ComEd OATT). ComEd seeks authority to waive, under certain circumstances and on a non-discriminatory basis, the deposit required to accompany applications for Network Integration transmission service.

ComEd requests an effective date of May 19, 1998, and therefore requests waiver of the Commission's notice requirements. ComEd has served copies of the filing on the Illinois Commerce Commission and all customers served under the ComEd OATT.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

21. PowerSource, Corp.

[Docket No. ER98–3052–000]

Take notice that on May 18, 1998, PowerSource, Corp. (PSC), tendered for filing with the Commission an application for acceptance of PSC Rate Schedule FERC No. 1; the granting of certain blanket approvals, including the authority to sell electricity at market-based rates; and the waiver of certain Commission Regulations.

PSC intends to engage in wholesale electric power and energy purchases and sales as a marketer.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

22. Illinova Energy Partners, Inc.

[Docket No. ER98–3053–000]

Take notice that on May 18, 1998, Illinova Energy Partners, Inc. (IEP), tendered for filing an updated generation market power analysis as required by the Commission's order issued May 18, 1995, granting IEP the right to sell wholesale power at market-based rates.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

23. East Kentucky Power Cooperative Inc., New York Power Authority, Omaha Public Power District, Orlando Utilities Commission, and South Carolina Public Service Authority

[Docket Nos. NJ97–14–001, NJ97–10–001, NJ97–2–003, NJ97–13–002, NJ97–8–002]

Take notice that between April 24–27, 1998, the above-named companies submitted revised standards of conduct in response to the Commission's March 26, 1998, Order on Standards of Conduct (82 FERC ¶ 61,297 (1998)).

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

24. AES Alamitos, L.L.C., AES Huntington Beach, L.L.C., and AES Redondo Beach, L.L.C.

[Docket No. EC98–43–000]

Take notice that on May 11, 1998, AES Alamitos, L.L.C., AES Huntington Beach, L.L.C., and AES Redondo Beach, L.L.C., tendered for filing pursuant to Part 33 of the Commission's Regulations an application to assign must-run electric service agreements with the California Independent System Operator designated as AES Alamitos, L.L.C., Supplement No. 5 to Rate Schedule FERC No. 10; AES Huntington Beach, L.L.C., Supplement No. 5 to Rate Schedule FERC No. 13; and AES Redondo Beach, L.L.C., Supplement No. 5 to Rate Schedule FERC No. 15.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of

Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection.

David P. Boergers,

Acting Secretary.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

2. Carolina Power & Light Company

[Docket No. ER98–3054–000]

Take notice that on May 19, 1998, Carolina Power & Light Company (Carolina) tendered for filing an executed Service Agreement between Carolina and the following Eligible Entity: FirstEnergy Trading and Power Marketing Inc. Service to the Eligible Entity will be in accordance with the terms and conditions of Carolina's Tariff No. 1 for Sales of Capacity and Energy.

Copies of the filing were served upon the North Carolina Utilities Commission and the South Carolina Public Service Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

3. Northern States Power Company (Minnesota Company) and Northern States Power Company (Wisconsin Company)

[Docket No. ER98–3055–000]

Take notice that on May 19, 1998, Northern States Power Company (Minnesota) and Northern States Power Company (Wisconsin), collectively known as NSP, tendered for filing an Electric Service Agreement between NSP and Commonwealth Edison Company (Customer). This Electric Service Agreement is an enabling agreement under which NSP may provide to Customer the electric services identified in NSP Operating Companies Electric Services Tariff original Volume No. 4. NSP requests that this Electric Service Agreement be made effective on April 22, 1998.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

4. Northern States Power Company

[Docket No. ER98–3056–000]

Take notice that on May 19, 1998, Northern States Power Company (Minnesota) and Northern States Power Company (Wisconsin), collectively known as NSP, tendered for filing an Electric Service Agreement between NSP and Illinois Power (Customer). This Electric Service Agreement is an enabling agreement under which NSP may provide to Customer the electric services identified in NSP Operating Companies Electric Services tariff original Volume No. 4. NSP requests that this Electric Service Agreement be made effective on April 22, 1998.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

5. Ameren Services Company

[Docket No. ER98–3061–000]

Take notice that on May 19, 1998, Ameren Services Company (ASC) tendered for filing Service Agreements for Long-Term Firm Point-to-Point Transmission Services between ASC and Public Service Company of Oklahoma (PSCO). ASC asserts that the purpose of the Agreements is to permit ASC to provide transmission service to PSCO pursuant to Ameren's Open Access Transmission Tariff filed in Docket No. ER 96–677–004.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

6. Allegheny Power Service Corporation, on behalf of Monongahela Power Company, et al.

[Docket No. ER98–3062–000]

Take notice that on May 19, 1998, Allegheny Power Service Corporation, on behalf of Monongahela Power Company, the Potomac Edison Company and West Penn Power Company (Allegheny Power) filed Supplement No. 42 to add four (4) new customers to the Standard Generation Service Rate Schedule under which Allegheny Power offers standard generation and emergency service on an hourly, daily, weekly, monthly or yearly basis. Allegheny Power requests a waiver of notice requirements to make service available as of May 18, 1998, to AYP Energy, Inc., American Municipal Power-Ohio, Inc., Entergy Power Marketing Corp., and South Jersey Energy Company.

Copies of this filing have been provided to the Public Utilities Commission of Ohio, the Pennsylvania Public Utility Commission, the Maryland Public Service Commission, the Virginia State Corporation Commission, the West Virginia Public Service Commission, and all parties of record.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

7. Allegheny Power Service Corporation, on behalf of Monongahela Power Company, et al.

[Docket No. ER98–3063–000]

Take notice that on May 19, 1998, Allegheny Power Service Corporation on behalf of Monongahela Power Company, The Potomac Edison Company and West Penn Power Company (Allegheny Power), filed Supplement No. 30 to add PP&L, Inc. to Allegheny Power Open Access Transmission Service Tariff which has been submitted for filing by the Federal Energy Regulatory Commission in Docket No. OA96–18–000. The proposed effective date under the Service Agreement is May 18, 1998.

Copies of the filing have been provided to the Public Utilities Commission of Ohio, the Pennsylvania Public Utility Commission, the Maryland Public Service Commission, the Virginia State Corporation Commission, the West Virginia Public Service Commission.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

8. Central Vermont Public Service Corporation

[Docket No. ER98–3064–000]

Take notice that on May 19, 1998, Central Vermont Public Service Corporation (CVPS) tendered for filing the Actual 1997 Cost Report required under Article 2.4 on Second Revised Sheet No. 18 of FERC Electric Tariff, Original Volume No. 3, of Central Vermont under which Central Vermont provides transmission and distribution service to the following Customers:

Vermont Electric Cooperative, Inc.
Lyndonville Electric Department
Village of Ludlow Electric Light Department
Village of Johnson Water and Light Department
Village of Hyde Park Water and Light Department
Rochester Electric Light and Power Company
Woodsville Fire District Water and Light Department

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

9. Central Vermont Public Service Corporation

[Docket No. ER98–3065–000]

Take notice that on May 19, 1998, Central Vermont Public Service Corporation (CVPS) tendered for filing the Actual 1997 Cost Report required under Paragraph Q–1 on Original Sheet No. 18 of the Rate Schedule FERC No. 135 (RS–2 rate schedule) under which Central Vermont Public Service Corporation (Company) sells electric power to Connecticut Valley Electric Company Inc. (Customer). The Company states that the Cost Report reflects changes to the RS–2 rate schedule which were approved by the Commission's June 6, 1989 order in Docket No. ER88–456–000.

Comment date: June 5, 1998, in accordance with Standard Paragraph E at the end of this notice.

10. Two Elk Power Company, et al. Limited Partnership

[Docket No. QF95–197–001]

On May 12, 1998, Two Elk Power Company, on behalf of Two Elk Generation Partners, Limited Partnership, c/o North American Power Group, Ltd., 8480 East Orchard Road, Suite 4000, Greenwood Village, Colorado 80111, submitted for filing an application for Commission recertification as a small power production facility pursuant to Section 292.207(b) of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

According to the applicant, the 250 MW, coal-fired single-turbine power production facility is located in Campbell County, Wyoming. Commercial operations are scheduled to commence in 2001, whereupon the facility will sell a majority of its electric energy output into the public power grid at market based rates with the remainder of its output to be sold to the Black Thunder Mine. The facility was originally self-certified as a QF by a notice of qualification submitted on December 30, 1994, in Docket No. QF95–197–000. According to the applicant, the instant recertification is requested in contemplation of changes in the facility's name, size, ownership structure, and location.

Comment date: 30 days after the date of publication of this notice in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection.

David P. Boergers,

Acting Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Intent to File Application For New License

May 22, 1998.

a. *Type of filing:* Notice of Intent to File Application for New License.

b. *Project No.:* 344.

c. *Date filed:* April 27, 1998.

d. *Submitted By:* Southern California Edison Company.

3. *Name of Project:* San Gorgonio Nos. 1 & 2.

f. *Location:* On the San Gorgonio River in San Bernardino County, California, within the San Bernardino National Forest.

g. *Filed Pursuant to:* Section 15 of the Federal Power Act, 18 CFR 16.6 of the Commission's regulations.

h. *Effective date of original license:* May 1, 1983.

i. *Expiration date of original license:* April 26, 2003.

j. The project consists of two diversion dams, concrete-lined canals, two water tanks, two forebays, two penstocks, two powerhouses with a total installed capacity of 2,440 kilowatts, two switchyards, and a transmission line.

k. Pursuant to 18 CFR 16.7, information on the project is available by contacting: Bryant C. Danner, Southern California Edison Company, 2244 Walnut Grove Avenue, Rosemead, CA 91770, (626) 302–8937.

1. *FERC contact:* Héctor M. Pérez (202) 219–2843.

m. Pursuant to 18 CFR 16.9(b)(1), each application for a new license and any competing license applications must be filed with the Commission at least 24 months prior to the expiration of the existing license. All applications for

license for this project must be filed by April 26, 2001.

Linwood A. Watson, Jr.,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6103–1]

1998 Chesapeake Bay and Atlantic Coast Tautog Fishery Management Plan (FMP)

Public Review (June 4, 1998 to July 3, 1998)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A draft of the 1998 Chesapeake Bay and Atlantic Coast Tautog Fisheries Management Plan (FMP) is available for public comment June 4, 1998 to July 3, 1998. Although an active fishery exists in the Federal Exclusive Economic Zone (3–200 miles offshore), the Chesapeake Bay serves as an important nursery and feeding ground for young tautog. Concerns of localized overfishing and a shift toward increasing commercial fishing pressure since the early 1990s have led to the development of a federal fishery management plan for the species under the Atlantic States Marine Fisheries Commission (ASMFC). Chesapeake Bay jurisdictions will promulgate several fishery management measures for tautog that will begin immediate reduction in exploitation levels, rebuild the spawning stock and promote uniform management between federal and state agencies. The Bay jurisdictions will reduce exploitation and improve protection of the spawning stock in the Chesapeake Bay and Atlantic by complying with federal ASMFC recommendations. Chesapeake Bay fishery management plans (FMPs) are prepared under the direction of the 1987 Chesapeake Bay Agreement and serve as a framework for conserving and wisely using fishery resources. The goal of the Chesapeake Bay and Atlantic Coast Tautog Fishery Management Plan (FMP) is to "enhance and perpetuate tautog stocks and their habitat in the Chesapeake Bay and its tributaries, and throughout its Atlantic coast range, so as to generate optimum long-term ecological, social, and economic benefits from their recreational and commercial harvest and utilization over time."

A draft of the Plan is available by calling the Chesapeake Bay Program Office at 1–800–YOUR BAY. Comments should be returned to Mike Barnette, Virginia Marine Resources Commission, 2600 Washington Ave., P.O. Box 756, Newport News, VA 23607.

William Matuszeski,

Director, Chesapeake Bay Program Office.

Second Annual Antimicrobials National Workshop

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Antimicrobials Division of the U.S. EPA's Office of Pesticide Programs is hosting the Second Annual National Antimicrobials Workshop on June 15 and 16, 1998, at the Renaissance Washington, DC Hotel. The theme for this year's workshop is "Building Bridges and Maintaining Open Communications."

DATES: The Workshop will take place on June 15 and 16, 1998, starting at 8:30 a.m each day.

ADDRESSES: The Workshop will be held at the Renaissance Washington, DC Hotel, 999 Ninth St., NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Cleo Pizana, Antimicrobials Division, (7510W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; telephone number: (703) 308–6431; e-mail: pizana.cleo@epa.gov.

Registration information may be obtained by contacting: By mail, Deborah Jones, TASCON, Inc., 1803 Research Blvd., Suite 3305, Rockville, MD 20850; telephone number: (301) 315–9000; fax: (301) 738–9786; e-mail: djones@tascon.com. Direct registration is available by accessing the Internet address: http://ace.orst.edu/info/nain/antimicrobial.html.

SUPPLEMENTARY INFORMATION: EPA would like to make this an opportunity for building partnerships, learning other perspectives, and generating ideas on the best ways to protect the public health and the environment while addressing difficult issues by bringing representatives of Federal agencies, registrants, regions, States, and public health/environmental organizations together. The workshop covers a wide range of topics from treated articles, to clarification of roles in jurisdiction and in preventing food-borne illness, to discussions on 40 CFR parts 152, 156, and 158 regulations.

List of Subjects

Environmental protection, Antimicrobials, Treated articles, Disinfectants efficacy, International harmonization, Agency jurisdictions in preventing food borne illness.

Dated: May 14, 1998.

Frank Sanders,

Director, Antimicrobials Division, Office of Pesticide Programs.

Bayer Corp.; Approval of Pesticide Product Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of applications submitted by Bayer Corporation to conditionally register the pesticide products FOE 5043 Technical Herbicide, FOE 5043 DF Herbicide, and Axiom DF Herbicide containing a new active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: James Tompkins, Product Manager (PM) 25, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 257, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, 703–305–7391; e-mail: tompkins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the **Federal Register** Environmental Sub-Set entry for this document under "Laws and Regulations" (http://www.epa.gov/fedrgstr/).

EPA issued a notice, published the **Federal Register** of May 1, 1996 (61 FR 19279)(FRL–5365–5), which announced that Bayer Corporation, 8400 Hawthorn Road, P.O. Box 4913, Kansas City MO 64120-0013, had submitted applications to conditionally register the herbicide products FOE 5043 Technical Herbicide, FOE 5043 DF Herbicide, and Axiom DF (EPA File Symbols 3125–UIA, 3125–UIT, and 3125–UII) containing the active ingredient *N*-(4-fluorophenyl)-*N*-(1-methylethyl)-2-[[5-(trifluoromethyl)-1,3,4-thiadiazol-2-yl]oxy]acetamide at 95, 60, and 54.4 percent respectively. The product Axiom DF also contains 13.6% of the active ingredient metribuzin 1-amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4*H*)-one, an active ingredient in currently registered pesticide products.

The applications were approved on April 8, 1998, for one Technical and two end-use products listed below:

1. FOE 5043 Technical Herbicide for use only in the manufacturing of herbicides (EPA Registration Number 3125–486).

2. FOE 5043 DF Herbicide for control of certain grass and broadleaf weeds in corn and soybeans (EPA File Registration Number 3125–487).

3. Axiom DF Herbicide for control of certain grass and broadleaf weeds in corn and soybeans (EPA Registration Number 3125–488).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and that use of the pesticide is in the public interest. The Agency has considered the available data on the risks associated with the proposed use of *N*-(4-fluorophenyl)-*N*-(1-methylethyl)-2-[[5-(trifluoromethyl)-1,3,4-thiadiazol-2-yl]oxy]acetamide, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of *N*-(4-fluorophenyl)-*N*-(1-methylethyl)-2-[[5-(trifluoromethyl)-1,3,4-thiadiazol-2-yl]oxy]acetamide during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on these conditional registrations is contained in an EPA Pesticide Fact Sheet on *N*-(4-fluorophenyl)-*N*-(1-methylethyl)-2-[[5-

(trifluoromethyl)-1,3,4-thiadiazol-2-yl]oxy]acetamide.

A paper copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Intregrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 119, CM #2, Arlington, VA 22202 (703–305–5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

ENVIRONMENTAL PROTECTION AGENCY

[PF–806; FRL–5791–2]

Monsanto Company; Pesticide Tolerance Petitions Filing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the initial filing of a pesticide petition proposing the establishment of regulations for residues of a certain pesticide chemical in or on various food commodities.

DATES: Comments, identified by the docket control number PF–806, must be received on or before June 29, 1998.

ADDRESSES: By mail submit written comments to: Information and Records Integrity Branch, Public Information and Services Divison (7502C), Office of Pesticides Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person bring comments to: Rm. 119, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically by following the instructions under "SUPPLEMENTARY INFORMATION." No confidential business information should be submitted through e-mail.

Information submitted as a comment concerning this document may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). CBI should not be submitted through e-mail. Information marked as CBI will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: James A. Tompkins, Registration Support Branch, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW, Washington, DC 20460. Office location, telephone number, and e-mail address: Rm. 239, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703) 305–5697; e-mail: tompkins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA has received a pesticide petition as follows proposing the establishment and/or amendment of regulations for residues of certain pesticide chemical in or on various food commodities under section 408 of the Federal Food, Drug, and Comestic Act (FFDCA), 21 U.S.C. 346a. EPA has determined that this petition contains data or information regarding the elements set forth in section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the petition. Additional data may be needed before EPA rules on the petition.

The official record for this notice of filing, as well as the public version, has been established for this notice of filing under docket control number [PF–806] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official record is located at the address in "ADDRESSES" at the beginning of this document.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comment and data will also be accepted on disks in Wordperfect 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number (insert docket number) and appropriate petition number. Electronic comments on this proposed rule may be filed online at many Federal Depository Libraries.

List of Subjects

Environmental protection, Agricultural commodities, Food additives, Feed additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: May 14, 1998.

James Jones,

Director, Registration Division, Office of Pesticide Programs.

Summaries of Petitions

Petitioner summaries of the pesticide petitions are printed below as required by section 408(d)(3) of the FFDCA. The summaries of the petitions were prepared by the petitioners and represent the views of the petitioners. EPA is publishing the petition summaries verbatim without editing them in any way. The petition summary announces the availability of a description of the analytical methods available to EPA for the detection and measurement of the pesticide chemical residues or an explanation of why no such method is needed.

1. Monsanto Company

PP 8F4937

EPA has received a pesticide petition (PP 8F4937) from Monsanto Company, 700 14th St., NW., Suite 1100, Washington, DC 20005. proposing pursuant to section 408(d) of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. 346a(d), to amend 40 CFR part 180 by establishing a tolerance for residues of

halosulfuron-methyl: methyl 5-[(4,6-dimethoxy-2-pyrimidinyl)amino] carbonyl aminosulfonyl-3-chloro-1-methyl-1H-pyrazole-4-carboxylate in or on the raw agricultural commodity undelinted cotton seed & cotton gin by-products at 0.05 parts per million (ppm), rice grain at 0.05 ppm, rice straw at 0.20 ppm, tree nut group (Group 14) nutmeat at 0.05 ppm and hulls at 0.20 ppm, pistachio, nutmeat at 0.05 ppm, pistachio, hulls at 0.2 ppm.

In addition, Monsanto proposes the establishment of tolerances for halosulfuron methyl (as parent only) in or on the following raw agricultural commodities:

Corn, field: grain at 0.05 ppm, forage at 0.2 ppm, and fodder at 0.8 ppm.

Grain, sorghum (milo): grain at 0.05 ppm, forage at 0.05 ppm, and fodder/stover at 0.10 ppm.

Monsanto also proposes removing 40 CFR 180.479 (b) which reads as follows: *Indirect or inadvertent tolerances.* Tolerances are established for indirect or inadvertent residues of the herbicide halosulfuron-methyl and its metabolites determined as 3-chloro-1-methyl-5-sulfamoylpyrazole-4-carboxylic acid and expressed as parent equivalents, in or on the following raw agricultural commodities when present therein as a result of the application of halosulfuron-methyl to growing crops.

Soybean, forage at 0.5 ppm, soybean, hay at 0.5 ppm, soybean, seed at 0.5 ppm, wheat, forage at 0.1 ppm, wheat, grain at 0.1 ppm. and wheat, straw at 0.2 ppm.

EPA has determined that the petition contains data or information regarding the elements set forth in section 408(d)(2) of the FFDCA; however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the petition. Additional data may be needed before EPA rules on the petition.

A. Residue Chemistry

1. *Plant metabolism.* The metabolism of halosulfuron-methyl as well as the nature of the residues in plants is adequately understood for purposes of these tolerances. Metabolism studies were conducted in three crops, viz.; field corn, sugarcane and soybeans. Metabolism depends on the mode of application. Preemergent applications result in rapid soil degradation of halosulfuron-methyl followed by crop uptake of the resulting pyrazole moiety. The pyrimidine ring binds tightly to soil and is eventually converted to carbon dioxide by microbial degradation. In postemergent applications, little metabolism and translocation take place resulting in unmetabolized parent compound as the major residue on the directly treated foliar surfaces. Very low residue levels of the metabolite 3-chloro-1-methyl-5-sulfamoylpyrazole-4-carboxylic acid (3-CSA) are found in the grain.

2. *Analytical method.* A practical analytical method, gas chromatography with an electron- capture detector which detects and measures total residues (halosulfuron-methyl and metabolites) is available for enforcement purposes with a limit of detection that allows monitoring of food with residues at or above the levels set in these tolerances. This enforcement method has been submitted to the Food and Drug Administration for publication in the Pesticide Analytical Manual, Vol. II (PAM II). It has undergone independent laboratory validation and validation at the Beltsville laboratory. The Analytical Chemistry section of the EPA concluded that the method is adequate for enforcement. Analytical method is also available for analyzing meat by-products which also underwent successful independent laboratory and Beltsville laboratory validations.

3. *Magnitude of residues.* In the tree nut residue study, there were no quantifiable residues found in nut meats using an analytical method with limit of quantitation (LOQ) of 0.05 ppm. Residues ranging from <0.05 to 0.154 ppm were found in almond hulls when treated at 1.4 times the recommended rate. There were no detectable residues found in cotton undelinted seed as well as from the resulting processed commodities even at treatment rates of more than 5 times the maximum recommended rate per season. No quantifiable residues were found in cotton gin byproducts. The residues in the rice grain and rice processed fractions were below the limit of detection of 0.02 ppm at all locations. 5 of the 18 sites showed residues in rice straw ranging from 0.06 to 0.17 ppm while 13 sites had non-quantifiable residues (<0.05 ppm). Results of the aquatic sediment dissipation study showed that the parent and major metabolite residues dissipated rapidly in both soil and water phases with DT_{50} values of 1.3 and 1.87 days and DT_{90} of 6.48 and 12 days from 2 sites, respectively. The half-life of halosulfuron-methyl in the paddy water phase is calculated to be 0.87 days following direct application to water. The vertical mobility is not a major route of dissipation. The residues (parent and metabolites that are hydrolyzable to 3-CSA) dissipated rapidly in the upper soil layer but showed no indication of significant downward movement into the lower soil layers.

B. Toxicological Profile

1. *Acute toxicity.* Acute toxicological studies placing the technical-grade halosulfuron-methyl in Toxicity Category III. A 90-day feeding study in rats resulted in a lowest-observed-effect-level (LOEL) of 497 milligrams/kilograms/day (mg/kg/day) in males and 640 mg/kg/day in females, and a no-observed-effect-level (NOEL) of 116 mg/kg/day in males and 147 mg/kg/day in females.

2. *Genotoxicty.* Bacterial/mammalian microsomal mutagenicity assays were performed and found not to be mutagenic. Two mutagenicity studies were performed to test gene mutation and found to produce no chromosomal aberrations or gene mutations in cultured Chinese hamster ovary cells. An in *vivo* mouse micronucleus assay did not cause a significant increase in the frequency of micronucleated polychromatic erythrocytes in bone marrow cells. A mutagenicity study was performed on rats and found not to induce unscheduled DNA synthesis in primary rat hepatocytes.

3. *Reproductive and developmental toxicity.* A developmental toxicity study in rats resulted in a developmental LOEL of 750 mg/kg/day, based on decreases in mean litter size and fetal body weight, and increases in resorptions, resorptions/dam, post-implantation loss and in fetal and litter incidences of soft tissue and skeletal variations, and a developmental NOEL of 250 mg/kg/day. Maternal LOEL was 750 mg/kg/day based on increased incidence of clinical observations, reduced body weight gains, and reduced food consumption and food efficiency. The maternal NOEL was 250 mg/kg/day.

A developmental toxicity study in rabbits resulted in a developmental LOEL of 150 mg/kg/day, based on decreased mean litter size and increases in resorptions, resorptions/dam and post-implantation loss, and a developmental NOEL of 50 mg/kg/day. The maternal LOEL was 150 mg/kg/day based on reduced body weight gain and reduced food consumption and food efficiency. The maternal NOEL was 50 mg/kg/day.

A dietary 2-generation reproduction study in rats resulted in parental toxicity at 223.2 mg/kg/day in males and 261.4 mg/kg/day in females in the form of decreased body weights, decreased body weight gains, and reduced food consumption during the premating period. Very slight effects were noted in body weight of the offspring at this dose. This effect was

considered to be developmental toxicity (developmental delay) rather than a reproductive effect. No effects were noted on reproductive or other developmental toxicity parameters. The systemic/ developmental toxicity LOEL was 223.2 mg/kg/day in males and 261.4 mg/kg/day in females; the systemic/ developmental toxicity NOEL was 50.4 mg/kg/day in males and 58.7 mg/kg/day in females. The reproductive LOEL was greater than 223.2 mg/kg/day in males and 261.4 mg/kg/day in females; the reproductive NOEL was equal to or greater than 223.2 mg/kg/day in males and 261.4 mg/kg/day in females.

4. *Subchronic toxicity*. A 21-day dermal toxicity study in rats resulted in a NOEL of 100 mg/kg/day in males and greater than 1,000 mg/kg/day in females. The only treatment-related effect was a decrease in body weight gain of the 1,000 mg/kg/day group in males.

5. *Chronic toxicity*. A 1-year chronic oral study in dogs resulted in a LOEL of 40 mg/kg/day based on decreased weight gain and a NOEL of 10 mg/kg/day for systemic toxicity. A 78-week carcinogenicity study was performed on mice. Males in the 971.6 mg/kg/day group had decreased body weight gains and an increased incidence of microconcretion/mineralization in the testis and epididymis. No treatment-related effects were noted in females. Based on these results, a LOEL of 971.9 mg/kg/day was established in males and NOELs of 410 mg/kg/day in males and 1,214.6 mg/kg/day in females were established. The study showed no evidence of carcinogenicity. A combined chronic toxicity/ carcinogenicity study in rats resulted in a LOEL of 225.2 mg/kg/day in males and 138.6 mg/kg/day in females based on decreased body weight gains, and a NOEL of 108.3 mg/kg/day in males and 56.3 mg/kg/day in females. The study showed no evidence of carcinogenicity.

6. *Animal metabolism*. EPA stated that the nature of the residue in ruminants was determined to be adequately understood. In the tissues and milk of goats, the major extractable residue was the unmetabolized parent compound. Based on the low residues of the parent compound in corn grain and the low transfer of residues in the metabolism study, tolerances on poultry products were not required. In the rat metabolism study, parent compound was absorbed rapidly but incompletely. Excretion was relatively rapid at all doses tested with majority of radioactivity eliminated in the urine and feces by 72 hours. Fecal elimination of parent was apparently the result of unabsorbed parent.

7. *Metabolite toxicology*. The toxicology studies listed below were conducted with the 3-CSA metabolite. Based on the toxicological data of the 3-CSA metabolite, EPA concluded that it has lower toxicity compared to the parent compound and that it should not be included in the tolerance expression. The residue of concern is the parent compound only.

i. A 90-day rat feeding study resulted in a LOEL in males of >20,000 ppm and a NOEL of 20,000 ppm (1,400 mg/kg/day). In females, the LEL is 10,000 ppm (772.8 mg/kg/day) based on decreased body weight gains and a NOEL of 1,000 ppm (75.8 mg/kg/day).

ii. A developmental toxicity resulted in a LOEL for maternal toxicity of >1,000 mg/kg/day based on the absence of systemic toxicity, a NOEL of 1,000 mg/kg/day. The developmental LOEL is >1,000 mg/kg/day and the NOEL is 1,000 mg/kg/day.

iii. The microbial reverse gene mutation did not produce any mutagenic effect while the mammalian cell gene mutation/chinese hamster ovary cells did not show a clear evidence of mutagenic effect in the Chinese hamster ovary cells.

iv. The mouse micronucleus assay did not show any clastogenic or aneugenic effect.

8. *Endocrine disruption*. No specific tests have been conducted with halosulfuron-methyl to determine whether the chemical may have an effect in humans that is similar to an effect produced by a naturally occurring estrogen or other endocrine effects. However, there were no significant findings in other relevant toxicity tests, i.e., teratology and multi-generation reproduction studies, which would suggest that halosulfuron-methyl produces effects characteristic of the disruption of the estrogenic hormone.

C. Aggregate Exposure

1. *Dietary exposure*— i. *Food*. For purposes of assessing the potential dietary exposure from food under existing tolerances, aggregate exposure based on the Theoretical Maximum Residue Contribution (TMRC) which is an estimate of the level of residues consumed daily if each food item contained pesticide residues equal to the tolerance. The calculated TMRC value was 0.0005 mg/kg body weight/day for the general US population which will utilize only 0.51% of the Reference Dose (RfD) for established tolerances for halosulfuron-methyl and its metabolites in/on raw agricultural commodities of field corn, grain sorghum (milo) and secondary tolerances in meat and meat byproducts (cattle, goats, hogs, horses, and sheep). TMRC is obtained by multiplying the tolerance levels for each commodity by the average daily consumption of the food forms of that commodity eaten by the U.S. population and various population subgroups. In conducting this exposure assessment, conservative assumptions were made, e.g., 100% of all commodities will contain halosulfuron-methyl residues and those residues would be at the level of their respective tolerances. This results in a large overestimate of human exposure. Monsanto conducted another dietary exposure analysis to include food from crops in subsequent petitions including this petition. This analysis added dietary exposure from the following raw agricultural commodities using the proposed tolerance levels of each commodity, viz.; sweet corn (kernel + cobs with husks removed at 0.05 ppm, forage at 0.2 ppm, fodder/stover at 0.8 ppm), pop corn (grain at 0.05 ppm, fodder/stover at 0.8 ppm), sugarcane (cane at 0.05 ppm), tree nut crop grouping (nut meat at 0.05 ppm, hulls at 0.2 ppm), pistachio nuts (nutmeat at 0.05 ppm, hulls at 0.2 ppm), cotton (undelinted seed at 0.05 ppm, gin byproduct at 0.2 ppm) and rice (grain at 0.05 ppm and straw at 0.2 ppm). Food consumption data from the USDA Nationwide Food consumption survey for 1989-1992 and the EXPOSURE-1 software by TAS, Inc. were used in the calculation. Even with the same conservative assumptions, the potential dietary exposure to halosulfuron-methyl from consumption of products for which it is currently labeled and proposed resulted in a TMRC of 0.00064 mg/kg body weight/day and represents only 0.6% of the RfD for the general U.S. population. Field corn and sorghum forage and fodder are fed to animals, thus exposure of humans to residues from these commodities might result if such residues are transferred to meat, milk, poultry or eggs. However, based on the results of animal metabolism and the amount of halosulfuron-methyl expected in animal feeds, Monsanto concludes that there is no reasonable expectation that residues of halosulfuron-methyl will exceed existing tolerances in meat. The regulation of animal commodities and poultry products are not required.

ii. *Drinking water*. There is no Maximum Contaminant Level (MCL) established for residues of halosulfuron-methyl. It is not listed for MCL development or drinking water monitoring under the Safe Drinking Water Act nor is it a target of EPA's National Survey of Wells for Pesticides.

Monsanto is not aware of any halosulfuron-methyl detections in any wells, ponds, lakes or streams resulting from its use in the United States. A Lifetime Health Advisory Level (HAL), calculated using EPA procedures, may be used as a preliminary acceptable level in drinking water. The calculated level is 700 ppb which assumes a 20% relative contribution from water and which is sufficient to provide ample margins of safety. In addition, EPA has concluded that potential levels of halosulfuron-methyl or metabolites in soil and water do not appear to have significant toxicological effects on humans or animals and presents a negligible risk.

The EPA has expressed concern regarding potential groundwater contamination by the sulfonylurea (SU) class of chemistry in general and has required generic label warnings for halosulfuron-methyl; however, results of the field dissipation and lysimeter studies and a recently completed aquatic sediment study with halosulfuron-methyl should mitigate the concern for this chemical in particular.

Based on the very low level of mammalian toxicity, lack of other toxicological concerns and low use rates, Monsanto believes that there is reasonable certainty that no harm will result from exposure to halosulfuron-methyl via drinking water sources.

iii. *Non-dietary exposure.* Halosulfuron-methyl is labeled for use on commercial and residential turf and other non-crop sites which could have minimal opportunity for exposure. The agricultural uses including the proposed uses in tree nut crop group, pistachio nuts, cotton and rice will not increase the non-occupational exposure appreciably, if at all. Any exposure to halosulfuron-methyl resulting from turf use will result from dermal exposure during application and will be limited because of low use rates. In the 21-day dermal study, no treatment related adverse effects were observed and the NOAEL was determined to be greater than the highest dose tested, >1,000 mg/kg. Halosulfuron-methyl is non-volatile with a vapor pressure of $<1 \times 10^{-7}$ mm Hg, hence, inhalation exposure during and after application will not add significantly to aggregate exposure. Based on the physical and chemical characteristics, low use rates, low acute toxicity and lack of other toxicological concerns, Monsanto believes that the risk posed by non-occupational exposure to halosulfuron-methyl is minimal.

D. Cumulative Effects

Halosulfuron-methyl belongs to the sulfonyl urea class of chemistry. The mode of action of halosulfuron-methyl is the inhibition of the plant enzyme aceto lactase synthetase (ALS), which is essential for the production of required amino acid in plants. Although other registered sulfonyl ureas may have similar herbicidal mode of action, there is no information available to suggest that these compounds exhibit a similar toxicity profile in the mammalian system that would be cumulative with halosulfuron-methyl. Thus, consideration of a common mechanism of toxicity is not appropriate at this time. Monsanto is considering only the potential risks of halosulfuron-methyl in its aggregate exposure assessment.

E. Safety Determination

1. *U.S. population—Chronic dietary exposure.* As stated above, the EPA's calculated aggregate chronic exposure to halosulfuron-methyl from the established tolerances for field corn and grain sorghum raw agricultural commodities utilizes only 0.51% of the RfD using very conservative assumptions. Monsanto's subsequent calculation to include the proposed tolerances on sweet corn, pop corn, sugarcane, tree nut crop grouping, pistachio nuts, rice and cotton estimates that it will utilize only 0.6% of the RfD for the entire U.S. population. EPA generally has no concern for exposures below 100% of the RfD because the RfD represents the level at or below which daily aggregate dietary exposure over a lifetime will not pose appreciable risks to human health. Toxicology data indicating low potential for mammalian toxicity and lack of other toxicity concerns plus the conservative assumptions used in this calculation support the conclusion that there is a "reasonable certainty of no harm" to the U.S. population in general from aggregate exposure to halosulfuron-methyl residues from all anticipated dietary exposures and all other non-occupational exposures.

2. *Acute dietary exposure.* The detailed DRES acute exposure analysis evaluates individual food consumption and estimates the distribution of single day exposures through the diet for the US population and certain subgroups. Since the toxicological effect to which high end exposure is compared is developmental toxicity, EPA determined that the DRES subgroup of concern is females (13+ years) which approximates women of child-bearing age. The appropriate NOEL to use to assess safety in acute exposure is 50 mg/kg body weight/day from a developmental toxicity study in rabbits.

For shorter term risk, the Margin of Exposure (MOE), a measure of how closely the high end exposure comes to the NOEL and is calculated as a ratio of the NOEL to the exposure (NOEL/exposure = MOE). For toxicological endpoints established based upon animal studies ,the agency is generally not concerned unless the MOE is below 100. In this analysis, tolerance levels were used to calculate the exposure of the highest exposed individual (females, 13+ year subgroup). High end exposure for this subgroup resulted in an MOE in excess of 30,000. Therefore, the acute dietary exposure to halosulfuron-methyl does not represent a risk concern. Monsanto has calculated the MOE for all tolerances (established and proposed) which resulted in an MOE of 31,623 for the entire U.S. population. Monsanto's calculation used the individual food consumption data from the 1989-1992 USDA Food Consumption Surveys and the EXPOSURE-4 software by TAS, Inc. Therefore, Monsanto concludes that there is a reasonable certainty that no harm will result from acute aggregate exposure to halosulfuron-methyl residues.

3. *Infants and children.* In assessing the potential for additional sensitivity of infants and children to residues of halosulfuron-methyl, Monsanto considered data from developmental toxicity studies in the rat and rabbit and a 2-generation reproduction study in the rat. The developmental toxicity studies are designed to evaluate the potential for adverse effects on the developing organism resulting from exposure during prenatal development to the female parent. Reproduction studies provide information relating to effects from exposure to the chemical on the reproductive capability of both (mating) parents and on off spring from pre-natal and post-natal exposure to the pesticide as well as systemic toxicity.

In a developmental toxicity study in the rat, the NOEL for both maternal and developmental toxicity was considered to be 250 mg/kg/day. In a developmental toxicity study in rabbits, a NOEL for both developmental and maternal toxicity was considered to be 50 mg/kg/day. A dietary 2-generation reproduction study in rats resulted in parental toxicity at 223.2 mg/kg/day in males and 261.4 mg/kg/day in females in the form of decreased body weights, decreased body weight gains, and reduced food consumption during the premating period. Very slight effects were noted in body weight of the offspring at this dose. This effect was

considered to be developmental toxicity (developmental delay) rather than a reproductive effect. No effects were noted on reproductive or other developmental toxicity parameters. The systemic/developmental toxicity NOEL was 50.4 mg/kg/day in males and 58.7 mg/kg/day in females. The reproductive NOEL was equal to or greater than 223.2 mg/kg/day in males and 261.4 mg/kg/day in females. In all cases, the reproductive and developmental NOELs were greater than the NOEL on which the RfD was based, thus allowing for an additional margin of safety and indicating that halosulfuron-methyl does not pose any increased risk to infants or children.

4. *Chronic analysis.* Using the conservative dietary exposure assumptions described above, the TMRC for the most exposed subgroups is 0.00117 mg/kg body weight/day for nonnursing infants (less than 1-year old) and 0.001008 mg/kg body weight/day for children (1 to 6 years old), and that this aggregate exposure to residues of halosulfuron-methyl utilizes only 1.170 and 1.008% of the RfD, respectively when existing tolerances are considered. Monsanto's subsequent analysis included contribution from the proposed tolerances in sugarcane, sweet corn/popcorn, tree nut crop grouping, pistachio nuts, rice and cotton. The TMRC utilized only 1.7 and 1.3% of the RfD, respectively.

FFDCA section 408 provides that EPA may apply an additional safety factor (up to 10) in the case of threshold effects for infants and children to account for pre- and post-natal toxicity and the completeness of the data base. Based on current toxicological data requirements, the data base relative to pre- and post-natal effects in children is complete. Further, the NOEL of 10 mg/kg/day from the 1-year feeding study in dogs, which was used to calculate the RfD (discussed above), is already lower than the NOELs from the reproductive and developmental studies with halosulfuron-methyl by a factor of at least 25- and 5-fold, respectively. An additional safety factor is not warranted and the RfD of 0.1 mg/kg/day is appropriate for assessing aggregate risk to infants and children.

Therefore, based on complete and reliable toxicity data and the conservative exposure assessment, Monsanto concludes that there is reasonable certainty that no harm will result to infants and children from aggregate exposure to halosulfuron-methyl residues.

F. International Tolerances

Maximum residue levels have not been established for residues of halosulfuron-methyl on corn, sorghum, sugarcane, sweet corn, pop corn, tree nuts, pistachio nuts, rice or cotton or any other food or feed crop by the Codex Alimentarius Commission.

2. Norvartis Crop Protection Inc.

PP 3F4225

EPA has received a pesticide petition (PP 3F4225) from Norvartis Crop Protection INC., P.O. Box 18300, Greensboro, NC 27419, proposing pursuant to section 408(d) of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. 346a(d), to amend 40 CFR part 180 extending time limited tolerances for residues of Triasulfuron in or on the raw agricultural commodity grass, forage at 7.0 ppm, grass, hay at 2.0 ppm and kidney of cattle, goats, hogs, horses, and sheep at 0.5 ppm. EPA has determined that the petition contains data or information regarding the elements set forth in section 408(d)(2) of the FFDCA; however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the petition. Additional data may be needed before EPA rules on the petition.

A. Residue Chemistry

1. *Plant metabolism.* The nature of the residue in plants is understood. The metabolism of triasulfuron in wheat proceeds by hydroxylation of the phenyl ring and hydrolytic cleavage of the urea bridge. The residue of regulatory concern is parent triasulfuron. Because the metabolism work in wheat can be translated to grasses, parent compound is the residue of regulatory concern for grasses.

2. *Analytical method.* Triasulfuron in grass was analyzed by Analytical Method AG-500B which the validated tolerance enforcement method. According to Method AG-500B, triasulfuron is extracted with a mixture of methanol and phosphoric acid. The extract is diluted with water. Triasulfuron residues are partitioned into dichloromethane and cleaned up on a BondElut CN solid phase extraction column. Residues are determined by column-switching HPLC utilizing a Lichrosorb CN column followed by a Zorbax ODS column, with UV detection at 232 nm.

3. *Magnitude of residues.* A total of 16 field trials have been conducted in 16 States. Seven sites tested bromegrass or fescue, 5 used bluegrass, and 4 used bermudagrass. A total of 69.6% of U.S. pastureland was represented by these trials. Two post broadcast spray applications were made 60-days apart at a rate of 12 grams active ingredient/A/application. Time-limited tolerances were previously established at 7 ppm in grass, forage and 2 ppm in grass, hay pending the submission of additional residue trials. These additional field trials which are included in the numbers above did not show residues exceeding the current tolerances in either grass, forage (0-day PHI) or grass, hay (30-days PHI). The feeding of either substrate to beef or dairy cattle will not result in existing tolerances in animal commodities being exceeded.

B. Toxicological Profile

1. *Acute toxicity.* Triasulfuron has a low order of acute toxicity. The rat oral LD_{50} is > 5,000 milligrams/kilogram (mg/kg), the acute rabbit dermal LD_{50} is > 2,000 mg/kg and the rat inhalation LC_{50} is > 5.2 mg/L. Triasulfuron is slightly irritating to the eye but not irritating to skin. It is not a skin sensitizer in guinea pigs. The commercial formulation of triasulfuron (75WP) has a similar acute toxicity profile. Both the technical material and the 75WP formulation require a Category III CAUTION Signal Word on the label.

2. *Genotoxicty.* Assays for genotoxicity were comprised of tests evaluating the potential of triasulfuron to induce point mutations (*Salmonella typhimurium*, *Saccharomyces cerevisiae* and mouse lymphoma L5178Y/TK/+/- cells), chromosome aberrations (micronucleus test in Chinese hamsters) and the ability to induce either unscheduled DNA synthesis in rat hepatocytes and human fibroblasts. The results indicate that triasulfuron is not mutagenic or clastogenic and does not induce unscheduled DNA synthesis.

3. *Reproductive and developmental toxicity.* The developmental and teratogenic potential of triasulfuron was investigated in rats and rabbits. The results indicate that triasulfuron was maternally toxic in the rat at doses of > 300 mg/kg/day. Developmental toxicity in the form of delayed skeletal maturation was observed only at the highest dose tested (HDT) of 900 mg/kg/day. The corresponding maternal and developmental NOELs were established at doses of 100 and 300 mg/kg/day, respectively in the rat. In the rabbit, maternal toxicity was observed at the HDT of 240 mg/kg/day; no evidence of developmental toxicity was present at 240 mg/kg/day. The maternal developmental NOELs were 120 and 240 mg/kg/day, respectively. No evidence of teratogenicity was observed at the HDT in either the rat or rabbit.

There was no effect of triasulfuron on reproductive performance in a 2 generation rat reproduction study conducted at doses of 1, 50 and 250 mg/kg/day. Maternal and fetal toxicity as indicated by decreased body weight gain was noted at the HDT of 250 mg/kg/day. The maternal and developmental NOEL was 50 mg/kg/day.

4. *Subchronic toxicity.* The subchronic toxicity of triasulfuron was evaluated in the rat and dog at high doses. Triasulfuron was poorly tolerated in the rat at doses of > 516 mg/kg/day as indicated by increased mortality, decreased body weight gain and kidney damage due to the presence of triasulfuron-containing calculi present in the urogenital tract. The NOEL in the rat was 10 mg/kg/day. Triasulfuron was not well tolerated by the dog at doses of 10,000 ppm (250 mg/kg/day) as indicated by body weight reduction, anemia, and effects on the spleen, liver and kidney. The NOEL was 1,000 ppm (33 mg/kg/day).

5. *Chronic toxicity.* The chronic toxicity of triasulfuron was investigated in long term studies in the rat, mouse and dog. Target organs included the liver, kidney and blood. NOELs were established at dose levels of 32.1, 1.2, and 129 mg/kg/day, respectively. The mouse is the most sensitive species with a NOEL = 1.2 mg/kg/day. The carcinogenicity studies on triasulfuron showed no evidence of an oncogenic response in either mouse or rat. The chemical is classified in category E.

6. *Animal metabolism.* The metabolism of triasulfuron has been well characterized in standard FIFRA rat, goat and poultry metabolism studies. Parent triasulfuron accounts for the majority of the excreted dose in these species. Cleavage of the sulfonylurea bridge occurs at a low rate but it is more prevalent in goats and hens than in rats. Hydroxylation of the phenyl ring, which constitutes the major metabolic pathway elucidated in wheat, also was found in the rat. None of the metabolites identified in these studies are considered to be toxicologically different than parent.

7. *Metabolite toxicology.* The metabolism of triasulfuron has been well characterized in rat, goat and poultry metabolism studies. None of the metabolites identified in these studies are considered to be toxicologically different than parent.

8. *Endocrine disruption.* Triasulfuron does not belong to a class of chemicals known or suspected of having adverse effects on the endocrine system. There was no effect of triasulfuron on reproductive performance in a 2-generation rat reproduction study conducted at doses of 1, 50 and 250 mg/kg/day. Although residues of triasulfuron have been found in raw agricultural commodities, there is no evidence that triasulfuron bioaccumulates in the environment.

C. Aggregate Exposure

1. *Food.* Novartis has estimated the aggregate exposure to triasulfuron based on the established and time-limited tolerances for triasulfuron (40 CFR 180.459). The theoretical maximum residue contribution to diet is obtained by multiplying the tolerance level residue for all these raw agricultural commodities by the consumption data which estimates the amount of these products consumed by various population subgroups. Because some of these raw agricultural commodities (e.g. wheat and barley forage and fodder, grass forage and hay) are fed to animals, the transfer of residues to animal commodities has been calculated based on a conservatively constructed cattle diet. In addition, Novartis has conservatively assumed that 100% of the raw agricultural commodities contain residues of triasulfuron at tolerance levels.

2. *Drinking water.* Another potential source of exposure of the general population to residues of pesticides are residues in drinking water. The potential for triasulfuron to enter surface or groundwater sources of drinking water is limited because of the low use rate. The Maximum Contaminant Level Guideline (MCLG) calculated for triasulfuron according to EPA's procedures is 84 ppb, a value that is substantially greater than levels that are likely to be found in the environment under proposed conditions of use.

3. *Non-dietary exposure.* Novartis has evaluated the estimated non-occupational exposure to triasulfuron and concludes that the potential for non-occupational exposure to the general population is unlikely since triasulfuron is not planned to be used in or around the home, including home lawns.

D. Cumulative Effects

Novartis also has considered the potential for cumulative effects of triasulfuron and other chemicals belonging to this class that may have a common mechanism of toxicity. Novartis concluded that consideration of a common mechanism of toxicity is not appropriate at this time since there is no data to establish whether a common mechanism exists.

E. Safety Determination

1. *U.S. population.* Using the conservative exposure assumptions described above, based on the completeness and reliability of the toxicity data, Novartis has concluded that aggregate exposure to triasulfuron will utilize a maximum of 4.63% of the RfD for the U.S. population based on chronic toxicity endpoints. EPA generally has no concern for exposures below 100% of the RfD because the RfD represents the level at or below which daily aggregate dietary exposure over a lifetime will not pose appreciable risks to human health. Therefore, Novartis concludes that there is a reasonable certainty that no harm will result from aggregate exposure to triasulfuron or residues of triasulfuron that may appear in raw agricultural commodities.

2. *Infants and children.* In assessing the potential for additional sensitivity of infants and children to residues of triasulfuron, Novartis has considered data from developmental toxicity studies in the rat and rabbit and a 2-generation reproduction study in the rat on triasulfuron. The developmental toxicity studies are designed to evaluate adverse effects on the developing organism resulting from chemical exposure during prenatal development to one or both parents. Reproduction studies provide information relating to effects from exposure to a chemical on the reproductive capability of mating animals and data on systemic toxicity.

Developmental toxicity in the form of delayed skeletal maturation was observed in the rat only at the HDT of 900 mg/kg/day. The corresponding maternal and developmental NOELs were established at doses of 100 and 300 mg/kg/day, respectively in the rat. In the rabbit, maternal toxicity was observed at the HDT of 240 mg/kg/day; no evidence of developmental toxicity was present at 240 mg/kg/day.

There was no effect of triasulfuron on reproductive performance in a 2 generation rat reproduction study conducted at doses of 1, 50 and 250 mg/kg/day. Maternal and fetal toxicity as indicated by decreased body weight gain was noted at the HDT 250 mg/kg/day. The maternal and developmental NOELs were 50 mg/kg/day.

Section 408 of the FFDCA provides that EPA may apply an additional safety factor for infants and children in the case of threshold effects to account for pre- and post-natal toxicity and the completeness of the database. Based on the current toxicological data requirements, the database relative to pre- and post-natal effects for children is complete. Further, for triasulfuron,

the NOEL of 1.2 mg/kg/day from the mouse oncogenicity study, which was used to calculate the RfD of 0.01 mg/kg/day, was approximately 50 times lower than the developmental NOEL level from the rat multigeneration reproduction study. There is no evidence to suggest that developing organisms are more sensitive to the effects of triasulfuron than are adults.

Using the conservative exposure assumptions described above and the chronic toxicity NOEL of 1.2 mg/kg/day (RfD of 0.01 mg/kg/day), Novartis has determined that the % of the RfD that will be utilized by aggregate exposure to residues of triasulfuron is 3.98% for nursing infants less than 1-year old, 15.43% for non-nursing infants, 10.91% for children 1 to 6-years old and 7.34% for children 7 to 12-years old. Therefore, based on the completeness and reliability of the toxicity data and the conservative exposure assessment, Novartis concludes that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to triasulfuron residues.

F. International Tolerances

There are no Codex Alimentarius Commission (CODEX) maximum residue levels (MRL's) established for residues of triasulfuron in or on raw agricultural commodities.

3. Zeneca Ag Products

PP 8F4954

EPA has received a pesticide petition (PP 8F4954) from Zeneca Ag Products, 1800 Concord Pike, Wilmington, DE 19850-5458 proposing pursuant to section 408(d) of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. 346a(d), to amend 40 CFR part 180 by establishing a tolerance for residues of the herbicide, 2-[4-(methylsulfonyl)-2-nitrobenzoyl]-1,3-cyclohexanedione, in or on the raw agricultural commodities field corn, field corn fodder and field corn forage at 0.01 ppm. EPA has determined that the petition contains data or information regarding the elements set forth in section 408(d)(2) of the FFDCA; however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the petition. Additional data may be needed before EPA rules on the petition.

A. Residue Chemistry

1. *Plant metabolism.* The nature of the residue of 2-[4-(methylsulfonyl)-2-nitrobenzoyl]-1,3-cyclohexanedione, (hereafter referred to by the trade name ZA1296) in plants is adequately understood. ZA1296 is rapidly and completely metabolized in corn. No single extract or component accounted for greater than 0.01 ppm in grain. Numerous components were characterised in forage and fodder, including the metabolite 2-amino-4-methylsulfonyl benzoic acid (AMBA) and its conjugates and 4-methylsulfonyl-2-nitrobenzoic acid (MNBA). In addition to ZA1296, MNBA was included in crop residue analysis.

2. *Analytical method.* The proposed analytical method involves extraction, partition, clean-up and separation of ZA1296 and MNBA, oxidation of ZA1296, reduction, clean-up and detection of residues by reversed-phase HPLC using fluorescence detection. The limit of quantitation for ZA1296 and the metabolite MNBA is 0.01 ppm.

3. *Magnitude of residues.* Twenty residue trials were conducted in the US (EPA regions I, II, V and VI). The proposed use of ZA1296 does not result in residues (LOQ of 0.01 ppm) of ZA1296 or the metabolite MNBA in field corn grain, forage or fodder.

B. Toxicological Profile

1. *Acute toxicity.* A battery of acute toxicity tests were conducted which place ZA1296 in acute oral toxicity category IV, acute dermal toxicity category III, acute inhalation toxicity category IV, primary eye irritation category III, and primary dermal irritation category IV. ZA1296 is not a skin sensitizer. ZA1296 is not a neurotoxin in males and females at 2,000 mg/kg (limit test).

2. *Genotoxicty.* ZA296 was found to be negative for mutagenicity in a battery of mutagenicity tests (*in vitro*) Ames Testing, Mouse Lymphoma, Human Lymphocytes and *in vivo* Mouse Micronucleus).

3. *Reproductive and developmental toxicity*—i. *Developmental toxicity (rabbit).* New Zealand white rabbits were dosed orally by gavage with 0, 100, 250 or 500 mg/kg/day ZA1296 on days 8-20 of gestation. The top dose level in this study was set on the basis of significant maternal toxicity seen at higher dose levels in a preliminary study. At dose levels of 250 and 500 mg/kg/day there was a low incidence of whole litter losses. ZA1296 was not associated with significant maternal toxicity or evidence of teratogenicity. Dose levels of 100 mg/kg/day or more were associated with changes in the ossification of the fetal skeleton but not with structural malformation. The changes in ossification are transient in nature and considered not to be of toxicological significance in terms of post natal development. A developmental NOAEL of 100 mg/kg/day was established in this study.

ii. *Developmental toxicity (rat).* Rats were dosed orally by gavage with 0, 100, 300 or 1,000 mg/kg/day ZA1296 on days 7-16 of gestation. Maternal toxicity, as evidenced by reductions in body weight and food consumption, was seen at dose levels of 100, 300 or 1,000 mg/kg/day ZA1296. Administration of ZA1296 at dose levels of up to 1,000 mg/kg/day produced no evidence of teratogenicity. An increased incidence of minor skeletal defects and skeletal variants and increases in mean manus and pes scores were seen at all dose levels and were indicative of reduced ossification or a disturbance in the normal pattern of ossification. The changes in ossification are transient in nature and are considered not to be of toxicological significance in terms of post-natal development. Fetal weight was reduced at 1,000 mg/kg/day. A developmental NOAEL of 300 mg/kg/day was established in this study.

iii. *Reproductive toxicity (rat).* In a 3-generation study rats were fed diets containing 0, 2.5, 10 or 2500 ppm ZA1296. Dietary administration of ZA1296 had no effect on mating performance but was found to result in reduced pup survival at a dose of 2,500 ppm in all 3-generations and at 100 ppm in the second generation only. These findings were not present in recovery subgroups removed from treated diet in the third generation. There was also a reduction in the number of pups per litter, and effects on body weights and in the eye and kidney. In the third generation, there were no effects in the eyes or kidneys of offspring from animals which were returned to control diet 4 weeks prior to mating and effects on litter size were less marked than in the continuous treatment group. A NOEL of 2.5 ppm ZA1296 (0.3 mg/kg/day) was established in this study. In light of the mechanism of toxicity, investigations into the effects seen in this study in pups are considered not to be relevant to human risk assessment.

iv. *Reproductive toxicity (mouse).* In a 2-generation study mice were fed diets containing 0, 10, 50, 350, 1,500 or 7.000 ppm ZA1296. There were no adverse effect of ZA1296 on the reproductive performance of the mouse, on fertility and fecundity of the F0 and F1 adult animals or on survival of their offspring. The body weights of the offspring were reduced at 1,500 and 7,000 ppm ZA1296. A NOEL of 350 ppm ZA1296 (71 mg/kg/day) was established in this study.

4. *Subchronic toxicity*—i. *21-day dermal (rabbits).* Rabbits were repeatedly dosed with ZA1296 at 0, 10,

500 or 1,000 mg/kg/day for 21 days. The NOEL for sub-acute dermal toxicity was >1,000 mg/kg/day (limit dose).

ii. *90-day rodent (rat).* In a first study male and female rats were dosed with 0, 1, 125, 1,250 or 12,500 ppm ZA1296 in the diet for 90-days. The NOEL was determined to be 1ppm for males and females (0.09 and 0.1 mg/kg/day, respectively) based on reduced bodyweight and increased liver weight in males and females at 125 ppm and increased kidney weight and ocular keratitis in males at 125 ppm. 125 ppm (13 mg/kg/day) was a NOEL for the ocular keratitis in females. In a second study in male rats dosed with ZA1296 at 0, 10, 20 or 150 ppm ZA1296 in the diet for 90-days, a NOEL of 20 ppm (1.7 mg/kg/day) was determined for reduced bodyweight. At the 10 ppm dose level ocular keratitis and increased liver and kidney weights were observed. In a third study in male and female rats dosed with ZA1296 at 0, 2.5, 5.0, 7.5 or 150 ppm in the diet for 90-days, NOELs of 5 ppm (0.41 mg/kg/day) for ocular keratitis and increased kidney weight and 7.5 ppm (0.63 mg/kg/day) for reduced bodyweight were determined in males. NOELs of 7.5 ppm (0.71 mg/kg/day) for reduced bodyweight and increased liver weight and 150 ppm (14 mg/kg/day) for increased kidney weight were determined in females. At 2.5 ppm in males increased liver weight was observed. In light of investigations into the mechanism of toxicity, these changes are all considered not to be relevant to human risk assessment.

iii. *90-day rodent (mouse).* Mice were dosed 0, 50, 350 or 7,000 ppm in the diet for 90-days. In females no clear toxic effects were observed at 7,000 ppm (1,500 mg/kg/day). In males 7,000 ppm (1,200 mg/kg/day) was associated with a reduced growth rate and food utilization. In males and females 350 ppm (62 and 80 mg/kg/day, respectively) produced no effects which were considered to be toxicologically significant.

iv. *90-day non-rodent (dog).* Beagle dogs were dosed with ZA1296 at 0, 100, 600 or 1,000 mg/kg/day as a daily oral dose by capsule, for a period of 90-days. The NOEL in the dog over 90-days was 100 mg/kg/day. Minimal toxicity was observed at 600 and 1,000 mg/kg/day, evident as reduced bodyweights in males and a microcytic polycythemia in both sexes. Mesothelial proliferation of the atrium of the heart was evident in 2 male dogs at 1,000 mg/kg/day.

v. *90-day neurotoxicity (rat).* Rats were dosed with ZA1296 at 0, 2.5, 100 or 5,000 ppm in the diet for 90-days. The NOAEL for subchronic neurotoxicity was determined to be 5,000 ppm (400 and 460 mg/kg/day for males and females, respectively) based on the absence of changes indicative of neurotoxicity.

5. *Chronic toxicity*—i. *1-year non-rodent (dog).* Beagle dogs were dosed with ZA1296 at 0, 10, 100 or 600 mg/kg/day as a daily oral dose by capsule, for a period of 1-year. The NOEL in this study was 100 mg/kg/day. At 600 mg/kg/day males showed a significant reduction in bodyweight and both sexes showed a slight microcytic polycythemia, indicating that a maximum tolerated dose had been achieved. Minimal ocular keratitis was observed in 1 male and 1 female at 600 mg/kg/day.

ii. *1-year rodent (mouse).* Mice were dosed with ZA1296 at 0, 10, 50, 350 or 7,000 ppm in the diet for 1 year. The NOEL in males and females was 350 ppm (56 and 72 mg/kg/day, respectively). At 7,000 ppm (limit dose) bodyweight was reduced in males, and there was an increased incidence of eosinophilic change in the gall bladder of females.

iii. *Combined rodent chronic toxicity/oncogenicity (rat).* Rats were dosed with ZA1296 at 0, 7.5, 100 or 2,500 ppm in the diet for up to 2 years. In addition rats were fed diet containing 1 or 2.5 ppm ZA1296 for up to 2-years to determine the chronic ocular toxicity. Oral administration of 7.5, 100 or 2,500 ppm ZA1296 for at least 2-years caused ocular keratitis, reduced bodyweights, increased liver and kidney weights, and an increased incidence of common spontaneous lesions in the Alderley Park rat. In light of investigations into the mechanism of toxicity, these changes are all considered not to be related to human risk assessment. Satellite groups of rats fed 1 and 2.5 ppm ZA1296 showed that dietary levels of 2.5 ppm in males and 7.5 ppm in females were without ocular effect. ZA1296 was considered not to be carcinogenic in the rat in this study. A NOEL of 7.5 ppm ZA1296 was established for females.

iv. *Oncogenicity in the rodent (mouse).* Mice were fed diets containing 0, 10, 350 or 7,000 ppm ZA1296 for up to 80-weeks. Oral administration of 7,000 ppm (900-1,100 mg/kg/day) ZA1296 (limit dose) for at least 80-weeks produced no evidence of carcinogenicity in male or female mice.

6. *Animal metabolism.* The absorption, distribution, metabolism and excretion of ZA1296 has been thoroughly investigated in rats and studied in mice. In both species ZA1296 is well absorbed following an oral dose. Elimination of ZA1296 is rapid in both species, with most of the ZA1296 eliminated, in the urine, unchanged with only minor amounts of the urinary and fecal metabolites, including MNBA and AMBA, detected. In poultry ZA1296 is excreted generally unchanged. In ruminants ZA1296 is extensively metabolised and excreted. AMBA dosed to ruminants is readily absorbed and excreted, generally unchanged. AMBA is not accumulated in edible tissues or milk.

7. *Metabolite toxicology.* In acute oral toxicity studies in male and female rats both MNBA and AMBA had an oral LD_{50} of >5,000 mg/kg. In the Ames assay, both MNBA and AMBA were found to be negative for mutagenicity in the absence and presence of metabolic activation.

8. *Endocrine disruption.* EPA is required to develop a screening program to determine whether certain substances (including all pesticides and inerts) "may have an effect in humans that is similar to an effect produced by a naturally occurring estrogen, or such other endocrine effect." EPA is currently working with interested shareholders, including other government agencies, public interest groups, industry, and research scientists, to develop a screening and testing program and a priority setting scheme to implement this program. Congress has allowed 3-years from the passage of FQPA (August 3, 1999) to implement this program. When this program is implemented, EPA may require further testing of ZA1296 and end-use product formulations for endocrine disrupter effects.

9. *Reference dose.* As required by the Food Quality and Protection Act of 1996, the mechanism of toxicity of ZA1296 has been thoroughly investigated in studies (FQPA) in the rat, mouse and man. These data clearly demonstrate that the response to ZA1296 administration in man is very similar to that seen in the mouse which should therefore, be used in preference to the rat when assessing the safety of ZA1296 to humans. The proposed reference dose (RfD) for use in the assessment of risk from chronic exposure is 0.56 mg/kg/day and is derived from the 1 year chronic toxicity study in the mouse with a NOEL of 56 mg/kg/day and a 100-fold uncertainty factor.

C. Aggregate Exposure

1. *Dietary exposure.* The potential dietary exposure to ZA1296 was estimated from tolerance levels and 100% crop treated. No tolerances are proposed for meat, milk and eggs. The total dietary exposure for the U.S. population and the most highly exposed

subgroup in the population, non-nursing infants, is 0.000011 mg/kg/day and 0.000027 mg/kg/day, respectively.

2. *Drinking water.* Drinking water estimated concentrations (DWEC) were calculated using EPA models for groundwater and surface water - SCI-GROW, GENEEC and PRZM/EXAMS. Chronic Drinking Water Levels of Concern (DWLOC) were calculated according to the EPA SOP and compared to the DWEC. Estimated average contributions of ZA1296 in surface and groundwater are less than the levels of concern for ZA1296 in drinking water as a contribution to chronic aggregate exposure.

3. *Non-dietary exposure.* Zeneca has not estimated non-occupational exposure for ZA1296 since the only pending registration for ZA1296 is limited to commercial crop production use. ZA1296 products are not labelled for any residential uses therefore, eliminating the potential for residential exposure. The potential for non-occupational exposure to the general population is considered to be insignificant.

D. Cumulative Effects

Zeneca also considered the potential for cumulative effects of ZA1296 and other substances that have a common mechanism of toxicity. Zeneca has concluded that consideration of a common mechanism of toxicity is not appropriate at this time since there is no indication that toxic effects produced by ZA1296 would be cumulative with those of any other chemical compounds. Triketone chemistry is new and ZA1296 has a novel mode of action compared to currently registered active ingredients.

E. Safety Determination

1. *U.S. population.* Dietary and occupational exposure will be the major routes of exposure to the U.S. population and ample margins of safety have been demonstrated for both situations. The total dietary exposure for the U.S. population is 0.000011 mg/kg/day. This utilizes only 0.002% of the RfD. The MOE for occupational exposure is >5,500. Based on the completeness and reliability of the toxicity data and the conservative exposure assessments, there is reasonable certainty that no harm will result from the aggregate exposure of residues of ZA1296 including all anticipated dietary exposure.

2. *Infants and children.* The total dietary exposure for the most highly exposed subgroup in the population, non-nursing infants, is 0.000027 mg/kg/day. This utilizes only 0.0048% of the RfD. There are no residential uses of ZA1296 and the estimated average contributions of ZA1296 in surface and groundwater are less than the levels of concern for ZA1296 in drinking water as a contribution to chronic aggregate exposure. Based on the completeness and reliability of the toxicity data and the conservative exposure assessments, there is reasonable certainty that no harm will result from the aggregate exposure of residues of ZA1296 including all anticipated dietary exposure.

F. International Tolerances

A maximum residue level has not been established for ZA1296 by the Codex Alimentarius Commission.

BILLING CODE 6560–50–F

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 91–141; DA 98–839]

Local Competition Survey

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On May 8, 1998, the Common Carrier Bureau issued a Public Notice to solicit comment on how the Commission can collect sufficient information about local competition to achieve the regulatory flexibility, pro-competition, and universal service objectives of the Telecommunications Act of 1996 (1996 Act) while minimizing filing burdens on respondents. The Public Notice seeks comment on what information should be collected as well as on such issues as whether periodic data collection should be mandatory and which telecommunications carriers should provide information.

DATES: Comments to the Public Notice are due on or before June 7, 1998. Reply comments are due on or before June 22, 1998.

ADDRESSES: Comments and reply comments should be sent to the Office of the Secretary, Federal Communications Commission, 1919 M Street, N.W., Suite 222, Washington, D.C. 20554, with a copy to Ms. Terry Conway of the Common Carrier Bureau, Federal Communications Commission, 2033 M Street, N.W., Suite 500, Washington, D.C. 20554. Parties should also file one copy of any documents filed in this docket with the Commission's copy contractor, International Transcription Services, Inc. (ITS), 1231 20th St., NW, Washington, DC 20036, (202) 857–3800.

FOR FURTHER INFORMATION CONTACT: Thomas J. Beers, Deputy Chief of the Industry Analysis Division, Common Carrier Bureau, at (202) 418–0952, or Ellen Burton, Industry Analysis Division, Common Carrier Bureau, at (202) 418–0958. Users of TTY equipment may call (202) 418–0484.

SUPPLEMENTARY INFORMATION: This is a summary of the Bureau's Public Notice released May 8, 1998 (DA 98–839). The full text of this Public Notice is available for inspection and copying during normal business hours in the FCC Reference Center, Room 239, 1919 M Street, Washington, D.C. 20554. The complete text also may be purchased from the Commission's copy contractor, International Transcription Service, Inc., (202) 857–3800, 1231 20th St., NW, Washington, DC 20036.

Summary of the Public Notice

The Commission requires timely and reliable information on the pace and extent of development of competition for local telecommunications services in different geographic markets to evaluate the effectiveness of decisions taken to implement the pro-competition provisions and to achieve the universal service goals of the Telecommunication Act of 1996 (47 U.S.C. Section 151 *et seq.*). The Commission also requires such information to identify services and geographic markets where local competition has developed sufficiently to allow the Commission to exercise its regulatory forbearance authority (47 U.S.C. Section 160(a)).

The Commission has previously concluded (*Expanded Interconnection with Local Telephone Company Facilities*, Memorandum Opinion and Order, 59 FR 38922 (August 1, 1994), CC Docket No. 91–141, 9 FCC Rcd 5154, 5177 (1994)) that an information collection program is necessary to monitor the state of local competition in diverse areas of the country so that the Commission might make its regulatory requirements more flexible as competition develops in particular areas. The Commission delegated authority to the Chief, Common Carrier Bureau, to formulate the detailed elements of a reporting program, to decide which service providers must provide information, and to specify the format and timing of reports.

I. Background

3. Only a limited amount of information on the state of local competition can be derived from sources currently reported to the

Commission. These data are nationwide local service revenues reported by calendar year. Although these data are filed by all carriers, including new competitive local exchange carriers, the data are not available for analysis by Commission staff until several months after filing; consist only of nationwide aggregates; and are generally given confidential treatment. A summary of this information is published, a few months thereafter, in a form that maintains the confidentiality of revenues of individual companies. Additional data on the state of local competition in selected states, and in particular cities and regions within those states, have been submitted to the Commission in various proceedings, e.g., in the course of regional Bell company applications for authorization to provide in-region interLATA services. These data provide significant information related to local competition in the state for which, and at the time, an interLATA services petition is filed. Because they are submitted only by the petitioner, however, these data do not constitute a comprehensive survey of local competition in that state. Nor do they describe the extent of development of local competition across the country at any point in time.

H. Discussion

4. The Public Notice seeks comment on adopting a local competition survey similar to a survey completed—on a voluntary basis—by nine large incumbent local exchange carriers in March, 1998, and seeks comment on applying such a survey to all types of local exchange carriers, both incumbent carriers and competitive carriers. We propose to make any survey that we adopt mandatory for most carriers because we believe that an accurate and timely picture of the development of local competition and the achievement of universal service goals requires a limited set of information from substantially all local exchange carriers.

5. We also seek comment on whether there are authoritative data sources other than a periodic survey that could provide information necessary to evaluate the development of local competition and the achievement of universal service goals on a timely basis. We invite parties to identify publicly available alternative sources of any or all of the data discussed in the Public Notice. We ask parties proposing alternative data sources to identify those sources precisely and to explain in detail how those sources provide information that is accurate, sufficient, and timely to describe and understand the state of local competition in diverse areas of the country.

6. We invite comment on the definition of reporting areas and propose that the states should be the geographic reporting areas for local competition surveys. We also invite comment on whether the following items are both necessary and sufficient to describe and understand the state of local competition in diverse areas of the nation: number of local service lines sold directly to end users by the reporting carrier; number of local service lines sold to competing local carriers for resale; number of unbundled loops and unbundled switch ports for local access lines provided by the reporting carrier to an unaffiliated carrier; number of unaffiliated, competing local exchange carriers purchasing unbundled network elements and resold lines; number of wire centers where competitors have physical or virtual collocation arrangements, and number and type of customer lines served; switched minutes originated with end users, terminated with end users, and exchanged with other carriers; number of telephone numbers ported by interim or long-term portability methods; and names of competitive local exchange carriers active in the reporting area.

7. We seek comment on whether each incumbent local exchange carrier should file a local competition survey for each area in which it is an incumbent local exchange carrier. Because it is our objective to minimize reporting burdens, while collecting information sufficient to understand developing local exchange and exchange access competition in diverse areas of the country, we also seek comment on whether some subset of incumbent local exchange carriers should file local competition surveys, and, if so, on the appropriate basis for determining the composition of that subset of incumbent local exchange carriers.

8. To the extent that a competitor provides service to customers using its own loops and switches, these lines will not be included in any data collected by incumbents. Whether a competitive local exchange carrier serves customers over its own facilities, by means of unbundled network elements, or through resale, moreover, data provided directly by competitive local exchange carriers about their own customers would be extremely valuable as a cross-check to data provided by incumbent local exchange carriers, and should provide a much more specific snapshot of local competition. We therefore seek comment on whether carriers other than incumbent local exchange carriers should file local competition surveys if such carriers propose to provide—or are providing—local exchange or exchange access service as duly authorized competitive local exchange carriers. Consistent with this need for adequate information, we propose not to distinguish among local exchange carriers on the basis of the technology used to provide local exchange or exchange access service to the public.

9. We also seek comment on whether local exchange carriers other than incumbent local exchange carriers should report the same data, in the same form, that incumbent local exchange carriers report. Competitive local exchange carriers need not develop their business plans, conduct their operations, design their networks, or select geographic areas to serve in the same manner as incumbent local exchange carriers have done. Also, the 1996 Act places less extensive responsibilities on local exchange carriers other than incumbent local exchange carriers.

10. We propose that carriers file the survey quarterly, 30 days after the end of the calendar year quarter, through the first quarter of 2001, which will mark a date five years after the enactment of the 1996 Act. Prior to that date, we propose to undertake a review of the efficacy and burden imposed of this data collection to determine the need and form for any data collection efforts after that date.

III. Procedural Issues

11. *Procedures for Filing.* Interested parties may file comments in CC Docket No. 91–141 on or before June 7, 1998. Reply comments may be filed on or before June 22, 1998. All filings should refer to the pleadings as Local Competition Survey, CC Docket No. 91–141, CCB-IAD File No. 98–102. One original and four copies of all comments must be sent to Magalie Roman Salas, Secretary, Federal Communications Commission, 1919 M Street, N.W., Suite 222, Washington, D.C. 20554. Three copies should also be sent to Ms. Terry Conway, Industry Analysis Division, Common Carrier Bureau, 2033 M Street, N.W., Suite 500, Washington, D.C. 20554. Copies of documents filed with the Commission may be obtained from the International Transcription Service (ITS), 1231 20th Street, N.W., Washington, D.C. 20036, (202) 857–3800. Documents are also available for review and copying at the Reference Center, Room 239, 1919 M Street, N.W., Washington, D.C., Monday, from 9:45 a.m. to 4:30 p.m., and Tuesday through Friday from 9:00 a.m. to 4:30 p.m., (202) 418–0270.

12. This proceeding is a non-restricted proceeding. *See* 47 CFR 1.1200(a), 1.1206. Accordingly, *ex parte* presentations are permitted, provided that they are disclosed in conformance with the Commission's *ex parte* rules.

13. *Paperwork Reduction Act.* We note that this Public Notice contains either a proposed or modified information collection, and we invite the general public to take this opportunity to comment on those information collections, pursuant to the Paperwork Reduction Act of 1995, Public Law No. 104–13. Comments should address: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's initial burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Federal Communications Commission.

Peyton L. Wynns,

Chief, Industry Analysis Division.

[FR Doc. 98–14408 Filed 5–28–98; 8:45 am]

BILLING CODE 6712–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:02 a.m. on Tuesday, May 26, 1998, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider matters relating to the Corporation's corporate and enforcement activities.

In calling the meeting, the Board determined, on motion of Director Ellen S. Seidman (Director, Office of Thrift Supervision), seconded by Director Joseph H. Neely (Appointive), concurred in by Director Julie L. Williams (Acting Comptroller of the Currency) and Acting Chairman Andrew C. Hove, Jr., that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii)).

The meeting was held in the Board Room of the FDIC Building located at 550–17th Street, N.W., Washington, D.C.

Dated: May 26, 1998.

Federal Deposit Insurance Corporation.

James D. LaPierre,

Deputy Executive Secretary.

[FR Doc. 98–14359 Filed 5–26–98; 4:57 pm]

BILLING CODE 6714–01–M

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act. Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 22, 1998.

A. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63102-2034:

1. RVB Bancshares, Inc., Russellville, Arkansas; to become a bank holding company by acquiring 100 percent of the votings shares of River Valley Bank, Russellville, Arkansas.

Board of Governors of the Federal Reserve System, May 26, 1998.

Jennifer J. Johnson,

Deputy Secretary of the Board.

[FR Doc. 98–14282 Filed 5–28–98; 8:45 am]

BILLING CODE 6210–01–F

FEDERAL RESERVE SYSTEM

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Board of Governors of the Federal Reserve System.

TIME AND DATE: 10:00 a.m., Wednesday, June 3, 1998.

PLACE: Marriner S. Eccles Federal Reserve Board Building, 20th and C Streets, N.W., Washington, D.C. 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.

2. Any matters carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Joseph R. Coyne, Assistant to the Board; 202–452–3204.

SUPPLEMENTARY INFORMATION: You may call 202–452–3206 beginning at approximately 5 p.m. two business days before the meeting for a recorded announcement of bank and bank holding company applications scheduled for the meeting; or you may contact the Board's Web site at http://www.bog.frb.fed.us for an electronic announcement that not only lists applications, but also indicates procedural and other information about the meeting.

Dated: May 27, 1998.

Jennifer J. Johnson,

Deputy Secretary of the Board.

BILLING CODE 6210–01–P

FEDERAL RETIREMENT THRIFT INVESTMENT BOARD

Sunshine Act Meeting

TIME AND DATE: 10:00 a.m. (EDT), June 8, 1998.

PLACE: 4th Floor, Conference Room 4506, 1250 H Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: 1. Approval of the minutes of the May 11, 1998, Board member meeting.

2. Thrift Savings Plan activity report by the Executive Director.

3. Review of KPMG Peat Marwick audit reports:

(a) "Pension and Welfare Benefits Administration Review of the Thrift Savings Plan Withdrawal and Loan Operations at the United States Department of Agriculture, National Finance Center."

(b) "Pension and Welfare Benefits Administration Review of the Thrift Savings Plan Systems Enhancements and Software Change Controls at the United States Department of Agriculture, National Finance Center."

CONTACT PERSON FOR MORE INFORMATION: Thomas J. Trabucco, Director, Office of External Affairs (202) 942–1640:

Dated: May 26, 1998.

Roger W. Mehle,

Executive Director, Federal Retirement Thrift Investment Board.

BILLING CODE 6760–01–M

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0027]

Submission for OMB Review; Comment Request Entitled Contract Administration and Quality Assurance

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Notice of request for public comments regarding extension to an existing OMB clearance (3090–0027).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Office of Acquisition Policy has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Contract Administration and Quality Assurance.

DATES: Comment Due Date: July 28, 1998.

FOR FURTHER INFORMATION CONTACT: Al Matera, Office of GSA Acquisition Policy (202) 501–1224.

ADDRESSES: Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, should be submitted to: Edward Springer, GSA Desk Officer, Room 3235, NEOB, Washington, DC 20503, and to Marjorie Ashby, General Services Administration (MVP), 1800 F Street NW, Washington, DC 20405.

SUPPLEMENTARY INFORMATION:

A. Purpose

The GSA is requesting the Office of Management and Budget (OMB) to review and approve information collection 3090–0027, Contract Administration and Quality Assurance. This information is used by various contract administration and other support offices for quality assurance, acceptance of supplies and services, shipments, and to justify payments.

B. Annual Reporting Burden

Respondents: 2,800; annual responses: 33,600; average hours per response: .05; burden hours: 2,800.

Copy of Proposal

A copy of this proposal may be obtained from the GSA Acquisition Policy Division (MVP), Room 4011, GSA Building, 1800 F Street NW, Washington, DC 20405, or by telephoning (202) 501–3822, or by faxing your request to (202) 501–3341.

Dated: May 21, 1998.

Ida M. Ustad,

Deputy Associate Administrator for Acquisition Policy.

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0198]

Submission for OMB Review; Comment Request Entitled Foreign Acquisition

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Notice of request for an extension to an existing OMB clearance (3090–0198).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Office of Acquisition Policy has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement concerning Foreign Acquisition.

DATES: Comment Due Date: July 28, 1998.

ADDRESSES: Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, should be submitted to: Edward Springer, GSA Desk Officer, Room 3235, NEOB, Washington, DC 20503, and to Marjorie Ashby, General Services Administration (MVP), 1800 F Street NW, Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Al Matera, Office of GSA Acquisition Policy (202) 501–1224.

SUPPLEMENTARY INFORMATION:

A. Purpose

The GSA is requesting the Office of Management and Budget (OMB) to review and approve information collection, 3090–0198, concerning Foreign Acquisition. Offerors are required to identify whether items are foreign source end products and the dollar amount of import duty for each product.

B. Annual Reporting Burden

Respondents: 9; annual responses: 9; average hours per response: .10; burden hours: 1.5.

Copy of Proposal

A copy of this proposal may be obtained from the GSA Acquisition Policy Division (MVP), Room 4011, GSA Building, 1800 F Street NW, Washington, DC 20405, or by telephoning (202) 501–3822, or by faxing your request to (202) 501–3341.

Dated: May 22, 1998.

[OMB Control No. 3090–0057]

Submission for OMB Review; Comment Request Entitled Deposit Bond Individual-Sale of Government Personal Property

AGENCY: Federal Supply Service, GSA.

ACTION: Notice of request for public comments regarding a previously approved OMB clearance (3090–0057).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Office of Acquisition Policy has submitted to the Office of Management and Budget (OMB) a request to review and approve a previously approved information collection requirement concerning Deposit Bond Individual-Sale of Government Personal Property. A request for public comments was published at 63 FR 3749, January 26, 1998. No comments were received.

DATES: Comment Due Date: June 29, 1998.

ADDRESSES: Comments regarding this burden estimate or any other aspect of

this collection of information, including suggestions for reducing this burden, should be submitted to: Edward Springer, GSA Desk Officer, Room 3235, NEOB, Washington, DC 20503, and to Marjorie Ashby, General Services Administration (MVP), 1800 F Street NW, Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Andrea Dingle, Federal Supply Service (703) 305–6190.

SUPPLEMENTARY INFORMATION:

A. Purpose

The GSA is requesting the Office of Management and Budget (OMB) to approve information collection, 3090–0057 concerning Deposit Bond Individual-Sale of Government Personal Property. This form is used by a bidder participating in sales of Government personal property whenever the sales invitation permits an individual type of deposit bond in lieu of cash or other form of bid deposit.

B. Annual Reporting Burden

Respondents: 500; annual responses: 1; average hours per response: .25; burden hours: 125.

Copy Of Proposal

A copy of this proposal may be obtained from the GSA Acquisition Policy Division (MVP), Room 4011, GSA Building, 1800 F Street NW, Washington, DC 20405, or by telephoning (202) 501–3822, or by faxing your request to (202) 501–3341.

BILLING CODE 6820–61–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

National Vaccine Advisory Committees Meeting

The National Vaccine Program Office, Centers for Disease Control and Prevention (CDC) announces the following meeting:

Name: National Vaccine Advisory Committee (NVAC) Immunization Registries Workgroup on Privacy and Confidentiality.

Time and Date: 8:30 a.m.–12:30 p.m., June 18, 1998.

Name: NVAC Immunization Registries Workgroup on Technical and Operational Challenges.

Time and Date: 1:30 p.m.–5:30 p.m., June 18, 1998.

Name: NVAC Immunization Registries Workgroup on Resource Issues.

Time and Date: 8:30 a.m.–12:30 p.m., June 19, 1998.

Name: NVAC Immunization Registries Workgroup on Ensuring Provider Participation.

Time and Date: 1:30 p.m.–5:30 p.m., June 19, 1998.

Place: Ramada Plaza Hotel, 1231 Market Street, San Francisco, California 94103, telephone (415) 626–8000.

Status: Open to the public, limited only by space availability. The meeting room accommodates approximately 200 people.

Purpose: During a White House Ceremony on July 23, 1997, the President directed the Secretary of Health and Human Services (HHS) to work with the States on integrated immunization registries. As a result, NVAC has formed a workgroup, staffed by the National Immunization Program (NIP), that will gather information for development of a National Immunization Registry Plan of Action.

To assist in the formulation of a work plan, a series of public meetings relating to (1) privacy and confidentiality; (2) resource issues; (3) technical and operational challenges; and (4) ensuring provider participation, will be held throughout the Nation. These meetings will provide an opportunity for input from all partners which include state and local public health agencies, professional organizations of private health agencies, managed care organizations (MCOs), employer-funded health care plans, vaccine manufacturers and developers, vendors and developers of medical information systems, information standards development organizations, parents, social welfare agencies, law enforcement agencies, legislators, privacy and consumer interest groups, and other representatives of the public at large.

For each meeting, the Workgroup is inviting experts to address the four specific issues outlined above. Expert speakers are being asked to respond to the questions outlined below in writing, make brief oral presentations, and to respond to additional questions from the Workgroup.

Members of the public who wish to provide comments may do so in the form of written statements, to be received by the completion of the last meeting, addressed as follows: NIP/CDC, Data Management Division, 1600 Clifton Road, NE, M/S E–62, Atlanta, Georgia 30333.

There will be a period of time during the agenda for members of the public to make oral statements, not exceeding 3 minutes in length, on the issues being considered by the

Workgroup. Members of the public who wish to speak are asked to place their names on a list at the registration table on the day of the meeting. The number of speakers will be limited by the time available and speakers will be heard once in the order in which they place their names on the list. Written comments are encouraged; please provide 20 copies.

Based on the outcome of these meetings, a National Immunization Registry Plan of Action will be developed and proposed to NVAC for their deliberation and approval. This plan will identify registry barriers and solutions, strategies to build a registry network, resource requirements and commitments, and a target date for network completion.

Matters to be Discussed: Agenda items will include an overview of the Initiative on Immunization Registries and current immunization registry efforts and testimonies by organizational representatives on the following issues relevant to immunization registries: Privacy and confidentiality, resource issues, technical and operational challenges, and ensuring provider participation.

Agenda items are subject to change as priorities dictate.

Resource Issues Questions to be Considered:

1. What approaches have been successful in securing funding to support registries?
2. What approaches to secure funding have been tried but failed?
3. What cost-sharing arrangements would your organization view as reasonable and fair to ensure long-term sustainability of a registry?
4. Would you be willing to share costs through a fee-for-service arrangement and how much would you be willing to pay?
5. Would you be willing to support a vaccine surcharge and at what rate?
6. What types of resources and/or in-kind support do you receive and from whom?
7. What types of resources and/or in-kind support do you provide?
8. What types of resources are you willing and able to provide over the short-term and/or long-term to ensure registry sustainability?
9. Are you willing to provide resources or in-kind support toward linking your existing registries with state and local registries?
10. What are the costs of implementing/operating an immunization registry?
11. What are the costs of not having an immunization registry (e.g., looking up immunization histories, generating school immunization records, etc.)?
12. How should immunization registries be integrated with larger patient information systems and how should their component costs be ascertained?
13. Do you feel there is a need for the Federal Government to provide leadership in developing state and community-based immunization registries? What should the role of the Federal Government be in this effort?

Technical and Operational Questions to be Considered:

1. How can universal, interactive, real-time, secure immunization record exchange between immunization providers be implemented?
2. How does your system implement record exchange?

A. Can a provider get an up-to-date immunization history for a patient sitting in his or her office?

B. How is this function implemented?

3. How can it be assured that the most complete and up-to-date copy of an immunization record is always retrieved by a requesting provider?
4. How does your system identify the definitive record?
5. How can existing practice management systems achieve connectivity with immunization registries efficiently, without dual systems, redundant processes, and multiple interfaces?
6. What software systems can your system interface with?
7. How are connections between your system and existing systems implemented?
8. How can registries be used to measure immunization rates, accurately and routinely, at county, state, and national levels, without counting any individual more than once?
9. How can the functionality of immunization registries be standardized without compromising registries' ability to customize and extend that functionality?
10. What immunization registry functions should be standardized?
11. Who should provide leadership in such a standardization effort?
12. How will/should standards be implemented in immunization registries?
13. How can the cost of operating immunization registries be reduced to a level at which immunization providers themselves would be willing to support them? (crossover with cost issue)
14. What sorts of inter-organizational arrangements and legal structures need to be in place to provide an environment in which immunization registry data can flow as needed? (crossover with privacy & confidentiality issue)
15. Do you feel that there is a need for the Federal Government to provide leadership in developing state and community-based immunization registries? What should the role of the Federal Government be in this effort?
16. How can duplication of records be minimized?
17. How can existing billing/encounter information systems be modified to provide appropriate immunization registry functions?
18. How can immunization registries be broadened to provide other important functions in patient monitoring (e.g., well-child assessments, metabolic/hearing screening, etc.)?
19. What mechanisms are needed to detect and prevent unauthorized access to registry data?
20. What data capture technology (e.g., bar codes, voice recognition, etc.) can minimize the negative impact on workflow?
21. What techniques (e.g., standard knowledge representation such as Arden Syntax) can be used to disseminate vaccination guidelines to individual registries quickly and with a minimum of new programming required to update automated reminder/recall and forecasting based on the guidelines?

Privacy and Confidentiality Questions to be Considered:

Terminology: Privacy—The right of an individual to limit access by others to some aspect of the person. Confidentiality—The treatment of information that an individual has disclosed in a relationship of trust and with the expectation that it will not be divulged to others in ways that are inconsistent with the understanding of the original disclosure. Individually identifiable information—Information that can reasonably be used to identify an individual (by name or by inference).

1. Should immunization data have different privacy requirements than the rest of the medical record?
2. How can the disclosure and re-disclosure of immunization information be controlled through policies, procedures, and legislation?
3. Should consent to participate be implied or required? In what form?
4. Should different levels of disclosure be possible? What levels should be available to what groups?
5. Who should have access to immunization registry data?
6. What information should be disclosed to an immunization registry?
7. What other uses can immunization registry data have?
8. Would ability to produce a legal record be a desirable function for the registry?
9. What fair information practices should be implemented (e.g., ability to correct the record, notice of being put in registry to parent)?
10. How long should information be kept in a registry?
11. How will privacy issues affect the following groups: parents, immigrants, religious groups, HIV-positive and other immunocompromised health conditions, law enforcement, victims of domestic violence, and custodial parents?
12. How should registries ensure that privacy policies are followed?
13. Do you have any comment or recommendation for NVAC/CDC/HHS related to the implementation of the network of state and community-based registries and do you have any concerns?
14. Do you feel there is a need for the Federal Government to provide leadership in developing state and community-based immunization registries? What should the role of the Federal Government be in this effort?
15. Given the mandate of Health Insurance Portability and Accountability Act to create a unique health identifier, how should that goal be achieved while minimizing the probability of inappropriate use of the identifier?
16. What steps can be taken to prevent unauthorized re-disclosure of information already provided to an organization or person?
17. What legal barriers exist which prevent data sharing by MCOs and how can they be obviated?
18. What mechanism should be available to allow parents to opt out of the registry?
19. What agency/organization should be responsible for maintaining registry information?

20. How should consent for inclusion in an immunization registry be obtained? Should it be implicit or explicit?

21. What information should be included in an immunization registry?

22. Should registries include (and release) information on contraindications, adverse events, etc.?

23. Who should have access to immunization registry data and how can restricted access be assured?

24. What information should be available to persons other than the client/patient and the direct health care provider (e.g., schools)?

25. What is the best way to protect privacy and ensure confidentiality within a registry?

26. How should individuals/parents have access to registry information on themselves/their children?

27. Should data maintained in a state and community-based immunization registry be considered public information?

28. Would national privacy and confidentiality standards help ensure that data maintained in an immunization registry is protected?

Ensuring Provider Participation Questions to be Considered:

1. What type of resources (e.g., hardware, staff, etc.) are needed for you (provider/organization) to participate in a computerized registry?

2. What are the cost-related barriers that keep you (provider/organization) from participating in an immunization registry?

3. What cost should providers be responsible for, pertaining to participation in immunization registry systems?

4. What are the cost savings you would anticipate as a result of participating in a computerized registry (e.g., increased return visit form reminders, less personnel paperwork for preschool exams, etc.)?

5. How much time would you be willing to invest per patient visit (e.g., additional 1, 5, 7, 10 minutes) in the overall success of an immunization registry?

6. What type of user support would be needed in order for you (provider/organization) to participate in an immunization registry?

7. How would you (provider/organization) encourage providers and consumers in your community to participate in an immunization registry?

8. What community support would be necessary for you to participate in the immunization registry?

9. What benefits/value (e.g., immunization reminders, quick access to immunization histories, etc.) would a registry provide that would encourage your (provider/organization) participation?

10. What incentives should be offered to providers/organizations to participate in an immunization registry?

11. What barriers have you (provider/organization) encountered that have prevented you from participating in an immunization registry?

12. Is provider liability (e.g, disclosure of sensitive patient information) a barrier to participating in an immunization registry? Why?

13. How would an immunization registry impact your practice/organization?

14. Do you currently share immunization data with other providers electronically? For what purpose (e.g., billing, share group data, etc.)?

15. How (e.g., electronic record, paper record) is medical information maintained in your practice/organization?

16. Who should retain ownership of immunization records as they are distributed throughout an immunization registry?

17. How would you (provider/organization) use the data maintained in an immunization registry?

18. What type of quality control process would you (provider/organization) perform to ensure the accuracy and completeness of the immunization data entered into an immunization registry?

19. What type of security policies and procedures need to be in place for you to be confident that data are secure?

20. What functions should a registry perform in your office in order for you (provider/organization) to participate?

21. Do you have any advice or recommendations for NVAC/CDC/HHS related to the implementation of the network of state and community-based registries and do you have any concerns?

22. Do you feel that there is a need for the Federal Government to provide leadership in developing state and community-based immunization registries? What should the role of the Federal Government be in this effort?

23. Have you received training on the use and maintenance of computerized medical information? Do you feel this training is needed to fully support the development and maintenance of immunization registries?

Contact Person for More Information: Robb Linkins, M.P.H., Ph.D., Chief, Systems Development Branch, Data Management Division, NIP, CDC, 1600 Clifton Road, NE, M/S E–62, Atlanta, Georgia 30333, telephone (404) 639–8728, e-mail rxl3@cdc.gov.

Dated: May 22, 1998.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

[Document Identifier: HCFA–417]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Health Care Financing Administration.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Health Care Financing Administration (HCFA), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Collection Request: Extension of a currently approved collection; *Title of Information Collection:* Hospice Request for Certification in the Medicare Program and Supporting Regulations in 42 CFR 418.1–418.405; *Form No.:* HCFA–417 (OMB# 0938–0313); *Use:* The Hospice Request for Certification Form is used for hospice identification, screening, and to initiate the certification process. The information captured on this form is entered into a data base which assists HCFA in determining whether providers have sufficient personnel to participate in the Medicare program. The form summarizes data relative to: type of hospice; types of services provided by the hospice; and number of full time equivalents; *Frequency:* Annually; *Affected Public:* Business or other for-profit, Not-for-profit institutions, Federal Government, and State, local or tribal government; *Number of Respondents:* 2,286; *Total Annual Responses:* 2,286; *Total Annual Hours:* 572.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access HCFA's Web Site address at http://www.hcfa.gov/regs/prdact95.htm, or E-mail your request, including your address, phone number, OMB number, and HCFA document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786–1326. Written comments and recommendations for the proposed information collections must be mailed within 30 days of this notice directly to the OMB desk officer: OMB Human Resources and Housing Branch, Attention: Allison Eydt, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: May 19, 1998.

John P. Burke III,

HCFA Reports Clearance Officer, HCFA Office of Information Services, Information Technology Investment Management Group, Division of HCFA Enterprise Standards.

[FR Doc. 98–14284 Filed 5–28–98; 8:45 am]

BILLING CODE 4120–03–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4356–N–03]

Notice of Proposed Information Collection: Comment Request

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: Comments due date: July 28, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name/or OMB Control Number and should be sent to: Wayne Eddins, Reports Liaison Officer, Department of Housing and Urban Development, 451 7th Street, SW, Room 4176, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Rita Ross, Office of Multifamily Housing, telephone number (202) 708–3555 (this is not a toll-free number) for copies of the proposed forms and other available documents.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Requisition for Disbursement of Section 202 Loan Funds.

OMB Control Number, if applicable: 2502–0187.

Description of the need for the information and proposed use: Form HUD–92403–EH is used by the nonprofit Owner entity to obtain disbursements on its HUD-funded loan under the Section 202 Direct Loan Program for Housing the Elderly or Handicapped. Its use during the construction period and at final loan closing enables the Owner to obtain funds so that he may settle his obligations or be reimbursed in a timely manner.

Agency form numbers, if applicable: HUD–92403–EH.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The estimated number of respondents are 930, the frequency of responses is 3, and ½ hour per response.

Status of the proposed information collection: Reinstatement without change.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: May 15, 1998.

Art Agnos,

Acting General Deputy Assistant Secretary for Housing-Federal Housing Commissioner.

[FR Doc. 98–14235 Filed 5–28–98; 8:45 am]

Notice of Proposed Information Collection: Comment Request

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: Comments due date: July 28, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Liaison Officer, Department of Housing and Urban Development, 451 7th Street, SW, Room 4176, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Debbie Holt, Disbursement and Customer Service Branch, telephone number (202) 755–7570, ext. 149 (this is not a toll-free number) for copies of the proposed forms and other available documents.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Automated Clearinghouse Program Application, Title I Insurance Coverage Payments system—FR 3823.

OMB Control Number, if applicable: 2502–0152.

Description of the need for the information and proposed use: The information is needed for the use of the Automated Clearinghouse System which is used by the Title I Insurance System to collect a debt due the Federal government. The previous approval will expire soon and will need to be reinstated so that the department can continue to use this mechanism.

Agency form numbers, if applicable: Form HUD–56150.

Estimation of the total numbers of hours needed to prepare the information

collection including number of respondents, frequency of response, and hours of response: The estimated number of respondents are 1500, hours per response .25 hours per response, and the frequency of responses is 1.

Status of the proposed information collection: Reinstatement of previously approved collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: May 20, 1998.

Art Agnos,

Acting General Deputy Assistant Secretary for Housing-Federal Housing Commissioner.

Notice of Proposed Information Collection: Comment Request

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: Comments due date: July 28, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Liaison Officer, Department of Housing and Urban Development, 451 7th Street, SW, Room 4176, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Rebecca Holtz, Office of Consumer and Regulatory Affairs, telephone number 202–708–0502 (this is not a toll-free number) for copies of the proposed forms and other available documents.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Land Sales Registration, Purchaser's Revocation Rights, Sale Practices and Standards, and Formal Procedures and Rules of Practice.

OMB Control Number, if applicable: 2502–0243.

Description of the need for the information and proposed use:

The Interstate Land Sales Full Disclosure Act, 15 USC 1701, et. seq., requires land developers to register subdivisions of 100 or more non-exempt lots with HUD and to provide each purchaser with a disclosure document called a property report.

The Act protects consumers from fraud and abuse in the sale or lease of land and was enacted in response to a nation-wide proliferation of unimproved subdivision developers who make elaborate, but fraudulent claims about their land to unsuspecting lot purchasers. Information is submitted to HUD to assure compliance with the Act and the implementing regulations.

The registration is subject to an examination to assure compliance with the law and the implementing regulations as set forth at 24 CFR 1700 through 1730.

Consumers are provided the protection of the antifraud provisions of the Act and, in the case of registered sub-divisions, a Property Report which provides them with the information essential to the process of making an informed decision about their possible purchase of a lot.

Agency form numbers, if applicable: None.

Status of the proposed information collection: Extension of currently approved collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, 12 amended.

Dated: May 21, 1998.

Art Agnos,

Acting Deputy Assistant Secretary for Housing-Federal Housing Commissioner.

Notice of Proposed Information Collection: Comment Request

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: Comments due date: July 28, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Liaison Officer, Department of Housing and Urban Development, 451 7th Street SW, Room 4176, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Wendy Carter, Office of Multifamily Housing Programs, telephone number (202) 708–2300 (this is not a toll-free number) for copies of the proposed forms and other available documents.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Eligibility of Non-Profit Corporation.

OMB Control Number, if applicable: 2502–0057.

Description of the need for the information and proposed use: The need for the information is an application for Multifamily Mortgage Insurance programs with a Non-Profit Sponsor. The application is to obtain the information necessary to enable HUD to make a determination that the sponsor is a non-profit corporation or association.

Form HUD–3433 identifies the non-profit qualification to successfully sponsor a multifamily housing project. Forms HUD–3434 and 3435 identify the non-profit's motivation for sponsoring the project and relationships that exist between HUD and the non-profit.

Agency form numbers, if applicable: HUD–3433, 3434, and 3435.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The estimated number of respondents are 230, hours per response 23.96 hours per response, and the frequency of responses is on occasion when mortgage is made.

Status of the proposed information collection: Reinstatement of previously approved collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: May 20, 1998.

Art Agnes,

Acting General Deputy Assistant Secretary for Housing, Federal Housing Commissioner.

BILLING CODE 4210–27–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. FR–4209–N–02]

Funding for Fiscal Year 1997: Capacity Building for Community Development and Affordable Housing; Revision

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice of funding for fiscal year 1997; revision.

SUMMARY: The Department recently published a notice of funding, which provided $30.2 million assistance through The Enterprise Foundation, the Local Initiatives Support Corporation (LISC), Habitat for Humanity, and Youthbuild, USA. The funds are to be used for capacity building for community development and affordable housing. Among other requirements, each dollar of these funds must be matched by three dollars in cash or in-kind contributions to be obtained from private sources.

Today's notice revises policies concerning matching requirements and related administrative requirements. These revisions are intended to limit HUD environmental review to only those projects that are assisted with Federal funds.

FOR FURTHER INFORMATION CONTACT: Penelope G. McCormack, Office of Community Planning and Development, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 7216, Washington DC 20410. Telephone Number (202) 708–3176 Ext. 4391, TTY Number: (202) 708–2565. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: On January 30, 1998, at 63 FR 5220, the Department published a notice that set out the requirements for the $30.2 million of funding under the National Community Development Initiative through The Enterprise Foundation, the Local Initiatives Support Corporation (LISC), Habitat for Humanity, and Youthbuild, USA.

This revised policy eliminates the requirement that the grantees specify in their work and funding plans when and how the non-federal matching resources will be used. The revision also makes clear that these non-federal matching resources must still be used for eligible activities and that performance reports must include reports on the commitment and expenditure of private matching resources utilized through the end of the reporting period.

These changes are intended to reduce burdens on the grantees by ensuring that HUD environmental review requirements are triggered only when the project involves the use of Federal funds.

To effect these changes, section 1., Matching Requirements, and section 2., Administrative and Other Requirements, of today's notice apply in place of section 5., Matching Requirements, and section 6., Administrative and Other Requirements, of the January 30, 1998 notice (63 FR 5220). All other provisions of the January 30, 1998 notice continue to apply.

To assist the user, this notice contains the complete sections on matching requirements and on administrative and other requirements rather than just the revised paragraphs.

1. Matching Requirements

As required by section 4 of the 1993 Act, this $30.2 million appropriation is subject to each award dollar being matched by three dollars in cash or in-kind contributions to be obtained from private sources. Each of the organizations receiving these funds will document its proportionate share of matching resources, including resources committed directly or by a third party to a grantee or subgrantee after June 12, 1997 to conduct eligible activities.

In-kind contributions shall conform to the requirements of 24 CFR 84.23.

2. Administrative and Other Requirements

The award will be governed by 24 CFR part 84 (Uniform Administrative Requirements), A–122 (Cost Principles for Nonprofit Organizations), and A–133 (Audits of Institutions of Higher Education and other Nonprofit Institutions) as implemented at 24 CFR part 45.

Other requirements will be detailed in the terms and conditions of the grant agreement provided to grantees, including the following:

(a) Each grantee will submit to HUD a specific work and funding plan for each community showing when and how the federal funds will be used. The work plan must be sufficiently detailed for monitoring purposes and must identify the performance goals and objectives to be achieved. Within 30 days after submission of a specific work plan, HUD will approve the work plan or notify the grantee of matters which need to be addressed prior to approval, or the work plan shall be construed to be approved. Work plans may be developed for less than the full dollar amount and term of the award, but no HUD-funded costs may be incurred for any activity until the work plan is approved by HUD. All activities are also subject to the environmental requirements in paragraph 6.(f) of this notice.

(b) The grantees shall submit to HUD an annual performance report due 90 days after the end of each calendar year, with the first report due on March 31, 1999. Performance reports shall include reports on both performance and financial progress under work plans and shall include reports on the commitment and expenditure of private matching resources utilized through the end of the reporting period. Reports shall conform to the reporting requirements of 24 CFR part 84. Additional information or increased frequency of reporting, not to exceed twice a year, may be required by HUD any time during the grant agreement if HUD finds such reporting to be necessary for monitoring purposes.

To further the consultation process and share the results of progress to date, the Secretary may require grantees to present and discuss their performance reports at annual meetings in Washington, DC during the life of the award.

(c) The performance reports must contain the information required under 24 CFR part 84, including a comparison of actual accomplishments with the objectives and performance goals of the work plans. In the work plans each grantee will identify performance goals and objectives established for each community in which it proposes to work and appropriate measurements under the work plan such as: the number of housing units and facilities each CDC/CHDO produces annually during the grant period and the average cost of these units. Provided, however, that when the activity described in a work plan is not to be undertaken in a single community that a report indicating the areas in which the activity will be undertaken, along with appropriate goals and objectives, will be provided when that information is available. The performance reports will also include a discussion of the reasonableness of the unit costs; the reasons for slippage if established objectives and goals are not met; and additional pertinent information.

(d) A final performance report, in the form described in paragraph (c) above, shall be provided to HUD by each grantee within 90 days after the completion date of the award.

(e) Financial status reports (SF–269A) shall be submitted semiannually.

(f) Environmental review. Individual projects to be funded by these grants may not be known at the time the overall grants are awarded and also may not be known when some of the individual subgrants are made. Therefore, in accordance with 24 CFR 50.3(h), the application and the grant agreement must provide that no commitment or expenditure of HUD or local funds to a HUD-assisted project may be made until HUD has completed an environmental review to the extent required under applicable regulations and has given notification of its approval in accordance with 24 CFR 50.3(h).

Findings and Certifications

(a) *Environmental Impact.* A Finding of No Significant Impact with respect to the environment has been made in accordance with the Department's regulations at 24 CFR part 50, which implements section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays at the Office of the Rules Docket Clerk, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410.

(b) *Federalism.* The General Counsel, as the Designated Official under section 7(a) of the Executive Order 12612, *Federalism*, has determined that the policies contained in this funding notice will not have substantial direct effects on States or their political subdivisions or on the distribution of power and responsibilities among the various levels of government. Specifically, this notice makes funds available through specific entities for specific activities, as required by statute, and does not impinge upon the relationships between the Federal government, and State and local governments.

Authority: Sec. 4 of the HUD Demonstration Act of 1993, Pub. L. 103–120, 42 U.S.C. 9816 note), as amended and Pub. L. 105–18, 111 Stat 198.

Dated: May 22, 1998.

Saul N. Ramirez, Jr.,

Assistant Secretary for Community Planning and Development.

BILLING CODE 4210–29–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4341–N–12]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT: Mark Johnston, room 7256, Department of Housing and Urban Development, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 708–1226; TTY number for the hearing- and speech-impaired (202) 708–2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1–800–927–7588.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless* versus *Veterans Administration*, No. 88–2503–OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Brian Rooney, Division of Property Management, Program Support Center, HHS, room 5B–41, 5600 Fishers Lane, Rockville, MD 20857; (301) 443–2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1–800–927–7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: INTERIOR: Ms. Lola D. Knight, Department of the Interior, 1849 C Street, NW, Mail Stop 5512–MIB, Washington, DC 20240; (202) 208–4080; NAVY: Mr. Charles C. Cocks, Department of the Navy, Director, Real Estate Policy Division, Naval Facilities Engineering Command, Code 241A, 200 Stovall Street, Alexandria, VA 22332–2300; (703) 325–7342; VA: Mr. George L. Szwarcman, Director, Land Management Service, 184A, Department of Veterans Affairs, 811 Vermont Avenue, NW, Room 414, Lafayette Bldg., Washington, DC 20420; (202) 565–5941; (These are not toll-free numbers).

Dated: May 21, 1998.

Fred Karnas, Jr.,

Deputy Assistant Secretary for Economic Development.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531, *et seq.*):

PRT–842872

Applicant: The North Carolina Arboretum, Asheville, NC

The applicant requests a permit to export 40 leaf samples from artificially propagated spreading avens (*Geum radiatum*) to Acadia University, Wolfville, Nova Scotia, Canada, for scientific research.

PRT–842530

Applicant: Carolynn Crutchley, Manheim, PA

The applicant requests a permit to import 10 wild-caught parma wallabies (*Macropus parma*) from an introduced population on Kawau Island, New Zealand, to enhance the survival of the species through captive-breeding.

PRT–842519

Applicant: L. Renee Irvine, Titusville, FL

The applicant requests a permit to import 2 captive-born golden-headed lion tamarins (*Leontopithecus chrysomelas*) from Ivan Crab, Nagyborszony, Hungary to enhance the survival of the species through captive-breeding.

PRT–842517

Applicant: Nicholas Mundy, University of California San Diego, La Jolla, CA

The applicant requests a permit to re-export hair and DNA samples from Goeldi's marmoset (*Callimico goeldii*) to the Anthropological Institute, Zurich, Switzerland for scientific research.

PRT–842516

Applicant: Nicholas Mundy, University of California San Diego, La Jolla, CA

The applicant requests a permit to re-export hair and DNA samples from white-eared marmosets (*Callithrix aurita*) and buff-headed marmosets (*Callithrix flaviceps*) to the Anthropological Institute, Zurich, Switzerland for scientific research.

PRT–842900

Applicant: Richard Wrangham, Kibale Chimpanzee Project, Harvard University

The applicant requests a permit to import non-invasive biological samples collected from East African chimpanzees (*Pan troglodytes schweinfurthii*) for the purpose of scientific research.

PRT–842998

Applicant: Brenda Bradley, Anthropolgy Department, State University of New York, Stony Brook, NY

The applicant requests a permit to import non-invasively collected biological samples taken from western lowland gorilla (*Gorilla gorilla*) in the Central African Republic for the purpose of scientific research.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

The public is invited to comment on the following application for a permit to conduct certain activities with marine mammals. The application was submitted to satisfy requirements of the Marine Mammal Protection Act of 1972, *as amended* (16 U.S.C. 1361 et seq.) and the regulations governing marine mammals (50 CFR 18).

PRT–773494

Applicant: Florida Department of Natural Resources, St. Petersburg, FL

Permit Type: Take for scientific research.

Name of Animals: West Indian manatee (*Trichecus manatus*), Amazonian manatee (*Trichechus inunguis*), West African manatee (*Trichecus senegalensis*), and Dugong (*Dugong dugong*).

Summary of Activity to be Authorized: The applicant requests an amendment to their permit to change the principal officer responsible for the permit; to conduct up to 5 non-harmful, non-invasive behavioral and physiological studies on captive West Indian manatees and up to 10 non-harmful, non-invasive behavioral and physiological studies on free-ranging West Indian manatees; to collect colon temperatures on captive and wild West Indian manatees in order to describe and analyze vascular structures that influence thermal insult to the manatee reproductive system; to do 12 recaptures of West Indian manatees; to implant up to 90 (60 wild and 30 rehabilitated) West Indian manatees with passive integrated transponder tags; and to import biological samples from wild or captive specimens of West Indian manatees, Amazonian manatees, West African manatees, and dugongs.

Source of Marine Mammals: Wild and captive West Indian manatees within their range in the United States and wild and captive salvage specimens of West Indian manatee, Amazonian manatee, West African, dugong where ever found.

Period of Activity: Up to 5 years from issuance date of permit, if issued.

Concurrent with the publication of this notice in the **Federal Register**, the Office of Management Authority is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

PRT–842478

Applicant: David Van Collis, San Ysidro, NM

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted prior to April 30, 1994 from the Northern Beaufort Sea polar bear population, Northwest Territories, Canada for personal use.

PRT–842766

Applicant: Wade Marshall, Rainer, OR

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted from the McClintock Channel polar bear population, Northwest Territories, Canada for personal use.

PRT–842970

Applicant: Gerald L. Warnoch, Portland, OR

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted from the McClintock Channel polar bear population, Northwest Territories, Canada for personal use.

PRT–843165

Applicant: Wallace W. Bednarz, Williamsport, PA

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted prior to April 30, 1994 from the Viscount Melville polar bear population, Northwest Territories, Canada for personal use.

Documents and other information submitted with these applications are available for review, *subject to the requirements of the Privacy Act and Freedom of Information Act*, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203. Phone: (703/358–2104); FAX: (703/358–2281).

Dated: May 22, 1998.

MaryEllen Amtower,

Acting Chief, Branch of Permits, Office of Management Authority.

BILLING CODE 4310–55–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of an Application Submitted by Gulf States Paper Corporation for an Incidental Take Permit and Safe Harbor Agreement for Red-Cockaded Woodpeckers in Association Timber Harvest and Management Activities

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Gulf States Paper Corporation (Applicant), has submitted an application for an incidental take permit (ITP), including a Safe Harbor/Memorandum of Agreement Conservation Plan (Plan), to the Fish and Wildlife Service (Service), pursuant to Section 10(a)(1)(B) of the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*) (Act), as amended. If granted, the ITP would authorize for a period of 50 years, the incidental take of the endangered red-cockaded woodpecker, *Picoides borealis*, (RCW) throughout the Applicant's ownership of approximately 400,000 acres in west-central Alabama. The take of the RCW would be incidental to timber management operations performed by the Applicant. Further, the Applicant approval of a Safe Harbor Agreement for the RCW associated with implementation and administration of the Plan/ITP. The proposed ITP would authorize incidental take of the RCW associated with, where necessary and appropriate, shifting of the Applicant's RCW baseline responsibilities as described below. Mitigation and minimization strategy in the application involves establishing and maintaining a 10,000 acre RCW management area, with the expectation of increasing the extant population of 5 RCW groups to as many as 15 RCW groups (See the **SUPPLEMENTARY INFORMATION** Section below.) By consolidating the RCW population under control of the Applicant, the Applicant will increase the stability of the extant population. Under the Safe Harbor Agreement, no erosion of the current RCW population would occur.

The Service has determined that the Plan qualifies as a "low-effect" Habitat Conservation Plan as defined by the Service's Habitat Conservation Planning Handbook (November 1996). The Service has further determined that approval of the Plan qualifies as a categorical exclusion under the National Environmental Policy Act, as provided by the Department of Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). This notice is provided pursuant to section 10(c) of the Act.

Copies of the application/Plan may be obtained by making a request to the Regional Office (see **ADDRESSES**). Requests must be in writing to be processed. Further, the Service announces that it has determined that the Applicant's request is eligible for a Categorical Exclusion under the National Environmental Policy Act (see **SUPPLEMENTARY INFORMATION**).

DATES: Requests for the applications and/or written comments on the application should be sent to the Service's Regional Office (see **ADDRESSES**) and should be received on or before June 29, 1998.

ADDRESSES: Persons wishing to review the application may obtain a copy by writing the Service's Southeast Regional Office, Atlanta, Georgia. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (Attn: Endangered Species Permits), or U.S. Fish and Wildlife Service, P.O. Drawer 1190, Daphne, Alabama 36526. Written data or comments concerning the application should be submitted to the Regional Office. Comments must be submitted in writing to be processed. Please reference permit under PRT–842707 in such comments, or in requests of the documents discussed herein.

FOR FURTHER INFORMATION CONTACT: Mr. Rick G. Gooch, Regional Permit Coordinator, (see **ADDRESSES** above), telephone: 404/679–7110, facsimile: 7081; or Mr. Brett Wehrle, Fish and Wildlife Biologist, Daphne Alabama Field Office, (see **ADDRESSES** above), telephone: 334/441–5181 extension 29, facsimile: 334/694–4222.

SUPPLEMENTARY INFORMATION: Section 9 of the Act and Federal regulation prohibit the "take" of a species listed as endangered or threatened, respectively (take is defined under the Act, in part, as to kill, harm, or harass). However, the Service, under limited circumstances, may issue permits to authorize "incidental take" of listed species (defined by the Act as take that is incidental to, and not the purpose of, the carrying out of an otherwise lawful activity). Regulations governing permits for threatened species are promulgated in 50 CFR 17.32; regulations governing permits for endangered species are promulgated in 50 CFR 17.22.

There are five RCW groups scattered throughout the Applicant's ownership of approximately 400,000 acres. The primary goal of the application will be to create adequate RCW nesting and foraging habitat and to consolidate long-term management of the Applicant's RCW population within a 10,000 RCW Management Area (Area). This will be accomplished by translocation of juvenile RCWs to the Area to establish a larger, more secure population. Incidental take of RCWs may occur as a result of these actions, during performance of land management actions within the Area, and via other activities associated with implementation of the Plan. The Applicant's current baseline responsibility will be adjusted upwards should additional groups be discovered during timber management operations and/or periodic and systematic RCW surveys associated with implementation of this application. RCW foraging habitat management, cluster and cavity management, staff training, administration, and monitoring are also components of the application that will result in conservation benefits to the RCW. The Applicant provides a funding source for the above-mentioned mitigation and minimization measures.

The Service has determined that the Plan qualifies as a "low-effect" Habitat Conservation Plan as defined by the Service's Habitat Conservation Planning Handbook (November 1996).

Low-effect Habitat Conservation Plans are those involving: (1) Minor or negligible effects on federally listed and candidate species and their habitats, and (2) minor or negligible effects on other environmental values or resources. The Plan qualifies as a low-effect Habitat Conservation Plan for the following reasons: 1. Approval of the Plan would result in minor or negligible adverse effects on the RCW and its habitat. Further, the Service does not anticipate significant direct or cumulative effects to the RCW resulting from approving the application, Safe Harbor/Memorandum of Agreement Conservation Plan. 2. Approval would not have adverse effects on unique geographic, historic or cultural sites, or involve unique or unknown environmental risks. 3. Approval of the Plan would not result in any cumulative or growth inducing impacts and, therefore, would not result in significant adverse effects on public health or safety. 4. The project does not require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or

the Fish and Wildlife Coordination Act, nor does it threaten to violate a Federal, State, local or tribal law or requirement imposed for the protection of the environment. 5. Approval of the Plan would not establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.

The Service has therefore determined that approval of the Plan qualifies as a categorical exclusion under the National Environmental Policy Act, as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). No further National Environmental Policy Act documentation will therefore be prepared. This notice is provided pursuant to section 10(c) of the Act. The Service will evaluate the permit application, the Plan, and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Act. If it is determined that those requirements are met, a permit will be issued for the incidental take of the RCW. The final decision will be made no sooner than 30 days from the date of this notice.

Dated: May 19, 1998.

H. Dale Hall,

Deputy Regional Director.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR–958–1430–01; GP8–0072; OR–51831–WA]

Public Land Order No. 7333; Withdrawal of Lands for the San Juan Archipelago; Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order withdraws 195.59 acres of public lands and 75.82 acres of non-Federal lands proposed for acquisition from surface entry and mining for a period of 5 years to protect the natural and recreational values on 10 tracts of land in the San Juan Archipelago, while the Bureau of Land Management completes land use planning for these areas. The public lands have been and will remain open to mineral leasing. The non-Federal lands will become subject to the withdrawal and will be opened to mineral leasing upon acquisition by the United States.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Betty McCarthy, BLM Oregon/Washington State Office, P.O. Box 2965, Portland, Oregon 97208–2965, 503–952–6155.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1994), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands are hereby withdrawn from settlement, sale, location, or entry under the general land laws, including the United States mining laws [30 U.S.C. Ch. 2 (1994)], but not from leasing under the mineral leasing laws, to protect the natural and recreational values on seven waterfront tracts, one inland tract, and two islands in the San Juan Archipelago:

Willamette Meridian

Tract H (Lopez Island; NW Chadwick Hill and Wetland)

T. 34 N., R.1 W.,

Sec. 17, that portion of the south 200 ft. of the N½SE¼, SE¼SE¼, and SW¼SE¼, excepting therefrom the following described tracts:

Beginning at the southwest corner of the southeast quarter of sec. 17, running due east 9 rods to ditch; Thence following ditch in northeasterly direction 14 rods; Thence run in a northwesterly direction 30 rods; Thence running in a westerly direction 6 rods to County Road; Thence following County Road due south 40 rods to point of beginning. Also beginning at southwest corner of SE¼ of said sec. 17, and running due east 9 rods to ditch; Thence following ditch in a northeasterly direction 300 ft; Thence due east 937 ft; Thence south 208.7 ft; Thence on section line west 1150 feet to place of beginning; EXCEPT County Road along the west line thereof; (83.67 acres) AND

Sec. 17, the north 330 ft. of the south 530 ft. of the NE¼SE¼ and NW¼SE¼ being more particularly described as follows:

A portion of the NE¼SE¼ described as follows:

Commencing at the east quarter corner of said sec. 17 as described by instrument recorded under Auditor's File No. 95675, records of said county, from which the concrete monument described by instrument recorded under Auditor's File No. 120616, records of said county, as marking the northeast corner of said sec. 17 bears north 0°37′51″ east; Thence from said quarter corner along the easterly boundary of said NE¼SE¼ south 0°37′02″ west, 809.69 ft. to the TRUE POINT OF BEGINNING of the parcel to be described; Thence leaving said easterly boundary and along the northerly boundary of the south 530 ft. of the said NE¼SE¼ and parallel with the southerly boundary of the said NE¼SE¼ south 89°49′41″ west, 991.78 ft. to a point on the easterly boundary of the west 330 ft. of the said NE¼SE¼; Thence leaving said northerly boundary and along said easterly boundary south 0°29′00″ west, 330.02 ft. to a point on the northerly boundary of the south 200 ft. of the said NE¼SE¼; Thence along said northerly boundary and parallel with the southerly boundary of the said NE¼SE¼ north 89°49′41″ east, 991.01 ft. to a point on the easterly boundary of the said NE¼SE¼; Thence along said easterly boundary north 0°37′02″ east, 330.03 ft. to the TRUE POINT OF BEGINNING; AND,

Sec. 17, portions of the NE¼SE¼ and NW¼SE¼ described as follows:

Commencing at the east quarter corner of said sec. 17 as described by instrument recorded under Auditor's File No. 95675, records of said county, from which the concrete monument described by instrument recorded under Auditor's File No. 120616, records of said county, bears north 0°37′51″ east; Thence from said quarter corner along the common boundary of the SE¼NE¼ and the NE¼SE¼ of said sec. 17 south 89°40′35″ west, 1323.74 ft. to the westerly corner common to the said SE¼NE¼ and NE¼SE¼; Thence leaving said common boundary and along the westerly boundary of the said NE¼SE¼ south 0°29′09″ west, 806.17 ft. to the TRUE POINT OF BEGINNING of the parcel to be described; Thence leaving said westerly boundary and along the northerly boundary of the south 530 ft. of the said NW¼SE¼ and parallel with the southerly boundary of the said NW¼SE¼ south 89°49′41″ west, 1321.81 ft. to a point on the westerly boundary of the said NW¼SE¼; Thence leaving said northerly boundary and along said westerly boundary south 0°20′56″ west, 330.01 ft.; Thence leaving said westerly boundary and along the northerly boundary of the south 200 ft. of the said NW¼SE¼ and parallel with the southerly boundary of the said NW¼SE¼ north 89°49′41″ east, 1321.03 ft. to a point on the westerly boundary of the said NE¼SE¼; Thence along the northerly boundary of the south 200 ft. of the said NE¼SE¼ and parallel with the southerly boundary of the said NE¼SE¼ north 89°49′41″ east, 330.02 ft. to a point on the easterly boundary of the west 330 ft. of the said NE¼SE¼; Thence along the said easterly boundary and parallel with the westerly boundary of the said NE¼SE¼ north 0°29′00″ east, 330.02 ft. to a point on the northerly boundary of the south 530 ft. of the said NE¼SE¼; Thence along said northerly boundary and parallel with the southerly boundary of the said NE¼SE¼ south 89°49′41″ west, 330.02 ft. to a point on the boundary common to the said NW¼SE¼ and the NE¼SE¼, said point also being the TRUE POINT OF BEGINNING. (20.02 acres)

Tract J: (Lopez Island; Watmough Bay)

T. 34 N., R. 1 W.,

Sec. 21, lot 2 and SW¼NW¼, TOGETHER with tidelands of the second class abutting thereon; EXCEPT the following described portions thereof:

1. A portion of lot 2 described as follows:

Beginning at a point marked by an iron pipe at the approximate high tide line, which point is south 50.1 ft. and east 2197 ft. of an iron pipe marking the northwest corner of the SW¼NW¼ of said sec. 21; Thence from said point of beginning south 66°46′ west, 146.1 ft. to an iron pipe at the edge of a marsh;

Thence continuing south 66°46′ west, 140.5 ft. to a point in the marsh which point is south 163.2 ft. and east 1933.6 ft. of the said northwest corner; Thence north 109.1 ft., more or less, to a point on the edge of said marsh; Thence continuing north 54 ft. to a point on the north line of said lot 2; Thence easterly along the said north boundary 222 ft., more or less, to the approximate line of ordinary high tide; Thence southeasterly to the said point of beginning.

2. That portion of lot 2, lying easterly of the following described line:

Commencing at the center of said sec. 21, which point is also the southeast corner of said lot 2 and is marked by an iron pin; Thence north 652.5 ft. along the east boundary of said lot 2 to an iron pipe; Thence leaving said east boundary south 70°10′ west, 218.6 ft.; Thence south 76°35′ west, 303.2 ft.; Thence south 76°17′ west, 248.0 ft.; Thence north 30°00′ east, 434.36 ft.; Thence north 48°30′ west, 245.09 ft.; Thence north 60°58′ east, 165.0 ft. to the point of beginning of said line; Thence north 30°00′ west to the north line of said lot 2 and the terminus of said line.

3. A portion of lot 2, described as follows:

Commencing at the center of said sec. 21, which point is also the southeast corner of said lot 2 and is marked by an iron pin; Thence north 652.5 ft. along the east boundary of said lot 2 to an iron pipe; Thence leaving said east boundary south 70°10′ west, 218.6 ft.; Thence south 76°35′ west, 303.2 ft.; Thence south 76°17′ west, 386.3 ft.; Thence south 76°12′ west, 13.4 ft. to the point of beginning of said line; Thence continuing south 76°12′ west, 373.2 ft.; Thence north 65°28′ west, 95.3 ft. to a point on the north line of County Road No. 124; Thence north 22°01′ east, 380.8 ft.; Thence north 60°58′ east, 350 ft.; Thence south 474.1 ft. to the point of beginning.

4. A portion of lot 2, described as follows:

Beginning at the center of said sec. 21, which point is also the southeast corner of said lot 2 and is marked by an iron pin; Thence along the easterly boundary of said lot 2 north 583.5 ft.; Thence leaving said easterly boundary south 70°10′ west, 198.8 ft.; Thence south 76°35′ west, 306.7 ft.; Thence south 76°17′ west, 386.1 ft.; Thence south 76°12′ west, 463 ft.; Thence south 46°48′ east, 166.6 ft.; Thence south 50°36′ east, 217.9 ft. to a point on the southerly boundary north 89°27′40″ east, 1020.1 ft. to the point of beginning.

5. A portion of the SW¼NW¼, described as follows:

Beginning at a point on the west boundary of said sec. 21, which point is 830.3 ft. north (N. 0°48′ E.) of the west one-quarter corner of said sec. 21 and which point is also on the north margin of a proposed 60 ft. wide roadway; Thence along said north margin south 83°55′ east, 378 ft.; Thence along said north margin south 64°29′ east, 75 ft.; Thence continuing along said north margin south 64°29′ east, 452.9 ft.; Thence leaving said north margin north 87°28′ east, 223.9 ft.; Thence north 41°49′ west, 51.6 ft.; Thence north 0°48′ east 679.2 ft. to the north boundary of said SW¼NW¼; Thence along said north boundary west 1,044.70 ft. to the northwest corner of said SW¼NW¼; Thence south (S. 0°48′ W.) 459.4 ft., more or less, to the said point of beginning.

6. A portion of the SW¼NW¼, described as follows:

Beginning at a point on the west boundary of said sec. 21, which point is 660 ft. north 0°48′ east of the west one-quarter corner of said sec. 21; Thence continuing north 110.3 ft. to a point on the south margin of a proposed 60 ft. wide roadway; Thence along said south margin south 83°55′ east 363.2 ft.; Thence along said south margin south 64°29′ east 164.1 ft.; Thence along said south margin south 41° west 225 ft.; Thence along said south margin south 62°45′ east 282.5 ft.; Thence along said south margin south 53°18′ east, 136.88 ft.; Thence along said south margin south 76°45′ east, 180.06 ft.; Thence parallel to the west line of said section south 0°48′ west, 238.49 ft. to the south line of the SW¼NW¼ of said section; Thence on the south line of said SW¼NW¼ south 89°55′ west, 1199.74 ft.; Thence north 0°48′ west 660 ft. to the point of beginning.

7. County Road No. 124, as described under Auditor's File No. 75855, Records of San Juan County, Washington, lying in portions of lot 2 and the SW¼NW¼ of sec. 21. (28.76 acres)

Tract K (Lopez Island; Watmough Head and Watmough Bay)

T. 34 N., R. 1 W.,
Sec. 21, portions of lot 2 described as follows:

Commencing at the center of said sec. 21, which point is also the southeast corner of said lot 2 and is marked by an iron pin; Thence north 652.5 ft. along the east boundary of said lot 2 to an iron pipe; Thence leaving said east boundary south 70°10′ west, 218.6 ft.; Thence south 76°35′ west, 303.2 ft.; Thence south 76°17′ west, 386.3 ft.; Thence south 76°12′ west, 13.4 ft. to the point of beginning of said line; Thence continuing south 76°12′ west, 373.2 ft.; Thence north 65°28′ west, 95.3 ft. to a point on the north line of County Road No. 124; Thence north 22°01′ east, 380.8 feet; Thence north 60°58′ east, 350 feet; Thence south 474.1 feet to the point of beginning; (3.75 acres) AND

Sec. 21, portions of lot 2, described as follows:

Beginning at a point marked by an iron pipe at the approximate high tide line, which point is south 50.1 feet and east 2197 feet of an iron pipe marking the northwest corner of the SW¼NW¼ of said sec. 21; Thence from said point of beginning south 66°46′ west, 146.1 ft. to an iron pipe at the edge of a marsh; Thence continuing south 66°46′ west, 140.5 ft. to a point in the marsh which point is south 163.2 ft. and east 1933.6 ft. of the said northwest corner; Thence north 109.1 ft., more or less, to a point on the edge of said marsh; Thence continuing north 54 ft. to a point on the north line of said lot 2; Thence easterly along the said north boundary 222 ft., more or less, to the approximate line of ordinary high tide; Thence southeasterly to the said point of beginning; (0.64 acres) AND

Beginning at the center of said sec. 21, which point is also the southeast corner of said lot 2, and is marked by an iron pin; Thence along the easterly boundary of said lot 2 north 583.5 ft.; Thence leaving said easterly boundary south 70°10′ west, 198.8 ft.; Thence south 76°35′ west, 306.7 ft.; Thence south 76°17′ west, 386.1 ft.; Thence south 76°12′ west 463 ft.; Thence south 46°48′ east, 166.6 ft.; Thence south 50°36′ east, 217.9 ft. to a point on the southerly boundary north 89°27′40″ east, 1020.1 ft. to the point of beginning. (11.85 acres)

Tract L (Lopez Island; Cape St. Mary)

T. 34 N., R. 1 W.,
Sec. 15, lot 1.

Tract M (Lopez Island; Lopez Pass)

T. 35 N., R. 1 W.,
Sec. 33, lot 1.

Tract N (Eliza Island; South End)

T. 36 N., R. 2 E.,
Sec. 5, unsurveyed portion of Eliza Island.

Tract O (Lummi Island; Carter Point)

T. 36 N., R. 2 E.,
Sec. 6, unsurveyed portion of Lummi Island.

Tract P (Lummi Rocks)

T. 37 N., R. 1 E.,
Sec. 27, unsurveyed Lummi Rocks in the NW¼ and SW¼NE¼.

Tract Q (Chuckanut Rock)

T. 37 N., R. 2 E.,
Sec. 24, unsurveyed Chuckanut Rock.

The areas described aggregate approximately 195.59 acres in San Juan and Whatcom Counties.

2. The following described non-Federal lands, if acquired by the United States, will be subject to the terms and conditions of this withdrawal as described in paragraph 1:

Willamette Meridian

Tract I (Lopez Island; Chadwick Hill/ Watmough Bay)

T. 34 N., R. 1 W.,
Sec. 21, lot 1 and NW¼NW¼.

The area described contains 75.82 acres in San Juan County.

3. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

4. This withdrawal will expire 5 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (1994), the Secretary determines that the withdrawal shall be extended.

Dated: May 14, 1998.

Bob Armstrong,

Assistant Secretary of the Interior.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR–958–1430–01; GP7–0092; OR–19082]

Public Land Order No. 7334; Revocation of the Executive Order Dated October 13, 1916; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes in its entirety an Executive order which withdrew 6,026 acres of public lands for the Bureau of Land Management's Powersite Reserve No. 561. The lands are no longer needed for the purpose for which they were withdrawn. This action will open approximately 1,020 acres to surface entry. Of the remaining lands, 4,806 acres will remain closed to surface entry, and 200 acres will remain closed to mining due to other overlapping withdrawals. All of the lands have been and will remain open to mineral leasing.

EFFECTIVE DATE: August 28, 1998.

FOR FURTHER INFORMATION CONTACT: Betty McCarthy, BLM Oregon/ Washington State Office, P.O. Box 2965, Portland, Oregon 97208–2965, 503–952–6155.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1994), it is ordered as follows:

1. The Executive Order dated October 13, 1916, which established Powersite Reserve No. 561, is hereby revoked in its entirety:

Willamette Meridian

T. 2 S., R. 15 E.,
- Sec. 13, SW¼ and W½SE¼;
- Sec. 14, SE¼SE¼;
- Sec. 23, NE¼, NE¼SW¼, N½SE¼, and SW¼SE¼;
- Sec. 24, NW¼NE¼ and W½NW¼;
- Sec. 26, E½W½ and SW¼SW¼;
- Sec. 27, S½SW¼ and SW¼SE¼;
- Sec. 33, SE¼;
- Sec. 34, W½E½ and W½.

T. 3 S., R. 15 E.,
- Sec. 3, SW¼NW¼ and W½SW¼;
- Sec. 4, lots 1 and 2, S½N½, and S½;
- Sec. 7, lot 4, S½NE¼, E½SW¼, and SE¼;
- Sec. 8, W½SW¼ and E½SE¼;
- Sec. 9, NW¼, N½SW¼, and SW¼SW¼;
- Sec. 17, NE¼, NW¼NW¼, S½NW¼, and N½S½;
- Sec. 18, lots 1, 2, and 3, E½NE¼, NW¼NE¼, E½NW¼, and NE¼SE¼.

T. 1 S., R. 16 E.,
- Sec. 4, lot 3 and SE¼NW¼;
- Sec. 5, W½SE¼;
- Sec. 8, SE¼NE¼ and E½NW¼;
- Sec. 19, SE¼SW¼;
- Sec. 20, NW¼SE¼;
- Sec. 30, lots 2, 3, and 4, W½NE¼, and E½SW¼;
- Sec. 31, lots 1 and 2, SE¼NW¼, NE¼SW¼, W½SE¼, and SE¼SE¼;
- Sec. 32, SW¼SW¼.

T. 2 S., R. 16 E.,
- Sec. 5, lot 4 and SW¼NW¼;
- Sec. 6, lots 1, 2, 3, and 7, S½NE¼, SE¼NW¼, E½SW¼, and NW¼SE¼;
- Sec. 7, lots 1 to 4, inclusive, and E½W½;
- Sec. 18, lots 1 and 2, and E½W½.

The areas described aggregate 6,026 acres in Sherman and Wasco Counties.

2. The lands described as the S½SW¼ and SW¼SE¼, sec. 13, and the NW¼NE¼ and NW¼NW¼, sec. 24, T. 2 S., R. 15 E., are withdrawn for the Bureau of Land Management's Macks Canyon Recreation Site, and will remain closed to operation of the public land laws, including the mining laws.

3. The lands lying within the boundaries of the Bureau of Land Management Deschutes Wild and Scenic River withdrawal will remain closed to surface entry.

4. At 8:30 a.m. on August 28, 1998, the lands described in paragraph 1, except as provided in paragraphs 2 and 3, will be opened to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. All valid applications received at or prior to 8:30 a.m., on August 28, 1998, will be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

5. The State of Oregon has a preference right for public highway right-of-way or material sites for a period of 90 days from the date of publication of this order and any location, entry, selection, or subsequent patent shall be subject to any rights granted the State as provided by the Act of June 10, 1920, Section 24, as amended, 16 U.S.C. 818 (1994).

Dated: May 14, 1998.

Bob Armstrong,

Assistant Secretary of the Interior.

[OR–958–1430–01; GP7–0177; OR–19114]

Public Land Order No. 7327; Revocation of Executive Order Dated December 12, 1917; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes in its entirety an Executive order which withdrew 3,074.15 acres of lands for the Bureau of Land Management's Powersite Reserve No. 660. The lands are no longer needed for the purpose for which they were withdrawn. Due to other overlapping withdrawals, 1,562.63 acres have been and will remain closed to surface entry and 323.40 acres have been and will remain closed to surface entry and mining. The remaining 1,188.12 acres have been conveyed out of Federal ownership and this is a record-clearing action only for these lands. All of the lands that are still in Federal ownership have been and will remain open to mineral leasing.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Betty McCarthy, BLM Oregon/ Washington State Office, P.O. Box 2965, Portland, Oregon 97208–2965, 503–952–6155.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1994), it is ordered as follows:

1. The Executive Order dated December 12, 1917, which established Powersite Reserve No. 660, is hereby revoked in its entirety:

Willamette Meridian

(a) Revested Oregon and California Railroad Grant Land

T. 1 S., R. 4 E.,
- Sec. 11, N½SW¼ and SE¼SW¼;
- Sec. 15, NW¼NE¼, S½NE¼, and NE¼NW¼;
- Sec. 23, S½NE¼, N½NW¼, SE¼NW¼, N½SE¼, and SE¼SE¼;
- Sec. 25, SE¼NE¼.

T. 2 S., R. 4 E.,
- Sec. 1, E½ of Tract 37.

T. 2 S., R. 5 E.,
- Sec. 13, lots 1, 2, 3, and 4, and Tract 38;
- Sec. 15, Tract 39.

T. 2 S., R. 6 E.,
- Sec. 15, lot 1, SE¼SW¼, and S½SE¼;
- Sec. 17, SE¼SW¼ and SE¼SE¼;
- Sec. 19, S½NE¼;
- Sec. 21, S½NE¼;
- Sec. 23, lot 1, SE¼NE¼, and NE¼SE¼;
- Sec. 25, SW¼ and S½SE¼;
- Sec. 35, NE¼NE¼.

T. 2 S., R. 7 E.,
- Sec. 31, lot 4, E½SW¼, and SE¼.

(b) Non-Federal Lands

T. 1 S., R. 4 E.,
- Sec. 25, W½NE¼ and NE¼NW¼.

T. 2 S., R. 4 E.,
- Sec. 1, lots 1 and 3, and E½SW¼.

T. 2 S., R. 5 E.,
- Sec. 13, E½SE¼;
- Sec. 15, lots 1, 2, and 3, and W½NE¼.

T. 2 S., R. 6 E.,
- Sec. 17, SW¼SE¼;
- Sec. 19, lots 2 and 3, SE¼NW¼, and N½SE¼;

Sec. 21, SW¼SW¼ and N½SE¼;
Sec. 23, N½NE¼ and SW¼NE¼;
Sec. 25, NE¼SE¼.
T. 2 S., R. 7 E.,
Sec. 31, lots 1, 2, and 3, and SE¼NW¼.

The areas described aggregate 3,074.15 acres in Clackamas and Multnomah Counties.

2. The lands described in paragraph 1(b) have been conveyed out of Federal ownership. This is a record-clearing action.

3. The following described lands are included in overlapping withdrawals for Power Project No. 477 and the Bureau of Land Management's Wildwood Recreation Area and will remain closed to surface entry and mining. These lands have been and will remain open to mineral leasing:

Willamette Meridian

T. 2 S., R. 4 E.,
Sec. 1, E½ of Tract 37.
T. 2 S., R. 5 E.,
Sec. 13, Tract 38;
Sec. 15, Tract 39.
T. 2 S., R. 7 E.,
Sec. 31, lot 4, E½SW¼, and SE¼.

4. The lands described in paragraph 1(a) are also included in Bureau of Land Management withdrawals for Waterpower Designation No. 14 and the Salmon and Sandy Wild and Scenic Rivers. The lands described in paragraph 1(a), except those described in paragraph 3, have been and will remain closed to surface entry, and have been and will remain open to mining and mineral leasing.

Dated: April 17, 1998.

Public Land Order No. 7335; Opening of Lands Under Section 24 of the Federal Power Act; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order opens 22.95 acres of National Forest System lands in Powersite Classification No. 433, subject to the provisions of Section 24 of the Federal Power Act. This order will permit consummation of a pending sale and retain the waterpower rights to the United States. The lands have been and will continue to be open to mining under the provisions of the Mining Claims Rights Restoration Act of 1955, and to mineral leasing.

EFFECTIVE DATE: May 29, 1998.

FOR FURTHER INFORMATION CONTACT: Janet Booth, BLM Wyoming State Office, P.O. Box 1828, Cheyenne, Wyoming 82003, 307–775–6124.

By virtue of the authority vested in the Secretary of the Interior by the Act of June 10, 1920, Section 24, as amended, 16 U.S.C. 818 (1994), and pursuant to the determination by the Federal Energy Regulatory Commission in DVWY–193–000, it is ordered as follows:

1. At 9 a.m., on (May 29, 1998), the following described National Forest System lands withdrawn by the Geological Survey Order dated August 5, 1955, which established Powersite Classification No. 433, will be opened to such forms of disposition as may by law be made of National Forest System lands subject to the provisions of Section 24 of the Federal Power Act, and subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law:

Sixth Principal Meridian

Bridger-Teton National Forest
T. 37 N., R. 113 W.,
Sec. 3, lot 1;
Sec. 4, lots 1 and 2.

The areas described aggregate 22.95 acres in Sublette County.

2. The lands have been and will remain open to location and entry under the United States mining laws, subject to the provisions of the Act of August 11, 1955, 30 U.S.C. 621 (1994), and to applications and offers under the mineral leasing laws.

Dated: May 14, 1998.

Proposed Withdrawal and Opportunity for Public Meeting; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Forest Service, U.S. Department of Agriculture, proposes to withdraw approximately 960 acres of National Forest System lands, lying within the Siskiyou National Forest, to protect the recreation, fisheries, scenic, and water quality values of the Scenic section of the North Fork Smith Wild and Scenic River. This notice closes the lands for up to 2 years from surface entry and mining. The public lands have been and will remain open to mineral leasing.

EFFECTIVE DATE: Comments and requests for a public meeting must be received by August 28, 1998.

ADDRESSES: Comments and meetings requests should be sent to the Oregon/Washington State Director, BLM, P.O. Box 2965, Portland, Oregon 97208–2965.

FOR FURTHER INFORMATION CONTACT: Charles R. Roy, BLM Oregon/Washington State Office, 503–952–6189.

SUPPLEMENTARY INFORMATION: On October 3, 1997, the Forest Service filed an application to withdraw the following described National Forest System lands from location and entry under the United States mining laws (30 U.S.C. Ch. 2 (1988)), but not the mineral leasing laws, subject to valid existing rights:

Willamette Meridian

Siskiyou National Forest

All lands lying on the right (west) bank of the river corridor, including the river bed, and extending ¼ mile from the centerline of the North Fork Smith River, from Horse Creek downstream 4.5 miles to the confluence of Baldface Creek, as described in the following:

T. 40 S., R. 11 W., unsurveyed
Sec. 15, SW¼SW¼;
Sec. 16, E½;
Sec. 21, E½E½ and NW¼SE¼;
Sec. 22, W½W½ and SE¼SW¼;
Sec. 27, W½E½, E½W½ and NW¼NW¼;
Sec. 28, NE¼NE¼;
Sec. 34, W½E½ and E½W½.
T. 41 S., R. 11 W.,
Sec. 2, W½;
Sec. 3, NE¼;
Sec. 11, N½NW¼.

AND all lands lying on the left (east) bank of the river corridor, including the river bed, and extending ¼ mile from the centerline of the North Fork Smith River as described in the following:

T. 41 S., R. 11 W.,
Sec. 2, those portions of the E½SW¼ and W½SE¼, lying outside the boundaries of the Kalmiopsis Wilderness Area;
Sec. 11, those portions of the NW¼NE¼ and NE¼NW¼, lying outside the boundaries of the Wild segment of the North Fork Smith Wild and Scenic River.

The areas described aggregate approximately 960 acres in Curry County.

The purpose of the proposed withdrawal is to protect the outstanding recreation, fisheries, scenic, and water quality values for which the North Fork Smith River was designated Wild and Scenic.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the State Director at the address indicated above.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested parties who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the State Director at the address indicated above within 90 days from the publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the lands will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary land uses which may be permitted during this segregative period include licenses, permits, rights-of-way, and disposal of vegetative resources other than under the mining laws.

Dated: May 19, 1998.

Sherrie L. Reid,

Acting Chief, Branch of Realty and Records Services.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY–930–4210–06; WYW 142433]

Notice of Proposed Withdrawal and Opportunity for Public Meeting; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) proposes to withdraw 40 acres of public land in Big Horn County, to protect important paleontological resources associated with the Red Gulch dinosaur track site recently discovered near Shell, Wyoming. This notice closes the land for up to two years from surface entry and mining. The land will remain open to mineral leasing.

EFFECTIVE DATE: (Publication Date). Comments and requests for a public meeting must be received by August 27, 1998.

ADDRESSES: Comments and requests should be sent to the Wyoming State Director, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82003.

FOR FURTHER INFORMATION CONTACT: Janet Booth, BLM Wyoming State Office, 307–775–6124, or Chuck Wilkie, BLM Bighorn Basin Resource Area Manager, P.O. Box 119, 101 South 23rd Street, Worland, Wyoming 82401–0119, 307–347–5100.

SUPPLEMENTARY INFORMATION: On May 14, 1998, a petition was approved allowing the Bureau of Land Management to file an application to withdraw the following described public land from settlement, sale, location, or entry under the general land laws, including the mining laws, subject to valid existing rights:

Sixth Principal Meridian, Wyoming

T. 52 N., R. 91 W.,
Sec. 20, NE¼SW¼.

The areas described contains approximately 40 acres in Big Horn County.

The purpose of the proposed withdrawal is to protect important paleontological resources pending further study and development of appropriate, and possibly longer term, actions to protect and manage the resources.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the Wyoming State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be proceeded in accordance with the regulations set forth in 43 CFR 2300.

For a period of two years from the date of publication of this notice in the **Federal Register**, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature which would not impact or impair the existing values of the area may be allowed with the approval of an authorized officer of the Bureau of Land Management during the segregative period.

Dated: May 21, 1998.

Alan R. Pierson,

State Director.

DEPARTMENT OF THE INTERIOR

National Park Service

Submission of Study Package to Office of Management and Budget; Review Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service; Golden Gate National Recreation Area (Alcatraz Island); Yosemite National Park; Statue of Liberty National Monument (Ellis Island).

ACTION: Notice and request for comments.

ABSTRACT: The University of Vermont and three parks (Golden Gate National Recreation Area (Alcatraz Island) in California, Yosemite National Park in California; Statue of Liberty National Monument (Ellis Island) in New York and New Jersey) propose to conduct visitor surveys to learn about visitor demographics and visitor opinions about services and facilities in these three parks. The results of these studies will be used by park managers to improve the services they provide to visitors while better protecting park natural and cultural resources. Study packages that include the proposed survey questionnaires for these three proposed park studies have been submitted to the Office of Management and Budget for review.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR part 1320, Reporting and Record Keeping Requirements, the NPS invites public comment on these three proposed information collection requests (ICR). Comments are invited on: (1) The need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The NPS goal in conducting these surveys is to identify characteristics, use patterns, perceptions, preferences, and opinions of visitors about management and services in these parks. In addition, each project will identify indicators and standards of quality for the visitor experience. Results of all of the surveys will be used by NPS managers in their ongoing planning and management activities to improve visitor services, protect park resources, and better serve the park's current and potential future visitors.

There were no public comments received as a result of publishing in the Federal Register a 60 day notice of intention to request clearance of information collection for these three surveys.

DATES: Public comments will be accepted on or before June 29, 1998.

SEND COMMENTS TO: Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for the Interior Department, Office of Management and Budget, Washington, DC 20530; and also to: Dr. Robert E. Manning, Professor, School of Natural Resources, 356 Aiken Center, University of Vermont, Burlington, VT 05405. Phone (802) 656–2684.

The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments on or before June 29, 1998.

FOR FURTHER INFORMATION OR A COPY OF THE STUDY PACKAGES SUBMITTED FOR OMB REVIEW, CONTACT: Dr. Robert E. Manning. Voice (802) 656–2684; Fax (802) 656–2623; Email rmanning@nature.snr.uvm.edu.

SUPPLEMENTARY INFORMATION:

Title: University of Vermont Visitor Surveys at three parks.

Bureau Form Number: Not applicable.

OMB Number: To be assigned.

Expiration Date(s): September 1999.

Type of Request: Request for new clearance.

Description of Need: The National Park Service needs information to identify characteristics, use patterns, perceptions, preferences, and opinions of visitors about management and services in these parks. The proposed information to be collected regarding visitors in these three parks is not available from existing records, sources, or observations.

Automated Data Collection: At the present time, there is no automated way to gather this information, since it includes asking visitors to evaluate services and facilities that they used during their park visit.

Description of Respondents: A sample of visitors to each of these three parks.

Estimated Average Number of Respondents: 400 at Golden Gate National Recreation Area (Alcatraz Island), 1200 at Yosemite National Park, and 640 at Statue of Liberty National Monument (Ellis Island).

Estimated Average Number of Responses: Each respondent will respond only one time, so the number of responses will be the same as the number of respondents.

Estimated Average Burden Hours Per Response: 30 minutes at Golden Gate National Recreation Area (Alcatraz Island), 15 minutes at Yosemite National Park and 30 minutes at the Statue of Liberty National Monument (Ellis Island).

Frequency of Response: One time per respondent.

Estimated Annual Reporting Burden: 200 at Golden Gate National Recreation Area (Alcatraz Island), 300 at Yosemite National Park, and 320 at Statue of Liberty National Monument (Ellis Island).

Diande M. Cooke,

Information Collection Clearance Officer, WASO Administrative Program Center, National Park Service.

BILLING CODE 4310–70–M

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Availability of Abbreviated Final Environmental Impact Statement

AGENCY: National Park Service (NPS), U.S. Department of the Interior, designated lead agency; Bureau of Land Management (BLM), designated cooperating agency.

ACTION: Notice of availability of an abbreviated final environmental impact statement for the proposed AT&T Corporation P140 Coaxial Cable Removal Project, Socorro County New Mexico, Clark County Nevada, and Kern and San Bernardino Counties California.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, the National Park Service announces the availability of an abbreviated final environmental impact statement (FEIS) for the P140 Cable Removal Project, Socorro, New Mexico, to Mojave, California. The draft environmental impact statement (DEIS) for the proposal was on public review for more than 60 days from December 29, 1997 to March 27, 1998. The abbreviated final document includes responses to public comments on the DEIS and factual corrections to the DEIS.

In 1996 AT&T approached the U.S. Department of the Interior (DOI) concerning a proposal to remove 220 miles of their P140 cable system that no longer supports their current fiber optic network.

The proposed project involved the removal of portions of a telecommunications system traversing 7.7 miles in New Mexico, 7.4 miles in Nevada, and 205.2 miles in California.

The P140 system includes buried coaxial cable, repeater huts, manholes, marker posts, and an access corridor. In addition, AT&T proposed to relinquish associated rights-of-way easements, in whole or in part, wherever cable and equipment were removed.

As jurisdictional agencies of federal lands crossed by the project, the NPS and the BLM are responsible for determining terms and conditions of any removal activity and rehabilitation actions to promote restoration of the land. In March 1997 DOI determined to prepare a non-delegated environmental impact statement.

The abbreviated FEIS describes and analyzes four alternatives in response to AT&T's request to remove cable and to terminate the associated rights-of-way. The Proposed Action, and two additional action alternatives have been developed to reduce or avoid adverse effects on desert vegetation, wilderness, the desert tortoise and recreational access. The No Action alternative is included as a baseline for comparison of the action alternatives. To varying degrees, all action alternatives include cable and structure removal along with rehabilitation of the access corridor and repeater hut sites.

Alternative A is the Proposed Action and includes the removal of 174.5 miles of cable, repeater huts and manholes along 220 miles of the right-of-way, and marker posts along 174.2 miles. In addition, the proposed action suggests rehabilitation actions to promote revegetation and habitat recovery that include the elimination of 39.8 miles of the access corridor and 4 miles of dual track.

Alternative B was developed to protect critical habitat of the desert tortoise on federal lands. Cable would not be removed from these areas, and more of the access corridor within critical habitat would be eliminated. Cable would be removed along 113.7 miles outside of critical habitat on federal lands, and repeater huts and manholes would be removed along 174.7 miles. Rehabilitation actions include eliminating 51.6 miles of the access corridor and 4 miles of dual track.

Alternative C would minimize construction-related impacts on desert vegetation and the desert tortoise on federal lands. Cable would not be removed from federal lands and the access corridor would be eliminated in wilderness areas only. Cable would be removed along 72.3 miles of primarily state and private lands. Repeater huts and manholes would be removed along 220 miles, and marker posts would be removed along 174.7 miles. The elimination and rehabilitation of 5.4 miles of the access corridor and 4 miles of dual tract also would be included in alternative C.

For all action alternatives, cable removal activities would result in long-term (20–50 years) adverse affects on desert vegetation, animal species of concern, soil productivity, recreation, and visual aesthetics, but to varying degrees. Removal and rehabilitation activities also would result in temporary adverse affects on air quality and noise due to construction-related activities. Rehabilitation actions would have a permanent beneficial impact on desert vegetation and the desert tortoise. Elimination of portions of the access corridor in the Proposed Action would have a significant impact on recreational access to open desert land, but would not eliminate access to any designated recreational site. Due to elimination of additional segments of the access corridor, Alternative B would eliminate access to several designated recreational sites.

FOR FURTHER INFORMATION CONTACT: Joan DeGraff, National Park Service, Denver Service Center, PO. Box 25287, Denver, CO, 80225–0287.

SUPPLEMENTARY INFORMATION: Copies of the DEIS are available on the Internet at the NPS web site http://www.nps.gov/planning/index.html. A limited number of individual copies of the abbreviated FEIS may be obtained from Joan DeGraff at the above address or by calling (303) 969–2464.

A 30-day no action period will begin following release of the abbreviated FEIS. A record of decision will follow the no action period.

Dated: May 22, 1998.

Willie R. Taylor,

Director, Office of Environmental Policy and Compliance.

BILLING CODE 2310–67–P

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance and NAFTA Transitional Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA–W) issued during the period of May, 1998.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations for Worker Adjustment Assistance

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–34,422; Leedo Furniture, Inc., Corinth, MS

TA–W–34,436; American Powder Coatings, Inc., El Paso, TX

TA–W–34,476; Nuclear Components, Inc., Greenburg, PA

TA–W–34,492; Moog Automotive, Batesville Operation, Batesville, MS

TA–W–34,362; Delphi Interior and Lighting Systems, Inc., Trenton, NJ

In the following cases, the investigation revealed that the criteria for eligibility have not been met for the reasons specified.

TA–W–34,393; Norty's, Inc., New York, NY

The workers firm does not produce an article as required for certification under Section 222 of the Trade Act of 1974.

TA–W–34,334; Fort James Corp., Camas, WA

Increased imports did not contribute importantly to worker separations at the firm.

TA–W–34,488; Delphi Gas Pipeline Corp., Woodward, OK

The investigation revealed that criteria (2) and criteria (3) have not been met. Sales or production did not decline during the relevant period as required for certification. Increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have not contributed importantly to the separations or threat thereof, and the absolute decline in sales or production.

TA–W–34,396; Rockwell Automation/ Reliance Electric, Athens, GA

TA–W–34,459; Koch Midstream Services Co (Formerly Known as Delhi Gas Pipeline Corp., Oklahoma City, OK

Company officials made a decision to transfer all production to another domestic plant.

TA–W–34,450; Mann Edge Tool Co., Lewistown, PA

The investigation revealed that criteria (1) and criteria (3) have not been met. A significant number or proportion of the workers did not become totally or partially separated as required for certification. Increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have not contributed importantly to the separations or threat thereof, and the absolute decline in sales or production.

Affirmative Determinations for Worker Adjustment Assistance

The following certifications have been issued; the date following the company name and location of each determination references the impact date for all workers of such determination.

TA–W–34,333; Phenix, Inc., Morristown, TN: March 5, 1997.
TA–W–34,300; Frank Ix & Sons, Inc., Lexington, NC: February 23, 1997.
TA–W–34,425; Ludwick Well Service, Sterling, KS: March 26, 1997.
TA–W–34,408; The Budd Co., Philadelphia, PA: March 17, 1997.
TA–W–34,411; Magnecomp Corp., Temecula, CA: March 20, 1997.
TA–W–34,295; Spirax Sarco, Inc., Allentown, PA: February 19, 1997.
TA–W–34,374 & A, B; The Monet Group, Inc., Pawtucket, RI, East Providence, RI and Product Development Dept., New York, NY: March 18, 1997.
TA–W–34,261; General Electric Co., Salem, VA: February 5, 1997.

Also, pursuant to Title V of the North American Free Trade Agreement Implementation Act (P.L. 103–182) concerning transitional adjustment assistance hereinafter called (NAFTA–TAA) and in accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act as amended, the Department of Labor presents summaries of determinations regarding eligibility to apply for NAFTA–TAA issued during the month of May, 1998.

In order for an affirmative determination to be made and a certification of eligibility to apply for NAFTA–TAA the following group eligibility requirements of Section 250 of the Trade Act must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, (including workers in any agricultural firm or appropriate subdivision thereof) have become totally or partially separated from employment and either—

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely,

(3) That imports from Mexico or Canada of articles like or directly competitive with articles produced by such firm or subdivision have increased, and that the increases imports contributed importantly to such workers' separations or threat of separation and to the decline in sales or production of such firm or subdivision; or

(4) That there has been a shift in production by such workers' firm or subdivision to Mexico or Canada of articles like or directly competitive with articles which are produced by the firm or subdivision.

Negative Determinations NAFTA–TAA

In each of the following cases the investigation revealed that criteria (3) and (4) were not met. Imports from Canada or Mexico did not contribute importantly to worker's separations. There was no shift in production from the subject firm to Canada or Mexico during the relevant period.

NAFTA–TAA–02283; Dana Corp., Marion Forge Div., Marion, OH
NAFTA–TAA–02310; North American Refractories Co., Curwensville Plant, Curwensville, PA
NAFTA–TAA–02253; Otis Elevator Co., Bloomington, IN
NAFTA–TAA–02209; Pekin Plastics, Pekin, IN
NAFTA–TAA–02331; Ocean Beauty, Astoria, OR
NAFTA–TAA–02314; United Industries, Beloit, WI
NAFTA–TAA–02171; Avery Dennison, Chicopee Binder Div., Chicopee, MA
NAFTA–TAA–02297; Russell-Neuman, Inc., Cisco, TX
NAFTA–TAA–02272; Stevcoknit Fabrics Co., A Div. of Delta Mills, Inc., A Subsidiary of Delta Woodside Industries, Inc., Carter and Holly Plants, Wallace, NC and Operation at The Following Other Locations: A; Mickel Plant, Spartanburg, SC, B; Stevcoknit Administrative Offices, Greer, SC, C; New York Sales Office, New York, NY, D; California Sales Office, Torrance, CA, E; Texas Sales Office, Planos, TX, F; Sales Representative, Duluth, GA, G; Sales Representative, Columbus, GA, and H; Sales Representative, Palm Beach Gardens, FL.
NAFTA–TAA–02267; BHP Copper, Inc., Pinto Valley Operations, Miami, AZ
NAFTA–TAA–02307 & A; Westark Garment Manufacturing, Waldron, AR and Havana, AR
NAFTA–TAA–2336; Springs Industries, Inc., Rock Hill Printing and Finishing Plant, Rock Hill, SC

The investigation revealed that the criteria for eligibility have not been met for the reasons specified.

None.

Affirmative Determinations NAFTA–TAA

NAFTA–TAA–02352; Federal-Mogul Corp., Powertrain Systems Div., Mooresville, IN: April 13, 1997.
NAFTA–TAA–02224; Frank Ix & Sons, Inc., Lexington, NC: February 24, 1997.
NAFTA–TAA–02348; The Budd Co., Philadelphia; PA: April 16, 1997.
NAFTA–TAA–02290; Golden City Hosiery Mills, Inc.; Villa Rica, GA: March 30, 1997.
NAFTA–TAA–02177; American Garment Finishers Corp., El Paso, TX: January 27, 1997.
NAFTA–TAA–02300; Action West, Don Shapiro Industries, El Paso, TX: March 27, 1997.
NAFTA–TAA–02351; Kodak Polychrome Graphics, Clark, NJ: March 27, 1997.
NAFTA–TAA–02286; Lane Plywood, Eugene, OR: March 27, 1997.
NAFTA–TAA–02320; Eastman Kodak Co., Digital and Applied Imaging, Rochester, NY: February 18, 1997.
NAFTA–TAA–02302; Red Kap Industries, Tompkinsville, KY: March 31, 1997.
NAFTA–TAA–02298; Superior Design Co., Liverpool, NY, Employed At The Global Heavy Absorption Design Center, Carrier Corp., Syracuse, NY: March 27, 1997.
NAFTA–TAA–02251; Lipton, Flemington, NJ: February 26, 1997.
NAFTA–TAA–02296; Vishay Dale Electronics, Yankton, SD: March 20, 1997.
NAFTA–TAA–02325; T.L. Edwards, Inc., Statesville, NC: April 6, 1997.
NAFTA–TAA–02340; NEPECO, Inc., Byron, WY: April 20, 1997.
NAFTA–TAA–02355; Megas Beauty Care, Inc., Div. Of American Safety Razor, Cleveland, OH: March 31, 1997.
NAFTA–TAA–02361; Gateway Sportswear, Inc., Masontown, PA: April 15, 1997.

I hereby certify that the aforementioned determinations were issued during the month of May 1998. Copies of these determinations are available for inspection in Room C–4318, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210 during normal business hours or will be mailed to persons who write to the above address.

Dated: May 19, 1998.

CSI Services, Incorporated, Martinsville, VA; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on May 4, 1998, in response to a worker petition which was filed on behalf of workers at CSI Services, Incorporated, Martinsville, Virginia, employed at E.I. du Pont de Nemours & Company, Incorporated, Martinsville, Virginia.

A certification applicable to workers at E.I. du Pont de Nemours & Company, Incorporated, Martinsville, Virginia, was issued on May 12, 1998, and is currently in effect (TA–W–34, 386). That certification included the petitioning group of workers of CSI Services employed at the E.I. du Pont de Nemours & Company facility in Martinsville. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, D.C. this 15th day of May, 1998.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Acting Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request if filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 8, 1998.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 8, 1998.

The petitions filed in this case are available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, DC 20210.

Signed at Washington, DC this 11th day of May, 1998.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.

Most Manufacturing, Incorporated, Including Leased Workers of Express Temporary Services, Colorado Springs, CO; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on March 20, 1998, applicable to workers of Most Manufacturing, Incorporated located in Colorado Springs, Colorado. The notice was published in the Federal Register on April 3, 1998 (63 FR 16574).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New information provided by the State shows that some workers of Most Manufacturing, Incorporated were leased from Express Temporary Services, Colorado Springs, Colorado. The leased workers produced optical disk drives for Most Manufacturing at the Colorado Springs plant. Based on these findings, the Department is amending the certification to include leased workers from Express Temporary Services, Colorado Springs, Colorado producing optical disk drives at the subject firms' production facility.

The intent of the Department's certification is to include all workers at Most Manufacturing, Incorporated adversely affected by imports.

The amended notice applicable to TA–W–34,247 is hereby issued as follows:

All workers of Most Manufacturing, Incorporated, Colorado Springs, Colorado, engaged in employment related to the production of optical disk drives; and leasked workers of Express Temporary Services, Colorado Springs, Colorado, engaged in employment related to the production of optical disk drives at Most Manufacturing, Incorporated, Colorado Springs, Colorado, who became totally or partially separated from employment on or after January 28, 1997 through March 20, 2000, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of May 1998.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.

Newell Company, ACME Frame—a/k/a Intercraft, Harrisburg, AR; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on May 11, 1998 in response to a worker petition which was filed on May 1, 1998 on behalf of workers at the Acme Frame, Harrisburg, Arkansas. The notice will soon be published in the **Federal Register.**

An active certification covering the workers of Newell Company, Acme Frame—a/k/a Intercraft, Harrisburg, Arkansas is already in effect (TA–W–34,378B). Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, D.C. this 15th day of May, 1998.

Grant D. Beale,

BILLING CODE 4510–30–M

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal Statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be

impractical and contrary to the to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, N.W., Room S–3014, Washington, D.C. 20210.

Modifications to General Wage Determination Decisions

The number of decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon and Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determinations issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at (703) 487–4630.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, (202) 512–1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the seven separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

Signed at Washington, D.C. this 21 day of May 1998.

Carl J. Poleskey,

Chief, Branch of Construction Wage Determinations.

BILLING CODE 4510–27–M

DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

[Prohibited Transaction Exemption 98–23; Exemption Application No. D–10213, et al.]

Grant of Individual Exemptions; Bankers Trust Company

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Grant of individual exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, DC. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of proposed exemption were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990) and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

Bankers Trust Company (Bankers Trust) Located in New York, New York

[Prohibited Transaction Exemption 98–23; Exemption Application No. D–10213]

Exemption

The restrictions of sections 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply, effective February 16, 1996, to the: (1) lending of certain securities to BT Alex. Brown Incorporated, Bankers Trust International PLC, and Bankers Trust (Australia) Limited (and their corporate successors), which are affiliates of Bankers Trust, (collectively; the Affiliated Borrowers), by certain employee benefit plans (including commingled investment funds holding plan assets) (the Client Plans), for which Bankers Trust and certain other affiliates (the BT Group) act as the directed trustee or custodian or securities lending agent or sub-agent; [1] and (2) receipt of compensation by the BT Group in connection with these transactions; provided that the following conditions are satisfied:

1. Neither the Affiliated Borrowers nor the BT Group has or exercises discretionary authority or control with respect to the investment of the assets of the Client Plans involved in the transaction (other than with respect to the investment of cash collateral after securities have been loaned and collateral received), or renders investment advice (within the meaning of 29 CFR 2510.3–21(c)) with respect to those assets, including decisions concerning a Client Plan's acquisition and disposition of securities available for loan.

2. Before a Client Plan participates in a securities lending program and before any loan of securities to the Affiliated Borrowers is affected, a Client Plan fiduciary who is independent of the BT Group and the Affiliated Borrowers must have:

(a) Authorized and approved a securities lending authorization agreement with the BT Group, where the BT Group is acting as the securities lending agent;

(b) Authorized and approved the primary securities lending authorization agreement with the primary lending agent, where BT Group is lending securities under a sub-agency arrangement with the primary lending agent; [2] and

(c) Approved the general terms of the securities loan agreement (the Loan Agreement) between such Client Plan and the Affiliated Borrowers, the specific terms of which are negotiated and entered into by BT Group.

3. The Client Plan may terminate the agency or sub-agency agreement at any time without penalty to such plan on five (5) business days notice, whereupon the Affiliated Borrowers shall deliver securities identical to the borrowed securities (or the equivalent in the event of reorganization, recapitalization or merger of the issuer of the borrowed securities) to the plan within (a) the customary delivery period for such securities, (b) five (5) business days, or (c) the time negotiated for such delivery by the Client Plan and the Affiliated Borrowers, whichever is less.

4. The Client Plan will receive from the Affiliated Borrowers (either by physical delivery or by book entry in a securities depository located in the United States, wire transfer or similar means) by the close of business on or before the day on which the loaned securities are delivered to the Affiliated Borrowers, collateral consisting of U.S. currency, securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities, or an irrevocable bank letter of credit issued by a U.S. bank, which is a person other than the Affiliated Borrowers or an affiliate thereof, or any combination thereof, or other collateral permitted under Prohibited Transaction Exemption (PTE) 81–6 (as amended from time to time or, alternatively, any additional or superceding class exemption that may be issued to cover securities lending by employee benefit plans), having, as of the close of business on the preceding business day, a market value (or, in the case of a letter of credit, a stated amount) initially equal to at least 102 percent of the market value of the loaned securities.

[1] The applicant represents that because Bankers Trust may add new affiliates, the entities comprising the BT Group may change. However, the Affiliated Borrowers will always be BT Alex. Brown Incorporated, Bankers Trust International PLC and Bankers Trust (Australia) Limited (and their corporate successors) for purposes of this exemption.

[2] When the BT Group acts as sub-agent, rather than the primary lending agent, the primary lending agent is receiving no section 406(b) of the Act relief herein. In such situations, the primary lending agent may be provided relief by Prohibited Transaction Class Exemption (PTE) 81–6 and PTE 82–63. PTE 81–6 was published at 46 FR 7527, January 23, 1981, as amended at 52 FR 18754, May 19, 1987, and PTE 82–63 was published at 47 FR 14804, April 6, 1982.

UMI

If the market value of the collateral on the close of trading on a business day is less than 100 percent of the market value of the borrowed securities at the close of business on that day, the Affiliated Borrowers will deliver additional collateral on the following day such that the market value of the collateral in the aggregate will again equal 102 percent. The Loan Agreement will give the Client Plan a continuing security interest in, title to, or the rights of a secured creditor with respect to the collateral and a lien on the collateral. The BT Group will monitor the level of the collateral daily.

5. When the BT Group lends securities to the Affiliated Borrowers, the following conditions must be met: (a) the collateral will be maintained in U.S. dollars, U.S. dollar-denominated securities or letters of credit of U.S. Banks, or any combination thereof, or other collateral permitted under PTE 81–6 (as amended from time to time or, alternatively, any additional or superceding class exemption that may be issued to cover securities lending by employee benefit plans); [3] (b) all collateral will be held in the United States; (c) the situs of the loan agreement will be maintained in the United States; (d) the lending Client Plans will be indemnified by Bankers Trust in the United States for any transactions covered by this exemption with the foreign Affiliated Borrowers so that the Client Plans will not have to litigate in a foreign jurisdiction nor sue the foreign Affiliated Borrowers to realize on the indemnification; (e) prior to the transaction, the foreign Affiliated Borrowers will enter into a written agreement with the Client Plan whereby the Affiliated Borrowers consent to the service of process in the United States and to the jurisdiction of the courts of the United States with respect to the transactions described herein; and (f)(1) Bankers Trust International PLC is a deposit taking institution supervised by the Bank of England; and (2) Bankers Trust (Australia) Limited is a merchant bank which is under the jurisdiction of the Federal Reserve Bank of Australia.

6. Before entering into the Loan Agreement and before a Client Plan lends any securities to the Affiliated Borrowers, the Affiliated Borrowers shall have furnished the following items to the Client Plan fiduciary: (a) the most recent available audited and unaudited statement of the Affiliated Borrowers' financial condition; (b) at the time of the loan, the Affiliated Borrowers must give prompt notice to the Client Plan fiduciary of any material adverse changes in the Affiliated Borrowers' financial condition since the date of the most recently financial statement furnished to the Client Plan; and (c) in the event of any such changes, the BT Group will request approval of the Client Plan to continue lending to the Affiliated Borrowers before making any such additional loans. No such new loans will be made until approval is received. Each loan shall constitute a representation by the Affiliated Borrower that there has been no such material adverse change.

7. The Client Plan: (a) receives a reasonable fee that is related to the value of the borrowed securities and the duration of the loan, or (b) has the opportunity to derive compensation through the investment of cash collateral. In the case of cash collateral, the Client Plan may pay a loan rebate or similar fee to the Affiliated Borrower, if such fee is not greater than the fee Client Plan would pay an unrelated party in an arm's length transaction.

8. All procedures regarding the securities lending activities will at a minimum conform to the applicable provisions of PTEs 81–6 and 82–63 (as amended from time to time or, alternatively, any additional or superceding class exemption that may be issued to cover securities lending by employee benefit plans).

9. In the event Bankers Trust International PLC and/or Bankers Trust (Australia) Limited default on a loan, Bankers Trust will liquidate the loan collateral to purchase identical securities for the Client Plan. If the collateral is insufficient to accomplish such purchase, Bankers Trust will indemnify the Client Plan for any shortfall in the collateral plus interest on such amount and any transaction costs incurred (including attorney's fees of the Client Plan for legal actions arising out of the default on the loans or failure to properly indemnify under this provision). Alternatively, if such identical securities are not available on the market, Bankers Trust will pay the Client Plan cash equal to the market value of the borrowed securities as of the date they should have been returned to the Client Plan plus all the accrued financial benefits derived from the beneficial ownership of such loaned securities. The lending Client Plans will be indemnified by Bankers Trust in the United States for any loans to the foreign Affiliated Borrowers.

10. In the event BT Alex. Brown Incorporated, a U.S. registered broker-dealer, defaults on a loan, Bankers Trust will liquidate the loan collateral to purchase identical securities for the Client Plan. If the collateral is insufficient to accomplish such purchase, BT Alex. Brown Incorporated will indemnify the Client Plan for any shortfall in the collateral plus interest on such amount and any transaction costs incurred (including attorney's fees of the Client Plan for legal actions arising out of the default on the loans or failure to properly indemnify under this provision).

11. If the Affiliated Borrowers' default on the securities loan or enter bankruptcy, the collateral will not be available to the Affiliated Borrowers or their creditors, but is used to make the Client Plan whole.

12. The Client Plans will be entitled to the equivalent of all distributions made to holders of the borrowed securities, including all interest, dividends and distributions on the loaned securities during the loan period.

13. Only Client Plans with total assets having an aggregate market value of at least $50 million are permitted to lend securities to the Affiliated Borrowers; provided however, that—

(a) In the case of two or more Client Plans which are maintained by the same employer, controlled group of corporations or employee organization (the Related Client Plans), whose assets are commingled for investment purposes in a single master trust or any other entity the assets of which are "plan assets" under 29 CFR 2510.3–101 (the Plan Asset Regulation), which entity is engaged in securities lending arrangements with the Affiliated Borrowers, the foregoing $50 million requirement shall be deemed satisfied if such trust or other entity has aggregate assets which are in excess of $50 million; provided that if the fiduciary responsible for making the investment decision on behalf of such master trust or other entity is not the employer or an affiliate of the employer, such fiduciary has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million.

(b) In the case of two or more Client Plans which are not maintained by the same employer, controlled group of corporations or employee organization (the Unrelated Client Plans), whose assets are commingled for investment purposes in a group trust or any other form of entity the assets of which are "plan assets" under the Plan Asset Regulation, which entity is engaged in securities lending arrangements with the Affiliated Borrowers, the foregoing $50 million requirement is satisfied if such trust or other entity has aggregate assets which are in excess of $50

[3] See limitations discussed in Item I.5 of the Written Comments.

million (excluding the assets of any Plan with respect to which the fiduciary responsible for making the investment decision on behalf of such group trust or other entity or any member of the controlled group of corporations including such fiduciary is the employer maintaining such Plan or an employee organization whose members are covered by such Plan). However, the fiduciary responsible for making the investment decision on behalf of such group trust or other entity—

(i) Has full investment responsibility with respect to plan assets invested therein; and

(ii) Has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million. (In addition, none of the entities described above are formed for the sole purpose of making loans of securities.)

14. For purposes of this exemption, the Affiliated Borrowers will consist only of BT Alex. Brown Incorporated, Bankers Trust International PLC and Bankers Trust (Australia) Limited, and their corporate successors.

15. In any calendar quarter, on average 50 percent or more of the outstanding dollar value of securities loans negotiated on behalf of the Client Plans by the BT Group in the aggregate will be to borrowers who are not affiliated with the BT Group.

16. The terms of each loan of securities by the Client Plans to any of the Affiliated Borrowers will be at market rates and at terms as favorable to such plans as if made at the same time and under the same circumstances to an unaffiliated party.

17. Each Client Plan will receive a monthly transaction report, including but not limited to the information described in paragraph 24 of the notice of proposed exemption (the Notice), so that the independent fiduciary of such plan may monitor the securities lending transactions with the Affiliated Borrowers.

18. During the notification of interested persons period, all Client Plans (that were Client Plans during this period) received a copy of the notice of pendency of the proposed exemption. In addition, current Client Plans will receive a copy of the final exemption and Bankers Trust will provide a copy of the final exemption to any new Client Plans.

19. Bankers Trust or the Affiliated Borrowers maintain or cause to be maintained within the United States for a period of six years from the date of such transaction such records as are necessary to enable the persons described in paragraph (20) below to determine whether the conditions of this exemption have been met; except that a party in interest with respect to an employee benefit plan, other than Bankers Trust or the Affiliated Borrowers, shall not be subject to a civil penalty under section 502(i) of the Act or the taxes imposed by section 4975(a) or (b) of the Code, if such records are not maintained, or are not available for examination as required by this section, and a prohibited transaction will not be deemed to have occurred if, due to circumstances beyond the control of Bankers Trust or the Affiliated Borrowers, such records are lost or destroyed prior to the end of such six year period.

(20)(i) Except as provided in subparagraph (ii) of this paragraph (20) and notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (19) are unconditionally available at their customary location for examination during normal business hours by—

(a) Any duly authorized employee or representative of the Department, the Internal Revenue Service, or the Securities and Exchange Commission,

(b) Any fiduciary of a Client Plan or any duly authorized representative of such fiduciary,

(c) Any contributing employer to any Client Plan, or any duly authorized employee or representative of such employer, and

(d) Any participant or beneficiary of any Client Plan, or any duly authorized representative of such participant or beneficiary.

(ii) None of the persons described in subparagraphs (b)–(d) of this paragraph (20) shall be authorized to examine trade secrets of Bankers Trust or the Affiliated Borrowers, or commercial or financial information which is privileged or confidential.

Effective Date: This exemption is effective as of February 16, 1996.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the Notice published on February 19, 1998 at 63 FR 8482.

Written Comments

The Department received one written comment (the Comment) with respect to the Notice and no requests for a public hearing. The Comment was filed by Bankers Trust and generally requests clarifications and modifications to the Notice. Set forth below in section I is a discussion of those aspects of the Comment which relate to the language of the final exemption (the Exemption). In addition, section II below discusses the aspects of the Comment which relate to the Summary of Facts and Representations (the Summary) contained in the Notice.

I. Discussion of the Comment Regarding the Exemption

1. The introductory paragraph of the Notice proposes to exempt, in relevant part, the lending of securities to certain affiliates of Bankers Trust. Bankers Trust states that BT Securities Corporation has merged with Alex. Brown and Sons, Incorporated. Accordingly, Bankers Trust requests that the term "BT Alex. Brown Incorporated" be substituted for "BT Securities Corporation" in the relevant sections of the Notice.

The Department acknowledges the applicant's request and has modified the Exemption to reflect this substitution.

2. Bankers Trust states that it would like to avoid the need to request a clarification of the Exemption from the Department in the future should another change occur in the names of the entities that comprise the BT Group. Thus, the applicant suggests that the term "Affiliated Borrowers" be defined in the Exemption as BT Alex. Brown Incorporated, Bankers Trust International PLC, and Bankers Trust (Australia) Limited and their corporate successors [emphasis added]. Bankers Trust requests that this modification be made in the introductory paragraph of the operative language of the Exemption, in the last sentence of footnote 1, and elsewhere in the Exemption, as relevant.

The Department concurs with the applicant's suggestion and has modified the Exemption accordingly. However, with respect to corporate successors, the Department notes that the Exemption would not be effective for any new entities created by the sale of the underlying assets of an Affiliated Borrower to an unrelated third party.

3. Bankers Trust comments that the Affiliated Borrowers are sometimes only the securities lending agent and not the custodian or directed trustee of the Client Plan. Therefore, Bankers Trust requests that the word "or" should be substituted for the word "and" in the relevant places of the Exemption to clarify that an Affiliated Borrower may be only the securities agent for the Client Plan.

The Department acknowledges the applicant's clarification and has modified the Exemption accordingly.

4. Condition 3 of the Notice provides, among other things, that the Client Plan may terminate the agency or sub-agency

agreement on five (5) days notice whereupon the Affiliated Borrowers shall deliver certificates for securities identical to the borrowed securities to the Client Plan within a specified time period (as stated therein). Bankers Trust states that because the certificates of securities are not physically delivered to the Client Plan in every instance, the words "* * * certificates for" as used in this Condition should be deleted.

The Department acknowledges the applicant's clarification and has modified Condition 3 of the Exemption accordingly.

5. Condition 5(a) of the Notice requires that when the BT Group lends securities to the Affiliated Borrowers, the collateral will be maintained in U.S. dollars, U.S. dollar-denominated securities or letters of credit of U.S. Banks. The applicant states that when Bankers Trust lends securities to the Affiliated Borrowers under the Exemption, it should be able to use as collateral any property or other arrangement which may be permitted by the Department in a future class exemption for securities lending. Therefore, Bankers Trust suggests adding the following language as an insert at the end of the language contained in Condition 5(a):

* * * or any combination thereof, or other collateral permitted under Prohibited Transaction Exemption (PTE) 81–6 (as amended from time to time or, alternatively, any additional or superceding class exemption that may be issued to cover securities lending by employee benefit plans).

The Department concurs with the applicant's suggested modification and has added the above-referenced language to Condition 5(a) of the Exemption. However, the Department notes that the Exemption provides relief from the restrictions of section 406(a) as well as section 406(b)(1) and (b)(2) of the Act, whereas PTE 81–6 provides relief only for securities lending transactions which would violate section 406(a) of the Act. Thus, any amendments that may be made by the Department to PTE 81–6 which would permit different types of assets to be used as collateral for a securities loan would not allow the use of such assets as collateral under this Exemption to the extent that the transactions covered by this Exemption would require relief from section 406(b) of the Act.

6. Condition 8 of the Notice requires that all procedures regarding the securities lending activities will at a minimum conform to the applicable provisions of PTEs 81–6 and 82–63. Bankers Trust comments that the following language should be added at the end of Condition 8 of the Notice.

* * * (as amended from time to time or, alternatively, any additional or superceding class exemption that may be issued to cover securities lending by employee benefit plans).

The Department concurs with the applicant's suggested modification and has added the above-referenced language to Condition 8 of the Exemption.

7. Condition 13 of the Notice requires that only Client Plans with total assets having an aggregate market value of at least $50 million will be permitted to lend securities to the Affiliated Borrowers. Bankers Trust requests that the Client Plans be permitted to aggregate their assets for purposes of meeting the minimum Plan size requirement for lending securities to the Affiliated Borrowers under the Exemption. Therefore, Bankers Trust recommends that the following language be substituted for Condition 13 of the Notice:

"Only Client Plans with total assets having an aggregate market value of at least $50 million are permitted to lend securities to the Affiliated Borrowers; provided however, that—

(a) In the case of two or more Client Plans which are maintained by the same employer, controlled group of corporations or employee organization (the Related Client Plans), whose assets are commingled for investment purposes in a single master trust or any other entity the assets of which are "plan assets" under 29 CFR 2510.3–101 (the Plan Asset Regulation), which entity is engaged in securities lending arrangements with the Affiliated Borrowers, the foregoing $50 million requirement shall be deemed satisfied if such trust or other entity has aggregate assets which are in excess of $50 million; provided that if the fiduciary responsible for making the investment decision on behalf of such master trust or other entity is not the employer or an affiliate of the employer, such fiduciary has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million.

(b) In the case of two or more Client Plans which are not maintained by the same employer, controlled group of corporations or employee organization (the Unrelated Client Plans), whose assets are commingled for investment purposes in a group trust or any other form of entity the assets of which are "plan assets" under the Plan Asset Regulation, which entity is engaged in securities lending arrangements with the Affiliated Borrowers, the foregoing $50 million requirement is satisfied if such trust or other entity has aggregate assets which are in excess of $50 million (excluding the assets of any Plan with respect to which the fiduciary responsible for making the investment decision on behalf of such group trust or other entity or any member of the controlled group of corporations including such fiduciary is the employer maintaining such Plan or an employee organization whose members are covered by such Plan). However, the fiduciary responsible for making the investment decision on behalf of such group trust or other entity—

(i) Has full investment responsibility with respect to plan assets invested therein; and

(ii) Has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million.

(In addition, none of the entities described above are formed for the sole purpose of making loans of securities.)" [emphasis added]

The Department concurs with this change to the language of Condition 13 of the Notice and has modified the Exemption accordingly.

II. Discussion of the Comment Regarding the Summary

1. Paragraph 4 of the Summary in the Notice contains a discussion regarding Federal Reserve Board's Regulation T. Bankers Trust comments that the Regulation T provision that limited the situations for which securities may be borrowed or lent (the "purpose test") has been amended to reflect recent legislation, and now may not apply to Bankers Trust securities lending activities in every instance. Thus, the representation previously made by Bankers Trust, as stated in the first sentence of Paragraph 4 of the Summary, should be modified to read as follows:

BT Alex. Brown Incorporated, a U.S. registered broker-dealer, will comply with the Federal Reserve Board's Regulation T in its securities lending activities to the extent that Regulation T applies.

The Department concurs with this modification.

2. Paragraph 17 of the Summary discusses the written schedule of lending fees and rebate rates established by the BT Group. In this regard, in order to clarify how these rates may relate to the rates for a particular securities lending transaction with a Client Plan, Bankers Trust requests that the third sentence in Paragraph 17 of the Summary be changed as follows:

In no case will loans be made to the Affiliated Borrowers at rates less favorable to the Client Plans than those on the schedule. [emphasis added]

The Department concurs with this modification.

3. Bankers Trust comments that the BT Group will provide notice of a change in the lending fee formula or

rebate rate formula, as discussed in paragraph 21 of the Summary. However, because the formula rates are designed to vary based on the operation of the formula, the BT Group will provide notice only of the formula change (unless such formula change would always be beneficial to the Client Plans), and not of a decrease or increase in the lending fee or rebate rate itself. Therefore, Bankers Trust states that its previous representations, which are contained in first and second sentences of Paragraph 21 of the Summary, should be clarified as follows:

Should the BT Group recognize prior to the end of a business day that, with respect to new and/or existing loans, it must change the rebate rate formula or lending fee formula in the best interest of Client Plans, it may do so with respect to the Affiliated Borrowers.

If the BT Group changes the lending fee formula or the rebate rate formula on any outstanding loan to the Affiliated Borrower (except for any change resulting from a change in the value of any third party independent index with respect to which the fee or rebate is calculated, or if the formula will always be beneficial to the Client Plan), the BT Group, by the close of business on the date of such adjustment, shall provide the independent fiduciary of the Client Plan with notice that it has changed such fee formula or rebate rate formula with respect to such Affiliated Borrower and that the Client Plan may terminate such loan at any time. [emphasis added]

The Department acknowledges Bankers Trust's request for clarification to the representations contained in Paragraph 21 of the Summary as well as the other clarifications to the current record provided by the applicant.

Therefore, after giving full consideration to the entire record, including the Comment, the Department has decided to grant the exemption, subject to the modifications and clarifications described above. The Comment has been included as part of the public record of the exemption application. The complete exemption file is available for public inspection in the Public Disclosure Room of the Pension and Benefits Administration, Room N–5638, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210.

Goldman Sachs & Co. (Goldman Sachs) and The Goldman Sachs Trust Company (GSTC) Located in New York, NY

[Prohibited Transaction Exemption 98–24; Exemption Application No. D–10306]

Exemption

The restrictions of sections 406(a)(1)(A) through (D) and 406(b)(1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply, effective July 31, 1996, to the past and continued lending of securities to Goldman Sachs International or any other Goldman Sachs affiliate based in the United Kingdom (together, GSI), Goldman Sachs, affiliated U.S. registered broker-dealers of Goldman Sachs, or Goldman Sachs (Japan), Ltd., including any of its affiliates (together, Goldman Sachs (Japan),[4] by employee benefit plans (the Client Plans), including commingled investment funds holding Plan assets, for which Goldman Sachs Trust Company (GSTC), an affiliate of Goldman Sachs, acts as securities lending agent (or sub-agent) and to the receipt of compensation by GSTC in connection with these transactions, provided that the following conditions are met:

(a) For each Client Plan, neither GSTC, Goldman Sachs nor an affiliate of either has or exercises discretionary authority or control with respect to the investment of the Plan assets involved in the transaction, or renders investment advice (within the meaning of 29 CFR 2510.3–21(c)) with respect to those assets.

(b) Any arrangement for GSTC to lend Plan securities to Goldman Sachs in either an agency or sub-agency capacity is approved in advance by a Plan fiduciary who is independent of Goldman Sachs and GSTC.[5] In this regard, the independent Plan fiduciary also approves the general terms of the securities loan agreement (the Loan Agreement) between the Client Plan and Goldman Sachs, although the specific terms of the Loan Agreement are negotiated and entered into by GSTC and GSTC acts as a liaison between the lender and the borrower to facilitate the lending transaction.

(c) The terms of each loan of securities by a Client Plan to Goldman Sachs is at least as favorable to such Plans as those of a comparable arm's length transaction between unrelated parties.

(d) A Client Plan may terminate the agency or sub-agency arrangement at any time without penalty to such Plan on five business days notice.

(e) The Client Plan receives from Goldman Sachs (either by physical delivery or by book entry in a securities depository located in the United States, wire transfer or similar means) by the close of business on or before the day the loaned securities are delivered to Goldman Sachs, collateral consisting of cash, securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or irrevocable United States bank letters of credit issued by a person other than Goldman Sachs or an affiliate thereof, or any combination thereof, or other collateral permitted under PTE 81–6, as it may be amended or superseded.

(f) As of the close of business on the preceding business day, the fair market value of the collateral initially equals at least 102 percent of the market value of the loaned securities and, if the market value of the collateral falls below 100 percent, Goldman Sachs delivers additional collateral on the following day such that the market value of the collateral again equals 102 percent.

(g) Prior to entering into the Loan Agreement, Goldman Sachs furnishes GSTC its most recently available audited and unaudited statements, which is, in turn, provided to a Client Plan, as well as a representation by Goldman Sachs, that as of each time it borrows securities, there has been no material adverse change in its financial condition since the date of the most recently-furnished statement that has not been disclosed to such Client Plan; provided, however, that in the event of a material adverse change, GSTC does not make any further loans to Goldman Sachs unless an independent fiduciary of the Client Plan is provided notice of any material adverse change and approves the loan in view of the changed financial condition.

(h) In return for lending securities, the Client Plan either—

(1) Receives a reasonable fee, which is related to the value of the borrowed securities and the duration of the loan; or

(2) Has the opportunity to derive compensation through the investment of cash collateral. (Under such

[4] Unless otherwise noted, for purposes of this exemption, Goldman Sachs, the affiliated U.S. registered broker-dealers of Goldman Sachs, GSI and Goldman Sachs (Japan) are collectively referred to herein as Goldman Sachs.

[5] The Department, herein, is not providing exemptive relief for securities lending transactions engaged in by primary lending agents, other than GSTC, beyond that provided pursuant to Prohibited Transaction Exemption (PTE) 81–6 (46 FR 7527, January 23, 1981, as amended at 52 FR 18754, May 19, 1987) and PTE 82–63 (47 FR 14804, April 6, 1982).

circumstances, the Client Plan may pay a loan rebate or similar fee to Goldman Sachs, if such fee is not greater than the fee the Client Plan would pay in a comparable arm's length transaction with an unrelated party.)

(i) All procedures regarding the securities lending activities conform to the applicable provisions of Prohibited Transaction Exemptions PTE 81–6 and PTE 82–63 as well as to applicable securities laws of the United States, the United Kingdom or Japan.

(j) Each Goldman Sachs entity indemnifies and holds harmless each lending Client Plan in the United States against any and all losses, damages, liabilities, costs and expenses (including attorney's fees) which the Client Plan may incur or suffer directly arising out of the lending of securities of such Client Plan to such Goldman Sachs entity. In the event that GSI or Goldman Sachs (Japan) defaults on a loan, GSTC will liquidate the loan collateral to purchase identical securities for the Client Plan. If the collateral is insufficient to accomplish such purchase, GSTC will indemnify the Client Plan for any shortfall in the collateral plus interest on such amount and any transaction costs incurred (including attorney's fees of the Client Plan for legal actions arising out of the default on the loans or failure to properly indemnify under such provisions). Alternatively, if such identical securities are not available on the market, GSTC will pay the Client Plan cash equal to (1) the market value of the borrowed securities as of the date they should have been returned to the Client Plan, plus (2) all the accrued financial benefits derived from the beneficial ownership of such loaned securities as of such date, plus (3) interest from such date to the date of payment.

(k) The Client Plan receives the equivalent of all distributions made to holders of the borrowed securities during the term of the loan, including, but not limited to, cash dividends, interest payments, shares of stock as a result of stock splits and rights to purchase additional securities, or other distributions.

(l) Except for Client Plans which have or had outstanding securities loans to Goldman Sachs before February 19, 1998, Goldman Sachs provides, prior to any Client Plan's approval of the lending of its securities to Goldman Sachs, copies of the notice of proposed exemption (the Notice) and the final exemption. With respect to Client Plans which have or had outstanding securities loans to Goldman Sachs through GSTC prior to February 19, 1998, GSTC provides such Plans with copies of the Notice.

(m) Each Client Plan receives monthly reports with respect to its securities lending transactions, including, but not limited to the information described in Representation 31 of the Notice, so that an independent fiduciary of the Client Plan may monitor such transactions with Goldman Sachs.

(n) Only Client Plans with total assets having an aggregate market value of at least $50 million are permitted to lend securities to Goldman Sachs; provided, however, that—

(1) In the case of two or more Client Plans which are maintained by the same employer, controlled group of corporations or employee organization (the Related Client Plans), whose assets are commingled for investment purposes in a single master trust or any other entity the assets of which are "plan assets" under 29 CFR 2510.3–101 (the Plan Asset Regulation), which entity is engaged in securities lending arrangements with Goldman Sachs, the foregoing $50 million requirement shall be deemed satisfied if such trust or other entity has aggregate assets which are in excess of $50 million; provided that if the fiduciary responsible for making the investment decision on behalf of such master trust or other entity is not the employer or an affiliate of the employer, such fiduciary has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million.

(2) In the case of two or more Client Plans which are not maintained by the same employer, controlled group of corporations or employee organization (the Unrelated Client Plans), whose assets are commingled for investment purposes in a group trust or any other form of entity the assets of which are "plan assets" under the Plan Asset Regulation, which entity is engaged in securities lending arrangements with Goldman Sachs, the foregoing $50 million requirement is satisfied if such trust or other entity has aggregate assets which are in excess of $50 million (excluding the assets of any Plan with respect to which the fiduciary responsible for making the investment decision on behalf of such group trust or other entity or any member of the controlled group of corporations including such fiduciary is the employer maintaining such Plan or an employee organization whose members are covered by such Plan). However, the fiduciary responsible for making the investment decision on behalf of such group trust or other entity—

(i) Has full investment responsibility with respect to plan assets invested therein; and

(ii) Has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million.

(In addition, none of the entities described above are formed for the sole purpose of making loans of securities.)

(o) With respect to any calendar quarter, at least 50 percent or more of the outstanding dollar value of securities loans negotiated on behalf of Client Plans will be to unrelated borrowers.

(p) In addition to the above, all loans involving GSI and Goldman Sachs (Japan), have the following supplemental requirements:

(1) Such broker-dealer is registered as a broker-dealer with the Securities and Futures Authority of the United Kingdom or with the Ministry of Finance and the Tokyo Stock Exchange;

(2) Such broker-dealer is in compliance with all applicable provisions of Rule 15a–6 (17 CFR 240.15a–6) under the Securities Exchange Act of 1934 which provides for foreign broker-dealers a limited exemption from United States registration requirements;

(3) All collateral is maintained in United States dollars or dollar-denominated securities or letters of credit;

(4) All collateral is held in the United States and GSTC maintains the situs of the securities Loan Agreements in the United States under an arrangement that complies with the indicia of ownership requirements under section 404(b) of the Act and the regulations promulgated under 29 CFR 2550.404(b)–1; and

(5) GSI or Goldman Sachs (Japan) provides Goldman Sachs a written consent to service of process in the United States for any civil action or proceeding brought in respect of the securities lending transaction, which consent provides that process may be served on such borrower by service on Goldman Sachs.

(q) Goldman Sachs and its affiliates maintain, or cause to maintain within the United States for a period of six years from the date of such transaction, in a manner that is convenient and accessible for audit and examination, such records as are necessary to enable the persons described in paragraph (r)(1) to determine whether the conditions of the exemption have been met, except that—

(1) A prohibited transaction will not be considered to have occurred if, due

to circumstances beyond the control of Goldman Sachs and/or its affiliates, the records are lost or destroyed prior to the end of the six year period; and

(2) No party in interest other than Goldman Sachs shall be subject to the civil penalty that may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975(a) and (b) of the Code, if the records are not maintained, or are not available for examination as required below by paragraph (r)(1).

(r)(1) Except as provided in subparagraph (r)(2) of this paragraph and notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (q) are unconditionally available at their customary location during normal business hours by:

(i) Any duly authorized employee or representative of the Department, the Internal Revenue Service or the Securities and Exchange Commission (the SEC);

(ii) Any fiduciary of a participating Client Plan or any duly authorized representative of such fiduciary;

(iii) Any contributing employer to any participating Client Plan or any duly authorized employee representative of such employer; and

(iv) Any participant or beneficiary of any participating Client Plan, or any duly authorized representative of such participant or beneficiary.

(r)(2) None of the persons described above in paragraphs (r)(1)(ii)–(r)(1)(iv) of this paragraph (r)(1) are authorized to examine the trade secrets of Goldman Sachs or commercial or financial information which is privileged or confidential.

Effective date: This exemption is effective as of July 31, 1996.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the Notice published on February 19, 1998 at 63 FR 8489.

Written Comments

The Department received one written comment with respect to the Notice and no requests for a public hearing. The comment, which was submitted by Goldman Sachs, suggested modifications to the operative language of the Notice and recommended certain changes to the Summary of Facts and Representations (the Summary) of the Notice. Presented below are the modifications requested by Goldman Sachs and the Department's accompanying responses.

1. *Condition (l).* Condition (l) of the Notice requires that GSTC provide a copy of the proposed and final exemption to Client Plans prior to such plans' approval of loans to Goldman Sachs. Given that the relief requested is retroactive, Goldman Sachs proposes to amend Condition (l) by inserting the following phrase at the beginning of this provision: "Except for Client Plans which have or had outstanding securities loans to Goldman through GSTC prior to February 19, 1998." In addition, Goldman Sachs suggests adding the following sentence to the end of Condition (l): "With respect to Client Plans which have or had outstanding securities loans to Goldman through GSTC prior to February 19, 1998, GSTC will provide such Plans with the notice of pendency as set forth in the Notice to Interested Persons section of the proposed exemption." In response, the Department has modified Condition (l) of the Notice to read as follows:

(1) Except for Client Plans which have or had outstanding securities loans to Goldman Sachs before February 19, 1998, Goldman Sachs provides, prior to any Client Plan's approval of the lending of its securities to Goldman Sachs, copies of the notice of proposed exemption (the Notice) and the final exemption. With respect to Client Plans which have or had outstanding securities loans to Goldman Sachs through GSTC prior to February 19, 1998, GSTC provides such Plans with copies of the Notice.

2. *Representations 7 and 8.* Representations 7 and 8 of the Summary discuss compliance provisions with Rule 15a–6 of the 1934 Act by Goldman Sachs, GSI and Goldman Sachs (Japan). As noted in the Summary, Rule 15a–6 provides foreign broker-dealers with a limited exemption from SEC registration requirements and offers additional protections. Goldman Sachs states that some of the provisions of Rule 15a–6 have been changed or modified as a result of an SEC No-Action Letter obtained by its counsel on behalf of it and a group of broker-dealers on April 9, 1997.[6] Although Goldman Sachs represents that it intends to comply with any applicable provisions of Rule 15a–6 as it may change from time to time, for the sake of accuracy, it requests that Representations 7 and 8 be amended to reflect the rule and the no-action relief. Accordingly, Goldman Sachs suggests the following changes which have been made by the Department:

a. *Footnote 14.* Footnote 14 of the Summary states that GSI and Goldman Sachs (Japan) may rely on a U.S. bank or trust company, including GSTC, instead of relying on a U.S. broker-dealer. Goldman Sachs requests that Footnote 14 of the Summary be moved to the end of the third sentence of Representation 7.

b. *Addition of Footnote to Representation 7.* Goldman Sachs suggests that a new footnote be inserted at the end of Representation 7 which would read as follows:

"See also SEC No-Action Letter issued to Cleary, Gottlieb, Steen & Hamilton on April 9, 1997 (hereinafter, "the April 9 No-Action Letter"), expanding the definition of "Major U.S. Institutional Investor."

c. *Addition of Footnote to Representation 8(c)(5).* Representation 8(c)(5) of the Summary states that a foreign broker-dealer that induces or attempts to induce the purchase or sale of any security by a U.S. institutional or major institutional investor must "receive, deliver and safeguard funds and securities in connection with transactions on behalf of the U.S. institutional investor or U.S. major institutional investor in compliance with Rule 15c3–3 of the 1934 Act (Customer Protection—Reserves and Custody of Securities)." To update this provision, Goldman Sachs requests that the following footnote be placed at the end of paragraph (c)(5) of Representation 8:

"Under certain circumstances described in the April 9, 1997 No-Action Letter (e.g., clearance and settlement transactions), there may be direct transfers of funds and securities between the Client Plan and GSI and Goldman Sachs (Japan). Goldman Sachs notes that in such situations, the U.S. registered broker-dealer will not be acting as a principal with respect to any duties it is required to undertake pursuant to Rule 15a–6."

d. *Modification of Representation 8(c)(6).* Representation 8(c)(6) of the Summary states that a foreign broker-dealer that induces or attempts to induce the purchase or sale of any security by a U.S. institutional or major institutional investor must "participate in all oral communications (e.g., telephone calls) between the foreign associated person and the U.S. institutional investor (not the U.S. major institutional investor), and accompany the foreign associated person on all visits with both U.S. institutional and major institutional investors. By virtue of this participation, the U.S. registered broker-dealer would become responsible for the content of all these communications."

Given that the relief granted in the April 9, 1997 No-Action Letter significantly modified the "chaperoning" requirements of Rule 15a–6 to provide, under certain

[6] See SEC No-Action Letter dated April 9, 1997 to Giovanni P. Prezioso, Esq. of Cleary, Gottlieb, Steen & Hamilton regarding Securities Activities of U.S-Affiliated Foreign Dealers.

UMI
VOL

UMI

circumstances, direct communications and contact between the foreign broker-dealer and the U.S. Institutional Investor, Goldman Sachs requests that the reference to "all communications" and "all visits" be amended to read "certain communications" and "certain visits." In addition, Goldman Sachs requests that the last sentence of Representation 8(c)(6) be deleted and the following footnote be added to the end of such section to read:

"Under certain circumstances, the foreign associated person may have direct communications and contact with the U.S. Institutional Investor. See April 9 SEC No-Action Letter."

3. *Representation 12.* The second sentence of Representation 12 states that "for each Plan, neither GSTC, Goldman Sachs nor any affiliate will have no discretionary authority or control or render investment advice over Client Plans' decisions concerning the acquisition or disposition of securities available for loan." Goldman Sachs requests that the word "no," which precedes the word "discretionary" be deleted from this sentence as it is in error. The Department concurs with this change and has made the required modification.

4. *Representation 15.* The third paragraph of Representation 15 states that the provisions of the Sub-Agency Agreement will be comparable to those of the Agency Agreement but it erroneously cross-references the Agency Agreement to Representation 9. Goldman Sachs wishes to point out that the correct cross-reference should be to Representation 14 rather than Representation 9. The Department concurs with this change and has made the required modification.

5. *Representation 24.* Goldman Sachs states that the fourth sentence of Representation 24 contains a typographical error in that the parenthetical should end after the phrase "from such loan" instead of at the end of the sentence. Therefore, the Department has revised this sentence to read as follows:

With respect to any loan to Goldman Sachs, GSTC will never negotiate a rebate rate with respect to such loan which would be expected to produce a zero or negative return to the Client Plan (assuming no default on the investments related to the cash collateral from such loan) where GSTC has investment discretion over the cash collateral.

6. *Representation 33 and Condition (n).* Representation 22 of the Summary and Condition (n) of the Notice exclude from the securities lending program commingled trust funds which contain plan assets of more than one employer if the fiduciary responsible for making the investment decision is one of the Client Plan's employers. Goldman Sachs does not believe this restriction is necessary because it would preclude the State Street Collective Trust Funds from using GSTC as a securities lending agent and lending to Goldman Sachs under the exemption if one of State Street's employee benefit plans were invested in the fund, even though the fund would otherwise comply with the $50 million in assets requirement and State Street as a fiduciary to the fund would otherwise satisfy the $100 million under management requirement. Therefore, Goldman Sachs suggests that the Department revise paragraph (n)(2) of the Conditions and subclause (a) of the second paragraph of Representation 33 to read as follows:

(2) In the case of two or more Client Plans which are not maintained by the same employer, controlled group of corporations or employee organization (the Unrelated Client Plans), whose assets are commingled for investment purposes in a group trust or any other form of entity the assets of which are "plan assets" under the Plan Asset Regulation, which entity is engaged in securities lending arrangements with Goldman Sachs, the foregoing $50 million requirement is satisfied if such trust or other entity has aggregate assets which are in excess of $50 million (excluding the assets of any Plan with respect to which the fiduciary responsible for making the investment decision on behalf of such group trust or other entity or any member of the controlled group of corporations including such fiduciary is the employer maintaining such Plan or an employee organization whose members are covered by such Plan). However, the fiduciary responsible for making the investment decision on behalf of such group trust or other entity—

(i) Has full investment responsibility with respect to plan assets invested therein; and

(ii) Has total assets under its management and control, exclusive of the $50 million threshold amount attributable to plan investment in the commingled entity, which are in excess of $100 million.

After considering this comment, the Department has made the changes suggested by Goldman Sachs.

For further information regarding Goldman Sachs's comments or other matters discussed herein, interested persons are encouraged to obtain copies of the exemption application file (Exemption Application No. D–10306) the Department is maintaining in this case. The complete application file, as well as all supplemental submissions received by the Department, are made available for public inspection in the Public Documents Room of the Pension and Welfare Benefits Administration, Room N–5638, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, DC 20210.

Accordingly, after giving full consideration to the entire record, including the written comments provided by Goldman Sachs, the Department has made the aforementioned changes to the Notice. In addition, the Department has decided to grant the exemption subject to the modifications or clarifications described above.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 219–8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemptions does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 22nd day of May, 1998.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[FR Doc. 98–14197 Filed 5–28–98; 8:45 am]

BILLING CODE 4510–29–P

DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

[Application No. D–10503, et al.]

Proposed Exemptions; Sanwa Bank California

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Notice of Proposed Exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or request for a hearing on the pending exemptions, unless otherwise stated in the Notice of Proposed Exemption, within 45 days from the date of publication of this **Federal Register** Notice. Comments and requests for a hearing should state: (1) the name, address, and telephone number of the person making the comment or request, and (2) the nature of the person's interest in the exemption and the manner in which the person would be adversely affected by the exemption. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing.

ADDRESSES: All written comments and request for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Exemption Determinations, Room N–5649, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210. Attention: Application No. , stated in each Notice of Proposed Exemption. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefits Administration, U.S. Department of Labor, Room N–5507, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of proposed exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of proposed exemption are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

Proposed Exemption

Section I. Proposed Exemption for the In-Kind Transfers of Assets

If the exemption is granted, the restrictions of section 406(a) and section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code by reason of section 4975(c)(1)(A) through (F) shall not apply, effective October 31, 1997, to the purchase, by an employee benefit plan established and maintained by parties other than Sanwa Bank (the Client Plan) or by Sanwa Bank (the Bank Plan) [1] of shares of one or more open-end management investment companies (the Fund or Funds), registered under the Investment Company Act of 1940, as amended (the 1940 Act), in exchange for assets of the Plan transferred in-kind to the Fund by a collective investment fund (the CIF) maintained by Sanwa Bank, where Sanwa Bank is the investment adviser and may provide other services to the Fund (the Secondary Services), as defined in Section III(i), and where Sanwa Bank is also a fiduciary of the Plan, in connection with the termination of such CIFs.

[1] Unless otherwise noted, the Client Plans and the Bank Plans are collectively referred to as the Plans.

This proposed exemption is subject to the following conditions:

(a) A fiduciary (the Second Fiduciary), as defined in Section III(h), which is acting on behalf of each affected Plan and which is independent of and unrelated to Sanwa Bank, receives advance written notice of the in-kind transfer of assets of the CIFs in exchange for shares of the Funds and full written disclosures of information concerning the Funds which includes the following:

(1) A current prospectus for each Fund in which the Client Plan may invest;

(2) A statement describing the fees for investment advisory or other similar services, any fees for Secondary Services, as defined in Section III(i), and all other fees to be charged to or paid by the Client Plan and by such Funds to Sanwa Bank, including the nature and extent of any differential between the rates of such fees;

(3) A statement of the reasons why Sanwa Bank may consider such investment to be appropriate for the Client Plan;

(4) A statement of whether there are any limitations applicable to Sanwa Bank with respect to which assets of a Client Plan may be invested in Fund shares, and, if so, the nature of such limitations; and

(5) A copy of the proposed exemption and/or a copy of the final exemption upon the request of the Second Fiduciary.

(b) On the basis of the foregoing information, the Second Fiduciary gives prior approval in writing for each purchase of Fund shares in exchange for the Plan's assets transferred from the CIF, consistent with the responsibilities, obligations and duties imposed on fiduciaries by Part 4 of Title I of the Act. In addition, the Second Fiduciary gives prior approval in writing of the receipt of confirmation statements described in Section I(g) by facsimile or electronic mail if the Second Fiduciary elects to receive such statements in that form.

(c) No sales commissions or other fees are paid by the Plan in connection with the purchase of Fund shares.

(d) All transferred assets are securities for which market quotations are readily available, or cash.

(e) The transferred assets constitute a *pro rata* portion of all assets of a Plan held in the CIF immediately prior to the transfer. Notwithstanding the foregoing, the allocation of fixed-income securities held by a CIF among Plans on the basis of each Plan's *pro rata* share of the aggregate value of such securities will not fail to meet the requirements of this subsection if:

UMI
VOL
63
ISS
103
MAY

1998
UMI

(1) The aggregate value of such securities does not exceed one (1) percent of the total value of the assets held by the CIF immediately prior to the transfer, in connection with the termination of such CIF; and

(2) Such securities have the same coupon rate and maturity, and at the time of the transfer, the same credit ratings from nationally recognized statistical rating agencies.

(f) Each Plan receives Fund shares that have a total net asset value equal to the value of the Plan's transferred assets on the date of the transfer, as determined with respect to securities in a single valuation performed in the same manner and at the close of business on the same day in accordance with Rule 17a–7 (using sources independent of Sanwa Bank and the Fund) and the procedures established by the Funds pursuant to Rule 17a–7. Such procedures must require that all securities for which a current market price cannot be obtained by reference to the last sale price for transactions reported on a recognized securities exchange or NASDAQ be valued based on an average of the highest current independent bid and lowest current independent offer, as of the close of business on the last business day prior to the in-kind transfers, determined on the basis of reasonable inquiry from at least three sources that are broker-dealers or pricing services independent of Sanwa Bank.

(g) Sanwa Bank sends by regular mail or, if applicable, by facsimile or electronic mail, to the Second Fiduciary of each affected Plan that purchases Fund shares in connection with the in-kind transfer, the following information:

(1) No later than 30 days after the completion of the purchase, a written confirmation which contains—

(A) The identity of each transferred security that was valued for purposes of the transaction in accordance with Rule 17a–7(b)(4);

(B) The current market price, as of the date of the in-kind transfer, of each such security involved in the transaction; and

(C) The identity of each pricing service or market-maker consulted in determining the current market price of such securities.

(2) No later than 105 days after the completion of each purchase, a written confirmation which contains —

(A) The number of CIF units held by each affected Plan immediately before the in-kind transfer, the related per unit value, and the total dollar amount of such CIF units; and

(C) The number of shares in the Funds that are held by each affected Plan immediately following the in-kind transfer, the related per share net asset value and the total dollar amount of such shares.

(h) The conditions set forth in Sections II(d), (e), (n)(1), (o), (p) and (q) are satisfied.

Section II. Proposed Exemption for the Receipt of fees From the Funds

If the exemption is granted, the restrictions of section 406(a) and section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (F) of the Code shall not apply, effective October 31, 1997, to (1) the receipt of fees by Sanwa Bank from the Funds for investment advisory services provided to the Funds; and (2) the receipt or retention of fees by Sanwa Bank from the Funds for acting as a custodian or shareholder serving agent to the Funds, as well as for providing any other services to the Funds which are not investment advisory services (i.e., the Secondary Services), as defined in Section III(i), in connection with the investment of shares in the Funds by the Client Plans for which Sanwa Bank acts as a fiduciary,[2] provided that the following conditions are met:

(a) No sales commissions are paid by the Client Plans in connection with purchases or redemptions of shares of the Funds and no redemption fees are paid in connection with the sale of such shares by the Client Plans to the Funds.

(b) The price paid or received by the Client Plans for shares in the Funds is the net asset value per share, as defined in Section III(e), at the time of the transaction and is the same price which would have been paid or received for the shares by any other investor at that time.

(c) Sanwa Bank, any of its affiliates or their officers or directors do not purchase from or sell to any of the Client Plans shares of any of the Funds.

(d) For each Client Plan, the combined total of all fees received by Sanwa Bank for the provision of services to such Plan, and in connection with the provision of services to any of the Funds in which the Client Plans may invest, is not in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

(e) Sanwa Bank does not receive any fees payable, pursuant to Rule 12b–1 (the 12b–1 Fees) under the 1940 Act in connection with the transactions involving the Funds.

(f) A Second Fiduciary with respect to a Client Plan receives in advance of the investment by the Client Plan in any of the Funds, a full and detailed written disclosure of information concerning such Fund including, but not limited to the disclosures described above in Section I(a).

(g) On the basis of the foregoing information, the Second Fiduciary authorizes in writing—

(1) The investment of assets of the Client Plan in shares of the Fund;

(2) The Funds in which the assets of the Client Plan may be invested; and

(3) The fees received by Sanwa Bank in connection with investment advisory services and Secondary Services provided to the Funds, such authorization by the Second Fiduciary to be consistent with the responsibilities obligations, and duties imposed on fiduciaries by Part 4 of Title I of the Act.

(h) The authorization, described in Section II(g) is terminable at will by the Second Fiduciary of a Client Plan, without penalty to such Client Plan. Such termination will be effected by Sanwa Bank redeeming the shares of the Funds held by the affected Client Plan within one business day following receipt by Sanwa Bank, either by mail, hand delivery, facsimile, or other available means at the option of the Second Fiduciary, of written notice of termination (the Termination Form), as defined in Section III(j); provided that if, due to circumstances beyond the control of Sanwa Bank, the redemption cannot be executed within one business day, Sanwa Bank shall have one additional business day to complete such redemption.

(i) The Client Plans do not pay any Plan-level investment advisory fees to Sanwa Bank with respect to any of the assets of such Client Plans which are invested in shares of the Funds. This condition does not preclude the payment of investment advisory fees by the Funds to Sanwa Bank under the terms of an investment advisory agreement adopted in accordance with section 15 of the 1940 Act or other agreement between Sanwa Bank and the Funds or the retention by Sanwa Bank of fees for Secondary Services paid to Sanwa Bank by the Funds.

[2] Sanwa Bank is not requesting an exemption for investments in the Funds by the Bank Plans. Sanwa Bank represents that the Bank Plans may acquire or sell shares of the Funds pursuant to Prohibited Transaction Exemption (PTE) 77–3 (42 FR 18734, April 8, 1977). PTE 77–3 permits the acquisition or sale of shares of a registered, open-end investment company by an employee benefit plan covering only employees of such investment company, employees of the investment adviser or principal underwriter for such investment company, or employees of any affiliated person (as defined therein) of such investment adviser or principal underwriter, provided certain conditions are met. The Department expresses no opinion on whether any transactions with the Funds by the Bank Plans would be covered by PTE 77–3.

(j) In the event of an increase in the rate of any fees paid by the Funds to Sanwa Bank regarding investment advisory services that Sanwa Bank provides to the Funds over an existing rate for such services that had been authorized by a Second Fiduciary of a Client Plan, in accordance with Section II(g), Sanwa Bank will, at least 30 days in advance of the implementation of such increase, provide a written notice (which may take the form of a proxy statement, letter, or similar communication that is separate from the prospectus of the Fund and which explains the nature and amount of the increase in fees) to the Second Fiduciary of each Client Plan invested in a Fund which is increasing such fees. Such notice shall be accompanied by the Termination Form, as defined in Section III(j).

(k) In the event of an (1) addition of a Secondary Service, as defined in Section III(i), provided by Sanwa Bank to the Funds for which a fee is charged or (2) an increase in the rate of any fee paid by the Funds to Sanwa Bank for any Secondary Service that results either from an increase in the rate of such fee or from the decrease in the number or kind of services performed by Sanwa Bank for such fee over an existing rate for such Secondary Service which had been authorized by the Secondary Fiduciary in accordance with Section II(g), Sanwa Bank will, at least 30 days in advance of the implementation of such Secondary Service or fee increase, provide a written notice (which may take the form of a proxy statement, letter, or similar communication that is separate from the prospectus of the Funds and which explains the nature and amount of the additional Secondary Service for which a fee is charged or the nature and amount of the increase in fees) to the Second Fiduciary of each of the Client Plans invested in a Fund which is adding a service or increasing fees. Such notice shall be accompanied by the Termination Form, as defined in Section III(j).

(l) The Second Fiduciary is supplied with a Termination Form at the times specified in Sections II(j),(k) and (m), which expressly provides an election to terminate the authorization, described above Section II(g), with instructions regarding the use of such Termination Form including statements that—

(1) The authorization is terminable at will by any of the Client Plans, without penalty to such Plans. The termination will be effected by Sanwa Bank redeeming shares of the Funds held by the Client Plans requesting termination within the period of time specified by the Client Plan, but not later than one business day following receipt by Sanwa Bank from the Second Fiduciary of the Termination Form or any written notice of termination; provided that if, due to circumstances beyond the control of Sanwa Bank, the redemption of shares of such Client Plan cannot be executed within one business day, Sanwa Bank shall have one additional business day to complete such redemption; and

(2) Failure by the Second Fiduciary to return the Termination Form on behalf of the Client Plan will be deemed to be an approval of the additional Secondary Service for which a fee is charged or an increase in the rate of any fees and will result in the continuation of the authorization, as described in Section II(g), of Sanwa Bank to engage in the transactions on behalf of the Client Plan;

(m) The Second Fiduciary is supplied with a Termination Form at least once in each calendar year, beginning with the calendar year that begins after the grant of this proposed exemption is published in the **Federal Register** and continuing for each calendar year thereafter, provided that the Termination Form need not be supplied to the Second Fiduciary, pursuant to this paragraph, sooner than six months after such Termination Form is supplied pursuant to Sections II(j) and (k), except to the extent required by Sections II(j) and (k) to disclose an additional Secondary Service for which a fee is charged or an increase in fees.

(n)(1) With respect to each of the Funds in which a Client Plan invests, Sanwa Bank will provide the Second Fiduciary of such Plan the following information:

(A) At least annually, a copy of an updated prospectus of such Fund; and

(B) Upon the request of the Second Fiduciary, a report or statement (which may take the form of the most recent financial report, the current statement of additional information, or some other written statement) which contains a description of all fees paid by the Fund to Sanwa Bank.

(2) With respect to each of the Funds in which a Client Plan invests, in the event such Fund places brokerage transactions with Sanwa Bank, Sanwa Bank will provide the Second Fiduciary of such Client Plan at least annually with a statement specifying—

(A) The total, expressed in dollars, brokerage commissions of each Fund that are paid to Sanwa Bank by such Fund;

(B) The total, expressed in dollars, brokerage commissions of each Fund that are paid by such Fund to brokerage firms unrelated to Sanwa Bank;

(C) The average brokerage commissions per share, expressed as cents per share, paid to Sanwa Bank by each Fund; and

(D) The average brokerage commissions per share, expressed as cents per share, paid by each Fund to brokerage firms unrelated to Sanwa Bank.

(o) All dealings between the Client Plans and any of the Funds are on a basis no less favorable to such Client Plans than dealings between the Funds and other non-Plan shareholders holding the same class of shares as the Client Plans.

(p) Sanwa Bank maintains for a period of 6 years, in a manner that is accessible for audit and examination, the records necessary to enable the persons, described in Section II(q), to determine whether the conditions of this exemption have been met, except that—

(1) A prohibited transaction will not be considered to have occurred if, due to circumstances beyond the control of Sanwa Bank, the records are lost or destroyed prior to the end of the 6 year period; and

(2) No party in interest, other than Sanwa Bank, shall be subject to the civil penalty that may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975(a) and (b) of the Code, if the records are not maintained, or are not available for examination as required by Section II(q).

(q)(1) Except as provided in paragraph (q)(2) of this Section II and notwithstanding any provisions of subsection (a)(2) and (b) of section 504 of the Act, the records referred to in Section II(p) are unconditionally available at their customary location for examination during normal business hours by—

(A) Any duly authorized employee or representative of the Department, the Internal Revenue Service (the Service) or the Securities and Exchange Commission (the SEC);

(B) Any fiduciary of each of the Client Plans who has authority to acquire or dispose of shares of any of the Funds owned by such Client Plan, or any duly authorized employee or representative of such fiduciary; and

(C) Any participant or beneficiary of the Plans or duly authorized employee or representative of such participant or beneficiary.

(2) None of the persons described in paragraph (q)(1)(B) and (q)(1)(C) of Section II shall be authorized to examine trade secrets of Sanwa Bank, or commercial or financial information which is privileged or confidential.

Section III. Definitions

For purposes of this proposed exemption,

(a) The term "Sanwa Bank" means Sanwa Bank California and any affiliate of Sanwa Bank, as defined in Section III(b).

(b) An "affiliate" of a person includes:

(1) Any person directly or indirectly through one or more intermediaries, controlling, controlled by, or under common control with the person;

(2) Any officer, director, employee, relative, or partner in any such person; and

(3) Any corporation or partnership of which such person is an officer, director, partner, or employee.

(c) The term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual;

(d) The terms "Fund or Funds" mean any open-end management investment company or companies registered under the 1940 Act for which Sanwa Bank serves as investment adviser and may also provide custodial or other services, such as Secondary Services, as approved by such Funds.

(e) The term "net asset value" means the amount for purposes of pricing all purchases and redemptions calculated by dividing the value of all securities, determined by a method as set forth in a Fund's prospectus and statement of additional information, and other assets belonging to each of the portfolios in such Fund, less the liabilities charged to each portfolio, by the number of outstanding shares.

(f) The term "Plan" means a welfare plan described in 29 CFR 2510.3–1, as amended; a pension plan described in 29 CFR 2510.3–2, as amended; a plan described in section 4975(e)(1) of the Code; and a retirement plan qualified under section 401(a) of the Code with respect to which Sanwa Bank serves or will serve as trustee, investment manager or custodian, and which constitutes an "employee benefit plan" under section 3(3) of the Act. The term "Client Plan" includes a Plan maintained by an entity other than Sanwa Bank. The term "Bank Plan" includes a Plan maintained by Sanwa Bank, including, but not limited to, the Sanwa Bank California Retirement Plan (the SBC Retirement Plan) and the Sanwa Bank California Premiere Savings Plan (the SBC Savings Plan).

(g) The term "relative" means a "relative" as that term is defined in section 3(15) of the Act (or a "member of the family" as that term is defined in section 4975(e)(6) of the Code), or a brother, a sister, or a spouse of a brother or a sister.

(h) The term "Second Fiduciary" means a fiduciary of a plan who is independent of and unrelated to Sanwa Bank. For purposes of this exemption, the Second Fiduciary will not be deemed to be independent of and unrelated to Sanwa Bank if—

(1) Such Second Fiduciary directly or indirectly controls, is controlled by or is under common control with Sanwa Bank;

(2) Such Second Fiduciary, or any officer, director, partner, employee or relative of such Second Fiduciary is an officer, director, partner or employee of Sanwa Bank (or is a relative of such persons); and

(3) Such Second Fiduciary directly or indirectly receives any compensation or other consideration in connection with any transaction described in this exemption; provided, however, that, with respect to the Bank Plans, the Second Fiduciary may receive compensation from Sanwa Bank in connection with the transactions contemplated herein, but the amount or payment of such compensation may not be contingent upon or in any way affected by the Second Fiduciary's ultimate decision regarding whether the Bank Plans participate in the transactions and may not exceed 5 percent of such Second Fiduciary's gross annual revenues.

With respect to the Client Plans, if an officer, director, partner, or employee of Sanwa Bank (or a relative of such persons), is a director of such Second Fiduciary, and if he or she abstains from participation in the choice of the Plan's investment manager/adviser, the approval of any purchase or redemption by the Plan of shares of the Funds, and the approval of any increase of fees, in connection with any of the transactions described in Sections I and II, then Section III(h)(2) shall not apply.

(i) The term "Secondary Service" means a service, other than an investment advisory or similar service, which is provided by Sanwa Bank to the Funds, including but not limited to, accounting, administrative, brokerage or custodial services.

(j) The term "Termination Form" means the form supplied to the Second Fiduciary of a Client Plan, at the times specified in Section II(j), (k), and (m), which expressly provides an election to the Second Fiduciary to terminate on behalf of the Plans the authorization, described in Section II(g). Such Termination Form may be used at will by the Second Fiduciary to terminate such authorization without penalty to the Client Plan and to notify Sanwa Bank in writing to effect such termination by redeeming shares of the Fund held by the Plans requesting termination not later than one business day following receipt by Sanwa Bank of written notice, either by mail, hand delivery, facsimile or other available means at the option of the Second Fiduciary, of such request for termination; provided that if, due to circumstances beyond the control of Sanwa Bank, the redemption cannot be executed within one business day, Sanwa Bank shall have one additional business day to complete such redemption.

(k) The term "fixed-income security" means any interest-bearing or discounted government or corporate security with a face amount of $1,000 or more that obligates the issuer to pay the holder a specified sum of money, at specific intervals, and to repay the principal amount of the loan at maturity.

(l) The term "security" shall have the same meaning as defined in section 2(36) of the 1940 Act, as amended, 15 USC 80a–2(36) (1996).

(m) The term "business day" means a banking day as defined by federal or state banking regulations.

EFFECTIVE DATE: If granted, this proposed exemption will be effective as of October 31, 1997.

Summary of Facts and Representations

1. Description of the Parties

The parties involved in the subject transactions are described as follows:

(a) *Sanwa Bank*, a California-chartered bank, is a wholly owned subsidiary of The Sanwa Bank, Limited, which is headquartered in Japan. Sanwa Bank provides trust and banking services to individuals, corporations and institutions, both nationally and internationally. Sanwa Bank serves as trustee, investment manager or custodian to the Plans described herein and will serve as investment adviser to the Funds described more fully below. As of December 31, 1997, Sanwa Bank held total trust and fiduciary assets of approximately $10.2 billion.

(b) *The Plans* include welfare plans described in 29 CFR 2510.3–1, as amended; pension plans described in 29 CFR 2510.3–2, as amended; plans described in section 4975(e)(1) of the Code; and retirement plans qualified under section 401(a) of the Code with respect to which Sanwa Bank serves or will serve as trustee, investment manager or custodian, and which constitute "employee benefit plans" under section 3(3) of the Act. As of December 31, 1997, Sanwa Bank served

as trustee, investment manager or custodian for approximately 856 Client Plans with total assets of approximately $1.7 billion. In addition, Sanwa Bank had investment responsibility with respect to approximately $95 million in Client Plan assets, of which approximately $25 million represented assets invested in converting CIFs. Whether any Client Plan will participate in a conversion transaction will depend solely on the decision of a fiduciary which is independent of Sanwa Bank (i.e., a Second Fiduciary).[3]

The Plans also include certain Bank Plans that are maintained by Sanwa Bank. Specifically, the Bank Plans presently include the SBC Retirement Plan and SBC Savings Plan. As of December 31, 1997, the SBC Retirement Plan and the SBC Savings Plan had total assets of approximately $175 million and $68 million, respectively. As of August 28, 1997, the SBC Retirement Plan had 4,500 participants and the SBC Savings Plan had 3,500 participants. Whether a Bank Plan may participate in a conversion transaction will also be determined by a Second Fiduciary which has been appointed to represent the interests of the Bank Plans.

(c) *The CIFs* are separate investment funds maintained under a trust known as "The Sanwa Bank California Common Trust Fund." The CIFs that were converted in the initial conversion transaction were the following:[4]

- ITS Asset Allocation Investment Fund, also known as Balanced Fund J (the Asset Allocation Fund)
- ITS Common Stock Investment Fund, also known as Equity Fund D (the Equity Fund)
- ITS Bond Investment Fund, also known as Fixed Income Fund C (the Fixed Income Fund)
- ITS International Common Stock Fund, also known as International Equity Fund G (the International Equity Fund)
- ITS Money Market Investment Fund, also known as Money Market Fund E (the Money Market Fund)

The general investment policy and objective of these CIFs correspond substantially to the Funds described below.

(d) *The Funds*, otherwise referred to as "The Eureka Funds," constitute an open-end management investment company registered under the 1940 Act, as amended. The Funds are and will be separate investment portfolios or "series" of The Eureka Funds that will be offered to investors at "no-load." Therefore, Sanwa Bank requests that the exemption apply both retroactively to the existing Funds and prospectively to any similar Fund with respect to which Sanwa Bank or its affiliates may provide services.

The Eureka Funds initially will consist of five Funds, each to be offered and sold in compliance with SEC rules and regulations. These five Funds are listed as follows:

- The Eureka Global Asset Allocation Fund
- The Eureka Equity Fund
- The Eureka Investment Grade Bond Fund
- The Eureka Prime Money Market Fund
- The Eureka U.S. Treasury Obligations Fund[5]

Sanwa Bank serves as investment adviser to the Funds. For such services performed, Sanwa Bank will receive annualized investment advisory fees currently ranging from 0.10 percent for the U.S. Treasury Obligations Fund to 0.80 percent for the Global Asset Allocation Fund. Although parties unrelated to Sanwa Bank will typically provide custody, transfer agent, recordkeeping and other services (i.e., Secondary Services) to the Funds, it is possible that Sanwa Bank or an affiliate may undertake to provide such services to a Fund in the future.

(f) *Actuarial Sciences Associates, Inc. (ASA)* has been retained temporarily by Sanwa Bank to serve as the Second Fiduciary for Bank Plans investing in the Funds. ASA, which is located in Somerset, New Jersey, is an affiliate of AT&T Investment Management Corporation (ATTIMCO). ATTIMCO is a wholly owned subsidiary of AT&T and is a registered investment adviser under the 1940 Act. As of November 1997, ATTIMCO exercised discretionary authority with respect to over approximately $40 billion in assets. ASA, ATTIMCO and their affiliates are independent of and unrelated to Sanwa Bank and its affiliates. The fees received by ASA from Sanwa Bank currently represent less than one-tenth of one percent of the gross revenues of ASA and are not likely to exceed 5 percent of ASA's gross revenues in the foreseeable future.

Description of the Transactions

2. Sanwa Bank requests exemptive relief with respect to the in-kind transfer, of all or a *pro rata* portion of a Plan's assets that were invested in the terminating CIFs (identified above) to the Funds, in exchange for shares of the Funds. In addition, Sanwa Bank requests exemptive relief for the receipt of fees from the Funds, in connection with the investment of assets of Client Plans for which Sanwa Bank acts as a trustee, investment manager, or custodian, in shares of the Funds in instances where Sanwa Bank is an investment adviser, custodian, and shareholder servicing agent for the Funds.[6] The exemptive relief provided for the receipt of fees would cover Client Plans of Sanwa Bank only. If granted, the exemption would be effective as of October 31, 1997 and would apply to similar transactions that may arise in the future.

In-Kind Transfers by the Plans

3. Sanwa Bank decided to terminate the aforementioned CIFs and offer to the Plans participating therein the opportunity to acquire shares in their corresponding Funds as alternative investments. Because the interests in CIFs generally must be liquidated or withdrawn to effect distributions, Sanwa Bank believes that the interests of the Plans participating in the CIFs (and similar CIFs that may convert in the future) would be better served by investment in shares of the Funds, which can be distributed in-kind.

In addition, Sanwa Bank believes that the Funds may offer advantages over the CIFs such as pooled investment vehicles in that Plans, as shareholders of a Fund, will have the opportunity to exercise voting and other shareholder rights. Plans, as shareholders of the Funds, also will receive periodic disclosures concerning the Funds, as mandated by the SEC, including a prospectus, which is updated at least annually, an annual report containing audited financial statements of the Funds and information regarding such Funds' performance (unless such performance information is included in the prospectus of such Funds), and a semiannual report containing unaudited financial statements. Further, the Plans will be able to monitor the net asset value of the

[3] The Department is not proposing exemptive relief herein for transactions afforded relief by section 404(c) of the Act.

[4] Sanwa Bank maintains CIFs other than those involved in the subject transactions. Some of these CIFs, which were converted contemporaneously with the CIFs, do not hold Plan assets while others do. As such, it is proposed that those CIFs holding plan assets be covered by the requested exemption if and when they are converted in the future.

[5] The U.S. Treasury Obligations Fund was not involved in the conversion transaction described in this proposed exemption. However, this Fund would be covered by the requested exemption to the extent that a converting CIF were to transfer its assets to such Fund or a Plan or Plans were to invest in this Fund in the future.

[6] As previously noted, Sanwa Bank is not requesting an exemption for investments in the Funds by the Bank Plans. Sanwa Bank represents that the Bank Plans may acquire or sell shares of the Funds pursuant to PTE 77–3.

Funds daily from information available in newspapers of general circulation.

Sanwa Bank believes that if the assets of a terminating CIF are transferred in-kind to a corresponding Fund in exchange for shares of such Fund, potentially large brokerage expenses can be avoided. These consist mainly of expenses that otherwise would be incurred if the CIF assets were liquidated and the proceeds used to purchase Fund shares that are substantially identical to the CIFs. No brokerage commissions or other fees (other than customary transfer charges paid to parties other than Sanwa Bank or its affiliates) have been charged or will be charged to the Plans or the CIFs with respect to the conversions or in connection with any other acquisition or redemption of Fund shares by the Plans. In addition, no Fund has paid or will pay any 12b–1 Fees to Sanwa Bank or its affiliates.

It is represented that the in-kind transfers of CIF assets in exchange for shares of the Funds are ministerial transactions performed in accordance with pre-established objective procedures approved by the Funds' board of trustees. Such procedures require that assets transferred to a corresponding Fund (a) be consistent with the investment objectives, policies and restrictions of the Fund, (b) satisfy the applicable requirements of the 1940 Act and the Code and, (c) have a readily ascertainable market value.

4. Except as indicated below with respect to the International Equity CIF, on October 31, 1997, Sanwa Bank transferred Plan assets held in the affected CIFs to the corresponding Funds as shown in the table.

CIF portfolio	Corresponding fund portfolio
Asset Allocation Fund	Global Asset Allocation Fund.
Equity Fund	Equity Fund.
Fixed Income Fund	Investment Grade Bond Fund.
International Equity Fund.	Global Asset Allocation Fund.
Money Market Fund	Prime Money Market Fund.

With regard to the International Equity CIF, the participants, of which include the SBC Retirement Plan, the SBC Savings Plan and a number of Client Plans, the conversion of the CIF was processed as follows:

(a) The SBC Savings Plan's interest in the International Equity CIF was liquidated and reinvested in shares of a mutual fund investing primarily in foreign securities sponsored and advised by a third party unrelated to Sanwa Bank, which replaced the CIF as an investment option under the SBC Savings Plan. SBC Savings Plan participants who did not wish to invest in a new mutual fund were given the option of electing instead to have their interest in the International Equity CIF reinvested in another option under the Plan.[7]

(b) Subject to approval of the appropriate Second Fiduciaries, the SBC Retirement Plan and the Client Plan participated in the conversion of the International Equity CIF to Global Asset Allocation Fund, to the extent of their respective interests therein.[8]

5. The initial conversion was completed in a single transaction occurring after the close of business on October 31, 1997 and prior to the opening of business on November 3, 1997. The initial conversion was accomplished by an in-kind transfer of all of the assets of the converting CIF to the corresponding Fund, in exchange for an appropriate number of shares of that Fund. The affected CIF was then terminated and its assets, consisting of Fund shares, were distributed in-kind to the Plans formerly participating in the CIF based on each Plan's *pro rata* share of the CIF's assets on the date of the conversion.[9]

6. Prior to the conversion, the assets of each converting CIF were reviewed to confirm that they were appropriate investments for the receiving Fund. If any of the assets of a CIF were not appropriate for its corresponding Fund, such assets were sold in the open market through a brokerage firm unaffiliated with Sanwa Bank prior to the date of the conversion.

7. Sanwa Bank provided to each affected Plan disclosures that announced the termination of the CIF, summarized the transaction and otherwise complied with the provisions of Section I of this proposed exemption. Based on these disclosures, the Second Fiduciary for each affected Plan approved, in writing, the conversion transaction, including the fees that were to be paid by the Funds to Sanwa Bank and its affiliates. A Plan electing not to participate in the conversion transaction received a cash payment representing the Plan's *pro rata* share of the assets of the converting CIF before the transaction occurred.

8. In the case of the Bank Plans, ASA was required to make an independent determination in its fiduciary capacity that participation in the conversion transaction was in the best interest of the Bank Plans, including the decision whether to participate therein. As part of its written report setting out the conclusions discussed in Representation 12 below, ASA was required to confirm both its independence from Sanwa Bank and its qualifications to serve as the Second Fiduciary for the Bank Plans. In addition, ASA represented that it would not derive more than 5 percent of its gross annual revenues from Sanwa Bank in connection with such in-kind transfers.

9. The assets transferred by a converting CIF to its corresponding Fund consisted entirely of cash and securities for which market quotations were readily available. For this purpose, the value of the CIF's securities was determined based on the market value as of the close of business on the business day prior to the in-kind transfer of such securities to the corresponding Fund (the Valuation Date). The value of the CIF assets on the Valuation Date was determined using the valuation procedures described in SEC Rule 17a–7 under the 1940 Act. In this regard, the "current market price" for specific types of securities was determined as follows:

[7] In response to the Department's inquiry as to why the SBC Savings Plan's interest in the CIF was liquidated and reinvested in a third party fund or in another investment option offered under the Plan, ASA states that none of the Funds offered to the SBC Savings Plan had the same investment policies and objectives that had been offered to participants of such Plan. In this regard, it was determined that in light of the termination of the International Equity CIF, it would be in the interest of participants in the SBC Savings Plan to have monies previously invested in such CIF transferred to a third-party, international equity fund managed by Vanguard, which had objectives similar to the International Equity CIF, rather than to the Global Asset Allocation Fund. According to ASA, the Global Asset Allocation Fund is not solely an international equity fund. Instead, it is a balanced fund with a portion of its assets invested in United States investments. ASA states that the fiduciary of the SBC Savings Plan thought it more appropriate to invest that Plan's assets in an exclusively international equity fund instead of in a balanced fund having some United States investments. ASA further represents that it concurs with the fiduciary's investment decision.

[8] It is represented that Sanwa Bank was of the view that the Global Asset Allocation Fund would be advantageous to current participants in the International Equity CIF in that the Fund would offer enhanced liquidity and economies of scale resulting from a larger fund and an efficient method of diversifying among domestic and international asset classes and reducing risks for participants in the SBC Retirement Plan. In this regard, ASA states that the fiduciary of the SBC Retirement Plan had rebalanced other portions of that Plan's portfolio to reflect the United States and non-equity investments found in the Global Asset Allocation Fund, thereby making the conversion to the Global Asset Allocation Fund for the SBC Retirement Plan an appropriate investment decision. ASA represents that it concurs with this investment decision.

[9] Although different CIFs may be converted by Sanwa Bank in the future on different dates, similar procedures will apply.

(a) If the security was a "reported security" as the term is defined in Rule 11Aa3–1 under the Securities Exchange Act of 1934 (1934 Act), the last sale price with respect to such security reported in the consolidated transaction reporting system (the Consolidated System) for the Valuation Date; or if there were no reported transactions in the Consolidated System that day, the average of the highest current independent bid and the lowest current independent offer for such security (reported pursuant to Rule 11Ac1–1 under the 1934 Act), as of the close of business on the Valuation Date.

(b) If the security was not a reported security, and the principal market for such security was an exchange, then the last sale on such exchange on the Valuation Date; or if there were no reported transactions on such exchange that day, the average of the highest current independent bid and lowest current independent offer on such exchange as of the close of business on the Valuation Date.

(c) If the security was not a reported security and was quoted in the NASDAQ system, then the average of the highest current independent bid and lowest current independent offer reported on NASDAQ as of the close of business on the Valuation Date.

(d) For all other securities, the average of the highest current independent bid and lowest current independent offer as of the close of business on the Valuation Date, determined on the basis of reasonable inquiry. (For securities in this category, Sanwa Bank represents that it obtained quotations from at least three sources which were either broker-dealers or pricing services independent of and unrelated to Sanwa Bank and, where more than one valid quotation was available, used the average of the quotations to value the securities, in conformance with interpretations by the SEC and practice under Rule 17a–7.) [10]

10. The securities received by a corresponding Fund were valued by such Fund for purposes of the in-kind transfer in the same manner and as of the same day as such securities were valued by the CIF. The value of the shares of each Fund issued to the CIF was based on the corresponding Fund's then-current net asset value. Since the Funds did not have assets in more than a nominal amount prior to the conversion, each Fund's net asset value was expected to be equal to the value of the assets received from the transferring CIF. Sanwa Bank represents that the value of a Plan's investment in shares of each Fund as of the opening of business was equal to the value of such Plan's investment in each corresponding CIF as of the close of business on the business day before the conversion.

11. Following the initial in-kind transfers, Sanwa Bank sent ASA, as the Second Fiduciary for the Bank Plans, as well as the Second Fiduciaries of the Client Plans, written confirmations of the transactions. In this regard, no later than 30 days after the completion of the conversion, Sanwa Bank sent by regular mail to the Second Fiduciary written confirmation which contains (a) the identity of each transferred security that was valued for purposes of the conversion in accordance with Rule 17a–7(b)(4), as described above, (b) the current market price, as of the Valuation Date, of each such security involved in the conversion, and (c) the identity of each pricing services or market maker consulted in determining the current market price of such securities.[11] In addition, no later than 105 days after the completion of the conversion, Sanwa Bank sent by regular mail a written confirmation to the Second Fiduciary of each affected Plan showing (a) the number of CIF units held by the Plan immediately before the conversion, (i) the related per unit value, (ii) the total dollar amount of the units transferred; and (b) the number of shares of the Funds that are held by such Plan following the conversion, (i) the related per share net asset value, and (ii) the total dollar amount of such shares.

In accordance with the conditions under Section I of this proposed exemption, similar procedures will be adopted upon any future in-kind exchanges between CIFs maintained by Sanwa Bank and the Funds.[12]

Representations of the Second Fiduciary for the Bank Plans Regarding the In-Kind Transfers

12. As stated above, Sanwa Bank retained ASA as the Second Fiduciary for the limited purpose of overseeing the initial in-kind transfers of CIF assets to the Funds as such transactions would affect the Bank Plans. In such capacity, ASA represented that it consulted with its own counsel regarding the fiduciary provisions of the Act and stated that it understood and accepted the duties, responsibilities and liabilities in acting as a fiduciary under the Act for the Bank Plans.

In a written report dated September 30, 1997, ASA stated that it considered the effect of the in-kind transfer transactions on the Bank Plans and the implications of such transactions for Plans invested in the CIFs. Based on its review of fees to be charged by the Funds, the investment guidelines for the Funds and the performance data available on the CIFs, ASA concluded that the terms of the in-kind transfers were fair to the participants of the Bank Plans and no less favorable than the terms that would have been reached among unrelated parties.

13. Based on representations obtained from officers for Sanwa Bank regarding the termination of the CIFs as well as considering the effects of the in-kind transfers, ASA represented that the transactions were in the best interest of the Bank Plans and their participants and beneficiaries for the following reasons:

(a) In terms of the investment policies and objectives pursued, the Funds have investment objectives comparable to the CIFs and satisfy the stated investment policies of the Bank Plans. Thus, in terms of investment policies and objectives, the impact of the in-kind transfer transactions on the Bank Plans and their participants and beneficiaries would be *de minimus;* [13]

(b) The Funds will probably continue to experience relative performance similar in nature to the CIFs given the comparability of investment objectives and policies and the fact that the same portfolio management personnel will provide portfolio management oversight;

(c) The in-kind transfers would not adversely affect the cash flows, liquidity or investment diversification of the Bank Plans; and

(d) By investing in the Funds, the Bank Plans would receive a larger investment base, cost savings to participants over time through economies of scale, more choices for participants exercising investment control, the ability to obtain investment information through readily available sources and fees that would be reasonable and within industry standards.

14. In forming an opinion as to the appropriateness of the in-kind transfers, ASA conducted an overall review of the

[10] Securities of non-U.S. issuers may be traded on U.S. exchanges or NASDAQ, directly or in the form of ADRs, or may be traded on foreign exchanges or foreign over-the-counter markets. In the latter case, valuation was performed in accordance with (d) above.

[11] The securities subject to valuation under Rule 17(a)–7(b)(4) include all securities other than "reported securities," as the term is defined in Rule 11Aa3–1 under the Securities Exchange Act of 1934, or those quoted on the NASDAQ system or for which the principal market is an exchange.

[12] Although not contemplated by the initial conversion transaction, the requested exemption includes certain procedures that are consistent with PTE 97–41 (62 FR 42830, August 8, 1997). PTE 97–41 permits a client plan to purchase shares of a mutual fund for which a bank or an investment adviser serves as a fiduciary to the client plan, in exchange for plan assets transferred in-kind from a CIF. Specifically, the procedures relate to the methods of communicating the confirmations described above by personal delivery, facsimile or electronic mail (see Section I(b) and (g) of this proposed exemption).

[13] Although the Bank Plans represent a larger portion of the CIFs that were terminated as well as a larger portion of the Funds, ASA does not believe the Bank Plans' percentage ownership of the Funds immediately after the conversion is determinative of whether the conversion was proper.

Bank Plans, including the Bank Plan documents. ASA stated that it also examined the investment portfolios of the Bank Plans to ascertain whether or not the such Plans were in compliance with their investment objectives and policies. Further, ASA stated that it examined the cash flow and liquidity requirements of the Bank Plans and the diversification provided by the investment portfolios of the Bank Plans. Based on its review and analysis of the foregoing, ASA represented that the in-kind transfer transactions would not adversely affect the total investment portfolios of the Bank Plans, compliance by such Plans with their stated investment objectives and policies, the cash flows liquidity or diversification requirements of the Bank Plans.

15. As Second Fiduciary, ASA represented that Sanwa Bank would provide it with any documents it considered necessary to perform its duties as Second Fiduciary. In this regard, ASA was advised that within 30 days following the initial in-kind transfer transactions, Sanwa Bank would provide it with the written confirmation statements described herein. In addition, ASA stated that it would supplement its findings following the review of the confirmation statements to verify whether the in-kind transfer transactions had resulted in the receipt by the Bank Plans of shares in the Funds that were equal in value to such Plans' *pro rata* share of assets of the CIFs on the conversion date. Further, ASA represented that it would take such actions as it deemed necessary to safeguard the interests of the Bank Plans in the event the confirmation statements did not verify the foregoing. Finally, ASA explained that it would maintain, for a period of six years from the time of the initial conversion transaction (and make available for review), all relevant records with respect to the performance of its duties as Second Fiduciary for the Bank Plans.

Receipt of Fees by Sanwa Bank

16. Under certain conditions, PTE 77–4 (42 FR 18732, April 8, 1977) permits Client Plans of Sanwa Bank to engage in the purchase and sale of shares of a registered, open-end investment company when Sanwa Bank, a fiduciary with respect to such Client Plans, is also the investment adviser for the investment company, provided (a) the Client Plan does not pay any investment management, investment advisory or similar fees for the assets of such Plan invested in shares of a Fund for the entire period of the investment; or (b) where the Client Plan pays investment management, investment advisory or similar fees to Sanwa Bank based on the total assets of such Client Plan from which a credit has been subtracted representing such Plan's *pro rata* share of such investment advisory fees paid to Sanwa Bank by the Fund. As such, with respect to the Client Plans, there may be two levels of fees—(a) those fees which Sanwa Bank may charge to Client Plans for serving as trustee, investment manager or custodian for such Plans (the Plan-level fees); and (b) those fees which Sanwa Bank may charge to the Fund (the Fund-level fees) for serving as an investment adviser for the Fund as well as for being custodian of the Fund or for providing other Secondary Services to the Fund.

17. Since October 31, 1997, Sanwa Bank no longer charges each Client Plan a Plan-level fee for its services as trustee, investment manager or custodian based on Sanwa Bank's standard fee schedules and the terms of specific agreements negotiated between each Client Plan and Sanwa Bank. Such Plan-level fees included asset-based charges that were expressed as a percentage of Client Plan assets. Instead, as permitted by PTE 77–4, for investment advisory services provided to the Funds, Sanwa Bank is receiving Fund-level advisory fees from each of the Funds. As stated above in Representation 1(d), these fees, which are also expressed as a percentage of a Fund's assets currently range from 0.10 percent to 0.80 percent per annum of the daily average assets of the U.S. Treasury Obligations Fund and the Global Asset Allocation Fund, respectively.[14]

In addition to charging Fund-level investment advisory fees, Sanwa Bank is charging Client Plans for Plan-level recordkeeping, administrative, accounting and custodial services which do not involve investment management, such as custody of plan assets, maintaining plan records, preparing periodic reports of plan assets and participant accounts, effecting participant investment directions, processing participant loans and accounting for contributions, payments of benefits and other receipts and distributions. Sanwa Bank's fees for such Plan-level services will continue to be negotiated with each Client Plan and its fees for such services for Bank Plans will continue to be limited to the reimbursement of direct expenses properly and actually incurred in the performance of the services.[15]

At present, all services other than investment advisory services are provided to the Funds or their distributor by unrelated parties. However, as stated above, Sanwa Bank represents that the Funds may, in the future, wish to contract with it or an affiliate to provide administrative, custodial, transfer, accounting or similar services (i.e., Secondary Services) to the Funds or their distributor.[16]

Future Fee Changes and Client Plan Authorization Requirements

18. Sanwa Bank notes that one of the requirements of PTE 77–4 is that any change in any of the rates of fees requires the prior written approval by the Second Fiduciary of the Plans participating in the Funds. Where many Plans participate in a Fund, Sanwa Bank observes that the addition of a service or any good faith increase in fees could not be implemented until written approval of such change is obtained from every Second Fiduciary. As an alternative, Sanwa Bank proposes to follow the "negative consent" procedure which it believes provides the basic safeguards for the Plans and is more efficient, cost effective and administratively feasible that required by PTE 77–4.

The negative consent procedure would apply in the following circumstances: (a) an increase in the rate of any Fund-level investment management, investment advisory or similar fees; (b) a proposal by Sanwa Bank or an affiliate to provide a Secondary Service to a Fund for a fee; and (c) an increase in the fee for a Secondary Service paid by a Fund to Sanwa Bank or its affiliates over an existing rate that had been authorized by the Second Fiduciary. In this regard, an increase in fees for Secondary Services can result either from an increase in the rate of such fee or from

[14] It should be noted that Sanwa Bank has agreed to temporarily waive the amount of its investment advisory fees through the end of the Funds' initial fiscal year. Without the waiver, the per annum investment advisory fees for the U.S. Treasury Obligations Fund and the Global Asset Allocation Fund would range from 0.20 percent to 0.90 percent per annum of the Fund's daily average assets.

[15] Sanwa Bank represents that it is relying upon section 408(b)(2) with respect to its receipt of fees for such administrative services. The Department expresses no opinion herein on whether the provision of such services will satisfy section 408(b)(2) of the Act.

[16] The fact that certain transactions and fee arrangements are the subject of an administrative exemption does not relieve the fiduciaries of the Client Plans from the general fiduciary responsibility provisions of section 404 of the Act. Thus, the Department cautions Second Fiduciaries of the Client Plans investing in the Funds that they have an ongoing duty under section 404 of the Act to monitor the services provided to such Plans to assure that the fees paid by the Client Plans for such services are reasonable in relation to the value of the services provided. These responsibilities would include determinations that the services provided are not duplicative and that the fees are reasonable in light of the level of services provided.

a decrease in the number or kind of services performed by Sanwa Bank or its affiliates for such fee over that which had been authorized by the Second Fiduciary of a Client Plan. Under such circumstances, Sanwa Bank will provide at least 30 days advance notice of the implementation of a proposed fee increase to Client Plans invested in the affected Fund. The notice will take the form of a proxy statement, letter or similar communication which is separate from the Fund's prospectus and which explains the nature and amount of the additional service or the nature and amount of the fee increase.[17]

19. The written notice of a fee increase or additional Secondary Service for which a fee is charged will be accompanied by a Termination Form. The Termination Form will enable the Second Fiduciary to terminate any prior authorization to invest Client Plan assets in a Fund or Funds without penalty to the affected Client Plan. In addition, each Client Plan will be supplied with a Termination Form annually during the first quarter of each calendar year, regardless of whether there has been any fee increase or additional Secondary Service for which a fee is charged. If, however, the Termination Form has been provided to the Client Plan in connection with a fee increase or an additional Secondary Service for which a fee is charged, the Termination Form need not be provided again to the client Plan until at least six months have elapsed, unless such Termination Form is required to be sent sooner as a result of another fee increase or an addition of such Secondary Services.

The Termination Form will be accompanied by instructions which state that any relevant authorization previously given by the Second Fiduciary is terminable at will be the Second Fiduciary, without penalty to the Plan, and that failure to return the Form will be deemed to be an approval of the fee increase or the additional Secondary Service and will result in the continuation of such authorization. Termination of an authorization to invest Client Plan assets in the Funds will result in the redemption of shares of the Fund held by the Plan by the close of business on the business day following the date of receipt by Sanwa Bank of the Termination Form or any other written notice of termination, either by mail, hand delivery, facsimile or other available means of written communication at the option of the Second Fiduciary. If, due to circumstances beyond the control of Sanwa Bank, the redemption cannot be effected within one business day, Sanwa Bank will have one additional business day to complete such redemption.

20. Although an investment in the Funds may result in an overall cost increase to many of the Client Plans, the Second Fiduciary will be obligated to take such impact into account in determining whether to authorize the Plans' investment in the Funds. In any event, such additional costs will be consistent with the costs of similar alternative investments that will be available to the Plans upon the termination of the CIFs. In this respect, Sanwa Bank believes that as to each Plan, the combined total of all Plan-level and Fund-level fees received by Sanwa Bank for the provision of services to the Client Plans and to the Funds, respectively, will not be in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

21. The requested exemption will be subject to the satisfaction of certain general conditions that will further protect the interests of the Plans. For example, the transactions will be subject to the prior authorization of a Second Fiduciary, acting on behalf of each Plan, who has been provided with the written disclosures described above. The Second Fiduciary generally will be the administrator, sponsor or a committee appointed by the sponsor to act as a named fiduciary for a Client Plan or, in the case of the Bank Plans, a qualified party independent of Sanwa Bank.

22. With respect to disclosure, the Second Fiduciary of each Plan will receive advance written notice of the in-kind transfer of assets of the CIFs and written disclosure of information concerning the Funds consistent with PTE 77–4 and PTE 97–41. Among the disclosures that will be given to the Second Fiduciary include, but are not limited to, the following: (a) a current prospectus for each portfolio of each of the Funds in which the Client Plan may invest; (b) a statement describing the fees for investment advisory or other similar services, any fees for Secondary Services, and all other fees to be charged to or paid by the Client Plan and by such Funds to Sanwa Bank, including the nature and extent of any differential between the rates of such fees; (c) a statement of the reasons why Sanwa Bank may consider such investment to be appropriate for the Client Plan; (d) a statement of whether there are any limitations applicable to Sanwa Bank with respect to which assets of a Client Plan may be invested in Fund shares, and, if so, the nature of such limitations; and (e) a copy of the proposed exemption and/or a copy of the final exemption upon the request of the Second Fiduciary.

On the basis of the disclosures, the Second Fiduciary must authorize in writing the investment of Plan assets in shares of the Fund in connection with the transactions described herein as well as the compensation received by Sanwa Bank (or its affiliates) in connection with its services to the Funds. Such written authorization will extend to only those Funds with respect to which the Plan has received the written disclosures referred to above and which are specifically mentioned in such disclosures.

Having obtained the authorization of the Second Fiduciary, Sanwa Bank will invest the assets of a Plan among the Funds, subject to satisfaction of the other terms and conditions of the requested exemption. Sanwa Bank will not, however, invest the assets of a Plan in any Fund not specifically mentioned in the written disclosure and authorization described above. If a new Fund were established, Sanwa Bank would invest assets of a Plan in such new Fund under the requested exemption only after providing the required disclosures and obtaining a separate written authorization from the Second Fiduciary which specifically mentions the new Fund.

23. In addition to the disclosures provided to the Plan prior to investment in a Fund, Sanwa Bank will provide, at least annually to the Second Fiduciary of each Client Plan, an updated prospectus of each Fund in accordance with the requirements of the 1940 Act and applicable SEC rules. Further, the Second Fiduciary will be supplied, upon request, with a report or statement (which may take the form of the most recent financial report of the Funds, the current statement of additional information or some other written statement) containing a description of

[17] The Department notes that an increase in the amount of a fee for an existing investment advisory service or a Secondary Service (other than through an increase in the value of the underlying assets in the Funds), or the imposition of a fee for a newly-established Secondary Service shall be considered an increase in the rate of such fees. However, in the event an investment advisory fee or a fee for a Secondary Service has already been described in writing to the Second Fiduciary and the Second Fiduciary has provided authorization for the amount of such fee, and such fee has been waived, no further action by Sanwa Bank will be required in order for Sanwa Bank to receive such fee at a later time. Thus, for example, no further disclosure would be necessary if Sanwa Bank has received authorization for a fee for custodial services from a Client Plan investor and subsequently determined to waive the fee for a period of time in order to attract new investors but later charged the fee. However, reinstituting the fee at an amount greater than previously disclosed would necessitate Sanwa Bank providing notice of the fee increase and a Termination Form in the manner described above.

all fees paid by the Funds. Finally, all dealings by or between the Client Plans and any Fund will be on a basis which is no less favorable to such Plans than dealings between the Fund and other non-Plan shareholders holding the same class of shares as the Client Plans.

Although it does not anticipate doing so initially, Sanwa Bank or an affiliate may in the future execute securities brokerage transactions for some or all of the Funds, as and to the extent permitted by the 1940 Act and applicable SEC rules. If and when Sanwa Bank proposes to provide brokerage services to any Fund for compensation, Sanwa Bank will, at least 30 days in advance of the implementation of such service, provide written notice to the Client Plans explaining the nature of such brokerage services and the amount of the fees to be paid therefor. Further, with respect to any Fund for which Sanwa Bank provides brokerage services, Sanwa Bank will provide, at least annually to each Client Plan that invests in such Fund a written disclosure indicating (a) the total brokerage commissions paid by the Fund to Sanwa Bank, expressed in dollars; (b) the total brokerage commissions paid by the Fund to brokerage firms unrelated to Sanwa Bank, expressed in dollars; (c) the average brokerage commissions per share paid by the Fund to Sanwa Bank, expressed as cents per share; and (d) the average brokerage commissions per share paid by the Fund to brokerage firms unrelated to Sanwa Bank, expressed as cents per share.

24. In addition to the foregoing, the requested exemption will be subject to the following requirements: (a) the Plans and other investors will purchase or redeem Fund shares in accordance with standard procedures described in the prospectus for each Fund; (b) no Plan will pay a sales commission or redemption fee in connection with the purchase or redemption of Fund shares; (c) Sanwa Bank will not purchase from or sell to any Plan shares of the Fund; (d) the price paid or received by the Plans for Fund shares will be the net asset value per share at the time of such purchase or redemption and will be the same price as any other investor would pay or receive for shares of the same class.

25. In summary, it is represented that the transactions have satisfied or will satisfy the statutory criteria for an exemption under section 408(a) of the Act because:

(a) With respect to the in-kind transfer of the assets of a Plan invested in a CIF in exchange for shares of a Fund, a Second Fiduciary has authorized or will authorize in writing, such in-kind transfer prior to the transaction only after receiving full written disclosure of information concerning the Fund.

(b) Each Plan has received or will receive shares of the Funds in connection with the transfer of assets of a terminating CIF which have a total net asset value that is equal to the value of such Plan's *pro rata* share of the CIF assets on the date of the transfer as determined in a single valuation performed in the same manner and at the close of the business day, using independent sources in accordance with procedures established by the Funds which comply with Rule 17a–7 of the 1940 Act, as amended, and the procedures established by the Funds pursuant to Rule 17a–7 for the valuation of such assets.

(c) Sanwa Bank has sent or will send by regular mail or personal delivery, or, if applicable, by facsimile or electronic mail, no later than 30 days after completion of each in-kind transfer of CIF assets in exchange for shares of the Funds, a written confirmation containing the following information: (1) the identity of each transferred security that was valued for purposes of the transaction in accordance with Rule 17a–7(b)(4) of the 1940 Act; (2) the current market price, as of the date of the in-kind transfer, of each such security involved in the transaction; and (3) the identity of each pricing service or market maker consulted in determining the current market price of such securities.

(d) Sanwa Bank has sent or will send by regular mail, or personal delivery, or, if applicable, by facsimile or electronic mail, no later than 105 days after completion of each transfer, a written confirmation that contains the following information: (1) the number of CIF units held by a Plan immediately before the conversion (and the related per unit value and the total dollar amount of such CIF units); and (2) the number of shares in the Funds that are held by the Plan following the conversion (and the related per share net asset value and the total dollar amount of the shares received).

(e) The price that has been or will be paid or received by a Plan for shares of the Funds is the net asset value per share at the time of the transaction and is the same price for the shares which will be paid or received by any other investor at that time.

(f) No sales commissions or redemption fees have been or will be paid by a Plan or a CIF in connection with the in-kind transfer of assets to the Fund, in exchange for shares of the Funds or in connection with the purchase or redemption of Fund shares by a Plan.

(g) For each Client Plan, the combined total of all fees received by Sanwa Bank for the provision of Plan-level services, and in connection with the provision of investment advisory services or Secondary Services to any of the Funds in which Plans may invest, is not and will not be in excess of "reasonable compensation" within the meaning of section 408(b)(2) of the Act.

(h) Sanwa Bank has not received and will not receive any 12b–1 Fees in connection with the transactions.

(i) Any authorizations made by a Client Plan regarding investments in the Funds and the fees paid to Sanwa Bank (including increases in the contractual rates of fees for Secondary Services that are retained by the Sanwa Bank) will be terminable at will by the Client Plan, without penalty to the Client Plan and will be effected within one business day following receipt by Sanwa Bank, from the Second Fiduciary, of the Termination Form or any other written notice of termination, unless circumstances beyond the control of Sanwa Bank delay execution for no more than one additional business day.

(j) The Second Fiduciary will receive written notice accompanied by the Termination Form with instructions on the use of the form at least 30 days in advance of the implementation of any increase in the rate of any fees paid by the Funds to Sanwa Bank regarding investment advisory services, fees for Secondary Services or an additional Secondary Service for which a fee is charged which exceed the rates authorized for Sanwa Bank by the Second Fiduciary.

(k) All dealings by or between the Client Plans and any Fund have been and will remain on a basis which is no less favorable to such Client Plans than dealings between the Fund and other non-Plan shareholders holding the same class of shares as the Client Plans.

Notice to Interested Persons

Sanwa Bank proposes to provide notice of the proposed exemption to the Second Fiduciary of the Bank Plans, active participants in the Bank Plans and the Second Fiduciary of each affected Client Plan. Notice will be provided to each Second Fiduciary by first class mail and to active participants in the Bank Plans by posting at major job sites. Such notice will be given to interested persons within 30 days following the publication of the notice of pendency in the **Federal Register**. The notice will include a copy of the notice of proposed exemption as published in the **Federal Register** as

well as a supplemental statement, as required, pursuant to 29 CFR 2570.43(b)(2), which shall inform interested persons of their right to comment on and/or to request a hearing. Comments and requests for a public hearing are due within 60 days of the publication of the notice of proposed exemption in the **Federal Register**.

[Exemption Application No. D–10514]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990). If the exemption is granted, the restrictions of sections 406(a)(1)(A), 406(a)(1)(B), 406(a)(1)(D), 406(b)(1), and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code [18] shall not apply, effective October 9, 1997, to the transfer to the Fund from the United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada, AFL–CIO (the Union), a party in interest with respect to the Fund, of the Union's limited partnership interests in Diplomat Properties, Limited Partnership, (the Partnership), the sole asset of which is a certain resort hotel and country club complex (the Property); and to the transfer to the Fund of Union's holding of stock in Diplomat Properties, Inc. (the Stock), the corporate general partner of such Partnership, in consideration for a capital contribution by the Fund to the Partnership in the amount of $40 million dollars, plus reasonable costs incurred by the Union in purchasing the Property, and in consideration for the release of a certain loan obligation (the Loan) of the Partnership which was guaranteed by the Union and collateralized by Union assets; provided that:

(1) the transaction was a one-time transaction;

(2) an I/F which has the following qualifications acted on behalf of the Fund:

(a) the I/F is an individual, group of individuals, or a business entity which has substantial experience and expertise in the commercial real estate field;

(b) neither the I/F nor any of its affiliates have any ownership or other interest in the Union or its affiliates, nor does the Union or any of its affiliates have any ownership interest in the I/F or its affiliates; and

(c) neither the I/F nor its affiliates engages in any business transactions with the Union or its affiliates.

(3) prior to the Fund entering the transaction, the I/F reviewed and approved the terms of the transaction, determined that the transaction was an appropriate investment for the Fund, that the amount paid by the Fund to acquire ownership of the Property through the Partnership was appropriate and fair, that the total costs incurred were necessary for the acquisition of the Property and were reasonable, and that the transaction was in the best interest of the Fund and its participants and beneficiaries;

(4) the fair market value of the Property held by the Partnership was determined by an independent, qualified appraiser, as of the date of the transaction;

(5) the Fund paid no fees or commissions as a result of the transaction; and

(6) the terms of the transaction were no less favorable to the Fund than those it would have received under similar circumstances when negotiated at arm's length with unrelated third parties.

Summary of Facts and Representations

1. The Fund is a Taft-Hartley multi-employer defined benefit pension fund, as defined in section 3(37) of the Act.[19] The Fund is funded solely by employer contributions negotiated under collective bargaining agreements with the Union. As of January 1997, it is represented that the Fund received contributions from 5,187 active employers. As of October 3, 1997, there were estimated to be 97,988 participants and beneficiaries of the Fund. As of June 30, 1997, the Fund had assets of approximately $3.166 billion. It is represented that the transaction which is the subject of this proposed exemption involved less than 2 percent (2%) of the total assets of the Fund.

The Fund is administered from its offices in Crofton, MD by the plan administrator. Six (6) individuals serve as members of the Board of Trustees (the Trustees) of the Fund. Three of the Trustees are appointed by employers who contribute to the Fund, and three of the Trustees are appointed by the Union. The three Trustees selected by the Union also serve as officers of the Union. As fiduciaries to the Fund, the Trustees are parties in interest with respect to the Fund within the meaning of section 3(14)(A) of the Act.

2. The Union is an employee organization some of whose members participate in the Fund. As such, the Union is a party in interest with respect to the Fund within the meaning of section 3(14) of the Act.

3. The Property, located in Hollywood and Hallandale, Florida, was constructed in the late 1950's and consists of several parcels, including a oceanfront hotel, a vacant parcel of oceanfront real estate, a motel, a golf course, a clubhouse with tennis courts, and a marina. The hotel consists of two towers containing a total of 655 rooms. The north tower is the older of the towers and is in poor condition. The south tower has 256 rooms, large convention areas, and a parking garage. It is represented that the hotel at one time operated as a premier hotel and country club catering to the middle income convention trade, but due to a decline in the market, the hotel has been closed since 1992.

The vacant parcel, located on a 2.99-acre oceanfront site, functions as a parking lot. The motel, located on the Intracoastal Waterway and across the street from the hotel, has approximately 300 rooms, only 150 of which are operational. The golf course, containing 122.91 acres, is represented to be in relatively good shape and continues to function as a low budget operation. It is represented that the clubhouse and tennis courts are in need of upgrading. In the alternative, the real estate underlying the clubhouse and tennis courts could be re-zoned for residential use. The marina, the newest addition to the Property, provides a 52-slip facility, offering a number of finger piers, and a covered gazebo. It is represented that twelve (12) of the boat slips are under annual leases, and that the marina is subject to a long-term lease with a local yacht club.

4. The Union Labor Life Insurance Company (ULLICO) acquired, through

[18] For purposes of this exemption, references to specific provisions of Title I of the Act, unless otherwise specified, refer also to the corresponding provisions of the Code.

[19] It is represented that the Fund is the successor to the former Sabine Area Pipefitters Local No. 195 Pension Trust Fund, which was involved in the correction of a 1988 prohibited transaction that had occurred before the former Local 195 Pension Fund merged into the Fund in 1990. It is represented that the correction of the prohibited transaction did not involve any assets of the National Pension Fund except to the extent that the Local 195 Joint Apprenticeship Committee was assessed first tier excise taxes under section 4975 of the Code for its use of assets of the former Local 195 Pension Fund.

foreclosure, ownership of the Property as a result of a default by an unrelated third party on a mortgage loan. In this regard, in May 1991, title to the Property was transferred to TNDL Limited (TNDL), a wholly-owned subsidiary of ULLICO.

Early in 1997, TNDL placed the Property on the market for sale. It is represented that as a result of this public solicitation, TNDL received seven or eight bids from prospective purchasers, including the Union and at least one from a well-known hotel chain.

It is represented that when the Property was offered for sale, the Trustees of the Fund were interested in acquiring it as an investment for the Fund. However, a non-negotiable condition in the sale offer by TNDL excluded assets of any employee benefit fund subject to the Act from being used to purchase the Property.

5. The successful bidder on the Property was the Union which purchased the Property on October 1, 1997, for $40 million in cash, plus expenses incurred by the Union in acquiring the Property. Upon the advice of counsel, the Union chose to acquire and hold title to the Property through its wholly-owned subsidiary, the Partnership, in order to avoid state real property transfer taxes that would otherwise arise upon any subsequent sale of the Property.

It is represented that the Partnership obtained the money to purchase the Property from the proceeds of the Loan from the National City Bank of Cleveland, Ohio (the Bank). It is represented that repayment of the Loan by the Partnership was guaranteed by the Union. The Loan was secured by cash, cash equivalents, and securities owned by the Union and held by the Bank in a custodial account.

The term of the Loan was two (2) years with no prepayment penalty. The payment schedule consisted of payments only of interest for 23 months with a balloon payment of the principal amount, plus accrued interest in the 24th month. The interest rate on the Loan was the Bank's 7-day money market rate, adjusted weekly. It is represented that the $25,000 origination loan fee charged by the Bank on the Loan was withheld from the $40 million dollar Loan made to the Partnership by the Bank.

6. At the time the Partnership acquired the Property, an appraisal of the Property was prepared by Bruce C. Roe (Mr. Roe), President, and Zillah L. Tarkoe, Senior Analyst, of Roe Research, Inc., in Ft. Lauderdale, Florida. It is represented that the appraisers are qualified in that each is licensed by the State of Florida as a state-certified general real estate appraiser. It is further represented that Mr. Roe is a Member of the American Society of Real Estate Counselors (CRE) and a Member of the Appraisal Institute (MAI).

It is represented that the appraisers are independent in that neither has a present or prospective interest in the Property, nor has either any personal interest or bias with respect to the parties involved. Neither the employment nor the compensation of the appraisers was conditioned upon the reporting of a predetermined value or direction in value of the Property.

After physically inspecting the Property and reconciling the values for the Property established by the cost approach, income approach, and sales comparison approach, the appraisers established a separate value, based on fee simple interest "as is," for each of the parcels which make up the Property, including the oceanfront hotel, the vacant oceanfront parcel, the motel, the golf course and club house, and the marina. The sum of these separate values for each of the parcels was $44,350,000, as of August 8, 1997. Including a 10 percent (10%) discount for a bulk sale of all of the parcels of the Property "as is" to a single purchaser, the fair market value of the Property, was determined by the appraisers to be $40 million, as of August 8, 1997.

7. It is represented that on October 9, 1997, the Union and the Fund closed on the transaction that is the subject of this proposed exemption. Accordingly, the Fund, as applicant, has requested a retroactive exemption, effective October 9, 1997, to permit the past transfer from the Union to the Fund of the Union's limited partnership interests in the Partnership and the Stock in the corporate general partner of the Partnership which was owned by the Union. In this regard, it is represented that the Union owned 100 percent of the Stock of the corporate general partner of the Partnership. As general partner, the corporation owned one percent (1%) of the outstanding interest in the Partnership. The other 99 percent (99%) of the interests in the Partnership were owned by the Union, as limited partner.

It is represented that at the time of the sale of the Property to the Partnership, there existed no agreement pursuant to which the Partnership was obligated to sell the Property to any third party or pursuant to which any third party was obligated to buy the Property, including the Fund. Further, at the time of the sale of the Property to the Partnership, there existed no agreement pursuant to which the Union was obligated to sell its interest in the Partnership to any third party or pursuant to which a third party was obligated to buy the Union's interest in the Partnership, including the Fund. Finally, there never existed any agreement or understanding between TNDL and the Fund with respect to the purchase of the Property by the Fund. In this regard, it is represented that TNDL's representatives were unaware that the Trustees of the Fund were contemplating purchasing the Property after it was sold by TNDL to the Union.

It is represented that in consideration for the transfer by the Union of the Stock and the limited partnership interests, the Fund made a capital contribution to the Partnership in the amount of $40 million dollars. In addition, the Fund agreed to reimburse the Union for the following expenditures (totaling $367,605) which were incurred by the Union in purchasing the Property: (a) attorney hourly fees, travel, and other expenses ($215,756) paid to persons unrelated to the Fund; (b) due diligence fees (*e.g.*, geotechnical, evaluation, updated boundary surveys, appraisal fees) ($42,643); (c) a letter of credit fee ($8,406) paid to the issuer, NationsBank; and (d) earnest money deposit of $100,000 paid into escrow and credited to the Partnership at closing, plus $800 of interest accrued in escrow. It is represented that the letter of credit fee resulted from a term in the sale contract with TNDL, the seller of the Property, which required that the earnest money deposit be in the form of a letter of credit. Further, some due diligence and other fees not included in the amounts set forth above were incurred by the Union prior to the establishment of the Partnership. It is represented that these due diligence and other fees include the following: (a) $647.50 custodian fee paid to National City Bank; (b) $2,978 paid to CT Corporation for assistance in establishing the Partnership and the corporate general partner of the Partnership; and (c) $75,000 to the I/F for the initial opinion on the value of the Property. It is represented that these amounts were paid by the Partnership and/or the Fund subsequent to the closing on the Property and the transfer of the ownership of the Partnership to the Fund.[20]

[20] The Department notes that the actions of the Trustees relying on the advice of the I/F and acting on behalf of the Fund, in connection with its consideration of the merits of the acquisition of the limited partnership interests in the Partnership and the Stock of the corporate general partner of the Partnership as an investment for the Fund and the subsequent acquisition and holding of the Property are governed by the fiduciary responsibility

Because the Property was the sole asset of the Partnership, it is represented that the economic effect of the transfer which is the subject of this proposed exemption for all practical purposes was the same as a sale of the Property by the Union to the Fund. Subsequent to the transfer, it is represented that the capital contribution made by the Fund to the Partnership was used to retire the Loan between the Bank and the Partnership. In this regard, it is represented that on October 10, 1997, the Fund transferred directly to the Bank sufficient assets to pay off the Loan.

8. It is represented that the transaction which is the subject of this proposed exemption was in the interest of the Fund, because it provided a valuable investment opportunity to the Fund which it is represented will result in a superior return.

Further, it is represented that the cities of Hollywood and Hallandale support the redevelopment of the Property. In this regard, it is represented that additional funding for the development of the Property is under consideration by the U.S. Department of Housing and Urban Development through a community development loan guarantee program for projects that produce full time job opportunities for low income residents. Additionally, it is represented that the Fund's ownership of the Property through the limited partnership structure will permit the Fund to avoid the liabilities associated with a more direct ownership of real estate and will not threaten the tax exempt status of the Fund.

9. In the opinion of the Trustees, an important safeguard in this proposed exemption is that an I/F, acting on behalf of the Fund, reviewed and approved the subject transaction, and that such I/F concluded that the transaction was prudent and in the interests of the participants and beneficiaries of the Fund. It is represented that, as of September 22, 1997, Chadwick, Saylor & Co. Inc. (CSC) was retained by the Trustees to act as I/F on behalf of the Fund. As a result, CSC provided the Trustees with a report of its opinion of the subject transaction, dated September 29, 1997, a supplemental report of the same date, a subsequent report, dated December 15, 1997, and an additional letter dated, May 11, 1998.

CSC has acknowledged that as I/F it was solely responsible to the Fund. In this regard, it is represented that the fee of the I/F was paid by the Fund. It is further represented that CSC is independent in that there is no relationship between the Union and CSC, and that CSC is not related to or affiliated with the Fund. Further, CSC represents that it had no conflicts affecting its ability to serve as the I/F and to provide an independent evaluation of the transaction which is the subject of this proposed exemption.

CSC represents that it is an investment advisor registered under the Investment Advisors Act of 1940; that it possesses substantial expertise in the area of commercial real estate investments; and that it is qualified to provide the independent fiduciary services required. In this regard, either CSC or its principals have represented in excess of forty (40) tax exempt institutional real estate investors (private and public pensions, endowments and foundations) in a fiduciary capacity.

In fulfilling its role as I/F, CSC received and reviewed the Fund's policy statement and various reports, schedules, and other material provided by the Fund's consultants, real estate managers, and various professionals. Included in the information reviewed by CSC is the following: (a) the sale and purchase agreement between the Union and TNDL, and attachments and related correspondence; (b) documents, plans, surveys, and maps pertaining to existing and anticipated improvements on the Property; (c) documents, maps, and other correspondence pertaining to the condition of title of the Property, including encumbrances, taxes and other liens, and information on certain adjacent sites; (d) ordinances and other information relating to zoning and building codes; (e) the statement of value of the Property from the independent appraisers; and (f) preliminary feasibility studies, status, and condition reports related to the contemplated development and redevelopment of the Property.

After reviewing the material listed above, CSC is of the opinion that the Fund's investment in the Partnership represents a moderate expenditure of capital (based on the Fund's overall investment portfolio) to produce disproportionately high returns. In this regard, CSC believes that the probable internal rate of return to the Fund will be in excess of 15% from its investment in the Property and successful conclusion of development and redevelopment efforts over the next several years. It is further represented that this rate of return is substantially greater than the overall rate of return experienced by the Fund from its current real estate portfolio. Based on diversification characteristics of the investment in the Partnership, CSC believes that the Fund will enjoy a very competitive risk-adjusted return from its investment.

With respect to diversification of the assets of the Fund, CSC represents that allowing for the subject transaction, equity real estate represents less than 6 percent (6%) of the Fund's total investment portfolio. It is further represented that the total real estate commitments of the Fund, including the 6% equity position and non-equity debt type investments (*e.g.* loans, bonds, mortgages, and mortgage-backed securities), were slightly in excess of 15 percent (15%) of the Fund's total investment portfolio, as of June 30, 1997.

CSC recognized the degree of risk assumed by the acquisition of properties which are generally unoccupied and are in need of development or redevelopment to become occupied and to generate a positive cash flow. Based on the risk/reward characteristics of the subject transaction, CSC is of the opinion that the acquisition cost (which represents approximately 1.2 percent (1.2%) of the Fund's total investment portfolio, as of June 30, 1997) is an appropriate expenditure and does not represent unwarranted risk.

With respect to the appraisal of the Property prepared by Roe Research, Inc., CSC believes that the $40 million dollar value ascribed to the Property is appropriate and fair. However, CSC did not subscribe to the "bulk sale discount" for the Property, as set forth in the appraisal report. In the opinion of CSC, the value of the unique characteristics of the Property, offering a "self-contained" resort complex, collectively could be greater than the value determined by individual transactions on the various parcels which make up the Property.

In the opinion of CSC, the amount (approximately $40 million dollars, plus reasonable costs) paid by the Fund to acquire the Property does not exceed the fair market value of such Property at the time of acquisition, including consideration for miscellaneous costs, presuming that such costs when fully identified are customary and reasonable and do not exceed the costs incurred by the Union in its purchase of the Property from TNDL. With regard to such costs, CSC in May 1998, after reviewing the total acquisition cost schedule, including financing related costs, legal fees, property specific

---

requirements of part 4, subpart B, of Title I. The Department expresses no opinion herein, as to whether any of the relevant provisions of part 4, subpart B, of Title I have been violated regarding the Fund's investment in the Partnership and subsequent holding of the Property, and no exemption from such provisions is proposed herein.

related costs, and the cost of the I/F's valuation, opined that all enumerated acquisition costs were reasonable and that the costs that were incurred were necessary for making a prudent decision on the acquisition of the Property.

In the opinion of CSC, it is appropriate for the Fund to hold title to the Property through the Partnership where the Fund owns 100 percent (100%) of the Stock of the corporate general partner of such Partnership. In this regard, it is CSC's assumption that the Partnership may be restructured in the future to accommodate tax or other issues, to sell a portion of the Property, or to accommodate co-investor or lender capital funding. In this regard, it is represented that such holding by the Fund will permit the Fund to avoid liabilities associated with a more direct ownership of real estate and will not threaten the tax-exempt status of the Fund.

CSC recognizes that certain aspects of the Fund's investment in the Partnership could potentially cause unrelated business income tax (UBTI) to the Fund. In this regard, CSC has been advised by counsel to the Fund that the structuring of the Fund's ownership, operations, and sales will be focused on minimizing any tax consequence to the Fund. Based on this advice of counsel, it is CSC's opinion that the risk-adjusted returns to the Fund, including consideration for potential UBTI, fully justify the acquisition, and development/redevelopment processes planned by the Fund for the Property.

In September 1997, when CSC issued its opinion, certain budgets, cash flows, or schedules pertaining to the development, redevelopment, operation and potential of the various components of the Property were not available. In addition, CSC's opinions as to the fairness of the transaction were based on certain assumptions related to functions yet to be performed or completed and certain permits and approvals yet to be received. Notwithstanding these facts, in the course of its review of materials with respect to the subject transaction, it is represented that nothing came to the attention of CSC that indicated that these matters could not be favorably resolved, and in CSC's opinion, it is reasonable for the Fund to assume that such matters will be favorable resolved.

Therefore, based on all of the information CSC reviewed as of the date of its initial opinion and affirmed in its subsequent report, CSC concludes, solely on behalf of the Fund, that the acquisition price in the amount of $40 million, plus reasonable costs is appropriate and fair. Moreover, based on the foregoing, it is CSC opinion that the transaction which is the subject of this exemption represents a prudent investment for the Fund and is in the best interest of the participants and beneficiaries of the Fund.

10. In summary, the applicant, represents that the proposed transaction meets the statutory criteria for an exemption under section 408(a) of the Act because:

(1) The transaction was a one-time transaction;

(2) The I/F acted on behalf of the Fund;

(3) Prior to entering the transaction, the I/F reviewed approved the terms of the transaction, determined that the transaction was an appropriate investment for the Fund, that the amount paid by the Fund to acquire ownership of the Property through the Partnership was fair and reasonable, that the total costs incurred were necessary for the acquisition of the Property and were reasonable, and that the transaction was in the best interest of the Fund and its participants and beneficiaries;

(4) The fair market value of the Property held by the Partnership was determined by an independent, qualified appraiser;

(5) The Fund paid no fees or commissions as a result of the transaction; and

(6) The terms of the transaction were no less favorable to the Fund than those it would have received under similar circumstances when negotiated at arm's length with unrelated third parties.

Collection Bureau Services Profit Sharing Plan and Trust (the Plan), Located in Missoula, MT

[Application No. D–10525]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, 32847, August 10, 1990). If the exemption is granted, the restrictions of sections 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to (1) the proposed lease (the Lease) by the Plan of certain improved real property (the Property) to Collection Bureau Services (the Employer), a party in interest with respect to the Plan, and (2) the possible purchase of the Property by the Employer in the future, pursuant to the Employer's option to purchase the Property under the Lease.

This proposed exemption is subject to the following conditions:

(1) The Plan is represented for all purposes under the Lease by a qualified, independent fiduciary;

(2) The terms and conditions of the Lease are at least as favorable to the Plan as those the Plan could obtain in a comparable arm's length transaction with an unrelated party;

(3) The rent paid to the Plan under the Lease is no less than the fair market rental value of the Property, as established by a qualified, independent appraiser;

(4) The rent is adjusted, at a minimum, every three years, based upon an updated independent appraisal of the Property, but in no event shall such adjustments result in the rent being less than the rental amount for the Property existing for the preceding period;

(5) The Lease is triple net (with all expenses for maintenance, taxes, and insurance to be borne by the Employer as the tenant);

(6) The independent fiduciary for the Plan (the I/F) reviews the terms and conditions of the Lease on behalf of the Plan and determines that the Lease is in the best interests of, and appropriate for, the Plan;

(7) The I/F monitors and enforces compliance with all of the terms and conditions of the Lease, and of the exemption (if granted), throughout the duration of the Lease;

(8) The I/F expressly approves any improvements by the Employer to the Property, any renewal of the Lease beyond the initial term, and any sale of the Property to the Employer, pursuant to the Employer's option to purchase the Property under the Lease;

(9) In the event that the Employer exercises its option to purchase the Property under the Lease, the Employer pays the Plan an amount which is the greater of either (a) the original acquisition cost of the Property, plus holding expenses, or (b) the fair market value of the Property, as of the date of the sale, as established by a qualified, independent appraiser; and

(10) At all times throughout the duration of the Lease, the fair market value of the Property represents no more than 25 percent of the total assets of the Plan.

Summary of Facts and Representations

1. The Plan is a defined contribution plan sponsored by the Employer. The

Employer, a Montana corporation, is engaged in the collection and credit reporting business. As of October 13, 1997, the Plan had approximately 26 participants and beneficiaries. As of that date, the Plan had total assets of $1,131,567. The trustees of the Plan are Jeffrey J. Koch and Douglas N. Klein.

2. Among the assets of the Plan is the Property, which consists of a single family residence located at 218 East Spruce, Missoula, Montana, adjacent to the Employer's premises. The Property is a one story, two bedroom, one bath structure. The Property was acquired by the Plan in 1982 from an unrelated party for $32,500 and is not mortgaged or otherwise subject to any debt. Since September 16, 1996, the Property has been leased to an unrelated party at the rate of $550 per month.[21] The Employer proposes to lease the Property from the Plan and convert the Property to commercial office space, at the Employer's own expense (at an estimated cost of approximately $1,000).

3. The Property was appraised in May, 1997, by Pamela A. Lundt and Lonnie S. Warner of Professional Property Management, Inc. (PPMI). Ms. Lundt and Ms. Warner (the Appraisers), the partners of PPMI, are both real estate brokers licensed in the State of Montana. The applicant represents that both of the Appraisers are highly experienced in conducting comparative rental market analysis for residential and commercial properties in Missoula, Montana and the surrounding area. In addition, PPMI currently manages in excess of 700 residential and commercial properties in Missoula and the surrounding area.

The Appraisers' valuation of the Property included an analysis of four other leases of comparable properties in the local market area. Based upon this market data, the Appraisers concluded that the Property had a fair market rental value in the range of $575 to $600 per month, if leased on a triple net basis, as of May 9, 1997.

4. PPMI has also been retained by the Employer to represent the Plan as an independent fiduciary for the Plan (i.e., the I/F). PPMI represents that it is unrelated to, and independent of, the Employer and derives less than 1% of its annual income from the Employer. PPMI states that it is knowledgeable as to the subject transactions. PPMI also acknowledges and accepts its duties, responsibilities, and liabilities in acting as a fiduciary under the Act with respect to the Plan for purposes of the Lease.[22]

5. The Lease provides for a rental rate of $600 per month and an initial term of one year, which may be renewed for additional one year periods, up to a maximum total of 15 years, upon the express approval of PPMI, as the I/F for the Plan. The Lease provides for rent adjustments, at a minimum, every three years, based upon an updated independent appraisal of the fair market rental value of the Property. However, in no event shall such adjustments result in the rent being less than the rental amount for the Property existing for the period preceding the adjustment.

The Lease is triple net (with all expenses for maintenance, taxes, and insurance to be borne by the Employer as the tenant). The Lease permits the Employer to make improvements to the Property at the Employer's expense, upon the express approval by the I/F. Any such improvements to the Property will belong to the Plan upon termination of the Lease. The Employer will indemnify and hold the Plan harmless for all claims and demands arising from or in any way relating to the Property.

6. The Lease grants the Employer the option to purchase the Property from the Plan, subject to approval by PPMI. In this regard, PPMI, as the I/F for the Plan, must determine that a sale of the Property would be in the best interests of the Plan. Any such sale would be a one-time transaction for cash, and the Plan would incur no expenses relating to the sale.

If the Employer exercises its option, the Employer will purchase the Property from the Plan for an amount which is the greater of either (a) the original acquisition cost of the Property, plus holding expenses, or (b) the fair market value of the Property as of the date of the sale, as established by a qualified, independent appraiser. The appraiser must take into account any possible special value that the Property may have to the Employer, as a result of the Employer's premises being located adjacent to the Property.

7. PPMI, acting as the I/F for the Plan, represents that it has reviewed the terms and conditions of the Lease on behalf of the Plan and determined that such terms and conditions are at least as favorable to the Plan as those the Plan could obtain in a comparable arm's length transaction with an unrelated party. PPMI represents that the Lease would be in the best interests of, and appropriate for, the Plan. PPMI states that the Lease will generate income for the Plan, and the Employer will be a stable, long-term tenant. In this regard, PPMI states that the Employer is capable of meeting its contractual obligations under the Lease, based upon an examination of the Employer's financial condition. Finally, PPMI will monitor and enforce compliance with the terms and conditions of the Lease, and of the exemption (if granted), throughout the duration of the Lease.

8. In summary, the applicant represents that the proposed transactions satisfy the statutory criteria for an exemption under section 408(a) of the Act for the following reasons: (1) the Plan will be represented for all purposes under the Lease by PPMI, a qualified, independent fiduciary; (2) the terms and conditions of the Lease will be at least as favorable to the Plan as those the Plan could obtain in a comparable arm's length transaction with an unrelated party; (3) the rent charged by the Plan under the Lease will be no less than the fair market rental value of the Property, as established by a qualified, independent appraiser; (4) the rent will be adjusted, at a minimum, every three years, based upon an updated independent appraisal of the Property, but in no event shall such adjustments result in the rent being less than the rental amount for the Property existing for the preceding period; (5) the Lease will be triple net (with all expenses for maintenance, taxes, and insurance to be borne by the Employer as the tenant); (6) PPMI, as the I/F for the Plan has reviewed the terms and conditions of the Lease on behalf of the Plan and determined the Lease would be in the best interests of, and appropriate for, the Plan; (7) PPMI will monitor and enforce compliance with the terms and conditions of the Lease, and of the exemption (if granted), throughout the duration of the Lease; (8) PPMI will expressly approve any improvements by the Employer to the Property, any renewal of the Lease beyond the initial term, and any sale of the Property to the Employer, pursuant to the Employer's option to purchase the Property under the Lease; (9) in the event that the Employer exercises its option to

[21] From October 1, 1994 to September 16, 1996, the Plan leased the Property to the Employer for commercial use. In an audit of the Plan, the Department cited the prohibited lease, among other things, in a letter dated December 17, 1996, as a violation of the Act. In a letter dated February 26, 1997, the Department noted that the Employer had taken all corrective action required by the Department, including the payment, on January 24, 1997, of $2,585.50 in excise taxes assessed by the Internal Revenue Service. Since that amount exceeded the amount of the section 502(l) penalty assessed by the Department, under the Department's regulations (see 29 CFR 2570.86), no further payment was due, and the Department closed its investigation of the Plan.

[22] In this regard, PPMI will confer with legal counsel having expertise with respect to the requirements of the Act, as needed.

purchase the Property under the Lease, the Employer will pay the Plan an amount which is the greater of either (a) the original acquisition cost of the Property, plus holding expenses, or (b) the fair market value of the Property, as of the date of the sale, as established by a qualified, independent appraiser; and (10) at all times throughout the duration of the Lease, the fair market value of the Property will represent no more than 25 percent of the total assets of the Plan.

Notice to Interested Persons

Notice of the proposed exemption shall be given to all interested persons by first-class mail or by posting the required information at the Employer's offices within 10 days of the date of publication of the notice of pendency in the **Federal Register**. Such notice shall include a copy of the notice of proposed exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and/or request a hearing with respect to the proposed exemption. Comments and requests for a hearing are due within 40 days of the date of publication of this notice in the **Federal Register**.

Breland Investments, Inc. Profit Sharing Plan and Trust (the Plan), Located in Phoenix, Arizona

[Exemption Application No: D–10529]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 CFR Part 2570, Subpart B (55 FR 32836, August 10, 1990). If the exemption is granted, the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to (1) the proposed loan (the Loan) by the individually directed account (the Account in the Plan [23] of Dr. Albert E. Breland (Dr. Breland), to Mesa Scholastic Enterprises (Mesa), a disqualified person with respect to the Plan, and (2) the personal guarantee of the Loan by Dr. Breland, a disqualified person with respect to the Plan, provided the following conditions are satisfied:

(a) The terms of the Loan are at least as favorable to the Account as those obtainable in an arm's length transaction with an unrelated party;

(b) The amount of the Loan does not exceed 25% of the assets in the Account;

(c) The Loan is secured by a first deed of trust on the commercial real property (the Property), which has been appraised by a qualified independent appraiser to have a fair market value not less than 150% of the outstanding balance of the Loan throughout its duration;

Summary of Facts and Representations

1. The Plan is a profit sharing plan which provides its participants with the opportunity to direct the investment of their individual accounts. Currently it has one participant, Dr. Breland, and one beneficiary, Mrs. Nancy V. Breland (Mrs. Breland), Dr. Breland's wife. The aggregate fair market value of the Plan's, and the Account's, assets as of June 30, 1997 was approximately $900,000. The Plan is sponsored by Breland Investments, Inc., a corporation wholly owned by Dr. and Mrs. Breland which manages various investments in real estate, securities and other assets. The trustees of the Plan are Dr. and Mrs. Breland.

2. Mesa is an Arizona General Partnership in which Dr. and Mrs. Breland own a majority interest. Located in Mesa, Arizona, it is engaged in leasing the Property to the Mesa Montessori Preschool. In the past three years, Mesa has averaged annual revenues of approximately $48,300, consisting primarily of the $4,000 per month received in rent from the Mesa Montessori Preschool.

3. The Loan involves only the Account and is described by the applicant as follows: An amount of $123,500 will be loaned by the Account to Mesa for purposes of paying a balloon payment due on a prior third-party loan related to the Property. The Loan will be repaid over a 10 year period, with equal payments of principal and interest. The interest rate will be 10% per annum, which was determined after contacting three prominent commercial banks in the Phoenix metropolitan area to survey the applicable interest rates for a similar transaction between unrelated parties. The Loan will be secured by a first deed of trust on the Property.[24]

Institution	Rate	Contact
Harris Trust Bank of Arizona	3% over 10 year Treasury Bill rate, plus an initial charge of 2 points.	Glenn Elstoen.
Northern Trust	8.5 to 9%, plus an initial charge of ½ to 1 point	Harold Dorenbecher.
Wells Fargo	8.475, plus an initial charge of 1½ points	Roy Miller.

Regarding Mesa's creditworthiness, the applicant represents that all payments on past and present debt obligations have been paid in a timely manner. In addition, because the monthly payments on the proposed Loan will be less than those due under the current loan related to the Property, and because two additional loans for which Mesa pays approximately $1,095 per month will be paid off by September 1998, the applicant believes that Mesa will have ample income to ensure payment of the proposed Loan. Finally, the Brelands, in their individual capacity, will be responsible for repayment of the Loan in the event of default by Mesa because of their status as general partners in Mesa.

4. The Property consists of a .8469 acre parcel of real property improved with a 3,243 square foot one-story preschool building located at 2830 South Carriage Lane in Mesa, Arizona. The parcel was originally transferred from the Brelands to Mesa in 1983.

5. On May 1, 1997, Mr. Gary E. Ringel (Mr. Ringel) and Mr. Carter T. Froelich (Mr. Froelich), both employees of U.S.L. Valuation, appraised the Property. Both Mr. Ringel and Mr. Froelich are State Certified Real Estate Appraisers in Arizona, and represent that they have no present or prospective interest in the Property, no personal interest or bias with respect to the parties involved, and are otherwise independent. After reviewing and analyzing the data related to the Property, the appraisers determined that the Property is worth $406,000, or 3.29 times the amount of the Loan.

In their appraisal, Mr. Ringel and Mr. Froelich relied on both the sales comparison, or market, approach and

[23] Because Dr. Breland is the only participant in the Plan, there is no jurisdiction under 29 CFR 2510.3–3(b). However, there is jurisdiction under Title II of the Act pursuant to section 4975 of the Code.

[24] The applicant contacted the Harris Trust Bank of Arizona, Northern Trust, and Wells Fargo. The rates obtained were based on the following information: A loan for commercial real property in the Phoenix metropolitan area in the amount of $120,000 to $130,000 payable over a 10 year term, and secured by the property which has a fair market value in excess of twice the loan amount. The following provides the quoted rates:

the income approach in reaching their conclusion as to the value of the Property. Using the sales comparison approach, the appraisers analyzed preschool building sales in the Phoenix area and compared those to the Property with adjustments made for property rights, financing, conditions of sale, market conditions, location and physical features, and arrived at a fair market value of $405,000. With respect to the income approach, Mr. Ringel and Mr. Froelich employed the direct capitalization method, the preferred technique of preschool investors, and estimated the value of the subject property to be $407,000. Giving the two methods equal weight, the appraisers concluded the value of the Property to be $406,000.

7. In summary, the applicant represents that the proposed transaction satisfies the criteria of section 4975(c)(2) of the Code for the following reasons: (a) the terms of the Loan are at least as favorable to the Account as those obtainable in an arm's length transaction with an unrelated party; (b) the amount of the Loan does not exceed 25% of the assets in the Account; and (c) the Loan is secured by a first deed of trust on the Property, which has been appraised by a qualified independent appraiser to have a fair market value not less than 150% of the outstanding balance of the Loan throughout its duration.

Notice to Interested Persons

Because Dr. Overland is the only participant to be affected by the proposed transaction, it has been determined that there is no need to distribute the notice of proposed exemption (the Notice) to interested persons. Comments and requests for a hearing are due thirty (30) days after publication of the Notice in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Mr. James Scott Frazier, telephone (202) 219–8881. (This is not a toll-free number).

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan;

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 22nd day of May, 1998.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, Department of Labor.

BILLING CODE 4510–29–P

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

Sunshine Act Meeting

TIME, DATE, AND PLACE: June 25, 1998.

Status: Open.

9:00 a.m.–4:00 p.m. Benton Foundation, The Richard M. Neustadt Center for Communications in the Public Interest, 1634 I Street, NW., Washington, DC.

Status: Closed.

4:00 p.m.–5:00 p.m. Discussion, internal personnel matters.

MATTERS TO BE DISCUSSED: Benton Foundation programs dealing with library advocacy and children issues, Charles Benton; Report, Working Group on Issues of Journal Pricing, Publishing, and Copyright; Report, Access to Government Information; Update, NCLIS Action Plan; GPO Depository Library Program; ALA/NCLIS Public Libraries and the Internet Study; Library Statistics Program; Survey of international activities and assessment of NCLIS' role(s); Discussion, issues affecting children and the Internet; and administrative matters.

Status: Open.

June 26, 1998.

9:00 a.m.–12:00 N—Library of Congress, James Madison Memorial Building, West Dining Room, Washington, DC.

MATTERS TO BE DISCUSSED: Institute of Museum and Library Services Program Activities; LSTA Leadership Grants; Guidelines for State-Based Grants; Legislation and Library and Information issues.

To request further information or to make special arrangements for physically challenged persons, contact Barbara Whiteleather (202–606–9200) no later than one week in advance of the meeting.

Dated: May 21, 1998.

Robert S. Willard,

Acting Executive Director.

NATIONAL CREDIT UNION ADMINISTRATION

Agency Information Collection Activities: Submission to OMB for Review; Comment Request

AGENCY: National Credit Union Administration (NCUA).

ACTION: Request for comment.

SUMMARY: The NCUA is resubmitting the following information collections without change to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35). These information collections are published to obtain comments from the public.

DATES: Comments will be accepted until July 28, 1998.

ADDRESSES: Interested parties are invited to submit written comments to NCUA Clearance Officer or OMB Reviewer listed below:

Clearance Officer: Mr. James L. Baylen (703) 518–6411, National Credit Union Administration, 1775 Duke Street, Alexandria, Virginia 22314–

VOL 63 ISS 103 MAY 29 1998 UMI

3428, Fax No. 703–518–6433, E-mail: jbaylen@ncua.gov.

OMB Reviewer: Alexander T. Hunt (202) 395–7860, Office of Management and Budget, Room 10226, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Copies of the information collection requests, with applicable supporting documentation, may be obtained by calling the NCUA Clearance Officer, James L. Baylen, (703) 518–6411.

SUPPLEMENTARY INFORMATION: Proposals for the following collections of information:

OMB Number: 3133–0061.
Form Number: CLF–8703.
Type of Review: Extension of a currently approved collection.
Title: Central Liquidity Facility (CLF) Repayment Agreement, Regular Member.
Description: The form is used by CLF regular members borrowing from the CLF.
Respondents: Credit Unions that are CLF regular members that borrow from the CLF.
Estimated No. of Respondents/ Recordkeepers: 25.
Estimated Burden Hours Per Response: 1 hour.
Frequency of Response: Other. As the need for borrowing arises.
Estimated Total Annual Burden Hours: 25.
Estimated Total Annual Cost: N/A.
OMB Number: 3133–0063.
Form Number: CLF–8702.
Type of Review: Extension of a currently approved collection.
Title: Central Liquidity Facility (CLF) Membership Application.
Description: This is a one-time form used to request membership in the CLF.
Respondents: Credit unions seeking membership in the CLF.
Estimated No. of Respondents/ Recordkeepers: 25.
Estimated Burden Hours Per Response: 12.5 hours.
Frequency of Response: Other. As credit unions request membership in the CLF.
Estimated Total Annual Burden Hours: 18.5.
Estimated Total Annual Cost: N/A.
OMB Number: 3133–0064.
Form Number: CLF–7000, 7001, 7002, 7003, & 7004.
Type of Review: Extension of a currently approved collection.
Title: Forms and instructions for Central Liquidity Facility (CLF) loans.
Description: Forms used by each borrower from the CLF.
Respondents: Credit Unions that borrow from the CLF.
Estimated No. of Respondents/ Recordkeepers: 25.
Estimated Burden Hours Per Response: 1 hour.
Frequency of Response: Other. As the need for borrowing arises.
Estimated Total Annual Burden Hours: 25.
Estimated Total Annual Cost: N/A.
OMB Number: 3133–0136.
Form Number: CLF–8704.
Type of Review: Extension of a currently approved collection.
Title: Central Liquidity Facility (CLF) Repayment Agreement, Agent Member.
Description: The form is used by CLF agent members borrowing from the CLF.
Respondents: Credit Unions that are CLF agent members that borrow from the CLF.
Estimated No. of Respondents/ Recordkeepers: 15.
Estimated Burden Hours Per Response: 6 hours.
Frequency of Response: Other. As the need for borrowing arises.
Estimated Total Annual Burden Hours: 90.
Estimated Total Annual Cost: N/A.

By the National Credit Union Administration Board on May 19, 1998.

Becky Baker,

Secretary of the Board.

BILLING CODE 7535–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN–50–528, STN 50–529, and STN 50–530]

Arizona Public Service Company, et al.; Notice of Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment Nos. 117 to Facility Operating License Nos. NPF–41, NPF–51, and NPF–74, issued to the Arizona Public Service Company, et al. (the licensee) for operation of the Palo Verde Nuclear Generating Station, Unit Nos. 1, 2, and 3, respectively, located in Maricopa County, Arizona.

The amendments are effective as of the date of issuance.

The amendments replace, in their entirety, the current technical specifications (TS) with a set of TS based on NUREG–1432, "Standard Technical Specifications, Combustion Engineering Plants," Revision 1, April 1995. In addition, the amendments add four license conditions to Appendix D that require (1) the relocation of previous TS requirements into licensee-controlled documents, (2) the first performance of new and revised surveillance requirements for the improved TS (ITS) to be related to the implementation of the ITS, (3) the addition of a listing to Section 17.2 of the Updated Final Safety Analysis Report (UFSAR) of the commitments in the Quality Assurance Program (QAP) that are not in Chapter 17 of the UFSAR, and (4) the Palo Verde Nuclear Generating Station commercial-grade equipment certification program to be adequate to detect certain types of failures. The implementation of the amendments and the license conditions will be on or about September 15, 1998.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments.

Notice of Consideration of Issuance of Amendments and Opportunity for Hearing in connection with this action was published in the **Federal Register** on April 14, 1997 (62 FR 18153). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of this amendment will not have a significant effect on the quality of the human environment.

For further details with respect to the action see (1) the application for amendments dated October 4, 1996, as supplemented by (a) the 19 letters in 1997 dated January 31, March 16, May 30, May 30, June 6, July 18, July 18, July 18, July 18, July 18, August 31, September 18, September 18, September 19, September 19, November 7, November 14, November 26, and December 16, and (b) the three letters in 1998 dated February 12, March 27, and May 1, (2) Amendment No. 117 to Facility Operating License No. NPF–41, Amendment No. 117 to Facility Operating License No. NPF–51, and Amendment No. 117 to Facility Operating License No. NPF–74, and (3) the Commission's related Safety Evaluation and Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street,

N.W., Washington, D.C., and at the local public document room located at the Phoenix Public Library, 1221 N. Central Avenue, Phoenix, Arizona 85004.

Dated at Rockville, Maryland, this 20th day of May 1998.

For the Nuclear Regulatory Commission.

Jack N. Donohew,

Senior Project Manager, Project Directorate IV–1, Division of Reactor Projects III/IV, Office of Nuclear Reactor Regulation.

[FR Doc. 98–14240 Filed 5–28–98; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–285]

Omaha Public Power District, Fort Calhoun Station, Unit No. 1; Exemption

I

Omaha Public Power District (OPPD) is the holder of Facility Operating License No. DPR–40 for the Fort Calhoun Station, Unit No. 1 (FCS) which authorizes operation of the Fort Calhoun Station, Unit No. 1. The license provides, among other things, that the licensee is subject to all rules, regulations, and orders of the Commission now or hereafter in effect.

The facility consists of one pressurized-water reactor at the licensee's site located in Washington County, Nebraska.

II

By letter dated September 30, 1997, as supplemented by letters dated January 29, 1998, and April 23, 1998, the licensee requested an exemption from certain requirements from 10 CFR Part 50, Appendix R, Section III.O, for the Fort Calhoun Station. Section III.O of Appendix R to 10 CFR Part 50, requires that the reactor coolant pump (RCP) shall be equipped with an oil collection system if the containment is not inerted during normal operation. The oil collection system shall be so designed, engineered and installed that failure will not lead to fire during normal or design basis accident conditions and that there is reasonable assurance that the system will withstand the safe shutdown earthquake.

III

Section 50.12(a) of 10 CFR, "Specific exemptions," states that * * *

The Commission may, upon application by any interested person, or upon its own initiative, grant exemptions from the requirements of the regulations of this part, which are (1) Authorized by law, will not present an undue risk to the public health and safety, and are consistent with the common defense and security. (2) The Commission will not consider granting an exemption unless special circumstances are present.

Section 50.12(a)(2)(ii) of 10 CFR Part 50 states that special circumstances are present when "Application of the regulation in the particular circumstances would not serve the underlying purpose of the rule or is not necessary to achieve the underlying purpose of the rule * * *." The underlying purpose of 10 CFR Part 50, Appendix R, Section III.O, is to ensure that leaking oil will not lead to a fire that could damage safety related equipment during normal or design basis accident conditions. As documented in a Safety Evaluation dated May 21, 1998, the NRC staff concluded that for RCP RC–3B an oil collection system is not needed to satisfy the underlying purpose of Section III.O of Appendix R for:

(1) the unpressurized upper bearing cooling water penetrations located 3.15" above the normal oil level,

(2) the unpressurized lower bearing component cooling water penetrations located 1" above the normal oil level,

(3) the unpressurized vent line on the lower bearing resistance temperature detector (RTD) located 2.4" above the normal oil level,

(4) the unpressurized upper bearing RTD located 10" above the normal oil level, and

(5) the unpressurized lower bearing oil level transmitter line.

Accordingly, the Commission has determined that special circumstances are present as defined in 10 CFR 50.12(a)(2)(ii).

As further documented in the Safety Evaluation dated May 21, 1998, the staff also concluded that an exemption is not needed for:

(1) the motor cooling air vents of RCP RC–3B,

(2) the anti-rotation device air vents and the motor cooling air vents of the remaining RCPs, or

(3) the lack of a flash arrester for the RCP oil collection system vent.

IV

The Commission has determined that, pursuant to 10 CFR 50.12, an exemption in connection with the five unpressurized sites above regarding RCP RC–3B is authorized by law, will not present an undue risk to public health and safety and is consistent with the common defense and security. Also, as stated above, the Commission has determined that special circumstances are present. Therefore, the Commission hereby grants Omaha Public Power District an exemption from the requirements of Section III.O of Appendix R to 10 CFR Part 50 regarding the unpressurized leakage sites in the RCP lube oil collection system discussed herein.

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this exemption will not have a significant effect on the quality of the human environment (63 FR 26653).

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 21st day of May, 1998.

For the Nuclear Regulatory Commission.

Samuel J. Collins,

Director, Office of Nuclear Reactor Regulation.

[FR Doc. 98–14241 Filed 5–28–98; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–397]

Washington Public Power Supply System; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. to Facility Operating License No. NPF–21 issued to Washington Public Power Supply System (the licensee), for operation of the Washington Nuclear Project No. 2 (WNP–2), located in Benton County, Washington.

The amendment is effective as of the date of issuance.

The amendment revises the maximum yield strength for emergency core cooling system suction strainer materials listed in the WNP–2 Final Safety Analysis Report (FSAR).

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment and Opportunity for Hearing in connection with this action was published in the **Federal Register** on April 21, 1998 (63 FR 19758). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to

the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of this amendment will not have a significant effect on the quality of the human environment.

For further details with respect to the action see (1) the application for amendment dated April 16, 1998, as supplemented by letters dated April 28, 1998, and May 8, 1998. (2) Amendment No. 153 to Facility Operating License No. NPF–21, and (3) the Commission's related Safety Evaluation and Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, N.W., Washington, D.C., and at the local public document room located at the Richland Public Library, 955 Northgate Street, Richland, Washington 99352.

Dated at Rockville, Maryland, this 21st day of May 1998.

For the Nuclear Regulatory Commission.

Chester Poslusny,

Senior Project Manager, Project Directorate IV–2, Division of Reactor Projects III/IV, Office of Nuclear Reactor Regulation.

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

DATE: Weeks of May 25, June 1, 8, and 15, 1998.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of May 25

Friday, May 29

11:00 a.m. Affirmative Session (Public Meeting) (if needed)

1:00 p.m. Briefing on Investigative Matters (Closed—Ex. 5 and 7)

Week of June 1—Tentative

Tuesday, June 2

8:00 a.m. Briefing on Remaining Issues Related to Proposed Restart of Millstone Unit 3. (Public Meeting) (Contact: Bill Travers 301–415–1200)

1:00 p.m. (Continuation of morning meeting on Millstone)

Wednesday, June 3

3:30 p.m. Affirmation Session (Public Meeting) (if needed)

Thursday, June 4

2:00 p.m. Briefing by NEI and NRC Staff on Safety Evaluations, FSAR Updates and Incorporation of Risk Insights

Friday, June 5

10:00 a.m. Briefing by EPRI on the Status of their Advanced Light Water Reactor (ALWR) Program (Public Meeting)

Week of June 8—Tentative

Thursday, June 11

11:30 a.m. Affirmation Session (Public Meeting) (if needed)

Friday, June 12

10:00 a.m. Briefing by Reactor Vendors Owners' Groups (Public Meeting) (Contact: Bryan Sheron, 301–415–1274)

Week of June 15—Tentative

Wednesday, June 17

10:00 a.m. Briefing by National Mining Association on Regulation of the Uranium Recovery Industry (Public Meeting)

11:30 a.m. Affirmation Session (Public Meeting) (if needed)

2:00 p.m. Meeting with Advisory Committee on Medical Uses of Isotopes (ACMUI) and Briefing on Part 35 (Public Meeting) (Contact: Larry Camper, 301–415–7231).

* The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (recording)—(301) 415–1292. Contact person for more information. Bill Hill (301) 415–1661.

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 23203; 812–11050]

The Dreyfus/Laurel Funds, Inc., et al. Notice of Application

May 22, 1998.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of an application under section 17(b) of the Investment Company Act of 1940 (the "Act") for an exemption from section 17(a) of the Act.

Summary of the Application: Applicants request an order to permit a series of Dreyfus Index Funds, Inc. to acquire all of the assets and liabilities of a series of Dreyfus/Laurel Funds, Inc.

Applicants: The Dreyfus/Laurel Funds, Inc. ("Company") and Dreyfus Index Funds, Inc. ("Index Funds").

Filing Dates: The application was filed on March 6, 1998, and amended on May 20, 1998.

Hearing or Notification of Hearing: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving the applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on June 16, 1998, and should be accompanied by proof of service on the applicants in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, N.W., Washington, D.C. 20549. Applicants, 200 Park Avenue, New York, New York, 10166.

FOR FURTHER INFORMATION CONTACT: Annmarie J. Zell, Staff Attorney, (202) 942–0532, or Mary Kay Frech, Branch Chief, (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch, 450 Fifth

Street, N.W., Washington, D.C. 20549 (telephone (202) 942–8090).

Applicants' Representations

1. The Index Funds, a Maryland corporation, is registered under the Act as an open-end management investment company. The Dreyfus International Stock Index Fund ("Acquiring Fund") is one of three series of Index Funds. The Company, a Maryland corporation, is registered under the Act as an open-end management investment company. The Dreyfus International Equity Allocation Fund ("Acquired Fund") is one of eighteen series of the Company.

2. Dreyfus Corporation ("Dreyfus"), an investment adviser registered under the Investment Advisers Act of 1940, serves as investment adviser for both the Acquiring Fund and the Acquired Fund. Dreyfus is a wholly owned subsidiary of Mellon Bank, N.A. ("Mellon Bank"), which is a wholly owned subsidiary of Mellon Bank corporation. As of March 30, 1998, Mellon Bank directly or indirectly owned with power to vote approximately 71% of the outstanding shares of the Acquired Fund, 33% of which Mellon directly owned in a fiduciary capacity and 38% of which Mellon directly or indirectly owned (but not in a fiduciary capacity). Also, as of March 30, 1998, Mellon owned approximately 92% of the outstanding voting securities of the Acquiring Fund.

3. The Acquired Fund issues two classes of shares, Investor shares and Restricted shares, which are identical except with respect to services and expenses. Investor shares are subject to rule 12b–1 fees and are offered to any investor. Restricted shares are sold primarily to bank trust departments and other financial service providers acting on behalf of customers who have a qualified trust or investment account or relationship at the institution, or to customers who have received and hold shares of the Acquired Fund distributed to them by virtue of such an account or relationship. The Acquiring Fund offers a single class of shares. These shares are sold to any investor and are subject to shareholder service fees and a redemption fee. Shares of the Acquiring Fund received by former shareholders of the Acquired Fund will not be subject to the redemption fee. Both Acquired Fund shares and Acquiring Fund shares are sold without a front-end or deferred sales charge.

4. On January 28, 1998, and February 11, 1998, respectively, the boards of directors of the Company and the Index Funds ("Boards"), including their disinterested directors, unanimously approved an Agreement and Plan of Reorganization ("Agreement") pursuant to which the Acquiring Fund will acquire all of the assets and liabilities of the Acquired Fund in exchange for shares of the Acquiring Fund having an aggregate net asset value equal to the assets transferred minus the liabilities of the Acquired Fund ("Reorganization"). The Acquired Fund will endeavor to discharge all of its known liabilities and obligations prior to closing, presently expected to occur at the close of trading on the floor of the New York Stock Exchange on June 19, 1998 ("Closing Date").

5. The Acquired Fund's shareholders will receive shares, without class designation, of the Acquiring Fund. The number of full or fractional shares of the Acquiring Fund to be issued to the Acquired Fund will be determined by dividing the aggregate net asset value attributable to the Investor and Restricted shares of the Acquired Fund by the net asset value of one Acquiring Fund share. As soon as practicable after the Closing Date, the Acquired Fund will distribute the Acquiring Fund shares *pro rata* to its shareholders of record, determined as of the close of business on the Closing Date. As a result of the Reorganization, each Acquired Fund shareholder will receive Acquiring Fund shares having an equal net asset value to the shares held in the Acquiring Fund. After the distribution of the Acquiring Fund shares and the winding up of its affairs, the Acquired Fund will be terminated.

6. Each Board found that participation in the Reorganization is in the best interests of the relevant Acquiring Fund and Acquired Fund (collectively, "Funds") and that the interests of existing shareholders will not be diluted as a result of the Reorganization. In assessing the Reorganization, the Boards considered: (a) the relative past growth in assets and investment performance of the Funds; (b) the future prospects of the Funds, both under circumstances where they are not reorganized and where they are reorganized; (c) the compatibility of the investment objectives, policies and restrictions of the Acquiring Fund and the Acquired Fund; (d) the effect of the Reorganization on the expense ratios of each Fund based on a comparison of the expense ratios of the Acquiring Fund with those of the Acquired Fund on a "pro forma" basis; (e) the costs of the Reorganization to the Funds; (f) whether any future cost savings could be achieved by combining the Funds; (g) the tax-free nature of the Reorganization; and (h) alternatives to the Reorganization. In considering the Reorganization, each Board noted that the investment objectives, policies and restrictions of the Acquiring Fund and the Acquired Fund are similar.

7. Prior to the Closing Date, the Acquired Fund will declare a dividend and/or other distributions so that all taxable income and realized net gain are distributed for the current taxable year through the Closing Date and prior taxable years. If the Reorganization is consummated, the Funds will bear the expenses of the Reorganization *pro rata* according to their respective net assets as of the Closing Date, or if the Reorganization is not consummated, as of the date the Reorganization is abandoned.

8. On March 4, 1998, a registration statement on Form N–14 containing a preliminary combined prospective/proxy statement, was filed with the SEC. A final prospective/proxy was mailed to shareholders of the Acquired Fund on or about April 14, 1998, for their approval at a meeting scheduled to be held on June 9, 1998.

9. The Reorganization is subject to the following conditions: (a) receipt of the affirmative vote of two-thirds of the votes of the shareholders of the Acquired Fund; (b) the Acquiring Fund's and the Acquired Fund's receipt of opinions of counsel to the effect that the Reorganization will constitute a "reorganization" within the meaning of section 368 of the Internal Revenue Code of 1986, as amended, and as a consequence, the Reorganization will not result in federal income taxes for the Acquired Fund or the Acquiring Fund or their shareholder; and (c) the applicants have received exemptive relief from the SEC which is the subject of the application. Applicants agree not to make any material changes to the Agreement without prior SEC approval.

Applicants' Legal Analysis

1. Section 17(a) of the Act generally prohibits an affiliated person of a registered investment company, or an affiliated person of such a person, acting as principal, from selling any security to, or purchasing any security from the company. Section 2(a)(3) of the Act defines an "affiliated person" or another person to include (a) any person that owns 5% or more of the outstanding voting securities of such other person, (b) any person 5% or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote by such other person, (c) any person directly or indirectly controlling, controlled by or under common control with the other person, and (d) if such other person is an investment company, any investment adviser of that company.

Rule 17a–8 under the Act exempts from the prohibitions of section 17(a) mergers, consolidations, or purchases or sales of substantially all of the assets of registered investment companies that are affiliated persons solely by reason of having a common investment adviser, common directors/trustees, and/or common officers, provided that certain conditions set forth in the rule are satisfied.

3. Applicants believe that they may not rely on rule 17a–8 because the Funds may be affiliated for reasons other than those set forth in the rule. Dreyfus, a wholly owned subsidiary of Mellon Bank, serves as investment adviser to both Funds. Mellon Bank directly or indirectly owns with power to vote approximately 71% of the outstanding shares of the Acquired Fund and approximately 92% of the outstanding shares of the Acquiring Fund. Because of this ownership, the Acquiring Fund may be deemed an affiliated person of an affiliated person of the Acquired Fund and vice versa under sections 2(a)(3)(B) and 2(a)(3)(C) of the Act.

4. Section 17(b) of the Act provides that the SEC may exempt a transaction from the provisions of section 17(a) if the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

5. Applicants submit that the terms of the Reorganization satisfy the standards set forth in section 17(b), Applicants note that the Boards, including the disinterested directors, found that participation in the Reorganization is in the best interests of each Fund and that the interests of the existing shareholders of each Fund will not be diluted as a result of the Reorganization. Applicants also note that the exchange of the Acquired Fund's shares for the Acquiring Fund's shares will be based on the Fund's relative net asset values and that the Reorganization will be effected on a tax-free basis.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–M

SOCIAL SECURITY ADMINISTRATION

Information Collection Activities: Comment Requests

This notice lists information collection packages that will require submission to the Office of Management and Budget (OMB), as well as information collection packages submitted to OMB for clearance, in compliance with PL. 104–13 effective October 1, 1995, The Paperwork Reduction Act of 1995. The information collection(s) listed below have been submitted to OMB:

1. Representative Payee Evaluation Report—0960–0069. The information on Form SSA–624 is used by SSA to accurately account for the use of Social Security benefits and Supplemental Security Income (SSI) payments received by representative payees on behalf of an individual. The respondents are individuals and organizations, who (as representative payees) received Form SSA–623/6230 and failed to respond, provided unacceptable responses which cannot be resolved or reported a change in custody.

Number of Respondents: 250,000
Frequency of Response: 1
Average Burden Per Response: 30 minutes
Estimated Average Burden: 125,000 hours

2. Request for Address Information from Motor Vehicles Records; and Request for Address Information from Employment Commissions Records—0960–0341. The information on Forms SSA–L711 and L712 is used by SSA to determine the current address for missing debtors. The respondents are State agencies who have entered into agreements with SSA to provide the requested information.

	SSA–L711	SSA–L712
Number of Respondents.	1,300	1,100.
Frequency of Response.	1	1.
Average Burden Per Response.	2 minutes	2 minutes.
Estimated Annual Burden.	43 hours ..	37 hours.

3. Disability Report—0960–0579. The information collected on Form SSA–3368 is needed for the determination of disability by the State Disability Determination Services. The information will be used to develop medical evidence and to assess the alleged disability. The respondents are applicants for disability benefits.

Number of Respondents: 2,438,500
Frequency of Response: 1
Average Burden Per Response: 30 minutes
Estimated Annual Burden: 1,219,250 hours

4. Work History Report—0960–0578. The information collected on Form SSA–3369 is needed for the determination of disability by the State Disability Determination Services. The respondents are applicants for disability benefits. The information will be used to document an individual's past work history.

Number of Respondents: 1,000,000
Frequency of Response: 1
Average Burden Per Response: 30 minutes
Estimated annual Burden: 500,000 hours

5. Medical History and Disability Report, Disabled Child-0960–0577. The information collected on Form SSA–3820 is needed for the determination of disability by the State Disability Determination Services. The SSA–3820 will be used to obtain various types of information about a child's condition, his/her treating sources and/or other medical sources of evidence. The respondents are applicants for disability benefits.

Number of Respondents: 523,000
Frequency of Response: 1
Average Burden Per Response: 40 minutes
Estimated Annual Burden: 348,667 hours

6. Child-Care Dropout Questionnaire—0960–0474. The information on Form SSA–4162 is used by SSA to determine whether zero earnings years can be dropped out when computing a claimant's benefit. The respondents are applicants for Disability Insurance benefits, who may qualify for a higher primary insurance amount because of having a child in care for certain years.

Number of Respondents: 2,000
Frequency of Response: 1
Average Burden Per Response: 5 minutes
Estimated Average Burden: 167 hours

Written comments and recommendations regarding the information collection(s) should be directed within 30 days to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses:

(OMB)

Office of Management and Budget, OIRA, Attn: Laura Oliven, New Executive Office Building, Room 10230, 725 17th St., NW., Washington, D.C. 20503.

(SSA)

Social Security Administration, DCFAM, Attn: Frederick W. Brickenkamp, 1–A–21 Operations Bldg., 6401 Security Blvd., Baltimore, MD 21235.

To receive a copy of any of the forms or clearance packages, call the SSA Reports Clearance Officer on (410) 965–4145 or write to him at the address listed above.

Dated: May 21, 1998.

Frederick W. Brickenkamp,

Reports Clearance Officer, Social Security Administration.

BILLING CODE 4190–29–P

DEPARTMENT OF STATE

Bureau of Public Affairs

[Public Notice #2826]

Advisory Committee on Historical Diplomatic Documentation Notice of Charter Renewal and Meeting

The Advisory Committee on Historical Diplomatic Documentation renewed its charter on March 18, 1998. This Advisory committee will continue to make recommendations to the Historian and the Department on all aspects of the *Foreign Relation's* program as well on the Department of State's responsibility under the statute to open its 30-year old and older records for public review at the National Archives and Record Administration. The Committee consists of nine members drawn from among historians, political scientists, archivists, international lawyers and other social scientists who are distinguished in the field of U.S. Foreign Relations.

The Committee will meet next in the Department of State, 2201 "C" Street NW, Washington, DC, June 23–24, 1998, in Conference Room 1205. Procedures for declassification of Department records and problems relating to the preparation of the *Foreign Relations of the United States* documentary series will be discussed at the meeting.

The Committee will meet in open session from 9 a.m. through Noon on Tuesday, June 23, 1998. The remainder of the Committee's sessions from 1:45 p.m. on Tuesday, June 23, 1998 until 5 p.m. on Wednesday, June 24, 1998 will be closed in accordance with Section 10(d) of the Foreign Advisory Committee Act (Pub. L. 92–463). The agenda calls for discussions involving consideration of matters not subject to public disclosure under 5 U.S.C. 552b(c)(1), and the public interest requires that such activities be withheld from disclosure.

Entry to the building is controlled and will be facilitated by advance arrangements. Members of the public desiring access to the open session should, by Thursday, June 18, 1998, notify Gloria Walker, (202) 663–1124, Office of the Historian, of their name, Social Security number, date of birth, professional affiliation, address, and telephone number in order to arrange admittance. This includes both government and non-government admittance. All attendees must use the "C" Street entrance. One of the following valid ID's will be required for admittance: any U.S. driver's license with photo, a passport, or a U.S. Government agency ID.

Questions concerning the meeting should be directed to William Z. Slany, Executive Secretary, Advisory Committee on Historical Diplomatic Documentation, Department of State, Office of the Historian, Washington, DC, 20520, telephone (202) 663–1123, (e-mail *pahistoff@panet.us-state.gov*).

Dated: May 14, 1998.

William Z. Slany,

Executive Secretary, Office of the Historian.

[FR Doc. 98–14262 Filed 5–28–98; 8:45 am]

BILLING CODE 4710–11–M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of the Initiation of a Railroad Research and Development Grant Program in Cooperation with Academic Research Institutions

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of initiation of grant program and funds availability.

SUMMARY: FRA announces the initiation of a railroad research and development grant program in cooperation with academic research institutions ("Program"). This Program is intended to foster long-range enhancement of FRA's program of research in support of rail transportation by developing cooperative research relationships between the FRA and selected university research organizations. The FRA seeks, via this announcement, to identify specific academic research institutions (broadly referred to hereinafter as universities) that may have expertise useful in complementing the established research program of FRA's Office of Research and Development (OR&D). Selected universities will be expected to buttress FRA's current research program that now operates principally in coordination with non-academic entities.

Funding Authority and Related Information

This program is being undertaken utilizing funds in the Department of Transportation and Related Agencies Appropriations Act for Fiscal Year 1998 (Pub. L. 105–66), dated October 27, 1997. FRA anticipates awarding a small number of grants (whose combined value is not to exceed approximately $1,000,000, in the aggregate, in Fiscal Year 1998) for approved university research. Applicants are also encouraged to consider sharing the cost of their proposed projects or identifying in-kind contributions. The FRA intends to focus the initial funding associated with this notice on various research and development (R&D) areas of interest relating to or under the general heading of rail safety. In the event future appropriated funds are authorized for the Program, FRA may, at its discretion, provide additional funding for research. Such future grants may focus on rail safety or other rail and adjunct transportation research areas, such as traffic control and intelligent transportation systems.

Eligible Participants

Accredited universities, colleges, major academic research institutions, and other public or private academic institutions of higher learning. All otherwise eligible entities must also have demonstrable specialized expertise in rail transportation research, and have a minimum of five years of railroad or rail-related research experience. Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs) fitting this description are encouraged to apply. However, no portion of this Program will be set aside exclusively for HBCUs and MIs.

Exchanges and Points of Contact

Exchanges of information between interested parties and the Government, prior to submission of an application for consideration under the Program, are strongly encouraged. Such informal exchanges may provide prospective applicants with preliminary information on the Government's level of interest in prospective works or projects or on the availability of funds. Any exchanges of information must be consistent with all applicable statutory or regulatory procurement integrity requirements. Technical inquiries regarding this notice may be directed to: Dr. Magdy El-Sibaie,

Office of Research and Development, Mail Stop 20, 400 7th St. S.W., Washington, DC 20590, TEL 202–632–3259, FAX 202–632–3854. Requests for forms and administrative questions regarding this solicitation may be directed to: Ms. Jill Shohet, Office of Research and Development, Mail Stop 20, 400 7th St. SW, Washington, DC 20590, TEL 202–632–3284, FAX 202–632–3854, e-mail: Jill.Shohet@FRA.DOT.GOV.

Program Applications

To be considered for inclusion in the grouping of selected "pre-qualified" universities and subsequent award of grants/cooperative agreements to be awarded under the Program, eligible applicants must submit a Program Application. Program Applications—which consist of two sections: University Profile and Proposed Research Projects (from the Areas of Interest)—may be obtained by submitting a written or electronic request (facsimile requests will be honored) to the administrative point of contact identified above, Ms. Shohet. Requests for application forms may be submitted as of the date of (electronic or printed) publication of this Notice.

Evaluation and Selection Process

Applications will be evaluated/selected by FRA using a three-step process. In the first step, applications will be evaluated (using the information from Application Section I—University Profile) to assess the applicant's eligibility (as an accredited institution of higher learning), demonstrated specialized expertise in rail transportation research (e.g., technical capabilities and depth of experience of key personnel or principal investigators), and experience in railroad or rail-related research, all as evidenced by cited research contracts/grants, published papers or dissertations related to railroad technology, railroad research and test facilities and/or staff with actual railroad experience of five or more years of railroad research. Applicants having satisfactory eligibility, background and experience requirements will then be advanced to the second step, and applications will be reviewed within the context of proposed projects (from Application Section II—Proposed Research Projects). Each proposed project—from the Areas of Interest—will be evaluated based on the following criteria (which are listed in descending order of relative importance): (1) Its overall scientific and/or technical merit; (2) The degree to which it may improve upon or advance railroad safety; (3) The likelihood for its near term adoption and implementation of possible recommendations; (4) The degree with which the proposed project fits into the FRA's overall research objectives; and (5) The reasonableness and realism of the proposed cost, and the availability of funds (to include due consideration for proposed cost-sharing (cash or in-kind contributions) by the applicant). Applicants having advanced from the first step and whose applications contain one or more proposed projects determined by FRA to have fully satisfied the evaluation/selection criteria in the second step, will be advanced to the third step of evaluation/selection. In the third and final step, all applicants will be ranked in order of preference, which for the purposes of this Program will mean a rank order listing of applicants who, in the FRA's judgement, have the highest to the lowest rated qualifications and the most to the least probability for success under the Program (with due consideration to background, personnel, experience and facilities or other resources identified), and the degree to which one or more of their proposed projects are of interest to the FRA as potential grant or cooperative agreement awards (with due consideration to the stated project evaluation criteria). From this order of rank listing, FRA will establish a group of selected universities (initially numbering eight or fewer) that will thereafter be considered "pre-qualified" to perform solicited or approved research projects. At the conclusion of the evaluation/selection process, FRA will notify all applicants of the agency's determination and their status (i.e., acceptance or non-acceptance into the Program). Applicants not selected under the cutoff in the third step, but meeting the minimum requirements under steps one and two, will have their applications retained by FRA for one year for possible future consideration as replacements or add-ons to the initial pre-qualified grouping of selected universities.

Future Program Awards

Any subsequent grant or cooperative agreements entered into under the Program will be on an individual award basis. Pre-qualification will not guarantee selected universities that any FRA research projects or funding will be forthcoming at any time during the period of Program affiliation. However, FRA will only fill actual Program requirements for work through those universities in the pre-qualified grouping selected hereunder. Solicitation of actual requirements for work identified by FRA or requests for project proposals initiated by the FRA, will be at the sole discretion of the FRA, and may be conducted on a fully competitive (i.e., for the purposes of this Program, open to all pre-qualified universities), partially competitive (i.e., for the purposes of this Program, open to two or more pre-qualified universities), or sole source basis (i.e., for the purposes of this Program, limited to a single pre-qualified university). The method of in-house solicitation (i.e., competitive or non-competitive) and subsequent choice for award will be based on FRA's preliminary assessments of the pre-qualified university(s)'s qualifications and capabilities (with regards to the work requirement or project being solicited), past performance under the Program, and its determination on the suitability and probability for success of any one or more pre-qualified universities, and on the availability of funding. Research projects may also be proposed (without a solicitation from the FRA) by pre-qualified universities any time during the period of Program affiliation. Research projects proposed by pre-qualified universities will be considered by FRA employing the same selection criteria used under this Notice in evaluating the initial proposal(s) submitted for consideration for both inclusion in the pre-qualified grouping/Program and as probable future projects. (See the five selection criteria under the heading "Evaluation and Selection Process.") FRA may use projects initially proposed in the selection process, as well as those subsequently proposed by pre-qualified universities, as the basis for solicitation of more in-depth technical and/or cost proposals, the submission of formal applications for assistance (e.g. SF 424—Application for Federal Assistance, SF 424A—Budget Information (Non-Construction Programs), etc.) and subsequent award of financial assistance. The determination to approve or disapprove, and fund or not fund a research project proposed by a pre-qualified university is at the sole and final discretion of the FRA. Each approved project will stand independently as a separate award. The specific terms and conditions of potential awards will be identified in the solicitation. Generally speaking, by entering into a financial assistance agreement, pre-qualified universities/prospective recipients will be subject to 49 CFR, part 19—Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, OMB Circular A–21—Cost Principles for Educational

Institutions, and OMB Circular A–133—Audits of States, Local Governments, and Non-Profit Organizations. Unless a university loses its eligibility to participate (e.g., Government debarment or suspension (non-procurement)), or the Government has other sufficient cause for termination, or the parties mutually agree to dissolve the pre-qualified status, pre-qualified universities will be considered to be affiliated with the Program and will remain eligible to receive FRA grant/cooperative agreement awards, as described above, for a period of up to three years from the date of notification of acceptance into the Program.

Areas of Interest

The following are areas of current FRA research interest. The subjects listed here identify the breadth of FRA research activities in support of its safety mandate. Applicants should prepare and submit as part of their application, proposed projects in one or more of the listed areas of interest for which they are qualified to perform.

Note: Applicants may propose more than one project per area of interest, but the total number of all proposed projects may not exceed five.

Proposed projects may in and of themselves serve as the basis for initial solicitations and awards following the FRA's evaluation of applications and selection of pre-qualified universities. Each project proposal should be a brief, yet comprehensive and fully descriptive overview of the project. Each project proposal should be five pages or less, one-sided, 10- to 12-point type or font, single spaced, and numbered. To facilitate evaluation, project proposals should be formatted using the basic outline set forth in Section II of the application form. (To obtaine a copy of the application form, see information under the heading "Exchanges and Points of Contact.")

1. Modeling and Simulation of Vehicle/Track Interaction

This research activity involves the development of a comprehensive computer program for modeling and simulating railway vehicle/track systems with an emphasis on the dynamic performance of both vehicle and track and their interaction through the wheel/rail interface. The primary goal is to enhance the government capability for modeling and simulating the dynamic performance of a user-defined vehicle/track system. This computer program will be used by the FRA and other government and regulatory agencies in rail related safety studies and in accident investigations, among other uses.

2. Smart Transducers and Monitoring Devices for Railroad Safety Inspection

This research activity focuses on the development of software and hardware tools for the deployment of smart transducers and devices for monitoring the safety of track and rolling stock. Emphasis will be on intelligent sensors and associated logic that are capable of frequent and economic inspection of track and rolling stock and communicating safety hazards in the form of exceptions to remote sites. In addition to innovations in sensor technologies, complementary pattern recognition algorithms, based on methods such as neural networks and statistical techniques, shall be explored. The objective of this research will be to improve the quality and efficiency of track and rolling stock safety inspection.

3. Advanced Techniques for Detecting and Repairing Weak Track Spots

This research activity is for the development of automated techniques for identifying spots along the track structure that suffer from rapid deterioration in geometry and/or strength. Such weak track spots often develop along track due to many factors, such as weak subgrade, poor drainage, and poor ballast conditions, resulting in high track maintenance costs. The often resulting rapid rate of track geometry and/or strength deterioration may produce a safety hazard. Research efforts should also consider the development of methods and techniques for an economic and effective repair of such weak spots based on the diagnosed track condition.

4. Automated Track Bed Subsurface Evaluation

Track subsurface layers (ballast, sub-ballast, and subgrade) are key factors in the overall track performance and rate of degradation. Poor subsurface conditions can lead to adverse redistribution of loads with the track system, which could in turn lead to overloading of some track components and premature elements failures, or even collapse of the track roadbed. This uneven degradation of components results in costly maintenance, and adversely affects track safety. Thus, although ballast, sub-ballast, and subgrade are key track components that warrant monitoring, these subsurface conditions are not amenable to the current visual methods. In addition, there is no practical methodology currently available for rapid subsurface data acquisition for the evaluation of the engineering properties of soil, accurate determination of location and extent of deteriorated conditions. The principal objectives of this activity are automated data acquisition for soil classification and evaluation of its engineering properties, and the measurement of other pertinent parameters such as in-situ density and moisture content. In this regard, new emerging technologies such as ground penetrating radar may offer the promise of significant improvement by using nondestructive evaluation (NDE) techniques. If successful in accomplishing these objectives, the study would improve the effectiveness of track maintenance, and contribute significantly to the ongoing predictive track degradation model development.

5. Reliability Design and Analysis

Tank car accidents, tank car structural failures in components of railroad tank cars suggest that measures of reliability should be better defined. Subsequently, detailed reliability assessment of individual components and component subsystems should be performed that will lead to improved accident performance. Although catastrophic failure is easily recognized, tank car performance as a safe packaging of hazardous materials may deteriorate over time and elements contributing to this deterioration (per-existing defects, corrosion, cracks, pitting, etc.) need documentation. This research activity will focus on the development of a methodology to assess the failure mode. It may consist of parameters needed to establish structural integrity requirements based on value engineering analysis, previous failure experiences and studies. The methodology will consider establishing a level of reliability of a tank car design for the intended service. The development of a methodology that considers expected life, failure rates and hazard functions and which can combine these variables into an overall tank car "strength" function can be extremely useful. The results of such an assessment can quantitatively provide the tank car owner with information that may be used to define boundaries of reliability, allowing the tank car owner to implement guidelines for maintenance and use that lead to improved safety performance. This research activity is also concerned with reliability and safety performance aspects of other types of railroad cars and railroad operations and maintenance practices.

6. Epidemiology of Post-Accident Stress in Locomotive Engineers

It is well established that individuals who are involved in serious accidents or other situations involving loss of life undergo post-traumatic stress disorder (PTSD). PTSD has been documented in police officers, firemen, and rescue workers, and, because of the debilitating effects of PTSD, mandatory counseling is often provided for individuals who are involved in traumas. Informal discussions with locomotive engineers indicates that during the course of a career most locomotive engineers experience a traumatic grade crossing accident. At present there is no industry approach to PTSD in locomotive engineers, although anecdotal information suggests that safety may be compromised if counseling is not provided. However, the number of locomotive engineers who experience PTSD is not known, and consequently the need for resources to address this problem is also not known. This project will determine the descriptive epidemiology (incidence and prevalence) of PTSD in locomotive engineers so that the magnitude of the problem can be scientifically established.

Application Submission and Deadline

In preparing application submissions, applicants are reminded to carefully read this entire Notice and to comply with all content, format and time requirements. An original and four (4) copies of each application should be submitted to the following address: Ms. Jill Shohet, Office of Research and Development, Mail Stop 20, 400 7th St. SW, Washington, DC 20590. Neither electronic nor facsimile submissions will be accepted. Applications will be reviewed as they are received. For applicants to receive full consideration, applications must be received by the FRA at the above address on or before July 17, 1998.

Dated: May 26, 1998.

James T. McQueen,

Associate Administrator for Railroad Development.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA 98–3875]

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Request for public comment on proposed collections of information.

SUMMARY: This document describes three collections of information for which NHTSA intends to seek OMB approval. Under new procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval to collect information from the public, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections. Each of the collections for which this document requests comment has been previously approved.

DATES: Comments must be received on or before July 28, 1998.

ADDRESSES: Comments must refer to the docket and notice numbers cited at the beginning of this notice and be submitted to NHTSA's new Docket Management Facility, located on the Plaza Level of the Nassif Building at the U.S. Department of Transportation, Room PL–01, 400 Seventh Street, SW, Washington, DC 20590–0001. Please identify the proposed collection of information for which a comment is provided, by referencing its OMB Clearance Number. The DOT Docket is open to the public from 10 am to 5 pm, Mondays through Fridays.

FOR FURTHER INFORMATION CONTACT: Complete copies of each request for collection of information may be obtained at no charge from Mr. Michael Robinson, NHTSA Information Collection Clearance Officer, NHTSA, 400 Seventh Street, SW, Room 6123, Washington, DC 20590. Mr. Robinson's telephone number is (202) 366–9456. Please identify the relevant collection of information by referring to its OMB Clearance Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulations (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks public comment on the following proposed collections of information:

49 CFR Part 552

Petitions for Rulemaking, Defect and Noncompliance Orders

Type of request—Extension of existing clearance.

OMB Clearance Number—2127–0046.

Form Number—This collection of information uses no standard forms.

Requested Expiration Date of Approval—Three years after date of expiration of existing clearance.

Summary of the Collection of Information—49 U.S.C. section 30162 specifies that any "interested person may file a petition with the Secretary of Transportation requesting the Secretary to begin a proceeding" to prescribe a motor vehicle safety standard under 49 U.S.C. chapter 301, or to decide whether to issue an order under 49 U.S.C. section 30118(b). 49 U.S.C. 30111 gives the Secretary authority to prescribe motor vehicle safety standards. 49 U.S.C. section 30118(b) gives the Secretary authority to issue an order to a manufacturer to notify vehicle or equipment owners, purchasers, and dealers of the defect or noncompliance and to remedy the defect or noncompliance.

Section 30162 further specifies that all petitions filed under its authority shall set forth the facts which it is claimed establish that an order is necessary and briefly describe the order the Secretary should issue.

To implement these statutory provisions, NHTSA promulgated part

552 according to the informal rulemaking provisions of the Administrative Procedure Act (5 U.S.C. 553 *et seq.*) This regulation allows the agency to ensure that the petitions filed under section 30162 are both properly substantiated and efficiently processed.

Description of the Need for the Information and Proposed Use of the Information—Under Part 552, any person has a statutory right to petition the agency to issue an order under section 30162. When NHTSA receives such a petition, the agency's technical staff reviews the petition to determine whether there is a reasonable possibility that the requested order will be issued at the end of the appropriate proceeding. If the agency reaches such a conclusion, the petition is granted and NHTSA promptly commences the appropriate proceeding to issue the order. The petition is denied if NHTSA cannot conclude that there is a reasonable possibility that the order will be issued at the end of the appropriate proceeding. NHTSA is required to grant or deny any petitions within 120 days after agency receipt of the petition (49 U.S.C. 30162(d)). NHTSA uses the information in the petition, together with other information it may have or obtain, to decide whether to grant or deny the petition.

Absent part 552, any person would still have a statutory right to file a petition requesting the agency to issue an order. The difference would be that the person preparing the petition would not know how to properly file such a petition and what information should be included in the petition. Further, without part 552, it would take the agency much longer to evaluate these petitions. Some of the petitions for rulemaking filed under part 552 ask for complex technical changes to our safety standards that require the agency to conduct testing or other research to learn if the petitions' allegations are accurate. If these petitions were not filed in accordance with some specified uniform procedures, the agency would not be able to meet the 120 day statutory deadline for granting or denying the petitions.

Description of the Likely Respondents (Including Estimated Number and Proposed Frequency of Response to the Collection of Information)—Under part 552, any person has a statutory right to petition the agency to issue an order under section 30162. Petitions may be filed by any person, including private individuals and small or large businesses. The requirements are the same no matter who files the petition.

NHTSA does not require any person to file a petition under part 552. Therefore, whether to file a petition, and the frequency of petitions filed, is entirely at the discretion of each petitioner.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting from the Collection of Information—

NHTSA estimates that there are no more than 100 of these petitions filed annually. In most years fewer than this number of petitions are filed. However, we will use this higher total to ensure that this estimate does not understate the burden for the public.

Frequently, the petitions filed under Part 552 consist of no more than one typewritten page. NHTSA believes very little total time is needed to prepare these petitions. However, some of the petitions set forth lengthy technical arguments and may require several hours to prepare. Overall, NHTSA estimates that the average length of time needed to prepare and file these petitions is one hour. Multiplying this one hour by the 100 petitions filed each year, we estimate that the burden associated with these petitions is 100 hours each year.

49 CFR Part 557

Petitions for Hearings on Notifications and Remedy on Defects

Type of Request—Extension of existing clearance.

OMB Control Number—2127–0039.

Form Number—This collection of information uses no standard forms.

Requested Expiration Date of Approval—Three years after date of expiration of existing clearance.

Summary of the Collection of Information—NHTSA's statutory authority at 49 U.S.C. sections 30118(e) and 30120(e) specifies that, "on petition of any interested person," NHTSA may hold hearings to determine whether a manufacturer of motor vehicles or motor vehicle equipment has met its obligation to notify owners, purchasers, and dealers of vehicles or equipment of a defect or noncompliance and to remedy a defect or noncompliance for Federal Motor Vehicle Safety Standards for some of the products the manufacturer produces.

To address these areas, NHTSA has promulgated 49 CFR part 557, *Petitions for Hearings on Notification and Remedy of Defects*, which adopts a uniform regulation that establishes procedures to provide for submission and disposition of petitions, and to hold hearings on the issue of whether the manufacturer has met its obligation to notify owners, distributors, and dealers of safety related defects or noncompliance and to remedy the problems by repair, repurchase, or replacement.

Description of the Need for the Information and Proposed Use of the Information—NHTSA never requires any person to file a petition under Part 557. Filing a petition, and providing the information is done entirely at the discretion of the petitioner.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information)—NHTSA estimates that approximately 21 petitions are filed per year. Since petitions are filed entirely at the discretion of the petitioner, each person may file as few or as many petitions as it chooses.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting from the Collection of Information—Annual costs to the petitioners can be estimated as follows: About 21 petitions for hearings on notification and remedy of defects are filed each year. Based on the length of the petitions (usually 3–4 typewritten pages) and the amount of documentation included, NHTSA estimates that it would take a petitioner about one hour to prepare one of these petitions. Multiplying this one hour burden by the 21 petitions filed annually yields an estimated annual burden of 21 hours for the petitioners under part 557. If we assume a value of $20 per hour, the annual cost of preparing these petitions is about $42. Adding in the postage cost of $6.72 (21 petitions, at a cost of 32 cents to mail each one), we estimate that it costs petitioners about $427 annually to prepare and submit these petitions for hearings on notification and remedy of defects.

There are no recordkeeping costs to the petitioners.

49 CFR Part 512

Confidential Business Information

Type of Request—Extension of existing clearance.

OMB Control Number—2127–0025.

Form Number—This collection of information uses no standard forms.

Requested Expiration Date of Approval—Three years from date of approval.

Summary of the Collection of Information—NHTSA's statutory authority at 49 CFR chapter 301 prohibits, with certain exceptions, the agency from making public confidential information which it obtains. On the other hand, the Administrative Procedure Act requires all agencies to

make public all non-confidential information upon request. (5 U.S.C. section 552) and all agency rules to be supported by substantial evidence in the public record (5 U.S.C. section 706). It is therefore very important for the agency to promptly determine whether or not information it obtains should be accorded confidential treatment.

NHTSA therefore promulgated 49 CFR part 512 *Confidential Business Information* to establish the procedure by which NHTSA will consider claims that information submitted to the agency, or which it otherwise obtains, is confidential business information. Because of part 512, both NHTSA and the submitters of information for which confidential treatment is requested are now able to ensure that confidentiality requests are properly substantiated and expeditiously processed.

Description of the Need for the Information and Proposed Use of the Information—Confidential information is obtained by the agency for use in all of its activities. These include investigations, rulemaking actions, program planning and management, and program evaluation. The confidential information is needed to ensure the agency has all the relevant information for decision making in connection with these activities.

If part 512 were not in existence, the agency would still get this confidential information, either provided voluntarily by the manufacturers or through its information gathering powers. The only difference would be that the determinations of whether the information should be accorded confidential treatment would be more expensive and time consuming for both the manufacturers and the agency.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information—The number of potential submitters of claims for confidential treatment of information is 3,000. This includes 1,000 vehicle manufacturers and 2,000 equipment manufacturers. The decision whether to request confidential treatment of information provided to NHTSA is entirely at the discretion of the manufacturer. In a typical year, NHTSA receives about 150 requests for confidential treatment of information, almost all of which are from large businesses.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting from the Collection of Information—As earlier stated, in a typical year, NHTSA receives about 150 requests for confidential treatment of information. Almost all of these requests come from large businesses. The justification for a request for confidential treatment consists of several statements and a certification by a responsible corporate official. In the case of submissions by large manufacturers, (which may consist of thousands of pages of information), NHTSA estimates it would take 4 hours to do the necessary background check to be able to submit the required justification. On the other hand, the typical small business that submits a single blueprint should need only about 5 minutes to fully comply with the regulation. To ensure that this estimate does not understate the burden the agency has assumed that all confidentiality requests are submitted by large manufacturers. Since they are not required to keep copies of the information provided to NHTSA, there are no recordkeeping costs to the manufacturers. The total burden hours associated with this collection of information is estimated at 600 hours.

Authority: 44 U.S.C. 3506(c); delegation of authority at 49 CFR 1.50.

Issued: May 22, 1998.

John Womack,

Acting Chief Counsel.

[STB Finance Docket No. 33571]

Wisconsin & Southern Railroad Co.—Lease and Operation Exemption—Soo Line Railroad; Company d/b/a Canadian Pacific Railway

The Wisconsin & Southern Railroad Co. (WSOR), an existing Class III rail carrier, has filed a notice of exemption under 49 CFR 1150.41 to lease from the Soo Line Railroad Company d/b/a Canadian Pacific Railway (CPR), and to operate a line of railroad known as the Waterloo Spur, extending from milepost 132.11 at Watertown, WI, to milepost 164.61 at Madison, WI, a total of 32.5 miles.

Pursuant to 49 CFR 1150.42(e), WSOR certified on May 7, 1998, that its annual revenues exceed $5 million and that it has, as of March 20, 1998, served the national offices of the labor unions with a copy of a notice of its intent to undertake this transaction and posted such notice at the workplace of the employees on the affected lines on March 23, 1998.

The transaction is expected to be consummated on or after June 1, 1998.[1]

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33571 must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW, Washington, DC 20423–0001. In addition, a copy of each pleading must be served upon Robert A. Wimbish, Rea, Cross & Auchincloss, Suite 570, 1707 L Street, NW, Washington, DC 20036.

Board decisions and notices are available on our website at "WWW.STB.DOT.GOV."

[1] The date of consummation under normal circumstances would be July 6, 1998 (60 days after WSOR's certification to the Board that it had complied with the Board's rule at 49 CFR 1150.42(e)). The Board, in a concurrently issued decision in this proceeding, has at the request of WSOR waived, in part, the 60-day period to allow consummation on June 1, 1998.

Decided: May 22, 1998.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

Internal Revenue Service (IRS)

OMB Number: 1545–0782.

Regulation Project Number: LR–7 Final (TD 6629).

Type of Review: Extension.

Title: Limitation on Reduction in Income Tax Liability Incurred to the Virgin Islands.

Description: The Tax Reform Act of 1986 repealed the mandatory reporting and recordkeeping requirements of section 934(d) (1954 Code). The prior exception to the general rule of section 934 (1954 Code) to prevent the Government of the Virgin Islands from granting tax rebates with regard to taxes attributable to income derived from sources within the U.S. was contingent upon the taxpayers compliance with the reporting requirements of section 934(d).

Respondents: Individuals or households, Business or other for-profit.

Estimated Number of Respondents/ Recordkeepers: 500.

Estimated Burden Hours Per Respondent/Recordkeeper: 22 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting/ Recordkeeping Burden: 184 hours.

OMB Number: 1545–1068.

Regulation Project Number: INTL–362–88 Final.

Type of Review: Extension.

Title: Definition of a Controlled Foreign Corporation, Foreign Base Company Income, and Foreign Personal Holding Company Income of a Controlled Foreign Corporation.

Description: The election and recordkeeping requirements are necessary to exclude certain high-taxed or active business income from subpart F income to include certain income in

UMI
VOL
63
ISS
103
MAY
29
1998
UMI

the appropriate category of subpart F income. The recordkeeping and election procedures allow the U.S. shareholders and the IRS to know the amount of the controlled foreign corporation's subpart F income.

Respondents: Business or other for-profit.

Estimated Number of Respondents/ Recordkeepers: 50,500.

Estimated Burden Hours Per Respondent/Recordkeeper: 1 hour.

Frequency of Response: Annually, Other (one-time currency election).

Estimated Total Reporting/ Recordkeeping Burden: 50,417 hours.

OMB Number: 1545–1132.

Regulation Project Number: INTL–536–89 Final.

Type of Review: Extension.

Title: Registration Requirements with Respect to Certain Debt Obligations; Application of Repeal of 30 Percent Withholding by the Tax Reform Act of 1984.

Description: The Internal Revenue Service needs the information in order to ensure that purchasers of bearer obligations are not U.S. persons (other than those permitted to hold obligations under section 165(j) and to ensure that U.S. persons holding bearer obligations properly report income and gain on such obligations.

Respondents: Business or other for-profit.

Estimated Number of Respondents/ Recordkeepers: 5,000.

Estimated Burden Hours Per Respondent/Recordkeeper: 10 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting/ Recordkeeping Burden: 852 hours.

OMB Number: 1545–1134.

Regulation Project Number: IA–141–83 Final (TD 8270).

Type of Review: Extension.

Title: Installment Method Reporting by Dealers in Personal Property.

Description: These regulations provide guidance with respect to the manner in which dealers are required to account for installment sales.

Respondents: Business or other for-profit.

Estimated Number of Recordkeepers: 50,000.

Estimated Burden Hours Per Recordkeeper: 10 hours.

Estimated Total Reporting/ Recordkeeping Burden: 500,000 hours.

OMB Number: 1545–1243.

Regulation Project Number: PS–163–84 Final.

Type of Review: Extension.

Title: Treatment of Transactions Between Partners and Partnerships.

Description: Section 707(a)(2) provides that if there are transfers of money or property between a partner and a partnership, the transfer will be treated, in certain situations, as a disguised sale between the partner and the partnership. The regulations provide that the partner or the partnership should disclose the transfers and certain attendant facts in some situations.

Respondents: Business or other for-profit.

Estimated Number of Respondents: 7,500.

Estimated Burden Hours Per Respondent: 20 minutes.

Frequency of Response: Annually.

Estimated Total Reporting Burden: 2,500 hours.

OMB Number: 1545–1331.

Regulation Project Number: PS–55–89 Final.

Type of Review: Extension.

Title: General Asset Accounts Under the Accelerated Cost Recovery System.

Description: The regulations describe the time and manner of making the election described in Internal Revenue Code (IRC) section 168(I)(4). Basic information regarding this election is necessary to monitor compliance with the rules in IRC section 168.

Respondents: Business or other for-profit, Farms.

Estimated Number of Respondents: 1,000.

Estimated Burden Hours Per Respondent: 15 minutes.

Frequency of Response: Annually.

Estimated Total Reporting Burden: 250 hours.

OMB Number: 1545–1598.

Revenue Procedure Number: Revenue Procedure 98–22.

Type of Review: Extension.

Title: Employee Plans Compliance Program.

Description: The information requested in this revenue procedure is required to enable the Office of the Assistant Commissioner (Employee Plans and Exempt Organizations) of the Internal Revenue Service to make determinations regarding the issuance of various types of closing agreements and compliance statements. The issuance of closing agreements compliance statement allows individuals plans to continue to maintain their tax-qualified status. As a result, the favorable tax treatment of the benefits of the eligible employees is retained.

Respondents: Individuals or households, Business or other for-profit, Not-for-profit institutions, State, Local or Tribal Government.

Estimated Number of Respondents: 2,000.

Estimated Burden Hours Per Respondent: 21 hours, 30 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 43,000 hours.

Clearance Officer: Garrick Shear (202) 622–3869, Internal Revenue Service, Room 5571, 1111 Constitution Avenue, NW, Washington, DC 20224

DEPARTMENT OF THE TREASURY

Submission to OMB for Review; Comment Request

May 20, 1998.

The Department of the Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2110, 1425 New York Avenue, NW., Washington, DC 20220.

DATES: Written comments should be received on or before June 29, 1998 to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545–0823.

Regulation Project Number: FI–221–83 NPRM and FI–100–83 Temporary.

Type of Review: Extension.

Title: Indian Tribal Governments Treated as States For Certain Purposes.

Description: The regulations provide that if the governing body of a tribe, or its subdivision, is not designated as an Indian tribal government or subdivision thereof for purpose of sections 7701(a)(40) and 7871, it may apply for a ruling from the IRS.

Respondents: State, Local or Tribal Governments.

Estimated Number of Respondents: 25.

Estimated Burden Hours Per Respondent: 1 hour.

Frequency of Response: Other (once).

Estimated Total Reporting Burden: 25 hours.

OMB Number: 1545–1138.

Regulation Project Number: INTL–955–86 Final, TD 8350.

Type of Review: Extension.

Title: Requirements for Investments to Qualify Under Section 936(d)(4) as Investments in Qualified Caribbean Basin Countries.

Description: The collection of information is required by the Internal Revenue Service to verify that an investment qualifies under Internal Revenue Code (IRC) section 936(d)(4). The recordkeepers will be possession corporations, certain financial institutions located in Puerto Rico, and borrowers of funds covered by this regulation.

Respondents: Business or other for-profit.

Estimated Number of Recordkeepers: 50.

Estimated Burden Hours Per Recordkeeper: 30 hours.

Estimated Total Reporting/ Recordkeeping Burden: 1,500 hours.

OMB Number: 1545–1255.

Regulation Project Number: INTL–870–89 NPRM.

Type of Review: Extension.

Title: Earnings Stripping (Section 163(j)).

Description: Certain taxpayers are allowed to write off the fixed basis of the stock of an acquired corporation rather than the adjusted basis of the assets of the acquired corporation rather than the adjusted basis of the assets of the acquired corporation to elect treatment under section 163(j).

Respondents: Business or other for-profit.

Estimated Number of Respondents/ Recordkeepers: 2,300.

Estimated Burden Hours Per Respondent/Recordkeeper: 30 minutes.

Frequency of Response: Annually.

Estimated Total Reporting/ Recordkeeping Burden: 1,196 hours.

OMB Number: 1545–1413.

Regulation Project Number: IA–30–95 Final.

Type of Review: Extension.

Title: Reporting of Nonpayroll Withheld Tax Liabilities.

Description: These regulations concern the Secretary's authority to require a return of tax under section 6011 and provide for the requirement of a return by persons deducting and withholding income tax from "Nonpayroll" payments.

Respondents: Business or other for-profit, Individuals or households, Not-for-profit institutions, Farms, Federal Government, State, Local or Tribal Government.

Estimated Number of Respondents: 1.

Estimated Burden Hours Per Respondent: 1 hour.

Frequency of Response: Annually.

Estimated Total Reporting Burden: 1 hour.

OMB Number: 1545–1433.

Regulation Project Number: CO–11–91 Final and CO–24–95 Final.

Type of Review: Extension.

Title: Consolidated Groups and Controlled Groups—Intercompany Transactions and Related Rules (CO–11–91); and Consolidated Groups—Intercompany Transactions and Related Rules (CO–24–95).

Description: The regulations require common parents that make elections under Section 1.1502–13 to provide certain information. The information will be used to identify and assure that the amount, location, timing and attributes of intercompany transactions and corresponding items are properly maintained.

Respondents: Business or other for-profit.

Estimated Number of Respondents/ Recordkeepers: 2,200.

Estimated Burden Hours Per Respondent/Recordkeeper: 29 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting/ Recordkeeping Burden: 1,050 hours.

OMB Number: 1545–1443.

Regulation Project Number: PS–25–94 Final (TD 8686).

Type of Review: Extension.

Title: Requirements to Ensure Collection of Section 2050A Estate Tax.

Description: The regulation provides guidance relating to the additional requirements necessary to ensure the collection of the estate tax imposed under Section 2056A(b) with respect to taxable events involving qualified domestic trusts (QDOT'S). In order to ensure collection of the tax, the regulation provides various security options that may be selected by the trust and the requirements associated with each option. In addition, under certain circumstances the trust is required to file an annual statement with the IRS disclosing the assets held by the trust.

Respondents: Individuals or households.

Estimated Number of Respondents: 4,390.

Estimated Burden Hours Per Respondent: 1 hour, 23 minutes.

Frequency of Response: Annually.

Estimated Total Reporting Burden: 6,070 hours.

OMB Number: 1545–1461.

Regulation Project Number: INTL–24–94 Final.

Type of Review: Extension.

Title: Taxpayer Identifying Numbers (TINs).

Description: This regulation relates to requirements for furnishing a taxpayer identifying number on returns, statements, or other documents. Procedures are provided for requesting a taxpayer identifying number for certain alien individuals for whom a social security number is not available. The regulation also requires foreign persons to furnish a taxpayer identifying number on their tax returns.

Respondents: Individuals or households.

Estimated Number of Respondents/ Recordkeepers: 1.

Estimated Burden Hours Per Respondent/Recordkeeper: 1 hour.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 1 hour.

Clearance Officer: Garrick Shear (202) 622–3869, Internal Revenue Service, Room 5571, 1111 Constitution Avenue, NW, Washington, DC 20224.

DEPARTMENT OF THE TREASURY

Submission to OMB for Review; Comment Request

May 22, 1998.

The Department of the Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 2110, 1425 New York Avenue, NW., Washington, DC 20220.

DATES: Written comments should be received on or before June 29, 1998 to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545–0055.

Form Number: IRS Form 1001.

Type of Review: Extension.

Title: Ownership, Exemption, or Reduced Rate Certificate.

Description: This form is used by owners of certain types of income to report to a withholding agent, both the ownership and any reduced or exempt tax rate under tax conventions or

treaties, and if appropriate, to claim a release of tax withheld at source. The withholding agent uses the information to determine the appropriate withholding.

Respondents: Individuals or households. Business or other for-profit.

Estimated Number of Respondents/Recordkeepers: 100,000.

Estimated Burden Hours Per Respondent/Recordkeeper:

Recordkeeping—4 hr., 32 min.
Learning about the law or the form—1 hr., 5 min.
Preparing and sending the form to the IRS—1 hr., 13 min.

Frequency of Response: On occasion.

Estimated Total Reporting/Recordkeeping Burden: 684,000 hours.

OMB Number: 1545–0144.

Form Number: IRS Form 2438.

Type of Review: Extension.

Title: Undistributed Capital Gains Tax Return.

Description: Form 2438 is used by regulated investment companies to figure capital gains tax on undistributed capital gains designated under Internal Revenue Code (IRC) section 852(b)3(D). IRS uses this information to determine the correct tax.

Respondents: Business or other for-profit.

Estimated Number of Respondents/Recordkeepers: 100.

Estimated Burden Hours Per Respondent/Recordkeeper:

Recordkeeping—7 hr., 39 min.
Learning about the law or the form—35 min.
Preparing and sending the form to the IRS—45 min.

Frequency of Response: Annually.

Estimated Total Reporting/Recordkeeping Burden: 899 hours.

Clearance Officer: Garrick Shear, (202) 622–3869, Internal Revenue Service, Room 5571, 1111 Constitution Avenue, NW, Washington DC 20224.

OMB Reviewer: Alexander T. Hunt, (202) 395–7860, Office of Management and Budget, Room 10226, New Executive Office Building, Washington, DC 20503.

Internal Revenue Service (IRS)

OMB Number: 1545–0042.

Form Number: IRS Form 970.

Type of Review: Extension.

Title: Application to Use LIFO Inventory Method.

Description: Form 970 is filed by individuals, partnerships, trusts, estates, or corporations to elect to use the LIFO inventory method or to extend the LIFO method to additional goods. The IRS uses Form 970 to determine if the election was properly made.

Respondents: Business or other for-profit, Individuals or households.

Estimated Number of Respondents/Recordkeepers: 3,000.

Estimated Burden Hours Per Respondent/Recordkeeper:

Recordkeeping—9 hr., 20 min.
Learning about the law or the form—2 hr., 23 min.
Preparing and sending the form to the IRS—2 hr., 39 min.

Frequency of Response: On occasion.

Estimated Total Reporting/Recordkeeping Burden: 43,080 hours.

OMB Number: 1545–0786.

Regulation Project Number: INTL–50–86 Final (TD 8110).

Type of Review: Extension.

Title: Sanctions on Issuers and Holders of Registration-Required Obligations Not in Registered Form.

Description: The Internal Revenue Service needs the information in order to ensure that purchasers of bearer obligations are not U.S. persons (other than those permitted to hold obligations under section 165(j) and to ensure that U.S. persons holding bearer obligations properly report income and again on such obligations. The people reporting will be institutions holding bearer obligations.

Respondents: Business or other for-profit.

Estimated Number of Respondents: 1,000.

Estimated Burden Hours Per Respondent: 3 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 39,742 hours.

OMB Number: 1545–1270.

Regulation Project Number: PS–66–93 and PS–120–90 Final.

Type of Review: Extension.

Title: Gasohol; Compressed Natural Gas (PS–66–93); and Gasoline Excise Tax (PS–120–90].

Description: PS–66–93: Buyers of compressed natural gas for a non-taxable use must give a certificate. Persons who pay a "first tax" on gasoline must file a report.

PS–120–90: Gasoline refiners, traders, terminal operators, chemical companies and gasohol blenders must notify each other of their registration status and/or intended use of the product before transactions may be made tax-free.

Respondents: Business or other for-profit, Not-for-profit institutions, Farms, State, Local or Tribal Government.

Estimated Number of Respondents: 3,170.

Estimated Burden Hours Per Respondent: 7 minutes.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 371 hours.

OMB Number: 1545–1338.

Regulation Project Number: PS–103–90 Final.

Type of Review: Extension.

Title: Election Out of Subchapter K for Producers of Natural Gas.

Description: Under section 1.761–2(d)(5)(I), gas producers subject to gas balancing agreements on the regulation's effective date are to file Form 3115 and certain additional information to obtain the Commissioner's consent to a change in method of accounting to either of the two new permissible accounting methods in the regulations.

Respondents: Business or other for-profit, Individuals or households.

Estimated Number of Respondents: 10.

Estimated Burden Hours Per Respondent: 30 minutes.

Frequency of Response: Other (one time only).

Estimated Total Reporting Burden: 5 hours.

Clearance Officer: Garrick Shear (202) 622–3869, Internal Revenue Service, Room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224.

OMB Reviewer: Alexander T. Hunt (202) 395–7860, Office of Management and Budget, Room

10226, New Executive Office Building, Washington, DC 20503.

BILLING CODE 8720–01–M

UNITED STATES INFORMATION AGENCY

Determination To Close a Portion of the Advisory Board Meeting of May 27, 1998

Based on information provided to me by the Advisory Board for Cuba Broadcasting, I hereby determine that the 1:00 p.m. to 2:00 p.m. portion of this meeting should be closed to the public.

The Advisory Board has requested that part one of this meeting be closed to the public. Part one will involve technical information about new frequency testing and TV transmission, the premature disclosure of which would likely frustrate implementation of a proposed Agency action. Closing such deliberations to the public is justified by the Government in the Sunshine Act under 5 U.S.C. 552b(c)(9)(B). Part one will also involve discussions of internal Agency and Board procedures, which is a basis for closing under 5 U.S.C. 552b(c)(2).

Dated: May 21, 1998.

Joseph Duffey,

Director, United States Information Agency.

United States Information Agency

Meeting of the Advisory Board for Cuba Broadcasting.

The Advisory Board for Cuba Broadcasting will conduct a meeting at 301 4th Street, SW., Rm. 840, Washington, DC on Wednesday, May 27, 1998, at 1:00 p.m.

The intended agenda is listed below.

Advisory Board for Cuba Broadcasting Meeting, Wednesday, May 27, 1998

Agenda

Part One—Closed to the Public

I. Technical Operations Update

A. Status of UHF Testing

B. Aerostat

II. Internal Procedures

III. Approval of Minutes

Part Two—Open to the Public—2:00 p.m.

I. Programming Changes

II. Major News Event Coverage

III. Relocation Update

IV. Old Business

V. New Business

Members of the public interested in attending the meeting should contact Mr. Joseph O'Connell at (202) 619–2538.

Part II

Department of the Interior

Minerals Management Service

30 CFR Part 250

Redesignation of 30 CFR Part 250—Oil and Gas and Sulfur Operations in the Outer Continental Shelf; Final Rule

DEPARTMENT OF THE INTERIOR

Minerals Management Service

30 CFR Part 250

RIN 1010–AC45

Redesignation of 30 CFR Part 250—Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Final rule.

SUMMARY: MMS is in the process of updating and revising various subparts under part 250. To ease the revision process and to allow room for future expansion of the material in part 250, MMS needs to allow more flexibility within each subpart. This regulation assigns new section numbers to each section in part 250 so that MMS can logically format the subparts in the future without further renumbering.

EFFECTIVE DATE: The rule is effective on June 30, 1998.

FOR FURTHER INFORMATION CONTACT: Kumkum Ray, Rules Processing Team, (703) 787–1600.

SUPPLEMENTARY INFORMATION: In the Code of Federal Regulations dated July 1, 1987, MMS regulations at 30 CFR part 250 were not divided into subparts and were differentiated only by headings, numbering from § 250.0 to § 250.96. On April 1, 1988, MMS published a final rule consolidating into one document all the rules of the Offshore program that govern oil, gas, and sulphur exploration, development, and production in the Outer Continental Shelf (OCS). For the first time, part 250 was divided into subparts A through P, for better organization, and expanded to 250 sections. In recent years, we have felt the need for more section numbers. Then, as MMS began rewriting these regulations to improve clarity, the need for shorter sections became even more acute. To alleviate this problem we are redesignating part 250 and allotting 100 sections to each subpart.

Administrative Matters

The Department of the Interior and MMS have determined under the Administrative Procedure Act (5 U.S.C. 553(b)(3)(B)) that publishing this rule as a notice of proposed rulemaking would be contrary to the public interest. This rule merely renumbers existing sections in title 30 of the Code of Federal Regulations; it does not change any requirements in title 30. The revision date for the codified version (i.e., the bound volume) of title 30 is July 1 of each year. Therefore, publishing this rule after July 1, 1998, would mean that a revised title 30 incorporating the new section numbers could not be published until after July 1, 1999. Because new material will be published in part 250 in the intervening period, our failure to publish a renumbered title 30 in 1998 would cause confusion among users. For these reasons, we are publishing this rule as a final rule with an effective date of June 30, 1998.

We will issue a Notice to Lessees and Operators (NTL) to announce the redesignation and provide documents to assist the lessees/operators in implementing the redesignation of the sections. The NTL will also be on the MMS worldwide web site at http://www.mms.gov. We will also allow an additional 90-day phase-in implementation period during which MMS will continue to accept documents that contain the old references. The rule will be published in time to be codified in the next edition of the Code of Federal Regulations on July 1, 1998. *We will revise all MMS guidelines (such as NTLs) and other parts of 30 CFR to correct the citations to our regulations. However, we emphasize again, that there are no changes in requirements due to this action and all current regulations and guidelines remain in effect.*

Regulatory Flexibility Act

The Department of the Interior (DOI) determined that this rule will not have a significant effect on a substantial number of small entities. In general, the entities that engage in offshore activities are not considered small due to the technical and financial resources and experience necessary to safely conduct such activities. DOI also determined that the indirect effects of this rule on small entities that provide support for offshore activities are small.

Your comments are important. The Small Business and Agriculture Regulatory Enforcement Ombudsman and 10 Regional Fairness Boards were established to receive comments from small business about Federal agency enforcement actions. The Ombudsman will annually evaluate the enforcement activities and rate each agency's responsiveness to small business. If you wish to comment on the enforcement actions of MMS, call toll-free (888) 734–3247.

Executive Order (E.O.) 12630

DOI certifies that the rule does not represent a governmental action capable of interference with constitutionally protected property rights. Thus a Takings Implementation Assessment need not be prepared under E. O. 12630, "Governmental Actions and Interference with Constitutionally Protected Property Rights."

E.O. 12988

DOI has certified to the Office of Management and Budget (OMB) that this rule meets the applicable civil justice reform standards provided in sections 3(a) and 3(b)(2) of E.O. 12988.

E.O. 12866

This document has been reviewed under E. O. 12866 and is not a significant regulatory action.

Paperwork Reduction Act

DOI has determined that this regulation does not contain information collection requirements pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). We will not be submitting an information collection request to the OMB.

Unfunded Mandates Reform Act of 1995

DOI has determined and certified according to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that this rule will not impose a cost of $100 million or more in any given year on local, tribal, State governments, or the private sector.

National Environmental Policy Act

DOI has also determined that this action does not constitute a major Federal action affecting the quality of the human environment; therefore, an Environmental Impact Statement is not required.

List of Subjects in 30 CFR Part 250

Continental shelf, Environmental impact statements, Environmental protection, Government contracts, Incorporation by reference, Investigations, Mineral royalties, Oil and gas development and production, Oil and gas exploration, Oil and gas reserves, Penalties, Pipelines, Public lands—mineral resources, Public lands—rights-of-way, Reporting and recordkeeping requirements, Sulphur development and production, Sulphur exploration, Surety bonds.

Dated: May 6, 1998.

Sylvia V. Baca,

Deputy Assistant Secretary, Land and Minerals Management.

For the reasons stated in the preamble, Minerals Management Service (MMS) amends 30 CFR part 250 as follows:

PART 250—OIL AND GAS AND SULPHUR OPERATIONS IN THE OUTER CONTINENTAL SHELF

1. The authority citation for part 250 continues to read as follows:

Authority: 43 U.S.C. 1334 *et seq.*

§§ 250.0–250.26 [Redesignated as §§ 250.100–250.126]

2. In subpart A, §§ 250.0 through 250.26 are redesignated as §§ 250.100 through 250.126.

§§ 250.30–250.34 [Redesignated as §§ 250.200–250.204]

3. In subpart B, §§ 250.30 through 250.34 are redesignated as §§ 250.200 through 250.204.

§§ 250.40–250.41 [Redesignated as §§ 250.300–250.301]

4. In subpart C, §§ 250.40 through 250.41, are redesignated as §§ 250.300 through 250.301.

§§ 250.44–250.46 [Redesignated as §§ 250.302–250.304]

5. In subpart C,§§ 250.44 through 250.46 are redesignated as §§ 250.302 through 250.304.

§§ 250.50–250.67 [Redesignated as §§ 250.400–250.417]

6. In subpart D, §§ 250.50 through 250.67 are redesignated as §§ 250.400 through 250.417.

§§ 250.70–250.87 [Redesignated as §§ 250.500–250.517]

7. In subpart E, §§ 250.70 through 250.87 are redesignated as §§ 250.500 through 250.517.

§§ 250.90–250.108 [Redesignated as §§ 250.600–250.618]

8. In subpart F, §§ 250.90 through 250.108 are redesignated as §§ 250.600 through 250.618.

§§ 250.110–250.114 [Redesignated as §§ 250.700–250.704]

9. In subpart G, §§ 250.110 through 250.114 are redesignated as §§ 250.700 through 250.704.

§§ 250.120–250.127 [Redesignated as §§ 250.800–250.807]

10. In subpart H, §§ 250.120 through 250.127 are redesignated as §§ 250.800 through 250.807.

§§ 250.130–250.144 [Redesignated as §§ 250.900–250.914]

11. In subpart I, §§ 250.130 through 250.144 are redesignated as §§ 250.900 through 250.914.

§§ 250.150–250.164 [Redesignated as §§ 250.1000–250.1014]

12. In subpart J, §§ 250.150 through 250.164 are redesignated as §§ 250.1000 through 250.1014.

§§ 250.170–250.177 [Redesignated as §§ 250.1100–250.1107]

13. In subpart K, §§ 250.170 through 250.177 are redesignated as §§ 250.1100 through 250.1107.

§§ 250.180–250.185 [Redesignated as §§ 250.1200–250.1205]

14. In subpart L, §§ 250.180 through 250.185 are redesignated as §§ 250.1200 through 250.1205.

§§ 250.190–250.194 [Redesignated as §§ 250.1300–250.1304]

15. In subpart M, §§ 250.190 through 250.194 are redesignated as §§ 250.1300 through 250.1304.

§§ 250.200–250.209 [Redesignated as §§ 250.1400–250.1409]

16. In subpart N, §§ 250.200 through 250.209 are redesignated as §§ 250.1400 through 250.1409.

§§ 250.210–250.234 [Redesignated as §§ 250.1500–250.1524]

17. In subpart O, §§ 250.210 through 250.234 are redesignated as §§ 250.1500 through 250.1524.

§§ 250.250–250.254 [Redesignated as §§ 250.1600–250.1604]

18. In subpart P, §§ 250.250 through 250.254 are redesignated as §§ 250.1600 through 250.1604.

§§ 250.260–250.274 [Redesignated as §§ 250.1605–250.1619]

19. In subpart P, §§ 250.260 through 250.274 are redesignated as §§ 250.1605 through 250.1619.

§§ 250.280–250.274 [Redesignated as §§ 250.1620–250.1626]

20. In subpart P, §§ 250.280 through 250.286 are redesignated as §§ 250.1620 through 250.1626.

§§ 250.290–250.297 [Redesignated as §§ 250.1627–250.1634]

20. In subpart P, §§ 250.290 through 250.297 are redesignated as §§ 250.1627 through 250.1634.

21. The revised table of contents for part 250 reads as follows:

Subpart A—General

Sec.
250.100 Authority for information collection.
250.101 Documents incorporated by reference.
250.102 Definitions.
250.103 Performance requirements.
250.104 Jurisdiction.
250.105 Functions.
250.106 Oral approvals.
250.107 Right of use and easement.
250.108 Designation of operator.
250.109 Local agent.
250.110 Suspension of production or other operations.
250.111 Determination of well producibility.
250.112 Cancellation of leases.
250.113 How does production, drilling, or well-reworking affect your lease term?
250.114 Reinjection and subsurface storage of gas.
250.115 Identification.
250.116 Reimbursement.
250.117 Information and forms.
250.118 Data and information to be made available to the public.
250.119 Accident reports.
250.120 Safe and workmanlike operations.
250.121 Access to facilities.
250.122 Best available and safest technologies (BAST).
250.123 Report of cessation of production.
250.124 Appeals, general.
250.125 Reports and investigations of apparent violations.
250.126 Archaeological reports and surveys.

Subpart B—Exploration and Development and Production Plans

Sec.
250.200 General requirements.
250.201 Preliminary activities.
250.202 Well location and spacing.
250.203 Exploration Plan.
250.204 Development and Production Plan.

Subpart C—Pollution Prevention and Control

Sec.
250.300 Pollution prevention.
250.301 Inspection of facilities.
250.302 Definitions concerning air quality.
250.303 Facilities described in a new or revised Exploration Plan or Development and Production Plan.
250.304 Existing facilities.

Subpart D—Oil and Gas Drilling Operations

Sec.
250.400 Control of wells.
250.401 General requirements.
250.402 Welding and burning practices and procedures.
250.403 Electrical equipment.
250.404 Well casing and cementing.
250.405 Pressure testing of casing.
250.406 Blowout preventer systems and system components.
250.407 Blowout preventer systems tests, actuations, inspections, and maintenance.
250.408 Well-control drills.
250.409 Diverter systems.
250.410 Mud program.
250.411 Securing of wells.
250.412 Field drilling rules.
250.413 Supervision, surveillance, and training.
250.414 Applications for Permit to Drill.
250.415 Sundry notices and reports on wells.
250.416 Well records.
250.417 Hydrogen sulfide.

Subpart E—Oil and Gas Well-Completion Operations

Sec.
250.500 General requirements.
250.501 Definition.
250.502 Equipment movement.
250.503 Emergency shutdown system.
250.504 Hydrogen sulfide.

250.505 Subsea completions.
250.506 Crew instructions.
250.507 Welding and burning practices and procedures.
250.508 Electrical requirements.
250.509 Well-completion structures on fixed platforms.
250.510 Diesel engine air intakes.
250.511 Traveling-block safety device.
250.512 Field well-completion rules.
250.513 Approval and reporting of well-completion operations.
250.514 Well-control fluids, equipment, and operations.
250.515 Blowout prevention equipment.
250.516 Blowout preventer system testing, records, and drills.
250.517 Tubing and wellhead equipment.

Subpart F—Oil and Gas Well-Workover Operations

Sec.
250.600 General requirements.
250.601 Definitions.
250.602 Equipment movement.
250.603 Emergency shutdown system.
250.604 Hydrogen sulfide.
250.605 Subsea workovers.
250.606 Crew instructions.
250.607 Welding and burning practices and procedures.
250.608 Electrical requirements.
250.609 Well-workover structures on fixed platforms.
250.610 Diesel engine air intakes.
250.611 Traveling-block safety device.
250.612 Field well-workover rules.
250.613 Approval and reporting for well-workover operations.
250.614 Well-control fluids, equipment, and operations.
250.615 Blowout prevention equipment.
250.616 Blowout preventer system testing, records, and drills.
250.617 Tubing and wellhead equipment.
250.618 Wireline operations.

Subpart G—Abandonment of Wells

Sec.
250.700 General requirements.
250.701 Approvals.
250.702 Permanent abandonment.
250.703 Temporary abandonment.
250.704 Site clearance verification.

Subpart H—Oil and Gas Production Safety Systems

Sec.
250.800 General requirements.
250.801 Subsurface safety devices.
250.802 Design, installation, and operation of surface production safety systems.
250.803 Additional production system requirements.
250.804 Production safety-system testing and records.
250.805 Safety device training.
250.806 Quality assurance and performance of safety and pollution prevention equipment.
250.807 Hydrogen sulfide.

Subpart I—Platforms and Structures

Sec.
250.900 General requirements.
250.901 Application for approval.
250.902 Platform Verification Program requirements.
250.903 Certified Verification Agent duties and nomination.
250.904 Environmental conditions.
250.905 Loads.
250.906 General design requirements.
250.907 Steel platforms.
250.908 Concrete-gravity platforms.
250.909 Foundation.
250.910 Marine operations.
250.911 Inspection during construction.
250.912 Periodic inspection and maintenance.
250.913 Platform removal and location clearance.
250.914 Records.

Subpart J—Pipelines and Pipeline Rights-of-Way

Sec.
250.1000 General requirements.
250.1001 Definitions.
250.1002 Design requirements for DOI pipelines.
250.1003 Installation, testing and repair requirements for DOI pipelines.
250.1004 Safety equipment requirements for DOI pipelines.
250.1005 Inspection requirements for DOI pipelines.
250.1006 Abandonment and out-of-service requirements for DOI pipelines.
250.1007 Applications.
250.1008 Reports.
250.1009 General requirements for a pipeline right-of-way grant.
250.1010 Applications for a pipeline right-of-way grant.
250.1011 Granting a pipeline right-of-way.
250.1012 Requirements for construction under a right-of-way grant.
250.1013 Assignment of a right-of-way grant.
250.1014 Relinquishment of a right-of-way grant.

Subpart K—Oil and Gas Production Rates

Sec.
250.1100 Definitions for production rates.
250.1101 General requirements and classification of reservoirs.
250.1102 Oil and gas production rates.
250.1103 Well production testing.
250.1104 Bottomhole pressure survey.
250.1105 Flaring and venting of gas.
250.1106 Downhole commingling.
250.1107 Enhanced oil and gas recovery operations.

Subpart L—Oil and Gas Production Measurement, Surface Commingling, and Security

Sec.
250.1200 Question index table.
250.1201 Definitions.
250.1202 Liquid hydrocarbon measurement.
250.1203 Gas measurement.
250.1204 Surface commingling.
250.1205 Site security.

Subpart M—Unitization

Sec.
250.1300 What is the purpose of this subpart?
250.1301 What are the requirements for unitization?
250.1302 What if I have a competitive reservoir on a lease?
250.1303 How do I apply for voluntary unitization?
250.1304 How will MMS require unitization?

Subpart N—Remedies and Penalties

Sec.
250.1400 How does MMS begin the civil penalty process?
250.1401 Index table.
250.1402 Definitions.
250.1403 What is the maximum civil penalty?
250.1404 Which violations will MMS review for potential civil penalties?
250.1405 When is a case file developed?
250.1406 When will MMS notify me and provide penalty information?
250.1407 How do I respond to the letter of notification?
250.1408 When will I be notified of the Reviewing Officer's decision?
250.1409 What are my appeal rights?

Subpart O—Training

Sec.
250.1500 Question index table.
250.1501 Definitions.
250.1502 What is MMS's goal for well control and production safety systems training?
210.1503 What type of training must I provide for my employees?
250.1504 What documentation must I provide to trainees?
250.1505 How often must I provide training to my employees and for how many hours?
250.1506 Where must I get training for my employees?
250.1507 Where can I find training guidelines for other topics?
250.1508 Can I get an exception to the training requirements?
250.1509 Can my employees change job certification?
250.1510 What must I do if I have temporary employees or on-the-job trainees?
250.1511 What must manufacturer's representatives in production safety systems do?
250.1512 May I use alternative training methods?
250.1513 What is MMS looking for when it reviews an alternative training program?
250.1514 Who may accredit training organizations to teach?
250.1515 How long is a training organization's accreditation valid?
250.1516 What information must a training organization submit to MMS?
250.1517 What additional requirements must a training organization follow?
250.1518 What are MMS's requirements for the written test?
250.1519 What are MMS's requirements for the hands-on simulator and test?

250.1520 What elements must a basic course cover?
250.1521 If MMS tests employees at my worksite, what must I do?
250.1522 If MMS tests trainees at a training organization's facility, what must occur?
250.1523 Why might MMS conduct its own tests?
250.1524 Can a training organization lose its accreditation?

Subpart P—Sulphur Operations

Sec.
250.1600 Performance standard.
250.1601 Definitions.
250.1602 Applicability.
250.1603 Determination of sulphur deposit.
250.1604 General requirements.
250.1605 Drilling requirements.
250.1606 Control of wells.
250.1607 Field rules.
250.1608 Well casing and cementing.
250.1609 Pressure testing of casing.
250.1610 Blowout preventer systems and system components.
250.1611 Blowout preventer systems tests, actuations, inspections, and maintenance.
250.1612 Well-control drills.
250.1613 Diverter systems.
250.1614 Mud program.
250.1615 Securing of wells.
250.1616 Supervision, surveillance, and training.
250.1617 Application for permit to drill.
250.1618 Sundry notices and reports on wells.
250.1619 Well records.
250.1620 Well-completion and well-workover requirements.
250.1621 Crew instructions.
250.1622 Approvals and reporting of well-completion and well-workover operations.
250.1623 Well-control fluids, equipment, and operations.
250.1624 Blowout prevention equipment.
250.1625 Blowout preventer system testing, records, and drills.
250.1626 Tubing and wellhead equipment.
250.1627 Production requirements.
250.1628 Design, installation, and operation of production systems.
250.1629 Additional production and fuel gas system requirements.
250.1630 Safety-system testing and records.
250.1631 Safety device training.
250.1632 Production rates.
250.1633 Production measurement.
250.1634 Site security.

22. In redesignated § 250.101, the table in paragraph (e) is revised to read as follows:

§ 250.101 Documents incorporated by reference.

* * * * *

(e) * * *

Title of documents	Incorporated by reference at
ACI Standard 318–95, Building Code Requirements for Reinforced Concrete, plus Commentary on Building Code Requirements for Reinforced Concrete (ACI 318R–95).	§ 250.908(b)(4)(i), (b)(6)(i), (b)(7), (b)(8)(i), (b)(9), (b)(10), (c)(3), (d)(1)(v), (d)(5), (d)(6), (d)(7), (d)(8), (d)(9), (e)(1)(i), (e)(2)(i).
ACI Standard 357–R–84, Guide for the Design and Construction of Fixed Offshore Concrete Structures, 1984.	§ 250.900(g); § 250.908(c)(2), (c)(3).
AISC Standard Specification for Structural Steel for Buildings, Allowable Stress Design and Plastic Design, June 1, 1989, with Commentary.	§ 250.907(b)(1)(ii), (c)(4)(ii), (c)(4)(vii).
ANSI/ASME Boiler and Pressure Vessel Code, Section I, Power Boilers, including Appendices, 1995 Edition.	§ 250.803(b)(1), (b)(1)(i); § 250.1629(b)(1), (b)(1)(i).
ANSI/ASME Boiler and Pressure Vessel Code, Section IV, Heating Boilers including Nonmandatory Appendices A, B, C, D, E, F, H, I, and J, and the Guide to Manufacturers Data Report Forms, 1995 Edition.	§ 250.803(b)(1), (b)(1)(i); § 250.1629(b)(1), (b)(1)(i).
ANSI/ASME Boiler and Pressure Vessel Code, Section VIII, Pressure Vessels, Divisions 1 and 2, including Nonmandatory Appendices, 1995 Edition.	§ 250.803(b)(1), (b)(1)(i); § 250.1629(b)(1), (b)(1)(i).
ANSI/ASME B 16.5–1988 (including Errata) and B 16.5a–1992 Addenda, Pipe Flanges and Flanged Fittings.	§ 250.1002(b)(2).
ANSI/ASME B 31.8–1995, Gas Transmission and Distribution Piping Systems.	§ 250.1002(a).
ANSI/ASME SPPE–1–1994 and SPPE–1d–1996 ADDENDA, Quality Assurance and Certification of Safety and Pollution Prevention Equipment Used in Offshore Oil and Gas Operations.	§ 250.806(a)(2)(i).
ANSI Z88.2–1992, American National Standard for Respiratory Protection.	§ 250.417(g)(4)(iv), (j)(13)(ii).
API RP 2A, Recommended Practice for Planning, Designing and Constructing Fixed Offshore Platforms Working Stress Design, Nineteenth Edition, August 1, 1991, API Stock No. 811–00200.	§ 250.900(g); § 250.912(a).
API RP 2A–WSD, Recommended Practice for Planning, Designing and Constructing Fixed Offshore Platforms-Working Stress Design: Twentieth Edition, July 1, 1993, API Stock No. 811–00200.	§ 250.900(g); § 250.912(a).
API RP 2A–WSD, Recommended Practice for Planning, Designing and Constructing Fixed Offshore Platforms-Working Stress Design: Twentieth Edition, July 1, 1993, Supplement 1, December 1996, Effective Date, February 1, 1997, API Stock No. 811–00200.	§ 250.900(g); § 250.912(a).
API RP 2D, Recommended Practice for Operation and Maintenance of Offshore Cranes, Third Edition, June 1, 1995, API Stock No. G02D03.	§ 250.120(c); § 250.1605(g).
API RP 14B, Recommended Practice for Design, Installation, Repair and Operation of Subsurface Safety Valve Systems, Fourth Edition, July 1, 1994, with Errata dated June 1996, API Stock No.G14B04.	§ 250.801(e)(4); § 250.804(a)(1)(i); § 250.806(d).
API RP 14C, Recommended Practice for Analysis, Design, Installation and Testing of Basic Surface Safety Systems for Offshore Production Platforms, Fourth Edition, September 1, 1986, API Stock No. 811–07180.	§ 250.802(b), (e)(2); § 250.803(a), (b)(2)(i), (b)(4), (b)(5)(i), (b)(7), (b)(9)(v), (c)(2); § 250.804(a), (a)(5); § 250.1002(d); § 250.1004(b)(9); § 250.1628(c), (d)(2); § 250.1629(b)(2), (b)(4)(v); § 250.1630(a).
API RP 14E, Recommended Practice for Design and Installation of Offshore Production Platform Piping Systems, Fifth Edition, October 1, 1991, API Stock No. G07185.	§ 250.802(e)(3); § 250.1628(b)(2), (d)(3).
API RP 14F, Recommended Practice for Design and Installation of Electrical Systems for Offshore Production Platforms, Third Edition, September 1, 1991, API Stock No. G07190.	§ 250.403(c); § 250.803(b)(9)(v); § 250.1629(b)(4)(v).

Title of documents	Incorporated by reference at
API RP 14G, Recommended Practice for Fire Prevention and Control on Open Type Offshore Production Platforms, Third Edition, December 1, 1993, API Stock No. G07194.	§ 250.803(b)(8), (b)(9)(v); § 250.1629(b)(3), (b)(4)(v).
API RP 14H, Recommended Practice for Installation, Maintenance and Repair of Surface Safety Valves and Underwater Safety Valves Offshore, Fourth Edition, July 1, 1994, API Stock No. G14H04.	§ 250.802(d); § 250.806(d).
API RP 500, Recommended Practice for Classification of Locations for Electrical Installations at Petroleum Facilities, First Edition, June 1, 1991, API Stock No. G06005.	§ 250.403(b); § 250.802(e)(4)(i); § 250.803(b)(9)(i); § 250.1628(b)(3); (d)(4)(i); § 250.1629(b)(4)(i).
API RP 2556, Recommended Practice for Correcting Gauge Tables for Incrustation, Second Edition, August 1993, API Stock No. H25560.	§ 250.1202(l)(4).
API Spec Q1, Specification for Quality Programs, Fifth Edition, December 1994, API Stock No. 811–00001.	§ 250.806(a)(2)(ii).
API Spec 6A, Specification for Wellhead and Christmas Tree Equipment, Seventeenth Edition, February 1, 1996, API Stock No. G06A17.	§ 250.806(a)(3); § 250.1002 (b)(1), (b)(2).
APISpec 6AV1, Specification for Verification Test of Wellhead Surface Safety Valves and Underwater Safety Valves for Offshore Service, First Edition, February 1, 1996, API Stock No. G06AV1.	§ 250.806(a)(3).
API Spec 6D, Specification for Pipeline Valves (Gate, Plug, Ball, and Check Valves), Twenty-first Edition, March 31, 1994, API Stock No. G03200.	§ 250.1002(b)(1).
API Spec 14A, Specification for Subsurface Safety Valve Equipment, Ninth Edition, July 1, 1994, API Stock No. G14A09.	§ 250.806(a)(3).
API Spec 14D, Specification for Wellhead Surface Safety Valves and Underwater Safety Valves for Offshore Service, Ninth Edition, June 1, 1994, with Errata dated August 1, 1994, API Stock No. G07183.	§ 250.806(a)(3).
API Standard 2545, Method of Gauging Petroleum and Petroleum Products, October 1965, reaffirmed October 1992; also available as ANSI/American Society for Testing and Materials (ASTM) D 1085–65, API Stock No. H25450.	§ 250.1202(l)(4).
API Standard 2551, Standard Method for Measurement and Calibration of Horizontal Tanks, First Edition, 1965, reaffirmed October 1992; also available as ANSI/ASTM D 1410–65, reapproved 1984, API Stock No. H25510.	§ 250.1202(l)(4).
API Standard 2552, Measurement and Calibration of Spheres and Spheroids, First Edition, 1966, reaffirmed October 1992; also available as ANSI/ASTM D 1408–65, reapproved 1984, API Stock No. H25520.	§ 250.1202(l)(4).
API Standard 2555, Method for Liquid Calibration of Tanks, September 1966, reaffirmed October 1992; also available as ANSI/ASTM D 1406–65, reapproved 1984, API Stock No. H25550.	§ 250.1202(l)(4).
MPMS, Chapter 1, Vocabulary, Second Edition, July 1994, API Stock No. H01002.	§ 250.1201.
MPMS, Chapter 2, Tank Calibration, Section 2A, Measurement and Calibration of Upright Cylindrical Tanks by the Manual Strapping Method, First Edition, February 1995, API Stock No. H022A1.	§ 250.1202(l)(4).
MPMS, Chapter 2, Section 2B, Calibration of Upright Cylindrical Tanks Using the Optical Reference Line Method, First Edition, March 1989; also available as ANSI/ASTM D4738–88, API Stock No. H30023.	§ 250.1202(l)(4).
MPMS, Chapter 3, Tank Gauging, Section 1A, Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, First Edition, December 1994, API Stock No. H031A1.	§ 250.1202(l)(4).
MPMS, Chapter 3, Section 1B, Standard Practice for Level Measurement of Liquid Hydrocarbons in Stationary Tanks by Automatic Tank Gauging, First Edition, April 1992, API Stock No. H30060.	§ 250.1202(l)(4).
MPMS, Chapter 4, Proving Systems, Section 1, Introduction, First Edition, July 1988, reaffirmed October 1993, API Stock No. H30081.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 4, Section 2, Conventional Pipe Provers, First Edition, October 1988, reaffirmed October 1993, API Stock No. H30082.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 4, Section 3, Small Volume Provers, First Edition, July 1988, reaffirmed October 1993, API Stock No. H30083.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 4, Section 4, Tank Provers, First Edition, October 1988, reaffirmed October 1993, API Stock No. H30084.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 4, Section 5, Master-Meter Provers, First Edition, October 1988, reaffirmed October 1993, API Stock No. H30085.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 4, Section 6, Pulse Interpolation, First Edition, July 1988, reaffirmed October 1993, API Stock No. H30086.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 4, Section 7, Field-Standard Test Measures, First Edition, October 1988, API Stock No. H30087.	§ 250.1202(a)(3), (f)(1).
MPMS, Chapter 5, Metering, Section 1, General Considerations for Measurement by Meters, Third Edition, September 1995, API Stock No. H05013.	§ 250.1202(a)(3).

Title of documents	Incorporated by reference at
MPMS, Chapter 5, Section 2, Measurement of Liquid Hydrocarbons by Displacement Meters, Second Edition, November 1987, reaffirmed October 1992, API Stock No. H30102.	§ 250.1202(a)(3).
MPMS, Chapter 5, Section 3, Measurement of Liquid Hydrocarbons by Turbine Meters, Third Edition, September 1995, API Stock No. H05033.	§ 250.1202(a)(3).
MPMS, Chapter 5, Section 4, Accessory Equipment for Liquid Meters, Third Edition, September 1995, with Errata, March 1996, API Stock No. H05043.	§ 250.1202(a)(3).
MPMS, Chapter 5, Section 5, Fidelity and Security of Flow Measurement Pulsed-Data Transmission Systems, First Edition, June 1982, reaffirmed October 1992, API Stock No. H30105.	§ 250.1202(a)(3).
MPMS, Chapter 6, Metering Assemblies, Section 1, Lease Automatic Custody Transfer (LACT) Systems, Second Edition, May 1991, API Stock No. H30121.	§ 250.1202(a)(3).
MPMS, Chapter 6, Section 6, Pipeline Metering Systems, Second Edition, May 1991, API Stock No. H30126.	§ 250.1202(a)(3).
MPMS, Chapter 6, Section 7, Metering Viscous Hydrocarbons, Second Edition, May 1991, API Stock No. H30127.	§ 250.1202(a)(3).
MPMS, Chapter 7, Temperature Determination, Section 2, Dynamic Temperature Determination, Second Edition, March 1995, API Stock No. H07022.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 7, Section 3, Static Temperature Determination Using Portable Electronic Thermometers, First Edition, July 1985, reaffirmed March 1990, API Stock No. H30143.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 8, Sampling, Section 1, Standard Practice for Manual Sampling of Petroleum and Petroleum Products, Third Edition, October 1995; also available as ANSI/ASTM D 4057–88, API Stock No. H30161.	§ 250.1202(b)(4)(i), (l)(4).
MPMS, Chapter 8, Section 2, Standard Practice for Automatic Sampling of Liquid Petroleum and Petroleum Products, Second Edition, October 1995; also available as ANSI/ASTM D 4177, API Stock No. H30162.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 9, Density Determination, Section 1, Hydrometer Test Method for Density, Relative Density (Specific Gravity), or API Gravity of Crude Petroleum and Liquid Petroleum Products, First Edition, June 1981, reaffirmed October 1992; also available as ANSI/ASTM D 1298, API Stock No. H30181.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 9, Section 2, Pressure Hydrometer Test Method for Density or Relative Density, First Edition, April 1982, reaffirmed October 1992, API Stock No. H30182.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 10, Sediment and Water, Section 1, Determination of Sediment in Crude Oils and Fuel Oils by the Extraction Method, First Edition, April 1981, reaffirmed December 1993; also available as ANSI/ASTM D 473, API Stock No. H30201.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 10, Section 2, Determination of Water in Crude Oil by Distillation Method, First Edition, April 1981, reaffirmed December 1993; also available as ANSI/ASTM D 4006, API Stock No. H30202.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 10, Section 3, Determination of Water and Sediment in Crude Oil by the Centrifuge Method (Laboratory Procedure), First Edition, April 1981, reaffirmed December 1993; also available as ANSI/ASTM D 4007, API Stock No. H30203.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 10, Section 4, Determination of Sediment and Water in Crude Oil by the Centrifuge Method (Field Procedure), Second Edition, May 1988; also available as ANSI/ASTM D 96, API Stock No. H30204.	§ 250.1202(a)(3), (l)(4).
MPMS, Chapter 11.1, Volume Correction Factors, Volume 1, Table 5A—Generalized Crude Oils and JP–4 Correction of Observed API Gravity to API Gravity at 60°F, and Table 6A—Generalized Crude Oils and JP–4 Correction of Observed API Gravity to API Gravity at 60°F, First Edition, August 1980, reaffirmed October 1993; also available as ANSI/ASTM D 1250, API Stock No. H27000.	§ 250.1202(a)(3), (g)(3), (l)(4).
MPMS, Chapter 11.2.1, Compressibility Factors for Hydrocarbons: 0–90° API Gravity Range, First Edition, August 1984, reaffirmed May 1996, API Stock No. H27300.	§ 250.1202(a)(3), (g)(4).
MPMS, Chapter 11.2.2, Compressibility Factors for Hydrocarbons: 0.350–0.637 Relative Density (60°F/60°F) and −50°F to 140°F Metering Temperature, Second Edition, October 1986, reaffirmed October 1992; also available as Gas Processors Association (GPA) 8286–86, API Stock No. H27307.	§ 250.1202(a)(3), (g)(4).

Title of documents	Incorporated by reference at
MPMS, Chapter 11, Physical Properties Data, Addendum to Section 2.2, Compressibility Factors for Hydrocarbons, Correlation of Vapor Pressure for Commercial Natural Gas Liquids, First Edition, December 1994; also available as GPA TP–15, API Stock No. H27308.	§ 250.1202(a)(3).
MPMS, Chapter 11.2.3, Water Calibration of Volumetric Provers, First Edition, August 1984, reaffirmed, May 1996, API Stock No. H27310.	§ 250.1202(f)(1).
MPMS, Chapter 12, Calculation of Petroleum Quantities, Section 2, Calculation of Petroleum Quantities Using Dynamic Measurement Methods and Volumetric Correction Factors, Including Parts 1 and 2, Second Edition, May 1995; also available as ANSI/API MPMS 12.2–1981, API Stock No. H30302.	§ 250.1202(a)(3), (g)(1), (g)(2).
MPMS, Chapter 14, Natural Gas Fluids Measurement, Section 3, Concentric Square-Edged Orifice Meters, Part 1, General Equations and Uncertainty Guidelines, Third Edition, September 1990; also available as ANSI/API 2530, Part 1, 1991, API Stock No. H30350.	§ 250.1203(b)(2).
MPMS, Chapter 14, Section 3, Part 2, Specification and Installation Requirements, Third Edition, February 1991; also available as ANSI/API 2530, Part 2, 1991, API Stock No. H30351.	§ 250.1203(b)(2).
MPMS, Chapter 14, Section 3, Part 3, Natural Gas Applications, Third Edition, August 1992; also available as ANSI/API 2530, Part 3, API Stock No. H30353.	§ 250.1203(b)(2).
MPMS, Chapter 14, Section 5, Calculation of Gross Heating Value, Relative Density, and Compressibility Factor for Natural Gas Mixtures From Compositional Analysis, Revised, 1996; also available as ANSI/API MPMS 24.5–1981, order from Gas Processors Association, 6526 East 60th Street, Tulsa, Oklahoma 74145.	§ 250.1203(b)(2).
MPMS, Chapter 14, Section 6, Continuous Density Measurement, Second Edition, April 1991, API Stock No. H30346.	§ 250.1203(b)(2).
MPMS, Chapter 14, Section 8, Liquefied Petroleum Gas Measurement, First Edition, February 1983, reaffirmed May 1996, API Stock No. H30348.	§ 250.1203(b)(2).
MPMS, Chapter 20, Section 1, Allocation Measurement, First Edition, September 1993, API Stock No. H30730.	§ 250.1202(k)(1).
MPMS, Chapter 21, Section 1, Electronic Gas Measurement, First Edition, September 1993, API Stock No. H30730.	§ 250.1203(b)(4).
ASTM Standard C33–93, Standard Specification for Concrete Aggregates including Nonmandatory Appendix.	§ 250.908(b)(4)(i).
ASTM Standard C94–96, Standard Specification for Ready-Mixed Concrete.	§ 250.908(e)(2)(i).
ASTM Standard C150–95a, Standard Specification for Portland Cement	§ 250.908(b)(2)(i).
ASTM Standard C330–89, Standard Specification for Lightweight Aggregates for Structural Concrete.	§ 250.908(b)(4)(i).
ASTM Standard C595–94, Standard Specification for Blended Hydraulic Cements.	§ 250.908(b)(2)(i).
AWS D1.1–96, Structural Welding Code—Steel, 1996, including Commentary.	§ 250.907(b)(1)(i)
AWS D1.4–79, Structural Welding Code—Reinforcing Steel, 1979	§ 250.908(e)(3)(ii).
NACE Standard MR.01–75–96, Sulfide Stress Cracking Resistant Metallic Materials for Oil Field Equipment, January 1996.	§ 250.417(p)(2)
NACE Standard RP 0176–94, Standard Recommended Practice, Corrosion Control of Steel Fixed Offshore Platforms Associated with Petroleum Production.	§ 250.907(d).

23. In the redesignated sections listed in the first column, below, references to the sections listed in the second column are revised to read as shown in the third column.

Department of Housing and Urban Development

Super Notices of Funding Availability (SuperNOFAs) for: Housing and Community Development Programs; Economic Development and Empowerment Programs; and Targeted Housing and Homeless Assistance Programs; Notice

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4340–C–02, FR–4363–C–02, FR–4364–C–02]

Super Notices of Funding Availability (SuperNOFAs) for: Housing and Community Development Programs; Economic Development and Empowerment Programs; and Targeted Housing and Homeless Assistance Programs; Extension of FHIP and Housing Counseling Application Deadline; Technical Corrections and Clarifications; and Announcement of OMB Approval Numbers

AGENCY: Office of the Secretary, HUD.

ACTION: Extension of FHIP and Housing Counseling Application Deadline; Announcement of OMB Approval Numbers; and Technical Corrections to SuperNOFAs.

SUMMARY: The purpose of this notice is to extend the application due dates for the Fair Housing Initiatives Program (FHIP) and the Housing Counseling Program, that were part of the funding availability notices announced in HUD's SuperNOFA for Housing and Community Development Programs (SuperNOFA I), published on March 31, 1998. The purposes of this notice are also to announce OMB approval numbers for two programs contained in the SuperNOFAs and to correct certain technical errors that appeared in the SuperNOFAs or clarify certain provisions.

DATES: APPLICATION DUE DATES: The application due date for the Fair Housing Initiatives Program (FHIP) and the Housing Counseling Program, announced in SuperNOFA I, is extended to *June 25, 1998*. No other application due dates are extended by this notice.

FOR FURTHER INFORMATION CONTACT: For general information about this notice, contact Camille E. Acevedo, Assistant General Counsel for Regulations, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410; telephone (202) 708–3055 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

For information concerning a particular program, please contact the office or individual listed in the "For Further Information" portion of the program section of the applicable SuperNOFA.

SUPPLEMENTARY INFORMATION:

Background

On March 31, 1998 (63 FR 15490), HUD published its SuperNOFA for Housing and Community Development Programs (SuperNOFA I). On April 30, 1998, HUD published the following NOFAs: SuperNOFA for Economic Development and Empowerment Programs (SuperNOFA II) (63 FR 23876); SuperNOFA for Targeted Housing and Homeless Assistance Programs (SuperNOFA III) (63 FR 23988); and SuperNOFA for National Competition Programs (National SuperNOFA) (63 FR 23958). The purposes of this notice are to: extend the application due date for the FHIP and Housing Counseling Programs, announced in SuperNOFA I; announce the OMB approval numbers of two programs that were part of the SuperNOFAs; to correct certain technical errors that appeared in the SuperNOFAs; and to clarify certain provisions.

Extension of FHIP and Housing Counseling Application Due Dates

In SuperNOFA I, HUD announced that the application due dates for the Fair Housing Initiatives Program (FHIP) and the Housing Counseling Program to be June 1, 1998. Due to delays in receipt of the application kits for the FHIP program from the printer, FHIP program applicants faced a hardship in not having kits available to complete their applications. Accordingly, to assist FHIP program applicants, HUD is extending the application due date for the FHIP and Housing Counseling programs to *June 25, 1998.*

Announcement of OMB Approval Numbers

In SuperNOFA II, HUD noted that the OMB approval for the Local Lead Hazard Awareness Campaign program was pending (see 63 FR 23880). In the National SuperNOFA, HUD noted that the OMB approval number for the National Lead Hazard Awareness Campaign was pending (see 63 FR 23961). Since publication of these two SuperNOFAs, both OMB approval numbers have been received and they are, respectively: 2539–0013 and 2539–0014. Please note that in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

Federal Register Correction of Printing Errors

In addition to the corrections being made by this notice, the Department notes that in the printing of SuperNOFA I, two printing errors were made and these errors were corrected by the Federal Register in the **Federal Register** issue of Tuesday, May 5, 1998 (see 63 FR 24843). Those corrections pertained to the Public Housing Drug Elimination program section of SuperNOFA I (beginning at 63 FR 15586). For the convenience of the reader, the corrections published on May 5, 1998 are as follows:

1. On page 15587, in the first column, in paragraph (c)(iii) in the second line, "24,000" should be "25,000."

2. On page 15587, in the second column, in the first line "$250,000 per unit" should read "$250.00 per unit."

Corrections and Clarifications Made by This Notice

This notice corrects editorial and technical errors that have been identified in various program sections of SuperNOFAs I, II, and III.

Accordingly, the following corrections are made:

I. In the SuperNOFA for Housing and Community Development Programs (SuperNOFA I), notice document 98–8102, beginning at 63 FR 15490, in the issue of Tuesday, March 31, 1998, the following corrections are made:

A. *General Section of the SuperNOFA, Beginning at 63 FR 15493*

1. On page 15496, in the middle column, under Section IV (captioned "Application Submission Requirements"), a new sentence is added at the end of that section to read as follows:

Whenever a provision of an application kit for one of the programs included in this SuperNOFA is inconsistent with a provision of this SuperNOFA, the provision of the SuperNOFA will prevail.

B. *Historically Black Colleges and Universities (HBCUs) Program Section of SuperNOFA I, Beginning at 63 FR 15527*

1. On page 15529, in the middle column, the last sentence of the first paragraph of Section II(A)(2) is removed.

C. *Fair Housing Initiatives Program Section of SuperNOFA I, Beginning at 63 FR 15536*

1. On page 15539, in the third column, in Section II(A)(4), captioned "Project Starting Period," the date of "October 1, 1998" in this paragraph is replaced with the phrase "90 days from the date of the grant award."

2. On page 15539, in the third column, in the first sentence of Section

II(A)(10), captioned "Outreach Expenses," the words "Enforcement (PEI/FHOI)" are inserted before the word "Applications."

D. *Housing Counseling Program section of SuperNOFA I, beginning at 63 FR 15545.*

1. On page 15549, in the middle column, in Section I(C)(1)(b)(ii), captioned "National, Regional, or Multi-State Intermediaries," the second to the last sentence of this paragraph (ii) is removed.

2. On page 15550, in the first column, the "Note" under Section I(D)(2) is corrected by removing the words "or State housing finance agency" in line 6 of the Note.

E. *Revitalization of Severely Distressed Public Housing (HOPE VI Revitalization) program section of SuperNOFA I, beginning at 63 FR 15577.*

1. On page 15577, under "Application Due Date," the phrase "12:00 pm Eastern time" should be "12:00 midnight, Eastern time."

2. On page 15583, in the third column, a new paragraph (d) is added to Section III(C)(1), and on page 15584, in the first column, a new paragraph (d) is added to Section III(C)(2), and both new paragraphs (d) read as follows:

If two or more applications have the same score and there are insufficient funds to fund all of them, the application(s) with the highest score for the Soundness of Approach rating factor shall be selected for funding. If a tie still remains, the application(s) with the highest score for the Capacity of the Applicant and Relevant Organizational Experience rating factor shall be selected. Further tied applications will be selected by their scores in the Need/Extent of Problem, Leveraging Resources, and Comprehensiveness and Coordination rating factors, in that order.

F. *Public Housing Drug Elimination Program section of SuperNOFA I, beginning at 63 FR 15586.*

1. On page 15587, first column, in Section I(C)(3)(a), a second paragraph is added to paragraph (a) so that paragraph (a) reads as follows:

(a) PHAs: The unit count includes rental, Turnkey III Homeownership and Section 23 leased housing bond-financed projects.

PHAs preparing PHDEP applications are required to confirm/validate the unit count with the local Field Office (Office of Public Housing) before the application is submitted.

Field Offices shall not include non-Federally Assisted Housing located in High Intensity Drug-Trafficking Areas in the unit count. Confirmation/Validation may be given if the unit count to be used for a particular program (eg., PHA-Owned Rental) is the same as the unit count reflected on a PHA's most recently approved Operating Budget (Form HUD–52564) and/or subsidy calculation (Form HUD–52723) submitted for that program. Field Offices that have PHAs that are not required to submit either of these forms may confirm/validate the PHDEP unit count if it is the same as the most recently submitted Form HUD–51234. Note: In determining the unit count for PHA-Owned Rental Housing, a long-term vacancy unit as defined in 24 CFR 990.102 is included in the count.

2. On page 15587, first column, in the first sentence of the second paragraph of Section I(C)(3)(b) the words "and occupied" is removed so that the sentence reads: "Eligible units are those units which are under management and fully developed."

3. On page 15587, first column, a third paragraph is added to paragraph (b) of Section I(C)(3) to read as follows:

Use the number of units counted as Formula Current Assisted Stock for Fiscal Year 1998 as defined in 24 CFR 1000.316. Tribes who have not previously received funds from the Department under the 1937 Act should count housing units under management that are owned and operated by the tribe and are identified in their housing inventory as of September 30, 1997.

4. On page 15587, first column, in Section I(C)(3)(c)(iv), "$30 million" should read "$35 million."

5. On page 15592, in the third column, a new paragraph (10) is added to Section I(E) to read as follows:

(10) *High Intensity Drug Trafficking Areas (HIDTAs).* Funding may be used for the activities to eliminate drug-related crime in housing owned by public housing agencies that is not public housing assisted under the United States Housing Act of 1937 and is not otherwise federally assisted (for example, housing that receives tenant subsidies under Section 8 is federally assisted and would not qualify, but housing that receives only State, Tribal or local assistance would qualify if they meet all of the following: (i) The housing is located in a high intensity drug trafficking area designated pursuant to Section 1005 of the Anti-Drug Abuse Act of 1988; and (ii) The PHA owning the housing demonstrates, on the basis of information submitted that the drug-related crime at the housing authority has a detrimental affect on or about the housing. The High Intensity Drug Trafficking Areas are areas identified as having problems that adversely impact the rest of the country. These areas are designated as HIDTAs by the Director, Office of National Drug Control Policy (ONDCP), pursuant to the Anti-Drug Abuse Act of 1988. As of May 1998 the following areas were confirmed by the ONDCP as designated HIDTAs:

—New York HIDTA consists of the city of New York and all the municipalities therein and Nassau, Suffolk, and Westchester Counties in New York);
—New Jersey HIDTA consists of Union, Hudson, Essex, Bergen, and Passaic Counties and all municipalities in New Jersey;
—Washington, DC—Baltimore HIDTA consists of Washington, DC; the city of Baltimore, and Baltimore, Howard, Anne Arundel, Prince George's, Montgomery and Charles Counties (in Maryland); and the city of Alexandria and Arlington, Fairfax, Prince William, and Loudoun Counties (in Virginia) and all municipalities therein;
—South Florida HIDTA consists of the city of Miami and the surrounding areas of Broward, Dade, and Monroe Counties and all municipalities therein;
—Houston HIDTA consists of the city of Houston and surrounding areas of Harris, and Galveston Counties and all municipalities therein;
—Lake County HIDTA consists of Lake County, Indiana, and all municipalities therein;
—Gulf Coast HIDTA consist of Baldwin, Jefferson, Mobile, and Montgomery Counties (in Alabama); Caddo, East Baton Rouge, Jefferson, and Orleans Parishes (in Louisiana); and Hancock, Harrison, Hinds, and Jackson Counties (in Mississippi) and the municipalities therein;
—Midwest HIDTA consists of Muscatine, Polk, Pottawattamie, Scott and Woodbury Counties (in Iowa); Cherokee, Crawford, Johnson, Labette, Leacenworth, Saline, Seward, and Wyandotte Counties (in Kansas); Cape Garardeau, Christian, Clay, Jackson, Lafayette, Lawrence, Ray, Scott, and St. Charles Counties, and the City of St. Louis, MO (in Missouri); Dakota, Dawson, Douglas, Hall, Lancaster, Sarpy, and Scott's Bluff Counties (in Nebraska); Clay, Codington, Custer, Fall River, Lawrence, Lincoln, Meade, Minnehaha, Pennington, Union, and Yankton Counties (in South Dakota); and all municipalities therein;
—Rocky Mountains HIDTA consists of Adams, Arapahoe, Denver, Douglas, Eagle, El Pasco, Garfield, Jefferson, La Plate, and Mesa Counties (in Colorado); Davis, Salt Lake, Summit, Utah, and Weber Counties (in Utah); Laramie, Natrona, and Sweetwater Counties (in Wyoming) and all municipalities therein;
—Southwest Border HIDTA consists of San Diego and Imperial Counties (in California), and all municipalities therein; Yuma, Maricopa, Pinal, Pima, Santa Cruz, and Cochise Counties, (in Arizona) and all municipalities therein; Bernalillo, Hidalgo, Grant, Luna, Dona Ana, Eddy, Lea, and Otero, Chaves, and Lincoln Counties, (in New Mexico) and all municipalities therein; El Paso, Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, Pecos, Terrell, Crockett Counties (in West Texas) and all municipalities therein; Bexar, Val Verde, Kinney, Maverick, Zavala, Dimmit, La Salle, Webb, Zapata, Jim Hogg, Starr, Hildago, Willacy and Cameron Countries (in South Texas) and all municipalities therein;
—Northwest HIDTA consists of King, Pierce, Skagit, Snohomish, Thurston, Whatcom and Yakima Counties (in the State of Washington) and all municipalities therein;
—Los Angeles HIDTA consists of the city of Los Angeles and surrounding areas of Los Angeles, Orange, Riverside, and San Bernadino Counties, and all municipalities therein; and

—Puerto Rico/U.S. Virgin Islands HIDTA consists of the U.S. territories of Puerto Rico and the Virgin Islands.
—San Francisco Bay Area HIDTA consists of Alameda, Contra Costa, Lake, Marin, Monterey, San Francisco, San Mateo, Santa Clara, Santa Cruz, Sonoma counties and all the municipalities therein.
—Appalachia HIDTA consist of Adair, Bell, Breathitt, Clay, Clinton, Cumberland, Floyd, Harlan, Jackson, Knott, Knox, Laurel, Lee, Leslie, McCreary, Magoffin, Marion, Monroe, Owsley, Perry, Pike, Pulaski, Rockcastle, Taylor, Wayne. and Whitley counties in Kentucky; Boone, Braxton, Cabell, Gilmer, Lewis, Lincoln, Logan, Mason, McDowell, Mingo and Wayne Counties in West Virginia, Bledsoe, Campbell, Claiborne, Clay, Cocke, Cumberland, Fentress, Franklin, Grainger, Greene, Grundy, Hamblen, Hancock, Hawkins, Jackson, Jefferson, Macon, Marion, Overton. Pickett, Putnam, Rhea, Scott, Sequatchie, Sevier, Unicoi, Van Buren and White Counties in Tennessee and all the municipalities therein.
—Central Florida HIDTA consists of Hillsborough, Orange, Osceola, Pinellas, Polk, Seminole, and Volusia counties and all the municipalities therein.
—Chicago HIDTA consists of Cook County, incorporating the City of Chicago.
—Atlanta HIDTA consists of Fulton, Dekalb counties and the City of Atlanta.
—Milwaukee HIDTA consists of Milwaukee county and all the municipalities therein.
—Southeastern Michigan HIDTA consists of Wayne, Oakland, Macomb, and Washtenaw counties and all the municipalities therein.
—Philadelphia/Camden HIDTA: consists of the Cities of Philadelphia and Camden.

For further information on HIDTAs contact Rick Yamamoto, at the ONDCP, Executive Office of the President, Washington, DC 20500 on (202) 395–6755 and/or La'Wan Sweetenberg on (202) 395–6603, fax (202) 395–6721. Field Offices in validating the unit count shall not include Non-Federally Assisted Housing units located in High Intensity Drug-Trafficking Areas.

6. On page 15596, in the third column, a second paragraph is added to Section IV (captioned "Application Submission Requirement") to read as follows:

An applicant shall submit only one application, per housing authority, for each drug elimination program contained in this program section of the SuperNOFA. Joint applications are permitted only in those cases where HAs have a single administration (such as HAS managing another HA under contract or HAs sharing a common executive director). In those cases, a separate budget, plan and timetable and unit count shall be supplied in the application.

7. On page 15596, in the third column, a new Section VII is added to read as follows:

VII. Term of Grant Agreement.

Terms of the FY 1997 and FY 1998 PHDEP grant agreement shall not exceed 24 months from the execution date of the grant agreement (Form 1044). Grant extensions during the FY 1997 and FY 1998 PHDEP funding round are not permitted. Any funds not expended at the end of the FY 1997 and FY 1998 PHDEP grant term shall be remitted to HUD.

F. *Drug Elimination Grants for Federally Assisted Low-Income Housing (Multifamily Housing Drug Elimination) Program section of SuperNOFA, beginning at 63 FR 15607.*

1. On page 15608, in the first column, under Section I(C), the last sentence of that section which begins "Owners of Section 8 tenant-based. * * *" is succeeded by two new paragraphs that read as follows:

HUD inadvertently failed to include tie-breaker language in the selection criteria for the FY 97 DEG funding round. As a result, the application submitted by the Calib Foundation on behalf of Village Heights Apartments, which received the same rating as another selected grantee, was not selected. HUD will correct this oversight by funding Village Heights in the amount of $125,000 from the FY 98 allocation. HUD is also revising this year's selection process to include tie-breaker language.

At this time, HUD is aware of only this one tie-breaker situation. However, in the event that other applicants notify HUD of similar situations and HUD can confirm that an applicant was not selected due to a tie score with a selected grantee, HUD will take additional corrective funding actions.

2. On page 15610, in the first column, under Section III, a new paragraph (C) is added to read as follows:

(C) *Tie-Breaker Situations.* If two or more applications have the same score and there are insufficient funds to fund all of them, the application(s) with the highest score for the Soundness of Approach rating factor shall be selected for funding. If a tie still remains, the application(s) with the highest score for the Capacity of the Applicant and Relevant Organizational Experience rating factor shall be selected. Further tied applications will be selected by their scores in the Need/Extent of Problem, Leveraging Resources, and Comprehensiveness and Coordination rating factors, in that order.

II. In the SuperNOFA for Economic Development and Empowerment Programs (SuperNOFA II), notice document 98–11392, beginning at 63 FR 23876, in the issue of Thursday, April 30, 1998, the following corrections are made:

A. *Introduction to the SuperNOFA Process, beginning at 63 FR 23877.*

1. On page 23878, in the middle column, the last sentence of this column is corrected to read: "The Programs Section of the SuperNOFA describes each program for which funding is being competed under this SuperNOFA."

2. On page 23880, in the first column, an asterisk is placed after the following program name "Intermediaries Technical Assistance Grant Program." and a footnote is placed at the end of the chart that contains the Intermediaries Technical Assistance Program and Outreach and Training Grants for Technical Assistance Program to read as follows: "$1,000,000 is currently available in FY 1998, and $8,000,000 is subject to appropriations in FY 1999."

B. *General Section of the SuperNOFA, beginning on 63 FR 23881.* On page 23884, in the middle column, under Section IV (captioned "Application Submission Requirements"), a new sentence is added at the section to read as follows:

Whenever a provision of an application kit for one of the programs included in this SuperNOFA is inconsistent with a provision of this SuperNOFA, the provision of the SuperNOFA will prevail.

III. In the SuperNOFA for Targeted Housing and Homeless Assistance Programs (SuperNOFA III), notice document 98–11400, beginning at 63 FR 23988, in the issue of Thursday, April 30, 1998, the following corrections are made:

A. *Introduction to the SuperNOFA Process, beginning at 63 FR 23989.*

1. On page 23990, in the middle column, the third sentence of the third paragraph in the middle column is corrected to read: "The Programs Section of the SuperNOFA describes each program for which funding is being competed under this SuperNOFA."

B. *General Section of the SuperNOFA, beginning at 63 FR 23992.*

1. On page 23995, in the first column, under Section IV (captioned "Application Submission Requirements"), a new sentence is added at the section to read as follows:

Whenever a provision of an application kit for one of the programs included in this SuperNOFA is inconsistent with a provision of this SuperNOFA, the provision of the SuperNOFA will prevail.

C. *Housing Opportunities for Persons with AIDS (HOPWA) Program section of SuperNOFA III, beginning at 63 FR 24007.*

1. On page 24011, in the middle column, under Section III(D), the reference to "Section III(C)(2) of the General Section" in the third sentence of paragraph (D) should read "Section III(C) of the General Section."

D. *Section 202 Supportive Housing for the Elderly Program section of SuperNOFA III, beginning at 63 FR 24015.*

1. On page 24025, in the first column, the first sentence of the second paragraph of Section I(D) is corrected by replacing the phrase "three (3) or more Hubs" with "a single Hub."

E. *Section 811 Supportive Housing for Persons with Disabilities Program section of SuperNOFA III, beginning at 63 FR 24031.*

1. On page 24034, in the third column, a new paragraph is added to Section I(C) which precedes the last paragraph that begins "The Section 811 capital advance * * *." The new paragraph reads as follows:

As a result of a rating error in the Boston Office, the application submitted by Employment Options, Inc. was not selected for funding under the Fiscal Year 1997 Section 811 Program of Supportive Housing for Persons with Disabilities. Since this was a HUD error, the application will be funded from the Fiscal Year 1998 allocation to the Boston Office.

2. On page 24035, the chart is amended by placing an asterisk (*) next to the word "Boston" in the first column and adding the following footnote at the bottom of the chart on page 24035.

This amount includes Capital Advance Authority of $529,300 to fund Employment Options, Inc., Marlborough, Massachusetts. Since this 6-unit project was not selected in Fiscal Year 1997 by HUD error, this application will be funded from the Fiscal Year 1998 allocation to the Boston Office.

3. On page 24039, in the first column, the first sentence of the second paragraph of Section I(D) is corrected by replacing the phrase "three (3) or more Hubs" with "a single Hub."

4. On page 24039, in the first column, a new paragraph (h) is added to Section I(E)(2) to read: "(h) Intermediate care facilities."

5. On page 24044, in the third column, in Section IV(B)(5)(f), the last sentence of the paragraph which precedes the second "Note" which appears in the third column, is revised to read as follows, and is followed by a new sentence:

In order for applications submitted with site control to be eligible for bonus points for site control, this information would have to be submitted to the local HUD Office *no later than 30 days after the application submission deadline date.* Otherwise, the application will be considered as a "site identified" application and will not receive bonus points for site control.

Dated: May 22, 1998.

Saul N. Ramirez, Jr.,

Acting Deputy Secretary.

Department of Housing and Urban Development

24 CFR Part 291

Disposition of HUD-Acquired Single Family Property; Proposed Rule

VOL 63 ISS 103 MAY 29 1998 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Part 291

[Docket No. FR–4244–P–02]

RIN 2502–AG96

Disposition of HUD-Acquired Single Family Property; Proposed Rule

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend HUD's regulations for the disposition of HUD-acquired single family properties. Through this proposed rule, HUD is seeking comments on an efficient, innovative, and cost-effective alternative for selling HUD's inventory of single family properties. This alternative would allow HUD to enter into a property acquisition agreement or agreements with an individual, partnership, corporation or other legal entity. The agreement would provide for the right and obligation of the entity to acquire designated properties, including properties that are currently in HUD's inventory, but primarily those that are or will be "in the pipeline." HUD's goals are to reduce the inventory of single family properties while continuing to expand homeownership opportunities for American families and to ensure the stability of the Federal Housing Administration (FHA) Mortgage Insurance Fund.

DATES: *Comment due date:* June 29, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this proposed rule to the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410. Communications should refer to the above docket number and title. Facsimile (FAX) comments are *not* acceptable. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address.

FOR FURTHER INFORMATION CONTACT: Joseph McCloskey, Director, Single Family Asset Management Division, Office of Insured Single Family Housing, Department of Housing and Urban Development, Room 9184, 451 Seventh Street, SW, Washington, DC 20410; telephone number (202) 708–1672 (this is not a toll-free number). For hearing- and speech-impaired persons, this number may be accessed via TTY by calling the Federal Information Relay Service at 1–800–877–8399.

SUPPLEMENTARY INFORMATION:

I. Background—Program of Sales of Single Family Properties

Section 204 of the National Housing Act (Act) (12 U.S.C. 1710) governs the Federal Housing Administration (FHA) insurance claim process and property disposition. Specifically, section 204(g) of the Act pertains to the management and disposition of HUD-acquired single family properties. HUD's implementing regulations are contained in 24 CFR part 291.

These statutory and regulatory authorities for the acquisition, handling, and disposing of HUD-acquired property make up HUD's Single Family Property Disposition program. Essentially, HUD is charged with implementing a program of sales of HUD-acquired properties along with appropriate credit terms and standards to be used in carrying out the program. Currently, HUD's principal method of selling properties is through competitive sales of individual properties to individual purchasers.

The competitive sales of individual properties is a time consuming process that does not result in efficient and prompt delivery of the single family properties to the sales market. HUD has the largest real estate-owned (REO) operation in the nation, selling in excess of 50,000 properties each year. While this volume of property sales represents only a small percentage of the total number of home sales nationwide (see the "Regulatory Flexibility Act" section of this preamble for further discussion), it represents a significant administrative responsibility for HUD. Both HUD and potential homeowners are disadvantaged by the processing time required involved in competitive sales of individual properties. It is critical for HUD to find more timely and less costly methods to dispose of its REO inventory in order to further its mission of providing homeownership opportunities for American families. In addition, HUD must dispose of these properties efficiently in order to minimize any losses to the insurance fund and to keep the costs of insurance low.

On June 13, 1997 (62 FR 32251), HUD published in the **Federal Register** an advance notice of proposed rulemaking (ANPR) to solicit public comments on better methods of disposing of HUD-owned single family properties. The ANPR suggested that such methods could include bulk sales of current inventory or future acquisitions on a regional or national basis, or arrangements similar to joint ventures, profit-sharing arrangements, or private-public partnerships. In addition to soliciting comments through the ANPR published in the **Federal Register**, HUD requested public input through a notice published in the following newspapers: *The Washington Post, The New York Times, The Wall Street Journal, Barron's,* and *U.S.A. Today.*

II. HUD's New Innovative Sales Method

After considering all the comments received on the ANPR, which are discussed below, HUD is proposing that competitive sales of individual properties to individuals will no longer be HUD's principal method of sale, as the regulations in 24 CFR part 291 currently provide. The proposed rule provides that HUD may, in its discretion, on a case-by-case basis or as a regular course of its business, choose from a variety of sales methods. The proposed rule also would add a new innovative and cost-effective sales method.

Under the new sales method, HUD will invite interested entities to participate in a competitive selection process for the right and obligation to acquire properties designated by HUD. (For purposes of this rule, HUD refers to this sales method as the "future REO acquisition method.") HUD intends that these designated properties would consist primarily of "pipeline" properties. Pipeline properties are those that would otherwise come into HUD's inventory in the future. These designated properties could also include properties that are currently in HUD's inventory. HUD and the selected entity/transferor would enter into a property acquisition agreement, which would provide for the right and obligation of the transferor to acquire the designated properties as the properties become available. Under this method, HUD would have the right to negotiate the specific terms of such an agreement with the selected transferor. HUD is considering defining the entity's obligation to acquire the properties in terms of a specific geographic region or regions over a specific period of time, as well as utilizing the capacity of such entity to support HUD's loss mitigation efforts. The selected transferor would generally be responsible for managing and selling the individual REO properties. With respect to this method of disposition, HUD encourages qualified entities that currently are engaged in the process of management and disposition of HUD's REO inventory to consider participation in the future REO acquisition method by partnering

with other qualified entities, if they themselves lack the resources to participate individually. Furthermore, HUD will make available to the selected transferor(s) a list of all entities (by service and geography) who currently participate in HUD's REO disposition process for its use in performing the future acquisition method.

As noted earlier, HUD has the discretion to use other methods of sale, in addition to this future REO acquisition method, including competitive sales of individual properties to individuals, direct sales, bulk sales, and other sales as determined necessary by the Secretary. HUD anticipates, however, that the new future REO acquisition method or other similar arrangements would allow HUD to transfer most of the properties it acquires (or would otherwise acquire), quickly and efficiently and in a manner that allows HUD to better achieve its national housing goals.

The ability to move the properties out of HUD's inventory quickly and efficiently is crucial. The longer the properties remain in HUD's inventory, the more HUD's holding costs increase, and the longer they remain unavailable as homeownership opportunities for potential purchasers. Using disposition methods such as the future REO acquisition method would be more efficient and expedient than HUD's current sales methods, since HUD anticipates that the entities interested in such arrangements will be experienced in high-volume property sales. HUD anticipates that competition among interested entities would enhance this benefit and result in maximum efficiency and return. Therefore, using innovative property disposal methods such as the future REO acquisition method should not only ensure the maximum possible return to the mortgage insurance fund; it should also help to strengthen neighborhoods and communities and help to expand homeownership opportunities in order to help provide decent, safe, and affordable housing.

HUD anticipates, however, that the future REO acquisition method could result in fewer properties available for direct sales to nonprofit organizations and units of government. HUD understands that there are entities that rely upon HUD-acquired properties as a resource for their housing programs, and HUD is committed to continuing its partnership with these groups. Therefore, in order to minimize the anticipated effects of any decreased availability of properties, HUD intends to make available a portion of the properties acquired in HUD-designated revitalization areas to nonprofit organizations (including homeless providers and nonprofit organizations representing persons with disabilities or other classes of persons protected by the Fair Housing Act) and units of government for use in HUD and local housing or homeless programs (see § 291.90(c)(1) of this proposed rule).

III. Discussion of Public Comments on ANPR

HUD received 52 comments in response to the June 13, 1997 ANPR and simultaneous newspaper publications. The following discussion provides a summary of the issues and recommendations raised by the commenters.

New Methods of Sale

A few commenters offered suggestions for new methods of sale for HUD's inventory. For example, one commenter proposed that HUD enter into a contract with that commenter, which proposed to provide electronic marketing of HUD-owned single family properties. While HUD currently lists properties available for sale in large circulation newspapers, and some offices list properties on the World Wide Web, HUD is looking for a new means to reduce substantially the on-hand inventory, now and into the future, rather than a new means to market that inventory.

Another commenter suggested that HUD outsource the REO management and liquidation function to experienced companies located in areas that correspond to HUD's Homeownership Centers. HUD is considering expanding the use of the management and marketing-type contracting that is being tested in New Orleans, Baltimore, and Sacramento, which would rely upon local real estate brokers, appraisers, and closing agents for the inventory not sold through the future REO acquisition method. Therefore, HUD will continue to consider the suggestions of these commenters. At this time, however, HUD is proposing to rely upon the future REO acquisition process described above to transfer most of the properties.

One commenter suggested that HUD form joint venture arrangements with selected nonprofit real estate development organizations to reduce the inventory. Another commenter suggested that HUD sell properties in identified neighborhoods in bulk to a State agency that would then enter into a joint venture with a nonprofit. Several other commenters suggested that HUD give greater priority to nonprofits and/or government agencies. HUD intends to continue to offer a certain percentage of properties to nonprofit organizations and local government entities. In addition, this proposed rule would not preclude States and nonprofits from participating in the sales process described in this rule through partnering arrangements with each other or with the successful transferor. HUD believes, however, that reducing the inventory through the future REO acquisition method would be more cost-effective.

One commenter recommended that Federal agencies combine their resources and sell properties via auctions under the Government Owned Real Estate (G.O.R.E.) project. HUD has participated in G.O.R.E. auctions in the past and anticipates doing so in the future. However, since HUD has a much higher volume of properties in its inventory and a greater need for frequent sales than other Federal agencies, the G.O.R.E. auctions have a limited utility for HUD. HUD anticipates that the effort described in this proposed rule would be a more efficient method of selling the bulk of its inventory, because transferors could be available to acquire properties on a continual basis in many regions.

Opposition to Bulk Sales

Several commenters opposed selling HUD's single family acquired properties through bulk sales. Two commenters warned that bulk sales will negatively affect real estate values and could cause a local depression of the real estate market. Three commenters (real estate brokers/managers) claimed that bulk sales would put them out of business.

Contrary to these commenters' objections, however, HUD is primarily considering selling a pipeline of properties to transferors chosen through a competitive process, rather than selling acquired properties through bulk sales. HUD does not believe that the sales arrangement described in this proposed rule would adversely affect real estate values or cause a depression of local real estate markets, since HUD anticipates that the ultimate sales of the individual properties by the chosen transferors will result in fair market pricing. Although HUD may sell properties that are currently in inventory through a bulk sale arrangement, any such sales will be structured to take into account the impact on local communities.

HUD has performed an analysis on the impact the future REO acquisition method would have on small businesses that do business with HUD, such as real estate brokers. This analysis is described below under the heading "Regulatory Flexibility Act." This new sales method

UMI
VOL
63
ISS
103
MAY
29
1998
UMI

should not significantly affect small businesses, especially if the transferors use a process of selling the properties that is similar to HUD's. In an effort to mitigate any such impact, however, HUD would encourage its transferors to use local firms to assist in their disposal of the single family acquired properties.

IV. Changes to Regulations in 24 CFR Part 291

Specifically, this proposed rule would amend the regulations in 24 CFR part 291 to:

1. Add a new section (see § 291.200 of this proposed rule) to describe basic procedures for the future REO acquisition sales method. The proposed § 291.200 contains general information regarding the process by which HUD anticipates conducting the new sales method. HUD plans to advertise the availability of acquisition opportunities to the public, and to provide detailed information to interested eligible entities.

2. Reorganize the property disposition regulations to allow for and to recognize the use of innovative sales procedures such as the future REO acquisition method, by:

a. Revising § 291.5 (Definitions), primarily by moving relevant definitions to subpart E;

b. Creating a new § 291.90 in subpart B to describe all the sales methods that will be available to the Secretary;

c. Moving the flood insurance requirements from § 291.100(f) to § 291.100(c)(1) regarding individual properties that are sold with FHA mortgage insurance; HUD's requirements for flood insurance apply only to FHA-insured mortgages in these circumstances.

d. Redesignating § 291.200 of the current regulations, regarding HUD's policy for the rental of acquired property, as § 291.10 in subpart A of part 291.

e. Revising the heading of existing subpart C to read "Sales Procedures." This rule would move the provisions of §§ 291.105 and 291.110 into subpart C (see §§ 291.205 and 291.210 of this proposed rule), to follow the new § 291.200 regarding the future REO acquisition method (described above).

HUD anticipates that it would rely heavily upon the future REO acquisition method or similar arrangements to sell its inventory of single family properties (so long as such arrangements are found to be economically viable and in furtherance of the national housing goals), rather than the sales methods described in §§ 291.205 and 291.210 of this rule. However, this rule would preserve the procedures for those sales methods and retain them as viable sales options. If HUD seeks to use direct sales to other individuals or entities that do not meet any of the other categories of sales, this rule would continue to require the Assistant Secretary for Housing-Federal Housing Commissioner to make a finding that disposing of properties in such a manner would be in the best interest of the Secretary (see § 291.210(c) of this rule.)

V. Nondiscrimination Requirements

HUD's responsibilities and priorities include ensuring compliance with applicable nondiscrimination requirements, such as the Americans with Disabilities Act, section 504 of the Rehabilitation Act of 1973, and the Fair Housing Act. With regard to the disposition of single family properties in HUD's inventory, all resales by public entities are subject to compliance with Title II of the Americans with Disabilities Act. All resales by both public and private entities are subject to compliance with the Fair Housing Act.

In addition, HUD must comply with section 504 of the Rehabilitation Act of 1973, which requires nondiscrimination based on disability in programs or activities conducted by any executive agency. HUD regulations implementing this requirement are in 24 CFR part 9. Under § 9.155(a) of those regulations, HUD must ensure that its Property Disposition Program policies and practices do not discriminate on the basis of disability, against a qualified individual with disabilities. HUD will take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public. HUD will provide appropriate auxiliary aids as necessary to afford an individual with disabilities an equal opportunity to participate in this program.

VI. Justification for Shortened Comment Period

In general, it is HUD's policy that notices of proposed rulemaking are to afford the public not less than 60 days for submission of comments, in accordance with its regulations on rulemaking in 24 CFR part 10. However, HUD has determined that there is good cause to reduce the public comment period for this proposed rule to 30 days. As discussed earlier in this preamble, HUD anticipates that this future REO acquisition method of disposing of single family properties would be more efficient and expedient than HUD's current method of competitive individual property sales, thereby increasing homeownership opportunities and helping to build strong neighborhoods and communities. The completion of this rulemaking would be necessary in order for HUD to begin the process of selecting and negotiating with the transferor(s). (However, nothing in this rule prevents HUD from conducting a bulk sale of property in its inventory.)

HUD has provided the public with notice and an opportunity to comment on innovative sales procedures in the advanced notice of proposed rulemaking published in the **Federal Register** on June 13, 1997 (62 FR 32251). HUD also sought public input by publishing a notice in several prominent newspapers and business journals. Therefore, HUD has determined that the 30-day comment period for this proposed rule should provide sufficient notice and opportunity for interested entities to comment. In order to provide the fullest and most expedient access to the provisions of this proposed rule, HUD will make it available on the HUD Home Page on the World Wide Web at http://www.hud.gov, on the date of publication in the **Federal Register**. HUD will also directly notify entities that have expressed a significant interest to HUD by sending such entities a copy of this proposed rule.

VII. Findings and Certifications

Executive Order 12866

The Office of Management and Budget (OMB) reviewed this proposed rule under Executive Order 12866, *Regulatory Planning and Review*. OMB determined that this rule is a "significant regulatory action," as defined in section 3(f) of the Order. Any changes made to this rule as a result of that review are clearly identified in the docket file. The docket file and the Economic Analysis prepared for this rule are available for public inspection between 7:30 a.m. and 5:30 p.m. in the Office of the Rules Docket Clerk, Department of Housing and Urban Development, Room 10276, 451 Seventh Street, S.W., Washington, DC.

Environmental Impact

A Finding of No Significant Impact with respect to the environment was made in accordance with HUD regulations in 24 CFR part 50 that implement section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4223). The Finding is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban

Development, 451 Seventh Street, SW, Washington, DC.

Regulatory Flexibility Act

The Secretary, in accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), has reviewed this proposed rule before publication and by approving it certifies that this rule would not have a significant economic impact on a substantial number of small entities.

(1) *No Significant Economic Impact.* The future REO acquisition method would not result in a significant economic impact on a substantial number of small entities. During fiscal year 1997, the sale of HUD homes represented only 1.2 percent of total home sales, using only 1.6 percent of the active selling brokers. Since HUD's home sales are a very small portion of the overall home sales business, the economic impact of this rule would not be significant, and it would not affect a substantial number of small entities.

(2) *A Substantial Number of Small Entities Will Not be Affected.* HUD has determined that there are approximately 18,000 small entities that could be affected by this rule, including nonprofit organizations, State and local governments, Real Estate Asset Managers (REAMs), real estate brokers, selling agents, closing agents, and repair contractors. The number of entities potentially affected by this rule is not substantial, and any potential economic impact would not be significant. A transferor under this new arrangement may use a sales process similar to HUD's previous sales process, in which case a number of the entities that would continue to be involved in the ultimate sales of the properties would be small entities. In an effort to mitigate any potential impact on small entities, HUD would encourage the transferor(s) to use small local firms to assist in their disposal of single family acquired properties.

Notwithstanding HUD's determination that this rule would not have a significant economic effect on a substantial number of small entities, HUD specifically invites comments regarding any less burdensome alternatives to this rule that will meet HUD's objectives as described in this preamble.

Executive Order 12612, Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, *Federalism*, has determined that the policies contained in this rule would not have substantial direct effects on States or their political subdivisions, on the relationship between the Federal Government and the States, or on the distribution of power and responsibilities among the various levels of government. This rule simply allows HUD to use innovative methods of selling its inventory of single family homes. As a result, this rule is not subject to review under the Order.

Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4; approved March 22, 1995) (UMRA) establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments, and the private sector. This rule does not impose any Federal mandates on any State, local, or tribal governments, or on the private sector, within the meaning of the UMRA.

List of Subjects in 24 CFR Part 291

Community facilities, Conflict of interests, Homeless, Lead poisoning, Low and moderate income housing, Mortgages, Reporting and recordkeeping requirements, Surplus government property.

Accordingly, for the reasons stated in the preamble, 24 CFR part 291 is proposed to be amended as follows:

PART 291—DISPOSITION OF HUD-ACQUIRED SINGLE FAMILY PROPERTY

1. The authority citation for 24 CFR part 291 continues to read as follows:

Authority: 12 U.S.C. 1709 and 1715b; 42 U.S.C. 1441, 1441a, 1551a, and 3535(d).

2. In part 291, subparts A, B, and C are revised to read as follows:

Subpart A—General Provisions

Sec.
291.1 Purpose and general requirements.
291.5 Definitions.
291.10 General policy regarding rental of acquired property.

Subpart B—Disposition by Sale

291.90 Sales methods.
291.100 General policy.

Subpart C—Sales Procedures

291.200 Future REO acquisition method.
291.205 Competitive sales of individual properties.
291.210 Direct sales procedures.

Subpart A—General Provisions

§ 291.1 Purpose and general requirements.

(a) *Purpose.* (1) This part governs the disposition of one-to-four family properties. HUD will issue detailed policies and procedures that must be followed in specific areas.

(2) The purpose of the property disposition program is to dispose of properties in a manner that expands homeownership opportunities, strengthens neighborhoods and communities, and ensures a maximum return to the mortgage insurance fund.

(b) *Nondiscrimination policy.* The requirements set forth in 24 CFR parts 5 and 110 apply to the administration of any activity under this part. In addition, in accordance with 24 CFR 9.155(a), HUD must ensure that its policies and practices in conducting the single family property disposition program do not discriminate on the basis of disability.

§ 291.5 Definitions.

(a) The terms *HUD* and *Secretary* are defined in 24 CFR part 5.

(b) Other terms used in this part are defined as follows:

Closing agent means a qualified firm or person under contract to HUD to administer closings involving the sale of HUD-acquired single family properties.

Competitive sale to individual means a sale of an individual property to an individual bidder through a sealed bid process (or other bid process specifically authorized by the Secretary) in competition with other bidders in which properties have been publicly advertised to all prospective purchasers for bids.

Direct sale means a sale to a selected purchaser to the exclusion of all others without resorting to advertising for bids. Such a sale is available only to approved applicants.

Eligible properties means HUD-acquired properties designated by HUD for property disposition or other housing programs.

HUD-acquired properties means all single family properties acquired by HUD or properties that HUD is otherwise obligated to acquire under the Mutual Mortgage Insurance Fund, the Special Risk Insurance Fund, the General Insurance Fund, or other housing programs, except properties committed to other HUD programs.

Insured mortgage means a mortgage insured under the National Housing Act (12 U.S.C. 1701 et seq.).

Investor purchaser means a purchaser who does not intend to use the property as his or her principal residence.

Lessee means the applicant, approved by HUD as financially responsible, that executes a lease agreement with HUD for an eligible property.

Owner-occupant purchaser means a purchaser who intends to use the property as his or her principal residence; a State, governmental entity, tribe, or agency thereof; or a private

UMI
VOL
63
ISS
103
MAY
29
1998
UMI

nonprofit organization as defined in this section. Governmental entities include those with general governmental powers (e.g., a city or county), as well as those with limited or special powers (e.g., public housing agencies).

Preapproved means a commitment has been obtained from a recognized mortgage lender for mortgage financing in a specified dollar amount sufficient to purchase the property.

Private nonprofit organization means a secular or religious organization, no part of the net earnings of which may inure to the benefit of any member, founder, contributor, or individual. The organization must:

(1) Have a voluntary board;

(2)(i) Have a functioning accounting system that is operated in accordance with generally accepted accounting principles; or

(ii) Designate an entity that will maintain a functioning accounting system for the organization in accordance with generally accepted accounting principles;

(3) Practice nondiscrimination in the provision of assistance in accordance with the authorities described in § 291.435(a); and

(4) Have nonprofit status as demonstrated by approval under section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)), or demonstrate that an application for such status is currently pending approval.

Purchase money mortgage, or *PMM*, means a note secured by a mortgage or trust deed given by a buyer, as mortgagor, to the seller, as mortgagee, as part of the purchase price of the real estate.

Single family property means a property designed for use by one to four families.

State means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

Tribe has the meaning provided for the term "Indian tribe" in section 102 of the Housing and Community Development Act of 1974 (42 U.S.C. 5302).

§ 291.10 General policy regarding rental of acquired property.

HUD will lease acquired property to comply with other designated HUD programs, or when the Secretary determines that it is in the interest of HUD. Leases may include an option to purchase in appropriate circumstances.

Subpart B—Disposition by Sale

§ 291.90 Sales methods.

HUD will prescribe the terms and conditions for all methods of sale. HUD may, in its discretion, on a case-by-case basis or as a regular course of business, choose from among the following methods of sale:

(a) *Future REO acquisition method.* The Future Real Estate-Owned (REO) acquisition method consists of a property acquisition agreement (or agreements) between HUD and a transferor (or transferors), which shall provide for the right and obligation of the transferor(s) to acquire a future quantity of properties designated by HUD as they become available. HUD will select such transferor(s) through a competitive process, in accordance with all applicable laws and regulations, including the requirements in § 291.200. The transferor(s) shall have the right and obligation to manage and dispose of the properties upon such terms and conditions as are approved by the Secretary;

(b) *Competitive sales of individual properties.* This method consists of competitive sales of individual properties to individual buyers, the procedures for which are described in § 291.205;

(c) *Direct sales methods.* There are three types of direct sales methods:

(1) Direct sales of properties located in HUD-designated revitalization areas to governmental entities and private nonprofit organizations, the procedures for which are described in § 291.210(a);

(2) Direct sales to displaced persons, sales of razed lots, or auctions, the procedures for which are described in § 291.210(b);

(3) Direct sales to other individuals or entities that do not meet any of the categories specified in paragraphs (a) through (d) of this section, under the circumstances and procedures described in § 291.210(c);

(d) Bulk sales, the procedures for which are described in § 291.210(d); or

(e) *Other sales methods.* HUD may select any other methods of sale, as determined by the Secretary.

§ 291.100 General policy.

For all sales, except as otherwise specifically indicated, those sales conducted in accordance with §§ 291.90(a) and 291.200 or with subpart D of this part, the following general policies apply:

(a) *Qualified purchaser.* (1) Anyone, including a purchaser from a transferor of a property pursuant to §§ 291.90(a) and 291.200, regardless of race, color, religion, sex, national origin, familial status, age, or disability may offer to buy a HUD-owned property, except that:

(i) No member of or delegate to Congress is eligible to buy or benefit from a purchase of a HUD-owned property; and

(ii) No nonoccupant mortgagor (whether an original mortgagor, assumptor, or a person who purchased "subject to") of an insured mortgage who has defaulted, thereby causing HUD to pay an insurance claim on the mortgage, is eligible to repurchase the same property.

(2) Neither HUD nor any transferor pursuant to §§ 291.90(a) or 291.200 will offer former mortgagors in occupancy who have defaulted on the mortgage the right of first refusal to repurchase the same property.

(3) HUD will offer tenants accepted under the occupied conveyance procedures outlined in 24 CFR 203.670 through 203.685 the right of first refusal to purchase the property only if:

(i) The tenant has a recognized ability to acquire financing and a good rent-paying history, and has made a request to HUD to be offered the right of first refusal; or

(ii) State or local law requires that tenants be offered the right of first refusal.

(b) *List price.* The list price, or "asking price," assigned to the property is based upon an appraisal conducted by an independent real estate appraiser using nationally recognized industry standards for the appraisal of residential property.

(c) *Insurance.* Properties may be sold under the following programs:

(1) *Insured.* A property that HUD believes meets the intent of the Minimum Property Standards (MPS) for existing dwellings (Requirements for Existing Housing, One to Four Family Living Units, HUD Handbook 4905.1, which is available at the Department of Housing and Urban Development, HUD Customer Service Center, 451 7th Street, SW, Room B–100, Washington, DC 20410; by calling (202) 708–3151; or via the Internet at www.hud.gov) will be offered for sale in "as-is" condition with FHA mortgage insurance available. Flood insurance must be obtained and maintained as provided in 24 CFR 203.16a.

(2) *Insured with repair escrow.* A property that requires no more than $5,000 for repairs to meet the intent of the MPS, as determined by the Secretary, will be offered for sale in "as-is" condition with FHA mortgage insurance available, provided the mortgagor establishes a cash escrow to ensure the completion of the required repairs.

(3) *Uninsured.* A property that fails to qualify under either paragraph (c)(1) or (c)(2) of this section will be offered for sale either in "as-is" condition without mortgage insurance available, or under section 203(k) of the National Housing Act (12 U.S.C. 1709(k)).

(d) *Financing.* (1) Except as provided in paragraph (d)(2) of this section, the purchaser is entirely responsible for obtaining financing for purchasing a property.

(2) HUD, in its sole discretion, may take back purchase money mortgages (PMMs) on property purchased by governmental entities or private nonprofit organizations who buy property for ultimate resale to owner-occupant purchasers with incomes at or below 115 percent of the area median income. When offered by HUD, a PMM will be available in an amount determined by the Secretary to be appropriate, at market rate interest, for a period not to exceed 5 years. Mortgagors must meet FHA mortgage credit standards.

(e) *Environmental requirements and standards.* Sales under this part are subject to the environmental requirements and standards described in 24 CFR part 50, as applicable.

(f) [Reserved]

(g) *Lead-based paint poisoning prevention.* Properties constructed before 1978 are subject to the requirements for the evaluation and reduction of lead-based paint hazards contained in 24 CFR part 35 and 24 CFR part 200, subpart O.

(h) *Open listings.* Except as provided in paragraph (i) of this section, properties are sold on an open listing basis with participating real estate brokers. Any real estate broker who has agreed to comply with HUD requirements may participate in the sales program. Purchasers participating in the competitive sales program, except government entities and nonprofit organizations, must submit bids through a participating broker.

(i) *Asset management and listing contracts.* (1) A field office may invite firms experienced in property management to compete for contracts that provide for an exclusive right to manage and list specified properties in a given area.

(2) In areas where a broker has an exclusive right to list properties, a purchaser may use a broker of his or her choice. The purchaser's broker must submit the bid to HUD through the exclusive broker.

Subpart C—Sales Procedures

§ 291.200 Future REO acquisition method.

(a) Under this method of property disposition, HUD will enter into a property acquisition agreement (or agreements) with a transferor (or transferors), which shall provide for the right and obligation of the transferor(s) to acquire a future quantity of properties designated by HUD as they become available. The transferor(s) will be selected through a competitive process, conducted in accordance with applicable laws. HUD will negotiate the specific terms of the property acquisition agreement(s) with the selected transferor(s). The properties will be available on an "as-is" basis only, without repairs or warranties.

(b) *Eligible entities.* An individual, partnership, corporation, or other legal entity will not be eligible to participate if at the time of the sale, that individual or entity is debarred, suspended, or otherwise precluded from doing business with HUD under 24 CFR part 24.

§ 291.205 Competitive sales of individual properties.

When HUD conducts competitive sales of individual properties to individual buyers, it will sell the properties on an "as-is" basis, without repairs or warranties, and it will follow the sales procedures provided in this section.

(a) *General.* (1) Properties that are sold on an individual competitive bid basis are sold through local real estate brokers, except as provided in § 291.100(h).

(2) For properties being offered with mortgage insurance, priority will be given to owner-occupant purchasers, as defined in § 291.5, for a period of up to 30 days, as determined by HUD. For properties offered without mortgage insurance, priority will be given to governmental entities and nonprofit organizations prior to other owner-occupant purchasers.

(b) *Net offer.* The net offer is calculated by subtracting from the bid price the dollar amounts for the following:

(1) If requested by the purchaser in the bid, HUD will pay all or a portion of the financing and loan closing costs and the broker's sales commission, not to exceed the percentage of the purchase price determined appropriate by the Secretary for the area. In no event will the amount for broker's sales commission exceed 6 percent of the purchase price, except for cash bonuses offered to brokers by HUD for the sale of hard-to-sell properties.

(2) In the case of properties sold under the insured sales with repair escrow program, the repair escrow amount is also deducted from the bid to determine the net offer.

(c) *Acceptable bid.* HUD will accept the bid producing the greatest net return to HUD and otherwise meeting the terms of HUD's offering of the property, with priority given to owner-occupant purchasers as described in paragraph (a)(2) of this section. The greatest net return is calculated based on the net offer, as described in paragraph (b) of this section.

(d) *Bid period.* After properties are initially advertised, bids are accepted for a 10-day period, with all offers received during the 10 days considered to have been received simultaneously, except as described in paragraph (e) of this section. Offers received on a property before the 10-day bidding period begins will be returned. Offers received after the 10-day period will not be considered at the bid opening, but will be considered during the extended listing period if no acceptable bid was received during the 10-day period.

(e) *Full price offers.* HUD field offices that operate under a "full price offer" program open offers at specified times during the 10-day bidding period. If an offer for the full list price and otherwise meeting the terms of the offering is received, it will be accepted at the time of the opening and the 10-day bid period cancelled.

(f) *Extended listing period.* Properties not sold at the bid opening will remain available for an extended listing period. All bids received on each day of the extended listing period will be considered as being received simultaneously, and will be opened together at the next scheduled daily bid opening. Properties that fail to sell within 30 days after being offered for competitive bidding will be reanalyzed and relisted. If a property's price or terms are changed, it will be subject to another competitive bidding period as described in paragraph (d) of this section.

(g) *Bid requirements.* (1) All bids submitted, whether during the 10-day bid period or the extended listing period, must be in the form of a fully completed sales contract, in a form prescribed by HUD, signed by both the submitting real estate broker and the prospective purchaser. If the purchase is to be an insured sale, a field office may also require that supporting exhibits for mortgage credit analysis accompany the initial submission of the bid.

(2) Unless the Secretary specifically authorizes another bid process, bids must be placed in sealed envelopes

marked with the property number, address, and return address of the broker. All bids not indicating that the purchaser will occupy the property will be considered as investor offers.

(3) Noncomplying bids will be returned to the broker with an explanation for the noncompliance decision and information about whether the property is still available.

(h) *Earnest money deposits.* (1) The amount of earnest money deposit required for a property with a sales price of $50,000 or less is $500, except that for vacant lots the amount is 50 percent of the list price. For a property with a sales price greater than $50,000, the amount of earnest money deposit required in the area is set by the field office, in an amount not less than $500 or more than $2,000. Information on the amount of the required earnest money deposit is available from the field office or participating real estate brokers.

(2) All bids must be accompanied by earnest money deposits in the form of a cash equivalent as prescribed by the Secretary, or a certification from the real estate broker that the earnest money has been deposited in the broker's escrow account. If a bid is accepted by HUD, the earnest money deposit will be credited to the purchaser at closing; if the bid is rejected, the earnest money deposit will be returned. Earnest money deposits are subject to total or partial forfeiture for failure to close a sale.

(i) *Multiple bids.* Real estate brokers may submit unlimited numbers of bids on an individual property provided each bid is from a different prospective purchaser. If a purchaser submits multiple bids on the same property, only the bid producing the highest net return to HUD will be considered. If a prospective owner-occupant purchaser submits a bid on more than one property, the first of those bids that produces the greatest net return to HUD will be accepted and all other bids from that purchaser will be eliminated from consideration. However, if the prospective owner-occupant purchaser has submitted the only acceptable bid on another property, then that bid must be accepted and all other bids from that purchaser on any other properties will be eliminated from consideration.

(j) *Opening the bids.* Unless the Secretary specifically authorizes another bid process:

(1) The bids will be opened publicly at a time and place designated by the HUD field office.

(2) Each bid will be announced when opened, and acknowledgment made of the offer that produces the greatest net return to HUD. Successful bidders will be notified through their real estate brokers by mail, telephone, or other means. Acceptance of a bid is final and effective only upon HUD's execution of the sales contract and mailing of a copy of the executed contract to the successful bidder or the bidder's agent.

(k) *Counteroffers.* If all bids received on a property are unacceptable, a field office may notify all bidders or their brokers that HUD will accept an offer equalling a predetermined net acceptable price. Bidders must submit an acceptable offer before the established bid cut-off period, to be determined by the field office. The highest acceptable offer received within the specified period of time, including any offer received from a bidder who did not submit a bid during the bid period, will be accepted, thus terminating the counteroffer negotiations. In case of identical bids, award will be determined by drawing lots.

§ 291.210 Direct sales procedures.

When HUD conducts the sales listed in § 291.90(c), it will sell the properties on an "as-is" basis, without repairs or warranties, and it will follow the applicable sales procedures provided in this section.

(a) *Direct sales of properties located in HUD-designated revitalization areas to governmental entities and private nonprofit organizations.* (1) State and local governments, public agencies, and qualified private nonprofit organizations that have been preapproved to participate by HUD, according to standards determined by the Secretary, may purchase HUD properties at a discount off the list price determined by the Secretary to be appropriate, but not less than 10 percent, for use in HUD and local housing or homeless programs.

(2)(i) Purchasers under paragraph (a)(1) of this section must designate geographical areas of interest by ZIP code. Upon request, before those properties are publicly listed, HUD will assure that governmental entities and nonprofit organizations are notified in writing when eligible properties become available in the areas designated by them. HUD will coordinate the dissemination of the information to ensure that if more than one purchaser designates a specific area, those purchasers receive the list of properties at the same time, based on intervals agreed upon between HUD and the purchasers. A property in this section will be sold to the first eligible purchaser submitting an acceptable contract.

(ii) Purchasers under paragraph (a)(1) of this section must notify HUD of preliminary interest in specific properties within 5 days of the notification of available properties (if notification is by mail, the 5 days will begin to run 5 days after mailing). Those properties in which purchasers express an interest will be held off the market for a 10-day consideration and inspection period. Other properties on the list will continue to be processed for public sale. HUD may limit the number of properties held off the market for a purchaser at any one time, based upon the purchaser's financial capacity as determined by HUD and upon past performance in HUD programs. At the end of the 10-day consideration and inspection period, properties in which no governmental entity or nonprofit organization has expressed a specific intent to purchase will be offered for sale under the competitive bid process. Properties in which a governmental entity or nonprofit organization expressed an intent to purchase, during the 10-day period, will continue to be held off the market pending receipt of the sales contract. If a sales contract is not received within a time period of up to 10 days, as determined by HUD, following expiration of the 10-day consideration and inspection period, and no other governmental entity or nonprofit organization has expressed an interest, then the property will be offered for sale under the competitive bid process.

(3) In order to ensure that properties purchased at a discount are being utilized for expanding affordable housing opportunities, HUD may require, as appropriate, periodic, limited information regarding the purchase and resale of such properties, and certain restrictions on the resale of such properties.

(b) *Direct sales to displaced persons; razed lots; auctions.* HUD may seek to dispose of individual properties to individual buyers through methods such as direct sales to displaced persons, sales of razed lots, or auctions. These sales will be upon such terms and conditions as the Secretary may prescribe.

(c) *Direct sales to individuals or entities.* HUD may also seek to dispose of properties through direct sales to other individuals or entities that do not meet any of the categories specified in this section, if the Assistant Secretary for Housing-Federal Housing Commissioner (or his or her designee) finds in writing that such sales would further the goals of the National Housing Act (12 U.S.C. 1701 *et seq.*) and would be in the best interests of the Secretary. These sales will be upon such terms and conditions as the Secretary may prescribe.

(d) *Bulk sales.* HUD may seek to dispose of properties through bulk sales. Such sales will be upon such terms and conditions as the Secretary may prescribe.

3. A new § 291.405 is added to subpart E, to read as follows:

§ 291.405 Definitions.

For purposes of this subpart E:

Applicant means a State, metropolitan city, urban county, governmental entity, tribe, or private nonprofit organization that submits a written expression of interest in eligible properties under this subpart E. Governmental entities include those that have general governmental powers (e.g., a city or county), as well as those with limited or special powers (e.g., public housing agencies or State housing finance agencies). In the case of applicants leasing properties while their applications for Supportive Housing assistance are pending, "applicant" is defined in 24 CFR part 583.

Homeless means:

(1) Individuals or families who lack the resources to obtain housing, whose annual income is not in excess of 50 percent of the median income for the area, as determined by HUD, and who:

(i) Have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings;

(ii) Have a primary nighttime residence that is a supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing, but excluding prisons or other detention facilities); or

(iii) Are at imminent risk of homelessness because they face immediate eviction and have been unable to identify a subsequent residence, which would result in emergency shelter placement (except that persons facing eviction on the basis of criminal conduct such as drug trafficking and violations of handgun prohibitions shall not be considered homeless for purposes of this definition); or

(2) Persons with disabilities who are about to be released from an institution and are at risk of imminent homelessness because no subsequent residences have been identified and because they lack the resources and support networks necessary to obtain access to housing.

Dated: March 19, 1998.

Art Agnos,

Acting General Deputy Assistant Secretary for Housing-Deputy Federal Housing Commissioner.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Part 203

[Docket No. FR–4311–I–01]

RIN 2502–AH15

Single Family Mortgage Insurance; Electronic Underwriting

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD

ACTION: Interim rule.

SUMMARY: Currently, a Direct Endorsement underwriter must personally review the appraisal report and credit application, including the analysis performed on the worksheets. With the introduction of automated underwriting systems, the need for human underwriters to review certain aspects of the mortgage loan application is substantially diminished. This interim rule amends the regulations on Single Family Mortgage Insurance to allow the lender to substitute an "accept" risk classification from a FHA-approved automated underwriting system (AUS) in lieu of a personal review by a Direct Endorsement underwriter of the borrower's credit and capacity to repay the mortgage.

DATES: *Effective date*: June 29, 1998.
Comment due date: July 28, 1998.

ADDRESSES: Interested persons are invited to submit comments regarding this rule to the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410–0500. Communications should refer to the above docket number and title. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address. HUD will not process facsimile (FAX) communications as comments.

FOR FURTHER INFORMATION CONTACT: John J. Coonts, Director, Office of Insured Single Family Housing, Room 9162, Department Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410, telephone (voice) (202) 708–3046. (This is not a toll-free number.) Hearing-impaired or speech-impaired individuals may access the voice telephone listed by calling the Federal Information Relay Service during working hours at 1–800–877–8339.

SUPPLEMENTARY INFORMATION: Currently, a Direct Endorsement (DE) underwriter must personally review the appraisal report and credit application, including the analysis performed on the worksheets. With the introduction of automated underwriting systems, the need for human underwriters to review certain aspects of the mortgage loan application is substantially diminished. The current regulatory provision at 24 CFR 203.255(b)(5) requires a DE underwriter to certify that the underwriter has personally reviewed the credit application and appraisal report on all mortgages originated under the DE program. The regulatory change set forth in this interim rule allows the lender to substitute an "accept" risk classification from a FHA-approved automated underwriting system in lieu of a personal review by a DE underwriter of the borrower's credit and capacity to repay the mortgage.

An automated underwriting system (AUS) performs an analysis of the loan application and provides risk grades or classifications as to the probability of mortgage default. The AUS either accepts or approves the mortgage based on information provided by the lender, or refers the application for further review by an individual. FHA controls the approval of all proprietary AUS's, determines the risk it is willing to accept (i.e., the score necessary to allow the loan to be considered an "accept"), and enters into agreements with the AUS vendors outlining what elements of the mortgage application it is permitting the AUS to evaluate. FHA, at its discretion, may determine that the AUS may be used to review elements of the applicant's credit and capacity.

FHA will continue to require a personal review for those mortgage applications referred to an individual underwriter and to require that the lender certify that all other aspects of the mortgage transaction, including data integrity and eligibility rules, meet FHA requirements. Further, the mortgage lender remains responsible for those aspects of the credit and capacity not evaluated by the AUS, including eligibility requirements, as well as the integrity of the data used by the AUS to arrive at the "accept" risk classification.

Other Matters

Justification for Interim Rule

In general, the Department publishes a rule for public comment before issuing a rule for effect, in accordance with its own regulations on rulemaking, 24 CFR part 10. Part 10 does provide, however, for exceptions from that general rule where the Department finds good cause to omit advance notice and public participation. The good cause requirement is satisfied when prior public procedure is "impracticable, unnecessary, or contrary to the public interest." 24 CFR 10.1. The Department finds that good cause exists to publish this rule for effect without first soliciting public comment, in that public procedure is contrary to the public interest and unnecessary. Failure to permit substitution of the AUS risk classification impedes lenders from benefitting from the efficiencies of automated underwriting systems, as well as FHA's ability to offer lower cost mortgage originations. Furthermore, this rule is not contrary to the public interest because applicants who do not receive the automated "accept" classification will be granted a manual underwriting review. Consequently, no applicant will be automatically denied approval as a result of the Department's use of this system. Also, in keeping with the Administration's effort to reduce the regulatory burden, this rule reduces the government regulation of private entities, allows mortgage lenders greater flexibility, and reduces underwriting time and expense.

Environmental Finding

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR Part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 10276, 451 Seventh Street, S.W., Washington, D.C. 20410.

Executive Order 12612, Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, *Federalism*, has determined that the policies contained in this rule will not have substantial direct effects on States or their political subdivisions, or the relationship between the Federal government and the States, or on the distribution of power and responsibilities among the various levels of government. As a result, the rule is not subject to review under the Order.

The Regulatory Flexibility Act

In accordance with 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Secretary by his approval of this rule hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities because it allows mortgage lenders

greater flexibility and reduces underwriting time and expense. It does not negatively affect small businesses.

Executive Order 12866

This rule was reviewed by the Office of Management and Budget (OMB) under Executive Order 12866 on Regulatory Planning and Review, issued by the President on September 30, 1993. Any changes made in the rule subsequent to its submission to OMB are identified in the docket file, which is available for public inspection as provided under the section of this preamble entitled **Address.**

HUD recognizes that this rule has a potential economic impact. The adoption of AUS by FHA originators will result in system set-up and maintenance costs that they may not otherwise incur. The ability to use AUS has the potential to significantly reduce the cost of underwriting a substantial proportion of FHA loans. These reduced costs may be passed on to borrowers through lower origination fees. Alternatively, originators may shift Direct Endorsement underwriting personnel and other resources away from AUS "accept" borrowers to other borrowers. The ability to review more intensively applications not given an "accept" rating by the AUS, or to provide credit counseling or other services to these applicants, may increase the number of borrowers granted FHA loans.

This rule is not economically significant as described in E.O. 12866, however. While the rule allows lenders to use AUS "accept" risk classification in lieu of a personal review by a Direct Endorsement underwriter, it does not mandate it. Thus, any economic impact of the rule will result from voluntary actions of lenders. If lenders do not find that the individual benefits of using AUS outweigh individual costs, the rule would have no economic impact.

List of Subjects in 24 CFR Part 203

Hawaiian Natives, Home improvement, Indians—lands, Loan programs—housing and community development, Mortgage insurance, Reporting and recordkeeping requirements, Solar energy.

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance number for this program is 14.117.

Accordingly, 24 CFR part 203 is amended as follows:

PART 203—SINGLE FAMILY MORTGAGE INSURANCE

1. The authority for part 203 continues to read as follows:

Authority: 12 U.S.C. 1709, 1710, 1715b, and 1715u; 42 U.S.C. 3535(d).

2. Section 203.255 is amended by revising paragraph (b)(5) to read as follows:

§ 203.255 Insurance of mortgage.

* * * * *

(b) * * *

(5) An underwriter certification, on a form prescribed by the Secretary, stating that the underwriter has personally reviewed the appraisal report and credit application (including the analysis performed on the worksheets) and that the proposed mortgage complies with HUD underwriting requirements, and incorporating each of the underwriter certification items which apply to the mortgage submitted for endorsement, as set forth in the applicable handbook or similar publication that is distributed to all Direct Endorsement mortgagees, except that where an automated underwriting system (AUS) approved by the Secretary or Commissioner is used by the lender, and the AUS has determined that the application represents an acceptable risk under terms and conditions agreed to by the FHA, a Direct Endorsement underwriter shall not be required to certify that he/she has personally reviewed the credit application (including the analysis performed on any worksheets);

Department of Housing and Urban Development

Notice of Regulatory Waiver Requests Granted; Notice

VOL 63 ISS 103 MAY 29 1998 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4250–N–04]

Notice of Regulatory Waiver Requests Granted

AGENCY: Office of the Secretary, HUD.

ACTION: Public notice of the granting of regulatory waivers from October 1, 1997 through December 31, 1997.

SUMMARY: Under the Department of Housing and Urban Development Reform Act of 1989 (Reform Act), HUD is required to make public all approval actions taken on waivers of regulations. This notice is the twenty-eighth in a series, being published on a quarterly basis, providing notification of waivers granted during the preceding reporting period. The purpose of this notice is to comply with the requirements of section 106 of the Reform Act.

FOR FURTHER INFORMATION CONTACT: For general information about this notice, contact Camille E. Acevedo, Assistant General Counsel for Regulations, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410; telephone (202) 708–3055 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

For information concerning a particular waiver action for which public notice is provided in this document, contact the person whose name and address is set out for the particular item, in the accompanying list of waiver-grant actions.

SUPPLEMENTARY INFORMATION: As part of the Housing and Urban Development Reform Act of 1989 (the Reform Act), the Congress adopted, at HUD's request, legislation to limit and control the granting of regulatory waivers by HUD. Section 106 of the Reform Act added a new section 7(q) to the Department of Housing and Urban Development Act (2 U.S.C. 3535(q)), which provides that:

1. Any waiver of a regulation must be in writing and must specify the grounds for approving the waiver;

2. Authority to approve a waiver of a regulation may be delegated by the Secretary only to an individual of Assistant Secretary rank or equivalent rank, and the person to whom authority to waive is delegated must also have authority to *issue* the particular regulation to be waived;

3. Not less than quarterly, the Secretary must notify the public of all waivers of regulations that HUD has approved, by publishing a notice in the **Federal Register**. These notices (each covering the period since the most recent previous notification) shall:

a. Identify the project, activity, or undertaking involved;

b. Describe the nature of the provision waived, and the designation of the provision;

c. Indicate the name and title of the person who granted the waiver request;

d. Describe briefly the grounds for approval of the request;

e. State how additional information about a particular waiver grant action may be obtained.

Section 106 of the Reform Act also contains requirements applicable to waivers of HUD handbook provisions that are not relevant to the purpose of this notice.

Today's document follows publication of HUD's Statement of Policy on Waiver of Regulations and Directives issued by HUD on April 22, 1991 (56 FR 16337). This is the twenty-eighth notice of its kind to be published under section 106 of the Reform Act. This notice updates HUD's waiver-grant activity from October 1, 1997 through December 31, 1997.

For ease of reference, waiver requests granted by departmental officials authorized to grant waivers are listed in a sequence keyed to the section number of the HUD regulation involved in the waiver action. For example, a waiver-grant action involving exercise of authority under 24 CFR 58.73 (involving the waiver of a provision in 24 CFR part 58) would come early in the sequence, while waivers of 24 CFR part 990 would be among the last matters listed.

Where more than one regulatory provision is involved in the grant of a particular waiver request, the action is listed under the section number of the first regulatory requirement in title 24 that is being waived as part of the waiver-grant action. (For example, a waiver of both § 58.73 and § 58.74 would appear sequentially in the listing under § 58.73.)

Waiver-grant actions involving the same initial regulatory citation are in time sequence beginning with the earliest-dated waiver grant action.

Should HUD receive additional reports of waiver actions taken during the period covered by this report before the next report is published, the next updated report will include these earlier actions, as well as those that occurred between October 1, 1997 through December 31, 1997.

Accordingly, information about approved waiver requests pertaining to HUD regulations is provided in the Appendix that follows this notice.

Dated: May 22, 1998.

Andrew Cuomo,

Secretary.

Appendix—Listing of Waivers of Regulatory Requirements Granted by Officers of the Department of Housing and Urban Development October 1, 1997 Through December 31, 1997

Note to Reader: More information about the granting of these waivers, including a copy of the waiver request and approval, may be obtained by contacting the person whose name is listed as the contact person directly before each set of waivers granted.

FOR ITEMS 1 THROUGH 11, WAIVERS GRANTED FOR 24 CFR Parts 91, 570, 574, 576 AND 582 CONTACT: Debbie Ann Wills, Field Management Officer, U.S. Department of Housing and Urban Development, Office of Community Planning and Development, 451 7th Street, SW, Room 7152, Washington, DC 20410–7000; telephone (202) 708–2565 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

1. REGULATION: 24 CFR 91.520(a).

PROJECT/ACTIVITY: The City of Harrisburg, Pennsylvania requested an extension of the deadline to submit its Consolidated Annual CDBG Performance and Evaluation (CAPER) report to HUD.

NATURE OF REQUIREMENT: HUD's Consolidated Plan regulations at 24 CFR 91.520(a) require that each grant recipient submit a performance report to HUD within 90 days after the close of the grantee's program year.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: December 22, 1997.

REASONS WAIVED: The Assistant Secretary determined that failure to grant the requested waiver would adversely affect the purposes of the CDBG program, because the City would not be able to submit a complete and accurate performance report on its 1996 program year.

2. REGULATION: 24 CFR 92.101(e) and (c).

PROJECT/ACTIVITY: The St. Louis County, Minnesota requested a waiver of § 92.101(e) and (c) of the HOME program regulations (24 CFR part 92) to allow the County, which is a member of the Northeast Minnesota Housing Consortium, to structure its consortium agreement for a four-year term. The County also has until March 31, 1998 to obtain the needed signatures on the consortium agreement.

NATURE OF REQUIREMENT: The regulations at 24 CFR 92.101(e) and (c) require consortium agreements be 3-years long.

GRANTED BY: Jacquie Lawing, Acting Assistant Secretary for Community Planning and Development.

DATE GRANTED: November 5, 1997.

REASONS WAIVED: The Acting Assistant Secretary added a six month transition period to allow the 76 small rural communities time to sign the agreement. The four year agreement was enacted so that it

will expire concurrently with St. Louis County's next urban county agreement.

3. REGULATION: 24 CFR 92.212(b).

PROJECT/ACTIVITY: The Longview/Kelso Consortium of Washington State, requested a waiver of the HOME program regulations to allow it to use HOME funds to reimburse planning and administration costs incurred in the development of its initial Consolidated Plan as a new HOME grantee.

NATURE OF REQUIREMENT: The HOME program regulations at 24 CFR 92.212(b) allow eligible administrative and planning costs to be incurred as of the beginning of the participating jurisdiction's consolidated program year, or the date the Consolidated Plan describing the HOME allocation is received by HUD.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: December 16, 1997.

REASONS WAIVED: The Assistant Secretary determined that failure to grant the requested waiver would adversely affect the purposes of the HOME program, because non-reimbursement of costs incurred in the development of the Consolidated Plan would pose a difficulty for the City in implementing its new HOME program, and place the financial burden for program start-up costs on local resources.

4. REGULATIONS: 24 CFR 92.214(a)(7) and 24 CFR 92.502(d).

PROJECT/ACTIVITY: The City of Mobile, Alabama requested a waiver of these regulations to allow the use of additional HOME program funds on property previously assisted with HOME monies. The subject properties were damaged by floods.

NATURE OF REQUIREMENT: HUD's HOME program regulations at 24 CFR 92.214(a)(7) and 24 CFR 92.502(d) prohibit a participating jurisdiction from using HOME funds on properties that have been previously assisted with HOME monies. This prohibition applies to properties that were completed more than one year after the original completion date.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: December 2, 1997.

REASONS WAIVED: The waiver was granted to allow three specific projects to reopen and to use HOME funds to correct flooding conditions.

5. REGULATION: 24 CFR 92.254(a).

PROJECT/ACTIVITY: The City of Cincinnati, Ohio requested a waiver of the requirement that property be transferred to a homebuyer within 42 months after project completion. This waiver would extend the maximum lease period to 60 months for an eight unit building.

NATURE OF REQUIREMENT: HUD's HOME program regulations at 24 CFR 92.254(a) require that property be transferred to a homebuyer within forty-two (42) months after project completion.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: December 16, 1997.

REASONS WAIVED: The waiver was granted because it would allow the City to take advantage of the Historic Tax Credit associated with the project; enable six low income families to become homeowners; and increase the homeownership rate in a neighborhood with a high concentration of low-income rental properties.

6. REGULATION: 24 CFR 570.200(h)(1)(i).

PROJECT/ACTIVITY: The City of Rialto, California requested a waiver of these HUD regulations to allow it to use CDBG funds to reimburse planning and administration costs incurred while preparing its initial Consolidated Plan as a new CDBG entitlement grantee.

NATURE OF REQUIREMENT: The CDBG program regulations at 24 CFR 570.200(h)(1)(i) state that a grantee may only use CDBG funds to pay pre-award costs if the activity is included in a Consolidated Plan or an amended plan prior to the costs being incurred.

GRANTED BY: Jacquie Lawing, Acting Assistant Secretary for Community Planning and Development.

DATE GRANTED: November 6, 1997.

REASONS WAIVED: The Acting Assistant Secretary determined that failure to grant the requested waiver would adversely affect the purposes of the CDBG program, because the non-reimbursement of costs incurred in the development of the Consolidated Plan would pose a difficulty for the City in implementing its new CDBG program and put the financial burden for program start-up costs on local resources.

7. REGULATION: 24 CFR 570.200(h)(1)(i).

PROJECT/ACTIVITY: The City of Victorville, California, requested a waiver of these HUD regulations to allow the City to use CDBG funds to reimburse planning and administration costs incurred while preparing its initial Consolidated Plan as a new CDBG entitlement grantee.

NATURE OF REQUIREMENT: The CDBG program regulations at 24 CFR 570.200(h)(1)(i) state that a grantee may only use CDBG funds to pay pre-award costs, if the activity is included in a Consolidated Plan or an amended plan prior to the costs being incurred.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: December 18, 1997.

REASONS WAIVED: The Assistant Secretary determined that failure to grant the requested waiver would adversely affect the purposes of the CDBG program, because non-reimbursement of costs incurred in the development of the Consolidated Plan would pose a difficulty for the City in implementing its new CDBG program and put the financial burden for program start-up costs on local resources.

8. REGULATION: 24 CFR 570.206(g).

PROJECT/ACTIVITY: Pima County, Arizona requested a waiver of the CDBG program regulations to allow the County to use CDBG funds for pre-development costs related to the expansion of an existing senior citizen housing complex.

NATURE OF REQUIREMENT: The CDBG program regulations at 24 CFR 570.206(g) require that assistance under the regulations be limited to units which are identified in the recipient's HUD-approved housing assistance plan (HAP). Because the Consolidated Plan includes non-housing activities and is not exclusively limited to low-and-moderate-income persons, HUD has determined that 24 CFR 570.206(g) cannot be read to automatically substitute costs related to the Consolidated Plan for costs formerly eligible in connection with the HAP.

GRANTED BY: Jacquie Lawing, Acting Assistant Secretary for Community Planning and Development.

DATE GRANTED: November 6, 1997.

REASONS WAIVED: The regulation was waived because the community was using the CDBG funds to pay for pre-development activities associated with a proposal submitted to HUD under the Section 202 program. The waiver was granted because the funds were to be used for a HAP-type (meeting the needs of low and moderate income senior citizens) housing activity.

9. REGULATION: 24 CFR 574.540.

PROJECT/ACTIVITY: The City of Chicago, Illinois requested a waiver of the Housing Opportunities for Persons with AIDS (HOPWA) program regulations to authorize the placement of HOPWA funds in a housing subsidy trust fund for a period longer than the three years. The trust fund would be used for operating expenses.

NATURE OF REQUIREMENT: The HOPWA program regulations at 24 CFR 574.540 provide that HUD may de-obligate any amount of HOPWA grant funds that have not been expended within a three-year period from the date of the signing of the grant agreement.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: November 25, 1997.

REASONS WAIVED: The Assistant Secretary granted this waiver, extending for two years the period the City could use HOPWA funds placed in a trust for a specific project. This allowed the City to continue to provide support for the housing related needs of HOPWA program beneficiaries.

10. REGULATION: 24 CFR 576.21.

PROJECT/ACTIVITY: Jefferson County, Alabama requested a waiver of the Emergency Shelter Grants (ESG) program regulations at 24 CFR 576.21.

NATURE OF REQUIREMENT: HUD's regulation at 24 CFR 576.21 state that recipients of ESG grant funds are subject to the limits on the use of assistance for essential services established in section 414(a)(2)(B) of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11374(a)(2)(B)). Essential services are commonly defined as services that provide health, employment, drug abuse, and education to homeless persons.

GRANTED BY: Fred Karnas, Jr., Deputy Assistant Secretary for Community Planning and Development.

DATE GRANTED: October 14, 1997.

REASONS WAIVED: Under the Stewart B. McKinney Homeless Assistance Act, amended by the National Affordable Housing Act the 30 percent cap on essential services may be waived if the grantee "demonstrates that the other eligible activities under the program are already being carried out in the locality with other resources." The County

provided a letter that demonstrated that other categories of ESG activities will be carried out locally with other resources. Accordingly, HUD determined that the waiver was appropriate.

11. REGULATION: 24 CFR 582.105(e).

PROJECT/ACTIVITY: The Dane County, Wisconsin Department of Human Services requested that up to 15 percent of its Shelter Plus Care allocation be used for administration.

NATURE OF REQUIREMENT: HUD's Shelter Plus Care program regulations at 24 CFR 582.105(e) set the administrative cost allowance for project activities at 8 percent of the grant amount.

GRANTED BY: Jacquie Lawing, Acting Assistant Secretary for Community Planning and Development.

DATE GRANTED: October 22, 1997.

REASONS WAIVED: The Acting Assistant Secretary determined that failure to grant the requested waiver would adversely affect the purposes of the Shelter Plus Care program, because the administrative burdens for the homeless initiative had doubled and the project had reached full capacity without using all the rental assistance available.

FOR ITEMS 12 THROUGH 17, WAIVERS GRANTED FOR 24 CFR PART 761 CONTACT: Gloria Cousar, Deputy Assistant Secretary, Office of Public and Assisted Housing Delivery, U.S. Department of Housing and Urban Development, 451 7th Street, SW, Room 4126, Washington, DC 20410; telephone (202) 619–8201 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

12. REGULATION: 24 CFR 761.30(b).

PROJECT/ACTIVITY: Lackawanna County Housing Authority Youth Sports Program (Grant No. #PA26YSP0380194).

NATURE OF REQUIREMENT: The regulations state that the terms of the grant agreement may not exceed 24 months for the Public and Indian Housing Drug Elimination Grant Program and that only one, 6-month extension is allowed. If the grant funds are not expended at the end of the grant term, funds must be remitted to HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: March 12, 1997.

REASON WAIVED: The Lackawanna County Housing Authority was unable to complete the winter sports component of their grant within the regulatory time-frame, due to unseasonably warm weather. The waiver permitted the housing authority to continue its winter sports activities.

13. REGULATION: 24 CFR 761.30(b).

PROJECT/ACTIVITY: Newark Housing Authority, Newark, New Jersey; Public Housing Drug Elimination Grant Program (PHDEP) (Grant #NJ39DEP0020194).

NATURE OF REQUIREMENT: The regulations state that the terms of the grant agreement may not exceed 24 months for the PHDEP program and that only one 6-month extension is allowed. If the grant funds are not expended at the end of the grant term, funds must be remitted to HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: July 10, 1997.

REASON WAIVED: The waiver was granted in order to permit the Newark Housing Authority (NHA) to revise its plan regarding the use of PHDEP funding. The revised PHDEP plan permits the NHA to conduct law enforcement (municipal police services), physical security, U.S. Attorney's anti-violence task force operations in the NHA, and other security and resident activities.

14. REGULATION: 24 CFR 761.30(b).

PROJECT/ACTIVITY: Hoboken Housing Authority, Hoboken, New Jersey; Public Housing Drug Elimination Grant Program (Grant #NJ39DEP0430194).

NATURE OF REQUIREMENT: The regulations state that the terms of the grant agreement may not exceed 24 months for the PHDEP program and that only one 6-month extension is allowed. If the grant funds are not expended at the end of the grant term, funds must be remitted to HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: July 10, 1997.

REASON WAIVED: The waiver was granted in order to permit the Hoboken Housing Authority (HHA) to revise its plan regarding the use of PHDEP funding. The revised PHDEP plan permits the HHA to carry out law enforcement and resident activities.

15. REGULATION: 24 CFR 761.30(b).

PROJECT/ACTIVITY: Camden Housing Authority, Camden, New Jersey; Public Housing Drug Elimination Grant Program (Grant #NJ39DEP0100194, #NJ39DEP0100195 and #NJ39DEP0100196).

NATURE OF REQUIREMENT: The regulations state that the terms of the grant agreement may not exceed 24 months for the Public and Indian Housing Drug Elimination Grant Program and that only one 6-month extension is allowed. If the grant funds are not expended at the end of the grant term, funds must be remitted to HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: August 12, 1997.

REASON WAIVED: The waiver was granted in order to permit the Camden Housing Authority (CHA) to revise its plan regarding the use of PHDEP funding. The revised PHDEP plan permits the CHA to carry out law enforcement and resident activities.

16. REGULATION: 24 CFR 761.30(b).

PROJECT/ACTIVITY: Charlottesville Redevelopment and Housing Authority, Charlottesville, Virginia; Public Housing Drug Elimination Grant Program (Grant #VA36DEP0160194).

NATURE OF REQUIREMENT: The regulations state that the terms of the grant agreement may not exceed 24 months for the Public and Indian Housing Drug Elimination Grant Program and that only one 6-month extension is allowed. If the grant funds are not expended at the end of the grant term, funds must be remitted to HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary, Office of Public and Indian Housing.

DATE GRANTED: August 18, 1997.

REASON WAIVED: The waiver was necessary to permit the Charlottesville Redevelopment and Housing Authority requested to reprogram small amounts ($365.00) of grant funds from several budget line items into their drug prevention program.

17. REGULATION: 24 CFR 761.30(b).

PROJECT/ACTIVITY: Memphis Housing Authority, Memphis, Tennessee; Public Housing Drug Elimination Program (Grant #TN00DEP0010194).

NATURE OF REQUIREMENT: The regulations state that the terms of the grant agreement may not exceed 24 months for the Public and Indian Housing Drug Elimination Grant Program and that only one 6-month extension is allowed. If the grant funds are not expended at the end of the grant term, funds must be remitted to HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: September 26, 1997.

REASON WAIVED: The Memphis Housing Authority requested this extension to continue the implementation of Operation Safe Home II. The purpose of this extension is to obligate funds (contractually) regarding law enforcement activities for the MHA.

FOR ITEM 18, WAIVER GRANTED FOR 24 CFR PART 811, CONTACT: James Mitchell, Office of Housing, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 6164, Washington, DC 20410; telephone (202) 708–3730 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

18. REGULATION: 24 CFR 811.108(a).

PROJECT/ACTIVITY: Defeasance and redemption of bonds which financed a Section 8 assisted project in Columbus, Ohio (the Nelson Park Apartments, FHA No. 043–35233).

NATURE OF REQUIREMENT: The regulation provides that upon full redemption of bond principal and interest, any remaining balance in the debt service reserve shall be remitted to HUD.

GRANTED BY: Nicolas P. Retsinas, Assistant Secretary for Housing-Federal Housing Commissioner.

DATE GRANTED: December 24, 1997.

REASONS WAIVED: Banc One Capital Corporation wishes to purchase the mortgage note from the bond trustee for a price which, when added to Series 1980 Bond reserves of $616,157, will permit full discharge of outstanding bond principal. The Columbus Metropolitan Housing Authority has requested the use of $200,000 of such reserves to finance repairs to seven public housing projects in its jurisdiction. HUD consented to this request, based on advice by the Ohio State Office that Nelson Park Apartments does not need additional funds for repairs or replacement reserves.

FOR ITEM 19, WAIVER GRANTED FOR 24 CFR PART 882 CONTACT: Debbie Ann Wills, Field Management Officer, U.S.

Department of Housing and Urban Development, Office of Community Planning and Development, 451 7th Street, SW, Room 7152, Washington, DC 20410–7000; telephone (202) 708–2565 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

19. REGULATION: 24 CFR 882.408(a).

PROJECT/ACTIVITY: The Los Angeles Housing Authority requested a waiver, to increase the Fair Market Rent (FMR) in its Section 8 Moderate Rehabilitation Single Room Occupancy (SRO) program, for a single project.

NATURE OF REQUIREMENT: HUD's regulations at 24 CFR 882.408(a) provides that rental housing assisted with SRO funds cannot charge rents that exceed the current Section 8 FMR.

GRANTED BY: Saul Ramirez, Assistant Secretary for Community Planning and Development.

DATE GRANTED: December 5, 1997.

REASONS WAIVED: The waiver was granted because the Housing Authority documented that the rents presently charged and received for efficiency and one bedroom units in Los Angeles, where the project is located, were significantly higher than the published FMRs.

FOR ITEMS 20 AND 21, WAIVERS GRANTED FOR 24 CFR PART 901 CONTACT: William C. Thorson, Director, Administrative and Maintenance Division, Office of Public and Indian Housing, U.S. Department of Housing and Urban Development, 451 7th Street, SW, Room 4124, Washington, DC 20410; telephone (202) 708–4703 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

20. REGULATION: 24 CFR 901.100(b).

PROJECT/ACTIVITY: The St. Louis Housing Authority (SLHA) requested a waiver of the above cited regulation to obtain an extension for submission of its Public Housing Management Assessment Program (PHMAP) certification.

NATURE OF REQUIREMENT: Public Housing Agencies submit their PHMAP certification within 60 days of fiscal year end. This certification along with information in the field office files and verification of data through on-site confirmatory reviews provide the basis for the PHMAP grades and total score determined by HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: The SLHA stated that a computer virus has been implanted in its on-line computer system. The virus was activated on September 14, 1997, and resulted in the master files for payroll, Section 8 program assistance, tenant accounting, general ledger, housing eligibility and work orders being deleted. Other files have randomly been deleted from the computer system corrupting the integrity of the SLHA's computerized data collection system. In addition, the SLHA, a troubled agency, was having its Independent Assessment performed during November 10–21, 1997. The information obtained during this assessment was helpful to the St. Louis Office of Public Housing in assessing the SLHA for its FYE 1997, and provided accurate and up-to-date data for the 1997 PHMAP assessment.

21. REGULATION: 24 CFR 901.100(b).

PROJECT/ACTIVITY: The Williamsburg Redevelopment and Housing Authority, VA, (WRHA) requested a waiver of the above cited regulation to obtain a 30-day extension for submission of its Public Housing Management Assessment Program (PHMAP) certification.

NATURE OF REQUIREMENT: Public Housing Agencies submit their PHMAP certification within 60 days of fiscal year end. This certification along with information in the field office files and verification of data through on-site confirmatory reviews provide the basis for the PHMAP grades and total score determined by HUD.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: December 17, 1997.

REASON WAIVED: The WRHA stated that it discovered that its work orders had not been coded properly since April 1997, when new staff was hired, thus distorting the information necessary to complete the PHMAP certification. The WRHA was furthered hampered by a breakdown of the maintenance department's computer, which had to be repaired. HUD granted the waiver in order to ensure that the WRHA was reporting accurate information and that it scored correctly under the PHMAP.

FOR ITEM 22 THROUGH 39, WAIVERS GRANTED FOR 24 CFR PART 982, 984, AND 990 CONTACT: Gloria Cousar, Deputy Assistant Secretary, Office of Public and Assisted Housing Delivery, U.S. Department of Housing and Urban Development, 451 7th Street, SW, Room 4126, Washington, DC 20410; telephone (202) 619–8201 (this is not a toll-free number). Hearing or speech-impaired persons may access this number via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8391.

22. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority and Urban Renewal Agency of Lane County, Oregon; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: October 3, 1997.

REASON WAIVED: Approval of the waiver prevented further hardship to a program participant who was forced to move from her assisted unit because it was damaged by fire. As a result of severe illness, she was unable to seek another unit when her certificate was reissued.

23. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of Lake County, Illinois; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: October 9, 1997.

REASON WAIVED: Approval of the waiver prevented hardship to the severely developmentally disabled certificate holder whose special housing requirements made it difficult to find a suitable unit.

24. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the County of Santa Clara, California; Section 8 Rental Voucher Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum voucher term of 120 days during which a voucher holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: October 12, 1997.

REASON WAIVED: Approval of the waiver prevented hardship to the single parent head of household and her family. Due to debilitating illness and mobility problems the family needed additional time to locate an accessible unit in a tight rental market with a vacancy rate of one percent.

25. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the County of Santa Clara, California; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: October 30, 1997.

REASON WAIVED: Approval of the waiver prevented hardship for a disabled certificate holder whose medical condition prevented her from seeking housing during a portion of the time her certificate was in effect.

26. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Commonwealth of Massachusetts, Department of Housing and Community Development; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 19, 1997.

REASON WAIVED: Approval of the waiver prevented further hardship and possible homelessness for the certificate holder and her children. The family was forced to move from the unit where they had been assisted when the property went into foreclosure. Illness of the mother prevented the family

from seeking housing during the time the certificate was in effect.

27. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the City of Los Angeles, California; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: Approval of the waiver prevented further hardship to a disabled certificate holder who could not seek housing because she was hospitalized during the time her certificate was in effect.

28. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Boston Housing Authority, Massachusetts; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: Approval of the waiver prevented further hardship to a disabled certificate holder who was unable to seek housing during the time her certificate was in effect because she was ill.

29. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Boston Housing Authority, Massachusetts; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON GRANTED: Approval of the waiver prevented further hardship to the family. Extended illness of the mother prevented the family from seeking housing during the time their certificate was in effect.

30. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Commonwealth of Massachusetts Department of Housing and Community Development; Section 8 Rental Voucher Program.

NATURE OF REQUIREMENT: The regulation provides a maximum rental voucher term of 120 days during which a voucher holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: Approval of the waiver prevented further hardship to the homeless voucher holder, a victim of domestic violence. Severe heart disease and an adverse reaction to her heart medication prevented the voucher holder from seeking housing during the time her voucher was in effect.

31. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the County of Santa Clara, California; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: Approval of the waiver prevented hardship to the family. The medical condition of the disabled head of household made it impossible for the family to seek housing during much of the time her rental certificate was in effect.

32. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the County of Santa Clara, California; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: The waiver prevented hardship to the certificate holder who was unable to seek housing during a portion of the time her certificate was in effect because of multiple medical problems, including spinal arthritis.

33. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the County of Santa Clara, California; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: The waiver prevented hardship to the certificate holder who was forced to move from the unit where she had been assisted. She was unable to seek housing during much of the time her certificate was in effect because of serious health problems.

34. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of the City of Los Angeles, California; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 21, 1997.

REASON WAIVED: The waiver prevented hardship to the disabled certificate holder who was unable to seek housing because she was hospitalized during much of the time her certificate was in effect.

35. REGULATION: 24 CFR 982.303(b).

PROJECT/ACTIVITY: Housing Authority of Oceanside, California; Section 8 Rental Voucher Program.

NATURE OF REQUIREMENT: The regulation provides for a maximum certificate term of 120 days during which a certificate holder may seek housing to be leased under the program.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: December 16, 1997.

REASON WAIVED: The waiver prevented further hardship to the disabled voucher holder whose serious health problems prevented her from seeking a unit during much of the time her voucher was in effect.

36. REGULATION: 24 CFR 982.352(c)(8).

PROJECT/ACTIVITY: City of Minnetonka, Minnesota; Section 8 Rental Certificate Program.

NATURE OF REQUIREMENT: The regulation provides that a family may not receive the benefit of tenant-based assistance while also receiving any local or State rent subsidy for the same unit.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: October 21, 1997.

REASON WAIVED: The monies to be provided by the city are not duplicative subsidy since they are being provided to fund the gap between the market rents and the Section 8 rents. Development of the units represents a public/private partnership to create affordable housing and approval of the waiver expands the housing choice of families enabling them to move to desirable housing in a nonimpacted area.

37. REGULATION: 24 CFR 984.306(b).

PROJECT/ACTIVITY: Housing Authority and Community Services Agency of Lane County, Oregon; Section 8 Family Self-Sufficiency (FSS) Program.

NATURE OF REQUIREMENT: The regulation provides that a Section 8 rental certificate or voucher program participant must lease a unit in the jurisdiction of the Public Housing Agency that selected the family for the FSS program for a minimum of 12 months after the effective date of the FSS contract.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: October 21, 1997.

REASON WAIVED: Approval of the waiver permitted the Section 8 certificate program participant to move closer to her new employment while remaining in the FSS program.

38. REGULATION: 24 CFR 990.107(b)(1) and 990.110(c)(2)(ii).

PROJECT/ACTIVITY: Housing Authority of Wilmington, NC; Performance Funding System (PFS) regulations.

NATURE OF REQUIREMENT: The PFS regulations at 24 CFR part 990 require that current utility rates be used in the calculation of savings under an energy performance contract.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: November 6, 1997.

REASON WAIVED: The PFS provides incentives for housing agencies to leverage private financing for the installation of energy conservation measures under the energy performance contracting program. The waiver will assist the Housing Authority of Wilmington to enter into an energy performance contract by allowing the use of a "floor rate" in the event that there are insufficient funds to pay the debt service on the private financing because of a drop in rates, even if the contractor achieves the savings specified in the contract.

39. REGULATION: 24 CFR 990.107(b)(1) and 990.110(c)(2)(ii).

PROJECT/ACTIVITY: Housing Authority of the City of Kinston, NC; Performance Funding System (PFS) regulations.

NATURE OF REQUIREMENT: The PFS regulations at 24 CFR part 990 require that current utility rates be used in the calculation of savings under an energy performance contract.

GRANTED BY: Kevin Emanuel Marchman, Acting Assistant Secretary for Public and Indian Housing.

DATE GRANTED: December 17, 1997.

REASON WAIVED: The PFS provides incentives for housing agencies to leverage private financing for the installation of energy conservation measures under the energy performance contracting program. The waiver will assist the Housing Authority of the City of Kinston to enter into an energy performance contract by allowing the use of a "floor rate" in the event that there are insufficient funds to pay the debt service on the private financing because of a drop in rates, even if the contractor achieves the savings specified in the contract.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 20

RIN 1018–AE93

Migratory Bird Hunting; Supplemental Proposals for Migratory Game Bird Hunting Regulations; Notice of Meetings

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; supplemental.

SUMMARY: The U.S. Fish and Wildlife Service (hereinafter the Service) proposed in an earlier document to establish annual hunting regulations for certain migratory game birds for the 1998–99 hunting season. This supplement to the proposed rule provides the regulatory schedule; announces the Service Migratory Bird Regulations Committee and Flyway Councils meetings; and describes the proposed regulatory alternatives for the 1998–99 duck hunting seasons and other proposed changes from the 1997–98 hunting regulations.

DATES: The Service Migratory Bird Regulations Committee will consider and develop proposed regulations for early-season migratory bird hunting on June 23 and 24, and for late-season migratory bird hunting on August 4 and 5. All meetings will commence at approximately 8:30 a.m. The Service will hold public hearings on proposed early- and late-season frameworks at 9:00 a.m. on June 25 and August 6, 1998, respectively. The comment period for the proposed regulatory alternatives for the 1998–99 duck hunting seasons will end on July 1, 1998. The comment period for proposed migratory bird hunting-season frameworks for Alaska, Hawaii, Puerto Rico, the Virgin Islands, and other early seasons will end on July 27, 1998. The comment period for late-season proposals will end on September 7, 1998.

ADDRESSES: The Service Migratory Bird Regulations Committee will meet in room 200 of the U.S. Fish and Wildlife Service's Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia. The Service will hold public hearings in the Auditorium of the Department of the Interior Building, 1849 C Street, NW., Washington, DC. Parties should submit written comments on the proposals and/or a notice of intent to participate in either hearing to the Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634-ARLSQ, 1849 C Street, NW., Washington, DC 20240. The public may inspect comments during normal business hours in room 634, ARLSQ Building, 4401 N. Fairfax Drive, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Paul R. Schmidt, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, (703) 358–1714.

SUPPLEMENTARY INFORMATION:

Regulations Schedule for 1998

On March 20, 1998, the Service published in the **Federal Register** (63 FR 13748) a proposal to amend 50 CFR part 20. The proposal dealt with the establishment of seasons, limits, and other regulations for migratory game birds under § 20.101 through 20.107, 20.109, and 20.110 of subpart K. This document is the second in a series of proposed, supplemental, and final rules for migratory game bird hunting regulations. The Service will publish early-season frameworks in mid-July and late-season frameworks in mid-August. The Service will publish final regulatory alternatives for the 1998–99 duck hunting seasons in mid-July and final regulatory frameworks for early seasons on or about August 21, 1998, and those for late seasons on or about September 26, 1998.

On June 25, 1998, the Service will hold a public hearing in Washington, DC, to review the status of migratory shore and upland game birds and waterfowl hunted during early seasons and the recommended hunting regulations for these species.

On August 6, 1998, the Service will hold a public hearing in Washington, DC, to review the status of waterfowl and recommended hunting regulations for regular waterfowl seasons, and other species and seasons not previously discussed at the June 25 public hearing.

Announcement of Service Migratory Bird Regulations Committee Meetings

The June 25 meeting will review information on the current status of migratory shore and upland game birds and develop 1998–99 migratory game bird regulations recommendations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the Virgin Islands; special September waterfowl seasons in designated States; special sea duck seasons in the Atlantic Flyway; and extended falconry seasons. In addition, the Service will review and discuss preliminary information on the status of waterfowl as it relates to the development of the final regulatory packages for the 1998–99 regular waterfowl seasons. The June 25 meeting will ensure that the Service develops its regulations recommendations with full consultation.

The August 6 meeting will review information on the current status of waterfowl and develop 1998–99 migratory game bird regulations recommendations for regular waterfowl seasons and other species and seasons not previously discussed at the early season meetings. The August 6 meeting will ensure that the Service develops its regulations recommendations with full consultation.

In accordance with Departmental policy, these meetings are open to public observation. Members of the public may submit written comments to the Director on the matters discussed.

Announcement of Flyway Council Meetings

Service representatives will be present at the following meetings of the Flyway Councils:

Atlantic Flyway, July 30–31, Simsbury, Connecticut (Simsbury Inn)
Mississippi Flyway, July 30–31, Alton, Illinois (Holiday Inn)
Central Flyway, July 29–31, Bismarck, North Dakota (Holiday Inn)
Pacific Flyway, July 30–31, Blaine, Washington (The Inn at Semi-ah-moo)

Although agendas are not yet available, these meetings usually commence at 8:30 a.m. on the days indicated.

Review of Public Comments

This supplemental rulemaking contains the proposed regulatory alternatives for the 1998–99 duck hunting seasons. All comments and recommendations received through May 1, 1998, relating to the development of these alternatives are included and addressed herein.

This supplemental rulemaking also describes other recommended changes based on the preliminary proposals published in the March 20, 1998, **Federal Register**. Only those recommendations requiring either new proposals or substantial modification of the preliminary proposals are included here. This supplement does not include recommendations that support or oppose but do not recommend alternatives to the preliminary proposals. The Service will consider these comments later in the regulations-development process. The Service will publish responses to all proposals, written comments, and public-hearing testimony when it develops final frameworks.

The Service seeks additional information and comments on the

recommendations in this supplemental proposed rule. The Service will consider all recommendations and associated comments during development of the final frameworks.

New proposals and modifications to previously described proposals are discussed below. Wherever possible, they are discussed under headings corresponding to the numbered items in the March 20, 1998, **Federal Register**.

1. Ducks

Categories used to discuss issues related to duck harvest management are: (A) Harvest Strategy Considerations, (B) Framework Dates, (C) Season Length, (D) Closed Seasons, (E) Bag Limits, (F) Zones and Split Seasons, and (G) Special Seasons/Species Management. The categories correspond to previous published issues/discussion and only those containing substantial recommendations are discussed below.

A. Harvest Strategy Considerations

Council Recommendations: The Atlantic Flyway Council recommended that the duck hunting packages used for the 1997–98 season be continued for the 1998–99 season.

The Upper-Regulations Committee of the Mississippi Flyway Council recommended that the 1997–98 regulations packages be maintained for the 1998–99 duck season. These consisted of 20-, 30-, 45-, and 60-day seasons, with bag limits ranging from 3 to 6 ducks, including appropriate species restrictions, and frameworks dates from the Saturday nearest October 1 to the Sunday nearest January 20.

The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended that the regulatory packages for the 1997–98 season be continued in 1998–99, with the exception of framework dates (see further discussion in B. Framework Dates).

The Central Flyway Council recommended that the duck hunting packages used for the 1997–98 season be continued for the 1998–99 season.

Service Response: Beginning in 1995, the Service, Flyway Councils, and States introduced a new approach to the regulation of duck harvests, called Adaptive Harvest Management (AHM). AHM should help managers better understand the impacts of regulations on harvest and population levels, thereby improving the ability to provide maximum hunting opportunities consistent with long-term resource maintenance. AHM also is intended to provide a more objective, better informed, and less contentious decision-making process, as well as a formal and coherent framework for addressing controversial harvest-management issues.

An integral part of this harvest-management approach is the cooperative establishment of a set of regulatory alternatives that includes specified season lengths and bag limits for very restrictive, restrictive, moderate, and liberal seasons. The alternatives used last year were the result of extensive discussions with the Flyway Councils and States, as well as involvement by the public. The Service appreciates the Flyway Councils' support for the continued use of those regulatory alternatives for the 1998–99 duck hunting season.

For the 1998–99 regular duck hunting season, the Service proposes the four regulatory alternatives detailed in the accompanying table. Alternatives are specified for each Flyway and are designated as "VERY RES" for the very restrictive, "RES" for the restrictive, "MOD" for the moderate, and "LIB" for the liberal alternative. The Service will publish final regulatory alternatives in July and propose a specific regulatory alternative when survey data on waterfowl population and habitat status are available. Public comments will be accepted until July 1, 1998, and should be sent to the address under the caption **ADDRESSES**.

B. Framework Dates

Council Recommendations: The Atlantic Flyway Council recommended no change to the current framework dates, believing that extensions would be premature without knowing the potential harvest impacts, which could reduce the frequency of liberal regulations and would reduce the likelihood that eastern mallards will be fully incorporated into AHM this year.

The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended the Service allow States to choose a framework closing date as late as January 31 with a 10% penalty in days.

The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended no change in existing framework dates. The Committee also recommended that if the Service were to offer States the opportunity to extend frameworks, the extension should be coupled with a commensurate reduction in season length and/or bag limits in the participating States to offset the predicted increase in harvest.

The Central Flyway Council recommended maintaining the current opening and closing framework dates adopted under AHM. However, at some future date, when the packages are reviewed for modification, the Council recommended that the framework dates issue should be cooperatively dealt with by all Flyways in seeking an agreement for equitable harvest opportunity.

The Pacific Flyway Council recommended maintaining the current opening and closing duck season framework dates adopted under AHM for the near future.

Service Response: In 1995, the Service established framework opening and closing dates of the Saturday nearest October 1 to the Sunday nearest January 20 for the Pacific, Central, and Mississippi Flyways, and fixed dates of October 1 to January 20 for the Atlantic Flyway (60 FR 50045). The Service maintained these framework dates for 1996 and 1997. In recent years, the Service has been requested by the Lower-Region Regulations Committee of the Mississippi Flyway Council (Alabama, Arkansas, Kentucky, Louisiana, Mississippi, and Tennessee) to consider a closing date of January 31. In previous **Federal Register**s (March 20, 1998 [63 FR 13751] and July 23, 1997 [62 FR 39718]), the Service maintained that considerations for extending the framework dates must address the potential increase in harvest, redistribution of harvest within and among Flyways, and the potential physiological impacts to birds later in the winter. Because of the concerns that these proposals would increase harvest and reallocate the harvest, the Service maintained the traditional closing date.

In the Interior Appropriations Committee Report for FY 1998, the Service was directed to analyze existing information and clarify potential impacts of framework extensions. The Service complied with this directive and believes that the available scientific data suggest clearly that framework extensions will increase the harvest of most duck species, although the magnitude of the increases cannot be estimated precisely. Based on these results, large-scale extensions of framework dates, without appropriate mitigation in harvest, could decrease the frequency of years with liberal regulations, while increasing the frequency of years with more restrictive regulations. The Service's report was peer-reviewed and made available for public comment before being submitted to the Congress (copies are available from the Service at the address indicated under **ADDRESSES**).

The Service believes that any extension of the framework closing date must be accompanied by a commensurate reduction in season length to offset the expected increase in

harvest. Offsetting the expected harvest increase would protect the migratory bird resource and address concerns about any redistribution of the harvest within or among Flyways. The Service also believes a change in the closing date can be considered only if the number of States permitted the framework extension is limited (only those few States within the Lower Region of the Mississippi Flyway), and if the reduction in season length is sufficient to offset the expected increase in harvest.

In response to a portion of the hunting public in the southern States of the Mississippi Flyway that is not satisfied with the existing regulatory alternatives, the Service proposes to offer an extension of the framework closing date to no later than January 31 only for those States in the Lower Region of the Mississippi Flyway (AL, AR, KY, LA, MS, TN), provided it can be determined that no net increase in harvest or redistribution of hunting opportunity/harvest occurs within and among Flyways. Any extension of the closing date will be offset with a reduction in season length sufficient to offset any expected harvest increase in those States. The Service's goal is to ensure that non-participating States will not be negatively affected as a result of States selecting this option.

After any State proposals received are reviewed and analyzed, the Service will approve extended closing dates in those States where the Service finds adequate evidence that increased harvest levels will be offset by proposed reductions in season length. These decisions will be announced when the Service publishes the final regulatory alternatives for the 1998–99 duck hunting seasons in mid-July.

Therefore, States requesting the extension in the closing date are to provide the Service (by June 15, 1998) the scientific analysis necessary to determine the nature of a commensurate reduction in season length. The response variable of primary interest is seasonal harvest or harvest rate (proportion of the duck population killed by hunters) of mallards, but effects on other important species (e.g., wood ducks) should be documented as well. Although a well-designed experiment of framework extensions has never been conducted, there is some information related to this issue as a result of a closing date of January 31 during 1979–84 in the State of Mississippi. Therefore, it will be necessary to conduct a retrospective analysis, in which changes in harvest between years with and without the framework extension are determined, both in Mississippi and in neighboring States.

The Service acknowledges that there may be more than one legitimate method for conducting this analysis. In particular, the estimated effect of a January 31 framework extension depends in part on the specification of study "controls" (i.e., the selection of years without framework extensions and the neighboring States for comparison with the years of framework extensions in Mississippi). Therefore, supporting rationale for these selections should accompany any analysis. In its report to Congress (January 1998), the Service suggested that mallard harvest could be expected to increase by 33%, but this estimate has a relatively large margin of error. Thus, the Service is interested in any analysis that might improve either the precision or accuracy of this estimate. Also, it should be noted that there is not necessarily a one-to-one relationship between the expected proportional increase in harvest and the proportional decrease in season length needed to offset the harvest increase. This assessment will require an examination of the relationship between season length and cumulative harvest, using information from Federal or State harvest surveys.

If a framework extension is ultimately permitted, all States selecting seasons extending beyond the traditional closing date would have the same closing date and proportional reduction in season length. The later closing date would be available only for the years in which the moderate or liberal alternative is selected by the Service. Any State choosing the option of a later closing date must maintain that closing date and the appropriate season-length reduction for a five-year period beginning in the 1998–99 season, unless the Service determines that this option has negative impacts on the resource or distribution of the harvest, or something other than the moderate or liberal regulatory alternative is chosen. During the five-year period, the Service and affected States will annually examine harvest and other monitoring information to determine if adjustments in the season length or framework date are necessary to ensure no increase in, or change in distribution of, the harvest. Should information suggest that the health of duck populations or harvest distribution has been affected by the proposed extension, the Service will consider withdrawing the option of a January 31 closing date.

The Service acknowledges the recent expressions of intent by the Flyways to retain the current framework dates, thus helping to maintain traditional distributions of hunting opportunities within and among Flyways. The Service also recognizes that any future consideration of framework extensions, beyond what has been proposed here, will likely require a comprehensive review of the distribution of hunting opportunity and harvest within and among Flyways. This review will be extremely difficult and will represent a significant resource commitment on the part of the Service and the Flyways. In light of these considerations, it is the Service's desire to not entertain additional changes to the opening and closing framework dates until the regulatory packages are reviewed for modification at some future date.

F. Zones and Split Seasons

Written Comments: The Ohio Division of Wildlife requested elimination of the Pymatuning Waterfowl Hunting Zone in Ohio and incorporation of the affected area into the North Zone beginning in the 1998–99 season.

Service Response: In the past, hunting seasons in that portion of Ohio had to be the same as those selected by Pennsylvania for that portion of Pennsylvania. Beginning this year, the Pymatuning Area will no longer be included in the Federal waterfowl hunting frameworks as a separate area, and will be considered part of Ohio's North Zone.

G. Special Seasons/Species Management

iii. September Teal Seasons

Council Recommendations: The Atlantic Flyway Council recommended the establishment of an experimental September teal season option in the Atlantic Flyway. States deriving more than 80 percent of their teal harvest from mid-continent populations (Delaware, Georgia, Florida, Maryland, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia) could hold a 9-day season between September 1 and 30 with a daily bag limit of 4 teal.

The Central Flyway Council recommended an experimental September teal season harvest strategy in the nonproduction States of the Central Flyway based on the May breeding population index (BPI) of blue-winged teal. When the BPI of blue-winged teal is 4.7 million or greater, the Council's recommended harvest strategy would consist of an additional 7 days of hunting (for a total of 16 days). When the BPI of blue-winged teal is below 4.7 million but remains at or above 3.3 million, the Council's recommended harvest strategy would maintain the

current 9-day season. When the BPI of blue-winged teal is below 3.3 million, the Council's recommended harvest strategy would consider closure of September teal seasons.

iv. September Teal/Wood Duck Seasons

Council Recommendations: The Atlantic Flyway Council recommended the continuation of the Florida September wood duck/teal season on an operational basis.

The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended that the experimental September teal/wood duck seasons in Kentucky and Tennessee be continued in 1998 with no changes from the 1997 season. The Lower-Region Regulations Committee further recommended that if such seasons are suspended, all non-production States should be permitted to take up to 5 days of the regular season in September.

v. Youth Hunt

Council Recommendations: The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that a special one-day youth waterfowl season include the harvesting of geese.

The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended that a special 2-day youth waterfowl season include the harvesting of geese.

The Central Flyway Council recommended expansion of the special youth waterfowl hunt to 2 consecutive days with a legal bag that includes geese.

The Pacific Flyway Council recommended continuation of the one-day youth hunt that allows States to select outside the general season and frameworks. The Council further recommended the addition of 1 goose to the bag limit.

2. Sea Ducks

Council Recommendations: The Atlantic Flyway Council recommended that the Service clarify regulatory language concerning bag limits for sea ducks so that bag limits for sea ducks during the regular season cannot exceed bag limits for sea ducks established in the special sea duck season, whether inside or outside the special sea duck area.

4. Canada Geese

A. Special Seasons

Council Recommendations: The Atlantic Flyway Council recommended that the closing date of the September goose season around Montezuma National Wildlife Refuge be extended from September 15 to 25.

The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that the status of the special late Canada goose season in the Southern Michigan Goose Management Unit in Michigan be changed from experimental to non-experimental.

The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended that the Service reevaluate criteria for special Canada goose seasons (early and late), particularly as they relate to the cumulative harvest of migrant Canada geese from populations of special concern, to insure that the criteria are consistent with management efforts to increase and/or maintain migrant populations of special concern to/at planned objective levels.

The Pacific Flyway Council recommended the 1998 September season for the Pacific Population Canada geese remain unchanged from the 1997 season, with the exception of increase the number of regulated permits from 100 to 400 in Humboldt County, California.

B. Regular Seasons

Council Recommendations: The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that the 1998 regular goose season opening date be as early as September 26 in Michigan's Upper Peninsula and September 19 in Wisconsin.

7. Snow and Ross's (Light) Geese

Council Recommendations: The Atlantic Flyway Council recommended extension of the shooting hours to one-half hour after sunset at times when other waterfowl season are closed within an area.

The Central Flyway Council recommended the following regulation changes for light-goose hunting in the Central Flyway for 1998 and beyond:

For the 1998–99 regular season, no bag or possession limits and unlimited zones and splits in the season.

During the 1998–99 season, the establishment of a special "conservation hunt" consisting of no bag and possession limits; legalized electronic callers, baiting, unplugged shotguns, live decoys and rallying/hazing; elimination of tagging requirements; and the extension of shooting hours until one-half hour after sunset. "Conservation Hunt" provisions would only be implemented in those areas and time periods in which other firearms waterfowl season are closed, including split season portions of the regular waterfowl seasons.

Beginning with the 1999–2000 season, the Council recommends allowing "conservation hunts" during other open waterfowl seasons.

9. Sandhill Cranes

Council Recommendations: The Central and Pacific Flyway Councils recommended that the Rocky Mountain Population (RMP) greater sandhill crane hunt in Wyoming's Area 6 (Park and Bighorn Counties) become operational in 1998. The Councils further recommended that the third year of monitoring and data collection for the experimental hunt be waived.

16. Mourning Doves

Written Comments: The Louisiana Department of Wildlife and Fisheries requested an extension of the framework closing date from January 15 to January 20.

18. Alaska

Council Recommendations: The Pacific Flyway Council recommended an increase in Alaska's Canada goose daily bag and possession limit from 1 and 2 to 3 and 6, respectively, within overall dark goose bag and possession limits of 4 and 8 in Alaska Game Management Subunit (GMU) 9(E) (Alaska Peninsula) and Unit 18 (Y–K Delta).

The Pacific Flyway Council recommended an archery-only Canada goose hunt on Middleton Island, Alaska (GMU 6); by registration permit only, with no more than 10 permits; mandatory goose identification class, check-in, and check-out; season dates of September 28 to December 16; bag and possession limit of 1; season to close if incidental harvest includes 5 dusky Canada geese.

Public Comment Invited

The Service intends that adopted final rules be as responsive as possible to all concerned interests, and therefore desires to obtain the comments and suggestions of the public, other concerned governmental agencies, non-governmental organizations, and other private interests on these proposals. Such comments, and any additional information received, may lead to final regulations that differ from these proposals.

Special circumstances are involved in the establishment of these regulations which limit the amount of time that the Service can allow for public comment. Specifically, two considerations compress the time in which the rulemaking process must operate: (1) the need to establish final rules at a point early enough in the summer to allow affected State agencies to appropriately

adjust their licensing and regulatory mechanisms; and (2) the unavailability, before mid-June, of specific, reliable data on this year's status of some waterfowl and migratory shore and upland game bird populations. Therefore, the Service believes that to allow comment periods past the dates specified is contrary to the public interest.

Comment Procedure

The policy of the Department of the Interior, whenever practical, affords the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may participate by submitting written comments to the Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634–ARLSQ, 1849 C Street, NW., Washington, DC 20240. The public may inspect comments during normal business hours at the Service's office in room 634, Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia. The Service will consider all relevant comments received. The Service will attempt to acknowledge received comments, but substantive response to individual comments may not be provided.

NEPA Consideration

NEPA considerations are covered by the programmatic document, "Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14)," filed with EPA on June 9, 1988. The Service published a Notice of Availability in the June 16, 1988, **Federal Register** (53 FR 22582). The Service published its Record of Decision on August 18, 1988 (53 FR 31341). Copies of these documents are available from the Service at the address indicated under the caption **ADDRESSES.**

Endangered Species Act Consideration

As in the past, hunting regulations are designed, among other things, to remove or alleviate chances of conflict between seasons for migratory game birds and the protection and conservation of endangered and threatened species. Consultations are presently under way to ensure that actions resulting from these regulatory proposals will not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. It is possible that the findings from the consultations, which will be included in a biological opinion, may cause modification of some regulatory measures proposed in this document. The final frameworks will reflect any modifications. The Service's biological opinions resulting from its consultation under Section 7 are public documents and will be available for public inspection in the Division of Endangered Species and the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia.

Regulatory Flexibility Act; Executive Order (E.O.) 12866 and the Paperwork Reduction Act

In the **Federal Register** dated March 20, 1998, the Service reported measures it had undertaken to comply with requirements of the Regulatory Flexibility Act and the Executive Order. These included preparing a Small Entity Flexibility Analysis (Analysis) in 1996 to document the significant beneficial economic effect on a substantial number of small entities. The Analysis estimated that migratory bird hunters would spend between $254 and $592 million at small businesses in 1996. Copies of the Analysis are available upon request from the Office of Migratory Bird Management. The Service is currently updating the 1996 Analysis with information from the 1996 National Hunting and Fishing Survey.

This rule was not subject to review by the Office of Management and Budget under E.O. 12866.

The Service examined these proposed regulations under the Paperwork Reduction Act of 1995 and found no information collection requirements.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

The rules that eventually will be promulgated for the 1998–99 hunting season are authorized under 16 U.S.C. 703–712 and 16 U.S.C. 742 a–j.

Dated: May 21, 1998.

Donald J. Barry,

Acting Assistant Secretary for Fish and Wildlife and Parks.

(a) In the States of Alabama, Arkansas, Kentucky, Louisiana, Mississippi, and Tennessee, the framework closing date is January 31 under the moderate and liberal options. Season length will be determined after the submission of a proposal and further discussions with those States wishing to choose this option.

(b) In the High Plains Mallard Management Unit, all regulations would be the same as the remainder of the Central Flyway with the exception of season length. Additional days would be allowed under the various options as follows: very restrictive - 8, restrictive - 12, moderate and liberal - 23. Under all options, additional days must be on or after the Saturday nearest December 10.

(c) In the Columbia Basin Mallard Mangement Unit, all regulations would be the same as the remainder of the Pacific Flyway, with the exception of season length. Under all options except the liberal option, an additional 7 days would be allowed.

(d) In Alaska, framework dates, bag limits, and season length would be different than the remainder of the Pacific Flyway. The bag limit would be 5-7 under the very restrictive and restrictive options, and 8-10 under the moderate and liberal options. There would be no restrictions on pintails, and canvasback limits would follow those for the remainder of the Pacific Flyway. Under all options, season length would be 107 days and framework dates would be Sep 1 - Jan 26.

Title 3—

The President

Notice of May 28, 1998

Continuation of Emergency With Respect to the Federal Republic of Yugoslavia (Serbia and Montenegro) and the Bosnian Serbs

On May 30, 1992, by Executive Order 12808, President Bush declared a national emergency to deal with the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States constituted by the actions and policies of the Governments of Serbia and Montenegro, blocking all property and interests in property of those Governments. President Bush took additional measures to prohibit trade and other transactions with the Federal Republic of Yugoslavia (Serbia and Montenegro) by Executive Order 12810 and 12831, issued on June 5, 1992, and January 15, 1993, respectively. On April 25, 1993, I issued Executive Order 12846, blocking the property and interests in property of all commercial, industrial, or public utility undertakings or entities organized or located in the Federal Republic of Yugoslavia (Serbia and Montenegro), and prohibiting trade-related transactions by United States persons involving those areas of Bosnia and Herzegovina controlled by Bosnian Serb forces and the United Nations Protected Areas in the Republic of Croatia. On October 25, 1994, because of the actions and policies of the Bosnian Serbs, I expanded the scope of the national emergency by issuing Executive Order 12934 to block the property of the Bosnian Serb forces and the authorities in the territory that they control within Bosnia and Herzegovina, as well as the property of any entity organized or located in, or controlled by any person in, or resident in, those areas.

On December 27, 1995, I issued Presidential Determination No. 96–7, directing the Secretary of the Treasury, *inter alia*, to suspend the application of sanctions imposed on the Federal Republic of Yugoslavia (Serbia and Montenegro) pursuant to the above-referenced Executive orders and to continue to block property previously blocked until provision is made to address claims or encumbrances, including the claims of the other successor states of the former Yugoslavia. This sanctions relief, in conformity with United Nations Security Council Resolution 1022 of November 22, 1995 (hereinafter the "Resolution"), was an essential factor motivating Serbia and Montenegro's acceptance of the General Framework Agreement for Peace in Bosnia and Herzegovina initialed by the parties in Dayton on November 21, 1995, and signed in Paris on December 14, 1995 (hereinafter the "Peace Agreement"). The sanctions imposed on the Federal Republic of Yugoslavia (Serbia and Montenegro) were accordingly suspended prospectively, effective January 16, 1996. Sanctions imposed on the Bosnian Serb forces and authorities and on the territory that they control within Bosnia and Herzegovina were subsequently suspended prospectively, effective May 10, 1996, also in conformity with the Peace Agreement and the Resolution. Sanctions against both the Federal Republic of Yugoslavia (Serbia and Montenegro) and the Bosnian Serbs were subsequently terminated by United Nations Security Council Resolution 1074 of October 1, 1996. This termination, however, did not end the requirement of the Resolution that blocked funds and assets that are subject to claims and encumbrances remain blocked, until unblocked in accordance with applicable law.

In the last year, further substantial progress has been achieved to bring about a settlement of the conflict in the former Yugoslavia acceptable to the parties. Another set of elections occurred in Bosnia and Herzegovina, as provided for in the Peace Agreement, and the Bosnian Serb forces have continued to respect the zones of separation as provided in the Peace Agreement. The ultimate disposition of the various remaining categories of blocked assets is being addressed on a case-by-case basis.

Until the status of all remaining blocked property is resolved, the Peace Agreement implemented, and the terms of the Resolution met, the national emergency declared on May 30, 1992, as expanded in scope on October 25, 1994, and the measures adopted pursuant thereto to deal with that emergency must continue beyond May 30, 1998.

Therefore, in accordance with section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)), I am continuing the national emergency with respect to the Federal Republic of Yugoslavia (Serbia and Montenegro) and the Bosnian Serb forces and those areas of Bosnia and Herzegovina under the control of the Bosnian Serb forces. This notice shall be published in the **Federal Register** and transmitted to the Congress.

William J. Clinton

THE WHITE HOUSE,
May 28, 1998.

The United States Government Manual 1997/1998

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to contact about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix B, which lists the agencies and functions of the Federal Government abolished, transferred, or renamed subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue includes a Table of Contents, lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements. Indexes are published quarterly.

Published by the Office of the Federal Register, National Archives and Records Administration.
